1. A meeting is valid and authorized to make binding decisions if attended by at least half (1/2) of the total Committee members, including at least one (1) Independent Commissioner and one (1) Executive Officer responsible for human resources or one (1) representative of the Company's employees;

2. Recommendations formulated in the Committee Meeting are based on deliberation to reach a consensus. If consensus is not achieved, decisions are made by majority vote;
  3. Each Committee member has one (1) vote and an additional one (1) vote for each Committee member they lawfully represent in the meeting;
  4. Committee members who are unable to attend may submit their opinions and cast their votes in writing, signed, and delivered to the Chairperson of the Committee or the Commissioner leading the meeting. Such votes are considered valid and included in the decision-making process;
  5. If the number of affirmative and dissenting votes is equal, the decision is postponed and re-evaluated. If, after reevaluation, the votes remain tied, the final decision is determined by the meeting leader;
  6. The meeting leader presents conclusions and decisions at the end of each meeting;
  7. All meeting decisions are binding for all Committee members;
  8. The Committee may also make valid decisions without holding a meeting, provided that all serving Board of Commissioners members give their written approval by signing the proposed decision;
  9. Any Committee member who has a personal interest, whether directly or indirectly, in a transaction or contract involving the Company must declare the nature of their interest in a Committee meeting and is not entitled to vote on matters related to the transaction or contract.
4. If any Board of Commissioners or Board of Directors member does not sign the minutes as stated in points 2 and 3, they must provide written reasons in a separate letter attached to the minutes;
  5. Any dissenting opinions during the meeting must be clearly recorded in the minutes along with the reasons for the disagreement;
  6. The minutes serve as legal evidence of the decisions made during the meeting;
  7. The Secretariat of the Board of Commissioners is responsible for properly documenting the minutes of the meetings.

**Follow-up on Meeting Results**

1. The decisions made in the Committee meeting are communicated to the Board of Commissioners, containing opinions, recommendations, or suggestions to assist the execution of the Board's duties;
2. The Committee's memorandum in point one above may include drafts of outgoing letters from the Board of Commissioners and/or the Committee to the Board of Directors;
3. The Committee's memorandum must be signed by the Chairperson and all Committee members;
4. Outgoing letters from the Board of Commissioners must follow the communication procedures established by the Board of Commissioners, while letters from the Committee must be signed by the Chairperson and the Committee members from the Board of Commissioners;
5. All outgoing letters from the Board of Commissioners and/or the Committee must be recorded in the Letter Register and processed by the Secretariat of the Board of Commissioners and stored by the Corporate Secretary Division.

**Minutes of Meeting**

1. The results of the Committee meetings must be documented in the minutes of the meeting;
2. The minutes must be signed by all Committee members present and distributed to all Committee members;
3. The minutes must be prepared by an Independent Party member of the Committee who attended the meeting;

#### Income of The Nomination and Remuneration Committee

Remuneration for Board of Commissioners members who are also Committee members is included in the Board of Commissioners' honorarium, and there is no separate honorarium for each Committee member. Honorarium for Committee members from independent parties (Non-Commissioners) is determined by the Board of Commissioners, with a maximum of 20% of the Main Director's salary, and no other income is provided apart from the honorarium. This is in accordance with the provisions of the Minister of BUMN Regulation Number PER-3/MBU/03/2023 dated March 20, 2023, concerning Organs and Human Resources of State-Owned Enterprises.

## Work Program and Implementation of Duties of The Nomination and Remuneration Committee In 2025

Throughout 2025, the Nomination and Remuneration Committee carried out the following work programs:

- a. Nomination Function:
  - 1) Change of management of the Subsidiary Company
    - a) Change of management of the Subsidiary Company – BRILife.

  - 3) Review of the Company's remuneration policy.
- c. Internal Matters of the Board of Commissioners
  - 1) Dismissal of the Working Partner of the Board of Commissioners Committee.

- 2) Update on candidates for the Independent Party Committee of the Board of Commissioners.
- 3) Replacement of the Board of Commissioners' staff.
- 4) Extension of the working contract of non-Board of Commissioners committee members of BRI.
- 5) Replacement of the Secretary to the Board of Commissioners of BRI.
- 6) Changes in the composition of BRI Committees.

## Board of Directors Succession Policy

The company's Board of Directors succession is carried out based on the company's long-term objectives, considering various aspects, including:

1. Integrity
2. Background in the field of work,
3. Work experience and
4. Leadership.

The principles for implementing Director Succession are based on good corporate governance to ensure business continuity and the company's long-term goals. BRI has a talent pool candidate policy to select potential employees for leadership positions within the Company and other state-owned companies. In addition, the Company is assisted by independent parties to periodically evaluate executive officers and officers below them to identify potential successors, so that leadership and character remain suitable and in accordance with the capacity required by the Company.

The selected candidates are then proposed to the Nomination and Remuneration Committee for the nomination procedure for the Board of Directors, based on POJK Regulation No.33/POJK.04/2014 and the Minister of State-Owned Enterprises Regulation No. PER-3/MBU/03/2023 of 2023 about the Regulation of the Minister of State-Owned Enterprises concerning the Organs and Human Resources of State-Owned Enterprises.

## Risk Management Monitoring Committee

The Risk Management Monitoring Committee (RMOC) is one of the Committees under the Board of Commissioners whose duties and responsibilities are to assist the Board of Commissioners in carrying out evaluations and ensuring the implementation of risk management in the Company.

## Basis for Establishing the Risk Management Monitoring Committee

1. OJK Regulation no. 17/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
2. OJK Regulation (POJK) Number 17 of 2023 dated September 14, 2023 concerning Implementation of Governance for Commercial Banks.

3. Minister of State-Owned Enterprises Regulation No. PER-2/ MBU/03/2023 dated March 3, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.
4. Minister of State-Owned Enterprises Regulation No. PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises.
5. Articles of Association of PT Bank Rakyat Indonesia (Persero) Tbk. along with the changes.

## Risk Management Monitoring Committee Charter

The Risk Management Monitoring Committee has Work Guidelines outlined in the Board of Commissioners' decree Number 08- KOM/05/2024 dated May 28, 2024, which contains the following matters:

Chapter	Discussion
Chapter I	Introduction 1.1 Legal Basis 1.2 General Definitions
Chapter II	Corporate Values, Organizational Structure, and Code of Ethics 1.1 Corporate Values 1.2 Organization Structure, Membership, and Code of Ethics
Chapter III	Work Guidelines and Regulations of the Risk Management Monitoring Committee 1.1 Objectives, Authority, Duties, and Responsibilities 1.2 Meeting and Governance and Decision Making 1.3 Committee reports and Evaluation 1.4 Communication Protocol 1.5 Correspondence Mechanism
Chapter IV	Closing

## Appointment and Dismissal of The Risk Management Monitoring Committee

The Risk Management Monitoring Committee is appointed and dismissed by the Board of Commissioners and is accountable to them. During the year 2025, the positions of Chairperson and Members of the Risk Management Monitoring Committee were established through the following:

1. Director's Decree Number 1789-DIR/HBS/09/2024, dated September 09, 2024 regarding the Appointment of the Chairperson and Members of the Risk Management Monitoring Committee of PT Bank Rakyat Indonesia (Persero) Tbk.
2. Director's Decree Number 1721-DIR/HBS/04/2025, dated April 17, 2025 regarding the Appointment of the Chairperson and Members of the Risk Management Monitoring Committee of PT Bank Rakyat Indonesia (Persero) Tbk.
3. Director's Decree Number 5546-DIR/HBS/11/2025 dated November 3, 2025 regarding the Appointment of the Chairperson and Members of the Risk Management Monitoring Committee of PT Bank Rakyat Indonesia (Persero) Tbk.

## Duties and Responsibilities of Risk Management Monitoring Committee

The Risk Management Monitoring Committee supports the Board of Commissioners in fulfilling its duties by evaluating and ensuring that the Company's risk management procedures and methodologies are adequate, so that the Company's activities remain within acceptable risk limits and provide benefits to the Company.

The Risk Management Monitoring Committee is tasked with assisting the Board of Commissioners in carrying out supervisory duties related to:

1. Periodically review and analyze risk management policy, providing recommendations to the Board of Commissioners for adjusting and improving the risk management framework and approach.
2. Evaluate and analyze the company's quarterly risk profile report, and provide advice and recommendations to the Board of Commissioners for necessary enhancements and improvements.
3. Monitor and evaluate the adequacy of the identification, measurement, monitoring, control, and risk management information system of the Company and provide advice and recommendations to the Board of Commissioners to improve the effectiveness and quality of the Company's risk management implementation.

4. Conduct supervision, evaluate the implementation of the duties of the Risk Management Committee and the Risk Management Division, and provide advice and/or recommendations to the Board of Commissioners to improve the effectiveness of the implementation of the duties of the Risk Management Committee and the Risk Management Division. Evaluation of the implementation of the duties of the Risk Management Committee and the Risk Management Division is carried out at least 1 (one) time in 1 (one) year.
  5. Evaluate and analyze the implementation of risk control for the Company's fraud at least once per semester. Provide suggestions and recommendations to the Board of Commissioners to improve the implementation of the Company's Anti-Fraud Strategy.
  6. Evaluate and analyze the implementation of the Company's Anti-Money Laundering, Counter-Terrorism Financing, and Prevention of Financing of Proliferation of Weapons Of Mass Destruction (AML, CFT, and PFWMD) programs at least semiannually and provide suggestions and/or recommendations to the Board of Commissioners to improve the quality of the implementation of the programs.
  7. Evaluate and analyze the implementation of risk management in the use of Information Technology Plans, Strategic Information Technology, and Company policies related to the use of Information Technology, and provide advice and recommendations to the Board of Commissioners regarding the implementation of risk management in the use of Technology Information by the Company.
  8. Evaluate and analyze the Bank's Soundness Level every semester and provide suggestions and/or recommendations to the Board of Commissioners in order to maintain the Bank's Soundness Level.
  9. Evaluate and analyze documents for providing funds for related parties proposed by the Board of Directors, which require approval from the Board of Commissioners.
  10. Provide opinions and recommendations regarding loan facilities above a certain amount that require consultation with the Board of Commissioners.
  11. Carry out other duties and responsibilities assigned by the Board of Commissioners.
3. Provide opinions and recommendations to the Board of Commissioners for the improvement of risk management in the Company.
  4. Provide opinions and recommendations to the Board of Commissioners for the improvement of the effectiveness of the Risk Management Unit.
  5. Provide opinions and recommendations to the Board of Commissioners to improve the quality of implementation of the Company's Anti-Money Laundering, Prevention of Terrorism Financing, and Prevention of Proliferation of Mass Destruction Weapons programs.
  6. Provide opinions and recommendations to the Board of Commissioners on the implementation of risk management in the use of Information Technology by the Company.
  7. Provide opinions and recommendations to the Board of Commissioners to maintain and improve the Company's Soundness Level.
  8. Carry out other authorities granted by the Board of Commissioners as long as they do not conflict with applicable laws and regulations.

### Term of Office of The Risk Management Monitoring Committee

The term of office of members of the Risk Management Monitoring Committee may not be longer than the term of office of the Board of Commissioners as stipulated in the Company's Articles of Association, and may be re-elected only for the next 1 (one) period, without reducing the right of the Board of Commissioners to dismiss at any time.

### Structure, Membership, and Expertise of The Risk Management Monitoring Committee

The Risk Management Monitoring Committee is under the Board of Commissioners' coordination and is structurally responsible to the Board of Commissioners. The structure and membership of the Risk Management Monitoring Committee are regulated as follows.

1. Committee members consist of Independent Commissioners and Independent Parties.
2. The Committee is chaired by an Independent Commissioner who may also serve as a member.
3. The Committee members consist of at least:
  - a. An Independent Commissioner.
  - b. An Independent party who has expertise in the field of risk management proven by having a risk management certificate and a competency certificate that supports the implementation of the committee's functions and responsibilities; and
  - c. An Independent Party who has expertise in the financial field.

### Authority of Risk Management Monitoring Committee

The Board of Commissioners grants authority to the Committee within the scope of the Committee's responsibilities to:

1. Obtain relevant information related to duties implementation from the Company's internal and or external parties.
2. Obtain inputs or recommendations from external parties related to its duties.

4. Independent Parties must meet the following requirements:
  - a. Do not receive compensation from the Company and its subsidiaries or affiliates, except for wages, salaries, and other facilities received in connection with the duties carried out as a member of the Risk Management Monitoring Committee.
  - b. Do not have family or financial relationship with the Board of Directors and Board of Commissioners.
  - c. Do not have dual positions in the Company and other companies affiliated with the Company.
  - d. Do not have duties, responsibilities, and authority that may cause a conflict of interest.
  - e. May not serve concurrently as a member of the Board of Commissioners, Secretary to the Board of Commissioners, Staff to the Secretary to the Board of Commissioners and member of the Committee at an SOEs or other company; and
  - f. Do not conflict with other provisions and laws.
5. Members of the Board of Directors are prohibited from becoming members of the Committee.
6. Former members of the Board of Directors or Executive Officers of the Company or parties who have a relationship with the Company that can affect their ability to act independently cannot become Independent Parties as members of the Committee before undergoing a cooling off period of 6 (six) months. The cooling off period provisions to become Independent Parties do not apply to former members of the Board of Directors or Executive Officers whose duties are only to carry out supervisory functions for at least 6 (six) months.

The structure, membership, and expertise of the Risk Management Monitoring Committee can be seen in the table below.

## Risk Management Monitoring Committee Meeting

### Risk Management Monitoring Committee Meeting Policy

The Committee meeting arrangements are set as follows.

#### Meeting Organizing Mechanism

1. Committee meetings must be held periodically at least 1 (one) time in 3 (three) months.
2. Committee meetings may be held at any time at the request of 1 (one) or several Committee members by stating the matters to be discussed.
3. Committee meetings are held at the Company's domicile, or another location within the territory of the Republic of Indonesia or at the Company's place of business activities as determined by the Committee.
4. Committee meetings may be held online via teleconference or other electronic media that allows all participants to communicate and interact in Committee meetings.
5. Committee meeting materials are available and delivered to meeting participants no later than 5 (five) working days before the meeting is held, unless the meeting is held outside the meeting schedule, in which the meeting materials can be delivered before the meeting is held.
6. If necessary, the Committee may independently hold a Technical Meeting to conduct technical in-depth studies on the material to be discussed in the Committee Meeting by inviting related parties.

#### Meeting Quorum

A Committee meeting is valid if it is attended and/or represented by more than 1/2 (one-half) of the total number of Committee members.

#### Meeting participants

1. Each member of the Committee is required to attend at least 75% (seventy five percent) of meetings in one year.
2. Committee meetings may invite other Committees, Directors, Officers, and Employees of the Company or invitees from outside the Company.
3. The Committee Meeting may invite the Management of Subsidiaries as proposed through the Integrated Governance Committee.

#### Meeting Chairman

1. The Committee meeting is chaired by the Committee Chairman
2. In case the Committee Chairperson is absent or prevented from attending, which does not need to be proven to any party, the Committee meeting will be led by a Committee member from the Board of Commissioners.

#### Meeting Call

1. The summons for the Committee meeting is made by the Committee Chairman.
2. In case the Chairman of the Committee is unable to attend, which does not need to be proven to anyone, the summons for the meeting may be made by a member of the Committee who is a member of the Board of Commissioners.

3. The invitation to a Committee meeting must be submitted in writing, stating the agenda/event, date, time and place of the meeting.
4. In the event of a special situation or extraordinary conditions, the Committee may convene a meeting at any time (less than 1 working day) either online or offline.

#### Meeting Decision

1. A meeting is valid and has the right to make binding decisions if it is attended by at least 1/2 (one half) of the committee members.
2. Recommendation decisions formulated in the Committee Meeting are taken based on deliberation to reach consensus. In the event that deliberation to reach consensus does not occur, decision making is carried out based on majority votes.
3. Each Committee member has 1 (one) vote and an additional 1 (one) vote for each Committee member he/she legally represents at the meeting.
4. Committee members who are unable to attend may submit opinions and provide voting rights in writing, signed, and submitted to the Committee Chairperson or Commissioner leading the meeting. Such voting rights are considered valid and become part of the decision-making process at the meeting.
5. If the number of votes for and against is the same, then the decision making is postponed and reviewed. If after review, the number of votes agreeing and disagreeing is the same, then the decision making will be determined by the meeting leader.
6. The meeting leader conveys conclusions and decisions at the end of each meeting.
7. Every meeting decision is binding on all Committee members.
8. The Committee may also take valid decisions without holding a meeting, provided that all members of the Board of Commissioners who are in office give their approval by signing in writing regarding the proposed decision.
9. Each member of the Committee who personally, in any way, directly or indirectly, has an interest in a transaction, contract or proposed contract to which the Company is a party must declare the nature of his interest at a Committee meeting and shall not be entitled to participate in voting on matters relating to such transaction or contract.

#### Minutes of Meetings

1. The results of the Committee meetings must be stated in the minutes of the meeting.

2. The minutes of the Committee meeting are valid evidence of the decisions taken at the meeting in question.
3. The minutes of the meeting are prepared by the Committee members who are Independent Parties who are present at the meeting.
4. The minutes of the Committee meeting must be signed by all members of the Committee present and submitted to all members of the Committee.
5. In case a Committee member does not sign the meeting results, the person concerned is required to state the reasons in writing in a separate letter attached to the meeting minutes.
6. If there is a difference of opinion (dissenting opinion) at the meeting, it must be stated clearly in the minutes of the meeting and accompanied by the reasons for the difference of opinion.
7. The minutes of the meeting are well documented by the Secretariat of the Board of Commissioners.

#### Follow-up to Meeting Results

1. The results of the Committee meeting decisions are conveyed in the Committee's Service Note to the Board of Commissioners which contains opinions or recommendations or suggestions in order to assist in carrying out the duties of the Board of Commissioners.
2. The Committee's Service Note in point one above may be accompanied by a draft of an outgoing letter from the Board of Commissioners and/or an outgoing letter from the Committee to the Board of Directors or Officials one level below the Company's Board of Directors.
3. The Committee Service Note must be signed by the Committee Chair and all Committee members.
4. The letter from the Board of Commissioners is signed in accordance with the procedures for correspondence regulated and determined by the Board of Commissioners, while the letter from the Committee is signed by the Committee Chairperson and Committee Members from the Board of Commissioners.
5. All outgoing letters from the Board of Commissioners and/ or Committee must be recorded in the Letter Register and managed by the Board of Commissioners Secretariat and stored by the Corporate Secretary Division.

### Management Risk Monitoring Committee Income

Remuneration for committee members from the Board of Commissioners is included in the Board of Commissioners' honorarium, and there is no special honorarium for each member of the Committee. The honorarium for Committee members from independent parties (non-commissioners) is determined by the Board of Commissioners, with a maximum of 20% of the President Director's salary, and no other income is provided apart from the honorarium. This is in accordance with the provisions of the Minister of SOEs Regulation Number PER-12.MBU/2012 dated August 12, 2012, regarding the Supporting Organs of the Board of Commissioners.

### Work Program and Duties Implementation of The Risk Management Monitoring Committee In 2025

## Integrated Governance Committee

The Integrated Governance Committee (IGC) is one of the committees that assists the Board of Commissioners and has the duties and responsibilities in evaluating and ensuring that the implementation of governance is in accordance with the principles of GCG in the Company's financial conglomerates.

### Legal Basis of Integrated Governance Committee

- OJK Regulation Number 18/ POJK.03/2014 dated November 18, 2014, concerning the Implementation of Integrated Governance for Financial Conglomerates and Financial Services Authority Regulation Number 17/ POJK.03/2014 dated November 19, 2014 concerning Implementation of Integrated Risk Management for Financial Conglomerates
- OJK Regulation no. 33/POJK.4/2014 dated December 8, 2014, concerning Directors and Board of Commissioners of Issuers or Public Companies.
- OJK Regulation Number 17 of 2023 dated September 14, 2023, concerning Implementation of Governance for Commercial Banks.
- The OJK Regulation Circular Letter Number 14/ SEOJK.03/2015 dated May 25, 2015, concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
- The OJK Regulation Circular Letter Number 15/ SEOJK.03/2015 dated May 25, 2015, concerning the Implementation of Integrated Governance for Financial Conglomerates.
- OJK Circular Letter Number 14/SEOJK.03/2025 dated June 24, 2025, concerning Implementation of Governance for Commercial Banks.
- Minister of State-Owned Enterprises Regulation No. PER-2/ MBU/03/2023 dated March 3, 2023, concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.
- Minister of State-Owned Enterprises Regulation No. PER-3/ MBU/03/2023 dated March 20, 2023, concerning Organs and Human Resources of State-Owned Enterprises.
- Articles of Association of PT. Bank Rakyat Indonesia (Persero) Tbk. along with its changes.
- Financial Service Authority (OJK) Circular Letter No. 014/SEOJK.03/2015 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
- Financial Services Authority (OJK) Circular Letter No. 15/SEOJK.03/2015 concerning the Implementation of Integrated Governance for Financial Conglomerates.
- Regulation of the Minister of State-Owned Enterprises No. PER-11/MBU/07/2021 concerning the Requirements, Procedures for Appointment, and Dismissal of Members of the Board of Directors of State-Owned Enterprises.
- Financial Services Authority Regulation (POJK) No.17 of 2023 dated September 14, 2023, concerning the Implementation of Governance for Commercial Banks.
- Regulation of the Minister of State-Owned Enterprises No. PER-2/MBU/03/2023 dated March 3, 2023, concerning Guidelines on Governance and Significant Corporate Actions of State-Owned Enterprises.
- Regulation of the Minister of State-Owned Enterprises No. PER-3/MBU/03/2023 dated March 20, 2023, concerning the Organs and Human Resources of State-Owned Enterprises.
- POJK No. 30 of 2024 dated December 19, 2024, concerning Financial Conglomerates and Financial Conglomerate Holding Companies.

## Integrated Governance Committee Charter

The Integrated Governance Committee has an Integrated Governance Committee Charter ratified through the Decree of the BRI Board of Commissioners Number 07-KOM/BRI/05/2024 dated May 28, 2024, concerning the Guidelines and Work Procedures of the Integrated Governance Committee of PT Bank Rakyat Indonesia (Persero) Tbk. The Integrated Governance Committee Charter is a reference for Integrated Governance in carrying out its duties effectively. The Charter is a guideline and work procedure for the Integrated Governance Committee in carrying out its duties to assist the Board of Commissioners in actively supervising the implementation of governance in accordance with the principles of GCG in the Company's financial conglomerate.

The contents of the Integrated Governance Committee Charter include:

Chapter	Contents
Chapter I	Introduction 1.1 Legal Basis 1.2 General Definition
Chapter II	Company Values, Organizational Structure, and Code of Ethics 1.1 Company Values 1.2 Organizational Structure and Membership 1.3 Code of Ethics
Chapter III	Guidelines and Work Procedures of Integrated Governance Committee 1.1 Goals, Authorities, Duties and Responsibilities 1.2 Appointment of Committee Members, Term of Office, and Working Time 1.3 Meetings 1.4 Reports 1.5 Communication Protocol 1.6 Correspondence Mechanism
Chapter IV	Closing

## Appointment and Dismissal of the Integrated Governance Committee

The Integrated Governance Committee is appointed and dismissed by the Board of Commissioners and is accountable to them. During the year 2025, the positions of Chairperson and Members of the Integrated Governance Committee were established through the following:

1. Board of Commissioners Decree Number 15-KOM/BRI/11/2024, dated November 11, 2024, the Composition of the Integrated Governance Committee of PT Bank Rakyat Indonesia (Persero) Tbk.
2. Board of Commissioners Decree Number 06-KOM/BRI/04/2025, dated April 15, 2025, the Composition of the Integrated Governance Committee of PT Bank Rakyat Indonesia (Persero) Tbk.
3. Board of Commissioners Decree Number 11-KOM/BRI/11/2025, dated November 3, 2025, the Composition of the Integrated Governance Committee of PT Bank Rakyat Indonesia (Persero) Tbk.

## Duties and Responsibilities of Integrated Governance Committee

The Integrated Governance Committee assists the Board of Commissioners to carry out its duties and responsibilities in evaluating and ensuring comprehensive and effective governance by implementing the principles of transparency, accountability, responsibility, independence, or professionalism, and fairness in an integrated manner within the Financial Conglomerate.

The Committee is tasked with assisting the Board of Commissioners in carrying out supervisory duties concerning:

1. Conduct an evaluation of Integrated Governance policies;
2. Conduct monitoring and evaluation of BRI or its Subsidiary Company's compliance with Integrated Governance policies;
3. Conduct an evaluation of the implementation of Integrated Governance, at least through an assessment of the adequacy of internal control and the implementation of integrated compliance functions;
4. Provide recommendations to the Board of Commissioners/ Supervisory Board for the improvement of Integrated Governance policies;
5. Conduct communication with business units for functions including Internal Audit, legal and compliance, finance and Risk Management, human resources, and aspects of operational business functions as required, to obtain information, clarification, and request reports as required in an integrated manner;

- Carry out monitoring and evaluation of the implementation of other Integrated Governance functions in accordance with the provisions of laws and regulations, articles of association, and/or GMS/Ministerial Decisions; and
- Carry out other authorities, duties, and responsibilities related to its functions.

### Authority of Integrated Governance Committee

The Board of Commissioners grants authority to the Committee within the scope of the Committee's responsibilities to:

- Obtain data and information support from the Management of the Main Entity and/or Subsidiary Entities for matters related to the implementation of its duties.
- Obtain input regarding the implementation of Integrated Governance, at a minimum covering the implementation of risk management, internal control, and the compliance function from members of the financial conglomerate, through discussion forums and/or meetings at the technical level.
- Conduct communication with business units for functions including Audit, Compliance, Finance, Risk Management, Human Resources, and Operational Function Aspects of the business as needed, to obtain information and clarification and request reports as needed in an integrated manner.
- Obtain input and advice from external professionals outside the Company in relation to the performance of its duties.
- Provide opinions and recommendations to the Board of Commissioners of the Main Entity to enhance the internal control function, compliance function, and the implementation of integrated risk management.
- Carry out other authorities granted by the Board of Commissioners as long as they do not conflict with applicable laws and regulations.

### Integrated Governance Committee Term of Office

The term of office of members of the Integrated Governance Committee may not be longer than the term of office of the Board of Commissioners as regulated in the Company's Articles of Association and can only be re-elected for 1 (one) subsequent period, without prejudice to the Board of Commissioners' right to dismiss them at any time.

### Structure, Membership and Expertise of The Integrated Governance Committee

The Committee is under the coordination of the main entity Board of Commissioners and is structurally responsible to the Main Entity Board of Commissioners. The Committee is led by an Independent Commissioner who serves as Chairman in one of BRI committees. To carry out daily tasks, the Committee could be assisted by the Staff and/or Secretary of the Integrated Governance Committee, who may come from the Bank's internal and external circles.

The membership of the Integrated Governance Committee is regulated as follows:

- Committee members consist of at least one Commissioner from each member of the BRI financial conglomerate, an independent party and a member of the Sharia Supervisory Board.
- Members of the Committee shall at least consist of:
  - An Independent Commissioner from the Main Entity as chairman concurrently a member;
  - Independent Commissioner of each member of the BRI Financial Conglomerate as a member;
  - An Independent Party that has expertise according to the needs of the Integrated Governance Committee;
  - Member of the Sharia Supervisory Board of BRI Syariah as a member;
  - The number and composition of Independent Commissioners who were members of the Integrated Governance Committee are adjusted to the needs of the Financial Conglomerate and the efficiency and effectiveness of the implementation of the duties of the Integrated Governance Committee by considering at least the representation of each financial services sector.

## Independence of The Integrated Governance Committee

To ensure the independence of the implementation of duties and the provision of views, and recommendations to the Board of Commissioners, all members of the KTKT have no affiliation with the Directors, other Commissioners or controlling shareholders of BRI and are not shareholders, Commissioners, Directors or employees of companies that have affiliations or businesses with BRI.

The requirements for the independence of KTKT members are:

1. It is not permitted to receive compensation from the Company and its subsidiaries, or affiliates, except for wages, salaries and other facilities received in connection with the duties carried out as a member of the Integrated Governance Committee.
2. Not permitted to have family or business relationships with the Board of Directors and Board of Commissioners.
3. Not permitted to have dual positions in the Company and other Companies affiliated with the Bank; And
4. Not permitted to have duties, responsibilities and authority that give rise to a conflict of interest.

## Integrated Governance Committee Meeting

### Integrated Governance Committee Meeting Policy

Arrangements for the Committee meeting are as follows.

#### Meeting Implementation Mechanism

1. The integrated Governance Committee (IGC) is held in accordance with the work plan that has been stipulated and in line with need. Types of meetings based on participants are as follows:
  - a. IGC Meeting with Main Entity.
  - b. Main Entity IGC Meeting with Subsidiaries.
  - c. Board of Commissioners' Meeting/Main Entity IGC Meeting.
  - d. Main Entity IGC Meeting with Certain Subsidiaries.
  - e. IGC Technical Meeting (meeting at technical level). Meetings at the technical level are meetings with Committee members from Independent Parties and Division Heads or officials and/or staff in a certain business unit of the Main Entity and/or Subsidiaries.
2. Committee meetings must be held periodically, minimally 1 (one) time in 3 (three) months.
3. Committee meetings may be held at any time upon the request of 1 (one) or several members of the Committee by stating the matters to be discussed.
4. Committee meetings are held at the Company's domicile, or other places within the territory of the Republic of Indonesia or at the Company's business activity sites, determined by the Committee.
5. Committee meetings may be held online via teleconference or other electronic media that allows all participants to communicate and interact in Committee meetings.
6. Committee meeting materials are available and delivered to meeting participants no later than 5 (five) working days before the meeting is held, unless the meeting is held outside the meeting schedule. The meeting materials can be delivered before the meeting is held.
7. Committee members may attend meetings based on invitations from the Audit Committee, Monitoring Committee of Risk Management or other business units related to the implementation of their duties.
8. Committee members may attend meetings based on invitations from external auditors and/or Internal Audit Units (SKAI) related to plans and results of examinations of Subsidiaries and other matters.

#### Meeting Quorum

A Committee meeting is valid if it is attended and/or represented by more than ½ (one half) of the total number of Committee members.

#### Meeting Participants

1. Each member of the Committee must attend minimally 75% (seventy five percent) of meetings in a year.
2. Committee meetings may invite the Board of Directors, Officers, and Employees of the Company or invitees from outside the Company.
3. Committee meetings may invite Other Committees and Subsidiary Management, submitted through the Integrated Governance Committee.

#### Meeting Chairperson

1. The Board of Commissioners' meeting is chaired by the Committee Chairperson.
2. In case the Committee Chairperson is unavailable or absent, which does not need to be proven to any party, the Committee meeting is chaired by a Committee member from the Board of Commissioners.
3. Meetings at the technical level are chaired by one of the IGC members from an Independent Party in the Main Entity.

#### Meeting Invitation

1. The summons of the Committee meeting is made by the Chairman of the Committee.
2. In case the Chairman of the Committee is unavailable or absent, which does not need to be proven to any party, the summons of the meeting can be conducted by a member of the Committee who is a member of the Board of Commissioners.
3. The summons of the Committee meeting must be submitted in writing by stating the agenda/event, date, time, and venue of the meeting.
4. In case a special or extraordinary situation occurs, the Committee can conduct the summons at any time minimally (less than 1 working day), either directly or online.
5. The summons to the IGC meeting at the technical level is signed by the Chairman of the Committee, and the summons to the meeting can also be made by related parties, such as BRI Management or Subsidiaries.
6. The scheduled IGC Committee meeting is held with a written summon, signed by the chairman of the Committee or a member of the Committee from the Board of Commissioners of the Main Entity. If the Chairman of the Committee is absent, the summons can be signed by two Committee members from the Board of Commissioners. If it is not possible to be signed by two Committee members, the invitation can be signed by one Committee member from the Board of Commissioners.
7. Summons can be signed using a digital signature by first requesting permission from the Board of Commissioners, who are authorized to sign.
8. Summons to the IGC meetings at the technical level are signed by the Chairman of the Committee, the meeting invitation can also be made by related parties, such as BRI Management or Subsidiaries.

9. The Committee Meeting must draft meeting agendas, date, time, and venue of the meeting, as well as the attendance list.

#### Meeting Resolutions

1. A meeting is valid and has the right to make binding resolutions if it is attended by at least 1/2 (one half) of the total number of the Committee members.
2. Recommended resolutions that are formulated in the Committee Meeting are made based on deliberation to reach consensus. In case the deliberation to reach consensus does not occur, resolutions are made based on a majority vote.
3. Each Committee member has 1 (one) vote and an additional 1 (one) vote for each Committee member who is legally represented at the meeting.
4. Committee members, who are unable to attend, may submit opinions and cast votes, which are given in writing, signed, and submitted to the Chairman of the Committee or the Commissioner chairing the meeting. The voting rights are considered valid and are an integral part of the decision-making process at the meeting.
5. In case the number of in favor and against votes is the same, the decision-making process is postponed and reviewed. If, after being reviewed, the number of in favor and against votes is the same, the decision-making process is determined by the Meeting Chairperson.
6. The Meeting chairperson delivers the conclusion at the end of each meeting.
7. Each meeting resolution is binding on all Committee members.
8. The Committee may also make valid resolutions, provided that members of the Board of Commissioners, who are serving their term of office, provide approval by signing in writing to the proposed resolutions.
9. Every member of the Committee who personally in any way either directly or indirectly, has an interest in any transaction, contract or proposed contract in which the Company is a party, must declare the characteristics of his/ her interest in a Committee meeting and shall not entitle to participate in voting on any matters related to the transaction or contract.

#### Meeting Minutes

1. The results of the Committee meeting must be stated in the minutes of the meeting.
2. The minutes of the Committee meeting must be signed by all members of the Committee present and submitted to members of the Committee, who have voting rights.
3. The minutes of the meeting are prepared by members of the Committee who are Independent Parties who are present at the meeting.

4. In case a member of the Board of Commissioners and/ or Board of Directors does not sign the results of the meeting as referred to in points 2 and 3 above, the said person must state the reasons in writing in a separate letter attached to the minutes of the meeting.
5. If any dissenting opinions occur in the meeting they must be clearly stated in the minutes of the meeting and accompanied by the reasons for the dissenting opinion.
6. The minutes of the Committee meeting are valid evidence of the resolutions taken in the said meeting.
7. The results of meetings held at the technical level are stated in the minutes of the meeting contains important points of discussion and reported to the Board of Commissioners.
8. If, based on the meeting results at the Technical Meeting, any significant matters require consideration, the Independent Party can recommend to the Chairman of the Committee to follow up as required, including submitting a recommendation letter to the Board of Directors of the Main Entity. The letter is signed by the Chairman of the Committee, and one of the members of the KTKT from the Board of Commissioners of the Main Entity.
9. The minutes of the meeting are properly documented by the Secretariat of the Board of Commissioners.

#### Follow-Up on Meeting Results

1. The results of the Committee meeting decisions are submitted in a Committee Service Note to the Board of Commissioners containing opinions or recommendations or suggestions to assist in the implementation of the Board of Commissioners' duties.
2. The Committee Service Note in point one above may be accompanied by a draft of the Board of Commissioners' outgoing letter and/or the Committee's outgoing letter to the Board of Directors.
3. The Committee Service Note must be signed by the Committee Chairperson and all members of the Committee.
4. The Board of Commissioners' letter is conducted by the correspondence procedures regulated and determined by the Board of Commissioners, while the Committee Letter is signed by the Committee Chairperson and Members from the Board of Commissioners.
5. All outgoing letters from the Board of Commissioners and/ or the Committee must be recorded in the Letter Register and administered by the Board of Commissioners' Secretariat and stored by the Corporate Secretary Division.

## Integrated Governance Committee Income

Remuneration for committee members who are members of the Board of Commissioners is part of the honorarium given to the Board of Commissioners, and there is no special honorarium for each Committee member. Honorarium for Committee members from independent parties (Non-Commissioners), the amount of the honorarium is determined by the Board of Commissioners with a maximum amount of 20% of the Main Director's salary and no other income is given apart from the honorarium. This is in accordance with the provisions of the Minister of BUMN Regulation Number PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises.

During 2025, the Committee provided recommendations for each Subsidiary Company, with the following key highlights:

**1. BRI Insurance**

- Strengthening governance in data management, as well as reconciliation of claims and receivables.
- Enhancing risk mitigation in high-risk business lines, including intra-group risk.

**2. BRI Finance**

- Optimizing ecosystem synergies within the BRI Group Joint Financing schemes and KKB Referral programs.
- Strengthening the effectiveness of business processes, risk management, and internal controls.

**3. Bank Raya**

- Accelerating the development of Merchant Financing to reinforce its role as the Digital Attacker of the BRI Group.
- Strengthening rebranding strategies to enhance competitiveness within the digital banking industry.

**4. PNM**

- Fundamental improvements in the management of the AO function to enhance business quality and sustainability.
- Support for increasing funding capacity through regulatory strengthening and funding synergies.

**5. Pegadaian**

- Strengthening integrated risk management in the development of bullion service businesses.
- Implementation of periodic stress testing on gold price volatility as part of risk mitigation measures.

**6. BRI Life**

- Strengthening risk management and RM capabilities to support portfolio balance and persistency ratio.
- Close monitoring of the implementation of the sharia unit spin-off roadmap in accordance with regulatory requirements and targeted timelines.

**7. BRIDS**

- Strengthening the capability and security of the BRIGHTS digital platform and integration within the BRI ecosystem.
- Formulation and implementation of a sustainable digital transformation roadmap.

**8. BRI Ventura Investama**

- Alignment of investment strategies with Corporate Venture Capital principles and groups' synergies.
- Strengthening governance and data-driven investment policies to support sustainable growth.

**9. BRI Manajemen Investasi**

- Periodic evaluation of work plan realization and achievement of synergies.
- Strengthening marketing capabilities and the competencies of investment professionals.

## Procedure for The Replacement of Committees Under The Board of Commissioners

Appointment and replacement of Committee members are determined in the Board of Commissioners' Meeting. Specifically for Committee members originating from Independent Parties, the following provisions apply:

1. Selected and appointed by the Board of Commissioners through recruitment and selection mechanisms.
2. The tenure is determined in the Board of Commissioners' Meeting according to the contract duration and contractual worker regulations in the Company. The Board of Commissioners may terminate their appointment before the contract period ends.

## Organs and Committees Under The Board of Directors

### Corporate Secretary

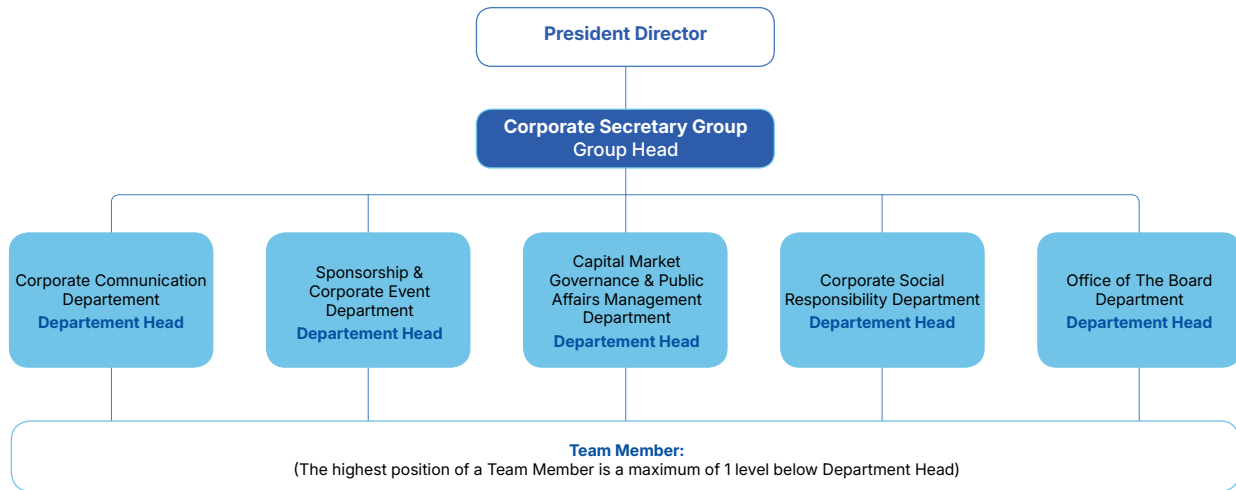

The Corporate Secretary has the responsibility to assist the Board of Directors and Board of Commissioners in implementing corporate governance in accordance with the capital market regulations, particularly in the disclosure to the public through the reporting to the government agencies and announcement on website as well as printed media (if mandatory), including the implementation of the GMS. The Corporate Secretary serves as a liaison between the Company and external parties such as capital market regulators, shareholders, media and other stakeholders.

### Basis of Appointment of A Corporate Secretary

The establishment of Corporate Secretary refers to the following rules and prevailing laws:

1. OJK Regulation No. 35/POJK.04/2014 on the Corporate Secretary of Issuers or Public Companies.
2. Regulation of the Minister of SOEs No. PER-01/MBU/2011 as amended by PER-09/MBU/2012, Ninth Part concerning Corporate Secretary.

## Structure of Corporate Secretary

  - d. Providing input to the Board of Commissioners and the Board of Directors to comply with the prevailing laws and regulations in the capital market.
  - e. Providing information required by the Board of Commissioners and Board of Directors periodically and/ or at any time if requested.
  - f. Assisting the Board of Commissioners and Board of Directors in implementing the Company's GCG, which includes:
    - Information disclosure to the public, including the availability of information on the Company Website.
    - Timely submission of reports to regulators.
    - Organizing and documenting the meetings of the Board of Directors and/or the Board of Commissioners (assisted by the Secretary of the Board of Commissioners).
    - Implementation of corporate orientation programs for the Board of Commissioners and/or Board of Directors.
  - g. Acting as a liaison officer or contact person between the Company and stakeholders.
  - h. Administering and recording the Company documents, including but not limited to the Shareholders Register, Special List, and Minutes of Board of Directors Meetings, Board of Commissioners Meetings, and GMS.
  - i. Conducting corporate communication activities in order to maintain and enhance the Company's corporate image, including implementing external event programs, providing corporate sponsorship, and managing the Company's museums.
  - j. Managing the function of preparing the Company's Annual Report, as well as the publication of Financial Statements and other important information/reports in print media, electronic media, and the Company's Website to related parties/regulators in accordance with the prevailing laws and regulations.
  - k. Organizing GMS and public expose.
  - l. Carrying out other activities required for corporate action.
2. To increase knowledge and understanding in carrying out its duties, the Corporate Secretary shall attend education and/ or training.

#### **Communications**

1. Managing the functions of policy development, implementation, and evaluation of the Company's communication/publication strategy.
2. Manage brand image and brand positioning alongside the marketing communication unit.
3. Foster good relations with print and electronic media, institutions/agencies, and other external parties.
4. Manage the provision of communication materials related to the Company.
5. Manage the drafting and analysis of responses/answers/scripts, including responses/press conferences related to Company issues in the mass media in coordination with relevant units.
6. Manage the Company's Website and social media together with the service and marketing communication units.
7. Managing the BRI Purwokerto Museum.

#### **CSR and Community Development**

1. Manage the mapping of target communities for CSR & Community Development programs.
2. Manage the implementation of CSR & Community Development programs.

#### **Capital Market Governance and Public Affairs Management**

1. Direct compliance related to regulations, capital markets, and others.
2. Manage Company secretarial, administrative, and documentation activities.
3. Manage stakeholder management.
4. Manage the administration and documentation of the Board of Directors.

#### **Protocol and Internal Services of the Board of Commissioners, Directors, and SEVP**

1. Manage activities supporting the functions and activities of the Board of Commissioners, Directors, and SEVP.
2. Manage communication between the Board of Commissioners, Directors, SEVP, and internal and external parties of the Company.
3. Manage the provision of rights and facilities for the Board of Commissioners, Directors, and SEVP.
4. Manage the preparation and analysis of speech materials, papers, hearings, presentations, interviews, and other supporting materials for the Board of Commissioners, Directors, and SEVP.
5. Manage the scheduling activities of the Board of Commissioners, Directors, and SEVP.
6. Manage the implementation and evaluation of protocols and secretarial services for the Board of Commissioners, Directors, and SEVP.

### Meeting

1. Ensuring the implementation of the Board of Directors Meeting periodically at least 1 (one) time every month.
2. Ensuring the implementation of the Board of Commissioners Meeting at least 1 (one) time in 2 (two) months.
3. Ensuring the implementation of the Board of Directors – Board of Commissioners Meetings periodically at least 1 (one) time in 4 (four) months.
4. Ensuring the Meeting is held in accordance with the Articles of Association, Guidelines, and Rules of the Meeting and other stipulations.
5. Becoming a liaison for the Board of Commissioners, Board of Directors and SEVP in coordinating the agenda of routine and incidental meetings.
6. Ensuring the agenda of the Meeting requires decision making or matters that have a major impact on the welfare of the Company.
7. If necessary, reminding the Board of Commissioners and Board of Directors that each discussion meeting will be focused primarily on the implementation of their duties and responsibilities.
8. If necessary, remind the Board of Commissioners and Board of Directors that the level of authority for matters delegated is correct and obeyed.
9. Ensuring the Minutes of Meeting are administered in accordance with the stipulations.

### General Meeting of Shareholders (GMS)

1. Ensuring the implementation of the Annual GMS by the Board of Directors within the period of minimum 5 (five) months following the ended of the fiscal year or implementing other GMS at any time as required for the interest of the Company.
2. Ensuring the series of conventions and administration of the GMS are in accordance with prevailing stipulations.
3. Ensuring the appointment of the GMS Chairman prior to the GMS convention.
4. Ensuring the GMS activity has included the decision making in every agenda.
5. Coordinating with related independent parties (Notary and Share Registrar) for the efficiency of the GMS convention.
6. Coordinating with related divisions on the formulation and scenario in the GMS agenda.
7. Ensuring the GMS announcements and invitations have been implemented according to the Articles of Association and other rules.

### Enhancement of Knowledge

1. Ensuring each member of the Board of Commissioners and Board of Directors receives an adequate introduction (orientation) program at the first opportunity and thereafter based on the needs. The objective of this program is to provide brief insights to each member of the

Board of Commissioners and Board of Directors regarding the Company hence new members can immediately contribute to the Company. Particularly for new members of the Board of Commissioners, the induction program is determined by the President Commissioner and/or determined by the needs of members of the Board of Commissioners. Furthermore, for new members of the Board of Directors, the induction program is determined by the President Director and/ or determined by the needs of the members of the Board of Directors. If there is a condition that the President Commissioner and/ or President Director are new members, then the orientation program is determined by Vice President Commissioner or Vice President Director or 2 (two) Commissioners or 2 (two) Directors in accordance with the provisions of the President Commissioner and/or the substitute President Director according to applicable stipulations.

2. Minimum requirements for basic information or knowledge by the Corporate Secretary shall include:
  - a. Internal information or knowledge, among others:
    - Articles of Association.
    - Duties, responsibilities, and authorities of members of the Board of Commissioners and members of the Board of Directors.
    - Vision, Mission, and objectives of the Company.
    - Strategic plan of the Company.
    - Financial performance of the Company.
    - Segmentation of the Company's business, products, and services.
    - Bank risk management, risk profile, risk assessment and monitoring.
    - Company Organizational Structure.
    - Function of Internal and External Audit Units.
    - Other relevant information that can assist in the duties and performance of members of the Board of Commissioners and members of the Board of Directors.
  - b. External information or knowledge, including:
    - External developments covering political, economic, social, and technological aspects, etc.
    - The Company's position among competitors, customers, and other stakeholders.
    - The role and relationship with the government authorities in the monetary sector, as well as other authorized bodies.
    - Relevant laws and regulations.
    - Other external information relevant to the Board of Commissioners and Directors.
  - c. Preparation and distribution of documents during the induction/orientation period for newly appointed members of the Board of Commissioners and/or Directors, including:
    - Guidelines and Work Rules of the Board of Commissioners and Board of Directors.
    - Company Articles of Association and its amendments.

- Latest Annual Report.
  - Management Contract and latest Company plan.
  - Company Organizational Structure.
  - Other documents, according to the request of the Board of Commissioners and Board of Directors.
3. Discussion on continuous self-development with the relevant Boards of Commissioners and Directors, and preparing training program plans with the related business unit.
  4. Compiling information on trainings, both conducted domestically and abroad, based on information and cooperation with related divisions.
  5. Determining/providing recommendations on training programs according to the needs of the Board of Commissioners and Directors or at the request of the Board of Commissioners and Directors.
  6. The Company orientation/induction program may take the form of presentations, meetings, visits, and document studies or other programs deemed appropriate to the needs and requests of the Board of Commissioners and Directors.

<b>Grand Total</b>	<b>12.298</b>	<b>279.854</b>	<b>2.908</b>	<b>295.060</b>	

The implementation of corporate communication was carried out by engaging various media outlets as strategic partners, including print, television, and online media. Communication initiatives were undertaken through the issuance of press releases, with the Company publishing a total of 467 press releases throughout 2025, which resulted in 295,060 media coverages across all media platforms. With this achievement, BRI contributed a 37.72% share of voice within the banking industry.

MSME constituted BRI's primary media coverage theme. As MSMEs represent BRI's core business focus, they play a key role in strengthening the national economy and directly driving BRI's performance growth. Accordingly, BRI's press release narratives placed greater emphasis on MSME empowerment and the people-based economy. In addition, publications concerning financial performance, Corporate Social Responsibility (CSR), support for government programs, awards, as well as BRI's products and services, also became major coverage themes aimed at enhancing the Company's positive public image and serving as a source of reference information for investors.

In relation to BRI's role as the title sponsor of Indonesia's top-tier football league, the BRI Super League, over the past five years being the most popular sport in Indonesia this sponsorship has contributed significantly to BRI's overall media exposure. As of the end of December 2025, a total of 70,666 news articles regarding the BRI Super League had been published across print, television, and online media platforms.

In addition, the Corporate Secretary conducted routine monitoring of social media activities to maintain and further enhance BRI's positive corporate image. This positive image was built through content pillars focusing on corporate values and achievements, working at BRI, and financial management, presented with engaging treatments tailored to social media audiences. As a result, in 2025, BRI's positive sentiment on social media reached 91.31%.

The Corporate Secretary, serving as the supervisor of BRI's Information and Documentation Management Officer (PPID), carried out responsibilities in coordinating public information services. Throughout 2025, BRI's PPID received 28 public information requests, all of which were fully addressed in accordance with the applicable regulations. The excellent performance in public information management led BRI to receive the "Informative" predicate in the State-Owned Enterprises (BUMN) Category in the 2025 Public Information Disclosure Monitoring and Evaluation (Monev) conducted by the Central Information Commission, with a score of 95.67.

The Corporate Secretary also acts as the Company's spokesperson in responding to inquiries from journalists, accompanying members of BRI's Board of Directors in media interviews, organizing press conferences to enhance the Company's image, and conducting monitoring and clarification of negative news coverage or issues that may potentially affect BRI's reputation.

In addition, the Corporate Secretary organized the BRI Fellowship Journalism 2025 program, a master's degree scholarship initiative for journalists at state universities in Indonesia. Through this program in 2025, BRI successfully generated 2,679 published articles and awarded scholarships to 45 journalists nationwide across various media platforms.

#### **Conduct of the General Meeting of Shareholders**

During 2025, the Company held two (2) General Meetings of Shareholders (GMS), namely the Annual General Meeting of Shareholders (AGMS) on 24 March 2025 and the Extraordinary General Meeting of Shareholders (EGMS) on 17 December 2025, as reported in the GMS subsection under the Corporate Governance chapter of this Annual Report.

#### **Transparency in Reporting and Information Disclosure**

Throughout 2025, the Corporate Secretary carried out information disclosure reporting, routine reporting, incidental reporting, and/or data requests from regulators. The details of these reports are presented in the Transparency in Reporting subsection under the Corporate Governance chapter of this Annual Report.

## Internal Audit Business Unit

### Summary of Internal Audit Unit Performance

The achievements of the Internal Audit Work Unit (SKAI) in 2025 were realized through the implementation of several development programs, as follows:

1. **Strengthening Governance and Internal Audit Guidelines**  
In order to ensure the effective and independent execution of the internal audit function, and to align it with evolving regulatory requirements and best governance practices, updates were made in 2025 to the Internal Audit Charter and the Integrated Internal Audit Charter for Financial Conglomerates. In addition, Internal Audit Standard Operating Procedures (SOP) for Overseas Units were developed to enhance the consistency of audit implementation and to support the application of standardized supervision practices.
2. **Strengthening the Internal Audit Organization**  
The strengthening of the Internal Audit organization was carried out through structural adjustments at the Head Office level, including the establishment of the Wholesale & Head Office Audit Unit, Retail Audit Unit, and IT Audit Unit. In addition, staffing adjustments were implemented in alignment with the enhanced roles of the first and second lines within the Three Lines Model framework. These initiatives were undertaken to improve the effectiveness of Risk-Based Audits, supported by the implementation of Continuous Auditing utilizing data analytics, thereby enabling supervision to be conducted in a more focused, efficient, and measurable manner.
3. **SKAI Benchmark**  
As part of the strengthening and development of the IT audit function, benchmarking activities were conducted in 2025 with a bank as part of efforts to enhance the capability and best practices of the internal audit function.
4. **Development of Emerging Risk Data**  
The development of data derived from emerging risks or from sources that were previously unidentified.
5. **Development of Data Analytics Dashboard**  
The development was undertaken to serve as a structured and data-driven risk monitoring and control performance tool, aimed at supporting the execution of audits that are more responsive, measurable, and focused on high-risk areas.
6. **Development of the Audit Management System (AMS)**  
The development was carried out by adding features to support the implementation of assurance surveys across all audit work units. Furthermore, enhancements and further system developments were undertaken to establish an integrated platform that supports the audit process end-to-end, through the addition of various modules and features to improve the effectiveness and efficiency of audit management.
7. **Implementation of Internal Control over Financial Reporting (ICOFR)**  
The preparation of the ICOFR methodology and the implementation of ICOFR were undertaken to ensure that financial statements are prepared in accordance with the applicable accounting principles or financial reporting standards.
8. **Strengthening Synergy among the 1<sup>st</sup> line, 2<sup>nd</sup> line, and 3<sup>rd</sup> line**  
Periodic communication was conducted with the 1<sup>st</sup> line, 2<sup>nd</sup> line, and 3<sup>rd</sup> line, both online and offline, through the GRC (Governance, Risk Management, and Compliance), sharing Early Warning System tools, and regular monitoring. These initiatives were implemented as part of a strategy to enhance organizational governance, enterprise risk management, and overall regulatory compliance.
9. **Integrated SKAI for Financial Conglomerates**  
In 2025, the integrated internal audit function was strengthened through the organization of the Integrated Internal Audit Forum (IIAF) as a coordination and synergy platform among entities within the financial conglomeration, aimed at ensuring alignment of supervision, updates on regulatory policies, and monitoring of audit follow-up actions. In addition, an Audit Implementation Guideline was developed as a reference for the execution of audit

assignments, including joint audit engagements, to ensure compliance with policies and processes with applicable regulatory requirements.

A Trusted Assurance Provider, SKAI performs assurance and advisory functions that play a vital role in safeguarding the achievement of the Company's objectives while taking into account stakeholders' expectations. In line with the 2026 aspiration, namely **"To leverage technology and data analytics to deliver consistently high-quality internal audits and value-added insights"**, SKAI's strategy is focused on three main pillars as follows:

1. **Technology** is the technological capability enhancement that is carried out through the continuous development of the Audit Management System and the integrated utilization of data analytics. This transformation not only digitalizes audit processes but also integrates them with other internal systems to generate relevant insights that support strategic decision-making. In addition, the implementation of Continuous Auditing continues to be promoted to enhance the effectiveness of supervision over technology- and database-based operational work units.
2. **People**, is Human capital development which is focused on enhancing auditors' competence and professionalism through the establishment of an audit competency framework, training and certification needs analysis, competency profile mapping, provision of structured development programs, as well as monitoring and evaluation of competency development implementation. Collaboration with the Human Capital function is carried out to ensure the readiness of auditors who are adaptive to evolving risk dynamics, regulatory developments, and increasing business complexity.
3. **Integration & Collaboration** is strengthening integration and collaboration, which is pursued through closer synergy among the 1<sup>st</sup> line, 2<sup>nd</sup> line, and 3<sup>rd</sup> line within the Three Lines Model framework, as well as continuous coordination with subsidiaries. This approach aims to ensure alignment in risk management and internal control practices and to establish an integrated, transparent, and value-added oversight mechanism for the Company as a whole.

In supporting the implementation of the three pillars and strengthening SKAI's role as a Strategic Business Partner, several optimization areas have been identified as key focus areas, as follows:

1. Optimization of data analytics utilization to detect fraud and internal control weaknesses at an earlier stage.
2. Enhancement of the effectiveness of audit follow-up actions through data-driven monitoring with a near real-time approach.
3. Availability of audit tools that effectively support audit methodologies and strategies.
4. Development and enhancement of the Audit Management System (AMS) and audit technology to improve the effectiveness and efficiency of audit activities.
5. Fulfillment of staffing formations in accordance with organizational requirements.
6. Strengthening of the organizational structure to be more adaptive to developments in the business environment.
7. Mapping of Internal Auditor competency profiles in accordance with professional standards.
8. Enhancement of audit agility to ensure responsiveness to business and risk dynamics, beyond the limitations of annual planning.
9. Strengthening the implementation of advisory activities to ensure alignment with the Company's internal policies and to provide value-added contributions to the organization.
10. Fulfillment and development of auditor competencies in line with the latest business and technological advancements.
11. Strengthening audit capabilities in addressing emerging risks, including cyber risk, data privacy, and digital transformation.
12. Consistent and comprehensive implementation of the Global Internal Audit Standards 2024, while ensuring alignment with regulatory requirements and good corporate governance practices.

As part of the implementation of Good Corporate Governance, BRI's Internal Audit Unit (SKAI) has a very important role to support strategic business objectives through effective assurance and advisory activities in accordance with the company's direction and strategy. The effective implementation of SKAI functions can provide assurance to the company regarding the quality and effectiveness of the internal control system, risk management, and governance system to protect the organization and the company's reputation.

In order to support the Company's aspirations to realize BRI's Vision, namely 'The Most Trusted Lifetime Financial Partner for Sustainable Growth', BRI's Internal Audit Unit (SKAI) implements a comprehensive, adaptive, and risk-based audit approach by integrating Risk-Based Internal Audit and Agile Audit, supported by the implementation of Continuous Auditing. This approach enables continuous monitoring of risks and controls, allowing for early detection of weaknesses and swifter, more accurate management responses.

Furthermore, BRI's Internal Audit Unit (SKAI) applies the Combined Assurance concept through effective coordination and collaboration with the 1st line to the 2nd line functions, as well as continuous communication between control functions, to enhance the overall effectiveness of internal control, risk management, and corporate governance.

### Organization Structure of Internal Audit Unit

In carrying out its roles and functions, SKAI is supported by an independent organizational structure and an adequate number and competence of Auditors. Furthermore, BRI's Internal Audit Unit (SKAI) applies the Combined Assurance concept through effective coordination and collaboration with the 1st line to the 2nd line functions, as well as continuous communication between control functions, to enhance the overall effectiveness of internal control, risk management, and corporate governance.

Structurally, the Internal Audit Unit consists of work units for implementing audit activities and work units for Audit Standard & Quality development, with the details as follows:

1. Audit Activity Implementation Work Units

a) Regional Audit Office (RAO)

The Regional Audit Office (RAO) is conducting audit activities and providing advisory services as a strategic business partner. Its audit scope includes Regional Offices, Special Branch Offices, Branch Offices, Priority Service Centers, Sub-Branch Offices, Cash Offices, and BRI Units within its designated area. Currently, BRI operates 18 Regional Audit Offices, each aligned with 18 Regional Offices. The strategic co-location of RAOs with Regional Offices enhances the effectiveness and efficiency of SKAI's assurance and advisory functions, considering BRI's decentralized business structure, governance, and asset management responsibilities.

b) Wholesale & Head Office Audit (WHA)

The organizational structure of Wholesale & Head Office Audit consists of the Wholesale & Overseas Audit Department, Support & Others Audit Department, and ICOFR Audit Department. Each function is responsible for performing assurance and advisory activities on the Head Office activities

(e.g., Corporate Business, Risk Management, Trade Finance, Treasury, and Overseas Work Units).

c) Retail Audit (RTA)

The organizational structure of Retail Audit consists of the Micro & Commercial Audit Department, Consumer & Retail Funding Audit Department, and Subsidiary Department. Each function is responsible for performing assurance and advisory activities on the Head Office (e.g., Micro Business, Commercial, Consumer, SME, Retail Funding, and Financial Conglomerate Members).

d) IT Audit (ITA)

The organizational structure of IT Audit consists of the IT Strategy Audit Department and the IT Application Audit Department. Each function is responsible for performing assurance and advisory activities on systems, applications, and information technology infrastructure used by the Head Office, Overseas Work Units, and Financial Conglomerate Members.

e) Special Investigation Audit

The Special Investigation Audit is responsible for investigating suspected fraud cases and handling complaints from the Whistleblowing System, with full authority to audit all BRI business units.

2. Audit Standard & Quality Development (ASQ) Group

The Audit Standards & Quality Development Division (ASQ Division) is responsible for defining the vision, mission, and strategic direction of BRI's Internal Audit Directorate, conducting audit quality evaluations through internal reviews by the Internal Audit Directorate, independent assessments, and internal quality assurance of BRI subsidiaries' Internal Audit functions, developing and enhancing audit-related software and hardware to support audit execution, analyzing audit results and preparing audit reports, Developing and managing data analytics and analytical tools for audit.

Below is the distribution of BRI Audit Units across Indonesia:

**Position of The Intern Audit Unit in The Organizational Structure**

Structurally, BRI IAU is directly responsible to the President Director and has a line of communication with the Board of Commissioners. In performing its duties, the Internal Audit Unit (SKAI) submits reports to the President Director or the Board of Commissioners. Copies of SKAI's duty implementation reports to the President Director are submitted to the Board of Commissioners, the Audit Committee, and the Director in charge of the Compliance Function. The Audit Committee is under the coordination of the Board of Commissioners and is structurally responsible to the Board of Commissioners. The IAU organization is led by the SEVP Internal Audit.

**Appointment and Termination of SEVP Internal Audit Unit**

The head of the Internal Audit Unit is appointed and terminated by the President Director following the approval of the Board of Commissioners by taking into account the recommendations of the Audit Committee. The appointment of SEVP IAU has been reported to the Financial Services Authority.

## Internal Audit Charter

SKAI has an Internal Audit Charter, established under the Joint Decree of the Board of Commissioners and the Board of Directors of BRI No. KU.01-DIR/ASQ/12/2025 dated December 16, 2025. The charter has been updated to align with OJK Regulation No. 1/POJK.03/2019, dated January 29, 2019, regarding the Implementation of Internal Audit Functions in Commercial Banks. Additionally, it adheres to the International Standards for the Professional Practice of Internal Auditing (ISPPA) issued by The Institute of Internal Auditors (IIA).

BRI Internal Audit Charter is a guideline for the implementation of internal audit functions for the implementation of audits carried out by the Internal Audit Unit (SKAI), including communication mechanisms with the auditee, the execution of examinations of all Bank activities and functions, as well as the authority of SKAI to access the Bank's records, documents, and physical assets, including information management systems and minutes of management meetings. In terms of SKAI functions integrated in financial conglomerate, SKAI also has a Financial Conglomerate Integrated Internal Audit Charter as a guideline for the implementation of integrated internal audits that must be adhered to by all SKAI of Financial Services Institutions within the Financial Conglomerate.

## Duties and Responsibilities of The Internal Audit Unit

1. To perform the internal audit function independently and objectively.
2. Assisting the duties of the President Director and the Board of Commissioners in oversight by describing

operationally both the planning, implementation, and monitoring of the follow up of audit results.

3. Make independent, objective, and professional analysis and assessments on finance, accounting, operations, and other activities through audits at all levels of BRI Business Units, and conduct special examinations if necessary.
4. To test and evaluate the implementation of internal control, risk management systems, and governance in accordance with company policies, prepare audit result reports, and submit these reports to the President Director and the Board of Commissioners.
5. To conduct examinations and assessments of efficiency and effectiveness in the areas of finance, accounting, operations, human resources, marketing, information technology, and other activities.
6. To provide advisory services to add value and improve the quality of control, risk management, and corporate governance, provided that it does not affect independence and objectivity and that adequate resources are available.
7. Provide suggestions for improvements and objective information on the activities examined at all levels of management.
8. Prepare standards for the implementation of internal audit functions that at least cover the matters stipulated in the Internal Audit Professional Standards as a guide for Internal Auditors in carrying out their duties.
9. To report significant findings to the President Director and the Board of Commissioners for prompt corrective actions.
10. To monitor and report the results of follow-up monitoring on the ratification of significant findings to the President Director and the Board of Commissioners.
11. To develop quality improvement programs for the internal audit function.

12. Become a Liaison Officer for BRI external parties in relation to the audit function.

### Function of The Head of Internal Audit Business Unit

1. Possessing adequate competence and capabilities to lead an independent and objective internal audit function as required by the regulator.
2. Ensuring the implementation of the internal audit function in accordance with the Internal Audit Professional Standards.
3. Selecting competent human resources according to the needs in carrying out the Internal Audit Business Unit's duties.
4. Ensuring that the internal audit function was supported by adequate audit resources, methodologies, tools, techniques, and audit technology.
5. To periodically evaluate the technology used by the internal audit function and identify opportunities for effectiveness and efficiency.
6. To ensure that internal auditors comply with BRI's internal regulations, provided they do not conflict with the Internal Audit Charter. Any such conflict shall be resolved or communicated to the President Director and the Audit Committee.
7. Preparing measures for assessing the success of performance and achieving the objectives of the Internal Audit Business Unit.
8. To evaluate and develop the competence of each internal auditor through education, training, and other professional development programs.
9. Prepare an annual audit plan and its amendments (if any) and budget allocation for the implementation of the internal audit function
10. To communicate any significant changes in the annual audit plan to the President Director, the Board of Commissioners, and the Audit Committee for approval.
11. Ensure that the implementation of internal audits is in accordance with the internal audit plan, including the determination of objectives and scope, appropriate assignments and adequate supervision, documentation of work programs and test results, and communication related to assignment results, complete with conclusions and recommendations to related parties.
12. Monitoring corrective actions on significant findings.
13. To report the results of follow up monitoring on the remediation of significant findings to the President Director and the Board of Commissioners, with copies to the Audit Committee and the Director in charge of the Compliance Function.
14. In the event that there was use of external party services for internal audit activities, the Internal Audit Business Unit ensured that:

- a) Transfer of knowledge was organized between external parties and members of the Internal Audit Unit, considering the temporary use of external party expert services.
  - b) The use of external party services does not affect the independence and objectivity of the SKAI function.
  - c) External parties comply with the BRI Internal Audit Charter.
15. Ensure that if there was a request for audit documents by an external party (related to litigation), coordination was made with the BRI Legal Function.
  16. Prepare and review the internal audit charter periodically, at least once every 3 (three) years.
  17. The Head of The Internal Audit Business Unit obtains a written and transparent work assessment from the President Director and the Board of Commissioners based on the recommendations of the Audit Committee.

### Authority of The Internal Audit Business Unit

The Internal Audit Business Unit has the authority at least:

1. Access all information in full, free and unlimited about BRI's records, information, workers, funds and assets, locations/ areas, and other resources related to the duties and functions of the Internal Audit Business Unit, including subsidiaries/ affiliates/financial service institutions owned by BRI, relating to the implementation of audits and consulting.
2. Conduct verification, interviews, confirmations, and other inspection techniques with customers or other parties related to the implementation of audits and consultations.
3. Communicate directly with the Board of Directors, Board of Commissioners, and the Audit Committee.
4. Hold regular and incidental meetings with the Board of Directors, Board of Commissioners, and/or Audit Committee.
5. Participate in strategic meetings without voting rights, such as Board of Directors Meetings, ALCO Meetings, Risk Management Committee Meetings, and others.
6. Coordinate activities with external auditors related to external auditor inspection activities.
7. Allocate resources, set frequencies, determine scope of work, and apply techniques needed to achieve audit objectives.
8. Get help from other business units or use external party services (such as advisory services) in conducting audits if necessary.

### Composition of Internal Audit Unit Personnel

The IAU is committed to continue developing the quality, knowledge, skills, and competencies of the Auditors through continuous professional development. The following is the data on the number of the Internal Audit Business Unit Auditors on December 2025.

Position	Existing
SEVP	1
Internal Audit Head / GH	5
Dept. Head	12
Team Member ASQ	72
Team Member RTA	23
Team Member WHA	29

<b>Total</b>		<b>1.079</b>

### Competency Development Program for Internal Audit Unit

The Internal Audit Unit Competency Development Program is an ongoing effort to ensure auditors possess adequate, relevant, and aligned competencies with business developments, regulations, and risk complexity, thereby enabling them to support the implementation of a high-quality, value-added internal audit function. The following trainings were provided to Auditors in December 2025:

No	Name of Educational Activity	Number of Participants
1	IHT Special Request	606
2	Public Course Dalam Negeri	28
3	Public Course Luar Negeri	1
4	BLDP	155
5	BSDP*	1.647

No	Name of Educational Activity	Number of Participants
6	BSDP Lateral Joiner	86
7	Elearning*	9.175

#### Notes (\*):

1. The BSDP Education Program was implemented in 16 activity themes, with an average number of participants of 103 workers per theme.
2. The E-Learning Education Program was implemented in 23 activity themes, with an average number of participants of 399 workers per theme.

### Participation in The Internal Audit Professional Association

To advance the insight and professional competence of internal audit, ISU has participated in the internal audit professional association, one of which is the participation of IAU BRI in external organizations, such as:

Name of Activity/ Organization	Position
Forum Komunikasi Satuan Pengawas Intern (FKSPI)	Deputy General Chairman, Deputy Treasurer and Deputy Division Head
Ikatan Auditor Internal Bank (IAIB)	Deputy Secretary-General for Training, Education & Development; Communication; Certification & Ethics; Research & Development; Membership.
Association of Certified Fraud Examiners (ACFE) Indonesia	Chapter as Deputi Director of Public Relation & Publication
Asosiasi Forensik Digital Indonesia (AFDI)	Member of Partnerships
Indonesian Forensic Auditor Association (AAFI)	Legal, public relations and cooperation division

### Certification of Internal Audit Unit

The Internal Audit Work Unit has recertified ISO 9001:2015 related to the Quality Management System from the SGS Indonesia Certification Institute on January 18, 2024. The ISO certification was given to all SKAI work units including the Audit Standard & Quality Development Group, Head Office Audit, Special Investigation Audit, and 18 Regional Audit Offices.

Realizing the vision of SKAI BRI to become a reliable strategic business partner in order to achieve BRI's vision and become a benchmark of best practice for Internal Audit Work Units in Indonesia. This shows that SKAI BRI has implemented a quality management system in every audit implementation, so that it can help realize the vision of SKAI BRI to become a reliable Strategic Business Partner in order to achieve BRI's vision and mission and become a Benchmark of Best Practice for Internal Audit Work Units in Indonesia with international standards.

### Auditor Ethics and Professionalism

Internal auditors are required to adhere to ethical and professional standards. These standards include principles such as:

1. **Having Integrity**  
Behavior that reflects adherence to moral and ethical principles, including demonstrating honesty and the courage to act based on relevant facts.
2. **Maintaining Objectivity**  
An impartial mental attitude that enables internal auditors to make professional judgments, fulfill their responsibilities, and achieve Internal Audit objectives without compromise.
3. **Having Competence**  
Apply knowledge, skills and abilities to fulfill roles and responsibilities well.
4. **Applying Professional Due Care**  
Internal Audit applies due professional care in planning and implementing internal audit services. The following is the application of due professional care by Internal Auditors:
  - 1) **Compliance with Internal Audit Professional Standards**  
Internal auditors must follow the Internal Audit Function Standards and methodologies when planning and performing internal audit services and communicating the results.

- 2) **Professional precision**  
Internal auditors must exercise professional precision in assessing the nature, circumstances, and requirements of the services to be provided.
- 3) **Professional Skepticism**  
Internal auditors must apply professional skepticism in planning and performing internal audit services by maintaining an inquisitive attitude, critically assessing the reliability of information, being straightforward and honest, and providing additional evidence if information and statements are found to be incomplete, incorrect, or misleading.
5. **Maintaining Confidentiality**  
Internal auditors should respect the value and ownership of information received by using it only for professional purposes and protecting it from unauthorized use.

### Audit Management System

To support the effectiveness of the internal audit function, an Audit Information Management System is a strategic requirement for the Internal Audit Unit. The implementation of an Audit Management System (AMS) serves as a means of managing an integrated, efficient, and adequately documented audit process, encompassing the stages of planning, implementation, reporting, and monitoring the follow-up of audit results in an end-to-end, data-driven manner. Therefore, the Audit Information Management System is designed as a centralized platform (single source of truth) that supports the standardization of audit methodology, improving the quality and consistency of audit implementation, and strengthening transparency and accountability. This system is an enabler for the transformation of the internal audit function in increasing added value and the timely delivery of audit results to management and relevant stakeholders.

### Audit Methodologies

The Internal Audit Work Unit implements the Risk-Based Internal Audit (RBA) and Agile Audit methodologies in carrying out the audit function by focusing on high-risk areas. The audit universe is determined by considering the company's objectives, the results of an evaluation of risks that could potentially hinder the achievement of those objectives, and an assessment of the adequacy and effectiveness of the internal control system in mitigating risks. With this approach, audit implementation is directed toward high-risk areas that have the potential to significantly impact the achievement of the company's objectives.

To support the efficiency and effectiveness of the implementation of Risk-Based Internal Audit, SKAI utilizes **Computer Assisted Audit Techniques (CAATs)** as an audit analytical tool to improve the quality, accuracy, and depth of testing. The Risk-Based Internal Audit methodology is applied in both assurance and advisory activities, including at the annual audit planning and assignment planning stages, in determining audit areas or objects such as work units, business processes, and information technology audit objects. The approach used is based on business processes and activities, where business processes are understood as a series of activities that transform inputs into value-added outputs, regardless of the organizational structure, technology, or level of automation used.

Agile Audit is a work approach and mindset adopted by the Internal Audit function to increase focus on stakeholder needs and expectations, accelerate the audit cycle, encourage timely delivery of insights, reduce non-value-added activities, and produce more effective audit documentation. In its implementation, Agile Audit can be applied through various methods, one of which is the Scrum method, which emphasizes the implementation of audit activities iteratively and incrementally to provide continuous value to the organization. This approach is based on the principles of the agile manifesto, which emphasizes intensive collaboration, orientation towards stakeholder satisfaction, and the ability to respond adaptively to change throughout the audit cycle.

In addition to implementing Risk-Based Internal Audit and Agile Audit, Internal Audit Unit (SKAI) also developed and implemented a Continuous Auditing approach as part of strengthening ongoing and adaptive oversight of risk dynamics. This approach enables more continuous monitoring and testing through the use of data and analytics. The results of this continuous monitoring are used as a basis for refining risk assessments, adjusting audit scopes, setting assignment priorities, and delivering early warnings and relevant insights to management. Thus, **Continuous Auditing** serves not only as an early detection tool but also as a supporting mechanism for decision-making, strengthening risk prevention and continuously improving the effectiveness of governance, risk management, and internal control systems.

### Brief Report on The Implementation of Internal Audit Activities in 2025

The audit was carried out in accordance with the Annual Audit Plan (PAT) which has been approved by the President Director and President Commissioner. During 2025, SKAI carried out regular audits on 5,695 business units or reached 110% of PAT with the following details:

Work unit	2025 Target	Audit Realization	Achievement
Group	3	3	75%
Regional Office	18	18	100%
Regional Audit Office	18	18	100%
Branch office	220	306	139%
Branch Office	217	297	137%
Cash Office	151	252	167%
BRI Unit	1,775	4,795	270%
Overseas Work Unit	3	3	100%
Subsidiary Company	2	3	150%
Total	2,409	5,695	236%

## Intern Audit Unit Meeting

The Internal Audit Unit has a meeting policy, namely being able to hold periodic and incidental meetings with the Board of Directors, Board of Commissioners and the Audit Committee. The BRI Internal Audit Business Unit can attend strategic meetings without having voting rights, such as ALCO meetings, Risk Management Committee meetings and, Integrated Governance Committee meetings, and the Product Committee.

During 2025, The Internal Audit Business Unit has held 145 times meetings with the Board of Directors, Board of Commissioners, Committees under the Board of Commissioners and Committees under the Board of Directors, with details as follows.

No	Information	Number of Meetings
1	Board of Commissioners	13
2	Board of Directors	71
3	Board of Commissioners and Directors	5
4	Audit Committee	7
5	Risk Management Monitoring Committee	9
6	Integrated Governance Committee	21
7	Product Committee	19
<b>Total</b>		<b>145</b>

## Findings and Follow-Up on Audit Results

The Internal Audit Business Unit carries out regular monitoring of commitments to improve internal control weaknesses in accordance with recommendations from The Internal Audit Business Unit, Supervisors and External Auditors. The results of monitoring the implementation of management commitments up to December 31, 2025 are as follow:

No	RPM Monitoring Results	Number of Recommendations	% Recommendation
1	Adequate	82.552	99,74%
2	Inadequate	-	-
3	Under Monitoring	212	0,26%
<b>Total</b>		<b>82.764</b>	<b>100,00%</b>

**Note:**

- 1) There were no recommendations that received an "inadequate" opinion in 2025.
- 2) Monitoring includes follow-up commitments that have not yet matured in 2025.

The Liaison Officer Function of SKAI has monitored the progress of follow-ups and corrective actions based on findings from External Auditors and Regulators. The results of management's commitment monitoring regarding the findings of External Auditors and Regulators as of December 31, 2025, are as follows:

No	Examining Agency	Number of Commitments			
		Total Commitment	Finished	Not finished yet	
				Within the deadline	Missed the deadline
1	Financial Services Authority	766	746	20	-
2	Indonesian Financial Audit Agency (BPK)	260	203	57	-

## Risk Management Unit

### Risk Management Directorate Performance Summary 2025

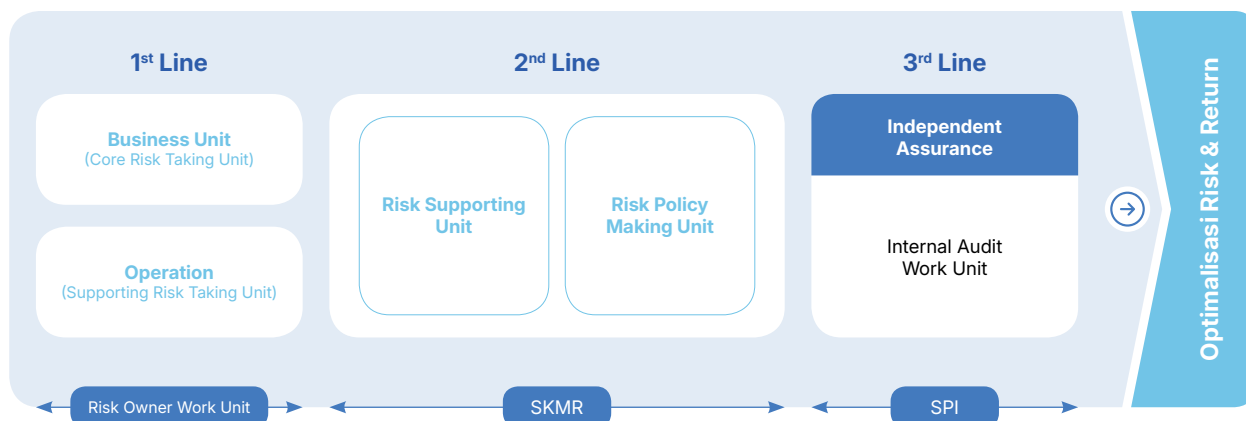

Risk Management is implemented across all banking activities in accordance with regulatory requirements. The process involves continuous risk identification, measurement, monitoring, and control, which are carried out through the three lines model.

The first line, as the risk-owning unit, is directly responsible for identifying and managing risks within business processes, which include the Core Risk Taking Units and Supporting Risk Taking Units. The second line, which consists of the Risk Management and Compliance functions, operates as an independent unit that measures, monitors, and mitigates risks at an aggregate level while also developing methodologies and policies for Risk Management. The third line, represented by the Internal Audit function, ensures that governance and risk control mechanisms are effectively implemented by the company.

BRI's Risk Management Business Unit is reflected in the BRI Risk Management Organization as follows:

## Duties and Responsibilities of Risk Management

The Risk Management Unit is an independent unit separate from the Risk-Taking Unit and Internal Audit Unit (SKAI), consisting of the Risk Supporting Unit and Risk Policy Making Unit, with the following duties and responsibilities:

1. Risk Supporting Unit
  - a. Develops procedures and tools for identifying, measuring, monitoring, and controlling risks to support the supervision process.
  - b. Monitors the implementation of policies, strategies, and guidelines for risk management applied by the RiskTaking Unit.
  - c. Tracks overall risk position/exposure (composite), as well as by risk type and functional activity, including compliance monitoring with risk tolerance and established limits.
  - d. Reviews proposals for new products and/or activities, including an assessment of BRI's capability to execute new activities/products and evaluations of proposed system and procedural changes.
  - e. Conducts regular reviews and/or as needed to ensure the adequacy of risk management policies, strategies, and guidelines, the accuracy of risk assessment methodologies, and the adequacy of the Risk Management Information System.
  - f. Prepares and submits mandatory reports to regulators in compliance with applicable regulations.
  - g. Provides recommendations to the Risk-Taking Unit within its designated authority.
2. Risk Policy Making Unit
  - a. Develops policies and strategies for Risk Management implementation.
  - b. Formulates, evaluates, and submits proposals for the determination of Risk Appetite, Risk Tolerance, and Risk Limits to the Board of Directors, taking into account inputs from the Risk-Taking Unit.
  - c. Develops procedures and tools for identifying, measuring, monitoring, and controlling risks.
  - d. Monitors overall risk position/exposure (composite), as well as per risk type and functional activity, including compliance monitoring with risk tolerance and established limits.
  - e. Conducts stress testing periodically or as needed to assess the impact of economic changes on portfolio performance and overall business operations.
  - f. Evaluates the accuracy of risk models and validates the data used for risk measurement.
  - g. Prepares and submits Risk Management monitoring reports along with improvement recommendations to the Board of Directors through the Risk Management Committee.
  - h. Conducts regular reviews and/or as needed to ensure the adequacy of risk management policies, strategies, and guidelines, the accuracy of risk assessment methodologies, and the adequacy of the Risk Management Information System (RMIS).
  - i. Prepares and submits mandatory regulatory reports in compliance with applicable regulations.

## Risk Management Certification

Risk Management Certification is proof of the fulfillment of HR competencies in BRI's Risk Management in accordance with the competency standards issued by the Banking Sector Professional Certification Institution (LSP). The number of employees holding Risk Management Certification at BRI in 2025 is as follows:

No	Certification Level	Participant
1	Level 4	3.827
2	Level 5	952
3	Level 6	29
4	Level 7	28
<b>Total</b>		<b>4.836</b>

## Implementation of Risk Management Functions In 2025

### 1. Determination of Risk Appetite Statement (RAS) and Risk Limit

BRI's Risk Appetite Statement (RAS) serves as an objective guideline in strategic decision-making related to risk management and as a management instrument in implementing Good Corporate Governance (GCG). In 2025, the Board of Directors updated BRI's Risk Appetite Statement (RAS) in the form of quantitative statements, formulated by taking into account the Bank's risk-taking capacity as well as its overall strategies and corporate objectives. The determination of the RAS has obtained approval from the Board of Commissioners and has been duly communicated to the Controlling Shareholder. The RAS is reviewed annually or at any time as necessary, with due consideration to changes in BRI's business plans and objectives, developments in the business environment, and Shareholders' aspirations.

Furthermore, the RAS is reduced to the risk limit for each risk indicator. The determination of RAS and risk limits is carried out by taking into account the level of risk to be taken as well as the overall strategy and targets of the Bank. The set risk limits include overall (composite) risk, per type of risk, and per functional activity. The determination of risk limits is used as a guide for business unit activities to manage the type and amount of risk that is acceptable.

### 2. Preparation of a Systemic Bank Recovery Plan and v Resolution Plan

In 2025, BRI updated the Recovery Action Plan, which are regulated in POJK No. 5 of 2024 concerning the Determination of Supervisory Status and Handling of Problems of Commercial Banks.

The Recovery Action Plan document outlines mechanisms aimed at preventing, recovering, and/or improving BRI's financial condition in response to financial crises or other market disruptions that impact capital, liquidity, profitability, and asset quality, which may threaten BRI's business continuity. In addition to the Recovery Plan, BRI has prepared the Resolution Plan document contains information about the Bank and resolution strategies, which serve as one of the considerations for LPS in handling or resolving banks classified as failing banks as mandated under LPS Regulation No. 2 of 2024 concerning Resolution Plans for Commercial Banks.

The contents of the Recovery Action Plan include:

- Materiality analysis and ranking to determine the ranking of business lines, office networks, and subsidiaries;
- Analysis of external business linkages;
- Impact scenario analysis of changes through Stress Testing, divided into three (3) scenarios: Idiosyncratic, Market-wide, and a combination of both (worst-case scenario);
- Trigger levels for activating the Recovery Action Plan based on the results of Stress Testing, categorized into prevention, recovery, and improvement levels according to OJK Regulation No. 5 of 2024; and,
- Recovery options for capital, liquidity, profitability, and asset quality.

Meanwhile, the contents of the Resolution Plan include parts of the Recovery Action Plan, with the addition of:

- Analysis of critical economic functions;
- Analysis of critical shared service functions in IT and nonIT fields, along with their continuity in the resolution phase;
- Analysis of critical financial market infrastructure relationships, along with their continuity in the resolution phase;
- Analysis of resolution options; and
- Identification of assets

The Disclosure Report on the Recovery Action Plan and Resolution Plan of BRI is presented to internal and external parties, with the level of disclosure adjusted according to each targeted audience.

### 3. Implementation of Risk-Weighted Assets Calculation for Credit Risk under Basel III Reform Standardized Approach

As of January 1, 2023, BRI will start implementing the calculation of Risk-Weighted Assets (RWA) for Credit Risk in accordance with SEOJK No 24/SEOJK.03/2021 dated October 7, 2021 concerning Calculation of Risk-Weighted Assets for Credit Risk using a Standard Approach for commercial Banks.

Changes in the calculation methodology in these provisions include:

- a. Changes in risk weights and more granular bucket numbers.
- b. More diverse portfolio category classifications.
- c. The need to carry out due diligence on counterparties to ensure understanding of the risk profile and characteristics of counterparties so that risk weighting does not depend solely on external ratings.

In the implementation of the new calculation standard, BRI has developed an automated calculation system, particularly for the classification of loan assets, and has reported it to the OJK every month since January 2023. In 2025, BRI implemented OJK policies related to the calculation of RiskWeighted Assets (RWA) for derivative transactions through Central Counterparty (CCP). This step strengthens credit risk mitigation and supports capital efficiency in accordance with Basel III standards. With CCP as an intermediary, BRI ensures that derivative transactions are safer, more transparent, and in line with regulations, thus enhancing banking stability and customer trust.

#### **4. Implementation of Risk-Weighted Asset Calculation for Market Risk under Basel III (Fundamental Review of The Trading Book)**

In accordance with SEOJK No.23/SEOJK.03/2022 dated December 7, 2022, on the Calculation of Risk-Weighted Assets for Market Risk, BRI has implemented the calculation (system and methodology) of Market Risk RWA in the calculation of the Minimum Capital Adequacy Ratio (KPMM) starting from January 2024. The update of regulations related to Market Risk RWA aims to strengthen the capital held by banks, address weaknesses identified during the global financial crisis, and minimize discrepancies in the capital models used by banks.

#### **5. Implementation of Interest Rate Risk in the Banking Book (IRRBB) Calculation**

BRI has implemented a methodology to measure the impact of interest rate movements in the banking book through Interest Rate Risk in the Banking Book (IRRBB) in accordance with SEOJK No.12/SEOJK.03/2018 dated August 21, 2018. The IRRBB calculation is regularly conducted using the Economic Value of Equity (EVE) and Net Interest Income (NII) methods. The EVE method uses a long-term perspective to calculate interest rate sensitivity to Tier 1 capital, while the NII method uses a short-term perspective to calculate interest rate sensitivity to BRI's estimated income for the coming year.

#### **6. Implementation of Model Risk Management**

BRI has implemented a framework designed to identify, measure, monitor, and control risks arising from the use of models in decision-making processes. Model risk inherent in each model is subject to continuous monitoring. The responsibility for model risk control lies with the work unit performing the Model Risk Management function and the work unit responsible for model validation. Such responsibilities include risk measurement and monitoring throughout the model lifecycle. Additional responsibilities encompass independent validation and review procedures.

#### **7. Development of Methodology for Validating Internal Credit Risk Rating and Credit Risk Scoring and Validation of the CKPN Model**

Based on the Basel Capital Accord and in accordance with OJK requirements, internal models must meet a series of minimum criteria. In line with Basel provisions and the OJK Circular No. 34/SEOJK.03/2016 on Risk Management for Commercial Banks, it is stated that banks must measure risks in accordance with the characteristics and complexity of their business activities. OJK also requires banks to have a strong internal process for validating all components of the credit risk models they use.

#### **8. Process of Improving the Counterparty Limit Structure and Developing Risk Limits in the Guava Application as Part of the Guava Application Revamp Project**

Based on the needs from changes in the organizational structure and strategy of the Treasury business group, as well as the increasingly complex Treasury business requirements, adjustments to the counterparty limit structure within the Guava application are needed to support better risk management performance. Furthermore, in alignment with the risk management strategy to strengthen the monitoring process of dealer performance in the Treasury business group, a Risk Limit development process has been carried out within the Guava application, which is one of the components of the Guava application revamp project.

#### **9. Integrated Risk Management**

In line with the expanding scope of BRI Financial Conglomerate in accordance with OJK Regulation No. 30 of 2024 concerning Financial Conglomerates and Financial Conglomerate Holding Companies, the MPE Group has established an integrated Risk Management framework. To facilitate effective Risk Management, members of the Financial Conglomerate are classified into Level 1, Level 2, and Level 3 entities, including certain members designated as holding entities of Level 3 members. The MPE Group has also conducted a gap

analysis to assess the adequacy of risk governance organs. In addition, the Integrated Risk Management Forum has been further developed into the Integrated Risk Management Sub-Committee, the Integrated Risk Management Directors Forum, and the Integrated Risk Management Work Unit Forum.

#### 10. Implementation of Anti Fraud Strategy

In compliance with OJK Regulation Number 12 of 2024, dated July 21, 2024, on the Implementation of Anti-Fraud Strategies for Financial Service Institutions, and as a demonstration of the commitment of the Board of Directors and Board of Commissioners, BRI has strengthened fraud control through the implementation of an anti-fraud strategy. The BRI Anti-Fraud Strategy regulations have been updated in accordance with Circular Letter P3MRO No. SE.58.b-DIR/ ORD/12/2022, Book 2, concerning BRI's Anti-Fraud Strategy, dated December 31, 2024. The implementation of the Anti-Fraud Strategy consists of:

##### 1. Pilar 1 (Prevention)

It is the responsibility of all levels of the Bank to minimize the potential for fraud by strengthening awareness and an anti-fraud culture which is manifested by the willingness to sign an integrity pact by all levels of the Bank's organization including the Board of Directors, Board of Commissioners and all BRILian personnel at least once a year. Programs implemented in the prevention pillar include: education and development of anti-fraud competency for all employees, increasing awareness for customers which is carried out regularly through the Bank's social media platforms, identifying vulnerabilities in the Bank's operational activities and/or business processes, as well as getting to know employees policies.

##### 2. Pilar 2 (Detection)

It is the responsibility of all levels of the Bank to detect fraud that occurs within the Bank. Devices used to detect fraud include: Whistleblowing System, Fraud Detection System, surprise inspection activities that prioritize vulnerable business units or activities, as well as the implementation of a monitoring system.

##### 3. Pilar 3 (Investigation, Reporting and Sanctions)

Investigation activities are carried out by the Fraud Investigation Function and the results are reported to the Board of Directors and Board of Commissioners, as well as Regulators, including recommendations for resolving cases in the form of applying disciplinary sanctions and/or legal processes in accordance with the Bank's internal provisions and applicable legal regulations.

##### 4. Pilar 4 (Monitoring, Evaluation and Follow-up)

This is a monitoring activity regarding the follow-up to the results of fraud investigations as well as efforts to improve the internal control system to prevent the same fraud incident from recurring. The Board of Directors and Board of Commissioners actively carry out regular monitoring and evaluation of the implementation of anti-fraud strategies.

#### 11. Strengthening Digital Risk Management

Along with the development of the bank's digitalization, the exposure to risks in using digital platforms for banking services has also increased. This rise in risk exposure requires a more adaptive and effective digital risk control process to enhance the resilience of the bank's infrastructure and the reliability of BRI digital services.

In response to such developments, BRI has issued Guidelines for the Implementation of Digital Risk Management as the foundation for assisting, monitoring, and assessing the adequacy of digital risk management across all work units and entities within the financial conglomeration. The implementation of these guidelines is supported by comprehensive digital risk management tools, including a digital risk register, Key Risk Indicators (KRI), an incident database and analytics platform, as well as action plan management integrated into the overall risk management framework.

Currently, to align with the bank's business growth and adapt to the increasing digital risk exposure resulting from digitalization, BRI is enhancing the Integrated Risk Management System (IRMS Tools) to strengthen its capabilities in monitoring, reporting, and conducting more structured and data-driven risk analysis.

From a governance perspective, the Digital Risk Group continuously updates internal regulations and expands policy modules to ensure alignment with technological advancements, evolving cyber threat dynamics, and increasingly complex risk mitigation requirements.

BRI's commitment to Personal Data Protection has been further strengthened through the establishment of a Data Protection organization as a form of compliance with the Personal Data Protection Law (PDP Law). The implementation of data protection is carried out in a measured and structured manner, supported by strengthened documentation, monitoring of control effectiveness, and the application of continuous improvements to enhance the maturity of Personal Data Protection practices. This initiative also contributes to the enhancement of BRI's Environmental, Social and Governance (ESG) performance, particularly within the governance and information security dimensions.

As part of the implementation of integrated governance within the Financial Conglomeration, BRI together with its Subsidiaries has undertaken the harmonization of standards and the strengthening of consolidated digital risk oversight to ensure aligned digital resilience across all entities.

## 12. Establishment of the IT Third Party Risk Management Department

In line with the increasing reliance on Information Technology Service Providers (PPJTI) and Digital Partners in supporting the Bank's business operations, BRI views third-party risk management as a strategic risk area that is critical to operational stability and the Bank's reputation.

In 2025, BRI established the IT Third Party Risk Management Department under the Digital Risk Group as a strategic initiative to strengthen information technology third-party risk management in a structured and end-to-end manner.

The establishment of this Department underscores BRI's commitment to ensuring that all collaborations with PPJTI and Digital Partners are grounded in comprehensive risk identification, assessment, monitoring, and control processes, including oversight of information security, service reliability, regulatory compliance, and operational sustainability aspects.

As part of strengthening the governance framework, BRI is currently preparing a Circular Letter (Surat Edaran) on Information Technology Third-Party Risk Management, as well as a Risk Management Handbook for PPJTI and Digital Partners. The formulation of these policies and guidelines aims to ensure standardized third-party risk management processes across all Work Units and Subsidiary entities, while reinforcing oversight of risk exposures arising from collaborations with external information technology parties.

This initiative further affirms BRI's direction in managing digital ecosystem risks comprehensively, while ensuring that digital expansion and innovation are aligned with prudential principles, sound governance practices, and prevailing regulatory requirements.

Through this enhancement, BRI positions third-party risk management not merely as a compliance function, but as a strategic instrument to safeguard systemic stability and maintain Stakeholders' trust.

## 13. Granular Credit Scoring

BRI has developed a scoring model based on more specific criteria by examining the risk profile of particular characteristics. The goal of the granular scoring model is to provide a more accurate and targeted credit risk assessment based on the risk profile of each customer. This allows credit to grow while maintaining high-quality credit standards.

## 14. Development of Early Warning Signals for Corporate and SME Loan

To enhance credit risk monitoring, BRI has developed an Early Warning System (EWS). The EWS system is built using both internal and macro risk indicators and incorporates forwardlooking analysis. The EWS system is implemented for the Corporate and SME segments. The EWS generates signals (warnings) that BRI uses as a reference to determine actions that need to be taken in the asset management process.

## 15. Policy on Debt Write-Off PP 47

BRI consistently supports government programs, including policies related to the write-off of loans for SMEs. BRI has issued internal regulations concerning the write-off of loans for SME borrowers.

## 16. Assessment of the Adequacy of New Bank Product Risk Management (PBB)

The product owner is required to conduct a self-assessment on every plan to issue a New Bank Product (PBB). Furthermore, the Risk Management Business Unit (SKMR) coordinated by the Operational Risk Division evaluated the adequacy of risk management against the plan to issue New Bank Product. In this assessment, Risk Management Business Unit ensured that every risk attached to the plan to issue New Bank Product and controls had been properly identified and measured. The process of assessing the adequacy of risk management involved Risk Management Business Unit in accordance with the areas of risk that were their authority. An assessment of the adequacy of risk management was also carried out on the plan to organize activities for the Bank's own activities as a form of implementation of the Bank's Risk Management.

The risk management policy for the planned issuance of PBB is regulated in Circular Letter No. SE.30-DIR/PPM/11/2024 Book 2 on Risk Management in Product Implementation. The adequacy assessment of risk management from SKMR is then used for the further product management process of the Bank, both internally and in reporting to the Regulator, in accordance with POJK No. 13/POJK.03/2021 on Commercial Bank Product Implementation.

#### 17. Increased Capability of Regional Operational Risk & Compliance (RORC)

The establishment of Regional Operational Risk & Compliance (RORC) was carried out to strengthen the implementation of Risk Management at the Regional level in order to realize the risk management aspirations of "Managing Risk for Sustainable Business, Operational Excellent, and Banking Resilience".

RORC di in the Regional Office acts as a control tower that maintains the quality of the portfolio and operations at the Regional level and is led by an Officer at the Vice President (VP) level called the RORC Head. RORC's organizational structure consists of an RORC Head who supervises Credit Risk Analyst (CRA) and Risk Management and Compliance (RMC).

The RMC, based at the Regional Office, supervises the Micro Retail Risk Management & Compliance (MRR) function located at the Branch Offices, which in turn oversees the Retail and Micro Work Units. The roles and responsibilities of MRR are stipulated under SOP No. SO.36-ORD/12/2024 concerning the Regional Risk Management Standard Operating Procedures.

To support the implementation of the RORC role, several competency development activities have been conducted throughout 2025, including:

- a. Implementation of the Risk Upgrade Series Webinar for the RORC Team.
- b. BSDP training for RORC, RMC and MRR.
- c. In-House Training (IHT) for the RORC Team at the Regional Office.
- d. Awareness Programs for the RORC Team (RRM Smart (Sharing Session), Podcast, Risk Awareness: catalog, Video, Flyer, BRILIAN Sadar Risk, Risk in News, dan E-Learning).
- e. Risk Management Certification (Levels 4 and 5) and compliance certification.
- f. Quality Assurance Implementation across all RMC and MRR.
- g. MRR Assessment: Evaluation/Re-assessment of MRR with results categorized as Fit or Need Improvement.

MRR, as a partner to Branch Office Unit Leaders, is primarily responsible for ensuring operational risk management and compliance to safeguard performance targets, fraud control, human error prevention, BCM & K3 implementation, and adherence to internal and external regulations within its assigned units. To support MRR activities, several system developments have been implemented, including:

- a. Dashboard Early Warning Sign : Dashboard Profil Risiko Regional, Key Risk Indicator Dashboard (KRID), Operational Supervision Dashboard (DPO), Irregularity Activity Tools.
- b. Fraud Detection System.
- c. Data Collaboration with 3rd Line: Regular Monitoring and Fraud Risk Detection.
- d. Operational Risk Management Tools: BRIOPRA 4.0 and IRMS.

#### 18. Implementation of Risk Awareness Culture

Risk & Governance Culture is the basis for implementing the BRI One Culture national cultural theme to ensure the implementation of risk management in every banking activity. In 2023, Risk Culture provisions have been issued through SE.04-DIR/CTR/01/2023 dated January 31, 2023 regarding Corporate Culture Book 2 Risk Culture as a guide for Insan BRILian in implementing and supporting the implementation of Risk Culture.

Risk culture internalization programs that have been implemented include:

- a. Culture Activation Program (CAP)  
Each business unit has established a CAP to shape the behavior needed to achieve KPIs prudently through the activities specified in the CAP.
- b. Build Worker Risk Awareness in Business Unit  
SKMR routinely delivers risk awareness media in the form of letters, media infographics, webinars, podcasts, e-learning, the Bank's official social media accounts and email/WA/sms blasts.
- c. Empowering Risk Officer  
The involvement of the Risk Officer as the Transformation Driving Team is required in internalizing and ensuring that the implementation of risk culture is implemented. Thus, the MR function is strengthened through adjusting operational procedures and upgrading knowledge and technical skills through education/socialization.
- d. Early Detection  
The implementation of a risk culture needs to be supported by Early Warning System tools which can help mitigate or correct risk events early.
- e. Business Process Review  
Risk culture activities are reflected through the implementation of daily banking operational procedures. Thus, it is necessary to review the adequacy of control over operational procedures.

#### 19. Implementation of Business Continuity Management (BCM) and K3 Management System (SMK3)

BRI recognizes and understands its role in providing banking products and services while ensuring business continuity, both under normal conditions and during disruptions or disasters. This has led BRI to establish

specific policies to identify, test, and implement Business Continuity Management (BCM). BCM constitutes a critical process for the Bank to maintain business operational continuity and minimize potential impacts arising from disruptions or disasters. Accordingly, the policies governing the implementation of BCM at BRI are set forth in the Board of Directors Circular Letter No. SE.12-DIR/MPE/09/2025 dated 29 September 2025 concerning Business Continuity Management and the Standard Operating Procedure (SOP) No. SO.09-ORD/03/2025 dated 27 March 2025 concerning Business Continuity Management.

In addition, BRI's main commitment to the health and safety of employees' lives was met by implementing an Occupational Safety and Health Management System (SMK3) to minimize operational risks. The implementation of Occupational Safety and Health Management System at BRI was coordinated by the BCM and OHS Departments in the Operational Risk Division, under the Risk Management Directorate. The BRI SMK3 policy is regulated in the Circular Letter of the Board of Directors No. SE.12-DIR/MPE/09/2025 dated September 29, 2025, Book 1 concerning Business Continuity Management (BCM) and Book 2 concerning the Occupational Health and Safety Management System (SMK3), as well as SOP No. SO.09-ORD/03/2025 dated March 27, 2025.

During 2025, BRI implemented several programs for Business Continuity Management (BCM) and Occupational Health and Safety Management System (SMK3), including: Risk Assessment for Disaster Threats (PRAB), Business Impact Analysis (BIA), review and updating of the Business Continuity Plan (BCP), Disaster Recovery Plan (DRP), Emergency Response Plan (ERP); Socialization and training for floor wardens; preparation of BCM and K3 risk awareness materials in the form of letter, infographics, video, dan podcast; as well as conducting emergency response simulations and drills across all Regional Offices and Branch Offices to ensure workers' understanding in facing disruptions/disasters.

In line with efforts to strengthen the implementation of BCM, BRI has obtained ISO 22301:2019 certification for the implementation of the Business Continuity Management System (BCMS) from PT BSI Group Indonesia for the scope of financial transactions and banking payment systems. It is expected that this certification will ensure and enhance resilience in the banking payment system in facing disruptions/disasters.

## 20. Preparation for the Implementation of Minimum Capital for Operational Risk Using the Standardized Approach

In the calculation of capital requirements and Operational RWA in accordance with SEOJK No. 6/SEOJK.03/2020

dated April 29, 2020, on the Calculation of Risk-Weighted Assets (RWA) for Operational Risk Using the Standardized Approach for Commercial Banks, BRI has set regulations for Operational Risk RWA using the standardized approach through the Director's Circular No. SE.66-DIR/MPE/12/2022 Book 2 on Operational RWA Calculation. BRI reported the results of the Operational RWA calculation to OJK on April 30, 2025. This measurement is intended to assess the adequacy of a bank's capital against operational risk exposures over a one-year period.

## Committees Under The Board of Directors

The Board of Directors formed a committee to assist in carrying out the duties and responsibilities of managing the bank. As of December 31, 2025, BRI has Committees under the Board of Directors as follows:

1. Asset and Liability Committee (ALCO)
2. Credit Policy Committee
3. Environmental, Social & Governance (ESG) Committee
4. Human Capital Committee
5. Information Technology Steering Committee
6. Procurement Committee
7. Product Committee
8. Risk Management Committee
9. Transformation Steering Committee
10. Financial Conglomeration Governance

### Asset and Liability Committee

ALCO is a Committee at the Head Office which is responsible for formulating and determining assets and liabilities.

### Asset and Liability Committee (ALCO) Charter

In carrying out its duties, ALCO refers to the Director's Decree No. Nokep.: 5892-DIR/PPM/11/2025 dated November 25, 2025 concerning the Asset and Liability Committee (ALCO) of PT. Bank Rakyat Indonesia (Persero) Tbk., which regulates ALCO Organization, Duties, Authority and Responsibilities, Work Procedures.

### Duties and Responsibilities of Asset and Liability Committee (ALCO)

The Asset and Liability Committee (ALCO) has the following duties and responsibilities:

1. To establish strategies for the Bank's asset and liability management in order to optimize Net Interest Income (NII), including:
  - a. Liquidity management strategies;
  - b. Market risk management strategies (interest rate and foreign exchange risk);

- c. Cost-bearing liabilities/funding and Cost of Funds (CoF) management strategies;
- d. Earning asset and interest income management strategies (Yield Management);
2. To determine interest rate strategies for Loan products, Third-Party Funds (DPK), and Trade Finance (TF), including the Base Lending Rate (SBDK), Counter Rates, and Special Rates.
3. To evaluate the effectiveness of such strategies in alignment with the objectives of liquidity risk and market risk management.

### Structure of Asset And Liability Committee (ALCO) Membership

## Profile of Asset and Liability Committee (ALCO) Member

Profiles of ALCO members can be seen in the Profile of the Board of Directors section of this Annual Report.

## Asset and Liability Committee (ALCO) Independence Statement

All members of ALCO had no affiliation with other Directors, Commissioners or Controlling Shareholders, they were not shareholders of the Company which may affect their ability to act independently, Commissioners, Directors or employees of companies that have affiliations or do business with BRI.

## Training and/or Competence Improvement of Asset and Liability Committee (ALCO) In 2025

ALCO's training and/or competency improvement can be seen in the Board of Directors' Training and/or Competency Improvement section in this Annual Report.

## Meeting and Implementation of Asset and Liability Committee (ALCO) In 2025

### MEETING POLICY

- ALCO meetings are held on a regular basis At least 1 (one) time in 1 (one) month .
- The ALCO Meeting is chaired by the Chairman of ALCO. In the event that the ALCO Chairman is unable to attend, the ALCO Meeting shall be chaired by the Substitute

ALCO Chairman in sequence as stipulated in Article 2 of this Decree.

- In the event of a very urgent condition (contingency) for ALCO to implement, but the Chairman and/or Substitute Chairman is unable to chair the meeting, the Chairman of ALCO may delegate to one of the Directors to lead ALCO which decision letter is approved by the Chairman of ALCO and administered by Secretary of ALCO.
- An ALCO meeting may be convened if attended by at least half of the ALCO Permanent Members plus one additional Permanent Member, including the Chair or Alternate Chair of ALCO.
- The decisions of the ALCO Meeting were taken by deliberation and consensus. In the event that full agreement could not be reached, the decision of the ALCO Meeting was considered valid with the approval of 50% (fifty percent) of the total ALCO Members with voting rights plus 1 (one) ALCO Member, including members of the Board of Directors, one of whom was the Chairman of ALCO or Substitute of ALCO Chairman.
- The convening of ALCO meetings, other than those stipulated in Article 4 points 1 to 5, may be conducted upon approval from the ALCO Chair.
- Implementation of ALCO Overseas Business Unit refers to a separate decree prepared by each Overseas Business Unit considering several things such as organization, assetliability management strategy, etc. which is coordinated by the Business Unit in charge of Overseas Business Unit. The results of the ALCO Overseas Business Unit implementation are reported to the Director and Business Unit in charge.

12	December 9, 2025	Determination of the required yield for 2026, switching of special rate quotas in the Consumer and CSME segments, expansion of Corporate quotas, and proposals to reduce authority in approving special rates.

## Credit Policy Committee

Credit Policy Committee is a committee at the Head Office level that assists the Board of Directors in formulating the Company's credit policies and provides recommendations for improvements to such credit policies.

### Credit Policy Committee Charter

In carrying out its duties, the Credit Policy Committee refers to the Board of Directors Decree Nokep.: 5893-DIR/PPM/11/2025 dated November 25, 2025 concerning the Credit Policy Committee of PT. Bank Rakyat Indonesia (Persero) Tbk., which regulates the Organization, Duties, and Responsibilities, and Work Procedures.

### Duties and Responsibilities of The Credit Policy Committee

1. Establishing Bank's Credit Policy (KPB), particularly in formulating prudential principles in lending, as regulated in the Guidelines for Formulating Bank Credit Policies (PPKPB), and other credit policies that require decisions from the Credit Policy Committee Meeting.
2. Supervise the implementation of the Bank Credit Policy (KPB) in a responsible and sustainable manner and formulate alternatives and implementation solutions if there are obstacles.
3. Conducting periodic reviews of BRI's Credit Policy (KPB) and other credit policies in accordance with the minimum

policy review timeframe as stated in BRI's KPB and other credit policies.

4. Carry out an evaluation of:
  - a. Correct implementation of the authority to decide on loan or provide funds, development and quality of credit extended to Related Parties of the Bank and certain large debtors.
  - b. The accuracy of the exercise of authority in approving credit or fund disbursement.
  - c. Correct implementation of the provisions on the Legal Lending Limit (LLL).
  - d. Certain large debtors and loans on the Special Mention Loan list.
  - e. Policies on the provision for expected credit losses (CKPN) and write-off reserves.
  - f. Resolution of non-performing loans in accordance with the provisions set forth in the Non-Performing Loan Resolution Guidelines (KPB).
  - g. Compliance with statutory provisions and other regulations in the implementation of loan provision.
5. Conduct a study assessing the effectiveness of the loan internal control system.
6. Submitting periodic reports at least once a year to the Board of Commissioners regarding:
  - a. The result of monitoring the implementation and execution of the Credit Policy (KPB) and other credit policies.
  - b. The results of the evaluation related to point 4.
7. Monitor and evaluate the development and quality of the overall loan or financing portfolio.

## The Membership Structure of The Credit Policy Committee

The structure of the Credit Committee membership is as follows.

Membership Structure	Position	Voting Rights
President Director	Chairman	√
Vice President Director	Alternate Chairman (concurrently Permanent Member)	√

Membership Structure	Position	Voting Rights
Group Head, Credit & Product Risk Policy or the Work Unit Responsible for Credit Policy Function	Secretary (concurrently Permanent Member)	-
Director of Risk Management	Permanent Member	✓
Director or SEVP according to the relevant Division/Function, in line with the committee agenda	Non-Permanent Member	✓
Director of Compliance	Permanent Member	-
SEVP Internal Audit Unit	Permanent Member	-
Group Head under the relevant Risk Management Directorate, in line with the committee agenda	Non-Permanent Member	-
Other Group Heads, in line with the committee agenda	Non-Permanent Member	-

### Profile of The Credit Policy Committee Members

The members' profiles can be seen in the Directors' Profile section in this Annual Report.

### Statement of Independence of The Credit Policy Committee

All members have no affiliation with other Directors, Commissioners, or Controlling Shareholders, nor are they shareholders of the Company, which could affect their ability to act independently; Commissioners, Directors, and employees from companies that have affiliations or business with BRI.

### Training and/or Improving The Competency of The Credit Policy Committee in 2025

Training and/or competency improvement can be seen in the Training and/or Competency Improvement section of the Board of Directors in this Annual Report.

### Meetings and Duties Implementation of The Credit Policy Committee in 2025

#### MEETING POLICY

- The Credit Policy Committee Meeting is held periodically at least once a year.
- The Credit Policy Committee Meeting is conducted to propose the formulation, amendment, or revision of credit policies (KPB and other credit policies), as well

as to discuss urgent and critical credit policy issues requiring an immediate response from the company.

- If there is an urgent issue that needs to be discussed in the Credit Policy Committee, the relevant Business Unit may propose a meeting to the Secretary of the Credit Policy Committee.
- The Credit Policy Committee Meeting is chaired by the President Director as the Chairman of the Credit Policy Committee. If the Chairman of the Credit Policy Committee is unavailable, the meeting will be led by a Substitute Chairman as stipulated.
- A Credit Policy Committee meeting is declared to have a quorum if attended:
  - Chairman of the Committee ;
  - Permanent Members with Voting Rights;
  - Two-thirds of the Permanent Members without voting rights and Non-Permanent Members (with or without voting rights).
- Decisions in the Committee Meeting are made based on deliberation and consensus. If consensus is not reached, the Committee Meeting decision is considered valid if approved by 50% (fifty percent of the attending committee members plus one (1) additional member.
- If the changes to the KPB (Credit Policy Book) are nonmaterial, the Credit Policy Committee's decision may be made through a circular memo with approval from the Chairman and other Committee Members with Voting Rights.

### REALIZATION OF MEETINGS AND IMPLEMENTATION OF DUTIES OF THE CREDIT POLICY COMMITTEE IN 2025

No.	Date	Meeting Agenda
1	November 04, 2025	Determination of the Credit Delegation of Authority (PDWK) for Corporate, Commercial, Medium, Small, and Consumer loans.

## Credit Committee

The Credit Committee is an operational committee that assists the Board of Directors in evaluating and/or deciding on loan applications for certain amounts and/or types of loan determined by the Board of Directors.

### CREDIT COMMITTEE CHARTER

In carrying out its duties, the Credit Committee refers to the Decree of the Board of Directors NOKEP: S.469-DIR/KRD/03/2022 and its amendments concerning the Credit Committee which regulates the Organization, Duties and Responsibilities and Work Procedures.

### DUTIES AND RESPONSIBILITIES OF THE CREDIT COMMITTEE

1. Provide decisions on approving or rejecting loans by the authority limits determined by the Board of Directors, including choosing/changing the loan structure and terms.
2. Conduct duties in providing loan decisions based on professional skills honestly, objectively, carefully, and thoroughly.
3. Reject requests and/or influence from interested parties to provide loan approval that is only a formality or outside of sound loan principles.
4. Sign the Loan Decision form (or other media determined by the Board of Directors and function as a loan decision) as proof of the loan decision and as a manifestation of the Financing Committee's responsibility.

### CREDIT COMMITTEE MEMBERSHIP STRUCTURE

1. According to the type of authority it has, the Credit Committee is divided into:
  - a. Non-Restructuring Credit Committee, namely a credit committee that has the authority to decide on new loan initiatives, extensions, supplementations, changes to terms, and other loan decisions not within the framework of restructuring; and
  - b. Credit Restructuring Committee, namely the credit committee that has the authority to decide on loan initiatives in the context of restructuring performing loans and non-performing loans, loan settlements, loan write-offs, and write-offs.
2. Each credit committee consists of members from the Risk function and the Business function.
3. The structure and members of the credit committee are under the applicable SE PDWK (Credit Delegation Authority Decision).
4. Each credit committee is based at the Head Office, Regional Offices, Special Branch Offices, and Overseas Business Units (UKLN).
5. For the Credit Committee involving the Board of Directors and SEVPs, the allocation of Risk and Business function roles is governed by the Decree on the Delegation of Credit Authority (PDWK) in effect.
6. In their capacity as members of the Credit Committee, each approving member acts as a Credit Approving Officer according to their functional role (Risk or Business) within the Credit Committee as stipulated in the applicable PDWK Decree, rather than by their functional position as Board members or SEVPs of their respective divisions.

The membership structure of the Credit Committee is as follows.

Membership Structure	Position	Function	Voting Rights
President Director	Permanent Member	Risk	✓
Vice President Director	Permanent Member	Risk	✓
Director of Risk Management	Permanent Member	Risk	✓
Director of Finance	Permanent Member	Risk	✓

## Environmental, Social & Governance (ESG) Committee

The Environmental, Social & Governance (ESG) Committee is a committee responsible for approving and providing direction on the implementation of policies and governance related to ESG, the determination of work programs, the reporting of data and information, ESG rating reports, the determination of material issues, follow-up action plans, as well as other matters related to ESG and Corporate Social and Environmental Responsibility (TJSL).

### Environmental, Social & Governance (ESG) Committee Charter

In carrying out its duties, the Environmental, Social & Governance (ESG) Committee refers to the Director's Decree Nokep.: 5894-DIR/PPM/11/2025 dated November 25, 2025 regarding the Environmental, Social & Governance (ESG) Committee of PT. Bank Rakyat Indonesia (Persero) Tbk., which regulates the Organization, Representatives and Attendance, Duties, Authorities, Responsibilities, and Work Procedures.

### Duties and Responsibilities of The Environmental, Social & Governance (ESG) Committee

The Environmental, Social, and Governance Committee has the following duties and responsibilities:

1. Approving and providing direction on the review and evaluation results related to the implementation of policies or governance of ESG initiative parameters and TJSL initiatives, which have been prepared by the relevant Business Unit and then proposed by the Committee Support Team.
2. Establishing work programs that fall under the ESG initiatives and TJSL initiatives category based on the recommendations of the Committee Support Team.
3. Approving and providing direction on the review and evaluation results related to the implementation of work programs within the ESG initiative and TJSL initiative parameters, as well as the reporting of data and information related to ESG.
4. Approving and providing direction on the review results related to ESG rating reports, investor concerns, or other third-party assessments regarding BRI's ESG and TJSL performance and implementation.
5. Determining material issues based on ESG Rating reports, investor concerns or other third-party assessments regarding BRI's ESG and TJSL performance and implementation.
6. Approving follow-up action plans based on review and evaluation results, which can then be proposed as new work programs to be further addressed by the relevant Business Unit.
7. Approving and providing direction on ESG and TJSL-related issues, including regulations, global initiatives, business practices, and other important ESG and TJSL-related information.

### Environmental, Social & Governance (ESG) Committee Membership Structure

### Environmental, Social & Governance (ESG) Committee Member Profile

The profiles can be checked in the Board of Directors Profile section of this Annual Report.

### Environmental, Social & Governance (ESG) Committee Independence Statement

All members have no affiliation with other Directors, Commissioners, or Controlling Shareholders. They are not shareholders of the Company who could influence their ability to act independently, nor are they Commissioners, Directors, or employees of companies affiliated with or conducting business with BRI.

### Training and/or Competency Improvement of Environmental, Social & Governance (ESG) Committee in 2025

Training and/or competency development can be found in the Board of Directors' Training and/or Competency Development section of this Annual Report.

### Meetings and Implementation of Environmental, Social & Governance (ESG) Committee Tasks in 2025

#### MEETING POLICY

- The Committee Support Team prepares and analyzes studies according to their respective scopes.
- The ESG Committee meetings are held regularly at least twice a year.

- Committee can also take a binding resolution outside ESG Committee.
- ESG Committee meetings may be held outside the regular schedule if there are important and urgent issues.
- The committee Chair chairs ESG Committee meetings. In the event that the Committee Chair is unable to attend, the meeting will be chaired by an Alternate Chair as stipulated in Article 2 of this Decree.
- ESG Committee meetings can be held if attended by at least 2/3 (two-thirds) of the Committee Members and attended by the Committee Chair.
- Decisions of the ESG Committee meetings are made through deliberation and consensus. If an agreement is not reached, the decisions of the ESG Committee meeting shall be considered valid if it is approved by 50% (fifty percent) of the total voting Committee Members plus one (1) Committee Member, including the Committee Chair.

### REALIZATION OF MEETINGS AND IMPLEMENTATION OF ENVIRONMENTAL, SOCIAL & GOVERNANCE (ESG) COMMITTEE DUTIES IN 2025

No.	Date	Meeting Agenda
1	January 6, 2025	1. Publication of materiality analysis in BRI's 2024 Sustainability Report (SR) 2. Environmental Topics and ESG Initiatives 2025
2	November 24, 2025	Application for Decision on BRI's long-term RKAB (2026-2030) and BRI's short-term RAKB (2026)

## Human Capital Committee

Committee at the Head Office that has the authority to determine strategic and operational policies in the field of Human Capital. Human Capital Committee Organization PT Bank Rakyat Indonesia (Persero) Tbk. Consist of:

1. Human Capital Policy Field
2. Talent Field
3. Performance Management Field
4. Job Evaluation Field

### Human Capital Committee Charter

In carrying out its duties, the Human Capital Committee refers to the Board of Directors Decree Nokep: 5895-DIR/PPM.11.2025 dated November 25, 2025 regarding the Human Capital Committee of PT Bank Rakyat Indonesia (Persero) Tbk., which regulates its Objectives, Organizations, Scopes, and Work Procedures.

### Profile of Members of The Human Capital Committee

The profile can be seen in the Directors' Profile section in this Annual Report.

### Statement of Independence of The Human Capital Committee

All committee members have no affiliation with other Directors, Commissioners, or Controlling Shareholders, and are not shareholders of the Company, which can influence their ability to act independently, Commissioners, Directors, or employees of companies that have affiliations or do business with BRI.

### Training and/or Improving The Competency of The Human Capital Committee in 2025

Training and/or competency development can be seen in the Training and/or Competency Development of the Board of Directors section in this Annual Report.

## Meeting Policy

1. The Human Capital Committee meeting is led by the Committee Chair. In the event that the Committee Chair is absent, the Human Capital Committee meeting is led by the Alternate Committee Chair.
2. All members of the Human Capital Committee have the same duties and responsibilities.
3. The organization of Human Capital Committee meeting, as referred to in point 1, is the responsibility of the Committee Secretary, which includes:
  - a. Prepare meeting agendas;
  - b. Presenting meeting materials;
  - c. Preparing Meeting Minutes;
  - d. Follow up and/or forward meeting results to the relevant Business Unit as needed;
  - e. Monitoring the follow-up actions from the meeting results.
4. If there is an important and urgent issue that requires a solution and/or attitude from the Human Capital Committee, the relevant Business Unit can propose to the Committee Secretary to hold a Human Capital Committee Meeting.
5. A meeting meets a quorum if it is attended by a minimum of 50% (fifty percent) plus 1 (one) of all Committee members and must be attended by the Committee Chair or Alternate Committee Chairperson.
6. The Human Capital Committee's decisions are determined by deliberation and consensus by the members present. In the event that no agreement is reached, the decision of the Human Capital Committee is declared valid and binding if 50% (fifty percent) of the total Committee Members plus 1 (one) Committee Member vote in agreement with the following provisions:
  - a. In the event that there are Directors in the Management or Committee Members, the Committee Chair or Substitute Committee Chair and the Human Capital Director vote in favor.
  - b. In the event that there are no Directors in the Management or Committee Members, the Committee Chair votes in favor.
7. The Committee's approval is documented in a document signed by the Chairman and the Committee Members present.
8. The Human Capital Committee may make decisions through a circular memorandum.
9. The Human Capital Committee meeting cannot be held, the Human Capital Committee can make a decision through a Circular Service Note with the approval of the Committee Chair and other Committee Members.
10. If necessary, the Human Capital Committee may invite Other relevant Parties as speakers.
11. The Presence of the President Director and/or Vice President Director adds to the Permanent Members with voting rights.

## Human Capital Committee for Human Capital Planning & Policy

### DUTIES AND RESPONSIBILITIES OF THE HUMAN CAPITAL COMMITTEE FOR HUMAN CAPITAL PLANNING & POLICY

1. Establishing development strategy priorities, policy directions and improving the quality of BRI's human capital by referring to the Bank's Business Plan (RBB) and BRI's Corporate Plan.

#### Information Technology Steering Committee

The Information Technology Steering Committee is a Board of Directors Committee responsible for providing direction and recommendations on the planning, governance, development and operation of information technology. In addition, the Technology Steering Committee also assists the Board of Directors in identifying key risks related to information technology disruptions, cybersecurity and disaster recovery. Through the Technology Steering Committee, it ensures that these risks are managed and integrated into the overall risk management framework.

#### Information Technology Steering Committee Charter

In carrying out its duties, the Information Technology Steering Committee is governed by the Board of Directors Decree Nokep: 5896-DIR/PPM/11/2025 dated November 25, 2025 concerning the Information Technology Steering Committee of PT Bank Rakyat Indonesia (Persero) Tbk, which regulates its Objectives, Organization, Duties, Authority, Responsibilities, and Work Procedures.

## Duties and Responsibilities of The Information Technology Steering Committee

The Information Technology Steering Committee has the following responsibilities:

1. The long-term Information Technology Strategic Plan aligns with the Corporate and Bank Business Plan outlined in BRI's ITSP.
2. Formulation of Crucial Information Technology policies, standards, and procedures.
3. Compatibility between approved Information Technology projects and BRI ITSP.
4. Suitability of the current technology architecture (baseline) with BRI's Information Technology architecture targets in supporting business capabilities.
5. Conformity between the implementation of the Information Technology project and the agreed project plan.
6. Compatibility between Information Technology and the needs of management information systems and the needs of the Bank's business activities.
7. Effectiveness of steps in minimizing risks on Bank investments in the Information Technology sector so that Bank investments in the Information Technology sector contribute to achieving the Bank's business objectives.
8. Monitor information technology performance and efforts to improve information technology performance.
9. Efforts to resolve various problems related to Information Technology that cannot be determined by the Information Technology User and Operator Business Unit effectively, efficiently, and on time.
10. Adequacy and allocation of resources owned by the Bank.

## Membership Structure of The Information Technology Steering Committee

## Profile of Information Technology Steering Committee Members

The profile can be seen in the Directors' Profile section in this Annual Report.

## Statement of Independence of The Information Technology Steering Committee

All committee members have no affiliation with other Directors, Commissioners, or Controlling Shareholders, and are not shareholders of the Company, which can influence their ability to act independently, Commissioners, Directors, or employees of companies that have affiliations or do business with BRI.

## Training and/or Improving The Competency of The Information Technology Steering Committee In 2025

Training and/or competency improvement can be seen in the Training and/or Competency Improvement section of the Board of Directors in this Annual Report.

## Meetings and Implementation of Duties of The Information Technology Steering Committee in 2025

### MEETING POLICY

1. The Information Technology Steering Committee holds regular meetings at least twice a year.
2. The Information Technology Steering Committee meetings may be held outside the regular schedule if there are important and urgent issues, including:
  - a. Significant changes in the Information Technology Strategic Plan due to business condition changes, macroeconomic factors, IT project adjustments, or other factors;
  - b. Regulatory changes requiring an immediate response or action from the organization;
  - c. Force majeure conditions caused by natural factors, human factors, external disruptions, or other disruptive factors;
  - d. Factors leading the Board of Directors to decide to hold an Information Technology Steering Committee Meeting.
3. The Committee Meeting is chaired by the Director of Digital & Information Technology. In the event that the Director of Digital & Information Technology is unable to attend, the meeting will be chaired by the Alternate Chairperson as stipulated in Article 3 of this Decree.
4. The Committee Meeting can be held if attended by at least 2/3 (two-thirds) of the Committee Members and chaired by the Committee Chairperson.
5. Committee meeting decisions are made based on deliberation to reach consensus. In the event that consensus is not reached, the decision is considered valid if approved by 50% (fifty percent) of the total Committee Members (both permanent and non-permanent) present, plus one additional vote from a Committee Member.
6. The coordination of the Information Technology Steering Committee meetings is the responsibility of the Committee Secretary, with duties and responsibilities including:
  - a. Preparing and sending meeting invitations.
  - b. Preparing and presenting meeting materials.
  - c. Drafting and distributing meeting minutes to the members of the Information Technology Steering Committee.
  - d. Monitoring the implementation of decisions made by the Information Technology Steering Committee in the relevant business units.
7. Consensus results and recommendations made in the Information Technology Steering Committee meetings may be annulled by the Board of Directors through a Board of Directors meeting.

## REALIZATION OF MEETINGS AND IMPLEMENTATION OF DUTIES OF THE INFORMATION TECHNOLOGY STEERING COMMITTEE IN 2025

During 2025, the Information Technology Steering Committee carried out its duties by holding 2 (two) meetings, with the following details:

No.	Date	Meeting Agenda
1.	February 28, 2025	Kickoff Meeting of the IT Strategic Plan (ITSP) BRI 2025-2029 drafting
2.	November 17, 2025	Document approval of IT Strategic Plan (ITSP) BRI 2025-2029

### Procurement Committee

The Procurement Committee is a committee at the Head Office that has the duty and authority to evaluate and make decisions on requests for the results of a procurement with a specific value.

### Charter of Procurement Committee

In carrying out its duties, the Procurement Committee refers to the Board of Directors' Decree Nokep.: 5897-DIR/PPM/11/2025 dated November 25, 2025 concerning the Procurement Committee, which regulates its Organization, Duties, Authorities, Responsibilities, and Work Procedures.

### Duties and Responsibilities of The Procurement Committee

1. Making procurement decisions professionally and honestly, while avoiding conflicts of interest in the approval process.
2. Approving or rejecting procurement proposals within its authority limit, when conducted through committee meeting.
3. Provide procurement decisions through:
  - a. Minutes of Directors' Meetings, or
  - b. Procurement Committee Meeting Minutes or
  - c. Circular Service Note.

- 5) Outputs, such as Compliance Opinion with approval from Group Head, Compliance in accordance with provisions.

### Profile of Procurement Committee

The profile can be seen in the Directors' Profile section in this Annual Report.

### Statement of Independence of The Procurement Committee

All committee members have no affiliation with other Directors, Commissioners, or Controlling Shareholders. They are not shareholders of the Company, which could affect their ability to act independently; Commissioners, Directors, and employees from companies with affiliations or business with BRI.

### Training and/or Improving The Competency of The Procurement Committee In 2025

Training and/or competency improvement can be seen in the Training and/or Competency Improvement section of the Board of Directors in this Annual Report.

### Meetings and Duties Implementation of The Procurement Committee in 2025

#### MEETING POLICY

1. Procurement of goods and services proposed in Procurement Committee I, II, and III requires prerequisite documents, including procurement proposal analysis
2. Decisions of the Procurement Committee are made during procurement Committee meetings. These meetings are held at the Head Office or other locations, and facilitated by the relevant Procurement Business Unit.
3. Procurement Committee Decisions are made unanimously and considered approved if all voting members present or represented agree.
4. If a Procurement Committee member is unavailable, their duties and authority are transferred to a substitute Director or SEVP, in accordance with the Director's Substitute Appointment Decree. The substitute Director or SEVP may act in two capacities within the Procurement Committee – as a substitute Official and as a Committee member.
5. If a Procurement Committee meeting cannot be held, decisions may be made through a Circular Memorandum, with the approval of the Committee Chair and other Committee members.
6. If the Board of Directors has decided the procurement of goods and services through a Board of Directors Meeting, the decision in question is equated with the conclusion of the Goods and Services Procurement Committee as evidenced by the Minutes of the Board of Directors' Meeting.
7. The duties and responsibilities of the facilitator for Procurement Committee meetings are carried out by the Secretary of the Procurement Committee, including:
  - a. Coordinate the preparation of Committee meeting materials.
  - b. Prepare meeting agendas, schedules, and meeting places.
  - c. Carrying out correspondence, document reproduction, and committee document archiving functions.
  - d. Prepare minutes of meetings and minutes of the Goods and Services Procurement Committee.
  - e. Distribute Committee decisions to be followed up by related Business Unit.

from the Procurement Function Management Business Unit (operational function) and risk assessment document from the Operational Risk Management Unit (Risk Management function) as part of risk mitigation efforts

Initiator Business Unit/Product Owner Business Unit and other Business Units related to product development.	Non-Permanent Member

### Profile of Product Committee Members

The profile can be seen in the Directors' Profile section in this Annual Report.

### Statement of Product Committee Independence

All members have no affiliation with other Directors, Commissioners, or Controlling Shareholders, and are not shareholders of the Company, which could affect their ability to act independently; Commissioners, Directors, and employees from companies that have affiliations or business with BRI.

### Training and/or Improving The Competency of The Product Committee in 2025

Training and/or competency improvement can be seen in the Training and/or Competency Improvement section of the Board of Directors in this Annual Report.

## Meeting and Implementation of Duties of The Product Committee In 2025

### MEETING POLICY

- Product Committee meetings are held in accordance with business needs and developments.
- The chair of the Product Committee chairs Product Committee meetings
- If a Product Committee Member is absent, the duties and authority of the Product Committee Member are replaced by a Substitute Director under the applicable Decree. The Substitute Director has two capacities in the Product Committee: Substitute Director and Member of the Product Committee in making decisions.
- Product Committee meetings can be held if attended by the Chair of the Committee and attended by Members with Voting Rights with the following criteria:

No	Product Committee	Attendance Requirements
1.	Product Committee 1	Minimum 3 (three) Members with Voting Rights
2.	Product Committee 2	Minimum 2 (two) Members with Voting Rights

\*From the Members with Voting Rights present, there is a minimum of 1 (one) Director

- Committee Meeting decisions are taken by deliberation and consensus. In the event that no agreement is reached, the decision of the Committee Meeting is deemed valid with the approval of 50% (fifty percent) of the total Committee Members who have Voting Rights plus 1 (one) Committee Member, including the Committee Chair.
- Coordination of the organization of Product Committee Meetings is the responsibility of the Committee Secretary.
- If a Product Committee meeting cannot be held, the Product Committee can make a decision through a Circular Service Note with the approval of the Committee Chair and other Committee Members. The Secretary of the Product Committee carries out the decision-making process through Circular Service Note.
- Minutes of the Product Committee Meeting are signed by the Product Committee Secretary and the Chair of the Product Committee and submitted to all SEVP Directors and Business Unit at BRI Head Office related to the intended Product Committee decision.

## Transformation Steering Committee

**Transformation Steering Committee (TSC)** is a Committee at Head Office responsible for providing direction and decisions on the strategy and implementation of strategic initiatives or transformation projects at BRI (including the BRlvolution strategic initiative or transformation project and strategic initiatives or transformation projects other than BRlvolution). The key function of the TSC is to provide direction, supervise, resolve strategic issues that arise during the implementation of transformation initiatives, and align initiatives to achieve the established transformation goals.

### Transformation Steering Committee Charter

Performing its duties, the Risk Management Committee referred to the Board of Directors Decree No.: 5904-DIR/PPM/11/2025 on November 25, 2025 concerning the Transformation Steering Committee of PT. Bank Rakyat Indonesia (Persero) Tbk., which regulated the Organization, Delegation and Attendance, Duties, Authorities and Responsibilities and Work Procedures.

### Duties and Responsibilities of The Transformation Steering Committee

- Providing direction at the corporate-level for the Company's strategic initiatives/projects.
- Providing direction for the implementation strategy of strategic initiatives/projects to ensure alignment with the achievement of the Company's strategic objectives.
- Providing regular direction for the implementation of strategic initiatives/projects and review the relevance of strategic initiatives/projects to current developments.
- Monitoring the implementation of good governance in the implementation of strategic initiatives/projects.
- Making decisions on proposed resolutions to problems in the management of strategic initiatives/projects.
- Making decisions on proposed changes to the scope, success parameters, timeline, and other matters stated in the project charter, guided by applicable regulations.

- Determining the priority of strategic initiatives/projects for implementation by the PMO and/or Project Owner Business Unit.
- Approving policies related to change management to ensure strategic initiatives/projects are accepted by all levels of the organization.
- Making other decisions related to strategic initiatives/projects.
- Resolving conflicts or cross-functional issues that arise during the implementation of strategic initiatives/projects.
- Aligning with other work programs managed by relevant Business Units, including providing guidance to minimize silos between segments or Business Units.
- Providing guidance on the results of Post-Implementation Reviews (PIRs) as part of lessons learned in the implementation of subsequent strategic initiatives/projects.
- Making decisions on matters not regulated in the Project Management Implementation Guidelines (PPPM) or other policies and regulations related to strategic initiatives/projects.

### Transformation Steering Committee Membership Structure

Membership Structure	Position	Voting Rights
President Director	Chairman	✓
Vice President Director	Alternate Chairman I (concurrently permanent member)	✓
Director of Finance & Strategy	Alternate Chairman II (concurrently permanent member)	✓
Group Head, Corporate Development & Strategy	Secretary	-
Director of Network & Retail Funding	Permanent Member	✓
Director of Information Technology	Permanent Member	✓

Membership Structure	Position	Voting Rights
Director of Risk Management	Permanent Member	✓
Director of Human Capital & Compliance	Permanent Member	✓
Director of Operations	Permanent Member	✓
SEVP Human Capital	Permanent Member	✓
Director or other SEVP sections (as per topic relevance and decision in the Transformation Steering Committee)	Non-Permanent Member	✓
Project Owner Business Unit, either PMO or Non-PMO, and Project Supporting Business Unit.	Non-Permanent Member	-

### Profile of Transformation Steering Committee Members

The profile can be found in the Board of Directors section of this Annual Report.

### Independence Statement of Transformation Steering Committee

All members have no affiliation with other Directors, Commissioners, or Controlling Shareholders, are not shareholders of the Company that could influence their ability to act independently, nor are they Commissioners, Directors, or employees of companies that have affiliations or business relations with BRI.

### Training and/or Competency Enhancement for Transformation Steering Committee in 2025

Training and/or competency enhancement can be found in the Board of Directors' Training and/or Competency Enhancement section of this Annual Report.

### Meetings and Implementation of Transformation Steering Committee in 2025

#### MEETING POLICY

- Transformation Steering Committee (TSC) meetings are held once every month or as needed.
- Transformation Steering Committee (TSC) is chaired by the Committee Chair. If the Chair is unavailable, the meeting is led by the Alternate Chair in accordance with the provisions in Article 2 of this Decree.
- Voting Members cannot be represented at TSC meetings. If a Voting Member is unable to attend, their position may be filled by a Substitute Director, in accordance with applicable regulations.
- A TSC meeting may be held if attended by the Chairperson/Substitute Chairperson and attended by at least four Voting Members (of the Voting Members

present, at least one Director and the relevant Director/SEVP for the PMO or initiative to be decided upon, including the Committee Chairman).

- Decisions at the Committee meeting are made by consensus. If consensus is not reached, the decision is considered valid if approved by 50% (fifty percent) of the Committee Members with voting rights plus 1 (one) additional Committee Member, including the Chair.
- Decisions made during TSC meetings are documented in the TSC Minutes. The Project Owner's Business Unit follows up on the decisions made in the TSC Minutes and reports the results of the follow-up to the relevant Director/SEVP.
- TSC Committee meetings can be held in person, but may be conducted online based on specific considerations.
- The duties and responsibilities of the Committee Secretary include, among others:
  - Coordinating the preparation of Committee meeting materials.
  - Preparing the meeting agenda, schedule, and meeting venue.
  - Carrying out correspondence functions, reproducing documents, and performing the archiving function for Committee documents.
  - Preparing the Committee Meeting Minutes and Official Report.
  - Distributing Committee decisions to be followed up by the relevant Work Units.
  - Delivering progress on strategic initiatives/projects and follow-up plans from the previous Transformation Steering Committee (TSC).

## Implementation of Governance in Providing Remuneration for Commercial Banks Following OJK Regulation Number 45/POJK.03/2015

### Remuneration and Nomination Committee

The Remuneration and Nomination Committee has been explained in the Remuneration and Nomination Committee Subtitle of the Corporate Governance Chapter in this Annual Report.

### Remuneration Policy Preparation Process

The process of preparing remuneration policies includes:

1. Background and Objectives of Remuneration Policy  
In order to protect and retain employees, it is necessary to regulate remuneration policies that can maintain and increase worker motivation and encourage the creation of a conducive work environment. The Company prepares Remuneration policies to attract potential workers, retain competent workers, and maintain worker motivation to perform superiorly.
2. Implementation of a review of the previous year's remuneration policy, along with improvements.  
The Company prepares Remuneration policies based on practices in the labor market in the banking sector and continually reviews and updates them under changes and business developments while still paying attention to the Company's capabilities.
3. Mechanism to ensure that remuneration for employees in the control unit is independent of the business unit they supervise

In supporting BRI's aspirations to build a Performance Driven Culture, the implementation of the BRI remuneration system is carried out by paying attention to its alignment with the achievement of KPI-based business unit and individual performance. The preparation of KPIs is carried out through cascading performance targets (cascading) either fully, partially or contributively so that the performance targets of the supported Business Units will be different but support the achievement of the performance targets of the control business unit. Apart from that, to ensure the objectivity of the assessment, evaluation of the performance of business units at BRI is also carried out in stages through the Performance Management Committee by higher business unit. Furthermore, the individual performance assessment will be adjusted to the performance achievements of the individual and business unit which will ultimately have an impact on the amount of remuneration obtained.

## Scope of Remuneration Policy and its Implementation per Business Unit, per Region, and in Subsidiary Companies or Branch Offices Located Overseas

In order to harmonize differences in cost levels between regions, the Company provides assistance in adjusting cost levels in the form of Premium Allowances. The Company conducts reviews of Premium Allowances, if necessary, in accordance with developments in the cost level in each region and the Company's capabilities. The Subsidiary Company has a separate Remuneration Policy, which the Subsidiary Company itself prepares. In order to harmonize differences in cost levels between regions, the Company assists in adjusting cost levels in the form of Premium Allowances.

### Remuneration is Associated with Risk

Remuneration is linked to risk and is arranged based on the latest policies related to the Implementation of Wage Regulations for BRI Employees, where the wage design is simplified to include Basic Salary and Premium Allowances as components of the salary structure. Job grades are no longer a consideration, as job grade allowances have been incorporated into the Basic Salary in total. For each position, a specific wage scale is determined, reflecting the minimum, median, and maximum, taking into account regulatory policies, job weight or job analysis results, and comparisons with the market/peers. The amount of remuneration received by employees considers or is equivalent to the burden and potential risks inherent to the position. The higher the position, the greater the employee's responsibility in making decisions that significantly impact the company's risk profile/exposure.

In this regard, the company has determined the parties who are considered Material Risk Takers (MRT), based on specific considerations aligned with the potential risks arising from the roles held. For individuals designated as MRTs, the company will defer the payment of part of the variable remuneration.

## Performance Measurement is Linked to Remuneration

Performance measurements associated with remuneration include:

1. Remuneration policy for performance appraisal.  
In order to encourage employees to perform superiorly, the company has a variable compensation program for employees who successfully achieve and exceed performance targets. Workers with high performance will also receive high variable compensation. On the other hand, workers who underperform will receive low variable compensation or no variable compensation at all.
2. Individual remuneration method based on company performance, business unit performance, and individual performance.  
In providing variable compensation for workers, the amount of compensation received by workers depends on the company's performance achievement, business unit performance, and individual performance, where each component has an independent target achievement indicator, weight, and multiplier factor.
3. Method of adjusting remuneration for unachieved performance.  
At the beginning of the year, the company determines the conditions that employees must meet to obtain variable compensation, one of which is the performance that must be achieved. Workers who do not meet the specified requirements will not receive variable compensation.

## Remuneration Adjustments are Linked to Performance and Risk

1. Remuneration adjustments are linked to performance and risks, which include:

Remuneration policy regarding variable amounts and criteria which are suspended based on the Joint Decree of the Board of Directors and Board of Commissioners Number 09-KOM/ BRI/11/2017 and S.1023-DIR/ KPS/11/2017 dated November 30, 2017 concerning Governance of The remuneration of PT Bank Rakyat Indonesia (Persero) Tbk., has been determined as follows:

- a. Part of the variable remuneration will be deferred for parties designated as MRT.
  - b. The amount of suspension for the Board of Directors and Board of Commissioners is a maximum of 20% of the variable remuneration.
2. Remuneration policy for deferred variables whose payments are postponed or canceled (Malus)  
The company can postpone the payment of deferred variable remuneration (malus) to MRT if conditions occur in the form of:
    - a. It is proven that there is Individual Fraud.
    - b. Restatement of the company's financial report is the basis for determining variable remuneration.
    - c. The risk rating in the last quarter before the payment of deferred variable remuneration is 4 (Moderate to High) or worse.

## Name of External Consultant and Consultant's Duties Related to Remuneration Policy

One of the company's remuneration principles is external competitiveness, where remuneration is provided at a competitive level within the banking industry. In line with this, the company collaborates with Independent Consultant, which is responsible for conducting benchmarking and/or salary surveys based on the company's request regarding remuneration policies.

## Remuneration Packages and Facilities Received by the Board of Directors and Board of Commissioners

Types of Remuneration and Facility	Amount Received in 2025			
	Directors		Board of Commissioners	
	People	Million IDR	People	Million IDR
Salary, regular allowances, and other facilities in the form of non-kind benefits*	26**	69,795	14***	33,729
Other facilities in kind (housing, health insurance, etc.) which: a. can be owned; b. cannot be owned	26**	28,622	14***	8,568
<b>Total</b>	<b>26**</b>	<b>98,417</b>	<b>14***</b>	<b>41,847</b>

\* During 2025, there is no bonus payment and performance incentives for members of the Board of Commissioners and Board of Directors.

\*\* Consists of all Board of Directors, including those serving during 2025, from before the 2025 Annual General Meeting of Shareholders and the Extraordinary General Meeting of Shareholders held on December 17, 2025, to December 31, 2025.

\*\*\* Consists of all Board of Commissioners, including those serving during 2025, from before the 2025 Annual General Meeting of Shareholders and the Extraordinary General Meeting of Shareholders held on December 17, 2025, to December 31, 2025.

## Remuneration Packages Grouped Into Income Levels Received by Directors and Members of the Board of Commissioners in 1 (One) Year

Amount of Remuneration per Person in 1 (One) Year	Number of Directors	Number of Commissioners
Above IDR2 billion	13	2
Above IDR1 billion up to. IDR2 billion	9*	4**
Above IDR500 million to IDR1 billion	-	8*
IDR500 million and below	4***	-

\* Directors and Commissioners who resigned in accordance with the resolution of the AGMS on March 24, 2025

\*\* Appointed as BRI's Board of Commissioners at the AGMS on March 24, 2025

\*\*\* Appointed as BRI's Board of Directors at the EGMS on December 17, 2025

## Variable Remuneration

### 1. Forms and Reasons for choosing variable remuneration.

Employee compensation is provided within a fair, competitive system that aligns with the bank's needs and capabilities. Compensation is divided into two (2) categories:

a. Fixed compensation consists of basic wages and allowances.

b. Variable compensation given to workers is based on performance achievements, namely as follows:

- Short Term Incentives.

Short Term Incentives are variable compensation promised by the Company at the beginning of the year to Marketers. Short Term Incentives aim to encourage the motivation of Marketers, providing direct rewards for achieving and exceeding individual targets, business unit targets and company targets.

- Long-Term Incentives

Long-term incentives are variable compensation provided by the company based on long-term performance, typically for a period of more than two (2) years.

- Bonus.

Bonuses are variable compensation that is not promised by the Company. Bonuses are given to employees in order to provide appreciation for the Company's performance achievements.

### 2. Reasons for differences in variable remuneration (Directors, Board of Commissioners and Employees).

a. BRI applies the Position Group concept, which consists of Support, Business, and Marketing Advisor. The provision of variable remuneration will differ between job groups, which is adjusted to a constant amount per position group in question.

b. The company provides greater variable compensation for Marketers, this is due to the following reasons:

- Marketers are profit makers.
- Encourage marketers to exceed predetermined targets.
- Appreciation to Marketers.

Factors that cause differences in variable compensation are based on considerations of performance and competency achievements, including business unit performance and company performance.

## Number of Directors, Board of Commissioners and Employees Receiving Variable Remuneration for 1 (One) Year

Variable Remuneration	Amount Received in 1 (One) Year					
	Board of Directors		Board of Commissioners		Employee	
	Person	million IDR	Person	million IDR	Person	million IDR
<b>Total</b>	<b>26</b>	<b>-</b>	<b>14</b>	<b>-</b>	<b>7</b>	<b>43.298,49</b>

## Position and Number of Parties Who are Material Risk Takers

The positions and number of individuals designated as Material Risk Takers (MRT), determined based on the management count for the reporting year, are as follows:

1. Board of Directors (13 person)
2. Board of Commissioners (6 person)
3. Senior Executive Vice President (SEVP) (5 person)

## Shares Options Owned by the Board of Directors, Board of Commissioners and Executive Officers

During 2025, the Company does not have a share ownership program in the form of share purchase options for the Board of Directors, Board of Commissioners and Executive Officers.

## Highest and Lowest Salary Ratio

Salary Ratio	2025	2024
Highest and Lowest Employee Salaries	48.8	54.5
Highest and Lowest Directors' Salaries	1.18	1.18
Highest and Lowest Commissioner Salaries	1.11	1.11
Highest Directors' and Highest Employees' Salaries	2.57	3.75

## Number of Recipients and Total Amount of Variable Remuneration that is Unconditionally Guaranteed

There was no variable compensation that is guaranteed unconditionally.

## Number of Employees Subject to Termination of Employment and Total Nominal Severance Paid

During 2025 there will be no termination of employment due to Bank policies such as mergers, consolidations, acquisitions, or streamlining of the Bank's organizational structure.

The Nominal Amount of Severance Pay Paid per Person In 1 (One) Year	Number of Employees
Above IDR1 billion	-
Above IDR500 million to IDR1 billion	-
Below IDR500 million	-

## Total Amount of Variable Remuneration that is Deferred

No	MRT Party	Deferred Variable Remuneration	
		Cash (Rp Gross)	Shares (sheets)**
1	SEVP**	16.663.321.250	There will be no remuneration in the form of shares in 2025
2	Board of Commissioners*	22.169.949.013	2.088.500
3	Board of Directors*		18.321.711

\* Accumulation of all deferred variable remuneration as of December 2025, namely the deferral of variable remuneration for the 2021, 2022, dan 2023 financial years.

\*\* Accumulation of all deferred variable remuneration as of December 2025, namely the deferral of variable remuneration for the 2023 and 2024 financial years.

## Total Amount of Deferred Variable Remuneration Paid During 1 (One) Year

No	Side of MRT	Deferred Variable Remuneration	
		Cash in Millions (Unlock) 2025	Share Sheet (Unlock) 2025
1	Board of Commissioners	14.445.370.226	1.492.335
2	Board of Directors	-	10.352.430
3	SEVP	5.107.891.401	There will be no remuneration in the form of shares in 2025

## Amount of Remuneration Given in One Year

A. FIXED REMUNERATION*)		
1. Cash		IDR91,165
2. Shares/share-based instruments issued by the Bank		-
B. VARIABLE REMUNERATION*)		
	Not Suspended	Suspended
1. Cash	43.298,49	10.824,62
2. Shares/share-based instruments issued by the Bank**	-	-

Note: \*)Applicable only for MRT and disclosed in IDR millions

## Quantitative Information

Types of Variable Remuneration*)	Remaining Pending	Total Reduction During Reporting Period		
		Due to Explicit Adjustment (A)	Due to Implicit Adjustment (B)	Total (A)+(B)
Cash (in IDR million)	38.833			
Shares/ Share-based instruments issued by the Bank	20.410.211 share sheet			

Note: \*) Only for MRT

## Performance-Based Long-Term Compensation Policy

Pursuant to the resolutions of the Extraordinary General Meeting of Shareholders (EGMS) held on October 3, 2003, as stipulated in Deed No. 6 of Notary Imas Fatimah, S.H., the shareholders approved the issuance of stock options to be implemented in three (3) phases. The stock options were granted to members of the Board of Directors and employees occupying certain positions and roles who met the predetermined eligibility criteria (Management Stock Option Plan/MSOP).

BRI has various types of variable compensation, one of which is a long-term incentive (LTI). LTI is compensation provided by the company based on the achievement of corporate and/or individual performance, considering long-term performance over more than two (2) years. Long-Term Incentives (LTI) are granted to Marketing Personnel with the objective of enhancing their motivation to achieve the Company's targets and as a form of recognition for their performance achievements. The basis for granting the Long-Term Incentives (LTI) is determined by taking into account the Key Performance Indicators (KPI) and quarterly targets.

## Stock Ownership Program by Employees and/or Management (ESOP/MSOP)

BRI implements an Employee Share Ownership Program for BRI employees, which is granted periodically, as follows:

a. Employee Stock Allocation (ESA)

The share ownership program in the form of the Stock Allocation Program was provided in 2016 and 2020 through 4 stages to all levels of Workers or certain Workers who meet the criteria consisting of length of service, individual performance, and team member track record in carrying out their responsibilities.

b. Employee Stock Option Plan (ESOP)

Share ownership program in the form of share purchase options at a special price in 2020. This program is given to certain level workers who are BRI's Top Talent and meet the performance and Capacity/Potential criteria.

As the Company's commitment to increasing team member engagement and productivity and creating a sense of ownership of employees towards the Company, the Company will implement a similar share ownership program for employees next year.

## Number of Shares and/or Options

Program	Number of Shares (Year 2021)	Additions in 2025*
ESA 1	589,800	-
ESA 2	1,554,300	-

Program	Number of Shares (Year 2021)	Additions in 2025*
ESA 3	268,953,200	-
ESA 4	283,113,000	-
ESA 2023	-	83,597,400
Special ESA	30,720,900	-
ESOP 1	72,029,200	-
ESOP 2	76,896,900	-
Discretionary Pool	674,600	-

\* The granting of Employee Stock Allocation (ESA) or additional shares in 2025.

## The Implementation Period

The vesting period, or the period during which the team member's rights to shares still depend on the specified conditions, is as follows:

Program	Vesting Period
ESA 1	Vesting 1 January 1, 2017 – January 31, 2018 (Applicable to all Corporate Titles)
	Vesting 2 January 1, 2019 – January 31, 2019 (Only valid for Corporate Title VP, EVP & SEVP)
ESA 2	January 2, 2020 to January 31, 2020
ESA 3	January 2, 2020 to March 31, 2021
ESA 4	January 2, 2020 to December 31, 2021
ESOP 1	May 15, 2020 – October 31, 2020
ESOP 2	May 15, 2020 – May 31, 2021
ESA 2023	January 2 – December 31, 2024

## Requirements of Eligible Employees and Management

The program for granting several Company shares in the form of ESA is given to employees who meet the grant and vesting program requirements, such as meeting the minimum work period, achieving company performance and individual performance in the specified period, as well as the team member's track record in carrying out their responsibilities. Meanwhile, other team member share ownership programs are provided in the form of granting the right to purchase some company shares, namely in the form of an ESOP, aimed at employees who fall into the BRI High Potential Talent & Value Creator category, namely those who meet the performance and Capacity/Potential criteria.

## Implementation Prices or Determination of Implementation Prices

In the Employment Stock Ownership Program (ESOP) BRI provided to eligible employees, the acquisition price of shares is determined at specific times: for the ESA 1 program, the price is IDR 3,630 per share; for ESA 2, 3, and 4, the price is IDR 4,410 per share; and for the ESOP program the price is IDR 2,240 per share.

In addition to ESA, the Company also provides long-term compensation in the form of Long Term Incentive (LTI). Explanation regarding Long Term Incentive (LTI) is explained in the Nomination and Remuneration section of the Board of Commissioners and Directors in this Annual Report.

## Public Accountant

### Appointment of Public Accountant

The procurement procedure for a Public Accounting Firm (KAP) is as follows:

1. The procurement process for KAP audit services is carried out by the Technical Team, the HPS Preparation Team, and the Procurement Team.
2. The Audit Committee is the Coordinator of the Technical Team, HPS, Preparation, and Procurement teams. It is responsible for reporting all KAP audit service procurement activities to the Board of Commissioners.
3. The method for procuring KAP audit services is carried out using the Direct Selection Method, guided by the provisions and procedures for procurement of goods and services that apply at BRI.

### Public Accounting Firm, Name of Accountant, Fee, and License of the KAP

Table of Public Accounting Firm, Name of Accountant, Fee, and License of the KAP

Year	Public Accounting Firm	KAP Period	Name of Accountant (Responsible Partner)	AP Period	Audit Service Fee
2025	Purwanto Susanti & Surja	10 <sup>th</sup> Period	Rindra Sulindro	1 <sup>st</sup> Period	IDR18,001,500,000
2024	Purwanto, Sungkoro & Surja	9 <sup>th</sup> Period	Christophorus Alvin Kossim	5 <sup>th</sup> Period	IDR16,625,000,000
2023	Purwanto, Sungkoro & Surja	8 <sup>th</sup> Period	Christophorus Alvin Kossim	4 <sup>th</sup> Period	IDR15,922,000,000
2022	Purwanto, Sungkoro & Surja	7 <sup>th</sup> Period	Christophorus Alvin Kossim	3 <sup>rd</sup> Period	IDR13,925,000,000
2021	Purwanto, Sungkoro & Surja	6 <sup>th</sup> Period	Christophorus Alvin Kossim	2 <sup>nd</sup> Period	IDR13,715,296,000
2020	Purwanto, Sungkoro & Surja	5 <sup>th</sup> Period	Christophorus Alvin Kossim	1 <sup>st</sup> Period	IDR15,523,800,000
2019	Purwanto, Sungkoro & Surja	4 <sup>th</sup> Period	Danil Setiadi Handaja, CPA	3 <sup>rd</sup> Period	IDR10,700,000,000
2018	Purwanto, Sungkoro & Surja	3 <sup>rd</sup> Period	Danil Setiadi Handaja, CPA	2 <sup>nd</sup> Period	IDR8,200,000,000
2017	Purwanto, Sungkoro & Surja	2 <sup>nd</sup> Period	Danil Setiadi Handaja, CPA	1 <sup>st</sup> Period	IDR7,300,000,000

### Other Services Provided by Accountants

No.	Non-Audit Services	Fee
1	Agreed-upon procedures for the calculation of the Board of Directors' KPI achievements (collegial and individual) as of December 31, 2025	IDR690,000,000
2	Agreed-upon procedures for data submitted by BRI for the Compilation of Financial Statements of the Ministry of SOEs for the 2025 fiscal year (Anaplan)	IDR256,000,000
3	Agreed-upon procedures for compliance with applicable regulations for micro and small business funding for the 2025 fiscal year.	IDR185,000,000
4	Limited review of the Consolidated Financial Statements of the Company and its Subsidiaries as of October 31, 2025.	IDR9,600,000,000
5	Limited Confidence Assurance on BRI's Long Term Incentive (LTI) Report, Position 31 December 2025 (Long Term Incentive (LTI) Program of the Board of Directors & Board of Commissioners for the Period 2023 - 2025 and 2024 - 2026).	IDR267,500,000
6	Public Accounting Firm Services in the Issuance of Sustainable Socially Aware Bonds I by Bank BRI.	IDR2,930,000,000

### Audit Opinion

Year	Opinion on Financial Statement Audit Results
2025	The Consolidated Financial Statements are presented fairly, in accordance with Indonesian Financial Accounting Standards
2024	The Consolidated Financial Statements are presented fairly, in accordance with Indonesian Financial Accounting Standards
2023	The Consolidated Financial Statements are presented fairly, in accordance with Indonesian Financial Accounting Standards
2022	The Consolidated Financial Statements are presented fairly, in accordance with Indonesian Financial Accounting Standards
2021	The Consolidated Financial Statements are presented fairly, in accordance with Indonesian Financial Accounting Standards
2020	The Consolidated Financial Statements are presented fairly, in accordance with Indonesian Financial Accounting Standards

## Internal Control System

BRI implements an effective internal control system (ICS) to oversee its business and operational activities across all organizational levels and to safeguard BRI's investment and assets. The effective implementation of ICS assists BRI's management in protecting assets, ensuring the availability of reliable financial and managerial reporting, enhancing compliance with applicable laws and regulations, and reducing the risk of losses, irregularities, and violations of prudential principles. The establishment of a reliable and effective ICS at BRI is the responsibility of all risk-taking units, supporting business units, and the Internal Audit Unit (SKAI).

### Purpose of Internal Control System

1. Compliance with Provisions and regulations or compliance objectives. The compliance objective is intended to ensure that all of BRI's business activities are conducted under the applicable provisions and regulations, including those issued by the government, and the OJK Regulation, as well as internal policies, regulations, and procedures established by the company.
2. Availability of comprehensive, accurate, relevant, and timely financial and management information or information objectives. The information objective is intended to ensure the availability of comprehensive, accurate, relevant, and timely reports needed for making precise and accountable decisions.
3. Effectiveness and efficiency in business activities or operational objectives. The operational objective is aimed at enhancing the effectiveness and efficiency of asset utilization and other resources to protect against the risk of losses.
4. Enhancing the effectiveness of risk culture across the organization or risk culture objectives. The risk culture objective is intended to identify weaknesses and detect irregularities early, as well as continuously reassess the adequacy of existing policies and procedures.

### Control Environment

The control environment reflects the overall commitment, behavior, awareness, and actions of the Board of Directors and the Board of Commissioners in carrying out operational control activities. The elements of the control environment include:

1. An adequate organizational structure.
2. Leadership style and management philosophy.
3. Integrity, ethical values, and the competency of all employees
4. Human capital policies and procedures.

5. Attention and direction from management and other committees.
6. Factors influencing operational activities.

The control culture enhances a strong work ethic and high integrity while fostering an organizational culture that emphasizes the importance of internal controls to all employees. The Board of Commissioners and the Board of Directors have actively supervised and established a control culture within the company.

The implementation of management oversight includes:

1. BRI has established procedures to identify, measure, monitor, and control risks faced by the bank. The Board of Commissioners plays a role in determining the company's risk tolerance level.
2. BRI has an adequate organizational structure with assignments of duties and responsibilities under the applicable regulations.
3. BRI has developed a policy architecture that includes internal control policies and procedures for operational activities.
4. Conducting monitoring of improvements of findings from internal and external audits.
5. Regular communication across all organizational levels, including between the Board of Directors and the Board of Commissioners.
6. Monitoring the effectiveness of Internal Control System implementation.
7. Conducting reviews of the Internal Control System.

### Bank Internal Control System

The Bank's internal control system consists of five interrelated key components, namely: Management Oversight and Control Culture; Risk Recognition and Assessment; Control Activities and Segregation of Duties; Accounting, Information and Communication Systems; as well as Monitoring Activities and the Correction of Deviations).

### Management Oversight and Control Culture

1. Duties and responsibilities of the Board of Directors and the Board of Commissioners in the implementation of the Internal Control System (ICS).
2. Control Culture, which promotes high standards of work ethics and integrity, and fosters an organizational culture that emphasizes to all employees the importance of effective internal controls.

## Risk Identification and Assessment

Risk identification and assessment constitute activities to identify and analyze relevant risks that may potentially hinder the achievement of the Company's objectives, both at the entity level and at the process level. An effective Internal Control System (SPI) requires the company to continuously identify and assess risks that could impact the achievement of its objectives. Risk assessment must also be conducted by the internal auditors to ensure that the audit coverage is broader and more comprehensive. Detailed information regarding risk identification and assessment is presented in the Risk Management System Sub-Chapter under the Corporate Governance Chapter of this Annual Report.

## Control Activities and Segregation of Duties (Financial and Operational Controls)

Control activities help ensure that management directives have been properly implemented and that necessary actions have been taken to mitigate risks, thereby enabling the organization to achieve its objectives. These activities encompass various processes, including approvals, authorizations, verifications, reconciliations, reviews of operational performance, safeguarding of assets, and segregation of duties.

### Control Activities

Control activities include policies, procedures, and practices that provide workers with confidence that the Board of Directors and Board of Commissioners' directives have been implemented effectively. Control activities are implemented at all functional levels in accordance with the organizational structure, which at least include:

#### 1. Management Review (Top Level Review)

Review of the progress (realization) is compared to the targets to be achieved, such as financial reports compared to the established budget plan to immediately detect problems such as control weaknesses, financial reporting errors, or fraud.

#### 2. Operational Review (Functional Review)

Operational reviews are conducted to assess risk profile reports, operational data analysis, and realization of the implementation of audit work plans by Internal Audit Unit (SKAI) with higher frequency, both daily, weekly and monthly reviews.

#### 3. Information Systems Control

The Company verifies the accuracy and completeness of transactions and carries out authorization procedures in accordance with internal provisions. Information system control activities can be classified into 2 (two) criteria, namely general control and application control.

#### 4. Physical Asset Control

Physical asset control is implemented to ensure that risk security is maintained for company assets.

#### 5. Documentation

The company adequately documents accounting policies, procedures, systems, standards, and audit processes. This document is updated periodically to describe the company's operational activities and is communicated to officials and employees. The internal auditor also assesses the accuracy and availability of documents during the audit.

## Segregation of Duties

Effective SPI requires separation of functions (four eyes principle) and avoids the granting of authority and responsibility that can cause various conflicts of interest. The separation is intended so that everyone in their position does not have the opportunity to commit and hide errors or deviations in carrying out tasks at all levels of the organization and all operational activities. Separation of functions is not limited to front and back office activities but also in the context of controlling:

1. Approval of disbursement of funds and realization of expenditure.
2. Customer accounts and company owner accounts.
3. Transactions in bookkeeping.
4. Providing information to customers.
5. Assessing the adequacy of credit or financing documentation and monitoring of debtors after credit or financing disbursement.
6. Other business activities that may cause significant conflicts of interest.

## Implementation of Bank Financial Reporting Integrity

Throughout 2025, BRI strengthened the foundation of its financial reporting integrity through the comprehensive implementation of Internal Control over Financial Reporting (ICoFR) across nine primary scope areas, covering lending (micro, CSME, consumer, and corporate), customer deposits, financial reporting, treasury, trade finance, and fixed assets. This implementation encompassed 526 subprocesses—comprising 492 subprocesses of Process Level Controls (PLC) and IT Application Controls (ITAC), as well as 34 subprocesses of IT General Controls (ITGC) representing 33 significant applications. As of year-end 2025, BRI has achieved internal control coverage over approximately two-thirds (2/3) of total assets and total liabilities, as part of a systematically phased implementation approach. This coverage will continue to be gradually expanded until it fulfills the requirement of covering two-thirds (2/3) of significant Financial Statement Line Items (FSLI), as mandated by the

Ministry of State-Owned Enterprises, in accordance with the established alignment roadmap. Accordingly, BRI has demonstrated substantive progress in aligning its internal roadmap with the Ministry of SOEs' ICoFR Roadmap, as stipulated in Letter No S-6/DKU.MBU/02/2025.

In ensuring the effectiveness of the design and implementation of internal controls, BRI has undertaken various testing activities that reflect its strong commitment to robust governance practices. A Test of One (ToO) was conducted on 335 key controls, supported by 193 working papers. This was followed by a Control Self-Assessment (CSA) covering 762 key controls, supported by 645 working papers, reflecting the active involvement of business units in ensuring compliance and control effectiveness. In addition, a Test of Design (ToD) was performed on 242 key controls, supported by 243 working papers within the treasury, trade finance, and fixed assets scope. Although several potential design deficiencies were identified, all have been scheduled for remediation through structured and continuous improvement initiatives. With these achievements, the maturity level of BRI's ICoFR implementation is considered sufficiently adequate to support external audit readiness in 2028.

In accordance with Article 8 of OJK Regulation Number 15 of 2024, the Board of Directors of BRI declares its responsibility for the preparation and presentation of the Bank's financial information, ensuring that the financial statements comply with applicable accounting standards and OJK regulations, maintaining the completeness and accuracy of financial information, and implementing adequate internal controls throughout the Bank's financial reporting processes. Based on the evaluation of all design, implementation, and testing activities conducted throughout 2025, the Board of Directors assesses that the effectiveness of BRI's internal controls is at a solid level and continues to be further strengthened. This commitment underscores BRI's readiness to consistently uphold the integrity of its financial reporting and to ensure that the quality of the Bank's internal controls meets the expectations of regulators, shareholders, and other stakeholders.

### Controlling Compliance with Other Legal Regulations

The Compliance Function generally carries out control of compliance with statutory regulations. The Compliance Director's responsibilities include ensuring that all policies, provisions, systems, and procedures, as well as business activities carried out by BRI, are under the provisions of the Financial Services Authority and statutory provisions, as well as implementing a prevention system so that policies and/or decisions taken by the Board of Directors BRI does not deviate from the provisions of the Financial Services Authority and

statutory regulations. In addition, the Compliance Function's responsibilities include identifying, measuring, monitoring, and controlling Compliance Risk by referring to the Financial Services Authority Regulations regarding the Implementation of Risk Management for Commercial Banks, including making efforts to ensure that policies, provisions, systems, and procedures and BRI's business activities are in accordance with the provisions of the Financial Services Authority and/or applicable laws and regulations.

In order to increase the effectiveness of controlling compliance with statutory regulations, the Compliance Function periodically has a work program to assess the effectiveness of the compliance culture. BRI has parameters for measuring the effectiveness of implementing a compliance culture for Business Unit, which is carried out once a year. This assessment provides an overview for management to determine the level of compliance of each Business Unit, which can be considered when assessing each business unit's KPIs.

The Board of Directors periodically assesses the adequacy of implementing the Compliance Function at BRI through Compliance Function Reports, which are also submitted to the Financial Services Authority every semester. The implementation summary contained in the Compliance Function Report contains fairly comprehensive information, including compliance risk management, gratification control program, AML-CFT program, and others.

## Accounting, Information and Communication Systems

### Accounting System

Methods and records for identifying, grouping, analyzing, classifying, recording or posting, and reporting transactions.

### Information System

1. Must be able to produce reports on business activities, financial conditions, implementation of risk management, and fulfillment of provisions that support the implementation of the duties of the Board of Directors and Board of Commissioners.
2. Provide a reliable information system regarding all functional activities, especially functional activities that are significant and have high risk potential.
3. Organize a contingency recovery plan and back up system to prevent high risk business failure.
4. Have and maintain a management information system that is organized, both in electronic and non-electronic form.

## Communication System

1. Must be able to provide information to all parties, both internal and external, such as the OJK Regulation, external auditors, shareholders, and customers.
2. Internal Audit Unit (SPI) must ensure that there are effective communication channels so that all officials and workers fully understand and comply with policies and procedures in carrying out their duties and responsibilities.
3. The organizational structure must allow for adequate information flow, namely upward information to ensure that the Board of Directors, Board of Commissioners and executive officers are aware of operational risks and performance. Downward information is carried out to ensure the Company's objectives, strategies and expectations as well as lower-level policies and implementers, and across business units to ensure that information known by a particular business unit can be conveyed to other related business units.

## Monitoring Activities and Corrective Actions for Deviations or Weaknesses

BRI continuously monitors the overall effectiveness of internal control carried out by operational business unit and the Internal Audit Business Unit ranks. The Internal Audit Business Unit has monitored the internal control system, which is submitted to the President Director, Compliance Director, and Board of Commissioners.

### Monitoring Activities

1. Conduct continuous monitoring of the overall effectiveness of internal control implementation. Monitoring of key risks must be prioritized and serve as part of the Company's daily activities including periodic evaluations, both by the risk taking unit and by SKAI.
2. Continuously monitor and evaluate the adequacy of SPI in relation to changes in internal and external conditions and must increase the capacity of SPI so that its effectiveness can be improved.
3. Ensure that monitoring functions are clearly defined and well structured within the organization.
4. Assign business units or employees to monitor the effectiveness of internal control.
5. Establish the appropriate frequency for monitoring activities based on the risks inherent in the Company and the nature or frequency of changes occurring in operational activities.
6. Integrate SPI into operational activities and provide routine reports such as accounting journals, management reviews and reports on approval of exceptions or deviations from established policies and procedures (justification for irregularities) which are then reviewed.

7. Conduct a review of the documentation and evaluation results of the business units or workers assigned to carry out monitoring.
8. Establish information or feedback in an appropriate format and frequency.

### SKAI Function

1. Conduct effective and comprehensive internal audits of SPI carried out by independent, competent, and sufficient number of auditors.
2. Report findings directly to the Board of Commissioners or Audit Committee, President Director, and Director in charge of the compliance function.
3. Conduct an independent assessment of the adequacy of the Company's compliance with established policies and procedures.
4. Determine the position, authority, responsibility, professionalism, organization, and scope of duties of SKAI by referring to the provisions of laws and regulations regarding the implementation of the compliance function of general banks and the standards for implementing the audit function.

### Correction of Weaknesses and Corrective Actions for Deviations

1. Weaknesses in internal control, whether identified by the risk taking unit, SKAI, or other parties, must be immediately reported to and brought to the attention of authorized officials and/or the Board of Directors. Material weaknesses in internal control must be reported to the Board of Commissioners.
2. Any reports regarding weaknesses in internal control or ineffective risk control must be immediately followed up by the Board of Directors, Board of Commissioners, and relevant executive officers.
3. SKAI must conduct a review or other adequate monitoring steps on the weaknesses that occur and immediately report to the Board of Commissioners, Audit Committee, and President Director if there are still weaknesses that have not been corrected or have been recommended for corrective actions that have not been followed up.
4. Ensuring that all weaknesses are immediately followed up, the Board of Directors must create a system that can trace weaknesses in internal control and take corrective steps.
5. The Board of Directors and Board of Commissioners must receive periodic reports in the form of a summary of the results of the identification of all problems in internal control.

## Compliance with the Committee of Sponsoring Organizations of Treadway Commission (COSO)

BRI has implemented an internal control system using the COSO Internal Control Framework: Control Environment, Risk Assessment, Control Activities, Information & Communication, and Monitoring.

### Internal Environment

The first element of BRI's internal control structure includes commitment, policies, and behavior, including the concern of the Board of Directors, Board of Commissioners, and all BRI employees regarding the importance of effective internal control. BRI's Board of Commissioners ensures that the Board of Directors has monitored the effectiveness of the implementation of the internal control system through regular meetings with the Board of Directors and Executive Officers to discuss the effectiveness of the Internal Control System. The Board of Directors monitors the adequacy and effectiveness of the internal control system by ensuring that officials and workers have carried out internal implementation function activities. In carrying out supervision, BRI management has established a culture of control, including:

1. Establishment of an adequate BRI organizational structure with the determination of duties and responsibilities in accordance with applicable regulations.
2. Policies and procedures related to BRI human capital management include planning, recruitment, development and training, remuneration, and performance management.
3. BRI's core values and the BRI Code of Ethics reflect integrity and ethical values, which all BRI employees must follow.
4. In implementing the duties and responsibilities of the Directors and Commissioners, always pay attention to the principles of good corporate governance.

### Risk Assessment

It is a series of awareness of all BRI employees towards a risk awareness culture, including actions to evaluate, assess, and mitigate risks. A more detailed explanation regarding the bank's internal control system for all types of risks is presented in pillar 4 of the Risk Management Chapter. BRI evaluates the risk profile periodically to mitigate risks that have the potential to harm the company. In implementing integrated risk management in financial conglomerates, BRI carries out management including assessment of 10 (ten) types of risks, namely:

1. Credit risk  
The assessment is carried out using an internal model using a standard model, namely calculating the probability of default and loss given default for each business segment based on shifts in collectibility. A series of stress tests were also carried out to measure the maximum potential loss if stress conditions occurred.
2. Market risk  
Assessments are carried out periodically (daily, weekly, monthly) by calculating market risk, including an approach using standard methods and internal measurement models (VaR) through the GUAVA application and NII simulation every time there is a change in market interest rates and managing the maturity profile of securities. The standard method approach is carried out by calculating interest rate and exchange rate risk on the position of all BRI financial instruments classified as trading books and banking books exposed to interest rate and exchange rate risk.
3. Liquidity Risk  
Identification, measurement, and monitoring are carried out through the daily liquidity profile dashboard, while control is carried out through the liquidity contingency plan protocol. Liquidity risk assessment includes assessing liquidity ratios, cash flow projections, maturity profiles, NSFR and LCR, determining liquidity risk limits, and stress tests.
4. Operational Risk  
Assess risks caused by inadequate or non-functioning internal processes, human error, system failure, or external problems that affect bank operations.
5. Legal Risk  
Includes an assessment of risks caused by juridical weaknesses, including legal claims, the absence of supporting legislation, or deficiencies in the agreement, such as not fulfilling the terms of the validity of the contract and imperfect binding.
6. Strategic Risk  
Assessment includes determining and implementing inappropriate bank strategies, making wrong business decisions, or lacking the need for more responsiveness to external changes.
7. Reputation Risk  
Covers risks caused by negative publications related to the bank's business activities or negative perceptions of the bank. The measurement aims to estimate the level of reputation risk vulnerability faced by BRI. The assessment includes parameters in the form of the influence of the reputation of bank owners and companies, violations of business ethics, product complexity, and business collaboration, and the frequency and materiality of negative bank news and customer complaints.

#### 8. Compliance Risk

This is a risk caused by not complying with or not implementing applicable laws and regulations. Assessments are carried out on the parameters of type, significance, nominal, and frequency of violations of relevant provisions.

#### 9. Insurance Risk

Assess risks resulting from the failure of insurance companies to fulfill their obligations to policyholders due to inadequate risk selection processes, premium determination, use of reinsurance, and/or claims handling.

#### 10. Intra Group Transaction Risk

Assess the risks resulting from an entity's dependence, either directly or indirectly, on other entities within a financial conglomerate in order to fulfill the obligations of written agreements and unwritten agreements, whether followed by transfers and/or not followed by transfers of funds.

Apart from conducting regular risk assessments, management also evaluates the company's risk profile assessment results to determine actions and controls for the risk assessment. Management has established an Early Warning System for every risky business process that can potentially harm the company.

### Control Activities

Includes actions determined through policies and procedures to control risks at all levels of the organization and various business processes at BRI. Control activities can assist Directors and Commissioners in managing and controlling hazards that can affect performance or result in losses for the company. Forms of BRI control activities include:

1. General control activities involve all BRI employees at all levels of the organization. BRI's control activities are contained in all BRI policies and procedures as stated in the BRI Policy and Procedure Architecture. Control systems for each business process, including:
  - a. Implement MCS (maker, checker, signer) in authorization and verification activities.
  - b. The segregation of duties separates functions in carrying out responsibilities so that there is no opportunity to commit and hide irregularities in implementing their duties.
  - c. Implementation of the Four Eyes Principles in the loan process for all segments; separation of loan initiator and breaker functions. d. Application of three lines for layered defense activities.
  - d. Application of three lines for layered defense activities.

2. Control activities according to organizational functions include:

- a. Implementation of Management Reviews (Top Management Reviews)
- b. Control activities in the implementation of Risk Management include:
  - Credit risk control includes procedures for improving loan quality through restructuring, procedures for minimizing losses in loan quality through restructuring, and procedures for writing off problematic loans.
  - Market risk control includes preparing market risk management designs, compiling and analyzing periodic reports on the output produced by internal models such as analysis of daily net foreign exchange position reports, market risk exposure reports, implementation of Market Risk Management Committee forums and Asset & Liability Committee (ALCO) forums.
  - Liquidity risk control includes the Liquidity Contingency Plan Protocol .
  - Operational risk control includes product assessment procedures and a Protocol Liquidity Contingency Plan for catastrophic events.
  - Control legal risks by reviewing the legal aspects of new products and activities.
  - Strategic risk control is contained in the General Long Term Plan policy, Long-Term Plan Implementation Guidelines, and the Company's Work Plan and Budget.
  - Reputation risk control is included in the Circular Letter of the BRI Board of Directors regarding Information Service and Management Policy.
  - Compliance risk control is carried out by reviewing each external regulation and analyzing the impact on the company to be then included in each company's internal provisions.
  - Controlling insurance risk as part of the risks inherent in BRI as the primary entity that oversees subsidiary companies operating in the insurance sector is through the implementation of the Subsidiary Company Risk Profile Discussion Forum.
  - Intra-group risk control is carried out by the Subsidiary Desk, which is appointed by management as the Business Unit that manages subsidiaries.

### Information & Communication

BRI has a relevant and quality information system related to financial conditions, business activities, risk management and compliance implementation, market conditions, and other conditions to support the duties and responsibilities of the Board of Directors and Board of Commissioners. Internal and external communications are also carried out periodically to support the company's internal controls functioning as they should.

### Monitoring

Includes a continuous assessment process for monitoring activities regarding the effectiveness of the design and operation of the internal control structure and management performance that has been implemented and is functioning. Monitoring of BRI's internal control system is carried out through three lines of defense, namely:

1. 1<sup>st</sup> line as risk owner, it is the Unit that carries out business and operational activities and manages the risks faced (including the Operational Business Unit).
2. 2<sup>nd</sup> line, it is the Unit that carries out functional supervision (including MR Headquarters & Regional Offices, Compliance Division, and Policy & Procedures Division).
3. 3<sup>rd</sup> line, it is the Unit that carries out assurance. The Internal Audit Business Unit is part of the Internal Control System, which carries out a supervisory function over the monitoring of the internal control system.

The results of the implementation of The Internal Audit Business Unit supervision and monitoring of the internal control system are submitted to the President Director, Compliance Director, and Board of Commissioners.

### Evaluation of Internal Control System Implementation

The Board of Directors is responsible for ensuring the implementation of a reliable and effective internal control system, and is also obligated to foster and ensure that a risk awareness culture is embedded at every level of the organization.

The Internal Audit Unit (SKAI) is responsible for evaluating the adequacy and effectiveness of the internal control system, and plays an active role in promoting the continuous improvement of internal control effectiveness to support the achievement of the Company's objectives as established by BRI.

In carrying out its duties, SKAI evaluates internal controls through periodic audit and review activities covering the Head Office, Operational Work Units, Overseas Offices, and Subsidiaries.

The results of SKAI's evaluation are submitted to the Board of Directors for follow-up actions in accordance with the agreed improvement commitments. The Board of Commissioners, particularly through the Audit Committee, also plays an active role in evaluating internal controls by reviewing the results of evaluations conducted by SKAI. The evaluation results throughout 2025 indicate that BRI's internal control system has been implemented adequately.

### Statement of the Board of Directors and/or Board of Commissioners on the Adequacy of the Internal Control System

The Board of Commissioners and the Board of Directors of the Company share joint responsibility in ensuring the effectiveness of the internal control system. The Board of Directors is responsible for the design, implementation, and maintenance of the internal control system at all organizational levels, including controls over operational activities, financial reporting, compliance with laws and regulations, and risk management. Meanwhile, the Board of Commissioners actively performs its supervisory function to ensure that the Board of Directors consistently and sustainably fulfills such responsibilities, in order to safeguard the interests of shareholders and other stakeholders.

Throughout 2025, the Board of Directors undertook various initiatives to strengthen the internal control framework, including the enhancement of policies and standard operating procedures, improvement of the effectiveness of risk management and compliance functions, reinforcement of the risk-based internal audit function, and the utilization of information technology to support the monitoring and control of business activities. The Board of Commissioners, through the Audit Committee, periodically reviewed the adequacy and effectiveness of the internal control system, including reviewing internal and external audit reports, monitoring the follow-up actions on audit findings, and evaluating the Company's compliance with prevailing laws and regulations. Based on the results of such oversight and evaluation, the Board of Commissioners concluded that the Company's internal control system throughout 2025 operated effectively, in an integrated and adequate manner, and was able to support the achievement of sound and sustainable performance, grounded in the principles of good corporate governance.

## Risk Management

BRI proactively and prudently manages risk in every business and operational process to achieve optimal profitability per the predetermined risk appetite. BRI is committed to implementing sound risk management by having policies, procedures, competencies, accountability, reporting, and supporting technology that aims to ensure that BRI Bank's risk management always runs effectively and efficiently.

### Basis of Implementing Risk Management

The basis for implementing the Company's risk management refers to:

1. Law of the Republic of Indonesia Number 10 of 1998 dated November 10, 1998 concerning Amendments to Law No. 7 of 1992 dated March 25, 1992 concerning Banking.
2. Law of the Republic of Indonesia Number 5 of 1999 dated March 05, 1999 concerning Prohibition of Monopolistic Practices and Unfair Business Competition.
3. Law of the Republic of Indonesia Number 19 of 2003 dated June 19, 2003 concerning State-Owned Enterprises.
4. Law of the Republic of Indonesia Number 40 of 2007 dated August 16, 2007 concerning Limited Liability Companies.
5. Law of the Republic of Indonesia Number 40 of 2014 dated October 17, 2014 concerning Insurance as last amended by Law of the Republic of Indonesia Number 4 of 2023 dated January 12, 2023 concerning Development and Strengthening of the Financial Sector.
6. Law of the Republic of Indonesia Number 8 of 2015 dated November 10, 2015 concerning Capital Markets.
7. Law of the Republic of Indonesia Number 9 of 2016 dated April 15, 2016 concerning Prevention and Handling of Financial System Crisis as last amended by Law of the Republic of Indonesia Number 4 of 2023 dated January 12, 2023 concerning Development and Strengthening of the Financial Sector.
8. Government Regulation of the Republic of Indonesia Number 21 of 1992, dated April 29, 1992, concerning Adjustment of the Legal Form of Bank Rakyat Indonesia to a Limited Liability Company (Persero).
9. Presidential Regulation of the Republic of Indonesia Number 9 of 2009 dated March 18, 2009 concerning Financing Institutions.
10. Regulation of the Minister of SOEs of the Republic of Indonesia Number PER-2/MBU/2023 dated March 24, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.
11. Decree of the Minister of Manpower of the Republic of Indonesia Number 23 of 2019 dated February 27, 2019 concerning the Determination of Indonesian National Work Competency Standards for the Category of Financial and Insurance Activities, Main Group of Insurance, Reinsurance and Pension Funds, Not Mandatory Social Security in the Insurance Sector.
12. Decree of the Minister of Manpower of the Republic of Indonesia Number 87 of 2019 dated May 17, 2019 concerning the Determination of Indonesian National Work Competency Standards for the Category of Financial and Insurance Activities, Main Group of Financial Services Activities, Not Insurance and Pension Funds in the Financing Sector.
13. Decree of the Minister of Manpower of the Republic of Indonesia Number 233 of 2019 dated September 10, 2019 concerning the Determination of Indonesian National Work Competency Standards for the Category of Financial and Insurance Activities, Main Group of Supporting Activities for Financial Services, Not Insurance and Pension Funds in the Capital Market Sector.
14. Decree of the Minister of Manpower of the Republic of Indonesia Number 218 of 2020 dated May 12, 2020 concerning the Determination of Indonesian National Work Competency Standards for the Category of Financial and Insurance Activities, Main Group of Financial Services Activities, Non-Insurance and Pension Funds in the Field of Banking Risk Management.
15. Bank Indonesia Regulation Number 23/6/PBI/2021 dated July 1, 2021 concerning Payment Service Providers.
16. Regulation of the Member of the Board of Governors Number 24/7/PADG/2022 dated June 30, 2022 concerning the Implementation of Payment Systems by Payment Service Providers and Payment System Infrastructure Providers.
17. The OJK Regulation (POJK) Number 17/POJK.03/2014 dated November 19, 2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
18. The OJK Regulation (POJK) Number 18/POJK.03/2014 dated November 19, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerates.
19. The OJK Regulation (POJK) Number 26/POJK.03/2015 dated December 11, 2015 concerning the Obligation to Provision of Integrated Minimum Capital for Financial Conglomerates.
20. The OJK Regulation (POJK) Number 4/POJK.03/2016 dated January 26, 2016 concerning the Assessment of the Soundness Level of Commercial Banks.
21. The OJK Regulation (POJK) Number 5/POJK.03/2016 dated January 26, 2016 concerning Bank Business Plans.
22. The OJK Regulation (POJK) Number 18/POJK.03/2016 dated March 22, 2016 concerning Implementation of Risk Management for Commercial Banks.
23. The OJK Regulation (POJK) Number 34/POJK.03/2016 dated September 26, 2016 concerning Amendments to OJK Regulation (POJK) Number 11/POJK.03/2016 concerning Minimum Capital Requirement for Commercial Banks.
24. Financial Services Authority Regulation No. 14/POJK.03/2017 dated April 7, 2017, concerning the Recovery Plan for Systemic Banks.

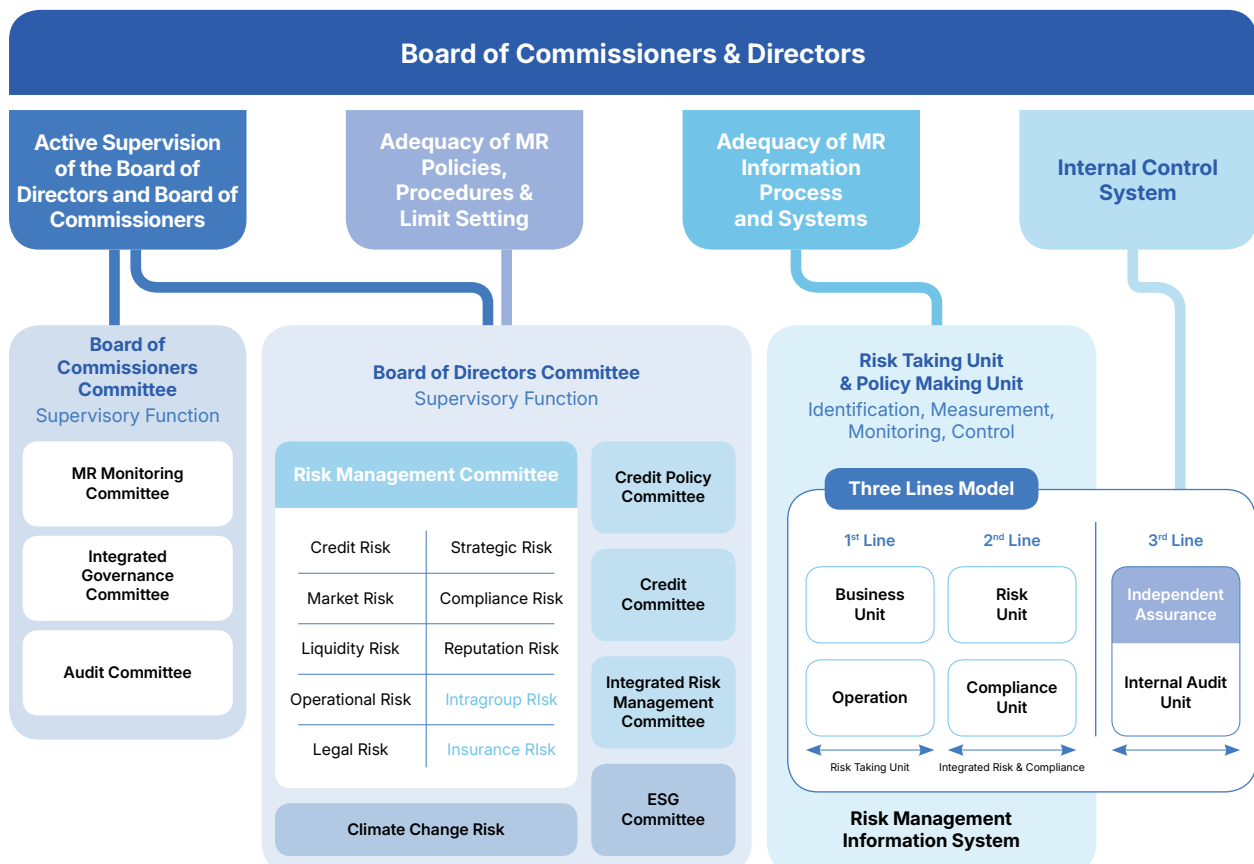

25. The OJK Regulation (POJK) Number 38/POJK.03/2017 dated July 12, 2017 concerning Implementation of Consolidated Risk Management for Banks Controlling Subsidiaries.
26. The OJK Regulation (POJK) Number 12/POJK.03/2018 dated August 6, 2018 concerning the Provision of Digital Banking Services by Commercial Banks.
27. The OJK Regulation (POJK) Number 35/POJK.05/2018 dated December 28, 2018 concerning the Implementation of Financing Company Business.
28. The OJK Regulation (POJK) Number 39/POJK.03/2019 dated December 19, 2019 concerning the Implementation of AntiFraud Strategy for Commercial Banks.
29. The OJK Regulation (POJK) Number 28/POJK.05/2020 dated April 29, 2020 concerning the Assessment of the Soundness Level of Non-Bank Financial Services Institutions.
30. The OJK Regulation (POJK) Number 29/POJK.05/2020 dated April 29, 2020 concerning Amendments to OJK Regulation Number 30/POJK.05/2014 concerning Good Corporate Governance for Financing Companies.
31. Financial Services Authority Regulation (POJK) No. 45/POJK.03/2020 dated October 14, 2020, concerning Financial Conglomerates.

54. The OJK Circular Letter Number 28/POJK.03/2022 dated December 22, 2022 concerning Risk Management Certification.
55. The Articles of Association of PT Bank Rakyat Indonesia (Persero) Tbk as set forth in Deed No. 3 dated March 9, 2021, drawn up before Fathiah Helmi, S.H., Notary in Jakarta, which has obtained the Acknowledgement

- of Amendment to the Articles of Association from the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-AH.01.03-0159493 dated March 12, 2021, and most recently amended by Deed No. 4 dated October 6, 2021, drawn up before Fathiah Helmi, S.H., Notary in Jakarta, which has obtained the Acknowledgement of Notification of Amendment to the Articles of Association from the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-AH.01.03-0457763 dated October 7, 2021," as stipulated in the Legal Division Memorandum No. B.164.e-LGL/PKJ/12/2021 dated December 22, 2021 regarding the Wording of the Company's Articles of Association in the BRI Comparison Clause.
56. Board of Directors Decree of PT Bank Rakyat Indonesia (Persero) Tbk No. KU.01-DIR/KRD/11/2022 dated November 15, 2022 concerning the Bank's Credit Policy.
  57. Board of Directors Decree of PT Bank Rakyat Indonesia (Persero) Tbk No. KU.02-DIR/ASQ/12/2022 dated December 30, 2022 concerning Internal Audit General Policy.
  58. Board of Directors Decree of PT Bank Rakyat Indonesia (Persero) Tbk No. KB.01-DIR/KPD/04/2023 dated April 17, 2023 concerning Operational and Information Technology General Policy.

59. Board of Directors Decree of PT Bank Rakyat Indonesia (Persero) Tbk No. KU.02-DIR/KEP/10/2023 dated October 10, 2023 concerning Corporate Governance General Policy.
60. Board of Directors Decree of PT Bank Rakyat Indonesia (Persero) Tbk No. KU.03-DIR/FMA/10/2023 dated October 16, 2023 concerning Financial and Accounting General Policy.
61. Board of Directors Decree of PT Bank Rakyat Indonesia (Persero) Tbk No. B.211-DIR/SBM/12/2022 dated December 19, 2022 concerning the Designation of the Main Entity and Members of the Financial Conglomeration of PT Bank Rakyat Indonesia (Persero) Tbk.
62. The Board of Directors Decree of BRI No. KU.02-DIR/MPE/04/2024 dated 30 April 2024 concerning the General Risk Management Policy may also be included as part of the Basis for Risk Management Implementation, as it constitutes the highest-level policy governing Risk Management at BRI.

### Risk Management Framework and Governance

The Company's Risk Management framework is contained in the BRI Risk Management Policy which is carried out through a capital management and risk management approach in operations and business covering all levels of the BRI organization and members of the BRI Financial Conglomerate. In simple terms, BRI's risk management framework is described as follows:

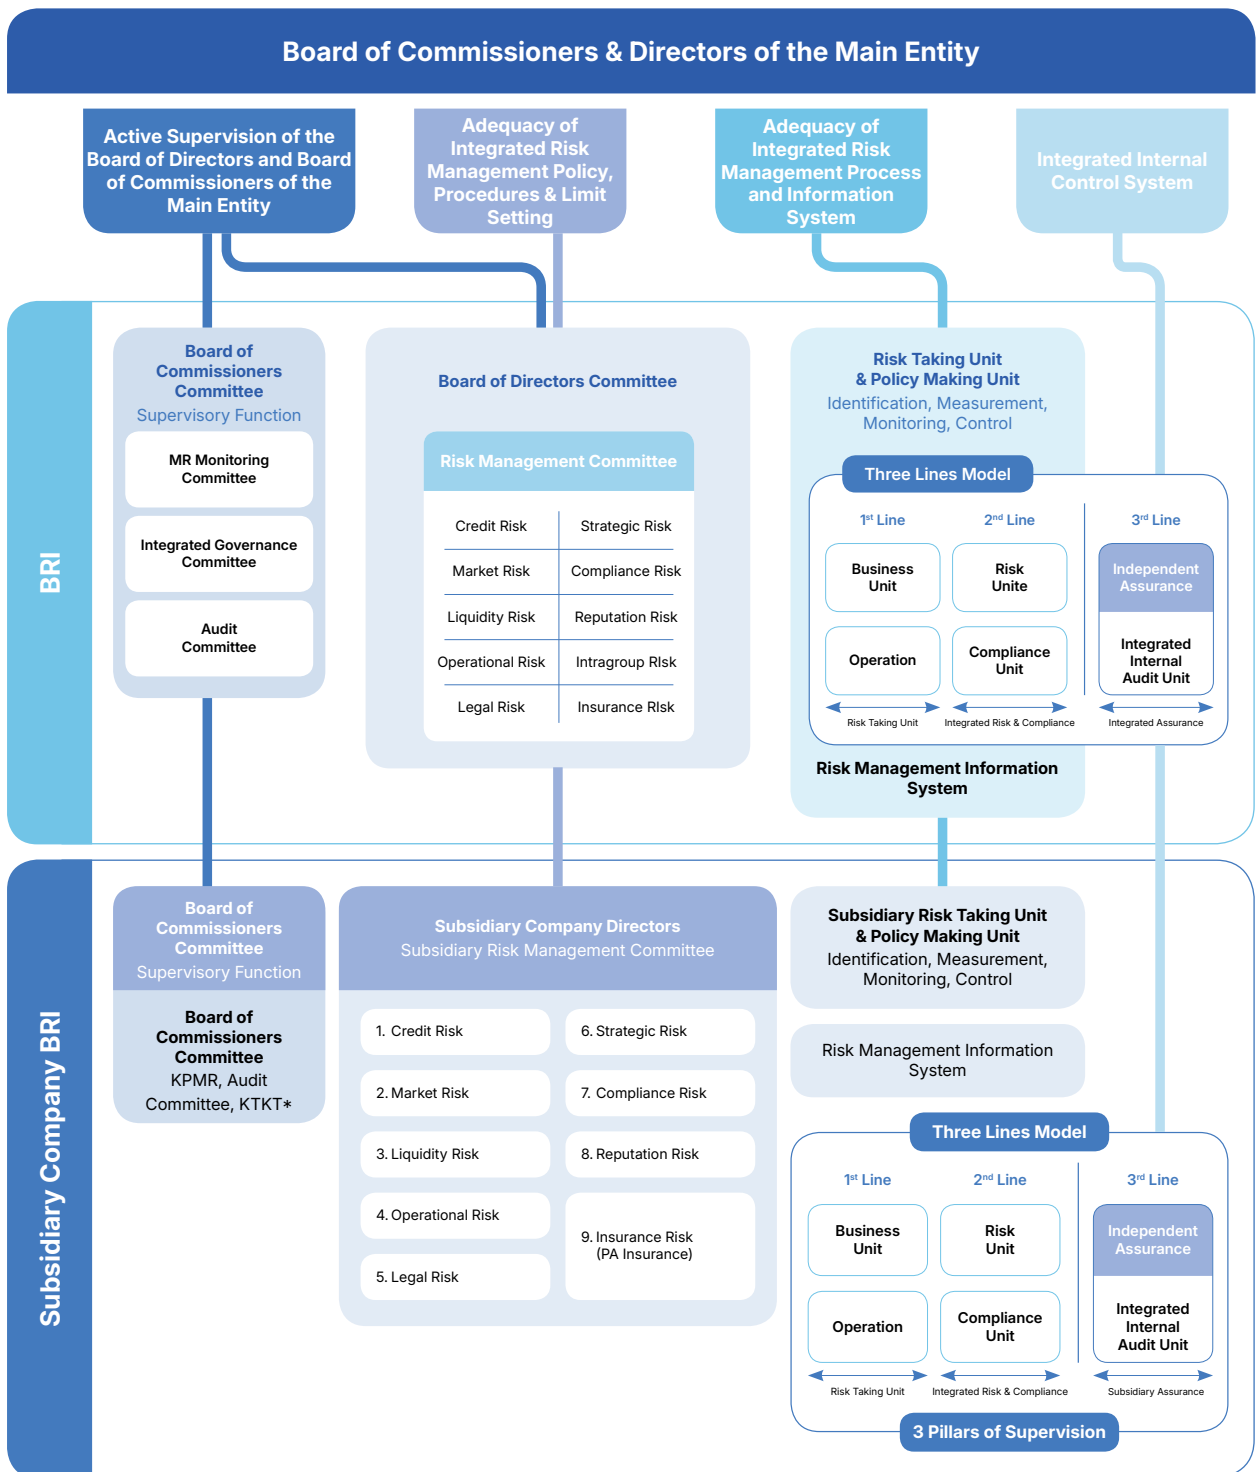

The risk management governance framework above refers to OJK Regulation No.18/POJK.03/2016, where the Implementation of Risk Management consists of 4 (four) main pillars, namely:

- a. Pillar 1: Active Supervision of the Board of Directors and Board of Commissioners;  
Pillar 2: Adequacy of Risk Management Policies, Procedures and Limit Setting; In implementing the 1<sup>st</sup> and 2<sup>nd</sup> pillars of Risk Management, the Board of Directors and the Board of Commissioners are assisted by Committees under the Board of Directors and Committees under the Board of Commissioners.
- b. Pillar 3 : Adequacy of Risk Management Information Processes and Systems; In implementing the 3rd pillar, BRI applies a 3 (three) line risk management model or three lines model, namely:
  - i. The first line as the Risk Owner Unit is a unit that directly identifies and manages Risk in the business process consisting of the Core Risk Taking Unit and the Supporting Risk Taking Unit;
  - ii. The second line as the Risk Management and Compliance function which is an independent unit that measures, monitors and mitigates Risk in aggregate, as well as develops Risk Management methodologies and policies; and
  - iii. The third line as the Internal Audit function is a unit that ensures that Risk governance and control have been implemented effectively by the company.
- c. Pillar 4 : Internal Control System.  
In implementing the 4th pillar, namely the Internal Control System, the Internal Audit Unit as Independent Assurance carries out an assessment of the SPI in the implementation of Risk Management.

The governance of Integrated Risk Management serves as the foundation for the Parent Company of Financial Conglomerate Holding Company (PIKK) and Members of the BRI Financial Conglomerate in implementing the Integrated Risk Management process across all business and operational activities of the BRI Financial Conglomerate. The Integrated Risk Management governance framework used is described as follows.

The integrated risk management governance framework above refers to OJK Regulation No.17/POJK.03/2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates, the Risk Management framework and governance used by the BRI Financial Conglomerate consists of 4 (four) main pillars, namely as follows:

- a. Pillar 1: Active supervision of the Board of Directors and Board of Commissioners of the Main Entity;
- b. Pillar 2: Adequacy of policies, risk management procedures and integrated limit setting; In implementing the 1st and 2nd pillars of Integrated Risk Management, the Board of Directors and Board of Commissioners in each BRI Financial Conglomerate entity are assisted by the Risk Management Committee under the Board of Directors and the Committee under the Board of Commissioners.
- c. Pillar 3: Adequacy of the Integrated Risk Management process and Information System;

In implementing the 3rd pillar, each BRI Financial Conglomerate entity must implement a 3 (three) lines risk governance model, namely:

- i. The first line as a risk owner unit is a unit that directly identifies and manages risks in business processes consisting of Core Risk Taking Units and Supporting Risk Taking Units;
  - ii. The second line as an independent Risk Management and compliance function is a unit that measures, monitors and mitigates risks in aggregate, develops Risk Management methodologies and policies; and
  - iii. The third line as an Internal Audit function is a unit that ensures that risk governance and control are implemented effectively by the company.
- d. Pillar 4: Integrated Internal Control System.

In the implementation of the 4th pillar, namely the Integrated Internal Control System, Integrated SKAI and SKAI of Subsidiaries as Independent Assurance have an important role in ensuring the effectiveness of the implementation of the three pillars of Integrated Risk Management.

In order to implement Integrated Risk Management, synergy is carried out between the PIKK risk management organs and the risk management organs of members of the BRI Financial Conglomeration. The implementation of Risk Management within members of the BRI Financial Conglomeration is carried out with due observance of the applicable sectoral regulations governing each respective entity.

### Active Supervision of the Board of Commissioners and Directors

The Board of Directors and Board of Commissioners provide clear direction, actively supervise and mitigate, and develop a Risk Management culture. In addition, the Board of Directors and Board of Commissioners also ensure an adequate organizational structure, establish clear duties and responsibilities for each unit, and ensure sufficient quantity and quality of Human Resources (HR) to support the implementation of Risk Management effectively.

In carrying out these functions, the Board of Commissioners is assisted by a Committee at the Board of Commissioners level, namely the Risk Management Monitoring Committee (KPMR). The Risk Management Monitoring Committee periodically holds meetings and provides recommendations for improvements which are submitted in the minutes. The meetings to discuss risk profiles and the implementation of individual risk management have been held 8 (eight) times, namely as follows:

1. Risk Management Monitoring Committee Meeting on January 21, 2025 discussing the Risk Profile for the Fourth Quarter of 2024 and the Risk-Based Bank Soundness Level for the Second Semester of 2024.
2. Risk Management Monitoring Committee Meeting on February 11, 2025 discussing the Anti-Fraud Strategy for the Second Semester of 2024.

3. Risk Management Monitoring Committee Meeting on February 25, 2025 discussing the approval of the revision and update of the 2024–2025 Recovery Plan.
4. Risk Management Monitoring Committee Meeting on April 29, 2025 discussing the Risk Profile for the First Quarter of 2024.
5. Risk Management Monitoring Committee Meeting on July 22, 2025 discussing the Risk Profile for the Second Quarter of 2024.
6. The Risk Management Monitoring Committee meeting on September 23, 2025 discussed discussing the strategy for distributing state funds to BRI, providing advisory advice by consultants regarding specific project assignments, and discussing follow-up actions to the results of the BPK audit.
7. Risk Management Monitoring Committee Meeting on November 25, 2025 discussing the update of the Recovery Action Plan.
8. Risk Management Monitoring Committee Meeting on December 16, 2025 discussing customers affected by flooding in North Sumatra and West Sumatra.

In 2025, the implementation of active supervision and authority of the Board of Directors in Risk Management is carried out periodically and adequately in the Board of Directors Committee, including:

1. ALCO Forum which has been held 9 (nine) times, discussing macroeconomics and asset & liability positions.
2. Risk Management Committee which has been held 7 (seven) times, discussing risk profiles, capitalization and risk issues.
3. Business Performance Review (BPR) which has been held 9 (nine) times, discussing monitoring and evaluation of BRI's performance achievements nationally and the performance of all business units (RO and KCK as well as all Head Office Business Divisions).
4. Implementation of Risk Meetings to update loan risk portfolios which are carried out routinely to the Board of Directors and Commissioners.

### Adequacy of Policies, Procedures and Limit Setting

In accordance with OJK Regulation No. 18/POJK/2016, BRI's Board of Directors has prepared written and comprehensive Risk Management policies and strategies that were approved and evaluated by the Board of Commissioners. Some of the policies that have been updated throughout 2025 included:

- 1) Enterprise Risk Management
  - a) Updating provisions related to the parameters and limits of BRI's Individual and Integrated Risk Appetite Statement (RAS), as well as those applicable to each subsidiary.
  - b) Update of BRI's Risk Profile, Rentability and Capital Parameters.
  - c) Updating provisions related to the calculation of Risk-Weighted Assets (RWA).

- 2) Credit Risk
  - a) Updating provisions related to Working Capital Loans.
  - b) Updating provisions related to the Micro Business Credit Implementation Guidelines.
  - c) Updating provisions related to the Management of Non-Performing Loans.
  - d) Updating provisions related to the Credit Authority Delegation Decision (PDWK).
  - e) Updating provisions related to Multi-Purpose Loan.
  - f) Updating provisions related to Loan Portfolio Guidelines (LPG).
  - g) Updating provisions related to Collateral.
  - h) Updating provisions related to Government Program Loans.
  - i) Updating provisions related to Sector-Specific Financing.
  - j) Updating provisions related to the Corporate Business Credit Implementation Guidelines.
  - k) Updating provisions related to People's Business Credit (KUR).
  - l) Updating provisions related to Credit Facilities under the Nucleus-Plasma Scheme.
  - m) Establishment of Sector Limits under the Loan Portfolio Guidelines (LPG).
  - n) Establishment of Country Limits.
- 3) Market and Liquidity Risk
  - a) Updating the Daily Liquidity Limits of PT. BRI (Persero), Tbk.
  - b) Updating Transaction Limits and Market Risk Limits for Financial Asset Instruments related to Head Office Treasury activities.
  - c) Updating Transaction Limits and Market Risk Limits for Financial Asset Instruments related to Overseas Branch Treasury (UKLN) activities (Taipei, New York, Cayman Islands, Timor-Leste, and Singapore).
  - d) Updating provisions related to Treasury and Investment Product Services.
  - e) Updating provisions related to Treasury Asset Investment.
  - f) Establishment of Transaction Limits related to Bank Notes activities at BRI Head Office.
  - g) Updating provisions related to Foreign Exchange Management.
  - h) Updating provisions related to the Marketing of Investment Products.
- 4) Operational Risk
  - a) Updating the Standard Operating Procedures (SOP) for Digital Work Tools.
  - b) Updating the Policy on Foreign Exchange Management and Reporting.
  - c) Updating provisions related to Business Continuity Management.
  - d) Updating provisions related to Employee Relation.
  - e) Updating provisions related to Learning Management.
  - f) Updating provisions related to General Internal Audit Policy.
  - g) Updating provisions related to People Development.
  - h) Updating provisions related to Data Management.
  - i) Updating provisions related to Resourcing.
  - j) Updating provisions related to Integrated Commercial Bank Report (LBUT).
  - k) Updating provisions related to Transaction Operations Management.
- 5) Strategic Risk
  - a) Update of Corporate Strategy Policy.
  - b) Updating provisions related to Management Pricing.
- 6) Compliance Risk
  - a) Updating provisions related to the Circular Letter on the Implementation of the Anti-Money Laundering (AML) Program, Counter-Terrorism Financing (CTF), and Counter-Proliferation Financing of Weapons of Mass Destruction (CPF-WMD).
  - b) Updating provisions related to Taxation.
  - c) Updating provisions related to the Implementation of the Compliance Function.
- 7) Reputational Risk
  - Updating the Standard Service Quality Policy.
- 8) Legal Risks
  - a) Updating provisions related to the Protection and Management of Copyrights and Trademarks of PT Bank Rakyat Indonesia (Persero) Tbk.
  - b) Updating provisions related to the Legal Manual on the Drafting of Comparison Clauses and Confidentiality Provisions in Agreements as well as Confidentiality Agreements/Non-Disclosure Agreement (NDA).

### Adequacy of Risk Management Process and Risk Management Information System

BRI's Risk Management process is carried out completely and is carried out on all material risk factors, namely those that significantly affect BRI's financial condition. The Risk Management process is carried out with 4 (Four) pillars as follows:

#### 1. Identification

Risk identification is done by analyzing all risks and risk characteristics found in each business activity including risks from other products and services. The risk identification process will greatly determine the scope and scale of the stages of risk measurement, monitoring and control. Risk identification is carried out in activities such as:

##### 1) Loan Risk

- a. Loan provision.
- b. Factoring.
- c. Treasury business in banking book and trading book, including investment in securities, Foreign Exchange (Forex), derivative transactions and placement and borrowing transactions between banks.
- d. International business including trade finance and correspondent banking.
- e. Settlement.

- f. Overseas transactions or investments (Country Risk).
- 2) Market Risk  
Knowing the portfolio risk, both trading book and banking book, which is influenced by the movement of market variables and can affect the value that has the potential to cause losses.
- 3) Liquidity Risk  
Banking products and activities that can affect the sources and uses of funds, both in asset and liability positions and administrative accounts.
- 4) Operational Risk
  - a. Internal processes (policies, guidelines, systems and procedures, and infrastructure and facilities).
  - b. Human resources.
  - c. Information systems and technology.
  - d. External problems.
  - e. New Bank Product Risk (PBB), namely business activities carried out by BRI in the form of organizing products, services and/or services for the benefit of customers.
- 5) Legal Risks
  - a. Lawsuits and claims from external and internal parties.
  - b. Absence of supporting laws and regulations.
  - c. Weakness of the agreement.
- 6) Strategic Risk  
Identification is carried out on deviations due to the nonrealization or ineffective implementation of business strategies and business plans that have been set out in the business plan and corporate plan, especially those that have an impact on BRI's capital.
- 7) Compliance Risk
  - a. Business activities, namely the type and complexity of business, including Bank products.
  - b. Non-compliance, the amount (volume) and materiality of non-compliance with internal policies and procedures, applicable laws and regulations, healthy business practices and ethical standards.
- 8) Reputational Risk
  - a. Disclosure aspect.
  - b. BRI's level of sensitivity to customer complaints about business quality.
  - c. Communication policy on negative news.
  - d. Negative behavior of workers or management.
- 9) Other Risks  
BRI identifies the nature, type and complexity of business activities, including new products and activities.
- 2. Measurement  
The risk measurement system is used to measure risk exposure and as a reference in carrying out control. Risk measurement is carried out periodically for products, portfolios and all business activities. The measurement approach and methodology can be

quantitative, qualitative or a combination of both. The risk measurement approach and methodology measures the following:

- a. Operational risk measurement uses RCSA, KRI, and LED tools.
- b. Transactional credit risk measurement uses credit rating and credit scoring tools, while portfolio risk measurement uses vintage and flow rate analysis for each product and distribution cohort.
- c. Market risk measurement uses sensitivity analysis of IRRBB, VaR, and PDN.
- d. Liquidity risk measurement uses the Early Warning Indicator (EWI) tool.

Stress testing is one of the methods used in risk measurement. BRI conducts stress testing with the aim of estimating potential losses in abnormal and extreme market conditions, using certain scenarios to see the sensitivity of BRI's performance and financial condition to changes in risk factors and identify influences that impact the portfolio, including:

- a. Loan and non- loan portfolios, to see the risk of default (Loan Risk Stress test).
- b. Securities portfolio and foreign exchange position, to see the risk due to changes in interest rates and exchange rates (Market Risk Stress test).
- c. Liquid asset portfolio and liability profile, to see the risk of liquidity (Liquidity Risk Stress test).
- d. Other portfolios that can impact profit and loss or capital, for example potential losses from operational events on profit and loss.

### 3. Monitoring

Risk monitoring is carried out by evaluating the risk exposure contained in the entire product portfolio and business activities against compliance with the established internal limits and the effectiveness of the Risk Management process. Monitoring is carried out by the Risk Taking Unit and SKMR in the Risk Supporting Unit sector. The monitoring results are presented in periodic reports submitted to Management in order to mitigate risks and take necessary actions. In monitoring risks, BRI utilizes various Risk Management Information Systems, including the Credit Risk Assessment System (CRAS) Dashboard, the Daily Market Risk Portfolio Dashboard, the Monthly Risk Profile Dashboard, the Integrated Risk Management Dashboard, and BRISIM for performance information.

In addition, Monitoring and reporting of risks that are material or have an impact on capital conditions can be based on an assessment of potential risks using historical trends, portfolio comparisons in different periods (vintage analysis), and the position of risk parameters against limits.

#### 4. Control

Risk control aims to manage certain risks that can endanger BRI's business continuity. The risk control process framework is based on the results of an evaluation of risk exposures found in the entire product portfolio and functional activities. Risk control procedures and methodologies are determined by considering the complexity of the business, implementation conditions and capabilities of the internal Risk Management system and applicable provisions. Some risk control processes at BRI include:

- a. Determination of Risk Appetite
- b. Determination of Risk Limit
- c. Reserve for Losses
- d. Handling of Problematic Productive Assets
- e. Validation process of loan risk model periodically
- f. Control of interest rate risk in banking book
- g. Control of risk in hedging
- h. Determination of segregation of duty for each different function
- i. Control of risk in increasing quantity and quality of Human Resources (HR)
- j. Control of operational risk against external factors by preparing action plan to ensure business continuity, including emergency contingency plan and adjusted to the business continuity needed
- k. Periodic review of procedures, documentation, data processing system, contingency plan and other operational practices.
- l. Having legal opinion from external legal consultant on legal issues if needed
- m. Periodic review of contracts made with other parties
- n. Determination of policy regarding documentation requirements and procedures for storing and protecting important documents
- o. Establishment of financial control procedures and processes aimed at monitoring achievement compared to targets set according to the business plan
- p. Periodic testing and review of the strategic risk management system
- q. Periodic evaluation of the implementation of good corporate governance and preparation of follow-up improvements
- r. Reputational risk control that can be done through 2 (two) things:
  - 1) Prevention of incidents that give rise to reputational risks, which is generally carried out through a series of activities as follows:
    - a) Corporate Social Responsibility.
    - b) Regular communication/education to stakeholders in order to build a positive reputation from stakeholders.

- 2) Reputation recovery after an incident that creates reputational risk.

### Adequacy of Internal Control

In Quarter IV – 2025, BRI SKAI has conducted a review of the adequacy of internal control for the implementation of risk management based on audit results (both for Regulatory Audit, Special Audit, Surprise Audit, Investigative Audit, Thematic Audit activities) until the end of December 2025.

Overall, the assessment of the Quality of risk management implementation by SKAI BRI is the same as the assessment of SKMR BRI. There is 1 (one) risk that gets a fair rating, namely operational risk. This is because there are still weaknesses in internal control that need attention, namely the increase in the nominal fraud loss YoY.

### Risk Management System

#### Risk Management Principles

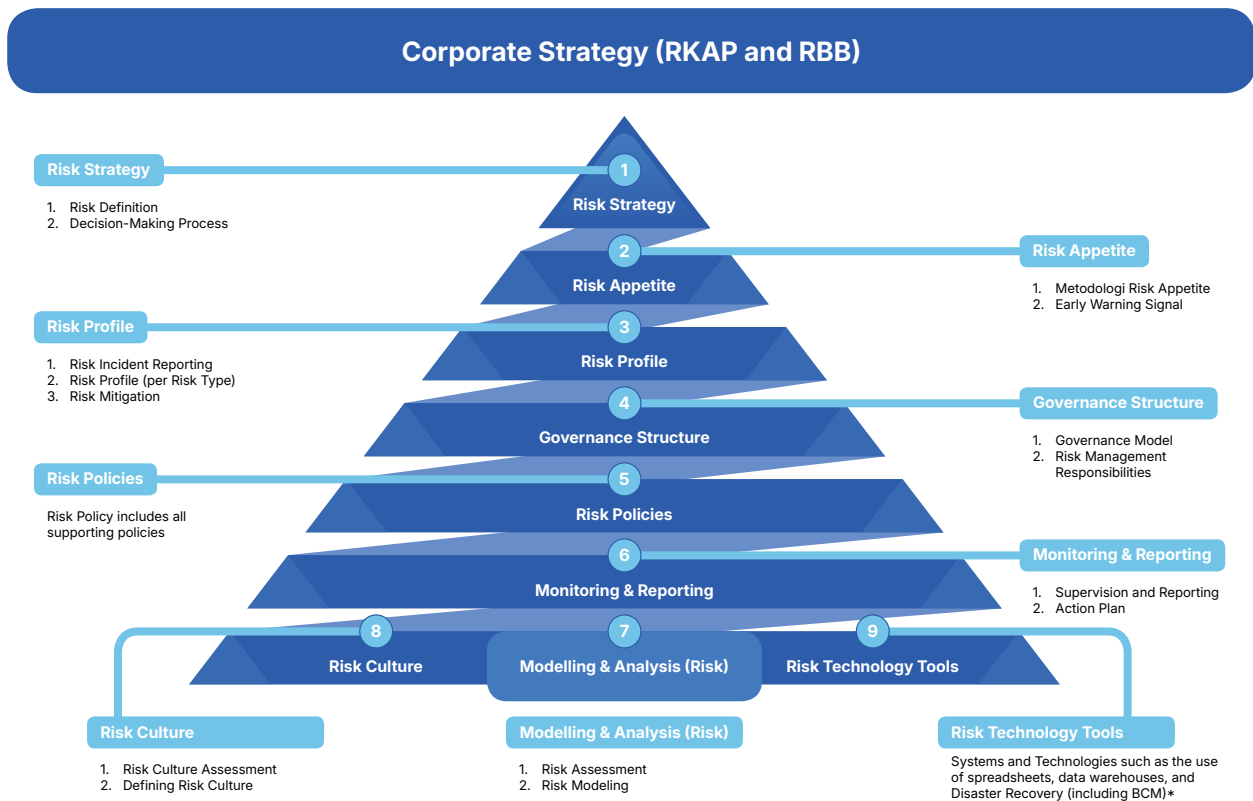

In line with the aspiration of Managing Risk for Sustainable Business, Operational Excellence & Banking Resilience, risk management is expected to provide assurance for sustainable banking business operations through adequate risk management practices. In this regard, BRI adopts the eight (8) principles of ISO 31000:2018 as the core values applied in the implementation of Risk Management.

1. Integrated  
Risk management constitutes an integral part of all organizational activities.
2. Structured & Comprehensive  
A structured and comprehensive Risk Management approach contributes to consistent and comparable outcomes.
3. Customized  
The Risk Management framework and processes are adaptable to the Company's objectives and aligned with developments in internal and external conditions.
4. Inclusive  
Adequate and timely engagement, supported by diverse knowledge, insights, and perspectives from all stakeholders, will result in more informative Risk Management practices and enhance risk awareness.
5. Dynamic  
Risks may arise, change, or cease to exist in line with shifts in the organization's external and internal context. Risk Management identifies, measures, monitors, anticipates, and controls changes and risk events in an adequate and timely manner.

6. Best Available Information  
Inputs for the improvement of Risk Management are based on historical and current information, as well as future projections. Risk Management explicitly takes into account any limitations and uncertainties associated with such information and projections. Information should be timely, clear, and accessible to relevant stakeholders.
7. Human & Cultural Factors  
Behavior and culture significantly influence all aspects of Risk Management at every level and stage.
8. Continual Improvement  
Risk Management is continuously improved on the basis of knowledge and experience.

### Risk Management Process

BRI's risk management process is implemented by adopting Enterprise Risk Management (ERM), which is defined as management's capability to manage all corporate/Bank risks in order to achieve optimal business targets. Each component of ERM is not sequential in nature but rather operates within a dynamic flow. BRI's ERM applies the Risk Management framework standards in accordance with best practices, namely ISO 31000 and COSO ERM, which are integrated into a single process as follows:

#### 1. Risk Strategy

Risk serves as a primary consideration in formulating strategies, preparing the business plan, and conducting performance assessments. The SKMR Risk Policy Making Unit provides input from a risk management perspective in the preparation of the Company's business plan and corporate targets.

## 2. Risk Appetite

Risk Appetite represents the level of risk that the Company is willing to undertake in order to achieve its objectives. With a higher (more aggressive) level of risk-taking, the Company expects to obtain higher returns (upside risk). However, should the business strategy fail, the Company must be prepared to accept lower returns (downside risk).

## 3. Risk Profile

The process of identifying and assessing all risks faced by the Company in relation to its corporate strategic plans (including risks that may currently occur as well as those that may arise in the future).

## 4. Governance Structure

The establishment of a Three Lines Model governance structure, including the accountability and responsibilities of senior management.

## 5. Risk Policies

The adequacy of risk management policies and procedures to manage all types of risks.

## 6. Monitoring & Reporting

Risk-based performance measurement (Risk Based Bank Rating, Financial Soundness Level, etc.), risk-based capital allocation for each business segment, and yield).

## 7. Modelling & Analysis (Risk)

The development of models as the primary framework in the process of risk identification, measurement, and control, prepared in accordance with applicable standards or best practices.

## 8. Risk Culture

The implementation of risk culture values by employees, as well as the enhancement of capabilities in risk-taking and risk management.

## 9. Risk Technology Tools

The utilization of technology in supporting the ERM approach must focus on organizational needs, data quality, and automation.

## Risk Appetite Statement

Risk Appetite/level of risk to be taken was the level and type of risk that BRI was willing to take to achieve its goals. The determination of Risk Appetite was used as an objective guide in making strategic decisions related to risk management, as a tool for Management in implementing good business governance, and as a guide from Management to Business Unit regarding the type and amount of risk that could be accepted and managed.

The level of risk to be taken was reflected in the strategy and business objectives (Long Term Plan and Bank Business Plan) and included all types of risks that were material in BRI's business operations. The BRI Board of Directors sets the Risk Appetite in the form of quantitative, qualitative, and zero-tolerance statements related to BRI's business goals and objectives. The Risk Appetite was reviewed annually or

at any time by taking into account changes in BRI's business plans and objectives as well as changes in the business environment.

## Integrated Risk Management

In order to measure risk more thoroughly, BRI had implemented integrated risk management in accordance with the Financial Services Authority Regulation No. 17/POJK.03/2014 dated November 19, 2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates and Circular Letter of the Financial Services Authority No. 14/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Risk Management for Financial Conglomerates. BRI Financial Conglomerate was a financial service institution that was in a group or groups with BRI due to ownership and/or control linkages. BRI as the holding company was the Main Entity of BRI Financial Conglomerate. BRI Financial Conglomerate had a structure consisting of BRI as the Main Entity and its subsidiaries and/or related companies.

The implementation of integrated Risk Management in risk management at BRI included:

### 1. Determination of Integrated Risk Limit

The Board of Directors of the Primary Entity was authorized to set risk limits for the Financial Conglomerate in accordance with the level of risk appetite, risk tolerance, and overall strategy of the BRI Financial Conglomerate. The determination of risk limits had to be in line with the business strategy, Risk Profile, BRI Financial Conglomerate's capital ability to absorb risk exposure or losses incurred, past loss experience, human resource capabilities, and applicable regulatory requirements.

The preparation of limits was carried out by the Division in the BRI Integrated Risk Management Working Unit in charge by considering input from members of the BRI Financial Conglomerate. The determination of risk limits included:

- a. Overall limit (Integrated)
- b. Limit for each type of risk
- c. Limit of each member of the Financial Conglomerate that has risk exposure

The limits were reviewed periodically by the Division in charge of the BRI Integrated Risk Management Working Unit to adjust to changes in conditions that occur. The limits had to be understood by each related party in the BRI Financial Conglomerate and communicated properly, including if changes occurred.

The types of risks managed in integrated Risk Management included:

### The types of risks managed in Integrated Risk Management

#### 2. Provision of Integrated Minimum Capital

BRI as the Main Entity had a Subsidiary Company in the form of a Financial Services Institution (LJK) thus forming the BRI Financial Conglomerate, that in order to create a financial sector that grew sustainably and stably and had high competitiveness, the BRI Financial Conglomerate needed to have adequate capital adequacy.

Capital was a source of financial support in the implementation of BRI Financial Conglomerate activities as a whole, a cushion to absorb unexpected losses, and a safety net in crisis conditions. Adequate capital adequacy could increase stakeholder confidence, thus supporting the condition and stability of the BRI Financial Conglomerate. BRI always ensured that the Financial Conglomerate had met the minimum Integrated Capital Adequacy Requirement (CAR) of 100%.

### Implementation of Basel

The Company had implemented several Basel Pillars in the implementation of Risk Management, among others:

#### 1. Internal Capital Adequacy Assessment Process (ICAAP)

In accordance with OJK Regulation No. 27/POJK.03/2022 concerning the Minimum Capital Adequacy Requirements of Commercial Banks, BRI had ensured that BRI's capital had fulfilled the capital adequacy minimum requirements according to risk profile, and established additional capital as a buffer, which includes Capital Conversation Buffer, Countercyclical Buffer, and Capital Surcharge for Systemic Banks, in addition, BRI has met the minimum Leverage Ratio requirements that have been reported to the regulator quarterly.

In addition, in the framework of the Supervisory review process, BRI implemented Bottom Up Stress Testing in supporting the implementation of the banking system stability management framework in Indonesia, which included a solvency stress test and liquidity assessment.

#### 2. Loan

Calculation of Risk-Weighted Assets for Loan Risk has used the Standard Approach method with reference to SE OJK No. 24/SEOJK.03/2021. In addition, in 2024, BRI has implemented capital calculations for bank exposure to Central Counterparty Institutions with reference to SE OJK No. 16/SEOJK.03/2023.

### 3. Operational

The calculation of minimum capital for operational risk is carried out using the Basic Indicator Approach in accordance with Financial Services Authority Circular Letter No. 24/ SEOJK.03/2016 concerning the Calculation of Risk Weighted Assets for Operational Risk using the Basic Indicator Approach. However, starting from 2023, the calculation of Risk-Weighted Assets for Operational Risk had to use the Standardized Approach based on Financial Services Authority Circular Letter No. 6/SEOJK.03/2020.

### 4. Markets and Liquidity

- a. Starting from 2024, the calculation of Risk Weighted Assets for Market Risk had to use the Standardized Approach based on Financial Services Authority Circular Letter No. 23/ SEOJK.03/2022.
- b. Measurement of the Bank's Liquidity resilience using the Basel III Approach: Liquidity Coverage Ratio & Net Stable Funding Ratio, under OJK Regulation No. 42/ POJK.03/2015 regarding the Obligation to Fulfill the Liquidity Coverage Ratio for Commercial Banks and POJK No. 19 of 2024 concerning Amendments to Financial Services Authority Regulation No. 42/ POJK.03/2015 regarding the Obligation to Fulfill the Liquidity Coverage Ratio (LCR) for Commercial Banks. Meanwhile, the calculation of the Net Stable Funding Ratio (NSFR) is carried out in accordance with the OJK Regulation No. 50/POJK.03/2017 regarding the Obligation to Fulfill the Net Stable Funding Ratio for Commercial Banks and POJK No. 20 of 2024 concerning Amendments to Financial Services Authority Regulation No. 50/POJK.03/2017 regarding the Obligation to Fulfill the Net Stable Funding Ratio (NSFR) for Commercial Banks. As an addition to the Basel pillar in measuring liquidity resilience, starting from 2026, the implementation of the Internal Liquidity Adequacy Assessment Process (ILAAP) will be carried out as of the December 2025 reporting position.
- c. Measurement of Interest Rate Risk in the Banking Book (IRRBB) is under OJK Circular Letter Number 12/SEOJK.03/2018 on the Implementation of Risk Management and Risk Measurement Standardized Approach for Interest Rate Risk in the Banking Book.

of credit risk is governed through policies and procedures, namely the General Credit Policy under Decree No. KU.01-DIR/KRD/11/2022 and the Credit Implementation Guidelines for each business segment, including Circular Letter No. SE.02-DIR/KRD/01/2025 concerning the Micro Business Credit Implementation Guidelines, Circular Letter No. SE.04-DIR/KRD/01/2024 concerning the SME Business Credit Implementation Guidelines, and Circular Letter No. SE.06-DIR/KRD/07/2025 concerning the Corporate Business Credit Implementation Guidelines.

In order to maintain a healthy loan portfolio, BRI's loan risk management is carried out with the following principles:

1. Separation of field loan
 

In the loan granting process, there are 2 (two) functions involved, namely:

  - a. Relationship Management (RM) is a function that carries out business activities such as: loan marketing, savings products, services and cross-selling, establishing relationships with debtors/potential debtors, and implementing efforts to return performing loans.
  - b. Credit Risk Management (CRM) a function that carries out loan risk control and assessment, loan portfolio management and management of problematic loan.
2. Application of the Four Eyes Principle
 

The Four Eyes Principle is a principle in the implementation of the authority to decide on loan which must be carried out jointly by at least 2 (two) loan line officers, one or both of whom have sufficient authority..
3. Implementation of Internal Risk Rating System
 

Every business should implement a standard risk assessment. The standard risk score provides the basis for calculating the cost of risk and for portfolio planning and management.
4. Separation of Problematic Loan Management (KL, D and M)
 

Loan that has been included in the category of problematic loan, its management must be transferred from the Relationship Management (RM) ranks to the Credit Risk Management (CRM) ranks or officers in the RM ranks who are appointed to handle problematic loan. In the case that the CRM ranks have received the delegation of management of problematic loan, then the responsibility for managing the loan is entirely the responsibility of the CRM ranks.

## Risk Profile and Management

Risks managed by BRI, namely:

### Credit Risk

Loan Risk Management aims to identify, measure, monitor and control loan risks inherent in business activities so as to minimize potential losses for BRI. In performing its intermediary function with due prudence, the management

In addition to these principles, BRI manages credit risk through the application of the 5C analysis, supported by periodic activities as follows:

1. Development, improvement and update of Loan Risk Rating and Loan Risk Scoring as tools/parameters in measuring loan risk by predicting the level of possibility of default by debtors.

2. Enhancement and update of Early Warning System as a signal of early symptoms/signs that are estimated to influence/ cause the possibility of default by debtors in fulfilling their obligations.
3. Update Loan Portfolio Guidelines (LPG) as a tool and validation of pipeline models, each of which aims to ensure that BRI's loan allocation is channeled to customer groups that have risk and growth potential in accordance with BRI's business conditions and plans, and remains based on healthy and profitable loan principles.
4. Loan stress test as a tool to evaluate bank resilience in facing economic downturns.
5. Determination and review of loan risk management policies, including governance, management of loan decision limits, determination of acceptable risk exposure limits, management of limits based on geography and management of concentration limits per industry/sector, and restrictions on expansion for marketers with NPLs above the limit.
6. Development of an information system in the form of a Credit Risk Analysis System (CRAS) Monitoring Dashboard as a tool for monitoring credit quality (LAR, SML, NPL), industrial sector, recovery and other analysis in business segments to the business unit level, to assist the loan risk management process in a portfolio so that it can be used as a supporter in strategic decision making.
7. Update the loan risk reserve (CKPN) calculation model according to the financial accounting standard PSAK 71 periodically.

### Operational Risk

Operational risk management is a risk resulting from inadequate and/or non-functioning internal processes, human error, system failure, and external events that affect the Bank's operations. To realize the aspirations and commitments of risk management, BRI complements its business operations with organizational design, people, culture, and data & technology that facilitate operational risk management at every level of the company, including identification, measurement, monitoring and control activities. The operational risk management process is increasingly effective with the existence of quality operational risk management tools, in the form of Risk and Control Self Assessment (RCSA), Key Risk Indicator (KRI), Incident Management/Loss Event Database, and Risk Management Forum, maturity, and supported by the Internal Audit Unit as assurance. In addition, the Risk Appetite Statement (RAS) is reduced to operational risk parameter limits and KPIs for each Business Unit at the Head Office to the Branch Office.

The structure and organization of the management and control functions related to operational risk at BRI are established by taking into account developments in operational risk within the banking sector and financial services industry, as well as the complexity of BRI's business. In this regard, the

Operational Risk Management Unit (SKMRO) was established with a focus on managing operational risk at BRI. SKMRO reports directly to the Director of Risk Management and comprises the Operational Risk Group, Digital Risk Group, and IT & Fraud Risk Group.

In line with the growth of digital transactions and services, and in anticipation of increasing cyber threats, the Digital Risk Group is tasked with managing digital risk, including the formulation of policies, the implementation of risk management processes, as well as the monitoring and evaluation of digital risks and their controls across all Bank activities.

Furthermore, to strengthen the implementation of GCG and in compliance with POJK No. 12 of 2024 concerning the Implementation of Anti-Fraud Strategies for Financial Services Institutions, and pursuant to Board of Directors Decree No. 2989-DIR/PPM/06/2025 dated 24 June 2025, the Bank established the IT & Fraud Risk Group. This group is responsible for formulating anti-fraud strategy policies, ensuring the implementation of anti-fraud strategies encompassing prevention, detection, investigation, reporting, and sanctions, as well as conducting monitoring, evaluation, and follow-up actions with the objective of preventing fraud risk events and undertaking recovery efforts for fraud-related losses.

In line with organizational development and the strengthening of operational risk management, in 2025 the Bank established four (4) Senior Operational Risk Head (SORH) organizations at the Head Office level, namely: SORH Procurement, SORH Distribution, SORH Information Technology, and SORH Corporate Center, where each SORH is responsible for the implementation of operational risk management within the respective Directorate under its supervision.

The operational risk management process, from identification, measurement, treatment to monitoring and reporting is carried out by all Business Units, both first line, second line, and third line models. The operational risk management process will be strengthened by the use of technology-based tools that can be used together by the three lines model for collaboration in managing Bank-wide operational risk.

The preparation and updating of RCSA, recording and documentation of losses or incidents, as well as the preparation and monitoring of key risk indicators in a disciplined and systematic manner can facilitate the prediction of potential risks in the future so that they can be mitigated early. Currently, operational risk management policies and tools are being developed with an integrated system and using data analytics to improve the capability of implementing predictive and preventive operational risk management.

Adequacy and competence of human resources and internalization of risk culture are the reinforcements of operational risk management implementation. Currently, special competencies in the field of risk management are being developed and Risk Culture is being implemented to achieve company goals through Risk Culture/Culture Activation Program (CAP) programs carried out by workers in all operational business units. Furthermore, the implementation of operational risk management is ensured to be correct and is reviewed periodically by the Internal Audit Unit as an independent party authorized to carry out assurance.

### Market Risk

Market risk measurement at BRI is carried out periodically (daily, weekly, monthly and quarterly) including by:

1. Calculating market risk using the standardized measurement method approach and internal model measurement (VaR);
2. Simulating NII on changes in market interest rates and benchmark rates as well as repricing gaps on assets and liabilities;
3. Implementing an integrated system for treasury and market risk, which is used by front office, middle office and back office functions.

In market risk management, BRI regularly organized Risk Management Committee forums that discussed market risk profiles, market risk issues both internal and external, and market risk stress testing. In addition, BRI also conducted ALCO meetings which were held every month to discuss the condition of assets and liabilities, including maturity profile, interest rate risk, NII simulation, and PDN management.

The market risk management function was divided into three functions consisting of front office (Treasury Business Division), middle office (Market, Portfolio & Enterprise Risk Division), and back office (Payment Operation Division). The front office monitored market price movements and conducted Treasury activities, adjusting the portfolio under the direction of market movements, the middle office set and monitored market risk limits, and transaction limits and periodically ensured market data (market price) used for mark-to-market (MTM), while the back office conducted settlement and daily and set MTM at the end of the day. The implementation of delegation of authority was realized through the determination of transaction limits in stages under the competence and experience of workers.

Market risk policies, procedures, and limits had been prepared and were contained in the Treasury Implementation Guidelines as well as the Market Risk Management Circular Letter and the Provisions for Determining Limits on Transactions and Financial Instrument Market Risk Limits

related to BRI's Treasury activities. The limits listed in the policy included open position limits for trading, dealer transaction limits, cut loss and stop loss limits, uncommitted financing line limits, counterparty limits, and value at risk (VaR) limits.

BRI also conducted market risk stress testing simulations aimed at measuring the potential risk in the portfolio under stress conditions. In stress testing, shocks could come from exchange rates and interest rates that had an impact on market risk exposures which included Net Open Position (NOP), Fair Value through Other Comprehensive Income (FVTOCI) and Fair Value through Profit or Loss (FVTPL) categories.

### Liquidity Risk

To support liquidity management, BRI established liquidity risk management policies in the Liquidity Risk Management Circular which included:

1. Liquidity Risk Management Governance
2. Liquidity Management Limit
3. Liquidity Coverage Ratio (LCR)
4. Net Stable Funding Ratio (NSFR)
5. Early Warning Indicators (EWI)
6. Contingency Funding Plan (CFP)

This policy aimed to ensure adequate liquidity risk management, including the adequacy of daily funds in meeting obligations in normal conditions and crisis conditions on time from various available sources of funds, including ensuring the availability of high-quality liquid assets. The funding strategy was prioritized from the collection of Third-Party Funds (DPK) which had a healthy and sustainable structure.

BRI also conducted a liquidity risk stress testing simulation to measure resilience or the ability to meet liquidity and capital needs during a crisis. This stress testing is also used as a reference for preparing an emergency funding plan (contingency plan) as well as determining and monitoring liquidity risk limits.

To comply with the implementation of Basel III, BRI monitors two main liquidity ratios, namely the Liquidity Coverage Ratio (LCR) and the Net Stable Funding Ratio (NSFR). The results of monitoring both ratios indicate that BRI's position is above the minimum ratio limit set by Basel III.

### Strategic Risk

BRI's strategic risk evaluation is carried out by the Board of Directors periodically through forums that discuss strategic risk strategies and policies, including the Business Performance Review forum, ALCO, Risk Management Committee, and Board of Directors Meetings used to align

BRI's strategy. Formulation and monitoring of strategy implementation include the Long-Term Plan (corporate plan), Bank Business Plan (RBB), and Company Work Plan & Budget (RKAP).

The Bank Business Plan and Company Budget Work Plan were reviewed annually based on changes in the business environment and company plans. Meanwhile, the Long-Term Plan served as a guideline for planning every year and could be reviewed if there were significant changes in the business environment and resources.

To mitigate strategic risk, BRI had implemented regular monitoring tools through parameters reflected in the strategic risk profile. Strategic risk measurement, among others, was carried out by analyzing exposures and comparing risk exposures with established limits, including loan expansion, third-party funds, Operating Expenses Operating Income, and fee-based income. The formulation and implementation of follow-up actions on strategic risk exposures are documented in both the Risk Management Committee (RMC) meetings and the Integrated Risk Management Committee (RMCT) meetings of the BRI Group, involving all members of the Financial Conglomerate and the Integrated Governance Committee (KTKT).

#### **Compliance Risk**

Banking was a highly regulated industry, so BRI always monitored compliance with the provisions issued by the Regulator and other authorized agencies. Regulatory sanctions for violations of these provisions varied from reprimands, fines/penalties, to license revocation. Compliance risk management was carried out in all BRI activities under applicable regulations.

Furthermore, BRI also applies the Risk Based Approach methodology which is summarized in the policies and SOPs (standard operational procedures) related to AML and PPT which are managed by the Compliance Division as a special business unit to protect BRI from the targets of money laundering and terrorism. Monitoring of suspicious transactions is carried out by the Compliance Division through the AML (Anti Money Laundering) system. In addition, as part of the implementation of compliance risk management, BRI also carries out Enhanced Due Diligence (EDD) as a more in-depth process than Customer Due Diligence (CDD), previously known as Know Your Customer (KYC).

#### **Reputational Risk**

The reputation risk control function is carried out by the Corporate Secretary Division business unit as BRI's public relations. Steps taken by BRI in reputation risk management

include consistent communication, maintaining openness of information and transparency to all stakeholders, and establishing harmonious relationships with the media in terms of maintaining BRI's corporate name. This is done in order to minimize and handle negative news that can arise from stakeholder complaints or complaints that can affect BRI's reputation.

Although BRI's current reputation is very good, reputation risk management related to negative publications related to all aspects of BRI's business and operational activities must still be implemented in accordance with applicable provisions and procedures. BRI immediately follows up and resolves customer complaints and lawsuits that can increase reputation risk exposure. In addition, mitigation of reputation risk and events that cause reputation risk is carried out by considering the principles of materiality of problems and costs.

In order to control greater reputational risk in the future, preventive and recovery actions for reputational risk that have been taken are followed by improvements to weaknesses in control and procedures that trigger (root cause) the occurrence of reputational risk.

#### **Legal Risks**

Legal risk management was carried out with the aim of increasing awareness of potential legal risks in every operational and business activity of BRI so that preventive action could be taken as early as possible, helping to solve legal problems, and minimizing potential losses due to legal risks.

In order to minimize the potential for legal risk events, periodic socialization of applicable legal aspects was carried out to increase the awareness of employees and operational Business Unit of the legal consequences contained in every activity carried out.

The implementation of risk management tools such as RCSA, MI and KRI are also used to support the implementation of the legal risk management process in identifying, observing and monitoring claims/lawsuits against BRI so that legal risk control measures can be taken as early as possible.

The Legal business unit and its staff are business units that function as legal watch supervisors to provide legal analysis/studies and legal advice to all workers at every level of the organization as well as providing assistance in handling legal cases to minimize losses that can be experienced by BRI.

### Intragroup Risk

Intragroup Transaction Risk was the risk due to the dependence of an entity either directly or indirectly on other entities in a Financial Conglomerate to fulfill the obligations of written or unwritten agreements followed by the transfer of funds and/or not followed by the transfer of funds. Intragroup Risk Management in BRI were as follows:

1. Intragroup Risk identification was carried out quantitatively and qualitatively for exposures that had a significant effect on the condition of the BRI Financial Conglomerate.
2. The Board of Directors of BRI established an Integrated Risk Management Committee and had held an Integrated RMC Forum which was held regularly to discuss Intragroup Risk, Intragroup Risk Policy, and Risk Monitoring and Control of Subsidiary Companies in the BRI Financial Conglomerate to discuss Intragroup Risk, Risk Issues and follow-up plans.
3. The Board of Commissioners of the Primary Entity is responsible for the effectiveness of the implementation of Integrated Risk Management and was responsible for:
  - a. Directed, approved, and evaluated the Integrated Risk Management policy.
  - b. Evaluated and provided direction for improvement on the implementation of the Integrated Risk Management Policy regularly.
4. The Integrated Risk Management Unit had held forums with Subsidiaries regularly to discuss the Intragroup Risk Profile.

BRI had regulated the Implementation of Integrated Risk Management and intragroup risk limits including:

1. Integrated Risk Management Policy of PT Bank Rakyat Indonesia (Persero) Tbk.
2. Establishment of intragroup risk parameters & limits for financial conglomerates.

### Insurance Risks

It was a risk due to the failure of the insurance company to fulfill its obligations to policyholders as a result of the inadequacy of the risk selection process (underwriting), premium determination (pricing), use of reinsurance, and/or handling of claims. Insurance Risk Management at BRI was as follows:

1. Identification of Integrated Insurance Risks carried out by the Integrated Risk Management Working Unit, both quantitative and qualitative, which had a significant effect on the condition of the BRI Financial Conglomerate for Subsidiaries engaged in Insurance.
2. BRI's Board of Directors established an Integrated Risk Management Committee and had held an Integrated RMC Forum to discuss Insurance Risk and Insurance Risk policies within BRI Financial Conglomeration.

3. The Board of Commissioners of the Main Entity is responsible for the effectiveness of the implementation of Integrated Risk Management and was responsible for:
  - a. Directed, approved, and evaluated the Integrated Risk Management policy.
  - b. Evaluated and provided direction for improvement on the implementation of the Integrated Risk Management Policy regularly.
4. The Integrated Risk Management Unit had held forums with Subsidiaries regularly to discuss the Insurance Risk Profile.
5. Risk Monitoring and Control through the Subsidiary Company Risk Profile Discussion Forum which was held regularly to discuss Risk Issue of Insurance Risk and its follow-up plan.

Some policies had regulated the implementation of Integrated Risk Management and insurance risk limits including:

1. Integrated Risk Management Policy of PT Bank Rakyat Indonesia (Persero) Tbk.
2. Determination of financial conglomerate insurance risk parameters & limits.

### Implementation of Risk Management Education

To implement quality risk management, it was necessary to fulfill human resources who were competent in their duties. To obtain reliable human resources in the field of risk management as well as to fulfill regulatory requirements regarding the implementation of risk management for commercial banks, BRI conducted risk management education, among others:

1. Risk Management Certification and Refreshment  
Risk Management Certification Education was attended by the Board of Commissioners, Directors, and BRI employees with the corporate title Senior Manager and above. For those who had received Risk Management Certification, BRI continued to carry out education with a refreshment program so that those concerned continued to get the latest information on risk management.
2. E-learning method  
Risk management education was also carried out through interactive learning methods through e-learning. E-learning was intended for all BRI employees as a medium for selfeducation to understand the philosophy and application of risk management.
3. Socialization  
Regular socialization was carried out by the risk management Business Unit to all BRI employees throughout Indonesia. Socialization was mainly carried out regarding the risk management tools used in BRI.

4. Education

Education for BRI employees through seminars and training organized by external and internal parties.

5. Webinar Risk Upgrade Series

The Risk Upgrade Series webinar was held regularly once a week (weekly) which aimed to increase knowledge and understanding of the risk management process in certain activities and business processes. The theme, speakers and participants of the Risk Upgrade Series Webinar were tailored to the needs and issues that were of concern to both the product owner, policy-making Business Unit, and SKMR.

### Top Emerging Risk

With its position as one of the largest banking entities in Indonesia, BRI is required to grow and develop with maintained asset quality, and be able to provide safe and comfortable banking services for the community.

From an internal perspective, the identification of risks related to emerging risks, whether arising from external factors or technological developments, has been regulated under the General Risk Management Policy. From an external perspective, the high level of uncertainty, including the rapid development of digital technology during the pandemic period, has significantly influenced public behavior, including in the use of banking services. Customer perceptions and expectations have shifted from being primarily oriented toward convenience to increasingly considering the security aspect of transactions.

The complexity of business and external dynamics have implications for increasing risk exposure faced by companies. Some of the challenges and risks in 2025-2026 include:

1. Global macroeconomic and geopolitical uncertainty (Palestine-Israel) where the post-pandemic economic conditions have not fully recovered.
2. Cybersecurity threats are expected to continue increasing, requiring continuous enhancement and development of cybersecurity capabilities.

3. Technological developments, such as Artificial Intelligence, Blockchain, and Digital Currency, have the potential to disrupt existing business models. Technological innovation is driving changes in the financial industry ecosystem; therefore, the Company needs to continuously enhance its digital capabilities, strengthen service innovation, and develop adaptive business strategies.

4. Climate Change Risk, climate change, including due to global warming, carbon taxation, changes in consumer behavior, and others can cause physical risk or transition risk which directly or indirectly impact BRI's growth, quality and profitability.

### Risk Assessment

Risk management is implemented across all banking activities by adhering to the standard management regulations set by the regulatory authorities. Based on the risk profile assessment for the fourth quarter of 2025, BRI's risk profile rating was at the Low to Moderate level. In addition to individual risk assessments, BRI, as a Financial Conglomerate, also conducts an integrated risk assessment. The results of the integrated risk profile assessment for the second semester of 2025 indicate that the risk profile rating of BRI's Financial Conglomerate remains at the Low to Moderate level. This self-assessment outcome demonstrates BRI's ability to maintain effective risk management in line with the growth of its business and the increasing competition within Indonesia's banking industry.

### Individual Risk Profile

Compositely, BRI's Risk Profile for Quarter IV - 2025 received a Low to Moderate rating. Of the 8 (eight) types of risks that were self-assessed, those that received a Low to Moderate risk rating include: loan, market, liquidity, legal, strategic, compliance, and reputation risks. The one that received a Moderate rating was credit and operational risk.

No	Risk Type	Quarter IV 2025		
		Inherent Risk Rating	Risk Management Implementation Quality Rating	Risk Rating
1	Credit	3 - M	2 - Satisfactory	2 - LTM
2	Market	2 - LTM	2 - Satisfactory	2 - LTM

## Evaluation of the Effectiveness of the Risk Management System

Since the establishment of the Risk Management Directorate in 2017, periodically testing the effectiveness of the risk management system through risk management reviews was conducted by a separate unit with the Risk Management Business Unit and external parties to maintain objectivity and independence of the assessment of the effectiveness of the risk management system.

In addition, BRI regularly conducts an assessment of its Risk Management maturity level, in which, in 2025, BRI was positioned at the **Managed-Strong Practice** level. This indicates that BRI has complied with the applicable regulatory requirements related to risk management activities and has proactively undertaken continuous improvements in Risk Management.

## Risk Management Strategy for 2026

In the short term, credit risk remains a key focus at BRI. Credit growth in the MSME segment continues to pose challenges. The Consumer Confidence Index (CCI) has declined, indicating a slowdown in public consumption; consequently, BRI has become more selective in extending loans as the risk of default increases. Weak purchasing power remains a challenge and adversely affects the economy. Credit quality also remains under pressure amid slowing credit growth, with trends indicating a deterioration in asset quality.

Key long-term risks that need to be anticipated include the following:

1. Global geopolitical risk uncertainty is expected to remain elevated over the next two years. This condition may trigger financial market volatility and dampen investor confidence.
2. Global economic growth is projected to slow, partly due to the potential significant weakening of China's economy in the future. The risk of commodity price corrections resulting from China's economic slowdown may put pressure on Indonesia's key commodity exports, thereby affecting profits and government revenues.
3. Prolonged external uncertainty may delay investment and limit employment absorption.

Accordingly, supported by a comprehensive risk management organizational structure, BRI continues to enhance the role and effectiveness of its risk management function by focusing on the prevention and minimization of potential risks, which serve as components of competitive advantage and strategic enablers for BRI. The Risk Management Division has established a long-term aspiration

under the theme "Robust Enterprise Risk Management to Drive Operational Excellence & Resilience and to Support BRI Group's Sustainable Growth." In line with this aspiration, the risk management strategy will focus on improving credit quality, strengthening data awareness, enhancing operational excellence, fostering a risk-aware culture, and implementing new regulations in both the credit risk and market risk areas.

### Statement of the Board of Directors and/or Board of Commissioners or Audit Committee on the Adequacy of the Risk Management System

Based on the results of the review and based on discussions with Management, the Risk Management Monitoring Committee, the Audit Committee, the Independent Auditor, the Internal Auditor, and several Related Divisions, the Board of Directors and the Board of Commissioners assessed that in 2025 the company's risk management was adequate in identifying risks so that the Company could identify and manage these risks.

## Compliance Function

### Summary of Compliance Directorate Legal & Compliance

The Compliance Directorate has a Compliance Unit responsible for implementing the Compliance Function within the Company in accordance with OJK Regulation No. 46/POJK.03/2017 dated 12 July 2017 concerning the Compliance Function for Commercial Banks, which at a minimum includes:

1. Ensuring the implementation of a Compliance Culture.
2. Managing Compliance Risk.
3. Ensuring that the Company's policies, regulations, systems, and procedures comply with applicable regulatory requirements.
4. Ensuring BRI's compliance with commitments made to regulators.

In line with this, the Compliance Directorate is responsible for ensuring the Company's compliance with applicable regulatory requirements, providing legal advisory and handling legal cases, managing and harmonizing the Company's Policies and Procedures, as well as implementing Environmental, Social & Governance (ESG) aspects in the Company's operational and business activities.

#### Key Performance Indicators of the Compliance Directorate

In order to support BRI's aspirations for 2025, the Compliance Directorate established an aspiration to realize Good Governance as a Catalyst for Sound Business Practices. In line with this aspiration, throughout 2025 the Compliance Directorate recorded the following achievements:

1. Achievement of the Compliance Risk Profile score at the Low to Moderate level.
2. Achievement of an ESG Rating from MSCI in 2025, with a target rating of A.
3. Achievement of an ESG Rating from S&P Global Corporate Sustainability Assessment (CSA) in 2025, with a score of 74.
4. BRI was included in the S&P Global Sustainability Yearbook Member for four (4) consecutive years since 2022.
5. Identification of Environmentally Sustainable Business Activities Financing (KUBL) amounting to IDR 93.2 trillion,

representing 7.1% of BRI's total financing portfolio.

6. Identification of Socially Sustainable Business Activities Financing (KUBS) amounting to IDR 718.7 trillion, representing 53.5% of BRI's total financing portfolio.
7. BRI has adopted the IFRS S1 and IFRS S2 frameworks in its Sustainability Report, and has also conducted a Social Impact Assessment.
8. Achievement in the Corporate Governance Perception Index (CGPI) 2024, receiving the "Most Trusted Company" category with a score of 95.38.
9. Achievement of the Legal Risk Profile score at the Low to Moderate level.
10. Good Corporate Governance (GCG) Self-Assessment rating of Composite Rank 2 (Good).
11. Integrated Governance Self-Assessment rating of Composite Rank 2 (Good).
12. The proportion of final and binding court decisions (inkracht) and amicable settlements compared to total favorable cases in 2025 reached 90.35%.
13. No audit findings (internal or external auditors) related to inconsistencies among internal regulations within the Policy & Procedure Hierarchy.
14. Increase in policy inclusion by 13% and policy and procedure literacy by 35%.
15. Initiation of Business Process Management and the mapping of all identified business processes.
16. BRI was awarded Indonesia In-House Counsel Summit & Awards 2025 – Indonesia's Most Innovative In-House Counsel Team 2025 (Banking Category).
17. ESG Awards 2025.
18. Asia Sustainability Reporting Awards (ASRA) 2025 – Asia's Best Sustainability Reporting (CEO Letter) – Platinum.
19. Asia Sustainability Reporting Awards (ASRA) 2025 – Asia's Best Sustainability Reporting (Public Sector) – Platinum.
20. Asia Sustainability Reporting Awards (ASRA) 2025 – Asia's Best Sustainability Reporting (Materiality Reporting) – Gold.
21. Asia Sustainability Reporting Rating (ASRRAT) 2025 – Platinum Rank.
22. KEHATI ESG Awards 2025 – Debt & Project Financing Category – Best Issuer/Borrower.
23. The Asset Triple A Awards for Sustainable Finance 2025 – Best Issuer for Sustainable Finance.
24. The Asset Triple A Awards for Sustainable Finance 2025 – Best Social Loan.
25. BGK Foundation Indonesia ESG Leadership Awards 2025 – Leadership AAA – Indonesia's Leader in ESG Transparency.

#### Work Programs of the Compliance Directorate

In addition, to support the achievement of the above KPIs, the Compliance Directorate has established several work programs as follows:

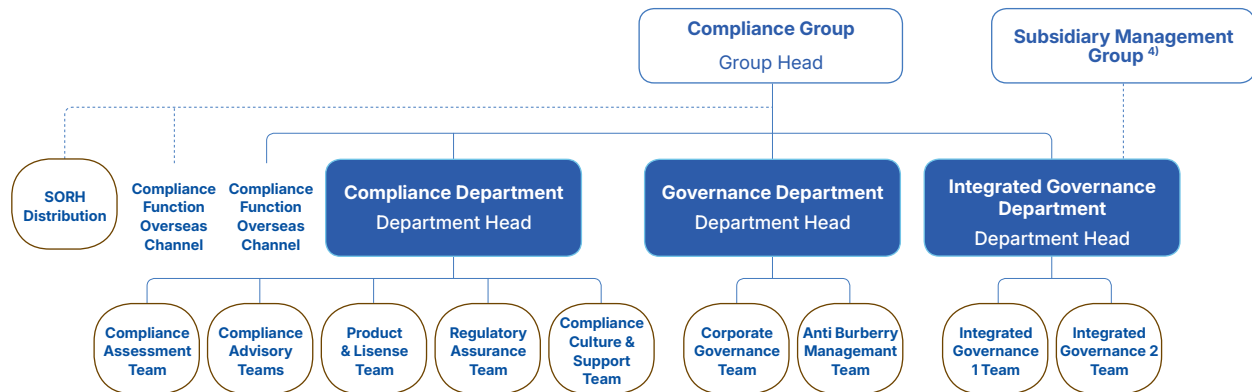

No	Work Programs
1.	Standardization of Compliance Processes BRI standardizes processes related to the management of compliance and governance aspects through ISO 9001:2015 certification for Quality Management Systems and ISO 37301:2021 certification for Compliance Management Systems within the Compliance Division, as well as ISO 37001:2016 certification for Anti-Bribery Management Systems covering the scope of Procurement of Goods and Services at BRI Head Office.
2.	Enhancing Awareness The Compliance Directorate enhances employees' awareness regarding the implementation of the compliance culture, Anti-Money Laundering and Counter-Terrorism Financing (AML/CFT) program, legal knowledge, as well as policies and procedures, among others through: <ol style="list-style-type: none"> <li>a. Harmonization, formulation, and/or review of internal regulations, including those related to compliance, governance, ESG, and legal matters.</li> <li>b. Updating the knowledge of BRI employees through external experts via workshops, webinars, and other learning forums.</li> <li>c. Dissemination of communication materials aimed at increasing employees' awareness and understanding through digital and physical media.</li> </ol>
3.	Updating and Enhancing the BRI Governance Structure includes updates and improvements to the General Corporate Governance Policy and Integrated Governance for the BRI Financial Conglomerate.
4.	Conducting assessments of the governance and compliance maturity levels both at the Bank level and on an integrated basis across the Financial Conglomerate.

No	Work Programs
5.	<p>Strengthening the Anti-Money Laundering (AML), Counter-Terrorism Financing (CTF), and Counter-Proliferation Financing (CPF) Program</p> <p>Amid national, regional, and global dynamics, as well as the increasing complexity of financial products, activities, and services—including their marketing through multichannel platforms—and the rapid development of information technology, the risks related to Money Laundering (ML), Terrorism Financing (TF), and Proliferation Financing (PF) faced by the Company have increased. In response to these conditions and in accordance with the applicable laws and regulations, the Company has implemented the Anti-Money Laundering (AML), Counter-Terrorism Financing (CTF), and Counter-Proliferation Financing (CPF) Program adequately. Several improvement initiatives undertaken include:</p> <ol style="list-style-type: none"> <li>Enhancement of ML/TF risk assessments through the implementation of a Risk-Based Approach (RBA).</li> <li>Refinement of the AML-CFT Program Policy to align with OJK Regulation No. 8 of 2023 concerning the Implementation of Anti-Money Laundering (AML), Counter-Terrorism Financing (CTF), and Counter-Proliferation Financing (CPF) Programs in Financial Services Institutions.</li> <li>Optimization of AML-CFT program implementation at the Regional Offices and Branch Offices through strengthening the roles of Regional Risk Management &amp; Compliance and Micro &amp; Retail Risk and Compliance functions.</li> </ol>
6.	<p>Continuous Harmonization of Policies and Procedures through unification, codification, simplification, and other approaches to address inefficiencies, overlaps, and/or conflicts of interest or authority within the Company's policies and procedures.</p>
7.	<p>Development of Business Process Management, consisting of Business Process Architecture and Business Process Models, as standards for designing comprehensive business processes and as tools for improving business processes through assessments of their effectiveness and efficiency.</p>
8.	<p>Policy &amp; Procedure Excellence Initiative to ensure that the Company's policies and procedures are adequate in minimizing potential risks in the future while enhancing the effectiveness and efficiency of business process.</p>
9.	<p>Continuous enhancement of the Policy and Procedure management platform (BRIPEDIA) to promote employees' literacy and accessibility to the Company's policies and procedures.</p>
10.	<p>Provision of Legal Services In order to provide legal services, the Compliance Directorate through the Legal Group carries out the following:</p> <ol style="list-style-type: none"> <li>Reviewing laws and regulations and/or internal and external conditions that may have legal implications for BRI, including enhancing strategies for handling legal issues both within and outside judicial institutions as well as other dispute resolution mechanisms.</li> <li>Handling civil legal cases through courts at all levels and other dispute resolution institutions, as well as providing assistance in criminal cases processed by law enforcement agencies.</li> <li>Optimizing recovery potential from legal case handling, including through the formulation of asset transfer policies, settlement of non-performing loans through simple lawsuits, handling PKPU/bankruptcy cases, and safeguarding civil cases that have the potential to cause significant losses to BRI.</li> <li>Providing legal advisory services, including legal consultations, legal opinions, and legal information, to the Board of Commissioners, the Board of Directors, employees, and all BRI work units.</li> <li>Providing legal support in the implementation of BRI's corporate projects.</li> <li>Reengineering the implementation of legal guidance, counseling, and training programs.</li> <li>Reengineering legal guidance, counseling, and training for BRI work units using a risk profile approach and assessment of the legal needs of each work unit through the DISKRESI concept (Discussion on Legal Aspects of Credit, Operations, and Current Legal Issues).</li> <li>Managing legal risk, including the implementation of governance for legal case data and reporting.</li> <li>Managing the administration of legal documents related to the Company's operations and legal library, including the management of BRI's operational licenses such as the Articles of Association, Deed of Establishment, Intellectual Property Rights (IPR), Company Registration Certificate, Certificate of Company Domicile, and other related corporate documents.</li> <li>Enhancing the productivity of legal human resources through legal capability enrichment, professional certification in the legal field, and stakeholder engagement, including collaboration with institutions, ministries, and law enforcement agencies.</li> <li>Developing and disseminating internal legal policies, modules, legal manuals, and legal service guidelines, including operational guidelines for handling legal issues both inside and outside the courts.</li> </ol>

No	Work Programs
11.	<p>Implementing the principles of sustainability into BRI's operational and business activities includes, among other things:</p> <ol style="list-style-type: none"> <li>a. Issuing the Sustainability Impact Framework as the foundation for preparing a measurable and transparent Social Impact Report.</li> <li>b. Conducting Human Rights assessments for employees and vendors to ensure business practices that respect human rights principles.</li> <li>c. Developing an Employee Carbon Tracker within the employees' internal portal application.</li> <li>d. Integrating the Indonesian Sustainable Finance Taxonomy (TKBI) into BRI's sustainable financing framework.</li> <li>e. Issuing sector-specific policies for the Forestry and Power Generation sectors to strengthen the implementation of sustainability principles within the financing portfolio.</li> <li>f. Integrating climate risk into risk management using the Climate Risk Management &amp; Scenario Analysis (CRMS) methodology issued by the OJK, and conducting Climate Risk Stress Testing (CRST).</li> <li>g. Committing to the Science Based Targets initiative (SBTi) to establish and achieve the Net Zero Emission target by 2050.</li> <li>h. Adopting the IFRS S1 and IFRS S2 frameworks in the Sustainability Report to enhance the quality of disclosures.</li> <li>i. Strengthening environmental and social risk management through the enhanced implementation of the Environmental and Social Risk Management (ESRM) Framework.</li> </ol>
12	<p>Improvement Business Process Simplifying business processes to support business efficiency and development through system development, including:</p> <ol style="list-style-type: none"> <li>a. Integrated AML-CFT Screening (Watchlist Screening on the Account Opening and Transaction Platforms).</li> <li>b. AI for Transaction Monitoring System through Graph Technology.</li> <li>c. Bank-wide Risk-Based Approach (RBA) implementation.</li> <li>d. Customer Risk-Based Approach (RBA) implementation.</li> <li>e. AML-CFT System (including STR, CTR, and IFTI reporting modules).</li> <li>f. SIPESAT Reporting Tools.</li> <li>g. Digitalization of business processes and the Legal Division database to enhance the efficiency and effectiveness of the Legal Group's duties and performance through the enhancement of the DELEGASI Application (Integrated Legal Data and Information).</li> <li>h. Development of Business Process Management as a standard for designing comprehensive business processes and as a tool to support continuous business process improvement.</li> <li>i. BRIPEDIA Mobile Version to facilitate employees' access to policies and procedures anytime and anywhere, serving as a catalyst for improving employees' literacy.</li> <li>j. Utilization of Artificial Intelligence (AI) to facilitate access to policy and procedure documents.</li> <li>k. Development of an ESG Dashboard.</li> </ol>

BRI was committed to always improving the implementation of compliance functions both at the corporate level and Operational Business Unit. Guided by the OJK Regulation No.46/POJK.03/2017 dated July 12, 2017 concerning the Compliance Function of Commercial Banks. BRI had a Compliance Business Unit consisting of the Compliance Director, Compliance Division of the Head Office as well as the compliance function in the BRI Regional Office which was under the Regional Risk Management & Compliance Team, the compliance function in BRI units carried out by the BRI Unit Risk Management & Compliance, and the compliance function of the Overseas Branch Office which was under the coordination of the Compliance Division of the Head Office. The compliance line was independent and separate from business, operational and other supporting functions in BRI's business activities. BRI had policies and standard compliance procedures that described the duties and responsibilities of the Compliance Working Unit in carrying out the compliance function in accordance with regulatory requirements and the latest best practices.

## Organizational Structure of Compliance Business Unit

### Function:

- Corporate Compliance Assurance, Advisory, Culture & Risk
- Comprehensive Compliance Risk Assessment & Oversight
- Policy & Structure of GCG
- Implementation & Monitoring of GCG
- Policy & Structure of Integrated Governance & Compliance
- Implementation & Monitoring Integrated Governance & Compliance

### Note:

- 1) Implementasi fungsi Compliance di Regional Office dan Unit Kerja Operasional berkoordinasi dengan Compliance Group
- 2) Compliance Function di Unit Kerja Luar Negeri yang memiliki garis koordinasi dengan Compliance Group
- 3) Compliance Function di Unit Kerja Luar Negeri yang memiliki garis supervisi dengan Compliance Group
- 4) Implementasi fungsi Pengelolaan Konglomerasi Keuangan berkoordinasi dengan Subsidiary Management Group

## Duties and Responsibilities of Compliance Director

In accordance with the results of the decision of the Annual General Meeting of Shareholders on March 13, 2023, A. Solichin Lutfiyanto was appointed as Director overseeing the compliance function at BRI. Subsequently, based on the resolution of the Extraordinary General Meeting of Shareholders held on 17 December 2025, the position has been assumed by Mahdi Yusuf.

The duties and responsibilities of the Compliance Director of BRI in order to carry out the Compliance Function refer to the OJK Regulation No. 46/POJK.03/2017 dated July 12, 2017 concerning Implementation of the Compliance Function of Commercial Banks and Circular Letter of the Board of Directors of BRI Number SE.56-DIR/KEP/10/2022 dated October 31, 2022 concerning Implementation of the Compliance Function, including:

1. Formulate strategies to encourage the creation of a Compliance Culture.
2. Propose compliance policies or compliance principles to be established by the BRI Board of Directors.
3. Establish compliance systems and procedures used for BRI's system of internal rules and guidelines.
4. Ensure that all policies, provisions, systems, and procedures, as well as business activities carried out by BRI are in accordance with the provisions of the Financial Services Authority and the provisions of laws and regulations.
5. Minimize BRI Compliance Risk.
6. Take precautions so that policies and / or decisions taken by the BRI Directors or BRI as an entity do not deviate from the provisions of the regulator and / or the authorized supervisory authority and the provisions of the applicable laws and regulations.
7. Report the implementation of duties and responsibilities to the President Director with a copy to the Board of Commissioners at least quarterly.
8. Perform other duties related to the Compliance Function in accordance with laws and regulations.

## Independence of Compliance Director

The independence of the Compliance Director must meet the independence requirements with reference to OJK Regulation No. 46/ POJK.03/2017 dated July 12, 2017 as follows:

1. No concurrent positions and affiliate relationships.
2. Has no financial, management, share ownership, and/or family relationship with members of the Board of Commissioners, Board of Directors, and controlling shareholders.
3. The Compliance Director does not supervise functions:
  - a. Business and operations.
  - b. Risk management that makes decisions for the Bank's business activities.
  - c. Treasury.
  - d. Finance and Accounting.
  - e. Logistics and procurement of goods and services.
  - f. Technology and information.
  - g. Internal audit.

## Compliance Business Unit

The Compliance Working Unit was independent and separate from business, operational and other supporting functions in BRI's business activities. Compliance ranks must be free from influence or pressure from other business unit, free from conflicts of interest, act professionally and objectively.

## Profile of the Head of the Compliance Business Unit

**Kris Hananto**  
Compliance Group Head

39. Special Request Training on e-Procurement Application
40. Enhance Understanding on Risk Assessment of Applications
41. Risk Upgrade Series 2025: Comprehensive Understanding of the Whistleblowing System
42. Risk Upgrade Series 2025: Gratification Is Not a Blessing

## 2025 Compliance Division Work Plan

To support the enhancement of compliance culture, the Compliance Division outlines its objectives for achievement in the work plan, which includes the following key areas:

1. Strengthening the compliance culture by enhancing employees' understanding and awareness of compliance aspects, including, among others, the code of ethics, compliance culture, conflicts of interest, and related matters.
2. Aligning governance and compliance policies with the latest regulations in the banking industry.
3. Effectively implementing the Anti-Bribery Management System (SMAP) across all organizational levels to prevent gratuity practices and foster organizational integrity through gratuity control programs, integrity assessment surveys, and related initiatives.
4. Enhancing the Bank's competitiveness and creating long-term value for all stakeholders through maturity assessments involving independent parties, as well as recognition from external institutions.
5. Managing compliance risk based on the prudential principle in order to ensure the Company's adherence to applicable regulations.

## Implementation of the Compliance Function Work Program In 2025

1. Standardization of Compliance Processes  
As part of BRI's commitment to comply with prevailing laws and regulations, BRI has obtained several ISO-based certifications to ensure that the quality of implementation remains aligned with stakeholders' expectations. The certifications include:
  - ISO 37301:2021 Certification on Compliance Management System  
Since 2022, the Compliance Unit has obtained ISO 37301:2021 certification, successfully passed the certification process, and has maintained the certification to date.
  - ISO 37001:2016 Certification on Anti-Bribery Management System  
BRI has successfully maintained its qualification in the implementation of the Anti-Bribery Management System through surveillance audits conducted by an external party.
  - ISO 9001:2015 Certification on Quality Management System  
To enhance process quality within the Compliance Unit, since 2022 the Compliance Unit has undergone ISO 9001:2015 Quality Management System surveillance audits and has successfully maintained its ISO 9001:2015 certification.
2. Compliance with Laws and Regulations
  - External Policy Impact Analysis  
This constitutes a series of activities carried out by the Compliance Unit to assess the impact of newly issued laws and regulations on BRI's operations. Throughout 2025, the Compliance Group conducted

impact analyses on 55 regulations applicable within the industry.

- Testing of the Prudential Principle

In order to prevent deviations from prudential provisions in the Company's business and operational activities, the Director overseeing the compliance function at BRI conducted the Prudential Principle Testing process on Policy Plans, Decisions, and Agreements with third parties established by the Board of Directors. During 2025, a total of 344 prudential principle testing documents were processed, with details as follows:

Testing of credit decisions under the authority of the Board of Directors	206
Policy Plans	108
Corporate Action	2
Cooperation Agreements	28

- Compliance Aspect Opinions

The Compliance Group provides compliance aspect opinions to the relevant work units regarding proposed policies/resolutions of the Board of Directors, proposed changes to operational mechanisms, proposed issuance of new products and/or activities, as well as other matters requiring opinions from the Compliance Unit. During 2025, a

total of 789 compliance aspect opinions were issued, with the following details:

- a. Compliance aspect opinions on proposed policies, proposed decision-making, and other activities requested by BRI work units amounted to 711 opinions.
  - b. Compliance aspect opinions related to the BRI Financial Conglomerate amounted to 78 opinions.
- Reporting of New Products and/or Activities (PAB)  
Based on Financial Services Authority Regulation No. 13/POJK.03/2021 concerning the Implementation of Commercial Bank Products and Bank Indonesia Regulation No. 23/6/PBI/2021 concerning Payment Service Providers, Banks are required to obtain approval for new bank products and/or activities prior to marketing them to customers. The reporting of proposed new bank products and/or activities to the regulators (i.e., the Financial Services Authority and Bank Indonesia) in order to obtain regulatory approval is coordinated through the Compliance Group. Throughout 2025, a total of 12 new bank products and/or activities obtained approval from the Regulators.

2. BRI Compliance Maturity

In order to measure the maturity level in the implementation of the compliance function and to ensure the establishment of a Compliance Culture across all organizational levels and business activities, BRI has conducted a BRI Compliance Maturity Assessment (Bankwide), resulting in a score of 4.32 on a 5-point scale, an increase compared to the previous year's score of 4.13. The detailed maturity scores are as followst:

### BRI Compliance Maturity Assessment Results

2023 2024

Maturity Rating	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5
Description	Initial	Repeatable	Defined	Managed	Optimized

Building Block	Tone at the Top	Monitoring Responsibility	Training and Education	Policy and procedure	Lines of Communication	Response and Prevention	Risk Assessment	Monitoring	Auditing	Enforcement and Discipline
2023	4.40	4.48	4.44	3.83	4.00	3.79	3.64	3.82	4.56	4.33
2024	4.80	4.56	4.56	4.31	4.10	3.86	4.00	3.82	4.75	4.42

Compliance Maturity Rating	Rank 1	Rank 2	Rank 3	Rank 4	Rank 5
Description	Forming	Developing	Standardized	Established	Optimized

## Evaluation of the Effectiveness of the Compliance Function

Assessment of the adequacy of the implementation of the Compliance Function in BRI was carried out by the Board of Directors periodically through the Compliance Function Report which was also submitted semi-annually to the Financial Services Authority. The summary of implementation contained in the Compliance Function Report contained comprehensive information, including Strengthening Compliance Culture, Compliance Risk Management, Prevention of Deviations from Prudential Provisions on Internal Policies, Monitoring the Implementation of Prudential Provisions on External Policies, Monitoring External Regulations / Provisions, Monitoring the Bank's Compliance with External Commitments, and others.

## Anti-Money Laundering (AML), Combating the Financing of Terrorism (CFT) and Preventing Funding for Proliferation of Weapons of Mass Destruction (WMD Proliferation) Programs

2025 marks a crucial milestone for BRI's transformation through the **BRIvolution Reignite** strategy, which focuses on the vision of a **"Leading Funding Bank"** and **"Sustainable and Profitable Lending."** This strategy integrates aggressive business growth with strengthening the foundation of trust through the Anti-Money Laundering (AML), Countering the Financing of Terrorism (CFT), and the Proliferation Financing of Weapons of Mass Destruction (PFWMD) programs, which are positioned not merely as regulatory compliance obligations but as key strategic elements in maintaining future business sustainability.

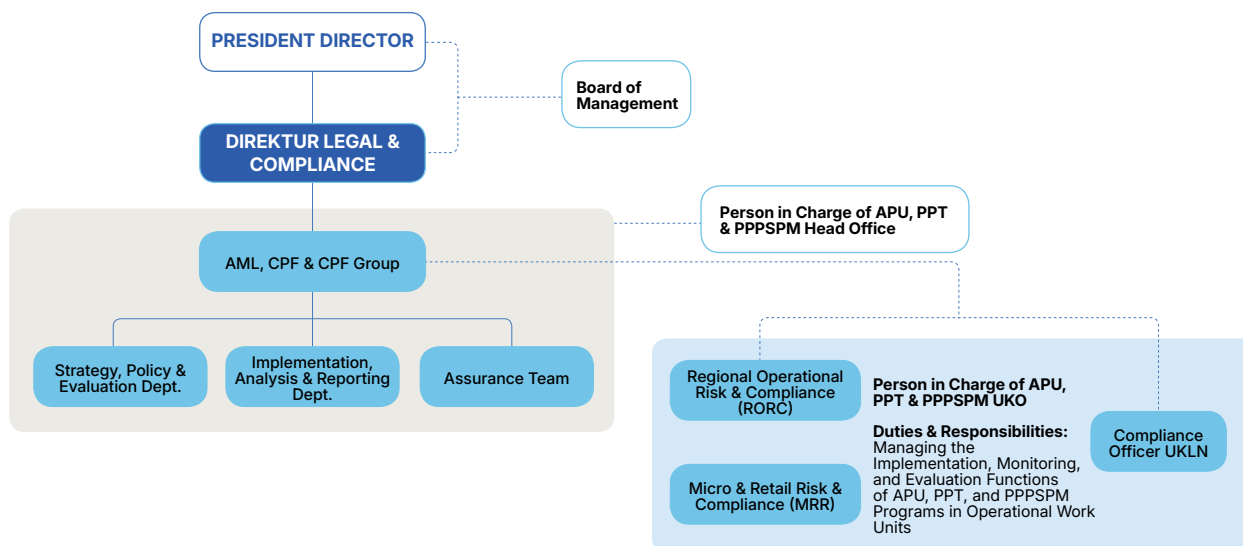

BRI places financial system integrity as a fundamental standard underlying all strategic and operational policies of the company. Along with the acceleration of transformation and the expansion of service reach, BRI dynamically responds to the increasingly complex risks of ML, TF, and WMD proliferation by strengthening the governance of the implementation of proactive, technology-based AML, CFT, and PWFMD programs. By synergizing business innovation and adaptive risk management systems, BRI is committed to creating an accountable and integrity-based banking ecosystem, while strengthening its defense against ML, TF, and WMD Proliferation threats to ensure public trust and inclusive economic sustainability.

As a systemic financial institution, BRI is fully committed to supporting the stability of the national financial system and complying with international standards set by the Financial Action Task Force (FATF). BRI's entire AML, CFT, and PWWMD governance framework is based on the latest regulations, specifically OJK Regulation No. 8 of 2023 and the Law on the Prevention and Eradication of Money Laundering (ML) and Terrorism Financing (TF).

This program is implemented through a holistic and sustainable strategy, prioritizing five key pillars of the AML, CFT, and PFWMD program: active supervision by the Board of Directors and Board of Commissioners, adequacy of policies and procedures, effective internal control, reliable management information systems, and enhanced human resource competency. By strengthening these five pillars, BRI ensures that every level of the organization is prepared to face the complexities of ML, TF, and WMD proliferation risks in the future.

## Leadership and Governance Structure of AML, CFT and PFWMD

### Organizational Structure of the Special Business Unit for AML, CFT & PFWMD

The AML, CFT, and PFWMD functions at BRI are carried out independently by the AML, CFT, and CPF Group at the Head Office. As an independent work unit, this Group reports directly to the Director of Legal & Compliance, who oversees the Compliance function. This ensures objectivity and effective oversight across all business and operational lines. The strategic responsibilities of this Business Unit include:

1. **Development of Risk-Based Policy**

Formulating and updating ML, TF, and WMD proliferation risk assessments periodically as a basis for establishing adaptive policies to the dynamics of ML, TF & WMD proliferation risk threats.

2. **System Transformation of Management Information**

Managing and developing a reliable supporting information system to ensure the implementation of the AML, CFT & PFWMD Program runs effectively and efficiently.

3. **Regulatory Reporting**

Conducting in-depth analysis and ensure the timeliness and quality of AML, CFT & PFWMD reporting to regulators as a form of transparency and compliance with applicable regulations.

4. **Supervision of Financial Conglomerate**

Carrying out the supervisory function of the implementation of the AML, CFT & PFWMD Program in a comprehensive and integrated manner within the BRI Financial Conglomerate ecosystem.

BRI also strengthens AML, CFT & PFWMD at the Operational Business Unit level by establishing functions responsible for overseeing the implementation of AML, CFT & PFWMD programs, namely Regional Operation Risk & Compliance (RORC) at Regional Offices and Micro & Retail Risk & Compliance (MRR) at Operational Business Units (UKO). All RORCs and MRRs consistently coordinate with the AML, CFT & CPF Group at Head Office.

## Profil Head of AML, CFT & CPF

- AVP Transactional Banking Division (2021-2023)
- Dept Head International & Treasury (2019-2021)
- Chief Representative KCLN Hongkong (2012-2019)

### Legal Basis for Appointment

SK Group Head AML, CFT & CPF base on Letter No. R.2739-DIR/HBS/08/2025

## Governance Structure

In order to realize accountable governance, BRI implements Three Lines of Defense which are integrated in the implementation of the AML, CFT & PFWMD programs, to ensure a clear separation of duties between functions with the following details:

### 1. First Line

Within the Three Lines of Defense framework, the First Line is run by all BRI Operational Business Units as the front liners who interact directly with customers and carry out daily business activities.

### 2. Second Line

The Second Line of Defense is implemented by the AML, CFT & PFWMD Group, along with the AML, CFT & PFWMD officers in the Operational Business Unit, who serve as compliance oversight. This function is responsible for independent monitoring to ensure that the First Line of Defense implements procedures effectively and efficiently.

### 3. Third Line

This function is primarily carried out by the Internal Audit Unit (SKAI) through periodic audits. Furthermore, the validity of program implementation is also tested through external audits. This synergy aims to ensure that all risk control mechanisms are operating effectively, accountably, and in line with applicable policies and procedures.

This Governance Structure ensures that reporting and accountability flows are effective, where the AML, CFT & CPF Group has a direct reporting line to the Director in charge of the Compliance function (Director of Legal & Compliance), guaranteeing independence from business & operational targets.

## Implementation of the AML, CFT & PFWMD Program in 2025

As a form of real commitment to the integrity of the financial system, BRI implemented various efforts to strengthen the implementation of the AML, CFT & PFWMD program throughout 2025, both through the implementation of the Five Pillars of AML, CFT & PFWMD and the following strategic initiatives:

### 1. Active Supervision of the Board of Directors and Board of Commissioners

The effectiveness of the AML, CFT & PFWMD program implementation is inseparable from the active involvement of the Board of Directors and the Board of Commissioners as the primary drivers in overseeing compliance with applicable regulations. This leadership role is reflected in Board of Commissioners and the Board of Directors meetings, which consistently discuss the integrated implementation of the AML, CFT & PFWMD programs, as well as the preparation and monitoring of follow-up actions on issues of concern to the Regulator. These discussions have been carried out in Board of Commissioners and the Board of Directors Meetings (Radirkom), Board of Directors Meetings (Radisi), the Integrated Governance Committee (KTKT), and the Risk Management Monitoring Committee (KPMR).

As a concrete manifestation of BRI's commitment to maintaining financial integrity, in 2025 the Special Business Unit (UKK) for AML, CFT & PFWMD was strengthened by increasing the organizational scale to an AML, CFT & CPF Group that reports directly to the Director in charge of the Compliance function. This structure ensures the independence and authority of the UKK in overseeing the effective implementation of AML, CFT & PFWMD programs throughout the organization, in order to optimize protection against ML, TF, and WMD proliferation risks effectively and efficiently.

## 2. Adequacy of Policies and Procedures

BRI has updated the AML, CFT & PFWMD Policy in accordance with applicable laws and regulations and International Best Practice, as stipulated in the Circular Letter (SE) of the BRI Board of Directors No. SE.04-DIR/KEP/05/2025 dated May 28, 2025 which includes provisions regarding:

- Identification and verification of prospective customers, current customers, Walk-in Customers (WICs), and Beneficial Owners (BO).
- Transaction rejection and business relationship closure
- Ongoing management of ML, TF, and/or WMD proliferation risks
- Data maintenance and administration of documents and data related to the Customer Due Diligence (CDD) process.
- Updating and monitoring of customers and transactions.
- Reporting related to AML, CFT & PFWMD.
- Reporting to senior officials, the Board of Directors, and the Board of Commissioners on the implementation of AML, CFT & PFWMD policies and procedures.
- Cross Border Correspondent Banking.
- Fund Transfers.

As a concrete manifestation of BRI's commitment to implementing the AML, CFT & PFWMD Program according to International Best Practice, BRI implemented a screening procedure for every transaction and account opening or acceptance of business relationships against the watchlist issued by the competent authorities or watchlists used according to international best practice in this case collaborating with third parties to enrich the watchlist database, the list of Politically Exposed Persons (PEP) including PEP Families, negative news and internal data from monitoring customer activities and transactions. In addition, BRI also re-screens all existing customers periodically and when there is an update to the watchlist.

In addition, BRI analyzed and updated its ML, TF & WMD proliferation risk assessments by referring to the latest national risk assessments (NRA) and sectoral risk assessments (SRA), and submitted the results of the risk assessments to the OJK in June 2025.

## 3. Internal Control & Audit Follow-up

BRI implemented an independent internal control system related to the implementation of the AML, CFT & PFWMD program both at the Head Office and Operational Business Unit levels, including Overseas Business Units in 2025 through the Internal Audit Business Unit with the following audit scope:

Intenal Party	Level	Date
Head Office Audit (HOA)	Timor Leste Overseas Unit	January 20, – March 14, 2025
Head Office Audit (HOA) with RSM	BRINYA Overseas Unit	May 21 – June 24, 2025.
Head Office Audit (HOA)	Head Office	May 2 – June 26, 2025
Head Office Audit (HOA)	Taipei Overseas Unit	November 3 – December 10, 2025
Head Office Audit (HOA)	Singapore Overseas Unit	November 10 – November 22, 2025

In addition, BRI was routinely audited by the Regulator and External Auditor in 2025 regarding the implementation of the AML, CFT & PFWMD programs with the following scope:

Pihak Eksternal	Level	Waktu Pelaksanaan
Otoritas Jasa Keuangan (OJK)	Head Office	April 16 – December 18, 2025
	Operational Unit	
	Timor Leste Overseas Business Unit	April 21 – April 29, 2025
Banco Central de Timor-Leste (BCTL)	Timor Leste Overseas Unit	April 24 – April 30, 2025
Ernst & Young	Head Office	The inspection process is still ongoing.

#### 4. Management Information System

To support the implementation of the AML, CFT & PFWMD programs and the presentation of information to Management to support decision-making, BRI has systems and/or applications in the AML, CFT & PFWMD program implementation ecosystem, including the following:

- a. Identification and verification tools on the account opening and customer transaction platforms also include a screening process against watchlists issued by authorized authorities and watchlists used according to international best practices, in this case sourced from DowJones, the Politically Exposed Person (PEP) list including PEP families, negative news and internal data from monitoring customer activities and transactions.
- b. Monitoring and analysis system for customer transactions supported by Graph Database technology for reporting Suspicious Financial Transaction Reports (LTKM), Cash Financial Transaction Reports (LTKT), Foreign Financial Transaction Reports (LTKL), new CIF Reports on the Integrated Service User Information System (SIPESAT) as well as data fulfillment reports to Regulators, APGAKUM and other Authorities.
- c. Customer Risk Rating & Bank Wide Risk Rating Measurement System related to ML, TF & PFWMD proliferation with a risk-based approach).
- d. A system that periodically re-screens all existing customers and when there is a watchlist update.

As a form of BRI's commitment to safeguarding financial integrity in Indonesia, there are initiatives that have been carried out in providing systems and/or applications to support the implementation of the AML, CFT & PFWMD programs, including:

- a. Development of a system that provides information on account mutations and customer transaction counterparties in order to accelerate and improve the quality of reports to Regulators, APGAKUM and related Authorities.
- b. Bank Wide Risk Rating Measurement System utilizing dynamic modeling data with a risk-based approach.

- c. Implementation of Real Time Watchlist Screening System with Single Source of Truth on account opening and customer transaction platforms.
- d. Implementation of Real Time AML Transaction Monitoring System as a quick step to mitigate the risks of ML, TF & WMD proliferation.
- e. Provision of ad-hoc reports related to the implementation of AML, CFT & PFWMD programs that support government programs, regulators and related authorities, including:
  - i. Monitoring report of dormant account.
  - ii. Transaction monitoring report for the Government's Free Nutritious Meals (MBG) program.

#### 5. Human Capital

In 2025, BRI implemented competency development for officials and employees related to the implementation of AML, CFT & PFWMD both in online forms such as Webinars, E-Learning, AML Infographic Series and offline such as In-Class Training in the Brilian Specialist Development Program (BSDP), as well as In House Training (IHT) by inviting Experts from PPATK, Regulatory & Supervisory Institutions, and Law Enforcement Officials.

#### Initiative for Implementing the AML, CFT & PFWMD Program in 2026

In 2026, BRI is committed to continuing to develop capabilities and improve the implementation of the AML, CFT & PFWMD Program through the following initiatives:

1. Improving the customer transaction monitoring system by utilizing Machine Learning/Artificial Intelligence (ML/AI) in certain typologies and strengthening AML Realtime Detection in order to increase the accuracy and speed of detection as well as the quality of report analysis.
2. Aligning BRI's customer transaction monitoring system capabilities in accordance with best practices through the Single AML Solution implementation process.

3. Strengthening assurance on the implementation of AML, CFT & PFWMD programs through the following work programs:
  - a. Measurement of the maturity of the implementation of the AML, CFT & PFWMD programs of the BRI Financial Conglomerate by an independent party.
  - b. Implementation of ISO 9001:2015 (Quality Management System) & ISO 37301:2021 (Compliance Management System).
4. Improving customer data quality through package business capability customer lifecycle management and enhancement of customer portfolio report.
5. Improving BRI's AML, CFT & PFWMD provisions, including the Overseas Business Unit, in line with the latest international best practices.
6. Strengthening the supervisory function and responsibility for the implementation of AML, CFT & PFWMD programs in independent Operational Business Units.

## Lawsuit

The legal cases faced by BRI in 2025 are as follows.

Legal Issues	Number of Cases

## Duties and Responsibilities of Investor Relations

In order to fulfill its responsibilities and regulations and improve effective communication, BRI's Investor Relations Division conducted various activities, namely:

- Analyst Meeting**  
It was an activity that was carried out regularly every quarter in order to present BRI's performance to analysts securities companies which aimed to enable analysts / securities companies to present reports with the latest data to investors.
- Analyst Gathering**  
It was a meeting activity with analysts and investors to present current issues or special materials with certain themes, with the aim of providing updates related to current issues and the latest company information.
- Company Visit - Field Visit**  
Receive visits from investors/analysts who want to update the latest performance and want to know and see firsthand the company's operations both at the head office and in the operational business unit.
- Conference Call**  
Conduct teleconference activities to accommodate the needs of investors/analysts in obtaining information about the company as well as economic conditions that influence the company's business and operational activities.
- Investor Newsletter**  
Update the latest information through the publication of newsletters on BRI's Investor Relations website.
- Investor Conference and Non-deal Roadshow**  
Conduct communication activities through 1-on-1 meetings and group meetings with investors both at home and abroad, especially in the world's financial center cities in Asia, Europe and America.
- Rating Review**  
Conduct communication activities and submission of BRI data in the framework of ratings conducted by rating agencies used by BRI, both international rating agencies (Moody's, Fitch Rating, S&P) and domestic rating agencies (Pefindo).

8. Management of the Investor Relations Website (www.ir-bri.com)  
Managing information on the Investor Relations website to ensure that shareholders, bondholders, analysts, rating analysts, and the general public have easy access to the company's latest information. The website, managed by the Investor Relations Division, is also integrated with the company's official website, www.bri.co.id.
9. Advisory Report  
Preparing advisory materials containing the results of BRI's stock valuation and the identified gaps between intrinsic value and analysts' target prices, as well as other analytical findings, for internal communication with the Board of Management.
10. Market Update Advisory  
Prepare materials in the form of updates on stock market conditions, BRI stock prices and peers to be communicated internally to the Board of Management.
11. Financial Update  
Prepare financial performance materials every quarter in order to present BRI's performance to analysts/securities companies at Analyst Meeting activities.
12. Financial Brief  
Prepare a summary of financial performance material every quarter in order to communicate BRI's performance to BRI employees.
13. BBRI News  
Prepare materials related to current issues related to the interests of the company to be communicated internally to both the Board of Management and BRI employees.

## Code of Ethics

BRI has established a Code of Ethics as outlined in the BRI Board of Directors Circular Letter No. SE.09.a-DIR/KEP/03/2023 dated October 31, 2023, regarding the First Amendment to Corporate Governance Book 6 (Code of Ethics). BRI defines the Code of Ethics as a set of fundamental values, guidelines, and moral principles that serve as the foundation for conducting business operations with honesty and integrity. The BRI Code of Ethics applies to the Board of Directors, the Board of Commissioners, and all employees in carrying out their duties professionally, while fostering an environment that prioritizes the implementation of Good Corporate Governance (GCG).

### Code of Ethics Principles

- 1. Leader Commitment and Exemplary Leadership**  
The Board of Directors and the Board of Commissioners declare their compliance with the Code of Ethics through the signing of a Code of Ethics Statement Letter. In addition, the Board of Directors and Board of Commissioners were also role models for all Insan BRILian in guiding and implementing the Code of Ethics.
- 2. Transparency**  
The principle of transparency was reflected in the openness and publication made by the Bank on the provisions, implementation and violations of the Code of Ethics that occurred in BRI in accordance with applicable regulations.
- 3. Accountability**  
BRI's responsibility as a Bank for the implementation of the Code of Ethics, among others, was reflected in BRI's relationship with customers, competitors, partners, regulators, stakeholders as well as society and the environment. The responsibility to comply with the Code of Ethics for BRI personnel was documented in the Code of Ethics Statement and the application of behavior in accordance with the Code of Ethics in carrying out their duties and responsibilities.
- 4. Control**  
Violations of the Code of Ethics could be reported through the Whistleblowing System (WBS) reporting tool. If based on the results of the investigation, the violation of the Code of Ethics was proven to be true, it would be subject to sanctions in accordance with the provisions of the BRI Disciplinary Regulations.
- 5. Surveillance**  
Monitoring and evaluation of the implementation of the Code of Ethics policy at BRI was carried out to ensure that the Code of Ethics policy at BRI has been understood by BRI personnel and implemented properly, so that it could always be a guide for BRI personnel. The Code of Ethics policy was also constantly being improved in accordance with the latest conditions.

## Points of the Code of Ethics

The implementation of the Company's Code of Ethics is divided into the Bank's Code of Ethics and the BRI which include:

### BANK'S CODE OF ETHICS

1. Compliance with Laws and Regulatory Policies
2. The Relationship between the Bank and BRI Employees
3. Relationship with Customers
4. Relationship with Competitors and Business Partners
5. Relationship with Shareholders and Investors
6. Relationship with Regulator
7. Relationship with the Community and the Environment
8. Ethics as a Business Group (BRI Group)
9. Gratification Control, Anti-Bribery, and Anti-Corruption

The elements and explanations related to the BRI Employees' Code of Ethics are as follows:

### BRI EMPLOYEES' CODE OF ETHICS

1. Bank Compliance with Laws, Regulatory Policies, and the Bank's Internal Policies
2. The Code of Ethics as BRI Employees
3. Relationship with Customers
4. Relationship with Competitors and Business Partners
5. Interpersonal Relationships among Employees, including with Employees of the BRI Group
6. Relationship with Regulator
7. Relationship with the Community and the Environment
8. Gratification Control, Anti-Bribery, and Anti-Corruption

## Commitment to the Code of Ethics

All members of the Board of Directors, the Board of Commissioners, and all employees are required to be aware of, understand, and implement the BRI Code of Ethics, as evidenced, among others, by the signing of the Code of Ethics Statement on an annual basis. The Code of Ethics Statement also represents a tangible commitment of the Board of Directors, the Board of Commissioners, and all employees to compliance with the Company's Code of Ethics.

## Code of Ethics Socialization

In order to improve BRI personnel's understanding of the Company's Code of Ethics, BRI communicated the Code of Ethics policy to all BRI personnel, among others through:

1. Company website.
2. Landing Page on the BRISTARS application.
3. Collective Labor Agreement between the Company's Labor Union and the Company's Management.
4. Posters, videos and other advertising media at the Company's offices.
5. Online learning material with the theme of the Code of Ethics on the internal BRISMART e-learning platform.

### Consultation Media Code of Ethics

Consultations regarding the application of the Code of Ethics can be made through email at: kode-etik@corp.bri.co.id

### Efforts to Implement and Enforce the Code of Ethics

Throughout 2025, BRI implemented a series of comprehensive strategic measures to ensure that the Code of Ethics serves as the foundation for all operational activities and corporate decision-making. These efforts were carried out through the following initiatives:

1. Commitment of Management and All BRI Employees.  
The Board of Directors, the Board of Commissioners, and all employees signed the Code of Ethics Statement as a commitment and an initial step in upholding the Company's values.
2. Code of Ethics Dissemination Program  
To enhance employees' understanding of the Code of Ethics, BRI conducted intensive communication regarding the Code of Ethics policy through the following initiatives:

- a. Digital Communication: dissemination of information through the Company's internal digital channels, including the landing page of the BRILiaN Apps application, digital banners, and other media.
- b. Socialization: in-person meetings with employees at the Group level at the Head Office as well as other work units.
- c. Employee Education: delivery of Code of Ethics materials to new employees, promoted employees, and in other learning programs conducted both online and offline.

3. Evaluation of the Code of Ethics Implementation Program  
BRI periodically conducted assessments of the implementation of the Code of Ethics program, particularly regarding employees' understanding of the Code of Ethics policy, communication programs, and the annual submission of the Code of Ethics Statement.

#### 4. Violation Reporting Channel

BRI provides a reporting channel for employees and other stakeholders to report any suspected violations committed by employees.

### Types of Sanctions for Violating the Code of Ethics

Sanction Category
Termination of Employment
Written Warning
Written Reprimand
Demotion 1 Grade
Demotion 2 Grade

### Number of Violations and Sanctions Given

The number of internal violations that occurred during 2025 was as follows.

Internal Violations	Number of Violations		
	Permanent Workers	Non permanent workers	
		Contract	Outsourcing
Completed	5,028	215	31
In Process of Completion	397	38	7
<b>Total</b>	<b>5,425</b>	<b>253</b>	<b>38</b>

During 2025, The details of the sanctions given were as follows.

Sanction Category	Total	
	Permanent Workers	Non permanent workers
Advisory Letter	2,057	139
Work termination	738	71
Written Warning	1,178	36
Written Reprimand	679	-
Final Written Reprimand	58	-
Demotion 1 Grade	252	-
Downgrade 2 Grades	66	-
<b>Grand Total</b>	<b>5,028</b>	<b>246</b>

## Internal Deviation (Fraud)

### Anti Fraud Strategy

Anti Fraud Strategy covered the Bank's strategy in controlling Fraud designed to develop, implement and improve the anti Fraud compliance program in the Bank, by referring to the process of Fraud occurrence and paying attention to the characteristics and range of potential Fraud occurrence structured in a comprehensive, integralistic manner and implemented in the form of a control system. Implementing an anti-fraud strategy became a part of implementing risk management, especially those related to aspects of the internal control system. The implementation of BRI's anti-fraud strategy contained 4 (four) pillars, namely:

#### 1. PREVENTION

The prevention pillar contained steps to reduce the potential risk of fraud, which includes at least:

##### 1. Anti Fraud Awareness

Anti-Fraud Awareness was an effort to raise awareness regarding the importance of preventing fraud for all levels of the Bank organization and various parties related to the Bank. Through good leadership and supported by high anti-fraud awareness, it was expected that awareness could grow among all elements in the Bank and various parties connected with the Bank regarding the importance of controlling fraud. The leadership's morals and awareness of anti-fraud had to animate every policy or provision set. Efforts to raise anti-fraud awareness were carried out, among others, through:

- a. Preparation and Socialization of Anti-Fraud Declaration
  - b. Anti-Fraud Culture Program for Employees
  - c. Fraud Awareness and Awareness Program for Customers
2. Identify Vulnerabilities  
Vulnerability identification became a process for identifying, analyzing and assessing potential risks of fraud which could be carried out periodically or if there were indications of fraud.
  3. Get to know your employees policy  
As an effort to prevent fraud, the Bank implemented a policy of getting to know employees as an effort to control the HR aspect.

#### 2. DETECTION

The detection pillar contained steps to identify and discover fraud in the Bank's business activities, which included:

1. Policy and Mechanism for Handling Complaints (Whistleblowing)
2. Surprise Audit
3. Monitoring System

#### 3. INVESTIGATION, REPORTING, AND PENALTIES

It is part of the Fraud Control System aimed at addressing fraud through investigations, with the results reported to the President Director, Board of Commissioners, and Regulators, including proposals for sanctions and legal processes for the fraud perpetrators. To strengthen the function of the Third Pillar, authority for conducting investigations and imposing sanctions has been delegated to each region to expedite the handling of cases and recovery processes.

#### 4. MONITORING, EVALUATION AND FOLLOW-UP

The monitoring, evaluation and follow-up pillar contained steps to carry out monitoring and evaluation and follow up on fraud, including at least:

1. Monitoring

One of the important steps in implementing a Fraud control system was monitoring follow-up actions carried out on Fraud, both in accordance with the Bank's internal regulations and in accordance with statutory provisions.

2. Evaluation

To support the implementation of the evaluation, the Bank maintained data on fraud incidents. Event data can be used as an evaluation tool. Based on fraud incident data and the results of the evaluation, weaknesses and causes of fraud can be identified and necessary handling and improvement steps can be determined, including strengthening the internal control system. A comprehensive evaluation of the Fraud control system was carried out periodically.

3. Follow up

The Bank developed a follow-up mechanism based on the results of evaluation of Fraud incidents to correct weaknesses and strengthen the internal control system in order to prevent the recurrence of Fraud due to similar weaknesses.

To support the effective implementation of the Anti-Fraud Strategy, the Company has established a work unit or function tasked with managing the implementation of the anti-fraud strategy within the organization. This unit is managed by the IT & Fraud Risk Group, which reports to the Director of Fraud and Risk Management.

### Number of Deviations (Internal Fraud) and Resolution Efforts

Internal Fraud in 1 year	Number of Internal Fraud Incidents					
	Members of the Board of Commissioners and Members of the Board of Directors		Permanent Employees		Temporary Employees	
	Previous Year (2024)	Current Year (2025)	Previous Year (2024)	Current Year (2025)	Previous Year (2024)	Current Year (2025)
Fraud Total	-	2	1,040	905	119	116
Resolved	-	-	456	636	69	71
In the process of Resolution within the Bank's Affairs	-	-	584	269	50	45
Resolution has not been initiated	-	-	0	0	0	0
Has been followed up Through Legal Proceedings	-	2	133	114	24	25

**Notes:**

Internal fraud with a value exceeding IDR100 million.

### Whistleblowing System

BRI prioritizes transparency to all stakeholders, particularly in relation to organizational management, company operations, and business activities. To support this commitment, BRI provides a Whistleblowing System as an official and confidential channel for all stakeholders to report suspected violations of ethics, laws, and internal policies. Through this mechanism, any irregularities can be followed up independently and objectively, while supporting a culture of high accountability.

The BRI Whistleblowing System policy is stipulated in Implementation Guideline No. JI.04-KEP/05/2025 dated May 8, 2025 concerning the Whistleblowing System, which sets out the basis for managing the whistleblowing system, including independence, reporting mechanisms, and other technical provisions. In 2025, BRI transformed the Whistleblowing System into a reliable and convenient reporting channel for all stakeholders through several strategic initiatives:

1. Management of whistleblowing reports by an independent third party, including the provision of new reporting channels for whistleblowers.
2. Revitalization of the report management system, including updates to the Service Level Agreement (SLA), digitalization of monitoring, and the establishment of more prudent procedures.
3. Measurement of employees' level of understanding regarding the whistleblowing system conducted by an external party.
4. Expansion of communication regarding the whistleblowing system to employees, customers, and all stakeholders.

## Criteria for Reportable Violations

Indications of violations that may be reported and followed up through the Whistleblowing System include actions committed by BRI employees and officials with the following criteria:

1. Corruption
2. Misuse of Assets
3. Fraudulent BRI financial reporting
4. Fraud
5. Leakage of confidential information
6. Other actions that may be classified as fraud
7. Ethical violations

## Protection and Benefits for Whistleblowers

Providing protection to whistleblowers is an important pillar in ensuring accountable and transparent management of the Whistleblowing System. The BRI Whistleblowing System is designed to provide comfort and assurance for employees, customers, partners, and other stakeholders to report suspected violations, fraud, or unethical conduct without fear of retaliation or discrimination. This commitment is implemented through several strategic measures, including:

1. Confidentiality assurance for the identity of the whistleblower and the report through complaint handling by an independent third party.

2. Assurance of follow-up on reports while adhering to the established Service Level Agreement (SLA). Every report received is processed professionally, fairly, and transparently, followed by appropriate corrective actions to prevent similar incidents from recurring.
3. Strict management policies that prioritize confidentiality, data security, and independent and objective investigation procedures.
4. For whistleblowers from within BRI, additional benefits and protection are provided in the form of:
  - a. Legal assistance for employees when necessary in accordance with applicable regulations.
  - b. Protection from threats, pressure from superiors, delays in promotion, discrimination, termination of employment, and unilateral transfer.
  - c. Appreciation for employees who have had the courage to report violations within their Work Units.

## Whistleblowing System Reporting Channels and Media

BBRI has developed and operates the Whistleblowing System by providing access through various channels. BRI ensures that the available reporting channels can be accessed by whistleblowers 24 hours a day. Through these channels, BRI expects that every report can be heard and followed up appropriately while accommodating the concerns of each whistleblower. Reports regarding suspected violations can be submitted through the following media:

1. Website:  
<https://idn.deloitte-halo.com/bri-whistleblowingsystem>
2. Email: [bri-whistleblowingsystem@tipoffs.info](mailto:bri-whistleblowingsystem@tipoffs.info)
3. Written Letter: PO Box 1450 JKP 10014
4. SMS and WhatsApp: +62 811 8113 5306

## Parties Managing Reports

Management of whistleblowing system complaint reports by an independent third party, namely Deloitte, followed by Report management is carried out by the Management Unit, which is under the direct supervision of the President Director and monitored by the Board of Commissioners through the Audit Committee. The Management Unit is appointed directly by the President Director and acknowledged by the Board of Commissioners.

## Management of Whistleblowing System Reports

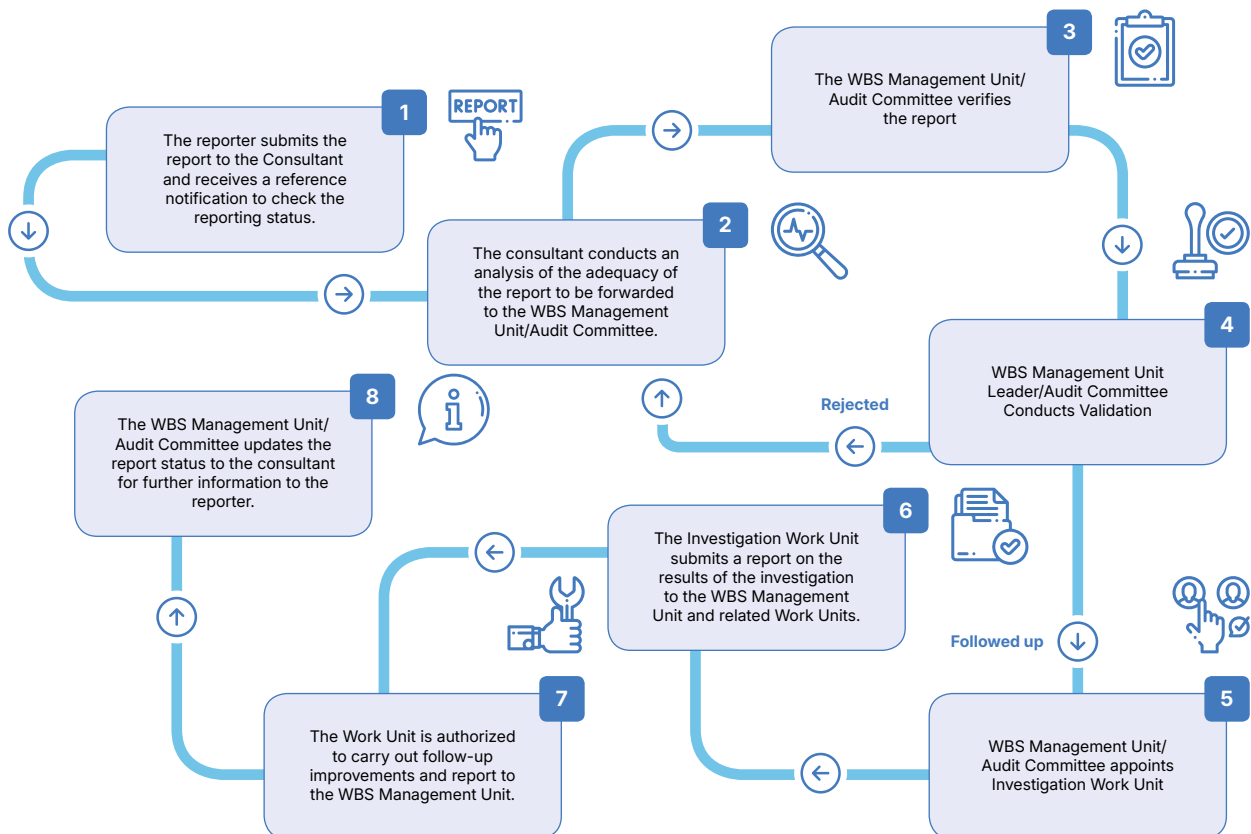

The management of the Whistleblowing System is carried out with the principles of independence and high professionalism. Reports are received by a trusted third party to ensure the confidentiality and security of the whistleblower's identity.

The investigation process for each report is conducted objectively and impartially, involving competent personnel who are free from conflicts of interest. Each stage, from receipt, verification, investigation, to follow-up, must comply with the established Service Level Agreement (SLA) and is monitored directly by the Compliance Work Unit to ensure timeliness, fairness, and certainty in handling reports. To ensure independence in managing reports, the Work Unit appointed as the Whistleblowing System Managing Unit must fulfill the following requirements:

1. Comply with the BRI Code of Ethics, as evidenced by the signing of the Code of Ethics Statement and Integrity Pact by all assigned personnel. Officers may be subject to disciplinary sanctions if they violate the statements they have signed.
2. Maintain the confidentiality of the whistleblower's identity, information, and documents related to reported violations.
3. Avoid conflicts of interest in the follow-up process of reported violations. If a report involves an officer, a cross-examination mechanism will be applied or the process will be handled by a higher-level official.
4. Manage documentation properly, including recording, updating all follow-up activities, and storing all data in a secure place.
5. Carry out duties, responsibilities, and authority in their capacity as the Whistleblowing System Managing Unit, including follow-up on all reports of alleged violations.

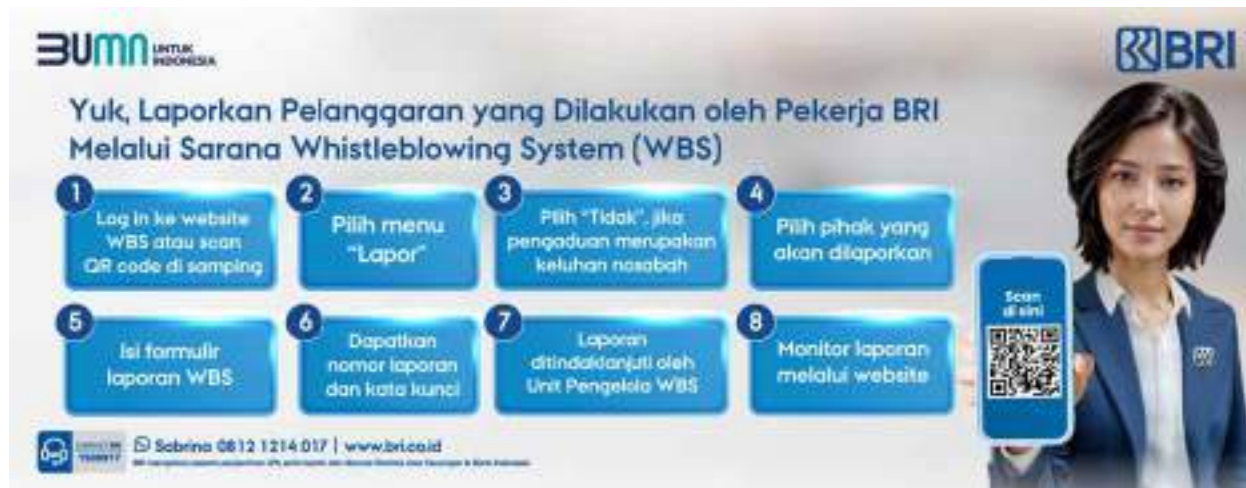

### Whistleblowing System Report Submission Flow

All communication with whistleblowers within the Whistleblowing System (WBS) is managed and conducted by a trusted independent party, including the delivery of information regarding report status, investigation results, and follow-up actions taken by the Company, while ensuring the confidentiality of the whistleblower's identity and data security. Through this mechanism, the Company ensures transparency, objectivity, and full protection for whistleblowers throughout the communication process, in line with good governance principles and a commitment to integrity.

## Socialization of the Whistleblowing System

In order to enhance understanding of the Whistleblowing System among internal (BRI employees) and external parties, BRI continuously conducts socialization through various methods, including education in employee development and enhancement programs, periodic self-learning, banner placement on the BRISStars application landing page, and socialization during third-party gatherings.

## Number of Complaints and Complaint Process

During 2025 there were 81 (eighty one) WBS violation reports containing 89 (eighty nine) sub-indications of violations. The development trend of WBS reports over the last 3 (three) years is as follows:

Description	2023	2024	2025
Number of complaints	30	48	81
Sub Indication of Violation	50	63	89

Based on these data, the most frequently reported and proven sub-indications of violations in 2025 were fraud and violations of the code of ethics as per the following data:

Indication of Violation	Complaints Accepted	Status			
		Proven	Partially proven	Not proven	In Progress
Illegal Gratuity	6	4	0	1	1
Human Rights Violations	9	6	0	3	0
Violations of the Respect Workplace Policy (RWP)	19	14	1	1	3
Violations of the code of ethics	23	16	2	3	2
Violations of Other Company Procedures	3	2	0	1	0
Misuse of Assets	3	3	0	0	0
Other Actions That May Be Classified as Fraud	26	23	1	0	2

The trend in the use of WBS reporting media over the last 3 (three) years is as follows:

Reporting Media	2023	2024	2025
Email	9	14	21
SMS	0	2	0
Surat	1	0	1
Website	8	17	34
Whatsapp	12	15	25

## Anti-Corruption Program

### Anti-Corruption Policy

To prevent the practice of Corruption, Collusion, and Nepotism (KKN) within the company, BRI has an Anti-Corruption and Anti Bribery policy as outlined in the Board of Directors Circular Letter on Corporate Governance Policy No. SE.09-DIR/KEP/03/2023 dated March 15, 2023, Book 3 on Anti-Bribery and Gratification Control, and SE.09b-DIR/KEP/03/2023 dated July 31, 2024, Book 4 on the Anti-Bribery Management System ISO 37001:2016. These policies serve as guidelines and the Bank's commitment to supporting anti-bribery and anti-corruption practices, categorized as fraudulent and fraudulent activities.

The existence of these policies aims to raise awareness among all levels within the business units about the risks of bribery and corruption in the Bank's business processes, as well as to engage every BRILiaN employee in efforts to prevent and avoid bribery and corruption practices. The implementation of the Anti-Bribery and Anti-Corruption Policy and the Anti-Bribery Management System (SMAP) Policy aims to address practices such as corruption, kickbacks, fraud, bribery, and/or gratification.

## Programs and Procedures Implemented to Address Corruption, Kickbacks, Fraud, Bribery, and/or Gratification Practices

### Anti-Bribery Management System

In order to improve the quality of corporate governance regarding the continuous prevention of bribery practices within the company, in alignment with ISO 37001:2016 Anti-Bribery Management System Standards, BRI has established the following:

1. Complying with applicable laws and regulations related to anti-bribery.
2. Aligning the anti-bribery policy with the company's objectives.
3. Commitment to fulfilling the clauses of the Anti-Bribery Management System.
4. Prohibiting bribery practices within the company across all business lines and business units.
5. Implementing corporate governance that supports the achievement of the company's anti-bribery objectives.
6. Increasing stakeholder awareness regarding the implementation of anti-bribery management.
7. Implementing the principle of continuous improvement in the Anti-Bribery Management System.

BRI has implemented the Anti-Bribery Management System (SMAP) at PT. Bank Rakyat Indonesia (Persero). BRI has implemented ISO 37001:2016 and adopted the ISO 37001:2016 Anti-Bribery Management System policy as stated in Circular Letter (SE) Number SE.09-DIR/KEP/03/2023 dated March 15, 2023 concerning Corporate Governance regarding Book 4 concerning the ISO 37001:2016 Anti-Bribery Management System.

The implementation of the Anti-Fraud Strategy has been presented in the Internal Deviations (Fraud) section in the Corporate Governance Chapter of this Annual Report.

### Gratification Control Management

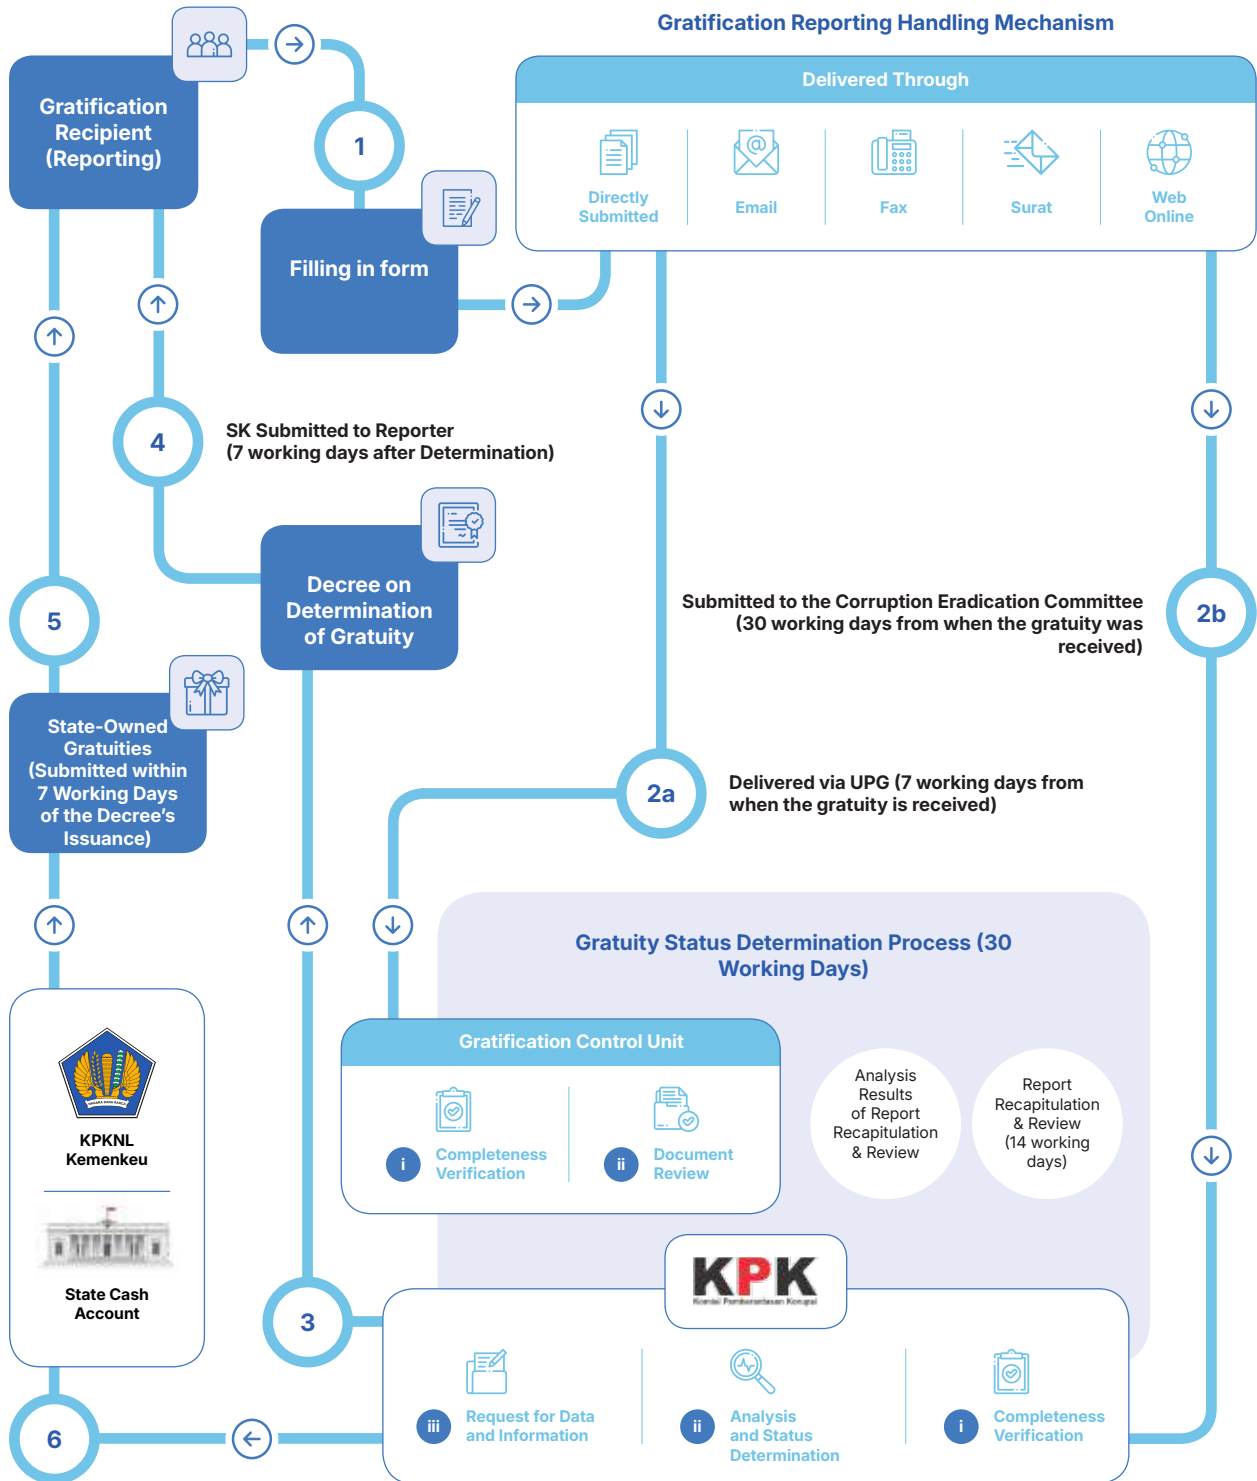

BRI has established a Gratification Control Unit (UPG), managed by the Compliance Division since 2017, which is responsible for managing gratification control within the company. To enhance awareness of gratification control across all levels of BRI's business units, the Gratification Control Unit is supported by the Regional Risk Management & Compliance teams at the Regional offices in implementing gratification control programs developed by the Compliance Group.

### Gratification Reporting Mechanism

In reporting Gratification, all BRI personnel were required to report it to the BRI Gratification Control Unit via the reporting media provided, namely Nexure.bri.co.id.

An explanation of the Gratification reporting mechanism is as follows.

Implementation of Gratification Control in 2025

1. Integrity Assessment Survey (SPI) by the Corruption Eradication Commission (KPK) of Republic of Indonesia. BRI conducts standardized measurements by the Corruption Eradication Commission (KPK) on the implementation of anticorruption strategies at BRI. The SPI measurement is carried out through the stages of survey implementation, in-depth interviews, and validation of survey results.
2. Organizing a series of activities for the International Anti-Corruption Day (HAKORDIA) 2024. The International Anti-Corruption Day, observed every December 9, in 2025 carries the theme "Reaffirming the Commitment to Eradicate Corruption for a Progressive Indonesia." In line with BRI's principles of anti-corruption, BRI organized in-house training attended by representatives of employees from all over Indonesia, with the theme Empowering Business Through Ethical & Compliance Practices, in collaboration with the Corruption Eradication Commission (KPK) of the Republic of Indonesia.

3. In House Training (IHT) on Anti-Corruption. BRI conducted In House Training (IHT) at the Regional Offices in Bandung and Yogyakarta by inviting speakers from the Corruption Eradication Commission of the Republic of Indonesia (KPK RI), as part of its commitment to strengthening gratification control and preventing bribery within Work Units. The agenda was attended by all management of the Regional Offices, Regional Audit Offices, and second line units under the supervision of the Regional Offices, both onsite and online via Zoom meeting.

4. Policy on the Acceptance of Gratification
  - a) Book 3 on Anti-Bribery and Gratification Control, SE.09- DIR/KEP/03/2023 regarding Corporate Governance, which regulates the definition of gratification, gratification control strategies, the establishment of the Gratification Control Unit, and the reporting of gratification.
  - b) Technical Guidelines JN.102-KEP/11/2020 on the Application of the Good Corporate Governance (GCG) Online System 2.0.
5. Education and Socialization Programs  
The BRI Gratification Control Unit (UPG) collaborates with BRI Corporate University to develop e-learning materials on Gratification Control, available on the internal BRISTARS platform, which is mandatory for all employees.
6. Signing of the Integrity Pact.  
All BRI employees, including the Board of Commissioners and the Board of Directors, are required to declare their commitment to anti-gratification as outlined in the Code of Ethics Statement.
7. Implementation of the Anti-Bribery Management System (SMAP) ISO 37001.  
In support of the Gratification Control program, BRI has implemented the ISO 37001:2016 Anti-Bribery Management System standard for the procurement of goods and services at the Head Office and the Human Resources Assessment process.
8. Mapping of potential gratification risk areas through antibribery self-assessment.

### Gratification Report in 2025

Throughout 2025, there were 12 gratification reports submitted to the BRI Gratification Control Unit (UPG), all of which have been followed up by UPG BRI in accordance with the applicable provisions.

### Anti-Corruption Training/Socialization to Employees

Several forms of activities, educational programs and outreach that have been carried out by UPG BRI during 2025 include:

1. Implementation of In House Training at the Regional level and BRI Head Office in collaboration with speakers from the Corruption Eradication Commission of the Republic of Indonesia (KPK RI).
2. Focused socialization on the topics of Gratification Handling and Anti-Bribery, as well as Conflict of Interest within the BRI Head Office environment through the "Compliance Knock On The Door" program
3. Campaigns through various media such as the landing page on the main page of BRILiaN Apps, podcasts, BRI social media, and infographics on Digital Office (DIO)

4. Delivery of materials related to GCG and the Code of Ethics in educational programs organized by the Corporate University for various positions in operational, support, and business functions.

### Management of Asset Reporting of State Officials

To improve the quality of GCG implementation, BRI also complied with the Asset Reporting of State Officials regulations based on the provisions of the Corruption Eradication Commission.

### Policy

1. Officials who are required to report LHKPN  
As a concrete form of increasing transparency, preventing corruption, and supporting a clean culture from corruption, collusion, and nepotism, members of the Commissioners, Directors, SEVP, EVP and VP at BRI are required to report their assets in accordance with the company's internal provisions stipulated in the BRI Board of Directors Circular No. SE.09- DIR/KEP/03/2023 dated March 15, 2023 concerning Corporate Governance Book 5 concerning the Management State Official Wealth Report (LHKPN). The data reported in the report include the position of assets before and after the end of office. The reporting provisions are constantly updated to comply with applicable regulations.
2. LHKPN Reporting Coordinator  
The reporting coordinators appointed by BRI to manage and monitor the The State Official Wealth Report (LHKPN) reporting process are the Head of the Secretariat and Protocol Department and the Head of Human Capital Strategy Group. Based on the current organizational structure, there are 177 (one hundred seventy-seven) LHKPN Reportees who are required to report their assets to the KPK. Among these officials, the majority have reported their assets in accordance with the LHKPN reporting obligations.

### The State Official Wealth Report (LHKPN) Report Management Officer

The LHKPN reports are managed and coordinated by the Compliance Division, with the following scope of duties:

- a. Providing information regarding BRI's LHKPN to the KPK.
- b. Providing socialization regarding LHKPN to the LHKPN Reportees.
- c. Managing and updating the data of LHKPN Reportees.
- d. BRI Collaborating with the KPK to monitor the implementation of BRI's LHKPN reporting obligations.

In the LHKPN reporting process, the Compliance Division is supported by the Human Capital Business Partner Group in data updates and filling reminders, and by the Subsidiary Management Group to coordinate the reporting of Subsidiaries and Affiliates.

## The State Official Wealth Report

BRI has submitted the LHKPN report for the 2024 reporting period which will be reported in 2025 as follows.

Position	Number of LHKPN Mandatory	Have Reported		Have not Reported	
		Number	%	Number	%
Board of Commissioner	10	10	100	-	-
Directors	12	12	100	-	-
BRI Employees	160	160	100	-	-

## Providing Funding for Social and/or Political Activities

BRI's social activity funding has been presented in the Sustainability Report. During 2025, BRI did not provide funding for political activities.

## Buyback Share and Buyback Obligation

### Buyback Share

#### Buyback Implementation Policy

As part of the capital management strategy and commitment to increasing value for shareholders, BRI also focuses on enhancing employee engagement. This is realized through the Employee and/or Director and Board of Commissioners Share Ownership Program. To support this, BRI has implemented the Buyback of Company Shares. This activity is carried out in accordance with OJK Regulation No. 30/POJK.04/2017 and No. 29/2023 regarding the Buyback of Shares Issued by Public Companies, as well as OJK Regulation No. 2/POJK.04/2013 concerning the Buyback of Shares in Conditions of Significantly Fluctuating Market.

The Company has carried out a Buyback in 2015 and 2020, based on POJK No. 2/POJK.04/2013. All shares acquired from the 2015 Buyback and some of the shares from the 2020 Buyback have been transferred through the Employee Share Ownership Program. In 2022, the Company conducted another Buyback following POJK No. 30/POJK.04/2017, which was completed on January 26, 2023. Some of the shares from the 2022 Buyback have been allocated for the Directors' and Commissioners' share ownership program. This program is part of the variable remuneration for the Directors and Commissioners, which includes annual

incentives, long-term incentives, and/or other incentives paid in the form of shares. In addition, a portion of the shares resulting from the 2022 Buyback has also been allocated to the employee share ownership program.

In 2023, the Company carried out a Buyback following POJK No. 30/POJK.04/2017, which was completed on September 11, 2024. Subsequently, the Company conducted another Buyback in 2025 in accordance with POJK 29/2023 and obtained approval from the 2025 Annual GMS on March 24, 2025. The 2025 Buyback is carried out either gradually or at once within a maximum period of 12 (twelve) months after the date of the GMS approving the 2025 Buyback.

On the other hand, the Company will gradually transfer all remaining shares from the Buyback (Treasury Stock) through the Employee and/or Director and Board of Commissioners Share Ownership Program in accordance with the applicable laws and regulations.

Buyback was implemented by the Company as (i) an effort to optimally manage capital; (ii) a form of commitment to increase value for Shareholders; and (iii) efforts to increase employee engagement and/or Directors and Board of Commissioners to achieve the Company's long-term performance targets through the Share Ownership Program.

#### Buyback Price and Number of Repurchased Shares

In 2025, BRI has conducted a Buyback of 132,321,300\* shares with an average acquisition price of Rp3,687.12. So that as of December 31, 2025, the total treasury shares owned by BRI are 958,602,200 shares.

\*treasury stock based on settlement date, excluding transactions dated December 30, 2025 which were settled on January 5, 2026

## Increased Profit Per Share

Description	Total Sheets of Shares
Treasury Stock as of December 31, 2024	909,878,300
Movement of Treasury Stock during 2025	48,723,900
Treasury Stock as of December 31, 2025	958,602,200
Total Treasury Stock	958,602,200
Total Outstanding Shares	151,559,001,604
<b>Total Outstanding Shares excluding Treasury Stock (Lbs) as of December 31, 2025</b>	<b>150,600,399,404</b>

\* treasury stock based on settlement date, excluding transactions dated December 30, 2025 which were settled on January 5, 2026

Description	Without Share Buyback	Impact	After Share Buyback
Net Profit Attributable to the Parent (Audited Consolidation December 2025) (IDR Billion)	56.652		56.652
EPS (IDR)	376,02	0,15	376,18

## Bond Buybacks

During 2025, there will be no buybacks obligation.

## Internal Dispute

During 2025, no internal disputes among workers occurred.

## Bank Strategic Plan

Information related to the Bank's Strategic Plan has been presented in the Bank Strategy Sub-Chapter in the Management Analysis and Discussion Chapter in this Annual Report.

## Provision of Funds to Related Parties and Provision of Large Funds

No.	Provision of Fund	Total	
		Debtors	Nominal (IDR Million)
1.	To related parties	667	18,656,883
2.	To core debtors:		
	a. Individuals	50	242,229,198
	b. Groups	50	314,840,547

More detailed information regarding Provision of Funds to Related Parties and Provision of Large Funds has been presented in the Sub-Chapter Prohibitions, Limitations and/or Significant Obstacles to Providing Funds Between Banks and Other Entities in a Business Group in the Management Analysis and Discussion Chapter in this Annual Report.

## Transactions with Conflicts of Interest

A conflict of interest is a condition/situation in which a person, because of the position or authority held by BRI, has a personal interest which can affect the quality and performance of carrying out their mandated tasks objectively. Bank BRI has a conflict of interest policy As outlined in the Director's Circular Letter No. SE.09-DIR/KEP/03/2023, dated March 15, 2023, regarding Corporate Governance (Book 1 related to Conflict of Interest Management)). The basic principles for handling Conflicts of Interest covered:

1. Prioritize public interests.
2. Create openness in handling and monitoring conflicts of interest.
3. Encourage personal responsibility and exemplary attitudes.
4. Create and foster an organizational culture that is able to handle conflicts of interest.

## Commitment

The Board of Commissioners, Directors and all BRI personnel have been committed and professional in implementing policies for handling conflicts of interest. As a form of commitment of BRI personnel in implementing policies and disclosing conflicts of interest, including:

1. All BRI employee were required to make an annual statement (Annual Disclosure) that they had no conflict of interest regarding any decisions they have made and have implemented the behavior determined by the company.
2. Each business unit was required to submit reports on transactions/decisions that contained conflicts of interest.

## Socialization

BRI disseminated GCG policies and conflicts of interest to BRI employees through educational programs, in-house training and online learning, and conflict of interest statements made by each BRI employee.

## Conflict of Interest Transaction Report in 2025

Name and Position of Party Who Has a Conflict of Interest	Name and Position of Decision Maker	Transaction Type	Transaction Value (millions of Rupiah)	Information *)
Nil	Nil	Nil	Nil	Nil

\*)Not in accordance with applicable systems and procedures

## Prevention of Insider Transactions (Insider Trading)

Insider Trading is trading in company shares or other securities (bonds or stock options) carried out by company individuals who have access to non-public information about the company. The Company has a policy that regulates insider trading activities for all BRI employees. The insider trading policy is outlined in the Director's Circular Letter No. SE.09-DIR/KEP/03/2023, dated March 15, 2023, regarding Corporate Governance (Book 1 related to Conflict of Interest Management), and the Director's Circular Letter No. SE.09a-DIR/ KEP/03/2023, dated October 31, 2023, regarding the First Amendment to Corporate Governance (Book 6 related to the Code of Ethics).

Policies related to insider trading activities stipulate that:

1. Every BRI employee had to avoid taking personal actions that benefit from “inside information” or insider information obtained from their position, even though this information is not open to the public.
2. All BRI personnel did not use confidential information and company business data for purposes outside the company.
3. All BRI personnel were prohibited from carrying out all activities related to insider trading referring to illegal activities in the financial market environment to seek profit carried out by utilizing internal information, for example published company plans or decisions/ corporate actions.
4. Violations of the above activities can be subject to disciplinary sanctions in accordance with those applicable at BRI.

In supporting good corporate governance practices, Board of Commissioners, Directors and all BRI personnel were required to make an annual statement (Annual Disclosure) including disclosure of insider trading transactions carried out by BRI personnel. Throughout 2025 there were no insider trading activities.

## Transparency of Financial and Nonfinancial Conditions

BRI Bank transparently published the company's financial and non-financial conditions and reports to regulators in accordance with applicable regulations. Publication of financial and nonfinancial conditions was conveyed to the public either through print media or the company website ([www.bri.co.id/](http://www.bri.co.id/) report) as follows:

1. Monthly Financial Report submitted to the regulator and published on the company website.
2. Quarterly Financial Reports submitted to regulators and published in print media and company websites.
3. Annual report submitted to regulators and published in print media and on the company website.
4. Corporate governance information includes:
  - a. Vision and mission of the company
  - b. Composition and profile of the Board of Commissioners
  - c. Composition and profile of the Board of Directors
  - d. Implementation of BRI Governance
5. Transparency of Bank product information delivered through print, electronic media and the company website.

## Procurement of Goods and Services

The Company has a policy regarding BRI Vendor Management as regulated in the Directors' Circular Letter Number SE.18-DIR/PLM/05/2023 concerning the Procurement of Goods and/ or Services for PT Bank Rakyat Indonesia (Persero) Tbk (Book 11). Currently, BRI is developing a Vendor Management System application that is integrated with the BRISMILE application, where the application includes the process of registering and selecting prospective vendors, monitoring, vendor maintenance and evaluating vendor performance so that BRI has a competent vendor database to support procurement implementation. BRI goods and/or services.

### BRI Procurement Policy for Goods and/or Services

As a State-Owned Enterprise, in carrying out the procurement of goods and/or services, PT Bank Rakyat Indonesia (Persero) Tbk adheres to the provisions set by the Board of Directors, which are based on the Regulation of the Minister of State-Owned Enterprises Number PER-02/MBU/03/2023 dated March 3, 2023. These provisions set by the Board of Directors regarding the implementation of goods and/or services procurement are effective starting from 2023 and replace the previous provisions that had been in effect since 2011. The provisions are mandatory guidelines for all BRI units.

### General Principles for Procurement of Goods and/or Services

In BRI's procurement provisions, there are several general principles that must be applied in the procurement process, including:

1. Efficiency  
Procurement of goods and/or services must aim to achieve optimal and best results in a short time using funds and capabilities as optimally as possible in a fair manner, not solely based on the lowest price. For strategic procurements with significant value, a total cost of ownership approach may be used.

2. Effectiveness  
Procurement must meet the established needs, be timely, and provide benefits in line with the set objectives.
  3. Competitiveness  
Procurement must be open to vendors who meet the requirements and conducted through healthy competition among eligible vendors based on clear and transparent rules and procedures.
  4. Transparency  
All rules and information regarding procurement, including technical administrative requirements, evaluation procedures, evaluation results, and vendor selections, must be open to interested suppliers.
  5. Fairness  
All qualified vendors must be treated equally.
  6. Openness  
Procurement can be participated by all vendors who meet the established requirements.
  7. Accountability  
Procurement must achieve the goals and be accountable, ensuring no potential misuse or deviation.
3. Do not influence each other, directly or indirectly, to prevent unhealthy competition.
  4. Accept and take responsibility for all decisions made according to agreements between parties.
  5. Avoid and prevent conflicts of interest, directly or indirectly, that may lead to unhealthy business competition in the procurement process.
  6. Prevent wastage and leakage of BRI finances in procurement.
  7. Prevent abuse of authority or conduct activities for personal, group, or third-party gain that may harm BRI.
  8. Do not accept, offer, or promise to give or receive gifts, rewards, or any form of compensation to anyone who is known or reasonably suspected to be connected to the procurement of goods and/or services.

The company has a policy regarding Vendor Management as outlined in the Director's Circular Letter No. SE.18-DIR/PLM/05/2023 concerning the Procurement of Goods and/or Services for PT Bank Rakyat Indonesia (Persero) Tbk (Book 11). Currently, BRI is developing a Vendor Management System application integrated with the BRISMILE application, which includes the process of registering and selecting vendors, monitoring, vendor maintenance, and performance evaluation to ensure a competent vendor database to support the procurement process.

### Ethics in Procurement of Goods and/or Services

In addition to adhering to the procurement principles, parties involved in the procurement process must also sign an Integrity Pact according to the established format and comply with the procurement ethics as follows:

1. Perform duties orderly, with responsibility to achieve objectives, smoothness, and the accuracy of procurement goals.
2. Work professionally and independently based on honesty, maintaining the confidentiality of procurement documents to prevent deviations in the procurement process.

### Vendor Management

According to the General Policy of Fixed Assets Management & Procurement at BRI, vendors participating in the procurement process at BRI must have a Vendor Registration Certificate (SKT). To obtain SKT, vendors need to be managed professionally, considering feasibility and risks, to ensure that BRI has access to vendors who can deliver the required quality and availability effectively and efficiently.

The due diligence stages to ensure the quality of registered vendors are as follows:

1. Managing vendor registration online via <https://tdronline.bri.co.id>.
2. Receiving vendor registration and conducting pre-screening of mandatory registration documents.
3. Verifying the compliance of the registration documents submitted by the vendor.
4. Conducting on-site visits to vendor locations to ensure document legitimacy, truthfulness, and business feasibility. If necessary, visits may be made to the vendor's factory, warehouse, or representative office.

5. Evaluating vendor risk ratings according to applicable regulations.
6. Analyzing the feasibility of the vendor based on verification results, on-site visits, and risk rating assessments.
7. Issuing a Vendor Registration Certificate (SKT) for vendors approved for partnership with BRI.

Periodic evaluations are carried out for BRI vendors, including after the completion of work or when applying for a vendor renewal. This is to determine the continuation of the vendor's partnership with BRI.

If a vendor is found to have violated procurement ethics or the procurement procedures, they may face one or more of the following sanctions and/or penalties:

1. Issuance of a Warning Letter;
2. Prohibition from participating in BRI procurement for a specified period;
3. Liquidation of any guarantees submitted;
4. Inclusion in the BRI Vendor Blacklist.

As of December 2025, 405 vendors had obtained a Registered Certificate (SKT). During 2025, BRI processed the issuance of 202 new SKTs and renewals.

## Implementation of Sustainable Finance, Including Implementation of Social and Environmental Responsibility

As a form of BRI's support for Sustainable Finance, BRI has a roadmap and strategy in the field of Environment, Social and Governance (ESG) in both operational and business activities of the Bank. BRI consistently maintains good company performance in implementing Sustainable Finance and contributing to achieving Sustainable Development Goals (SDGs). Efforts to accelerate this achievement are carried out through aligning corporate strategy, fulfilling stakeholder expectations and initiating ESG that refers to national, regional and global standards.

Detailed information regarding the Implementation of Sustainable Finance, including the Implementation of Social and Environmental Responsibility is explained in the 2025 BRI Sustainability Report.

## Implementation of Integrated Governance

The implementation of Integrated Governance within the BRI Financial Conglomerate refers to Financial Services Authority Regulation No. 18/POJK.03/2014 concerning the Implementation of Integrated Governance for Financial Conglomerates and Financial Services Authority Regulation No. 30 of 2024 dated 23 December 2024 concerning Financial Conglomerates and Financial Conglomerate Holding Companies. Currently, the BRI Financial Conglomerate consists of BRI as the Financial Conglomerate Holding Company and 22 (twenty-two) entities as members of the Financial Conglomerate. To ensure the implementation of governance within the Financial Conglomerate both individually and in an integrated manner, the BRI Financial Conglomerate implements Integrated Governance practices.

Several provisions stipulated in the regulations that serve as references for the implementation of Integrated Governance within the BRI Financial Conglomerate include the following:

1. The OJK Regulation No. 30 of 2024 dated December 23, regarding Financial Conglomerates and Financial Holding Company.
2. Regulation of the Minister of State-Owned Enterprises Number PER-2/MBU/03/2023 dated March 3, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.
3. The OJK Regulation No. 1/POJK.03/2019 dated January 28, 2019 concerning the Implementation of Internal Audit Functions in Commercial Banks.
4. The OJK Regulation No. 17/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
5. The OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerates.

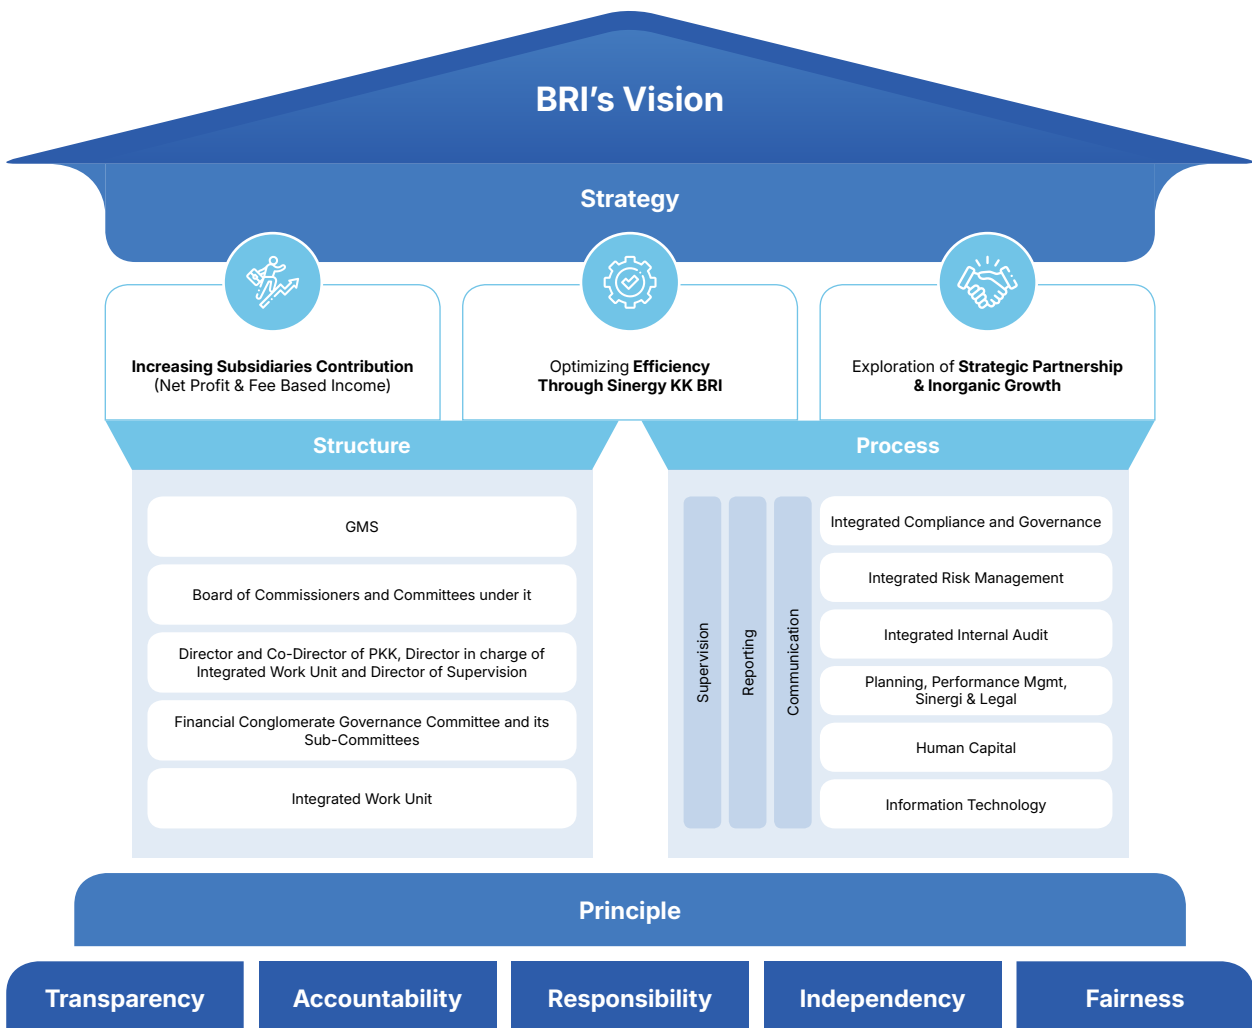

- 6. The OJK Circular Letter No. 14/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
- 7. The OJK Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates.

To perform Integrated Governance, BRI Financial Conglomerates has some internal provisions, such as General Policy and other technical provisions, as follows:

- 1. Audit Charter Number: KU.01-DIR/ASQ/12/2025 on December 16, 2025, Book 2 regarding the Integrated Internal Audit Charter of the BRI Financial Conglomerate.
- 2. General Policy Number: KU.04-DIR/SBM/07/2024 dated July 12, 2024, regarding the General Policy on Equity Participation and Management of Companies Receiving Equity Participation
- 3. General Policy Number: KU.02-DIR/MPE/04/2024 dated April 30, 2024, Book 2 regarding the General Policy on Integrated Risk Management.
- 4. General Policy Number: KU.01-DIR/HCS/03/2024 dated March 1, 2024 regarding the General Policy on Human Capital.

- 5. General Policy Number: KU.02-DIR/KEP/10/2023 dated October 10, 2023, Book 2: Integrated Governance for BRI Financial Conglomerate.
- 6. BRI Board of Directors Circular Letter Number: SE.09.b-DIR/KEP/03/2023 dated July 31, 2024, Book 8: Implementation of Compliance and Integrated Governance for the Financial Conglomerate.
- 7. BRI Board of Directors Circular Letter Number: SE.18-DIR/MPE/07/2024 dated July 31, 2024, Book 2 regarding Integrated Profil Risk.
- 8. BRI Board of Directors Circular Letter Number: SE.03-DIR/ASQ/01/2024 dated January 31, 2024, Book 2 regarding Guidelines for Integrated Internal Audit Management of BRI Financial Conglomerate.
- 9. Implementation Instruction Number JL.37-SBM/12/2025 on December 31, 2025 regarding BRI Financial Conglomerate.

Generally, the implementation of Integrated Governance for the Financial Conglomerate at BRI is based on the following framework:

The Integrated Governance Framework at BRI comprises five main pillars: Principles, Commitment, Governance Structure, Governance Process, and Governance Outcome, referring to the OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014, on the Implementation of Integrated Governance for Financial Conglomerates.

The implementation of Integrated Governance is based on governance principles, which include Transparency, Accountability, Responsibility, Independence, and Fairness. Integrated Governance is generally implemented into 3 (three) aspects, as follows:

1. Integrated Governance Structure
2. Integrated Governance Process
3. Integrated Governance Results

The Integrated Governance Structure within the BRI Financial Conglomerate consists of the Integrated Governance Organs at BRI and its Financial Conglomerate Members, along with related integrated governance policies. The explanation of the integrated governance organs are as follows:

1. Integrated Governance Organs of BRI include:
  - a. General Meeting of Shareholders ,
  - b. The Board of Commissioners of BRI,
  - c. The Integrated Governance Committee,
  - d. BRI's Board of Directors (including Director and Co-Director of Financial Conglomerates Management, Director taking charge in the Integrated Business Unit and Director of dan Director of Supervision),
  - e. The Financial Conglomerate Governance Committee (including the Integrated Risk Management Committee, the Capital, Investment & Strategy Sub-Committee, and other sub-committees),
  - f. Integrated Business Units consisting of Financial Conglomerate Management Work Unit, the Integrated Compliance Business Unit, the Integrated Risk Management Business Unit, the Integrated Audit Business Unit, the Integrated Information Technology Business Unit, and the Integrated Human Capital Business Unit.
2. Integrated Governance Organs of the Members of the BRI Financial Conglomerate include:
  - a. General Meeting of Shareholders,
  - b. Board of Commissioners Members of the BRI Financial Conglomerate
  - c. Board of Directors Members of the BRI Financial Conglomerate.

The Integrated Governance process is implemented through oversight, communication, and reporting related to the management of the Financial Conglomerate, Integrated Compliance and Governance, Integrated Risk Management, Integrated Internal Audit, Planning and Synergy within the Financial Conglomerate, Integrated Human Capital, and Integrated Information Technology.

The results of the Integrated Governance implementation are reflected in the Financial Conglomerate's performance achievements, the adequacy of transparency in the annual Integrated Governance implementation report, audit objectivity, the level of regulatory compliance, and other achievement indicators.

## Assessment of the Implementation of Integrated Governance

The Integrated Governance Implementation Assessment consists of a Self Assessment of the Integrated Governance Implementation of BRI Financial Conglomerate and an Assessment of the Maturity Level of the Integrated Governance Implementation.

### Self Assessment of the Implementation of Integrated Governance

Self-assessment of the implementation of Integrated Governance of the BRI Financial Conglomerate has been carried out every semester by referring to Financial Services Authority Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates.

The assessment of the implementation of Integrated Governance has been carried out on 3 (three) aspects of Integrated Governance, namely the structure, process and results of Integrated Governance on at least 7 (seven) assessment factors for the implementation of Integrated Governance, namely:

1. Implementation of the duties and responsibilities of the Main Entity Board of Directors/Financial Conglomerate Holding Company.
2. Implementation of the duties and responsibilities of the Board of Commissioners of the Main Entity.
3. Duties and responsibilities of the Integrated Governance Committee.
4. Duties and responsibilities of the Integrated Compliance Unit.
5. Duties and responsibilities of the Integrated Internal Audit Business Unit.
6. Implementation of Integrated Risk Management.
7. Preparation and implementation of Integrated Governance Guidelines

The self-assessment results for the implementation of Integrated Governance in 2025 are as follows:

Assessment Period	Ranking	Explanation
Semester I of 2025	Rank 2 (Good)	The Financial Conglomerate is assessed to have implemented Integrated Governance generally well. This is reflected in the adequate fulfillment of the principles of Integrated Governance. If there are weaknesses in the implementation of Integrated Governance, in general, these weaknesses are not significant and can be resolved with normal actions by Financial Conglomerate Holding Company and/or Member of a Financial Conglomerate.
Semester II of 2025	Rank 2 (Good)	

The BRI Financial Conglomerate has implemented Integrated Governance which is generally "Good", reflected in the adequate fulfillment of aspects of structure, process and results.

BRI Financial Conglomerates' structure has been established in accordance with the provisions of POJK Number 30 of 2024 regarding Financial Conglomerates and Financial Holding Company and approved by the OJK. In terms of the implementation of integrated governance, BRI, a PIKK, has had a General Policy on Integrated Governance for BRI Financial Conglomerate in accordance with BRI's Board of Directors' Decree Number: KU.02-DIR/KEP/10/2023 on October 10, 2023, and has been supplemented with the Implementation Instructions for Financial Conglomerates Number JL.37-SBM/12/2025 on December 31, 2025 as well as other General Policies and Technical Policies. In managing BRI Financial Conglomerate, BRI has a Director and Co-Director of Financial Conglomerate Management and a Financial Conglomerate Management Business Unit as well as Integrated Business Units, consisting of an Integrated Risk Management Business Unit, an Integrated Compliance Business Unit, an Integrated Internal Audit Business Unit, an Integrated Human Capital Business Unit and an Integrated Information Technology Business Unit.

From the process aspect, the monitoring and evaluation processes carried out by the Board of Commissioners, Board of Directors, Integrated Governance Committee, Integrated Compliance Unit, Integrated Internal Audit Unit, and Integrated Risk Management Unit have been conducted in accordance with applicable regulations. The Integrated Governance Committee carries out the monitoring and evaluation of integrated audit reports, integrated compliance reports, integrated risk management reports (including integrated risk profiles), and the implementation of Integrated Governance within BRI. Monitoring and evaluation are carried out, among other ways, through the regular meetings of the Integrated Governance Committee (KTKT), exceeding

the number of meetings prescribed in the regulations. Furthermore, the integrated compliance unit, integrated risk management unit, integrated internal audit unit, and subsidiary management business unit monitor and evaluate the implementation of compliance, risk management, internal audits, and performance management of each Financial Services Institution (LJK) within the BRI Financial Conglomerate.

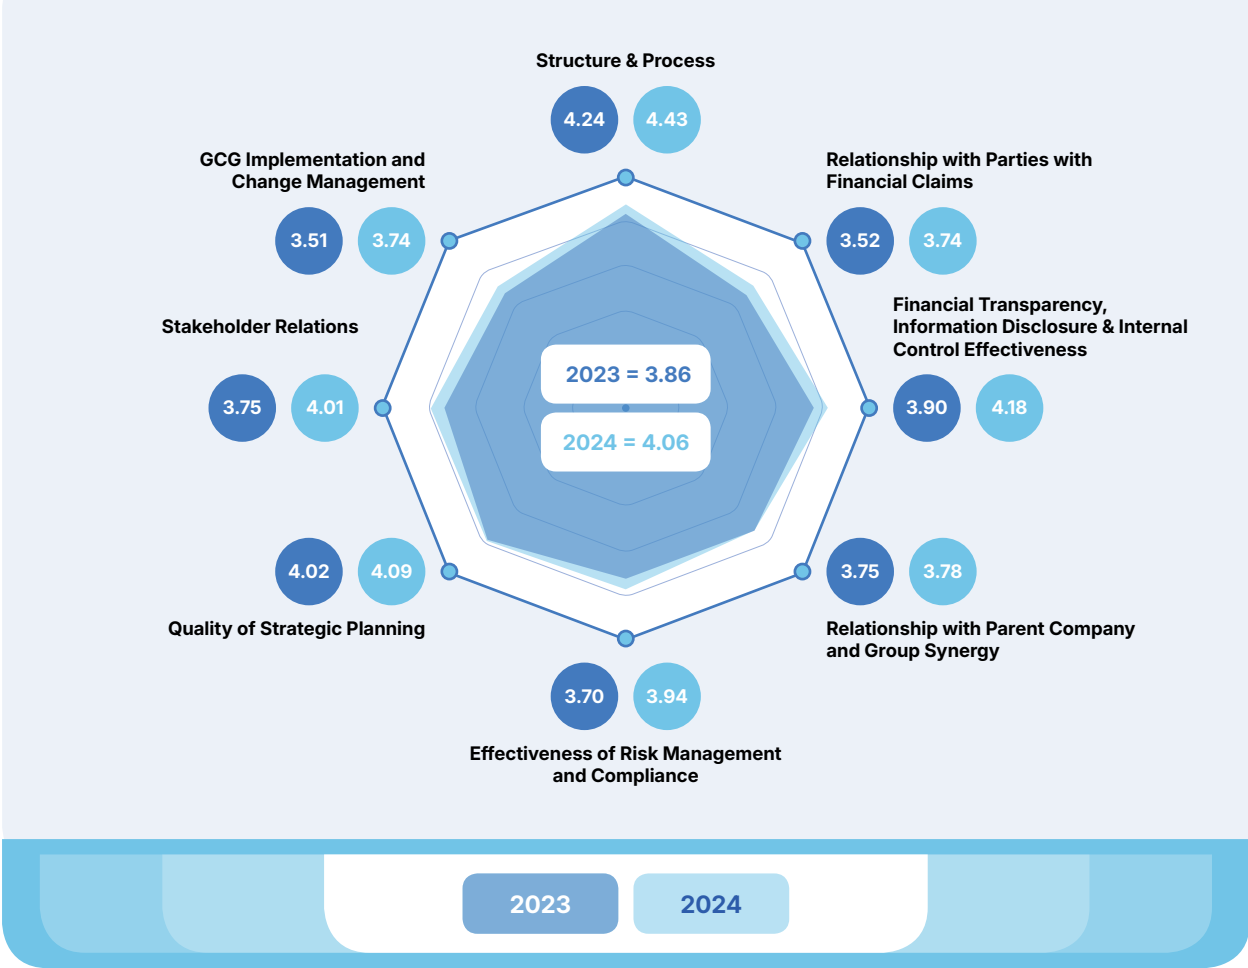

In terms of results, BRI and members of BRI Financial Conglomerates have submitted regular reports as stipulated in the Integrated Governance Guidelines. Furthermore, several members of BRI Financial Conglomerates participated in the GCG implementation quality assessment by the independent Indonesian Institute for Corporate Governance (IICG), a research and ranking program of the 2024 Corporate Governance Perception Index (CGPI) 2024, held in 2025. Five companies—PT Pegadaian, PT Permodalan Nasional Madani, PT Bank Raya Indonesia, Tbk, PT BRI Asuransi Indonesia, and PT Asuransi BRI Life— achieved the "Very Trusted" predicate, and one company, PT BRI Danareksa Sekuritas, earned the "Trusted" predicate.

Moreover, BRI Financial Conglomerates became one of benchmark references for other companies, which was SOE Company, and Member of SOE Financial Conglomerates, due to the implementation of Integrated Governance.

### Assesment of Integrated Governance Maturity Level

BRI has carried out measurement of the level of maturity of the Integrated Governance of the BRI Financial Conglomerate for 2024 which was carried out in 2025 with the results of a maturity level of 4.06 on a scale of 5 which illustrates that the structure and process of implementing Integrated Governance are adequate and in accordance with the provisions and the results of the management of the Financial Conglomerate have been effectively implemented.

## BRI Compliance Maturity Assessment Results

The maturity level of Integrated Governance within the BRI Financial Conglomerate has shown improvement compared to the previous period.

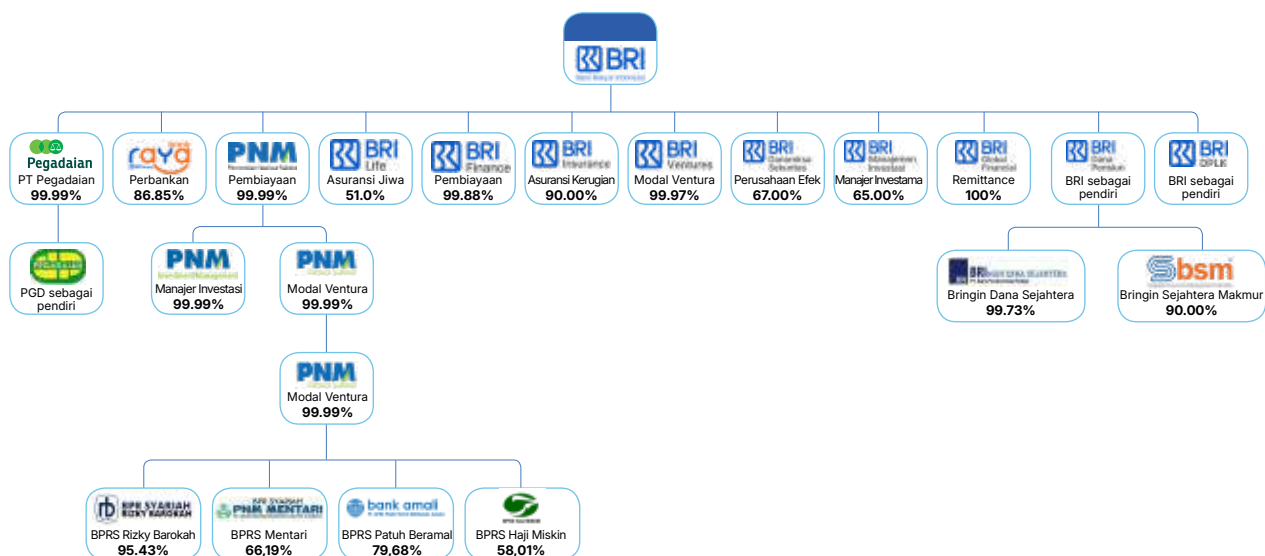

BRI Governance Maturity	Average Governance Maturity of Financial Services Institutions (LJK) within BRI's KK	Integrated Governance Maturity of BRI
4.30	4.03	4.06

Building Block	2023	2024
Structure & Process	4.24	4.43
Relationship with Parties Having Financial Claims	3.52	3.74
Financial Transparency, Information Disclosure & Effectiveness of Internal Controls	3.90	4.18

Building Block	2023	2024
Relationship with Parent Company and Group Synergy	3.75	3.78
Effectiveness of Risk Management and Compliance	3.70	3.94
Quality of Strategic Planning	4.02	4.09
Relationship with Stakeholders	3.75	4.01
Implementation of GCG (Good Corporate Governance) and Change Management	3.51	3.74
<b>Integrated Governance Maturity Value</b>	<b>3.86</b>	<b>4.06</b>

## Financial Conglomeration Structure and Ownership Structure of the BRI Financial Conglomeration

BRI Financial Conglomerates' structure was determined through a copy of the Decision of OJK's Members of the Board of Commissioners Number KEP-11/KS.1/2025 on September 16, 2025 regarding the Approval of PT Bank Rakyat Indonesia (Persero) as the Holding Company of the Operational Financial Conglomerate for BRI Financial Conglomerate, where BRI Financial Conglomerate consisted of BRI as the Holding Company of the Financial Conglomerate (PIKK) and 22 (twenty-two) Members of the Financial Conglomerate, as follows:

In detail, information related to the Ownership structure within the BRI Financial Conglomerate (KK) is as follows:

No.	Entity Name		Field of Business	Investment Date (Majority) BRI	% Shares	Address

## Composition of BRI Integrated Governance Committee as of December 31, 2025

The Integrated Governance Committee within the BRI Financial Conglomeration is a supporting body for the Main Entity's Board of Commissioners in supervising the implementation of Integrated Governance within the BRI Financial Conglomeration. The composition of the Integrated Governance Committee consists of:

1. Independent Commissioner, acting for the Chairman of one of the Committees of the Board of Commissioners of Financial Holding Company.
2. An Independent Commissioner representing and appointed from each Member of the BRI Financial Conglomeration, as a Member.
3. An Independent Party, as a Member.
4. A member of the Sharia Supervisory Board from each member of the BRI Financial Conglomeration, as a Member if they have sharia business activities.

In accordance with Decree Nokep: 11-KOM/BRI/11/2025 on November 3, 2025 regarding the Composition of Members of the Integrated Governance Committee of PT Bank Rakyat Indonesia (Persero) Tbk, the composition of the Integrated Governance Committee as of December 31, 2025 was submitted by referring to the Chapter of Corporate Governance, Sub-Chapter of Corporate Governance Structure and Mechanism.

## Duties and Responsibilities of BRI's Integrated Governance Organs

Based on OJK Regulation No.18/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerates and referring to the General Policy of Integrated Governance for BRI Financial Conglomerates, Integrated Governance organs in the Financial Holding Company and Financial Conglomerates Members have duties and responsibilities related to the implementation of Integrated Governance, namely as follows:

### Board of Commissioners of Financial Holding Company

In implementing Integrated Governance, BRI's Board of Commissioners has duties and responsibilities, including:

1. Supervising the implementation of Integrated Governance in BRI Financial Conglomerates in accordance with the General Policy of Integrated Governance and its derivative policies.
2. Supervise the implementation of the duties and responsibilities of the PIKK Board of Directors, and provide direction or advice to the PIKK Board of Directors regarding the implementation of Integrated Governance policies, which include aspects such as, among others:
  - a. Integrated Compliance;
  - b. Integrated Risk Management;
  - c. Integrated Internal Audit;
  - d. Strategic Planning and Performance Management;
  - e. Policy Formulation and Alignment; and
  - f. Relationships with Stakeholders.

Based on reporting by the Director and/or Head of the relevant Business Unit as well as the results of evaluations carried out by the Integrated Governance Committee every semester.

3. Evaluate the Integrated Governance Guidelines and provide direction and recommendations in order to improve the Integrated Governance Guidelines.
4. Oversee the implementation of Internal Audit for Financial Conglomeration Members so that it is in line with the PIKK Internal Audit policy.
5. Carry out supervision over the implementation of other Integrated Governance functions in accordance with the provisions of laws and regulations, the articles of association and/or decisions of the GMS/Capital Owners.
6. Conduct evaluations and provide recommendations to PIKK and Member of BRI Financial Conglomerates based on reports and evaluations submitted by the Director and/or Head of Business Unit related to BRI and the results of evaluations carried out by the Integrated Governance Committee every semester.
7. Supervise, evaluate and ensure that the Integrated Governance Committee carries out its duties effectively.
8. Provide approval for actions within the scope of authority of the Board of Commissioners in accordance with BRI's Articles of Association relating to the management of BRI Financial Conglomeration Members.

9. Providing approval for Financial Conglomerates Plan drafted by the Directors of PIKK
10. Carry out other duties and responsibilities related to the management of BRI Financial Conglomerate Members in accordance with the provisions of the Articles of Association, GMS Resolutions, Board of Commissioners Work Procedure Guidelines, and applicable laws and regulations.

#### **Directors of PIKK**

In implementing Integrated Governance, the Directors of PIKK have duties and responsibilities, including:

1. Prepare and refine the Integrated Governance Guidelines based on the direction and/or recommendation of the PIKK Board of Commissioners;
2. Direct, monitor and evaluate the implementation of the Integrated Governance Guidelines;
3. Follow up on directions or advice from the PIKK Board of Commissioners in the context of evaluating the implementation of Integrated Governance.
4. Monitor and evaluate the implementation of integrated governance including integrated compliance, integrated internal audit, integrated risk management, performance of Subsidiary Companies, as well as other integrated aspects.
5. Provide direction and recommendations for the implementation of Integrated Governance including performance evaluation.
6. Ensure alignment of strategic plans between the PIKK and BRI Financial Conglomerate Members.
7. Holding a GMS in the event that there is a corporate action or other matter related to the management of the Subsidiary Company that requires obtaining GMS decision.
8. Prepare BRI's Long Term Plan and Company Work and Budget Plan, including those relating to the management of Financial Conglomerate Members.
9. Ensure the implementation of synergy within the BRI Financial Conglomerate environment between BRI and Financial Conglomerate Members and/or between Financial Conglomerate Members.
10. Ensure that audit findings and recommendations from the integrated internal audit business unit, external auditors, OJK supervision results and/or other authorities are followed up by the PIKK and Members of the BRI Financial Conglomerate.
11. Carry out other duties and responsibilities related to the management of Financial Conglomerate Members in accordance with the provisions of the Articles of Association, GMS Resolutions, Board of Commissioners Work Procedure Guidelines, and applicable laws and regulations.

#### **Integrated Governance Committee**

In implementing Integrated Governance, the BRI Integrated Governance Committee has duties and responsibilities, including:

1. Evaluate the implementation of integrated governance through an assessment of the adequacy of internal control, implementation of compliance functions and implementation of integrated risk management, as well as the implementation of other relevant integrated aspects, including the fulfillment of sharia principles from Financial Conglomerate LJKs that have sharia businesses.
2. Provide recommendations to the Board of Commissioners of the PIKK for improvements to the Integrated Governance Guidelines if necessary;
3. Provide strategic input to the Board of Commissioners of the PIKK to be submitted to the Board of Directors of the PIKK regarding the implementation of Integrated Governance.
4. Submit the evaluation results of the Self-Assessment Report on the Implementation of Integrated Governance (Self-Assessment) every semester to the Directors of the PIKK.
5. Submit the evaluation results of the Annual Report on the Implementation of Integrated Governance to the PIKK Board of Commissioner.
6. Communicate with the Integrated Business Unit through the relevant Directors in charge of the function, to obtain the necessary information, clarification and reports.

#### **Director of BRI Financial Conglomerates Management**

1. Developing and establishing a consistent BRI Financial Conglomerates' strategy and risk appetite for each member of BRI Financial Conglomerates.
2. Improving and implementing a compliance monitoring framework for members of BRI Financial Conglomerates.
3. Assessing the strategy and risk appetite of members of BRI Financial Conglomerates to ensure alignment with the overall strategy and risk appetite of BRI Financial Conglomerates.
4. Conducting periodic reviews of BRI Financial Conglomerate's strategy and risk appetite at least annually to ensure their relevance to the development of BRI Financial Conglomerates and making adjustments in the event of material changes.
5. Supervising members of BRI Financial Conglomerates, while maintaining the responsibilities and governance of each individual member.
6. Ensuring compliance with regulations and that corrective actions taken by members of BRI Financial Conglomerates are performed in accordance with regulations.
7. Implementing prudent principles, including good corporate governance and risk management within BRI Financial Conglomerates.
8. Participating in supporting the implementation of sound and competitive business activities of BRI Financial Conglomerates Members, being free from conflicts of interest, and maintaining the business sustainability of BRI Financial Conglomerates Members.

#### **Co-Director of BRI Financial Conglomerates Management**

Conducting duties, responsibilities and authorities in accordance with the determination and delegation of the Director of BRI Financial Conglomerates Management.

#### **Director of BRI Financial Conglomerates Member Supervision**

1. Serving as a mentor and supervising the alignment of BRI's strategy with BRI Financial Conglomerates Member, including the implementation of strategic plans and KPI achievement for BRI Financial Conglomerates Member where the Board of Directors is appointed as Director of Supervision.
2. Serving as a mediator for aspirations and issues experienced by BRI Financial Conglomerates Member, where the Board of Directors is appointed as Director of Supervision, related to their relationship with BRI.
3. Monitoring the implementation of risk management within BRI Financial Conglomerates Member, in conjunction with the Integrated Risk Management Business Unit, including providing guidance on establishing RAS and monitoring its utilization.
4. Escalating issues or aspirations from BRI Financial Conglomerates Member, where the Board of Directors is appointed as Director of Supervision, related to their relationship with BRI, to Board of Directors meetings.
5. Presenting strategic policies decided/agreed upon by the Board of Directors of PIKK to the BRI Financial Conglomerates Member, where the Board of Directors is appointed as Director of Supervision.
6. Collaborating with the Integrated Business Unit, supervising the follow-up to the resolution of audit findings and/or commitments resulting from authority supervision within BRI Financial Conglomerates Member where the Board of Directors is appointed as Director of Supervision.

#### **Financial Conglomerates Governance Committee**

Taking responsibility for the alignment of the implementation of Integrated Governance (performance, governance, compliance, risk management and internal audit) and supervising BRI Financial Conglomerates, Coordination of the implementation of control, consolidation and responsibility for BRI Financial Conglomerates' activities, Implementation of the prudential principle in BRI Financial Conglomerates comprehensively, Management of the relationship of BRI Financial Conglomerates with the wider group, if PIKK is part of a wider group structure, Fulfillment of resources for each member of BRI Financial Conglomerates, with Sub Committees consisting of the Capital, Investment & Strategy Sub Committee, Integrated Human Capital Sub Committee, Integrated Compliance Sub Committee, Integrated Internal Audit Sub Committee, Integrated Risk Management Sub Committee and Integrated Information Technology Sub Committee.

#### **Financial Conglomerates Management Business Unit**

1. Taking responsibility for managing the Planning, Performance Management, Synergy, and Governance of BRI Financial Conglomerates Member and coordinating BRI Financial Conglomerates Management carried out by the Integrated Business Unit, which includes aspects of Integrated Compliance, Integrated Risk Management, Integrated Internal Audit, Integrated Human Capital, and Integrated Information Technology.
2. Organizing the Implementation of BRI Financial Conglomerates Governance Committee and the Capital, Investment & Strategy Sub-Committee, and coordinating the implementation of the Integrated Compliance Sub-Committee, Integrated Risk Management Sub-Committee, Integrated Internal Audit Sub-Committee, Integrated Human Capital Sub-Committee, and Integrated Information Technology Sub-Committee, together with the in-charge Integrated Business Unit.

#### **Integrated Compliance Unit**

In implementing Integrated Governance, the Integrated Compliance Unit has duties and responsibilities, including:

1. Monitor and evaluate the implementation of the compliance function at Member of a Financial Conglomerate.
2. Provide input to the Director of Legal and Compliance in implementing the compliance function within the BRI Financial Conglomerate.
3. Submit recommendations for improving the implementation of the compliance function at the member of the BRI Financial Conglomerate of Financial Service Institution based on the results of the evaluation report on the duties and responsibilities of the Compliance Unit in each member of the BRI Financial Conglomerate.
4. Carry out and coordinate the implementation of the Integrated Governance Self-Assessment every semester in the context of reporting to the OJK.
5. Submit the Annual Report on the Implementation of Integrated Governance to the regulator in a timely manner.
6. Periodically assess the level of maturity in implementing the compliance function at the BRI Financial Conglomerate of Financial Service Institution.
7. Conduct and coordinate the implementation of evaluations of the BRI Financial Conglomerate's Integrated Governance Policy.
8. Convey the latest relevant provisions/regulations to members of the BRI Financial Conglomerate for information and for follow-up.
9. Prepare and submit a report on the results of the evaluation of the implementation of the duties and responsibilities of the Integrated Compliance Function to the Director of Legal and Compliance, the Director of BRI, and the Director of BRI Financial Conglomerates Management and/or Co-Director of BRI Financial Conglomerates Management.

10. Communicate and coordinate with the Compliance Unit of members of the BRI Financial Conglomerate periodically, at least 2 (two) times a year in order to carry out their duties.
11. Coordinate with the Compliance Unit of members of the BRI Financial Conglomerate in the event that there is an escalation of problems related to compliance that requires the support of Financial Conglomerate Holding Company in resolving them.

#### **Integrated Risk Management Business Unit**

In implementing Integrated Governance, the Integrated Risk Management Business Unit has duties and responsibilities, including:

1. Providing recommendations to the PIKK Board of Directors and the Integrated Risk Management Sub-Committee on the development and refinement of Integrated Risk Management policies.
2. Monitoring the implementation of Integrated Risk Management policies, including developing procedures and tools for risk identification, measurement, monitoring, and control.
3. Supervising risks on BRI Financial Conglomerates Member.
4. Conducting integrated stress testing.
5. Reviewing periodically to ensure:
  - a. risk assessment methodology accuracy.
  - b. adequacy of management information system implementation.
  - c. policies and procedures accuracy, and the establishment of integrated risk limits.
6. Providing opinions on proposed investments and divestments of BRI Financial Conglomerates Member that are strategic and significantly impact integrated risk exposure. Opinions focus on the ability to manage risk exposure, including the completeness of the systems and procedures used and their impact on overall risk exposure.
7. Providing information to the Integrated Risk Management Sub-Committee on matters requiring follow-up related to the evaluation results of the implementation of Integrated Risk Management, including the magnitude and maximum risk exposure that require the attention of the PIKK Board of Directors or BRI Financial Conglomerates Member.
8. Preparing and submitting reports on the Integrated Risk Profile, Integrated Capital Adequacy and Consolidated Sound Level periodically to the PIKK Board of Directors within the Integrated Risk Management Sub-Committee and to the OJK.

#### **Integrated Internal Audit Business Unit**

In implementing Integrated Governance, the Integrated Audit Business Unit has duties and responsibilities, including:

1. Assist the duties of the Director of PIKK, the Board of Commissioners of PIKK, and the Integrated Governance Committee in supervising the implementation of the internal audit function within the BRI Financial Conglomerate.
2. Conducting analyses and assessments in finance, accounting, operations, and other activities through independent, objective, and professional audits at levels of the Company's business units, as well as conducting special audits, if necessary.
3. Testing and evaluating the implementation of internal control, risk management, and governance processes in accordance with Company policies.
4. Conducting audits and assessments of the efficiency and effectiveness of finance, accounting, operations, human resources, information technology, and other activities..
5. Providing recommendations for improvement and objective information on audited activities at management levels.
6. Drafting standards for implementing an integrated internal audit function that, minimally, cover the matters stipulated in the Internal Audit Professional Standards as a guideline for Internal Audit in performing its duties.
7. Developing a program to improve the quality of the internal audit function and assess the maturity level of the Internal Audit Unit (SKAI) of Financial Conglomerates Member.
8. Supervising the implementation of the internal audit function within BRI Financial Conglomerates, including, minimally as follows:
  - a. Audit Activity Reports and Audit Result Key Reports for BRI Financial Conglomerates Member;
  - b. Areas experiencing significant increases in risk and significant fraud incidents within BRI Financial Conglomerates Member;
  - c. The quality of the Internal Audit Unit (SKAI) of BRI Financial Conglomerates members, including but not limited to audit methods and procedures, human capital, and audit tools.
  - d. Assessment of the maturity level of the internal audit function of BRI Financial Conglomerates Member.
  - e. Implementation of Quality Assurance and Monitoring of follow-up improvements
9. Integrated Internal Audit Business Unit communicates with Internal Audit Business Unit members of the BRI Financial Conglomerate regularly, at least 2 (two) times a year regarding the results of audits of Internal Audit Business Unit members of the BRI Financial Conglomerate, issues or problems that have a significant impact on the conditions of members of the BRI Financial Conglomerate and developments carried out by Internal Audit Business Unit members of the Financial Conglomerate in order to provide added value to the Company.
10. Reporting significant findings to the President Director and Board of Commissioners of PIKK through the Audit Committee of PIKK, with copies sent to the PIKK Director in charge of compliance, the Director in charge of the Financial Conglomerate's management function, and

the President Directors of the Financial Conglomerates Member for prompt corrective action.

11. The Integrated Internal Audit Unit (PIKK) aligns the implementation of internal audits within the Financial Conglomerates Member in an integrated manner by determining audit implementation strategies and formulating internal audit principles, including audit methodology and quality control implementation steps.
12. The Integrated Internal Audit Unit (PIKK) submits the Integrated Internal Audit Implementation and Key Points of Results Report (Integrated Internal Audit Report) to the PIKK President Director, PIKK Board of Commissioners, and the PIKK Director in charge of compliance, with a copy submitted to the PIKK Audit Committee and the PIKK Integrated Governance Committee.

#### **Integrated Human Capital Business Unit**

To perform BRI Financial Conglomerates Management (KK), Integrated Human Capital Business Unit has duties and responsibilities in managing synergy of Human Capital (HC) aspects, comprising of:

1. Developing and reviewing BRI's Integrated HC strategies and policies, including:
  - a. Short-, medium-, and long-term BRI's Integrated HC management strategies;
  - b. BRI's Integrated HC governance and management policies.
2. Performing BRI Financial Conglomerates Integrated HC management function, including:
  - a. Internalizing and disseminating BRI's Integrated HC management policies;
  - b. Proposing talent for BRI's Financial Conglomerates Member Management;
  - c. Proposing remuneration for BRI's Financial Conglomerates Member Management;
  - d. Proposing individual performance assessments for Assigned Workers of BRI's Financial Conglomerates Member;
  - e. Managing BRI's Financial Conglomerates Member Worker capability improvement programs;
3. Monitoring and evaluating the implementation of BRI Financial Conglomerates Integrated HC's policies and strategies management periodically, when necessary.

#### **Integrated Information Technology Business Unit**

To perform the implementation of Integrated Governance, Integrated Information Technology Business Unit has duties and responsibilities as follows:

1. Developing, formulating, and establishing Integrated Information Technology Governance provisions that align with regulatory requirements, best practices, and business needs for BRI Financial Conglomerates Member.
2. Executing and coordinating the implementation of the established Integrated Information Technology

Governance within BRI Financial Conglomerates to ensure its effective and consistent implementation across all member entities.

3. Conducting ongoing monitoring and supervising Integrated Information Technology Governance implementation activities to ensure compliance with established policies, standards, and targets.
4. Conducting regular evaluations of the effectiveness of Integrated Information Technology Governance implementation, including identifying issues, risks, and opportunities for continuous improvement to enhance the quality of IT governance.
5. Developing and establishing Information Technology governance maturity levels and technology standards to be adopted by BRI Financial Conglomerates Member as a reference for IT development and management.
6. Implementing information technology maturity measurement and technology standards across BRI Financial Conglomerates Member systematically and integratedly.
7. Performing regular monitoring and reviewing gaps in IT maturity measurements and technology standards, and encouraging the development and implementation of corrective action plans for BRI Financial Conglomerates Member.
8. Developing, implementing, monitoring, and evaluating BRI Financial Conglomerates Information Technology Synergy to improve efficiency, effectiveness, and optimizing IT resource utilization across entities.
9. Managing and coordinating the activities of the Financial Conglomerate Integrated Information Technology Sub-Committee, including agenda planning, facilitating strategic discussions, and following up on resulting decisions and recommendations.
10. Providing IT consulting and mentoring services to BRI Financial Conglomerates Member regarding strategy, governance, architecture, security, and IT development in accordance with integrated policies.
11. Coordinating with relevant business units within the integrated scope and acting as a single point of contact (SPOC) for BRI Financial Conglomerates Integrated Information Technology activities.
12. Preparing and submitting periodic progress reports on the implementation of BRI Financial Conglomerates Integrated Information Technology Governance to management and relevant stakeholders (the Board of Directors of PIKK ).

#### **Board of Commissioners of Members of the BRI Financial Conglomerate**

The duties and authority of the Board of Commissioners of members of the BRI Financial Conglomerate in implementing Integrated Governance refer to the Articles of Association of members of the BRI Financial Conglomerate, Work Guidelines and Rules for members of the BRI Financial

Conglomeration, internal regulations for other members of the BRI Financial Conglomeration, as well as the provisions of applicable laws and regulations.

In implementing Governance integration, the Board of Commissioners, members of the BRI Financial Conglomeration, have duties and responsibilities, including:

1. Supervise the implementation of governance, policies, duties and responsibilities of the Board of Directors of members of the BRI Financial Conglomerate as well as follow up on audit results from internal and external parties.
2. Provide advice to the Board of Directors of members of the BRI Financial Conglomerate regarding development plans for members of the BRI Financial Conglomerate, Company Long Term Plan, Company Work and Budget Plan, Policies, Articles of Association and GMS Decisions of members of the BRI Financial Conglomerate.
3. Form a committee and/or appoint parties to carry out functions that support the duties and responsibilities of the Board of Commissioners of members of the BRI Financial Conglomerate which include at least:
  - a. Audit Monitoring;
  - b. Compliance Monitoring; and
  - c. Risk Management Monitoring
4. Hold meetings of the Board of Commissioners in accordance with the provisions of the Articles of Association of members of the BRI Financial Conglomeration and/or internal regulations of members of the BRI Financial Conglomeration which include frequency, presence of members of the Board of Commissioners, and procedures for decision making.
5. Form work guidelines for the Board of Commissioners for members of the BRI Financial Conglomerate.
6. Provide approval for actions within the scope of authority of the Board of Commissioners of members of the BRI Financial Conglomerate in accordance with the Articles of Association of members of the BRI Financial Conglomerate.
7. Carry out other tasks stipulated in the Articles of Association of members of the BRI Financial Conglomeration, the GMS Resolutions of members of the BRI Financial Conglomeration, and applicable laws and regulations.

#### **Board of Directors of Members of the BRI Financial Conglomerate**

The duties and authority of the Board of Directors of members of the BRI Financial Conglomeration in implementing Integrated Governance refer to the Articles of Association of the members of the BRI Financial Conglomeration, the Work Guidelines and Regulations for members of the BRI Financial Conglomeration, internal regulations for members of the BRI Financial Conglomeration, as well as the provisions of applicable laws and regulations. In implementing Integrated

Governance, the Board of Directors, members of the BRI Financial Conglomeration, have duties and responsibilities, including:

1. Carry out all actions related to the management of members of the BRI Financial Conglomeration in accordance with the aims and objectives of the members of the BRI Financial Conglomeration.
2. Manage members of the BRI Financial Conglomeration in terms of operations, business, human capital, risk management, finance, information technology, internal control systems, and other management aspects related to the businesses of members of the BRI Financial Conglomeration.
3. Organize a GMS for members of the BRI Financial Conglomerate in accordance with the procedures stipulated in the Articles of Association and statutory regulations.
4. Prepare Company Long Term Plan and Company Work and Budget Plan for members of the BRI Financial Conglomerate.
5. Implementing governance principles including compliance with sharia principles of the BRI Financial Conglomerate Subsidiary Company which is a sharia entity.
6. Follow up on audit findings by internal and external parties.
7. Ensure the availability of work regulations for members of the BRI Financial Conglomeration;
8. Align the strategies of BRI Financial Conglomerate members with the strategies of PT Bank Rakyat Indonesia (Persero) Tbk.
9. Implement synergy policies within the members of the BRI Financial Conglomeration.
10. Implement BRI policies relating to members of the BRI Financial Conglomerate.
11. Form committees under the Board of Directors of members of the BRI Financial Conglomeration if necessary.
12. Organize Board of Directors meetings in accordance with the provisions of the Articles of Association of members of the BRI Financial Conglomeration and/or internal regulations of members of the BRI Financial Conglomeration which include frequency, attendance of members of the Board of Directors, and procedures for decision making.
13. Carry out other duties and responsibilities stipulated in the Articles of Association of members of the BRI Financial Conglomerate, the GMS Resolutions of members of the BRI Financial Conglomerate, or applicable laws and regulations.

#### **Sharia Supervisory Board**

The Sharia Supervisory Board has at least the following duties and responsibilities:

1. Provide advice and suggestions to the Board of Directors and supervise Financial Service Institutions' activities so that they comply with sharia principles.
2. Provide advice and suggestions to the Board of Directors and supervise Financial Service Institutions' activities so that they comply with sharia principles.

## Intra Group Transaction Policy (Identifying, Managing and Mitigating Intra Group Transactions)

### Intragroup Transaction Policy and Management

Interconnectivity between entities, including the PIKK and members of the Financial Conglomerate, creates a mutually supportive business ecosystem and encourages the formation of various intragroup transactions. Intragroup Transactions are defined as financial or non financial transactions conducted between entities within a single Financial Conglomerate.

To support the implementation of Intragroup Transactions, BRI has established robust governance and possesses guidelines and provisions for transaction execution prepared in accordance with regulatory requirements. Furthermore, in conducting Intragroup Transactions, the PIKK and every member of the Financial Conglomerate are required to meet the criteria for healthy Intragroup Transactions by observing the Arm's Length Principle or *Prinsip Kewajaran dan Kelaziman Usaha (PKKU)*. In detail, BRI's internal regulations govern matters related to:

#### A. Intragroup Risk Management

Intra-group Transaction Risk is the risk resulting from the dependence of an entity, either directly or indirectly, on another entity in a Financial Conglomerate in order to fulfill written or unwritten agreement obligations that are followed by the transfer of funds and/or are not followed by the transfer of funds.

Intragroup Risk Management is implemented through:

1. Intra-group Risk Identification
  - a. PIKK periodically identifies all intra-group risks of the Financial Conglomerate using a method or system to identify risks in the Financial Conglomerate. Intra-group transaction risks may arise from, among others:
    - Cross-ownership between entities in BRI's KK.
    - Centralization of short-term liquidity management.
    - Guarantees, loans, and commitments provided or obtained by a Financial Services Institution (LJK) from other Financial Services Institution within the Financial Conglomerate.

- Exposure to controlling shareholders, including loan and off-balance sheet exposures such as guarantees and commitments.
  - Purchase or sale of BRI assets to a Financial Services Institution (LJK) from another LJK within the Financial Conglomerate.
  - Risk transfer through reinsurance.
  - Transactions to transfer third-party risk exposures between a Financial Services Institution (LJK) and another LJK within the Financial Conglomerate.
- b. The intra-group risk identification process is carried out by conducting an analysis of each type of intra-group transaction in the BRI Financial Conglomerate business, which among others may be based on past loss experiences that have occurred.
2. Intra-group Risk Measurement
    - a. In order to carry out Intra-group Risk measurement, PIKK carries out:
      - periodic evaluation of the suitability of assumptions, data sources, and procedures used to measure risk, in accordance with business developments and external conditions that affect the financial condition of the Financial Conglomerate; and
      - improvements to the risk measurement method if there are changes in factors that materially and significantly affect the risk, including the addition of a new business line that could affect the financial condition of the Financial Conglomerate.
    - b. Risk measurement methods and systems can be carried out quantitatively and/or qualitatively which are used to measure BRI's KK risk exposure as a reference for carrying out control.
    - c. The selection of measurement methods and systems is adjusted to the characteristics and complexity of the Financial Conglomerate's business activities.
    - d. Measurement methods and systems must at least be able to measure:
      - sensitivity of the Financial Conglomerate to changes in influencing factors, both in normal and abnormal conditions;
      - tendencies of changes in the factors in question based on fluctuations that occurred in the past and their correlation;
      - individual risk levels;
      - overall risk exposure and per type of risk, taking into account the interrelationships between types of risk; and
      - all risks inherent in all BRI KK transactions that can be integrated into the Management Information System.

- e. The risk measurement process must clearly contain the validation process, validation frequency, data and information documentation requirements, and evaluation requirements for the assumptions used, before a methodology is applied by KK BRI.
3. Intra-group Risk Monitoring
    - a. PIKK monitors the magnitude of risk exposure, risk tolerance, limit compliance, and stress test results as well as consistency of implementation with established policies, procedures, and limits.
    - b. PIKK prepares an effective back-up system and procedures to prevent disruptions in the risk monitoring process, and periodically checks and re-evaluates the backup system.
    - c. In order to carry out risk monitoring, PIKK carries out:
      - evaluation of risk exposure through monitoring and reporting of risk exposures that are material or have an impact on the capital conditions of BRI's KK; and
      - improvement of the reporting process and scope, including if there are changes in business activities, products, transactions, risk factors, information technology and Integrated Risk Management Information Systems that are material.
  4. Intra-group Risk Control
    - a. PIKK determines the Risk Appetite and Intragroup Risk limits in accordance with the risk philosophy and applicable provisions. The determination of risk limits is adjusted to the risk exposure and the level of risk to be taken and risk tolerance.
    - b. Other risk controls can be carried out, among others, by hedging, formulating intragroup transaction calculation methods, and adding capital to absorb potential losses.

In the second semester of 2024 and the first semester of 2025, BRI's intra-group risk is at a low to moderate risk rating.

#### **B. Identification of Intragroup Transaction Parties and Classification of Intragroup Transactions**

Parties included in Intragroup Transactions are parties or entities within the scope of the BRI Financial Conglomerate as determined by the Financial Services Authority (OJK). In its management, intragroup transactions are classified into several categories, including lending, fund placement, service, and others.

#### **C. Pricing/Tariff Setting and Implementation of the Arm's Length Principle (PKKU) for Intragroup Transactions**

In determining tariffs or prices for Intragroup Transactions, all entities within the Financial Conglomerate are required to observe the fulfillment of the Arm's Length Principle while continuing to consider external and internal regulations to ensure that pricing remains within a fair range.

## **Implementation of Integrated Governance In 2025**

### **1. Strengthening the Implementation of Integrated Governance of Financial Conglomerates**

In 2025, enhancements and strengthening of the implementation of Integrated Governance within the BRI Financial Conglomerate were carried out, including:

- a. Updating of the BRI Financial Conglomerate Structure in alignment with POJK No. 30 of 2024 concerning Financial Conglomerates and Financial Conglomerate Parent Companies. The Financial Conglomerate Structure has received approval from the OJK through OJK Decree No. KEP-11/KS.1/2025 dated September 16, 2025, concerning the Approval of BRI as the Financial Conglomerate Parent Company (PIKK) of the BRI Financial Conglomerate.
- b. The enhancement of Financial Conglomerate management includes the appointment of the Director and Co-Director of Financial Conglomerate Management, the BRI Financial Conglomerate Management Unit, and the BRI Integrated Work Units.
- c. Measuring the maturity level of Integrated Governance within the BRI Financial Conglomerate.
- d. The Integrated Corporate Governance Committee shall oversee the implementation of Corporate Governance within the members of the financial conglomerate in a tiered and proportional manner at every level, including the determination of oversight intensity, reporting mechanisms, and risk escalation, while taking into account the complexity and materiality of each entity.

### **2. Implementation of the Duties and Responsibilities of the Integrated Governance Committee**

In carrying out its duties throughout 2025, the Integrated Governance Committee held 23 (twenty-three) meetings to evaluate and ensure that governance implementation aligns with GCG principles within the BRI Financial Conglomerate.

### 3. Implementation of Duties and Responsibilities of the Financial Conglomerate Management Unit

Throughout 2025, the details of the implementation of duties and responsibilities of the Financial Conglomerate Management Unit (UKPKK) are as follows:

- a. Formulation of the BRI Financial Conglomerate Corporate Plan in collaboration with other Integrated Work Units and Relevant Work Units.
- b. Coordinator for the fulfillment of the implementation of Financial Services Authority Regulation Number 30 of 2024 concerning Financial Conglomerates and Financial Conglomerate Parent Companies.

### 4. Implementation of Duties and Responsibilities of the Integrated Compliance Unit

During 2025, details of the implementation of the tasks and responsibilities of the Integrated Compliance Unit were as follows:

- a. Implementation of Compliance Group Visit activities conducted through on-site visits to the Compliance Work Units of the BRI Financial Conglomerate Members to enhance the understanding of business processes within the BRI Financial Conglomerate members.
- b. Submission of the Annual Report on Integrated Governance Implementation of the BRI Financial Conglomerate to the Financial Services Authority.
- c. Monitoring the fulfillment of the Integrated Governance structure in accordance with regulatory requirements, including the Board of Commissioners, Board of Directors, Committees, Integrated Business Units, and Policies/Procedures.
- d. Self-Assessment of Integrated Governance within the BRI Financial Conglomerate, conducted semi-annually, with the report submitted to the Financial Services Authority.
- e. Self-Assessment of GCG, conducted both individually and on a consolidated basis, on a semi-annual basis.
- f. Evaluation of Compliance Function Implementation in FSIs within the BRI Financial Conglomerate, conducted quarterly, covering the following aspects:
  - Implementation of Good Corporate Governance (GCG).
  - Monitoring of prudential principles.
  - Commitment management.
  - Compliance risk management.
  - Implementation of the Anti-Money Laundering (AML), Countering the Financing of Terrorism (CFT), & Prevention of the Financing of Proliferation of Weapons of Mass Destruction (PPSPM) programs.
  - Impact analysis of external regulations.
  - Reporting of Transactions/Decisions involving conflicts of interest.
  - Other relevant aspects

- g. Monitoring the implementation of regulations across each Member of the BRI Financial Conglomerate.
- h. Measurement of the Integrated Compliance Maturity Level within the BRI Financial Conglomerate.
- i. Review and update of the assessment parameters for Integrated Governance and Compliance Maturity.
- j. Evaluation and review of the GCG self-assessment mechanism across each Member of the Financial Conglomerate.
- k. Updating the technical provisions for the implementation of integrated governance and integrated compliance.

### 5. Implementation of Duties and Responsibilities of the Integrated Internal Audit Business Unit

Integrated Internal Audit encourages the implementation of a reliable internal audit function within the Financial Conglomerate, supported by an independent organizational structure and adequate auditor competence. Throughout 2025, Integrated Internal Audit carried out various work programs, including:

- a. Implementation of the Integrated Internal Audit Forum (IIAF) to enhance synergy and collaboration across the BRI Financial Conglomerate Internal Audit Units.
- b. Execution of the joint thematic audit on "Intragroup Transactions" conducted by the Integrated Internal Audit and the Internal Audit Units of the Financial Conglomerate Members.
- c. Performance of individual audits by the Integrated Internal Audit in PT BRI Danareksa Sekuritas, PT Permodalan Nasional Madani, and PT BRI Ventures.
- d. Implementation of the *Quality Assurance & Improvement Program* (QAIP) by the Integrated Internal Audit (PIKK) for 9 (nine) Internal Audit Units of the Financial Conglomerate Members (Bank Raya, BRI Life, BRI Danareksa Sekuritas, BRI Finance, BRI Insurance, PNM, Pegadaian, BRI Venture and BRI Manajemen Investasi) to ensure that internal audit activities are conducted in accordance with both internal and external standards.
- e. Monitoring the implementation of the internal audit function and the performance of Members of the BRI Financial Conglomerate on a regular basis which is carried out every quarter with the scope of Monitoring including
  - i. Monitoring the performance achievements of Financial Conglomerate Member Institutions and Members of the BRI Financial Conglomerate.
  - ii. Monitoring the Audit Result Report of SKAI Members of the Financial Conglomerate.
  - iii. Monitoring the realization/implementation of the Annual Audit Planning of SKAI for Financial Conglomerate Members.
  - iv. Monitoring the follow-up of corrective actions

- for significant findings and external/regulatory audit findings in BRI Financial Conglomerate Members.
- v. Monitoring the follow-up of improvements from the results of internal audit maturity assessments and the Quality Assurance & Improvement Program implemented by Integrated SKAI (PIKK).
  - vi. Monitoring the fulfillment and development of human resources of SKAI for Financial Conglomerate Members.
  - f. Maturity level assessment of the Internal Audit Units of the Financial Conglomerate Members for 2025.
  - g. Conducting a workshop for the formulation of the BRI Financial Conglomerate Integrated Internal Audit Charter.
  - h. Updating the Integrated Internal Audit Charter in alignment with best practices and the latest regulations.
  - i. Formulation of the Integrated Internal Audit Report on a semi-annual basis.
  - j. Assignment of 10 (ten) BRI Internal Audit employees to the Internal Audit Units of the Financial Conglomerate Members to accelerate the transfer of knowledge from the Integrated Internal Audit (PIKK) to the Members' Internal Audit Units, with the following details:
    - i. Bank Raya Internal Audit: Head of Internal Audit (1 employee), Group Head (1 employee)
    - ii. BRI Life Internal Audit: Department Head (2 employees)
    - iii. BRI Finance Internal Audit: Head of Internal Audit (1 employee), Group Head (1 employee)
    - iv. BRI Insurance Internal Audit: Group Head (1 employee)
    - v. BRI Venture Internal Audit: Head of Internal Audit (1 employee)
    - vi. PNM Internal Audit (SPI) : Division Head (1 employee)
    - vii. DPPK BRI Internal Audit : Head of Internal Audit (1 employee)
  - k. Dissemination of Guidelines and Socialization for the preparation of the Annual Audit Plan to 20 Internal Audit Units of the Financial Conglomerate Members, taking into account corporate strategy, stakeholder concerns, risk assessment, and regulatory requirements.
  - l. Offsite monitoring of the BRI Financial Conglomerate Members is conducted through data analysis, performance highlights, and other relevant documents/information to assess performance and the implementation of strategic initiatives.
  - m. Performance of the Integrated Governance Self-Assessment on a semi-annual basis.
  - n. Implementation of benchmarking for the Internal Audit Units of the Financial Conglomerate Members (Bank Raya, Pegadaian) against the Integrated Internal Audit (PIKK).
  - o. Efforts to improve the quality and competence of Internal Audit Business Unit members of the Financial Conglomerate, the following programs and certifications have been implemented, including:
    - i. Lateral Joiner Education for Internal Units of Financial Conglomerate Members
    - ii. Certified Forensic Auditor (CFrA)
    - iii. Certified Qualified Internal Auditor (QIA)
    - iv. Certified Anti-Fraud Manager (CAFM)
    - v. Certified Ethical Hacker (CEH)
    - vi. Certified Hacking Forensic Investigator (CHFII)
    - vii. BSMR Certification
    - viii. Certified in Risk Governance Professional (CRGP)
    - ix. Associate Life Insurance Practitioner Certification
    - x. Certified Information Systems Auditor (CISA)
    - xi. Certified Fraud Examiner (CFE)
    - xii. Qualified Internal Auditor (QIA)
    - xiii. Broker-Dealer Representative Certification, Investment Manager Representative Certification, Underwriter Representative Certification
    - xiv. ISO 37001:2025, ISO 27001:2022, ISO 37301:2021
- 6. Implementation of the Duties and Responsibilities of the Integrated Risk Management Unit**
- Throughout 2025, the detailed implementation of the duties and responsibilities of the Integrated Risk Management Unit is as follows:
- a. Implementation of the Integrated Risk Management Committee Forum (RMCT) held twice in 2025, on February 10, 2024, and August 25, 2024
  - b. Establishment of an Integrated Risk Appetite Statement (RAS) and KK Members that have been adjusted to each KK Member's Risk Management Model.
  - c. Conducting a self-assessment of the Integrated Risk Maturity Index (RMI) and that of the Subsidiaries, which is then submitted for decision at the RMCT Forum.
  - d. Submission of the Integrated Risk Profile Report (semi-annual) and Consolidated Report (quarterly) to the Financial Services Authority.
  - e. Submission of the Consolidated Soundness Level Report (semi-annual) to the Financial Services Authority.
  - f. Periodic monitoring of the Maximum Credit Limit and Fund Provisioning for the Financial Conglomerate.
  - g. Periodic monitoring of the LCR and NSFR positions as well as the IRRBB for the Consolidated entity.
  - h. Conducting analysis and preparing reports on Integrated Capital Adequacy (semi-annual), which are then presented at the RMCT Forum and reported to the Financial Services Authority.

- i. Conducting integrated stress test simulations (semiannual), which are then presented at the RMCT Forum.
- j. Coordinating with SKMRT regarding integrated risk management in the following matters:
  - i. Modeling credit scoring for KK Member
  - ii. Modelling CKPN
- k. Implementation of BRI Group In-House Training related to the implementation of risk management (Market ATMR, VaR, and IRRBB Calculation, LPG Policy, Stress Test), which is directly coordinated with BRI Corporate University.

#### 7. Implementation of Duties and Responsibilities of the Integrated Human Capital Work Unit

Throughout 2025, the Integrated Human Capital Work Unit has carried out its duties and responsibilities through the implementation of the following activities:

- a. Formulation of the BRI Financial Conglomerate Human Capital management strategies and policies, including:
    - i. Formulation of the scope, organizational structure, duties, authorities, and responsibilities, as well as the working procedures of the Integrated HC Sub-Committee as regulated in the Decree of the BRI Financial Conglomerate Governance Committee;
    - ii. Preparation of the guidelines for the implementation of the BRI Financial Conglomerate Integrated HC Policy, which is part of the BRI Financial Conglomerate Implementing Guidelines;
    - iii. Formulation of the remuneration policy proposal for the Management of BRI Financial Conglomerate Members.
  - b. Implementation of the BRI Financial Conglomerate Integrated HC Management functions, including:
    - i. Internalization and socialization of the BRI Financial Conglomerate Integrated HC management policies
      - Conducting socialization for BRI Financial Conglomerate Members to provide explanations covering the BRI Financial Conglomerate organizational structure, the Financial Conglomerate management framework, the BRI Financial Conglomerate Integrated Human Capital policies within the BRI Financial Conglomerate Implementing Guidelines, and the management of Human Capital of the Members, including monitoring, evaluation, and reporting;
      - Organizing discussion forums with Level 1 and Level 2 Financial Conglomerate members for the alignment and standardization of Manpower Planning formulation in each entity;
    - Implementation of the HC Council People Analytics attended by Level 1 BRI Financial Conglomerate Members.
  - ii. Submission of Talent proposals for the Management of Level 1 and Level 2 BRI Financial Conglomerate Members for the decision of the Talent Committee;
  - iii. Submission of remuneration policy proposals for the Management of Level 1 and Level 2 BRI Financial Conglomerate members for the decision of the Capital Investment Committee;
  - iv. Submission of individual performance assessment proposals for Assigned Employees of the BRI Financial Conglomerate Members for the decision of the Capital Investment Committee;
  - v. Management of capability enhancement programs for Employees of the BRI Financial Conglomerate Members, including:
    - The Talent Secondment Program is attended by Level 1 BRI Financial Conglomerate Members as an effort to create alignment in increasing the capability of Level 1 Member Employees and to provide opportunities for Member Employees to enhance skills, knowledge, and experience beneficial for their development;
    - Development programs attended by Level 1 BRI Financial Conglomerate Members through several programs, including the BRILiaN Future Leader Program, special request in-house training, leadership, and other programs.
- c. Monitoring and evaluation of the BRI Financial Conglomerate Integrated HC management:
  - i. Periodically monitoring routine reports required by regulations within the context of the financial conglomerate.
  - ii. Evaluation of the 2024 Human Capital Maturity Assessment results of Level 1 BRI Financial Conglomerate Members as an effort to improve the quality of Human Capital management policies and strategies at BRI as the Financial Conglomerate Parent Company and the respective members.
  - iii. Implementation of the 2025 Human Capital Maturity Assessment at BRI, Pegadaian, and Permodalan Nasional Madani to ensure progress in improving the quality of Human Capital management at BRI as the PIKK and the two members.

## 8. Implementation of Duties and Responsibilities of the Integrated Information Technology Work Unit

Throughout 2025, the Integrated Information Technology Work Unit carried out several activities regarding its duties and responsibilities, as follows:

- a. Formulating the Integrated IT Governance in alignment with the business direction, regulations and oversight requirements of the BRI Financial Conglomerate, to ensure IT alignment, effectiveness, and control across all member entities.
- b. Conducting socialization activities to enhance the understanding, awareness, and commitment of all BRI Financial Conglomerate Members toward the established Integrated IT Governance principles, policies, and mechanisms.
- c. Developing an IT maturity framework and technology standards to serve as a baseline for measuring, evaluating, and determining the IT maturity assessment of BRI Financial Conglomerate Members.
- d. Measuring IT maturity levels and providing assistance in partial gap assessment analysis for Financial Conglomerate Members as a basis for developing continuous improvement plans.
- e. Performing cyber security maturity assessments and providing assistance in gap assessment identification to strengthen the cyber security posture of Financial Conglomerate Members in accordance with applicable standards and frameworks.
- f. Conducting compliance assessments on technology implementation against established technology standards, partially across Financial Conglomerate Members, to ensure the effective and efficient utilization of technology.
- g. Providing assistance in the implementation of ongoing IT synergy initiatives and projects within the BRI Financial Conglomerate environment to ensure alignment with established strategies, governance, and standards.
- h. Providing assistance and consultation regarding the Information Technology needs of BRI Financial Conglomerate Members, such as IT governance, architecture, business processes, and the Software Development Life Cycle (SDLC)

## Bad Corporate Governance Practice

As a financial institution committed to Good Corporate Governance, PT Bank Rakyat Indonesia (Persero) Tbk recognizes the importance of identifying and preventing risks that may lead to Bad Corporate Governance practices. Therefore, throughout 2025, BRI remained committed to refraining from actions and policies associated with Bad Corporate Governance, as shown in the following table:

No	Description	Implementation
1.	Reporting on company activities that harm the environment.	Nil
2.	Failure to disclose important legal matters faced by the company, its subsidiaries, members of the Board of Directors, and/or members of the Board of Commissioners in office, in the Annual Report	Nil
3.	Non-compliance with tax obligations.	Nil
4.	Discrepancies between the presentation of the annual report and financial statements with applicable regulations and Indonesian Financial Accounting Standards (SAK)	Nil
5.	Failure to disclose labor and employee-related cases.	Nil
6.	No disclosure of the company's operational segments.	Nil
7.	Discrepancy between the hardcopy and softcopy versions of the Annual Report.	Nil

Annual Report  
2025

# Corporate Social Responsibility

## SOCIAL PILLAR

Under the social pillar, BRI fulfills the Basic Human Rights for Quality Fairly and Equally.  
The Programs implemented under this social pillar are as follows:

a. **BRI Peduli "Ini Sekolahku" Program**

BRI also attempted to create a safe, comfortable, and conducive educational environment while expanding access to inclusive education. In 2025, to support these efforts, BRI continued its BRI Cares "*Ini Sekolahku*" program at 12 (twelve) school locations in Pekanbaru, Bandung, Yogyakarta, Jakarta, Banjarmasin, and Denpasar. This program not only focused on improving the quality of educational facilities and infrastructure, especially for schools in remote areas with limited infrastructure, but also prioritized the construction and renovation of school buildings and learning support facilities. In addition, BRI provided educational scholarships for excel and left-behind students. This initiative was expected to increase the effectiveness of the teaching and learning process, improve the quality of education, and develop superior, competitive human resources.

b. **"Preventing Stunting is Important" in Commemoration of National Nutrition Day 2025**

The BRI Cares program, "*Cegah Stunting itu Penting*," was implemented as a targeted social intervention to support improvements in children's health and strengthen public health services. Through a collaborative approach, the program's implementation was relevant to community conditions and supported the sustainability of stunting prevention efforts at the community level. Implementation of this program contributed to improving the quality of basic health services, expanding children's access to adequate nutrition, and reducing the economic pressure on families to meet their nutritional needs. Coinciding with the 2025 National Nutrition Day, BRI implemented the "*Cegah Stunting itu Penting*" program in Banjarmasin, Denpasar, Makassar, Yogyakarta, Manado, Padang, and Malang. Furthermore, the collaborative practices established through this program strengthened the integrated stunting management ecosystem at the local level.

**c. BRI Cares' 2025 Student Scholarship Program**

Education plays a crucial role in a nation's progress because it enables individuals to develop the knowledge and skills necessary to contribute positively to society. Quality education contributes to the development of superior human resources, which help drive economic growth and maintain social stability.

In line with this purpose, BRI, through its BRI Cares Program, distributed scholarships to approximately 200 high-achieving students and/or students from underprivileged families in Pekanbaru, Bandung, Yogyakarta, Jakarta, Banjarmasin, and Denpasar. Support for improving the quality of educational infrastructure, coupled with access to scholarships, was expected to create a more inclusive, high-quality education system that would provide better learning opportunities for the younger generation. This program represented BRI's contribution to realizing Indonesia's Golden Generation 2045.

## ECONOMIC PILLAR

BRI implemented several programs to create Job, Business, and Industry Opportunities Inclusively, including:

### a. Export Training

As a state-owned enterprise (SOE) focused on the Micro, Small, and Medium Enterprises (MSMEs) segment, BRI continuously encouraged businesses, including micro and ultra-micro enterprises, to grow and develop sustainably. The effort was the Export Training program, designed to increase MSMEs' capacity and readiness to enter the global market. This program aimed to encourage business growth by increasing product competitiveness, expanding international market access, and strengthening business actors' understanding of the export process. Through this program, MSMEs were expected to increase product added value, expand business opportunities, and increase revenue while supporting the promotion of Indonesian products and culture in the global market. This program also emphasized BRI's role as a partner in MSME growth, strengthening the contribution of the small business sector to the national economy.

### b. Infrastructure Assistance for Gentan Market, Yogyakarta

Traditional markets are an important pillar of the people's economy, yet they often face competition from modern markets. Gentan Market in Ngaglik District, Sleman, is one of the daily markets that is a mainstay for many small and medium enterprises (SMEs) and serves as a center of economic activity for the surrounding community. Recognizing the vital role of traditional markets in the local economic ecosystem, BRI collaborated with the Industry and Trade Service of Sleman Regency to revitalize facilities at Gentan Market, improving the quality of market infrastructure. This revitalization aimed to increase market competitiveness by improving physical facilities, creating a more comfortable market environment for traders and visitors, and enhancing traders' promotion and visibility to further develop trading activities. This effort also strengthened Gentan Market's role as a local community economic center, adapting to the evolving needs of the community.

**c. Business Equipment Assistance for Coffee Farmers Group in Ijen**

The Ijen Agro-tourism area in Banyuwangi is one of the National Priority Rural Areas (KPPN) with superior coffee potential that can be developed into a high-value economic product and a community-based tourist attraction. To support this potential, BRI collaborated with the Ijen Tourism Cluster (ITC) to strengthen the capacity of coffee farmers and entrepreneurs, from improving production quality to supporting processing facilities, so that entrepreneurs could not only sell raw coffee beans but also produce processed coffee products with added value. This program also strengthened the branding of "Kopi Banyuwangi" while increasing the income and welfare of local communities.

## ENVIRONMENTAL PILLAR

Under the environmental pillar, BRI implemented sustainable ecosystem management, conservation, and restoration through the following programs:

a. **Jaga Sungai, Jaga Kehidupan in the 2025 World River Day**

The "Jaga Sungai, Jaga Kehidupan" program demonstrated BRI's commitment to strengthening the protection and sustainable management of river ecosystems through collaboration with Sungai Watch. This initiative focused not only on river cleanup but also on increasing public ecological awareness of the importance of maintaining water quality, balancing aquatic ecosystems, and reducing CO<sub>2</sub> emissions. Improving river environmental quality reduced pollution impacts, improved environmental quality, and supported ecosystem sustainability for surrounding communities. Benefits perceived by the community included improved public health, reduced disaster risks, and supporting the creation of green economic opportunities and a more sustainable quality of life. Through a participatory approach, this program encouraged environmentally friendly behavior and strengthened community-based river governance.

b. **BRI Peduli Yok Kita GAS (Waste Management Movement) Waste Management Journey**

Waste accumulation remained an environmental challenge in various regions due to low public awareness and suboptimal waste management. To address this situation, this program supported the establishment and strengthening of 3R TPS (TPS 3R) and Waste Banks in selected locations, driven by local heroes, to reduce environmental pollution and health risks while encouraging active community participation. This program was implemented in several markets and focused on increasing capacity through education on waste sorting, waste management literacy, and understanding the economic value of waste, supported by strengthening infrastructure and facilities. Assistance provided included waste processing machines, Waste Bank operational vehicles, construction of maggot or Black Soldier Fly (BSF) facilities, trash bins, work safety equipment, uniforms, and other supporting equipment. Through this initiative, Waste Banks were expected to play an optimal role in creating a cleaner environment, increasing the economic value of waste, and supporting sustainable community-based waste management.

**c. BRI Cares' Grow & Green Coral Reef Transplantation Program**

Through the Grow & Green program, BRI continued its environmental conservation initiative through coral reef transplantation activities on Maratua Island (East Kalimantan), Kapoposang Island (Sulawesi), and Gili Matra (West Nusa Tenggara). This program aimed to restore underwater ecosystems to increase biodiversity while supporting the sustainability of fishing activities and marine tourism, which were sources of livelihood for coastal communities.

Through collaboration with local communities and environmental partners, Grow & Green integrates marine ecosystem conservation with environmentally based community empowerment. This program affirmed BRI's commitment to supporting sustainable development by strengthening coastal ecosystem resilience and sustainably improving the quality of life for coastal communities.

## Laporan Auditor Independen

Laporan No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026

Pemegang Saham, Dewan Komisaris, dan  
Direksi  
PT Bank Rakyat Indonesia (Persero) Tbk.

## Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Bank Rakyat Indonesia (Persero) Tbk. ("Bank") dan entitas anaknya (secara kolektif disebut sebagai "Grup") terlampir, yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2025, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian, dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2025, serta kinerja keuangan dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

## Basis opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia ("IAPI"). Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini kami.

## Independent Auditor's Report

Report No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026

*The Shareholders and the Boards of  
Commissioners and Directors  
PT Bank Rakyat Indonesia (Persero) Tbk.*

## Opinion

*We have audited the accompanying consolidated financial statements of PT Bank Rakyat Indonesia (Persero) Tbk. (the "Bank") and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated statement of financial position as of December 31, 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.*

*In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2025, and its consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.*

## Basis for opinion

*We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants ("IICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with such requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.*

Hal audit utama

*Key audit matters*

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal audit utama tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, dan kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut. Untuk hal audit utama di bawah ini, penjelasan kami tentang bagaimana audit kami merespons hal tersebut disampaikan dalam konteks tersebut.

*Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Such key audit matters were addressed in the context of our audit of the consolidated financial statements taken as a whole, and in forming our audit opinion thereon, and we do not provide a separate audit opinion on such key audit matters. For the key audit matter below, our description of how our audit addressed such key audit matter is provided in such context*

Kami telah memenuhi tanggung jawab yang diuraikan dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian pada laporan kami, termasuk sehubungan dengan hal audit utama yang dikomunikasikan di bawah ini. Oleh karena itu, audit kami mencakup pelaksanaan prosedur yang didesain untuk merespons penilaian kami atas risiko kesalahan penyajian material dalam laporan keuangan konsolidasian terlampir. Hasil prosedur audit kami, termasuk prosedur yang dilakukan untuk merespons hal audit utama di bawah ini, menyediakan basis bagi opini kami atas laporan keuangan konsolidasian terlampir.

*We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements paragraph of our report, including in relation to the key audit matter communicated below. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the accompanying consolidated financial statements. The results of our audit procedures, including the procedures performed to address the key audit matter below, provide the basis for our opinion on the accompanying consolidated financial statements.*

Cadangan kerugian penurunan nilai atas kredit

*Allowance for impairment losses of loan*

Penjelasan atas hal audit utama:

*Description of the key audit matter:*

Seperti yang dijelaskan dalam Catatan 11 atas laporan keuangan konsolidasian terlampir, pada tanggal 31 Desember 2025, saldo cadangan kerugian penurunan nilai atas kredit yang diberikan adalah sebesar Rp79.328.619 juta. Lihat informasi kebijakan akuntansi material untuk cadangan kerugian penurunan nilai atas aset keuangan yang diungkapkan dalam Catatan 2e, penggunaan pertimbangan, estimasi dan asumsi akuntansi yang signifikan dalam Catatan 2ap, dan pengungkapan cadangan kerugian penurunan nilai atas kredit yang diberikan dalam Catatan 11 atas laporan keuangan konsolidasian terlampir.

*As described in Note 11 to the accompanying consolidated financial statements, as of December 31, 2025, the balance of allowance for impairment losses of loans amounted to Rp79,328,619 million. Refer to material accounting policy information for allowance for impairment losses on financial assets disclosed in Note 2e, use of significant accounting judgments, estimates and assumptions in Note 2ap, and the disclosures of allowances for impairment losses of loans in Note 11 to the accompanying consolidated financial statements.*

Laporan Auditor Independen (lanjutan)

*Independent Auditor's Report (continued)*

Laporan No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026 (lanjutan)

*Report No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026 (continued)*

Hal audit utama (lanjutan)

*Key audit matters (continued)*

Penjelasan atas hal audit utama: (lanjutan)

*Description of the key audit matter: (continued)*

Kami berfokus pada area ini karena saldo kredit yang diberikan dan cadangan kerugian penurunan nilai atas kredit yang diberikan adalah signifikan terhadap laporan keuangan konsolidasian terlampir. Selain itu, penentuan cadangan kerugian penurunan nilai memerlukan pertimbangan dan memiliki ketidakpastian estimasi termasuk dalam penentuan model untuk menghitung cadangan kerugian penurunan nilai, identifikasi eksposur kredit yang mengalami penurunan kualitas kredit yang signifikan, dan penentuan asumsi yang digunakan dalam model perhitungan cadangan kerugian penurunan nilai (untuk eksposur yang dinilai secara individu atau kolektif), termasuk faktor-faktor ekonomi makro berorientasi masa depan.

*We focused on this area because the balances of loans and allowance for impairment losses of loans are significant to the accompanying consolidated financial statements. In addition, the determination of allowance for impairment losses requires judgment and is subject to estimation uncertainty which includes determining the model to calculate allowance for impairment losses, identification of credit exposures with significant deterioration in credit quality, and determining assumptions used in the allowance for impairment losses calculation models (for exposures assessed on an individual or collective basis), which incorporates forward-looking macroeconomic factors.*

Respons audit:

*Audit response:*

Kami melakukan pengujian pengendalian utama atas pemberian kredit, penilaian kualitas kredit internal secara regular, serta pencatatan dan pengawasan kredit yang diberikan. Kami memperoleh pemahaman dan menilai metodologi pengukuran penurunan nilai, serta melakukan validasi atas model pencadangan kerugian penurunan nilai, data masukan, dasar, dan asumsi yang digunakan oleh Grup dalam menghitung cadangan kerugian penurunan nilai, serta menguji tiga tahapan kualitas kredit atas portofolio kredit yang diberikan sesuai dengan kriteria tingkatan (*staging*) yang disusun oleh Grup untuk kredit yang diberikan. Kami menguji apakah pengalaman historis mewakili keadaan saat ini dan kerugian terkini yang terjadi dalam portofolio, serta menilai kewajaran atas penyesuaian berorientasi masa depan, analisis faktor ekonomi makro, dan beberapa skenario probabilitas tertimbang untuk kredit yang diberikan.

*We tested the key controls over the loan origination, regular internal credit quality assessments, and recording and monitoring of the loans. We obtained understanding and assessed impairment measurement methodologies and performed validation of allowance for impairment losses models, inputs, basis, and assumptions used by the Group in calculating the allowance for impairment losses, and tested the classification into the three-stage credit quality of loan portfolios in accordance with staging criteria developed by the Group for loans. We tested whether historical experience is representative of current circumstances and of the recent losses incurred in the portfolios, and assessed the reasonableness of forward-looking adjustments, macroeconomic factor analysis, and probability-weighted multiple scenarios for loans.*

*Independent Auditor's Report (continued)*

Laporan No. 00072/2.1505/AU.1/07/1865-1/1/II/2026 (lanjutan)

*Report No. 00072/2.1505/AU.1/07/1865-1/1/II/2026 (continued)*

Hal audit utama (lanjutan)

*Key audit matters (continued)*

Respons audit: (lanjutan)

*Audit response: (continued)*

Untuk cadangan kerugian penurunan nilai yang dinilai secara individual, kami menguji sampel kredit yang diberikan untuk mengevaluasi identifikasi secara tepat waktu oleh Grup atas eksposur yang mengalami penurunan kualitas kredit yang signifikan atau yang telah mengalami penurunan nilai; untuk kasus-kasus dimana penurunan nilai telah diidentifikasi, kami menilai asumsi Grup atas arus kas masa depan ekspektasian, termasuk nilai agunan yang dapat direalisasikan berdasarkan informasi pasar yang tersedia atau penilaian yang dilakukan oleh penilai independen dan internal.

*With respect to individually assessed allowance for impairment losses, we tested the samples of loans to evaluate the timely identification by the Group of exposures with significant deterioration in credit quality or which have been impaired; for cases where impairment has been identified, we assessed the Group's assumptions on the expected future cash flows, including the value of realizable collateral based on available market information or valuation prepared by independent valuer or internal valuer.*

Kami memeriksa keakurasian perhitungan jumlah cadangan kerugian penurunan nilai dengan melakukan perhitungan ulang atas keseluruhan portofolio yang penurunan nilainya dinilai secara kolektif dan melakukan perhitungan ulang atas penurunan nilai yang dinilai secara individual berdasarkan sampel. Kami melakukan penilaian atas asumsi utama yang digunakan dalam penyesuaian pasca model/*management overlay* yang diterapkan untuk mengantisipasi risiko yang tidak dapat ditangkap sepenuhnya oleh model. Kami menilai apakah pengungkapan dalam laporan keuangan konsolidasian cukup dan secara memadai mencerminkan eksposur Grup terhadap risiko kredit. Kami melibatkan pakar auditor internal kami untuk membantu kami dalam melakukan prosedur-prosedur di atas ketika keahlian spesifik mereka diperlukan.

*We checked the accuracy of the calculation of allowance for impairment losses amount by recalculating the collective impairment for the entire portfolio and recalculating the individual impairment on a sample basis. We assessed the key assumptions used in the post model adjustments/management overlays which were applied to respond to risks not fully captured by the models. We assessed whether the consolidated financial statements disclosures are adequately and appropriately reflecting the Group's exposures to credit risk. We involved our auditor's internal expert in the performance of the above procedures where their specific expertise was required.*

Informasi lain

*Other information*

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam Laporan Tahunan 2025 selain laporan keuangan konsolidasian terlampir dan laporan auditor independen kami ("Laporan Tahunan"). Laporan Tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor independen ini.

*Management is responsible for the other information. Other information comprises the information included in the 2025 Annual Report other than the accompanying consolidated financial statements and our independent auditor's report thereon (the "Annual Report"). The Annual Report is expected to be made available to us after the date of this independent auditor's report.*

Opini kami atas laporan keuangan konsolidasian terlampir tidak mencakup Laporan Tahunan, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas Laporan Tahunan tersebut.

*Our opinion on the accompanying consolidated financial statements does not cover the Annual Report, and accordingly, we do not express any form of assurance on the Annual Report.*

Sehubungan dengan audit kami atas laporan keuangan konsolidasian terlampir, tanggung jawab kami adalah untuk membaca Laporan Tahunan ketika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah Laporan Tahunan mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian terlampir atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

*In connection with our audit of the accompanying consolidated financial statements, our responsibility is to read the Annual Report when it becomes available and, in doing so, consider whether the Annual Report is materially inconsistent with the accompanying consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.*

Ketika kami membaca Laporan Tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan melakukan tindakan yang tepat berdasarkan peraturan perundang-undangan yang berlaku.

*When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions based on the applicable laws and regulations.*

*The original report included herein is in the Indonesian language.*

Laporan Auditor Independen (lanjutan)

Tanggung jawab manajemen dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan konsolidasian

*Responsibilities of management and those charged with governance for the consolidated financial statements*

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

*Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.*

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

*In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting, unless management either intends to liquidate the Group or to cease its operations, or has no realistic alternative but to do so.*

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

*Those charged with governance are responsible for overseeing the Group's financial reporting process.*

Laporan Auditor Independen (lanjutan)

*Independent Auditor's Report (continued)*

Laporan No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026 (lanjutan)

*Report No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026 (continued)*

Tanggung jawab auditor terhadap audit atas  
laporan keuangan konsolidasian

*Auditor's responsibilities for the audit of the  
consolidated financial statements*

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor independen yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit yang ditetapkan oleh IAPI akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

*Our objectives are to obtain reasonable assurance about whether the consolidated financial statements taken as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing established by the IICPA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.*

Sebagai bagian dari suatu audit berdasarkan Standar Audit yang ditetapkan oleh IAPI, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

*As part of an audit in accordance with Standards on Auditing established by the IICPA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:*

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya suatu kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi daripada yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian atas pengendalian internal.

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to such risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or override of internal control.*

Laporan Auditor Independen (lanjutan)

1/1/II/2026 (continued)*

Tanggung jawab auditor terhadap audit atas  
laporan keuangan konsolidasian (lanjutan)

*Auditor's responsibilities for the audit of the  
consolidated financial statements (continued)*

Sebagai bagian dari suatu audit berdasarkan  
Standar Audit yang ditetapkan oleh IAPI, kami  
menerapkan pertimbangan profesional dan  
mempertahankan skeptisisme profesional selama  
audit. Kami juga: (lanjutan)

*As part of an audit in accordance with Standards on  
Auditing established by the IICPA, we exercise  
professional judgment and maintain professional  
skepticism throughout the audit. We also:  
(continued)*

- Memeroleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan suatu opini atas keefektifitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor independen kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor independen kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.

- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our independent auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusion is based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.*

Tanggung jawab auditor terhadap audit atas  
laporan keuangan konsolidasian (lanjutan)

*Auditor's responsibilities for the audit of the  
consolidated financial statements (continued)*

Sebagai bagian dari suatu audit berdasarkan  
Standar Audit yang ditetapkan oleh IAPI, kami  
menerapkan pertimbangan profesional dan  
mempertahankan skeptisisme profesional selama  
audit. Kami juga: (lanjutan)

*As part of an audit in accordance with Standards on  
Auditing established by the IICPA, we exercise  
professional judgment and maintain professional  
skepticism throughout the audit. We also:  
(continued)*

- Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memeroleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi, dan pelaksanaan audit grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.

- *Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*
- *Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.*

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

*We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.*

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan kepada pihak tersebut seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan, jika relevan, pengamanan terkait.

*We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.*

Shape the future  
with confidence

**Laporan Auditor Independen (lanjutan)**

Laporan No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026 (lanjutan)

**Tanggung jawab auditor terhadap audit atas  
laporan keuangan konsolidasian (lanjutan)**

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama tersebut dalam laporan auditor independen kami kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal audit utama tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal audit utama tidak boleh dikomunikasikan dalam laporan auditor independen kami karena konsekuensi yang merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

**Independent Auditor's Report (continued)**

Report No. 00072/2.1505/AU.1/07/1865-  
1/1/II/2026 (continued)

**Auditor's responsibilities for the audit of the  
consolidated financial statements (continued)**

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe such key audit matters in our independent auditor's report unless laws or regulations preclude public disclosure about such key audit matters or when, in extremely rare circumstances, we determine that a key audit matter should not be communicated in our independent auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**1. UMUM**

**a. Pendirian**

PT Bank Rakyat Indonesia (Persero) Tbk (selanjutnya disebut "BRI" atau "Bank") didirikan dan mulai beroperasi secara komersial pada tanggal 18 Desember 1968 berdasarkan Undang-Undang No. 21 Tahun 1968. Pada tanggal 29 April 1992, berdasarkan Peraturan Pemerintah Republik Indonesia ("Pemerintah") No. 21 Tahun 1992, bentuk badan hukum BRI diubah menjadi Perusahaan Perseroan (Persero). Pengalihan BRI menjadi Persero didokumentasikan dengan Akta No. 133 tanggal 31 Juli 1992 Notaris Muhani Salim, S.H. dan telah disahkan oleh Menteri Kehakiman Republik Indonesia dengan Surat Keputusan No. C2-6584.HT.01.01.TH.92 tanggal 12 Agustus 1992, serta diumumkan dalam Berita Negara Republik Indonesia No. 73, Tambahan No. 3A tanggal 11 September 1992. Anggaran Dasar BRI kemudian diubah dengan Akta No. 7 tanggal 4 September 1998 Notaris Imas Fatimah, S.H., pasal 2 tentang "Jangka Waktu Berdirinya Perseroan" dan pasal 3 tentang "Maksud dan Tujuan serta Kegiatan Usaha" untuk menyesuaikan dengan ketentuan Undang-Undang Republik Indonesia No. 1 Tahun 1995 tentang "Perseroan Terbatas" dan telah disahkan oleh Menteri Kehakiman Republik Indonesia dengan Surat Keputusan No. C2-24930.HT.01.04.TH.98 tanggal 13 November 1998 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 86, Tambahan No. 7216 tanggal 26 Oktober 1999 dan Akta No. 7 tanggal 3 Oktober 2003 Notaris Imas Fatimah, S.H., antara lain tentang status perusahaan dan penyesuaian dengan Undang-Undang Pasar Modal dan telah disahkan oleh Menteri Kehakiman dan Hak Asasi Manusia Republik Indonesia dengan Surat Keputusan No. C-23726 HT.01.04.TH.2003 tanggal 6 Oktober 2003 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 88, Tambahan No. 11053 tanggal 4 November 2003.

Berdasarkan Surat Keputusan Bank Indonesia No. 5/117/DPwB2/PWPwB24 tanggal 15 Oktober 2003, tentang "SK Penunjukan BRI sebagai Bank Umum Devisa", BRI telah ditetapkan sebagai bank devisa melalui Surat Dewan Moneter No. SEKR/BRI/328 tanggal 25 September 1956.

**1. GENERAL**

**a. Establishment**

*PT Bank Rakyat Indonesia (Persero) Tbk (hereinafter referred to as "BRI" or "Bank") was established and started its commercial operations on December 18, 1968 based on Law No. 21 Year 1968. On April 29, 1992, based on Government of the Republic of Indonesia (the "Government") Regulation No. 21 Year 1992, the legal status of BRI was changed to a limited liability company (Persero). The change into a limited liability corporation was documented by Notarial Deed No. 133 dated July 31, 1992 of Notary Muhani Salim, S.H., approved by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. C2-6584.HT.01.01.TH.92 dated August 12, 1992 and published in Supplement No. 3A of the Republic of Indonesia State Gazette No. 73 dated September 11, 1992. BRI's Articles of Association was then amended by Notarial Deed No. 7 dated September 4, 1998 of Notary Imas Fatimah, S.H., pertaining to Article 2 on "Term of Corporate Establishment" and Article 3 on "Purpose, Objectives and Business Activities" to comply with the provisions of Law No. 1 Year 1995 on "Limited Liability Company", approved by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. C2-24930.HT.01.04.TH.98 dated November 13, 1998 and published in Supplement No. 7216 of the Republic of Indonesia State Gazette No. 86 dated October 26, 1999 and notarial deed No. 7 dated October 3, 2003 of Notary Imas Fatimah, S.H., among others, regarding BRI's status and compliance with the Capital Market Laws approved by the Minister of Justice and Human Rights of the Republic of Indonesia in its Decision Letter No. C-23726 HT.01.04.TH.2003 dated October 6, 2003 and published in Supplement No. 11053 of the Republic of Indonesia State Gazette No. 88 dated November 4, 2003.*

*Based on Bank Indonesia's Decision Letter No. 5/117/DPwB2/PWPwB24 dated October 15, 2003, regarding "SK Appointment of BRI as a Foreign Exchange Commercial Bank", BRI has been designated as a foreign exchange bank through Letter of Monetary Board No. SEKR/BRI/328 dated September 25, 1956.*

**1. UMUM (lanjutan)**

**a. Pendirian (lanjutan)**

Berdasarkan Akta No. 51 tanggal 26 Mei 2008 Notaris Fathiah Helmi, S.H., telah dilakukan perubahan terhadap Anggaran Dasar BRI, antara lain untuk penyesuaian dengan ketentuan Undang-Undang Republik Indonesia No. 40 Tahun 2007 tentang "Perseroan Terbatas" dan Peraturan Badan Pengawas Pasar Modal dan Lembaga Keuangan ("Bapepam-LK") (fungsinya sejak 1 Januari 2013 dialihkan kepada Otoritas Jasa Keuangan ("OJK")), No. IX.J.I tentang "Pokok-pokok Anggaran Dasar Perseroan yang Melakukan Penawaran Umum Efek Bersifat Ekuitas dan Perusahaan Publik", yang telah mendapatkan persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Keputusan No. AHU-48353.AH.01.02.Tahun 2008 tanggal 6 Agustus 2008 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 68, Tambahan No. 23079 tanggal 25 Agustus 2009.

Berdasarkan Akta No. 32 tanggal 22 April 2024 yang dibuat di hadapan Notaris Fathiah Helmi, S.H., di Jakarta yang telah mendapat Penerimaan Perubahan Anggaran Dasar dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia No. AHU-AH.01.03-0092097 tanggal 23 April 2024. Perubahan dilakukan dalam rangka penyesuaian dengan Peraturan OJK ("POJK") No. 15/POJK.04/2020 tentang Rencana dan Penyelenggaraan Rapat Umum Pemegang Saham ("RUPS") Perusahaan Terbuka dan POJK No. 16/POJK.04/2020 tentang Pelaksanaan RUPS Perusahaan Terbuka Secara Elektronik, serta modal disetor.

Selanjutnya, Anggaran Dasar BRI dimuat dalam Akta No. 15 tanggal 22 April 2025 yang dibuat di hadapan Notaris Fathiah Helmi, S.H., di Jakarta yang telah mendapat Penerimaan Perubahan Anggaran Dasar dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia No. AHU-AH.01.03-0126510 tanggal 8 Mei 2025. Perubahan dilakukan dalam rangka penyesuaian dengan Peraturan OJK ("POJK") No. 15/POJK.04/2020 tentang Rencana dan Penyelenggaraan Rapat Umum Pemegang Saham ("RUPS") Perusahaan Terbuka.

**1. GENERAL (continued)**

**a. Establishment (continued)**

*Based on Notarial Deed No. 51 dated May 26, 2008 of Notary Fathiah Helmi, S.H., BRI amended its Articles of Association, among others, to comply with the provisions of Law No. 40 Year 2007 on "Limited Liability Company" and Capital Market and Financial Institution Supervisory Agency's ("Bapepam-LK") Regulation, (whose function has been transferred to the Financial Services Authority ("OJK") since January 1, 2013), No. IX.J.I on "The Main Principles of the Articles of Association of a Company that Conduct Public Offering of Shares and Public Company", which was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-48353.AH.01.02 Year 2008, dated August 6, 2008 and was published in Supplement No. 23079 of the Republic of Indonesia State Gazette No. 68 dated August 25, 2009.*

*Based on Notarial Deed No. 32 dated April 22, 2024, of Notary Fathiah Helmi, S.H., in Jakarta regarding amendments to the Articles of Association from the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-AH.01.03-0092097 dated April 23, 2024. The changes were made in the context of compliance to the OJK Regulation ("POJK") No. 15/POJK.04/2020 regarding the Plan and Organizing of Public Companies' General Meeting of Shareholders ("GMS") and POJK No. 16/POJK.04/2020 regarding the Electronic Holding of Public Company GMS, as well as paid-in capital.*

*Furthermore, BRI's Articles of Association are documented in Notarial Deed No. 15 dated April 22, 2025, of Notary Fathiah Helmi, S.H., in Jakarta regarding amendments to the Articles of Association from the Minister of Law and Human Rights of the Republic of Indonesia No. AHU-AH.01.03-0126510 dated May 8, 2025. The changes were made in the context of compliance to the OJK Regulation ("POJK") No. 15/POJK.04/2020 regarding the Plan and Organizing of Public Companies' General Meeting of Shareholders ("GMS").*

**1. UMUM (lanjutan)**

**a. Pendirian (lanjutan)**

Berdasarkan pasal 3 Anggaran Dasar BRI, ruang lingkup kegiatan BRI adalah melakukan usaha di bidang perbankan serta optimalisasi pemanfaatan sumber daya yang dimiliki BRI untuk menghasilkan jasa yang bermutu tinggi dan berdaya saing kuat untuk mendapat keuntungan guna meningkatkan nilai perusahaan dengan menerapkan prinsip-prinsip Perseroan Terbatas.

Pemerintah Republik Indonesia merupakan entitas induk terakhir BRI.

**b. Program Rekapitalisasi**

Sebagai realisasi dari Program Rekapitalisasi Bank Umum sesuai Peraturan Pemerintah No. 52 Tahun 1999 tentang Penambahan Penyertaan Modal Negara Republik Indonesia ke dalam Modal Bank Pemerintah, BRI telah menerima seluruh jumlah rekapitalisasi sebesar nominal Rp29.149.000 dalam bentuk Obligasi Rekapitalisasi Pemerintah yang diterbitkan dalam 2 (dua) tahap yaitu sebesar nominal Rp20.404.300 pada tanggal 25 Juli 2000 dan Rp8.744.700 pada tanggal 31 Oktober 2000.

Lebih lanjut, seperti yang disebutkan dalam Kontrak Manajemen tanggal 28 Februari 2001 antara Negara Republik Indonesia c.q. Pemerintah melalui Menteri Keuangan dan BRI, Pemerintah telah menetapkan bahwa total kebutuhan rekapitalisasi BRI untuk mencapai Liabilitas Penyediaan Modal Minimum 4% adalah sebesar Rp29.063.531. Oleh karena itu, BRI telah mengembalikan kelebihan total rekapitalisasi sebesar Rp85.469 dalam bentuk Obligasi Rekapitalisasi Pemerintah kepada Negara Republik Indonesia pada tanggal 5 November 2001.

Pada tanggal 30 September 2003, Menteri Keuangan mengeluarkan Surat Keputusan No. 427/KMK.02/2003 tanggal 30 September 2003 tentang besarnya nilai akhir dan pelaksanaan hak-hak Pemerintah yang timbul sebagai akibat penambahan penyertaan modal Negara Republik Indonesia ke dalam modal BRI dalam rangka program rekapitalisasi bank umum. Berdasarkan Surat Keputusan tersebut, Menteri Keuangan menetapkan bahwa nilai akhir kebutuhan rekapitalisasi BRI adalah sebesar Rp29.063.531.

**1. GENERAL (continued)**

**a. Establishment (continued)**

*According to Article 3 of the BRI's Articles of Association, BRI's scope of business is to conduct business in the banking sector and optimize the utilization of BRI's resources to produce high quality and highly competitive services to gain benefits in order to increase company value by implementing the principles of limited liability company.*

*Government of the Republic of Indonesia is the ultimate parent entity of BRI.*

**b. Recapitalization Program**

*As a realization of the Recapitalization Program for Commercial Banks, set forth in Government Regulation No. 52 Year 1999, regarding the Addition of Capital Investment by the Republic of Indonesia in State-Owned Banks, BRI has received in full the recapitalization with a nominal amount of Rp29,149,000 in the form of Government Recapitalization Bonds issued in 2 (two) phases, that is at the nominal amounts of Rp20,404,300 on July 25, 2000 and Rp8,744,700 on October 31, 2000.*

*Furthermore, as stated in the Management Contract dated February 28, 2001 between the Republic of Indonesia represented by the Government through the Minister of Finance and BRI, the Government determined that in order to achieve a Minimum Capital Adequacy Liability of 4%, BRI's recapitalization requirement is Rp29,063,531. Therefore, BRI has returned the excess recapitalization of Rp85,469 in the form of Government Recapitalization Bonds to the Republic of Indonesia on November 5, 2001.*

*On September 30, 2003, the Minister of Finance issued Decision Letter No. 427/KMK.02/2003 dated September 30, 2003 regarding the final amount and implementation of Government's rights, which arose as a result of the addition in capital investment by Republic of Indonesia during the Recapitalization Program for Commercial Banks. Based on the Decision Letter, the Minister of Finance determined that the final amount of BRI's recapitalization requirement is Rp29,063,531.*

**1. UMUM (lanjutan)**

**c. Penawaran Umum Saham Perdana,  
Pemecahan Saham dan Penawaran Umum  
Terbatas Saham**

Dalam rangka penawaran umum saham perdana BRI, berdasarkan pernyataan pendaftaran tanggal 31 Oktober 2003, Pemerintah, melalui Menteri Badan Usaha Milik Negara (BUMN), menyetujui untuk melakukan penawaran umum saham perdana (*Initial Public Offering* (IPO)) sebesar 3.811.765.000 lembar saham biasa BRI atas nama seri B, yang terdiri dari 2.047.060.000 lembar milik Negara Republik Indonesia (divestasi) dan 1.764.705.000 lembar atas nama Seri B baru, serta bersamaan dengan opsi pemesanan lebih dan opsi penjatahan lebih.

Penawaran umum saham perdana meliputi penawaran kepada masyarakat internasional (Peraturan 144A dari Perundang-undangan Sekuritas dan peraturan "S") dan penawaran kepada masyarakat Indonesia. BRI menyerahkan pendaftarannya kepada Bapepam-LK dan pernyataan pendaftaran tersebut telah menjadi efektif berdasarkan Surat Ketua Bapepam-LK No. S-2646/PM/2003 tanggal 31 Oktober 2003.

Penawaran umum saham perdana BRI meliputi 3.811.765.000 lembar saham dengan nilai nominal Rp500 (nilai penuh) per lembar saham dengan harga jual Rp875 (nilai penuh) per lembar saham. Selanjutnya, opsi pemesanan lebih sejumlah 381.176.000 lembar saham dan opsi penjatahan lebih sejumlah 571.764.000 lembar saham masing-masing dengan harga Rp875 (nilai penuh) setiap lembar saham telah dilaksanakan masing-masing pada tanggal 10 November 2003 dan 3 Desember 2003. Setelah IPO BRI dan opsi pemesanan lebih dan opsi penjatahan lebih dilaksanakan oleh Penjamin Pelaksana Emisi, Negara Republik Indonesia memiliki 59,50% saham di BRI. Saham yang ditawarkan tersebut mulai diperdagangkan di Bursa Efek Jakarta dan Bursa Efek Surabaya (sekarang Bursa Efek Indonesia) pada tanggal 10 November 2003 dan pada saat yang bersamaan seluruh saham BRI juga telah dicatatkan (Catatan 31b).

**1. GENERAL (continued)**

**c. Initial Public Offering of Shares, Stock Split  
and Limited Public Offering**

*In relation to BRI's Initial Public Offering (IPO), based on the registration statement dated October 31, 2003, the Government, through the Minister of State-Owned Enterprises agreed to conduct an IPO of 3,811,765,000 Series B common shares of BRI, consisting of 2,047,060,000 Series B common shares owned by the Republic of Indonesia (divestment) and 1,764,705,000 new Series B common shares, alongside over-subscription option and over-allotment option.*

*The IPO consists of the international public offering (under Rule 144A of the Securities Act and "S" Regulation) and the Indonesian public offering. BRI submitted its registration to Bapepam-LK and the registration statement became effective based on the Chairman of Bapepam-LK Letter No. S-2646/PM/2003 dated October 31, 2003.*

*BRI's IPO consists of 3,811,765,000 shares with a nominal value of Rp500 (full amount) per share and a sale price of Rp875 (full amount) per share. Subsequently, over-subscription option of 381,176,000 shares and over-allotment option of 571,764,000 shares were exercised at Rp875 (full amount) per share on November 10, 2003 and December 3, 2003, respectively. After BRI's IPO and the underwriters' exercise of the over-subscription option and the over-allotment option, the Republic of Indonesia owns 59.50% of BRI shares. On November 10, 2003, the offered shares started to be traded on Jakarta and Surabaya Stock Exchanges (currently the Indonesia Stock Exchange). At the same time, all BRI shares were also listed (Note 31b).*

Selisih antara nilai saham treasuri dan total biaya implementasi berdasarkan harga wajar dicatat dalam agio sebesar Rp57.980.755.971 (nilai penuh). Atas transaksi yang terjadi pada tahun 2021, total saham treasuri yang dimiliki oleh BRI adalah sebanyak 15.931.900 lembar saham.

BRI melalui surat No. R.0034-DIR/ALM/01/2022 tanggal 24 Januari 2022 mengajukan permohonan persetujuan pembelian kembali saham BRI kepada OJK sebanyak-banyaknya Rp3.000.000. Pembelian kembali saham BRI tersebut telah disetujui oleh OJK melalui Surat No. S-29/PB.31/2022 tanggal 21 Februari 2022 dan telah mendapatkan persetujuan pada Rapat Umum Pemegang Saham Tahunan 2022 yang diselenggarakan pada tanggal 1 Maret 2022.

BRI juga telah menyampaikan keterbukaan informasi kepada Otoritas Jasa Keuangan (OJK) sehubungan dengan rencana pembelian kembali saham yang telah dikeluarkan dan tercatat di BEI sebanyak-banyaknya sebesar Rp3.000.000 melalui surat No. B.7-CSC/CSM/CGC/01/2022 tanggal 21 Januari 2022. Pembelian kembali tersebut secara bertahap dalam periode 1 Maret 2022 sampai dengan 31 Agustus 2023.

Pada bulan April hingga Juli 2022, BRI telah melakukan pembelian saham sebanyak 184.245.400 lembar saham (nilai nominal Rp50 (nilai penuh) per lembar saham) dengan harga perolehan sebesar Rp818.380 dengan rata-rata harga pembelian Rp4.442 (nilai penuh) per lembar saham.

Pada tanggal 12 Agustus 2022 terdapat implementasi program kepemilikan saham BRI yang bersumber dari saham treasuri hasil pembelian kembali tahun 2022. Hal ini mengakibatkan pengurangan saham treasuri sebanyak 7.064.100 lembar saham dengan harga perolehan per lembar saham Rp4.440 (nilai penuh) atau setara Rp31.363 per lembar saham. Harga pelaksanaan program sebesar Rp4.250 (nilai penuh) atau setara Rp30.022. Selisih antara nilai perolehan saham treasuri dan biaya program berdasarkan harga wajar dicatat dalam agio sebesar Rp1.341 (Catatan 31b).

**1. GENERAL (continued)**

**d. Treasury Stock (continued)**

The difference between the value of treasury stock and the total of implementation cost based on the fair price was recorded in additional paid-in capital amounting to Rp57,980,755,971 (full amount). For transactions that occurred in 2021, the total treasury stock owned by BRI were 15,931,900 shares.

BRI, through its letter No. R. 0034-DIR/ALM/01/2022 dated January 24, 2022, submitted a request for OJK's approval on BRI's shares buyback for at most Rp3,000,000, and it was approved by OJK through its letter No. S-29/PB.31/2022 dated February 21, 2022 and approved by Annual General Meeting of Shareholders held on March 1, 2022.

BRI conveyed its information disclosure to the Financial Services Authority (OJK) in regards to the buyback plan for shares previously issued and listed on the Stock Exchange for as many as Rp3,000,000 through its letter No. B. 7-CSC/CSM/CGC/01/2022 dated January 21, 2022. The buyback is carried out within a period between March 1, 2022 until August 31, 2023.

In April to July 2022, BRI has repurchased 184,245,400 shares (par value of Rp50 (full amount) per share) at an acquisition price of Rp818,380 with an average purchase price of Rp4,442 (full amount) per share.

On August 12, 2022, there was implementation of BRI's bonus share program originating from the treasury stocks repurchased in 2022. This has resulted in a reduction of treasury stock by 7,064,100 shares with an acquisition price per share of Rp4,440 (full amount), or equivalent to Rp31,363. The program implementation price is Rp4,250 (full amount) per share, or the equivalent of Rp30,022. The difference between the acquisition value of treasury stock and the program costs based on fair prices recorded in additional paid-in capital amounting to Rp1,341 (Note 31b).

Selisih antara nilai perolehan saham treasuri dan biaya program berdasarkan harga wajar dicatat dalam agio sebesar Rp22.942 (Catatan 31b).

Pada bulan Desember 2025, BRI telah melakukan pembelian saham sebanyak 11.000.000 lembar saham (nilai nominal Rp50 (nilai penuh) per lembar saham) dengan harga perolehan sebesar Rp39.650 dan rata-rata harga pembelian sebesar Rp3.605 (nilai penuh) per lembar saham.

Adapun harga perolehan di atas merupakan harga perolehan dan tidak termasuk biaya yang dapat diatribusikan secara langsung terhadap pembelian saham treasuri.

Sehingga per tanggal 31 Desember 2025, total saham treasuri yang dimiliki oleh BRI sebanyak 958.602.200 lembar saham.

**1. GENERAL (continued)**

**d. Treasury Stock (continued)**

*On December 5, 2025, there was an implementation of BRI's share ownership program sourced from treasury shares from the 2022 buyback. This resulted in a reduction in treasury shares of 75,926,100 shares with an acquisition price per share of Rp4,636 (full value) or equivalent to Rp352,006. The program implementation price was Rp4,334 (full value) or equivalent to Rp329,064. The difference between the acquisition value of treasury shares and the program costs based on fair prices was recorded in additional paid-in capital of Rp22,942 (Note 31b)*

*In December 2025, BRI has repurchased 11,000,000 shares (par value of Rp50 (full amount) per share) at an acquisition price of Rp39,650 with an average purchase price of Rp3,605 (full amount) per share.*

*The acquisition price above is the acquisition price and does not include costs that can be directly attributed to the purchase of treasury stock.*

*As of December 31, 2025, the total treasury stocks owned by BRI were 958,602,200 shares.*

**f. Entitas Anak (lanjutan)**

**PT Bank Raya Indonesia Tbk (Bank Raya)**

Pada tanggal 19 Agustus 2010, BRI telah menandatangani Perjanjian Pengikatan Jual Beli Saham Bersyarat (PPJB) dengan Dana Pensiun Perkebunan (Dapenbun) selaku pemegang 95,96% saham PT Bank Agroniaga Tbk ("Bank Agro") untuk mengakuisisi saham Bank Agro dengan total nominal sebesar Rp330.296 untuk 3.030.239.023 lembar saham dengan harga Rp109 (nilai penuh) per lembar saham.

Berdasarkan RUPS Luar Biasa BRI sesuai dengan akta No. 37 tanggal 24 November 2010 Notaris Fathiah Helmi, S.H., para pemegang saham telah menyetujui akuisisi terhadap Bank Agro. Selain itu, Bank Indonesia juga telah memberikan persetujuan melalui Surat No. 13/19/GBI/DPIP/Rahasia tanggal 16 Februari 2011. Akuisisi ini diselesaikan pada tanggal 3 Maret 2011 berdasarkan akta akuisisi No. 14 Notaris Fathiah Helmi, S.H., dimana BRI memiliki 88,65% dari seluruh saham yang ditempatkan dan disetor penuh dalam Bank Agro, sebagaimana dimuat dalam akta No. 68 tanggal 29 Desember 2009, Notaris Rusnaldy, S.H.. Hal tersebut di atas telah mempertimbangkan efek dari Waran Seri I yang dapat dieksekusi sampai dengan tanggal 25 Mei 2011.

Untuk memenuhi Peraturan Bapepam-LK No. IX.H.1, Lampiran Keputusan Ketua Bapepam-LK No. Kep-259/BL/2008, tanggal 30 Juni 2008, tentang "Pengambilalihan Perusahaan Terbuka", BRI sebagai pengendali baru Bank Agro diwajibkan untuk melaksanakan Penawaran Tender terhadap saham Bank Agro yang dimiliki pemegang saham publik. Pernyataan Penawaran Tender telah dinyatakan efektif pada tanggal 4 Mei 2011 berdasarkan Surat Ketua Bapepam-LK No. S-4985/BL/2011 dan telah diumumkan pada 2 (dua) surat kabar harian, yaitu Bisnis Indonesia dan Investor Daily, keduanya pada tanggal 5 Mei 2011. Masa Penawaran Tender dimulai pada tanggal 5 Mei 2011 dan berakhir pada tanggal 24 Mei 2011. Pada tanggal penutupan masa Penawaran Tender, terdapat 113.326.500 lembar saham (3,15% dari seluruh saham Bank Agro) yang dibeli oleh BRI. Harga Penawaran Tender yang digunakan adalah sebesar Rp182 (nilai penuh) per lembar saham.

**1. GENERAL (continued)**

**f. Subsidiaries (continued)**

**PT Bank Raya Indonesia Tbk (Bank Raya)**

On August 19, 2010, BRI entered into a Conditional Sale and Purchase of Shares Agreement (PPJB) with Dana Pensiun Perkebunan (Dapenbun), which holds 95.96% of PT Bank Agroniaga Tbk ("Bank Agro") shares, to acquire Bank Agro's shares at a total nominal value of Rp330,296 for 3,030,239,023 shares, with a price of Rp109 (full amount) per share.

According to BRI's Extraordinary General Meeting of Shareholders, in accordance with the Notarial Deed No. 37 dated November 24, 2010 of Notary Fathiah Helmi, S.H., the shareholders have approved the acquisition of Bank Agro. Furthermore, Bank Indonesia, in its Letter No. 13/19/GBI/DPIP/Rahasia dated February 16, 2011, also granted its approval for the acquisition of Bank Agro. The acquisition was completed on March 3, 2011 based on the Notarial Deed No. 14 of Notary Fathiah Helmi, S.H., where BRI owned 88.65% of Bank Agro's total issued and fully paid shares, as stated in the Notarial Deed No. 68 dated December 29, 2009, of Notary Rusnaldy, S.H.. The above mentioned matter has also considered the effects of Warrants Series I which are exercisable up to May 25, 2011.

In compliance with Bapepam-LK's Regulation No. IX.H.1, Appendix to the Decision Letter of Chairman of Bapepam-LK No. Kep-259/BL/2008 dated June 30, 2008 regarding the "Takeover of Public Company", BRI, as the new controlling shareholder of Bank Agro, obliged to execute Tender Offer on the remaining Bank Agro's shares which are owned by the public. The Tender Offer statement has become effective on May 4, 2011 based on the Chairman of Bapepam-LK's Letter No. S-4985/BL/2011 and was announced on May 5, 2011, in two daily newspapers, Bisnis Indonesia and Investor Daily. The Tender Offer period commenced on May 5, 2011 and concluded on May 24, 2011. At the end of the Tender Offer period, BRI purchased 113,326,500 shares (3.15% of the total shares of Bank Agro). The tender offer price is Rp182 (full amount) per share.

**PT Bank Raya Indonesia Tbk (Bank Raya)  
(lanjutan)**

Pada tanggal 1 Juli 2011, telah dilaksanakan penjualan saham kepada Dapenbun sejumlah 256.375.502 lembar saham atas eksekusi opsi beli Dapenbun dengan harga Rp109 (nilai penuh) per lembar saham. Selanjutnya sesuai peraturan No. IX.H.1, jangka waktu pengembalian *tender offer* adalah selama 2 (dua) tahun. Namun, khusus untuk Bank Agro maka BRI wajib memenuhi kepemilikan saham publik minimal adalah sebesar 10% dan harus dipenuhi paling lambat pada tanggal 24 Mei 2013. Hal ini untuk memenuhi Surat Bursa Efek Indonesia No. S-06472/BEI.PPJ/09-2011 tanggal 23 September 2011.

Sampai dengan 31 Desember 2011, saham Bank Agro yang berhasil dijual ke publik sebesar 500.000 lembar saham sehingga kepemilikan saham BRI di Bank Agro per 31 Desember 2011 menjadi 79,78% dan Dapenbun 14%. Selama tahun 2012 dan 2013 tidak terdapat penjualan saham, kemudian pada tahun 2014 terdapat penjualan saham sebesar 130.000 lembar saham, sehingga per tanggal 31 Desember 2014, kepemilikan saham publik untuk memenuhi surat Bursa Efek Indonesia No. S-06472/BEI.PPJ/09-2011 tanggal 23 September 2011 sebesar 10% pada tanggal 24 Mei 2013 belum dapat dipenuhi BRI karena tidak aktifnya harga saham Bank Agro di pasar modal.

Berdasarkan akta Pernyataan Keputusan Rapat No. 30 tanggal 16 Mei 2012, Notaris Rusnaldy, S.H., dilakukan perubahan nama dari PT Bank Agroniaga Tbk menjadi PT Bank Rakyat Indonesia Agroniaga Tbk ("BRI Agro") dan telah mendapatkan persetujuan dari Bank Indonesia sesuai Surat Keputusan Gubernur Bank Indonesia No. 14/72/KEP.GBI/2012 tanggal 10 Oktober 2012.

**1. GENERAL (continued)**

**f. Subsidiaries (continued)**

**PT Bank Raya Indonesia Tbk (Bank Raya)  
(continued)**

*On July 1, 2011, Dapenbun exercised its option to buy 256,375,502 shares at a price of Rp109 (full amount) per share. Based on Regulation No. IX.H.1, the payback period of Tender Offer is within 2 (two) years. However, specifically for Bank Agro, BRI had the obligation to meet minimum public shareholding of 10% at no later than May 24, 2013. This is to comply with the Letter from the Indonesia Stock Exchange No. S-06472/BEI.PPJ/09-2011 dated September 23, 2011.*

*As of December 31, 2011, 500,000 of Bank Agro shares have been successfully sold back to the public resulting in BRI's ownership of 79.78% and Dapenbun's of 14%. While there was no sale of shares during the year 2012 and 2013, 130,000 shares were sold in 2014. Thus, as of December 31, 2014, BRI was unable to meet the requirement of Indonesia Stock Exchange stated on its letter No. S-06472/BEI.PPJ/09-2011 dated September 23, 2011, to have a minimum public shareholding of 10% by May 24, 2013 due to the inactivity of Bank Agro's share price in the capital market.*

*Based on the Notarial Deed of Meeting Decision Statement No. 30 dated May 16, 2012 of Notary Rusnaldy, S.H., the name PT Bank Agroniaga Tbk was changed into PT Bank Rakyat Indonesia Agroniaga Tbk ("BRI Agro"). This change has been approved by Bank Indonesia in its Governor's Decision Letter No. 14/72/KEP.GBI/2012 dated October 10, 2012.*

**PT BRI Multifinance Indonesia (BRI Finance)**

On July 12, 2016, BRI signed a Conditional Shares Sale and Purchase Agreement ("PPJB") with The Bank of Tokyo-Mitsubishi UFJ, Ltd. ("BTMU") to increase BRI's share ownership in PT BTMU-BRI Finance ("BBF") from 45% to 99%. The transaction was executed with a purchase price of Rp378,548. The agreement has been approved by OJK through its letter No. S-102/PB.31/2016 dated September 21, 2016. This transfer of shares was completed on September 30, 2016 as stated in Notarial Deed No. 75, of Fathiah Helmi, S.H., where BRI owned 99% of the total shares issued by PT BRI Multifinance Indonesia ("BRI Finance") and BRI's Employee Welfare Foundation (Yayasan Kesejahteraan Pekerja BRI) owned the remaining 1%.

Based on the Notarial Deed Statement of Decision of the Annual General Meeting of Shareholders No. 67, dated September 15, 2016, made before I Gede Buda Gunamanta, S.H., a notary in Jakarta, the name PT BTMU-BRI Finance was changed into PT BRI Multifinance Indonesia, and in accordance with Board of Commissioners of OJK Decision No. KEP-771/NB.11/2016 dated October 17, 2016, with regards to the change of name, BRI Finance obtained the business license in financing industry for the Business License previously granted to PT Sanwa-BRI Finance, which afterwards changed its name to PT UFJ-BRI Finance and PT BTMU-BRI Finance.

Anggaran Dasar BRIDS telah mengalami beberapa kali perubahan. Perubahan untuk menyesuaikan Anggaran Dasar BRIDS dengan Undang-Undang No. 40 tahun 2007 tentang Perseroan Terbatas dan peningkatan modal dasar dan modal ditempatkan dan disetor BRIDS yang dituangkan dalam Akta No. 91 Notaris Imas Fatimah, S.H., tanggal 12 Agustus 2008. Perubahan ini telah mendapat persetujuan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia melalui Surat Keputusan No. AHU-83282.AH.01.02 Tahun 2008 tanggal 10 November 2008 serta telah diumumkan dalam Berita Negara Republik Indonesia No. 28 Tambahan No. 9870 tanggal 7 April 2009.

Pada tahun 2017 terdapat perubahan pada maksud dan tujuan BRIDS sesuai ketentuan Pasal 3 Anggaran Dasar yang dituangkan dalam Akta No. 1 Notaris Ffidiana, S.H., S.S., M.Kn., tanggal 5 Juli 2017. Perubahan ini telah mendapat persetujuan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dalam Surat Keputusan No. AHU-0013998.AH.01.02 Tahun 2017 tanggal 7 Juli 2017.

Pada tahun 2020 terdapat perubahan nama BRIDS sebagaimana dituangkan dalam Akta No. 27 tanggal 9 Oktober 2020 yang dibuat di hadapan Notaris Jose Dima Satria, S.H., di Jakarta, yaitu perubahan nama PT Danareksa Sekuritas menjadi PT BRI Danareksa Sekuritas. Perubahan ini telah mendapatkan persetujuan perubahan anggaran dasar dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia No. AHU-0069706.AH.01.02 Tahun 2020. Sehubungan dengan perubahan nama PT BRI Danareksa Sekuritas telah dicatatkan dalam administrasi Otoritas Jasa Keuangan (OJK) berdasarkan Surat No. S-1210/PM.212/2020 tanggal 26 Oktober 2020.

Sesuai dengan ketentuan Pasal 3 Anggaran Dasar ruang lingkup kegiatan usaha PT. BRI Asuransi Indonesia, yaitu:

- a. Menjalankan usaha di bidang Asuransi Umum Konvensional (Kode KBLI 2020: 65121), mencakup usaha asuransi umum yang diselenggarakan secara konvensional, dengan kegiatan usaha meliputi penyelenggaraan usaha jasa pertanggungan risiko yang memberikan penggantian kepada tertanggung atau pemegang polis karena kerugian, kerusakan, biaya yang timbul, kehilangan keuntungan, atau tanggung jawab hukum kepada pihak ketiga yang mungkin diderita tertanggung atau pemegang polis karena terjadinya suatu peristiwa yang tidak pasti.
- b. Menjalankan usaha di bidang Unit Syariah Asuransi Umum (Kode KBLI 2020: 65123), Kelompok ini mencakup kegiatan unit kerja dari kantor pusat perusahaan asuransi umum konvensional yang berfungsi sebagai Kantor Induk dari Kantor di luar Kantor Pusat yang melaksanakan kegiatan usaha asuransi umum berdasar prinsip syariah.

BRI Insurance memperoleh izin usaha di bidang asuransi kerugian pada tanggal 26 Agustus 1989 berdasarkan Keputusan Menteri Keuangan Republik Indonesia No. Kep.-128/KM.13/1989. Sesuai Keputusan Anggota Dewan Komisiner OJK No. KEP-105/NB.11/2020 tanggal 6 Maret 2020, BRI Insurance memperoleh pemberlakuan izin usaha di bidang asuransi umum atas izin usaha yang sebelumnya telah diberikan kepada PT Asuransi Bringin Sejahtera Artamakmur yang selanjutnya berubah nama menjadi PT BRI Asuransi Indonesia.

BRI Insurance mendapatkan izin pembukaan kantor cabang dengan prinsip Syariah sesuai dengan Surat Keputusan Menteri Keuangan No. KEP-006/KM.6/2003 tanggal 21 Januari 2003.

In accordance with the provisions of Article 3 of the Articles of Association, the scope of business activities of PT. BRI Asuransi Indonesia, namely:

- a. Carrying out business in the field of Conventional General Insurance (2020 KBLI Code: 65121), includes general insurance business carried out conventionally, with business activities including carrying out risk insurance services which provide compensation to the insured or policy holder due to loss, damage, costs incurred, loss of profits, or legal liability to third parties that the insured or policyholder may suffer due to the occurrence of an uncertain event.
- b. Carrying out business in the General Insurance Sharia Unit sector (2020 KBLI Code: 65123), this group includes work unit activities from the head office of a conventional general insurance company which functions as the Main Office of an Office outside the Head Office which carries out general insurance business activities based on sharia principles.

BRI Insurance obtained its license to do general insurance business on August 26, 1989 through the Decree of the Ministry of Finance of the Republic of Indonesia No. Kep-128/KM.13/1989. In accordance with the Decree of Board of Commissioners of OJK No. KEP-105/NB.11/2020 dated March 6, 2020, BRI Insurance obtained the enforcement of business license in general insurance on the basis of business that had previously been given to PT Asuransi Bringin Sejahtera Artamakmur which changed its name to PT BRI Asuransi Indonesia.

BRI Insurance obtained permission to open a branch office with Sharia principles in accordance with the Decree of the Minister of Finance No. KEP-006/KM.6/2003 dated January 21, 2003.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI MATERIAL**

**Pernyataan Kepatuhan**

Laporan keuangan konsolidasian pada tanggal 31 Desember 2025 dan untuk tahun yang berakhir pada tanggal tersebut telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan ("SAK") Indonesia, yang mencakup Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK") yang diterbitkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia dan Peraturan Badan Pengawas Pasar Modal dan Lembaga Keuangan ("BAPEPAM-LK") No. VIII.G.7 lampiran keputusan Ketua BAPEPAM-LK No. KEP-347/BL/2012 tanggal 25 Juni 2012 tentang "Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik."

**a. Dasar penyusunan laporan keuangan konsolidasian**

Laporan keuangan konsolidasian disusun sesuai dengan PSAK No. 201, "Penyajian Laporan Keuangan".

Laporan keuangan konsolidasian telah disajikan berdasarkan nilai historis, kecuali untuk beberapa akun yang dinilai menggunakan dasar pengukuran lain sebagaimana dijelaskan pada kebijakan akuntansi dari akun tersebut. Laporan keuangan konsolidasian disusun dengan dasar akrual, kecuali laporan arus kas konsolidasian.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas berdasarkan aktivitas operasi, investasi dan pendanaan. Untuk keperluan laporan arus kas konsolidasian, yang termasuk kas dan setara kas terdiri dari kas, giro pada Bank Indonesia dan giro pada bank lain, penempatan pada Bank Indonesia dan lembaga keuangan lain, Sertifikat Bank Indonesia yang jatuh tempo dalam waktu 3 (tiga) bulan atau kurang sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan atas pinjaman yang diterima serta tidak dibatasi penggunaannya.

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION**

**Statement of Compliance**

The consolidated financial statements as of December 31, 2025, and for year then ended are prepared and presented in accordance with Indonesian Financial Accounting Standards ("FAS"), which include the Statements ("SFAS") and Interpretations ("IFAS") issued by the Financial Accounting Standards Board of the Indonesian Institute of Accountants and BAPEPAM-LK's Regulation No. VIII.G.7, Appendix of the Decision of the Chairman of BAPEPAM-LK No. KEP-347/BL/2012 dated June 25, 2012 regarding the "Guidelines on Financial Statements Presentations and Disclosures for Issuers or Public Companies".

**a. Basis of preparation of the consolidated financial statement**

The consolidated financial statements have been prepared in accordance with SFAS No. 201, "Presentation of Financial Statements".

The consolidated financial statements have been presented on a historical cost basis, except for some accounts that were assessed using another measurement basis as explained in the accounting policies of the account. The consolidated financial statements have been prepared on accrual basis, except the consolidated statement of cash flows.

The consolidated statement of cash flows has been prepared using the direct method by classifying cash flows into operating, investing and financing activities. For the purposes of the consolidated statement of cash flows, cash and cash equivalents consists of cash, current accounts with Bank Indonesia and current accounts with other banks, placements with Bank Indonesia and other financial institutions, and Bank Indonesia Certificates maturing within 3 (three) months from the date of acquisition, provided they are neither pledged as collateral for fund borrowings nor restricted.

unless otherwise stated)**

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**a. Dasar penyusunan laporan keuangan  
konsolidasian (lanjutan)**

Mata uang pelaporan yang digunakan dalam laporan keuangan konsolidasian adalah mata uang Rupiah (Rp) yang juga merupakan mata uang fungsional setiap entitas dalam grup kecuali entitas anak dan kantor cabang tertentu yang memiliki mata uang fungsional Dolar Amerika Serikat, Dolar Singapura, Dolar Hongkong dan Dolar Taiwan Baru. Angka-angka yang disajikan dalam laporan keuangan konsolidasian, kecuali dinyatakan lain, dibulatkan dalam jutaan Rupiah.

**b. Prinsip konsolidasian**

Laporan keuangan konsolidasian meliputi laporan keuangan BRI dan entitas anak yang mayoritas sahamnya dimiliki atau dikendalikan oleh BRI.

Dalam hal pengendalian terhadap entitas anak dimulai atau diakhiri dalam suatu periode berjalan maka hasil usaha entitas anak yang diperhitungkan ke dalam laporan keuangan konsolidasian hanya sebatas hasil pada saat pengendalian tersebut mulai diperoleh atau hingga saat pengendalian itu berakhir.

Pengendalian diperoleh ketika BRI terekspos atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan entitas anak dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas entitas anak.

BRI mengendalikan entitas anak jika dan hanya jika BRI memiliki hal berikut ini:

- a) Kekuasaan atas entitas anak (hak yang ada saat ini yang memberi kemampuan kini untuk mengarahkan aktivitas relevan yang secara signifikan mempengaruhi imbal hasil entitas anak).
- b) Eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan entitas anak.
- c) Kemampuan untuk menggunakan kekuasaannya atas entitas anak untuk mempengaruhi jumlah imbal hasil BRI.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**a. Basis of preparation of the consolidated  
financial statement (continued)**

The presentation currency used in the consolidated financial statement is the Indonesian Rupiah (Rp) which is also the functional currency of every entity in the group except the entity certain subsidiaries and branch office that have a functional currency of the United States Dollar, Singaporean Dollar, Hong Kong Dollar and New Taiwan Dollar. Unless otherwise stated, all figures presented in the consolidated financial statements are rounded off to millions of Rupiah.

**b. Principles of consolidation**

The consolidated financial statements include the financial statements of BRI and its subsidiaries whose majority of shares are owned or controlled by BRI.

When control over a subsidiary began or ceased during the period, the results of operations of a subsidiary are included in the consolidated financial statement limited only to the results from the date that control was acquired or up to the date that control has ceased.

Control is acquired when BRI is exposed or has the rights of variable returns from its involvement in a subsidiary and has the ability to affect those returns through its power over the subsidiary.

BRI controls a subsidiary if, and only if, BRI has the following:

- a) Power over a subsidiary (existing rights that provide the current ability to direct the relevant activities that significantly affect the returns of a subsidiary).
- b) Exposure or right of variable returns from its involvement in a subsidiary.
- c) The ability to use its power over the subsidiary to affect BRI's returns.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**b. Prinsip konsolidasian (lanjutan)**

Transaksi kombinasi bisnis antara entitas sepengendali dicatat berdasarkan PSAK No. 338, "Kombinasi Bisnis Entitas Sepengendali" dimana selisih harga perolehan yang dibayar dengan nilai tercatat aset neto yang diperoleh dicatat sebagai bagian akun tambahan modal disetor di ekuitas.

Seluruh saldo dan transaksi antar perusahaan yang signifikan termasuk keuntungan atau kerugian yang belum direalisasi, dieliminasi untuk mencerminkan posisi keuangan dan hasil usaha BRI dan entitas anak sebagai satu kesatuan usaha.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk peristiwa dan transaksi sejenis dalam kondisi yang sama. Apabila laporan keuangan entitas anak menggunakan kebijakan akuntansi yang berbeda dari kebijakan akuntansi yang digunakan dalam laporan keuangan konsolidasian, maka dilakukan penyesuaian yang diperlukan terhadap laporan keuangan entitas anak tersebut.

Kepentingan non-pengendali dinyatakan sebesar proporsi pemegang saham minoritas atas laba neto dan ekuitas entitas anak tersebut sesuai dengan persentase kepemilikan pemegang saham minoritas pada entitas anak tersebut.

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian, dicatat sebagai transaksi ekuitas.

**c. Aset keuangan dan liabilitas keuangan**

Aset keuangan terdiri dari kas, giro pada Bank Indonesia, giro pada bank lain, penempatan pada Bank Indonesia dan lembaga keuangan lain, efek-efek, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji dijual kembali, tagihan derivatif, kredit yang diberikan, pinjaman syariah, piutang sewa pembiayaan, tagihan akseptasi, penyertaan saham dan aset lain-lain.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**b. Principles of consolidation (continued)**

*Business combination transactions between entities under common control are recorded based on SFAS No. 338, "Business Combination of Entities Under Common Control", where the difference between the acquisition cost and the carrying value of net assets acquired is recorded in additional paid-in capital in equity.*

*All significant intercompany balances and transactions, including unrealized gain or loss, are eliminated to reflect the financial position and results of BRI and subsidiaries' operations as a single entity.*

*The consolidated financial statements are prepared using accounting policies for similar events and transactions in identical circumstances. If the subsidiaries' financial statements use accounting policies that are different from those adopted in the consolidated financial statements, then appropriate adjustments are made to the subsidiaries' financial statements.*

*The non-controlling interest are stated at the non-controlling shareholders' proportionate share in the net income and equity of the subsidiaries based on the percentage of ownership of the non-controlling shareholders in the subsidiaries.*

*Changes in the parent entity's share of ownership in subsidiaries that do not result in loss of control are recorded as equity transactions.*

**c. Financial assets and financial liabilities**

*Financial assets consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other financial institutions, securities, export bills and other receivables, securities purchased under agreement to resell, derivative receivables, loans, sharia loans, finance lease receivables, acceptance receivables, investment in shares, and other assets.*

unless otherwise stated)**

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

Liabilitas keuangan terdiri dari liabilitas segera, simpanan nasabah, simpanan dari bank lain dan lembaga keuangan lain, efek-efek yang dijual dengan janji dibeli kembali, liabilitas derivatif, liabilitas akseptasi, surat berharga yang diterbitkan, pinjaman yang diterima, liabilitas lain-lain serta pinjaman dan surat berharga subordinasi.

**(i) Klasifikasi**

Untuk menentukan kategori dan klasifikasi, BRI dan entitas anak menilai seluruh aset keuangan, kecuali instrumen ekuitas dan derivatif, berdasarkan kombinasi dari model bisnis pengelolaan aset dan karakteristik arus kas kontraktual instrumen terkait. Berikut klasifikasi aset keuangan pada saat pengakuan awal:

- Aset keuangan yang diukur pada biaya perolehan diamortisasi;
- Aset keuangan, dalam hal ini instrumen utang, yang diukur pada nilai wajar melalui penghasilan komprehensif lain, dengan keuntungan/kerugian diakui pada laba rugi pada saat pelepasan;
- Aset keuangan, dalam hal ini instrumen ekuitas, yang diukur pada nilai wajar melalui penghasilan komprehensif lain dengan keuntungan/kerugian tidak diakui pada laba rugi pada saat pelepasan; atau
- Aset keuangan yang diukur pada nilai wajar melalui laba rugi.

BRI dan entitas anak mengklasifikasi dan mengukur instrumen derivatif dan portofolio *trading* pada aset keuangan yang diakui pada nilai wajar melalui laba rugi.

Aset keuangan diukur pada biaya perolehan diamortisasi jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual; dan
- Persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang diperoleh semata dari pembayaran pokok dan bunga dari jumlah pokok terutang.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

*Financial liabilities consist of liabilities due immediately, deposits from customers, deposits from other banks and other financial institutions, securities sold under agreement to repurchase, derivative payables, acceptance payables, marketable securities issued, fund borrowings, other liabilities, and subordinated loans and marketable securities.*

**(i) Classification**

*To determine categories and classifications, BRI and its subsidiaries assess all financial assets, except equity and derivative instruments, based on a combination of asset management business models and the characteristics of contractual cash flow related instruments. These are the classification of financial assets at the time of initial recognition:*

- *Financial assets measured at amortized cost;*
- *Financial assets, in this case debt instruments, as measured at fair value through other comprehensive income, with gains/losses recognized at the time of derecognition;*
- *Financial assets, in this case equity instruments, as measured at fair value through other comprehensive income, with an unrecognized profit/loss on profit or loss at the time of derecognition; or*
- *Financial assets measured at fair value through profit or loss.*

*BRI and its subsidiaries classify and measure derivative instruments and trading portfolios on financial assets recognized at fair value through profit or loss.*

*Financial assets are measured at amortized cost if they meet the following conditions:*

- *Financial assets are managed in a business model that aims to have financial assets in order to obtain contractual cash flow; and*
- *The contractual terms of the financial asset provide rights on a certain date for cash flow obtained solely from payment of principal and interest on the principal amount owed.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

**(i) Klasifikasi (lanjutan)**

Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- Persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang diperoleh semata dari pembayaran pokok dan bunga dari jumlah pokok terutang.

Aset keuangan lainnya yang tidak memenuhi persyaratan untuk diklasifikasikan sebagai diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain, diklasifikasikan sebagai diukur pada nilai wajar melalui laba rugi.

Saat pengakuan awal BRI dan entitas anak dapat membuat penetapan yang tidak dapat dibatalkan untuk mengukur aset yang memenuhi persyaratan untuk diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain pada nilai wajar melalui laba rugi, apabila penetapan tersebut mengeliminasi atau secara signifikan mengurangi inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai "accounting mismatch").

Pada saat pengakuan awal, BRI dan entitas anak dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

Penilaian model bisnis

Model bisnis ditentukan pada level yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama-sama untuk mencapai tujuan bisnis tertentu.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

**(i) Classification (continued)**

Financial assets are measured at fair value through other comprehensive income if they meet the following conditions:

- Financial assets are managed in a business model that aims to obtain contractual cash flow and sell financial assets; and
- The contractual terms of the financial asset provide rights on a certain date for cash flow obtained solely from payment of principal and interest on the principal amount owed.

Other financial assets that do not meet the requirements to be classified as financial assets measured at amortized cost or fair value through other comprehensive income, are classified as measured at fair value through profit or loss.

At initial recognition, BRI and subsidiaries can make an irrevocable determination to measure assets that meet the requirements to be measured at amortized cost or fair value through other comprehensive income at fair value through profit or loss, if the determination eliminates or significantly reduces the measurement or recognition inconsistencies (sometimes referred to as "accounting mismatch").

At initial recognition, BRI and subsidiaries may make an irrevocable choice to present equity instruments that are not held for trading at fair value through other comprehensive income.

Valuation of business models

The business model is determined at a level that reflects how groups of financial assets are managed together to achieve certain business objectives.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

**(i) Klasifikasi (lanjutan)**

Penilaian model bisnis dilakukan dengan mempertimbangkan, tetapi tidak terbatas pada, hal-hal berikut:

- a. Bagaimana kinerja dari model bisnis dan aset keuangan yang dimiliki dalam model bisnis dievaluasi dan dilaporkan kepada personil manajemen kunci BRI dan entitas anak;
- b. Apakah risiko yang memengaruhi kinerja dari model bisnis (termasuk aset keuangan yang dimiliki dalam model bisnis) dan khususnya bagaimana cara aset keuangan tersebut dikelola; dan
- c. Bagaimana penilaian kinerja pengelola aset keuangan (sebagai contoh, apakah penilaian kinerja berdasarkan nilai wajar dari aset yang dikelola atau arus kas kontraktual yang diperoleh).

Aset keuangan yang dimiliki untuk diperdagangkan dan penilaian kinerja berdasarkan nilai wajar diukur pada nilai wajar melalui laba rugi.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga

Untuk tujuan penilaian ini, pokok didefinisikan sebagai nilai wajar dari aset keuangan pada saat pengakuan awal. Bunga didefinisikan sebagai imbalan untuk nilai waktu atas uang dan risiko kredit terkait jumlah pokok terutang pada periode waktu tertentu dan juga risiko dan biaya peminjaman standar, dan juga margin laba.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

**(i) Classification (continued)**

The evaluation of the business model is carried out by considering, but not limited to, the following:

- a. How the performance of the business model and financial assets held in the business model are evaluated and reported to the BRI and subsidiaries key management personnel;
- b. What risks affect the performance of the business model (including financial assets held in the business model) and specifically how the financial assets are managed; and
- c. How to evaluate the performance of financial asset manager (for example, whether performance appraisals are based on the fair value of the managed assets or the contractual cash flows obtained).

Financial assets held for trading and performance appraisals based on fair value are measured at fair value through profit or loss.

Evaluation of contractual cash flows obtained solely from payment of principal and interest

For the purpose of this valuation, principal is defined as the fair value of financial assets at initial recognition. Interest is defined as compensation for the time value of money and credit risk in relation to the principal amount owed over a certain period of time and also the risk and standard borrowing costs, as well as profit margins.

MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

**(i) Klasifikasi (lanjutan)**

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga (lanjutan)

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga dilakukan dengan mempertimbangkan persyaratan kontraktual, termasuk apakah aset keuangan mengandung persyaratan kontraktual yang dapat mengubah waktu atau jumlah arus kas kontraktual. Dalam melakukan penilaian, BRI dan entitas anak mempertimbangkan:

- a. Peristiwa kontinjensi yang akan mengubah waktu atau jumlah arus kas kontraktual;
- b. Fitur *leverage*;
- c. Persyaratan pembayaran di muka dan perpanjangan kontraktual;
- d. Persyaratan mengenai klaim yang terbatas atas arus kas yang berasal dari aset spesifik; dan
- e. Fitur yang dapat mengubah nilai waktu dari elemen uang.

BRI dan entitas anak mengklasifikasikan liabilitas keuangan dalam kategori:

- a. Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi; dan
- b. Liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi terdiri dari 2 (dua) sub-kategori:

- a. Liabilitas keuangan diklasifikasikan sebagai diperdagangkan.
- b. Liabilitas keuangan yang pada saat pengakuan awal telah ditetapkan oleh BRI dan entitas anak untuk diukur pada nilai wajar melalui laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

**(i) Classification (continued)**

Evaluation of contractual cash flows obtained solely from payment of principal and interest (continued)

An assessment of contractual cash flows obtained solely from principal and interest payments is made by considering contractual terms, including whether financial assets contain contractual terms that can change the timing or amount of contractual cash flows. In conducting the assessment, BRI and subsidiaries consider:

- a. Contingency events that will change the time or amount of contractual cash flow;
- b. Leverage feature;
- c. Terms of advance payment and contractual extension;
- d. Requirements regarding limited claims for cash flows from specific assets; and
- e. Features that can change the time value of money.

BRI and its subsidiaries classify financial liabilities in categories:

- a. Financial liabilities measured at fair value through profit or loss; and
- b. Financial liabilities measured at amortized cost.

Financial liabilities measured at fair value through profit or loss consist of 2 (two) sub-categories:

- a. Financial liabilities classified as traded.
- b. Financial liabilities that at the time of initial recognition have been determined by BRI and its subsidiaries to be measured at fair value through profit or loss.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

**(i) Klasifikasi (lanjutan)**

Liabilitas keuangan diklasifikasikan sebagai diperdagangkan jika diperoleh terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat atau jika merupakan bagian dari portofolio instrumen keuangan tertentu yang dikelola bersama dan terdapat bukti mengenai pola ambil untung dalam jangka pendek yang terkini. Derivatif diklasifikasikan sebagai liabilitas diperdagangkan kecuali ditetapkan dan efektif sebagai instrumen lindung nilai.

BRI dan entitas anak mengklasifikasikan seluruh liabilitas keuangan setelah pengakuan awal diukur pada biaya perolehan diamortisasi, kecuali:

- Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi;
- Liabilitas keuangan yang timbul ketika pengalihan aset keuangan tidak memenuhi syarat penghentian pengakuan atau ketika pendekatan keterlibatan berkelanjutan diterapkan;
- Kontrak jaminan keuangan;
- Komitmen untuk menyediakan pinjaman dengan suku bunga di bawah pasar; atau
- Imbalan kontinjensi yang diakui oleh pihak pengakuisisi dalam kombinasi bisnis.

**(ii) Pengakuan awal**

- a. Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang telah ditetapkan oleh peraturan dan kebiasaan yang berlaku di pasar (pembelian secara reguler) diakui pada tanggal transaksi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

**(i) Classification (continued)**

*Financial liabilities are classified as traded if acquired primarily for the purpose of being sold or repurchased in the near future or if they are part of a portfolio of certain financial instruments that are jointly managed and there is evidence of current short-term profit-taking patterns. Derivatives are classified as traded liabilities unless determined and effective as hedging instruments.*

*BRI and subsidiaries classify all financial liabilities after initial recognition is measured at amortized acquisition costs, except:*

- *Financial liabilities measured at fair value through profit or loss;*
- *Financial liabilities arising when the transfer of financial assets do not qualify for termination of recognition or when an ongoing engagement approach is implemented;*
- *Financial guarantee contracts;*
- *Commitment to provide loans with below-market interest rates; or*
- *Contingency rewards recognized by the acquirer in a combination of businesses.*

**(ii) Initial recognition**

- a. *Purchase or sale of financial assets that requires transfer of assets within a time frame specified by regulations and normal course of business is recognized on the trade date.*

and for the Year  
Then Ended  
(Expressed in millions of Rupiah,  
unless otherwise stated)**

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

(ii) Pengakuan awal (lanjutan)

- b. Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diukur pada nilai wajar melalui laba rugi, nilai wajar tersebut ditambah biaya transaksi yang dapat diatribusikan secara langsung. Pengukuran aset keuangan dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasinya.

Biaya transaksi hanya meliputi biaya-biaya yang dapat diatribusikan secara langsung untuk perolehan suatu aset keuangan atau penerbitan suatu liabilitas keuangan dan merupakan biaya tambahan yang tidak akan terjadi apabila instrumen keuangan tersebut tidak diperoleh atau diterbitkan. Untuk aset keuangan, biaya transaksi ditambahkan pada jumlah yang diakui pada awal pengakuan aset, sedangkan untuk liabilitas keuangan, biaya transaksi dikurangkan dari jumlah utang yang diakui pada pengakuan awal liabilitas. Biaya transaksi tersebut diamortisasi selama umur instrumen berdasarkan metode suku bunga efektif dan dicatat sebagai bagian dari pendapatan bunga untuk biaya transaksi sehubungan dengan aset keuangan atau sebagai bagian dari beban bunga untuk biaya transaksi sehubungan dengan liabilitas keuangan.

(iii) Pengukuran setelah pengakuan awal

Aset keuangan dalam kelompok yang diukur pada nilai wajar melalui penghasilan komprehensif lain diukur pada nilai wajarnya dan perubahan atas nilai wajar tersebut dicatat pada penghasilan komprehensif lain.

Aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi diukur pada nilai wajarnya dan perubahan diakui pada laba rugi.

Aset keuangan dan liabilitas keuangan yang diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(ii) Initial recognition (continued)

- b. The financial assets and financial liabilities are initially measured at their fair value. In the case of financial assets or financial liabilities that are not measured at fair value through profit or loss, the fair value is increased by transaction costs that can be directly attributed. The measurement of financial assets and financial liabilities after initial recognition depends on their classification.

Transaction costs only include costs that are directly attributable to the acquisition of a financial asset or issuance of a financial liability and are additional costs that would not occur if the financial instrument is not acquired or issued. For financial assets, transaction costs are added to the amount recognized in the initial recognition of the asset, while for financial liabilities, transaction costs are deducted from the amount of debt recognized in the initial recognition of a liability. These transaction costs are amortized over the life of the instrument based on the effective interest rate method and recorded as part of interest income for transaction costs related to the financial asset or as part of interest expense for transaction costs related to financial liabilities.

(iii) Subsequent measurement

Financial assets held at fair value through other comprehensive income are measured at fair value and changes in fair value are recorded in other comprehensive income.

Financial assets and liabilities held at fair value through profit or loss are measured at fair value and changes are recognized in profit or loss.

Financial assets and liabilities measured at amortized cost are measured using the effective interest rate method.

MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

(iv) Penghentian pengakuan

a. Aset keuangan dihentikan  
pengakuannya jika:

- 1) Hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau
- 2) BRI dan entitas anak mentransfer hak untuk menerima arus kas yang berasal dari aset keuangan atau menanggung liabilitas untuk membayarkan arus kas yang diterima tersebut secara penuh tanpa penundaan berarti kepada pihak ketiga di bawah kesepakatan pelepasan (*pass-through arrangement*); dan antara (a) BRI dan entitas anak telah mentransfer secara substansial seluruh risiko dan manfaat atas aset, atau (b) BRI dan entitas anak tidak mentransfer maupun tidak memiliki secara substansial seluruh risiko dan manfaat atas aset, namun telah mentransfer kendali atas aset.

Ketika BRI dan entitas anak telah mentransfer hak untuk menerima arus kas dari aset atau telah memasuki *pass-through arrangement* dan tidak mentransfer serta tidak mempertahankan secara substansial seluruh risiko dan manfaat atas aset atau tidak mentransfer kendali atas aset, aset diakui sebesar keterlibatan BRI dan entitas anak yang berkelanjutan atas aset tersebut.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(iv) Derecognition

a. Financial assets are derecognized  
when:

- 1) The contractual rights to receive cash flows arising from the financial assets have expired; or
- 2) BRI and subsidiaries have transferred their rights to receive cash flows arising from the financial assets or has assumed an obligation to pay the cash flows received in full without significant delay to third parties under a *pass-through arrangement*; and either (a) BRI and subsidiaries have substantially transferred all the risks and rewards of the assets, or (b) BRI and subsidiaries have neither transferred nor retained substantially all the risks and rewards of the assets, but have transferred control of the assets.

When BRI and subsidiaries have transferred its rights to receive cash flows from an asset or has entered into a *pass-through arrangement* and has neither transferred nor retained substantially all the risks and rewards of the asset or has not transferred the control of the asset, the asset is recognized to the extent of BRI and subsidiaries implication of the asset.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

(iv) Penghentian pengakuan (lanjutan)

a. Aset keuangan dihentikan pengakuannya jika (lanjutan):

BRI dan entitas anak melepaskan aset keuangan, seperti kredit yang diberikan, ketika syarat dan kondisi telah direnegosiasi hingga secara substansial, kredit yang diberikan tersebut menjadi baru, dengan perbedaan akan dicatat sebagai keuntungan atau kerugian dari pelepasan, jika kerugian penurunan nilai belum dicatat. Kredit yang diberikan tersebut akan diklasifikasikan sebagai *Stage 1* untuk penilaian *Expected Credit Losses (ECL)*, kecuali kredit yang diberikan tersebut dianggap aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk (*Purchased or Originated Credit-Impaired financial assets - POCI*).

Jika modifikasi tidak akan menghasilkan arus kas yang secara substansi berbeda, maka modifikasi tidak akan berujung pada pelepasan aset. Berdasarkan perbedaan arus kas yang didiskonto pada *Effective Interest Rate (EIR)* awal, BRI akan mencatat keuntungan atau kerugian akibat modifikasi, sampai dengan jumlah kerugian penurunan nilai yang belum diakui.

Pinjaman dan instrumen utang dihapusbukukan ketika tidak ada prospek yang realistis untuk memulihkan aset keuangan secara keseluruhan atau secara parsial. Hal ini pada umumnya terjadi ketika BRI dan entitas anak menentukan bahwa peminjam tidak memiliki aset atau sumber penghasilan yang dapat menghasilkan arus kas yang cukup untuk membayar jumlah yang dihapusbukukan. Namun, aset keuangan yang dihapusbukukan masih bisa dilakukan tindakan penyelamatan sesuai dengan prosedur BRI dan entitas anak dalam rangka pemulihan jumlah yang jatuh tempo.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(iv) Derecognition (continued)

a. Financial assets are derecognized when (continued):

*BRI and subsidiaries derecognize financial assets, such as loans, when the terms and conditions have been renegotiated substantially, so that the granted loan becomes new, with the difference being recorded as a profit or loss from the derecognition, if the impairment loss has not been recorded. Such loan will be classified as Stage 1 for Expected Credit Losses (ECL) assessment, unless the granted loan is considered a purchased or derived financial asset (Purchased or Originated Credit-Impaired Financial Assets - POCI).*

*If the modification will not result in a cash flow that is substantially different, then the modification will not result in the derecognition of the asset. Based on the difference in cash flow discounted at the initial Effective Interest Rate (EIR), BRI will record gains or losses resulting from modifications, up to the amount of impairment losses that have not been recognized.*

*Loans and debt instruments are written off when there is no realistic prospect of recovering financial assets in whole or in part. This generally occurs when the BRI and subsidiaries determines that the borrower does not have assets or sources of income that can generate sufficient cash flow to pay the amount written off. However, the written off financial assets can still be carried out in accordance with the BRI and subsidiaries' mitigation procedures in order to recover the amount due.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

(iv) Penghentian pengakuan (lanjutan)

- a. Aset keuangan dihentikan pengakuannya jika (lanjutan):

Pada saat aset keuangan dihentikan pengakuannya atau terjadi penurunan nilai, maka keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus direklasifikasi ke laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

- b. Liabilitas keuangan dihentikan pengakuannya jika liabilitas keuangan tersebut berakhir, yaitu ketika liabilitas yang ditetapkan dalam kontrak dilepaskan, dibatalkan atau kedaluwarsa.

Jika suatu liabilitas keuangan yang ada digantikan dengan yang lain oleh pemberi pinjaman yang sama pada keadaan yang secara substansial berbeda, atau berdasarkan suatu liabilitas yang ada yang secara substansial telah diubah, maka pertukaran atau modifikasi tersebut diperlakukan sebagai penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru dan perbedaan nilai tercatat masing-masing diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

(v) Pengakuan pendapatan dan beban

- a. Pendapatan dan beban bunga, untuk aset yang diukur pada nilai wajar melalui penghasilan komprehensif lain serta aset keuangan dan liabilitas keuangan yang dicatat berdasarkan biaya perolehan diamortisasi, diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian dengan menggunakan suku bunga efektif.
- b. Keuntungan dan kerugian yang timbul dari perubahan nilai wajar aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi, diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(iv) Derecognition (continued)

- a. Financial assets are derecognized when (continued):

When a financial asset is derecognized or an impairment occurs, the cumulative gain or loss previously recognized both in equity must be reclassified to the consolidated statement of profit or loss and other comprehensive income.

- b. Financial liabilities are derecognized when they end, that is when the liabilities under the contract is discharged, cancelled or has expired.

When an existing financial liability is replaced by another from the same creditor on a substantially different terms, or the terms of an existing liability are substantially modified, then the exchange or modification is treated as derecognition of the initial liability amount and the recognition of a new liability and the difference in the respective carrying amounts is recognized in the consolidated statement of profit or loss and other comprehensive income.

(v) Income and expense recognition

- a. Interest income and expense on financial assets measured at fair value through other comprehensive income as well as financial assets and financial liabilities recorded at amortized cost are recognized in the consolidated statement of profit or loss and other comprehensive income using the effective interest method.
- b. Gains and losses arising from changes in the fair value of the financial assets and liabilities measured at fair value through profit or loss are included in the consolidated statement of profit or loss and other comprehensive income.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

(v) Pengakuan pendapatan dan beban  
(lanjutan)

c. Keuntungan dan kerugian yang timbul dari perubahan nilai wajar dan lainnya atas aset keuangan yang diklasifikasikan dalam kelompok nilai wajar melalui penghasilan komprehensif lain diakui secara langsung dalam ekuitas, kecuali keuntungan atau kerugian akibat perubahan nilai tukar dari *item* moneter, dihentikan pengakuannya atau adanya penurunan nilai dari aset keuangan tersebut.

Jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi aset keuangan sebelum disesuaikan dengan cadangan penurunan nilai.

Dalam menghitung pendapatan dan beban bunga, tingkat bunga efektif diterapkan pada jumlah tercatat bruto aset (ketika aset tersebut bukan aset keuangan memburuk) atau terhadap biaya perolehan diamortisasi dari liabilitas.

Untuk aset keuangan yang memburuk setelah pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan dihitung dengan menerapkan tingkat bunga efektif terhadap nilai tercatat bruto dari aset keuangan tersebut.

Untuk aset keuangan yang telah memburuk pada saat pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan tetap dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(v) Income and expense recognition  
(continued)

c. Gains and losses arising from changes in the fair value of financial assets classified as at fair value through other comprehensive income are recognized directly in equity, except for gains or losses due to changes in the exchange rate of monetary items, derecognition or impairment of the financial asset.

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusted by allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not a deteriorated financial asset) or to the amortized cost of a liability.

For financial assets that have deteriorated after initial recognition, interest income is calculated by applying an effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will be calculated by applying an effective interest rate to the gross carrying amount of the financial asset.

For financial assets that have deteriorated at initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will still be calculated by applying the effective interest rate to the amortized cost of the financial asset.

(lanjutan)**

(vi) Reklasifikasi aset keuangan

BRI dan entitas anak mereklasifikasi aset keuangan jika dan hanya jika, model bisnis untuk pengelolaan aset keuangan berubah. Tidak terdapat reklasifikasi untuk liabilitas keuangan.

(vii) Saling hapus

Aset keuangan dan liabilitas keuangan dilakukan saling hapus dan nilai netonya disajikan dalam laporan posisi keuangan konsolidasian jika dan hanya jika BRI dan entitas anak memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan adanya maksud untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

Hal yang berkekuatan hukum harus tidak kontingen atas peristiwa di masa depan dan harus dapat dipaksakan di dalam situasi bisnis yang normal, peristiwa kegagalan atau kebangkrutan dari entitas atas seluruh pihak lawan.

Pendapatan dan beban disajikan dalam jumlah neto hanya jika diperkenankan oleh Standar Akuntansi Keuangan Indonesia.

(viii) Pengukuran biaya diamortisasi

Biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan adalah jumlah aset keuangan atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok pinjaman, ditambah atau dikurangi amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai pengakuan awal dan nilai jatuh temponya dan dikurangi penurunan nilai.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(vi) Reclassification of financial assets

*BRI and subsidiaries reclassifies financial assets if and only if, the business model for managing financial assets changes. There is no reclassification for financial liabilities.*

(vii) Offsetting

*Financial assets and liabilities are offset and the net amount is presented in the consolidated statement of financial position if and only if, BRI and its subsidiaries has a legal right to offset the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.*

*The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business, event of default, or bankruptcy of the entity over all the counterparties.*

*Income and expenses are presented on a net basis only when permitted by the Indonesian Financial Accounting Standards.*

(viii) Amortized cost measurement

*The amortized cost of a financial asset or financial liability is the amount of the financial asset or financial liability measured at initial recognition, less principal repayments, plus or minus the cumulative amortization using the effective interest rate method calculated from the difference between the amount at initial recognition and the amount at maturity, less any impairment.*

(lanjutan)**

(ix) Pengukuran nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- Di pasar utama untuk aset dan liabilitas tersebut; atau
- Jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Nilai wajar suatu aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset dan liabilitas tersebut dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomik terbaiknya.

BRI dan entitas anak menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan input yang dapat diobservasi yang relevan, dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan konsolidasian dapat dikategorikan pada level hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1: Harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik yang dapat diakses pada tanggal pengukuran.
- Level 2: Input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung.
- Level 3: Input yang tidak dapat diobservasi untuk aset dan liabilitas.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(ix) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the assumption that the transaction to sell an asset or to transfer a liability takes place either:

- In the principal market for the assets and liabilities; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when determining the price of the asset and liability assuming that market participants act in their own best economic interest.

BRI and its subsidiaries use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statement are classified within a fair value hierarchy, based on the lowest input level significant to the overall fair value measurement:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities accessible at the measurement date.
- Level 2: Inputs other than quoted prices included in level 1 for the assets and liabilities, which is directly or indirectly observable.
- Level 3: Unobservable inputs for the assets and liabilities.

**c. Aset keuangan dan liabilitas keuangan  
(lanjutan)**

(ix) Pengukuran nilai wajar (lanjutan)

Untuk aset dan liabilitas yang diakui pada laporan keuangan konsolidasian secara berulang, BRI dan entitas anak menentukan apakah terjadi transfer antara level di dalam hierarki dengan cara mengevaluasi kategori (berdasarkan *input* level terendah yang signifikan dalam pengukuran nilai wajar) setiap akhir periode pelaporan.

BRI dan entitas anak untuk tujuan pengungkapan nilai wajar telah menentukan kelas aset dan liabilitas berdasarkan sifat, karakteristik, risiko aset dan liabilitas, dan level hierarki nilai wajar (Catatan 40).

(x) Aset keuangan sukuk

Berdasarkan PSAK No. 410, BRI dan entitas anak menentukan klasifikasi investasi pada sukuk sebagai berikut:

a. Diukur pada biaya perolehan

- Investasi tersebut dimiliki dalam suatu model usaha yang bertujuan utama untuk memperoleh arus kas kontraktual dan terdapat persyaratan kontraktual dalam menentukan tanggal tertentu atas pembayaran pokok dan atau hasilnya.
- Biaya perolehan sukuk termasuk biaya transaksi, dan selisih antara biaya perolehan dan nilai nominal diamortisasi secara garis lurus selama jangka waktu sukuk dan diakui dalam laba rugi.

b. Diukur pada nilai wajar melalui penghasilan komprehensif lain

- Investasi tersebut dimiliki dalam suatu model usaha yang bertujuan utama untuk memperoleh arus kas kontraktual dan melakukan penjualan sukuk, terdapat persyaratan kontraktual dalam menentukan tanggal tertentu atas pembayaran pokok dan atau hasilnya.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(ix) Fair value measurement (continued)

For assets and liabilities recognized in the consolidated financial statement on a recurring basis, BRI and subsidiaries determine whether transfers have occurred between levels in the hierarchy by re-assess the categories (based on the lowest input level significant to the fair value measurement) at the end of each reporting period.

For the fair value disclosures purposes, BRI and subsidiaries have determined the classes of assets and liabilities based on the nature, characteristics, risks of the asset and liability, and the level of the fair value hierarchy (Note 40).

(x) Sukuk financial assets

Based on SFAS No. 410, BRI and subsidiaries determine the classification of investment in sukuk as follows:

a. Measured at acquisition cost

- The investment is owned in a business model whose main purpose is to obtain contractual cash flows and there are contractual requirements in determining a certain date for the payment of principal and/or results.
- Sukuk acquisition costs include transaction costs, and the difference between acquisition cost and par value is amortized in a straight line over the term of the sukuk and recognized in profit and loss.

b. Measured at fair value through other comprehensive income

- The investment is owned in a business model whose main purpose is to obtain contractual cash flow and make sukuk sales, there are contractual requirements in determining a certain date for the payment of principal and/or proceeds.

(x) Aset keuangan sukuk (lanjutan)

Berdasarkan PSAK No. 410, BRI dan entitas anak menentukan klasifikasi investasi pada sukuk sebagai berikut (lanjutan):

b. Diukur pada nilai wajar melalui penghasilan komprehensif lain (lanjutan)

- Biaya perolehan sukuk termasuk biaya transaksi, dan selisih antara biaya perolehan dan nilai nominal diamortisasi secara garis lurus selama jangka waktu sukuk dan diakui dalam laba rugi.
- Keuntungan atau kerugian dari perubahan nilai wajar diakui dalam penghasilan komprehensif lain setelah memperhitungkan saldo selisih biaya perolehan dan nilai nominal yang belum diamortisasi dan saldo akumulasi keuntungan atau kerugian nilai wajar yang telah diakui dalam penghasilan komprehensif lain sebelumnya. Ketika investasi sukuk dihentikan pengakuannya, akumulasi keuntungan atau kerugian yang sebelumnya diakui dalam penghasilan komprehensif lain direklasifikasi ke laba rugi.

c. Diukur pada nilai wajar melalui laba rugi

Biaya perolehan sukuk tidak termasuk biaya transaksi, dan selisih antara nilai wajar dan jumlah tercatat diakui dalam laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**c. Financial assets and financial liabilities  
(continued)**

(x) Sukuk financial assets (continued)

Based on SFAS No. 410, BRI and subsidiaries determine the classification of investment in sukuk as follows (continued):

b. Measured at fair value through other comprehensive income (continued)

- Sukuk acquisition costs include transaction costs, and the difference between acquisition cost and par value is amortized in a straight line over the term of the sukuk and recognized in profit and loss.
- The gain or loss from the change in fair value is recognized in other comprehensive income after accounting for the balance of the difference between acquisition cost and unamortized par value and the accumulated balance of the gain or loss of fair value that has been recognized in other previous comprehensive income. When sukuk investments derecognized, accumulated gains or losses previously recognized in other comprehensive income are reclassified to profit and loss.

c. Measured at fair value through profit and loss

The cost of sukuk acquisition does not include transaction costs, and the difference between fair value and carrying amount is recognized in profit and loss.

**d. Transaksi dengan pihak-pihak berelasi**

BRI dan entitas anaknya melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK No. 224 tentang "Pengungkapan Pihak-Pihak Berelasi".

Suatu pihak dianggap berelasi dengan BRI dan entitas anak jika:

- 1) Secara langsung atau tidak langsung yang melalui satu atau lebih perantara, suatu pihak (i) mengendalikan, atau dikendalikan oleh, atau berada di bawah pengendalian bersama, dengan BRI dan entitas anak; (ii) memiliki kepentingan dalam BRI dan entitas anak yang memberikan pengaruh signifikan atas BRI dan entitas anak; atau (iii) memiliki pengendalian bersama atas BRI dan entitas anak;
- 2) Suatu pihak yang berada dalam kelompok usaha yang sama dengan BRI dan entitas anak;
- 3) Suatu pihak adalah ventura bersama di mana BRI dan entitas anak sebagai *venturer*;
- 4) Suatu pihak adalah anggota dari personil manajemen kunci BRI dan entitas anak;
- 5) Suatu pihak adalah anggota keluarga dekat dari individu yang diuraikan dalam butir (1) atau (4);
- 6) Suatu pihak adalah entitas yang dikendalikan, dikendalikan bersama atau dipengaruhi signifikan oleh atau untuk dimana hak suara signifikan pada beberapa entitas, langsung maupun tidak langsung, individu seperti diuraikan dalam butir (4) atau (5); dan
- 7) Suatu pihak adalah suatu program imbalan pasca kerja untuk imbalan kerja dari BRI dan entitas anak atau entitas yang terkait dengan BRI dan entitas anak.

Transaksi dengan pihak berelasi dilakukan berdasarkan persyaratan yang disetujui oleh kedua belah pihak, yang mungkin tidak sama dengan transaksi lain yang dilakukan dengan pihak-pihak yang tidak berelasi.

Seluruh transaksi dan saldo yang material dengan pihak-pihak berelasi diungkapkan dalam catatan atas laporan keuangan konsolidasian yang relevan dan rinciannya telah disajikan dalam Catatan 44 atas laporan keuangan konsolidasian.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**d. Transactions with related parties**

*BRI and subsidiaries engage in transactions with related parties as defined in SFAS No. 224 on "Related Parties Disclosures".*

*A party is considered related parties to BRI and subsidiaries if:*

- 1) *Directly or indirectly, through one or more intermediaries, a party (i) controls, or is controlled by, or is under common control with BRI and subsidiaries; (ii) has an interest in BRI and subsidiaries that provides significant influence on BRI and subsidiaries; or (iii) has joint control over BRI and subsidiaries;*
- 2) *It is a related entity with BRI and subsidiaries;*
- 3) *It is a joint venture in which BRI and subsidiaries have ventured in;*
- 4) *It is a member of key management personnel in BRI and subsidiaries or the parent entity;*
- 5) *It is a close family member of the individual described in clause (1) or (4);*
- 6) *It is an entity that is controlled, jointly controlled or significantly influenced by or for whom has significant voting rights in several entities, directly or indirectly, by the individual described in clause (4) or (5); and*
- 7) *It is a post-employment benefit plan for the employees benefit of either BRI and subsidiaries or entities related to BRI and subsidiaries.*

*Transactions with related parties are carried out based on terms agreed between both parties, which may not be the same as other transactions carried out with unrelated parties.*

*All material transactions and balances with related parties are disclosed in the relevant notes to the consolidated financial statement and the details have been presented in Note 44 to the consolidated financial statements.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan**

BRI dan entitas anak mengakui cadangan kerugian penurunan nilai pada instrumen keuangan yang tidak diukur pada nilai wajar melalui laba rugi.

BRI dan entitas anak mengukur cadangan kerugian penurunan nilai sejumlah kerugian kredit ekspektasian seumur hidup, kecuali untuk hal berikut, diukur sejumlah kerugian kredit ekspektasian 12 bulan:

- a. Instrumen utang yang memiliki risiko kredit rendah pada tanggal pelaporan; dan
- b. Instrumen keuangan lainnya yang risiko kreditnya tidak meningkat secara signifikan sejak pengakuan awal.

BRI dan entitas anak menganggap instrumen utang memiliki risiko kredit yang rendah ketika peringkat risiko kreditnya setara dengan definisi *investment grade* yang dipahami secara global.

Kerugian kredit ekspektasian 12 bulan adalah bagian dari kerugian kredit ekspektasian sepanjang umurnya yang merepresentasikan kerugian kredit ekspektasian yang timbul dari peristiwa gagal bayar instrumen keuangan yang mungkin terjadi dalam 12 bulan setelah tanggal pelaporan.

Kerugian yang terjadi diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan dicatat pada akun cadangan kerugian penurunan nilai sebagai pengurang terhadap aset keuangan yang dicatat pada biaya perolehan diamortisasi. Jika pada suatu periode berikutnya, jumlah kerugian penurunan nilai berkurang dan pengurangan tersebut dapat dikaitkan secara objektif pada peristiwa yang terjadi setelah penurunan nilai diakui (seperti meningkatnya peringkat kredit debitur atau penerbit) maka kerugian penurunan nilai yang sebelumnya diakui harus dipulihkan dengan menyesuaikan akun cadangan. Jumlah pemulihan aset keuangan diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian pada periode berjalan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets**

*BRI and subsidiaries recognize the allowance for expected credit losses on financial instruments that are not measured at fair value through profit or loss.*

*BRI and subsidiaries measure the allowance for losses for the lifetime of an expected credit loss, except for the following, which are measured according to 12 months expected credit loss:*

- a. *Debt instruments that have low credit risk at the reporting date; and*
- b. *Other financial instruments for which credit risk has not increased significantly since initial recognition.*

*BRI and subsidiaries consider debt instruments to have low credit risk when the credit risk rating is at par with the globally accepted definition of investment grade.*

*The 12 months expected credit loss is part of the expected credit loss throughout its lifetime that represents an expected credit loss arising from a default on financial instruments that might occur 12 months after reporting date.*

*The loss that occurred is recognized in the consolidated statements of profit or loss and other comprehensive income and recorded on the allowance account for impairment losses as a deduction for financial assets recorded at amortized costs. If in the following period, the amount of impairment losses decreases and the deduction can be objectively attributed to events that occur after the impairment is recognized (such as the increase in the debtor or issuer's credit rating), then the previously recognized impairment loss must be recovered, by adjusting the allowance account. The amount of recovery of financial assets is recognized in the consolidated statements of profit or loss and other comprehensive income in the current period.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan (lanjutan)**

Cadangan kerugian penurunan nilai untuk instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain tidak mengurangi nilai tercatat di dalam aset keuangan di laporan posisi keuangan konsolidasian, yaitu nilai wajar. Cadangan kerugian penurunan nilai diakui sebagai penambah dari penghasilan komprehensif lainnya di dalam laporan posisi keuangan.

Instrumen ekuitas yang diukur pada nilai wajar tidak dilakukan penilaian penurunan nilai sesuai PSAK No. 109.

Pengukuran Kerugian Kredit Ekspektasian

Kerugian Kredit Ekspektasian adalah estimasi probabilitas tertimbang dari kerugian kredit yang diukur sebagai berikut:

- Aset keuangan yang tidak memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini dari seluruh kekurangan kas (yaitu selisih antara arus kas yang terutang kepada BRI dan entitas anak sesuai dengan kontrak dan arus kas yang diperkirakan akan diterima oleh BRI dan entitas anak);
- Aset keuangan yang memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara jumlah tercatat bruto dan nilai kini arus kas masa depan yang diestimasi;
- Komitmen pinjaman yang belum ditarik, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini jumlah arus kas jika komitmen ditarik dan arus kas yang diperkirakan akan diterima oleh BRI dan entitas anak; dan
- Kontrak jaminan keuangan, kerugian kredit ekspektasian diukur sebesar selisih antara pembayaran yang diperkirakan untuk mengganti pemegang atas kerugian kredit yang terjadi dikurangi jumlah yang diperkirakan dapat dipulihkan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

*Expected credit losses for debt instruments measured at fair value through other comprehensive income do not reduce the carrying value in financial assets in the consolidated statements of financial position, i.e. fair value. Expected credit losses are recognized as an increase in other comprehensive income in the statement of financial position.*

*Equity instruments measured at fair value are not assessed for impairment in accordance with SFAS No. 109.*

Measurement of Expected Credit Losses

*Expected Credit Loss is an estimate of the weighted probability of a credit loss measured as follows:*

- *Financial assets that do not deteriorate at the reporting date, the expected credit loss is measured at the difference between the present value of all cash shortages (i.e. the difference between the cash flows owed to the BRI and subsidiaries in accordance with the contract and the cash flows expected to be received by the BRI and subsidiaries);*
- *Financial assets that deteriorate at the reporting date, the expected credit loss is measured at the difference between the gross carrying amount and the present value of estimated future cash flows;*
- *Undisbursed loan commitments, expected credit losses are measured at the difference between the present value of the amount of cash flow if the commitments is withdrawn and the cash flow expected to be received by the Bank;*
- *Financial guarantee contracts, expected credit losses are measured at the difference between the estimated payments to replace the holder for the credit losses incurred less the amount estimated to be recoverable.*

aset keuangan (lanjutan)**

Aset Keuangan yang Direstrukturisasi

Jika ketentuan aset keuangan dinegosiasikan ulang atau dimodifikasi atau aset keuangan yang ada diganti dengan yang baru karena kesulitan keuangan peminjam, maka dilakukan penilaian apakah aset keuangan yang ada harus dihentikan pengakuannya dan kerugian kredit ekspektasian diukur sebagai berikut:

- Jika restrukturisasi tidak mengakibatkan penghentian pengakuan aset yang ada, maka arus kas yang diperkirakan yang timbul dari aset keuangan yang dimodifikasi dimasukkan dalam perhitungan kekurangan kas dari aset yang ada.
- Jika restrukturisasi akan menghasilkan penghentian pengakuan aset yang ada, maka nilai wajar aset baru diperlakukan sebagai arus kas akhir dari aset keuangan yang ada pada saat penghentian pengakuannya. Jumlah ini dimasukkan dalam perhitungan kekurangan kas dari aset keuangan yang ada yang didiskontokan dari tanggal penghentian pengakuan ke tanggal pelaporan menggunakan suku bunga efektif awal dari aset keuangan yang ada.

Aset Keuangan yang Memburuk

Pada setiap tanggal pelaporan, BRI dan entitas anak menilai apakah aset keuangan yang dicatat pada biaya perolehan diamortisasi dan aset keuangan instrumen utang yang dicatat pada nilai wajar melalui penghasilan komprehensif lain mengalami penurunan nilai kredit (memburuk). Aset keuangan memburuk ketika satu atau lebih peristiwa yang memiliki dampak merugikan atas estimasi arus kas masa depan dari aset keuangan telah terjadi.

Bukti bahwa aset keuangan mengalami penurunan nilai kredit (memburuk) termasuk data yang dapat diobservasi mengenai peristiwa berikut ini:

- Kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- Pelanggaran kontrak, seperti peristiwa gagal bayar atau peristiwa tunggakan;

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

Restructured Financial Asset

If the terms of the financial assets are renegotiated or modified or the existing financial assets are replaced with new ones due to the borrower's financial difficulties, an assessment is made whether recognition of existing financial assets must be derecognized and expected credit losses measured as follows:

- If the restructuring does not result in the termination of recognition of existing assets, then the estimated cash flows arising from the modified financial assets are included in the calculation of cash shortages of existing assets.
- If the restructuring will result in a derecognition of the existing assets, the fair value of the new asset is treated as the final cash flow of the existing financial assets at the time of derecognition. This amount is included in the calculation of cash shortages from existing financial assets which are discounted from the date of derecognition to the reporting date using the original effective interest rate of the existing financial assets.

Deteriorated Financial Asset

At each reporting date, BRI and subsidiaries assess whether the financial assets recorded at amortized cost and the financial assets of debt instruments which are recorded at fair value through other comprehensive income are impaired (deteriorated) in credit value. Financial assets deteriorate when one or more events that have an adverse effect on the estimated future cash flows of the financial assets have occurred.

Evidence that financial assets are impaired (deteriorated) credit value including observable data regarding the following events:

- Significant financial difficulties experienced by the issuer or the borrower;
- Breach of contract, such as a default or arrears;

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan (lanjutan)**

Bukti bahwa aset keuangan mengalami penurunan nilai kredit (memburuk) termasuk data yang dapat diobservasi mengenai peristiwa berikut ini (lanjutan):

- Pihak pemberi pinjaman, untuk alasan ekonomik atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, telah memberikan konsesi pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- Terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya;
- Hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan;
- Pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi; atau
- Sulit untuk mengidentifikasi peristiwa diskrit tunggal, namun demikian, dampak kombinasi dari beberapa peristiwa dapat menyebabkan aset keuangan mengalami penurunan nilai kredit.

Aset Keuangan yang Dibeli atau yang berasal dari aset keuangan memburuk

Aset keuangan dikategorikan sebagai POCI apabila terdapat bukti objektif penurunan nilai pada saat pengakuan awal. Pada saat pengakuan awal, tidak ada penyisihan kerugian kredit yang diakui karena harga pembelian atau nilainya telah termasuk estimasi kerugian kredit sepanjang umurnya. Selanjutnya, perubahan kerugian kredit sepanjang umurnya, apakah positif atau negatif, diakui dalam laporan laba rugi sebagai bagian dari penyisihan kerugian kredit.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

*Evidence that financial assets are impaired (deteriorated) credit value including observable data regarding the following events (continued):*

- *The lender, for economic or contractual reasons in relation to the financial difficulties experienced by the borrower, has given concessions to the borrower which is not possible if the borrower does not experience such difficulties;*
- *It is probable that the borrower will enter bankruptcy or other financial reorganization;*
- *Loss of an active market for financial assets due to financial difficulties;*
- *Purchase or issuance of financial assets at a very large discount reflecting credit losses incurred; or*
- *It is difficult to identify a single discrete event, however, the combined impact of multiple events can cause financial assets to experience a decrease in credit value.*

*Purchased or originated credit-impaired financial assets - POCI*

*Financial assets are categorized as POCI if there is objective evidence of impairment at initial recognition. At initial recognition, no allowance for credit losses is recognized because the purchase price or value has included estimated credit losses for the entire lifetime. Furthermore, changes in credit losses over their lifetime, whether positive or negative, are recognized in the statement of profit or loss as part of the allowance for credit losses.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan (lanjutan)**

BRI dan entitas anak melakukan pembagian aset keuangan atas Stage 1, Stage 2, Stage 3, dan POCL, sebagai berikut:

- *Stage 1* : Mencakup instrumen keuangan yang tidak memiliki peningkatan risiko kredit secara signifikan sejak pengakuan awal atau memiliki risiko kredit rendah pada tanggal pelaporan. Untuk instrumen-instrumen keuangan ini akan berlaku perhitungan ECL 12 bulan. Aset keuangan di dalam *Stage 1* termasuk fasilitas dimana risiko kredit telah membaik dan aset keuangan dapat direklasifikasi dari *Stage 2*.
- *Stage 2* : Mencakup instrumen keuangan yang mengalami peningkatan risiko kredit sejak pengakuan awal (kecuali BRI dan entitas anak merasa risiko kredit tergolong rendah pada tanggal pelaporan) namun belum terbukti adanya bukti penurunan nilai secara objektif. Untuk instrumen-instrumen ini akan berlaku perhitungan ECL Seumur Hidup. ECL Seumur Hidup adalah kerugian kredit ekspektasian yang diharapkan dari semua kejadian gagal bayar yang mungkin terjadi selama perkiraan umur dari instrumen keuangan tersebut. *Stage 2* juga mencakup fasilitas dimana risiko kredit telah membaik dan aset keuangan telah direklasifikasi dari *Stage 3*.
- *Stage 3* : Mencakup instrumen keuangan yang telah terbukti mengalami penurunan nilai secara objektif pada tanggal pelaporan. Kelompok ini biasanya terdiri atas debitur yang mengalami gagal bayar. BRI dan entitas anak mencatat cadangan ECL Seumur Hidup.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

BRI and its subsidiaries classify financial assets on Stage 1, Stage 2, Stage 3 and POCL, as follows:

- *Stage 1*: Includes financial instruments that do not have a significant increase in credit risk since initial recognition or have low credit risk as of the reporting date. For these financial instruments, a 12 months ECL calculation will apply. Financial assets in *Stage 1* include facilities where credit risk has improved and financial assets can be reclassified from *Stage 2*.
- *Stage 2*: Includes financial instruments that have experienced an increase in credit risk since the initial recognition (unless BRI and its subsidiaries consider the credit risk is relatively low as of the reporting date), but there has been no evidence of an objective impairment. For these instruments, a lifetime ECL calculation will apply. Lifetime ECL is the expected credit loss of all possible default events during the estimated life of the financial instrument. *Stage 2* also includes facilities where credit risk has improved and financial assets have been reclassified from *Stage 3*.
- *Stage 3* : Includes financial instruments that have been objectively impaired as of the reporting date. This classification usually consists of debtors who have defaulted. BRI and its subsidiaries record lifetime ECL allowances.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan (lanjutan)**

BRI dan entitas anak melakukan pembagian aset keuangan atas Stage 1, Stage 2, Stage 3, dan POCl, sebagai berikut (lanjutan):

- POCl : Aset POCl adalah aset keuangan yang mengalami penurunan nilai berdasarkan penilaian risiko kredit pada saat pengakuan awal. Aset tersebut dicatat pada nilai wajar pada saat pengakuan awal, dan pendapatan bunga akan diakui selanjutnya berdasarkan metode suku bunga efektif yang disesuaikan. Cadangan ECL hanya dicatat atau dilepaskan jika ada perubahan selanjutnya pada kerugian kredit ekspektasian.

Terdapat kriteria kualitatif dan kuantitatif untuk memastikan aset keuangan tercakup dalam stage tertentu.

Perhitungan penurunan nilai secara individual dilakukan untuk aset keuangan yang signifikan dan pernah mengalami gagal bayar ataupun restrukturisasi. Selain itu, perhitungan penurunan nilai akan dilakukan secara kolektif.

**Penurunan nilai individual**

Metode perhitungan penurunan nilai secara individual akan mempertimbangkan 3 (tiga) skenario kemungkinan pengembalian, yaitu: (i) skenario dasar (*Base*), (ii) skenario buruk (*Bad*), dan (iii) skenario terburuk (*Worst*). Pembuatan skenario dilakukan dengan menggunakan metode *discounted cash flow* (DCF) dan mempertimbangkan *confidence level* yang menggambarkan kondisi industri dan perusahaan terkait. Nantinya ECL yang dihasilkan oleh masing-masing skenario akan dirata-ratakan secara tertimbang terhadap bobot skenario yang telah diatur.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

BRI and its subsidiaries classify financial assets on Stage 1, Stage 2, Stage 3 and POCl, as follows (continued):

- POCl : POCl assets are financial assets that experience impairment based on credit risk assessment at the time of initial recognition. The asset is recorded at fair value at the time of initial recognition, and interest income will be further recognized based on the adjusted effective interest rate method. ECL allowances are only recorded or reversed if there are further changes to expected credit losses.

There are qualitative and quantitative criteria to ensure financial assets are covered in certain stages.

Individual impairments are calculated for significant financial assets that have experienced default or restructuring. Aside from individual impairment, the impairment will be calculated collectively.

**Individual impairment**

The calculation method of individual impairment will take into account 3 (three) possible return scenarios, namely: (i) the base scenario, (ii) the bad scenario, and (iii) the worst-case scenario. Scenario creation is done using *discounted cash flow* (DCF) method and considering confidence level that describes the condition of the industry and related companies. ECL generated by each scenario will later be weighted against the weight of the scenario that has been set.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan (lanjutan)**

Penurunan nilai kolektif

Evaluasi penurunan nilai secara kolektif didasarkan pada konsep *Probability of Default* (PD), *Loss Given Default* (LGD), dan *Exposure at Default* (EAD) yang mempertimbangkan informasi masa lalu, terkini, dan masa mendatang.

BRI dan entitas anak menggunakan model (i) *Scalar Bayesian model*, (ii) *Credit Index* dan (iii) *Vasicek* maupun pendekatan lainnya dalam menentukan nilai PD dari setiap debitur.

BRI dan entitas anak menggunakan metode (i) *Historical*, (ii) *Diminish Balance*, dan (iii) *Value to Loan* dalam menentukan nilai LGD dari setiap debitur. LGD menggambarkan persentase nominal fasilitas yang tidak akan dapat di-recover oleh Bank terhadap debitur yang mengalami default. LGD dihitung sebagai 1-Recovery Rate. Perhitungan Recovery Rate dilakukan dengan mempertimbangkan *workout period* untuk memperoleh *optimum time to recovery* dan *Time Value of Money* dari pengembalian dari kewajiban yang telah default. Tingkat suku bunga yang digunakan untuk menghitung *Time Value of Money* dari Recovery adalah EIR awal.

EAD merupakan estimasi nilai buku pada saat terjadi gagal bayar, dengan mempertimbangkan arus kas instrumen keuangan terkait, serta kemungkinan penarikan tambahan dari limit kredit sampai dengan tanggal gagal bayar. EAD juga mempertimbangkan jadwal pembayaran dan amortisasi serta perubahan dalam utilisasi saldo yang belum ditarik menjelang terjadinya kegagalan bayar. Pemodelan EAD akan dilakukan berdasarkan karakteristik dari instrumen keuangan terkait, yang dibagi ke dalam beberapa kategori: (i) kredit angsuran, (ii) kredit *revolving*, (iii) *trade finance*, dan (iv) *treasury*.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

*Collective impairment*

*The collective impairment evaluation is based on the concepts of Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD) that consider information from past, current, and future events.*

*BRI and its subsidiaries use the (i) Scalar Bayesian model, (ii) Credit Index, and (iii) Vasicek and other approaches in determining the PD value of each debtor.*

*BRI and its subsidiaries use the (i) Historical, (ii) Diminish Balance, and (iii) Value to Loan methods in determining the LGD value of each debtor. LGD describes the nominal percentage of facilities that the Bank will not be able to cover against defaulted debtors. LGD is usually calculated with a 1-Recovery Rate. Recovery Rate is calculated by incorporating the workout period to determine the optimum time to recovery and considering the Time Value of Money from the return of the obligation that has defaulted. The interest rate used to calculate the Time Value of Money from Recovery is the initial Effective Interest Rate (EIR).*

*Exposure at Default (EAD) is an estimation of the book value at the time of default, which considers the cash flow of relevant financial instruments, as well as the possibility of additional withdrawals from the credit limit up to the date of default. EAD also considers payment schedules and amortization as well as changes in the utilization of undrawn loan facilities ahead of the default. EAD modeling is conducted based on the characteristics of related financial instruments, which are divided into several categories: (i) installment credits, (ii) revolving credits, (iii) trade finance, and (iv) treasury.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**e. Cadangan kerugian penurunan nilai atas  
aset keuangan (lanjutan)**

Pengukuran ECL berdasarkan PSAK No. 109 mewajibkan BRI dan entitas anak untuk memodelkan ECL sesuai dengan skenario *forward-looking* yang ada, dengan mempertimbangkan kemungkinan ekonomi baik dan buruk. Oleh karena itu, nilai ECL yang dihasilkan BRI dan entitas anak harus berdasarkan hasil probabilitas dari tiga skenario (kasus ekonomi normal, baik, dan buruk). PD akan dihitung menurut tiga skenario dengan nilai makro-ekonomi sesuai dengan skenario-skenario tersebut. Bobot dari skenario baik, normal dan buruk dapat disesuaikan seiring dengan perubahan kondisi ekonomi dan diskresi BRI dan entitas anak.

Penyajian Penyisihan Kerugian Kredit  
Ekspektasian dalam Laporan Posisi Keuangan

Penyisihan kerugian kredit ekspektasian disajikan dalam laporan posisi keuangan sebagai berikut:

- Aset keuangan yang diukur pada biaya perolehan diamortisasi, cadangan kerugian penurunan nilai disajikan sebagai pengurang dari jumlah tercatat bruto aset;
- Komitmen pinjaman dan kontrak jaminan keuangan, umumnya penyisihan kerugian kredit ekspektasian disajikan sebagai provisi; dan
- Instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, cadangan kerugian penurunan nilai tidak diakui dalam laporan posisi keuangan sebagai pengurang nilai tercatat karena jumlah tercatat dari aset-aset ini adalah nilai wajarnya. Namun, cadangan kerugian penurunan nilai diungkapkan dan diakui dalam penghasilan komprehensif lain dalam laporan posisi keuangan konsolidasian.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**e. Allowance for impairment losses on  
financial assets (continued)**

ECL measurements based on SFAS No. 109 require the Bank to model ECL according to existing forward-looking scenarios, taking into account the possibilities of economic conditions. Therefore, the ECL value generated by the Bank must be based on the probability results of three scenarios (normal economic cases, good and bad). PD will be calculated according to three scenarios with macro-economic values according to those scenarios. The weight of good, normal, and bad scenarios can be adjusted in line with changes in economic conditions and BRI and subsidiaries' discretion.

Presentation of Expected Credit Loss Allowance  
in Statement of Financial Position

The allowance for expected credit loss is presented in the statement of financial position as follow:

- For financial assets measured at amortized cost, allowance for expected credit losses is presented as a deduction from the gross carrying amount of the asset;
- For loan commitments and financial guarantee contracts, generally allowance for expected credit losses is presented as a provision; and
- For debt instruments measured at fair value through other comprehensive income, allowance for expected loan losses are not recognized in the statement of financial position as a deduction in carrying value because the carrying amounts of these assets are their fair values. However, allowance for expected loan losses is disclosed and recognized in other comprehensive income in consolidated statement of financial position.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**f. Giro pada Bank Indonesia dan bank lain**

Giro pada Bank Indonesia dan bank lain dinyatakan sebesar biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi cadangan kerugian penurunan nilai. Giro pada Bank Indonesia dan bank lain diklasifikasikan sebagai biaya perolehan diamortisasi.

**g. Penempatan pada Bank Indonesia dan lembaga keuangan lain**

Penempatan pada Bank Indonesia dan lembaga keuangan lain adalah penanaman dana pada Bank Indonesia berupa *Deposit Facility*, dan *Term Deposit*, sedangkan penempatan dana pada bank lain merupakan penanaman dana dalam bentuk penempatan pada pasar uang (*inter-bank call money*), deposito berjangka, *banker's acceptance*, dan *margin deposit*.

Penempatan pada Bank Indonesia dan lembaga keuangan dinyatakan sebesar biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi cadangan kerugian penurunan nilai. Penempatan pada Bank Indonesia dan lembaga keuangan lain diklasifikasikan masing-masing sebagai biaya perolehan diamortisasi.

**h. Efek-efek**

Efek-efek terdiri atas surat berharga yang diperdagangkan di pasar uang dan modal seperti Sertifikat Bank Indonesia, Sertifikat Bank Indonesia Syariah, Obligasi Pemerintah, obligasi subordinasi, unit penyertaan reksadana, *Medium-Term Notes*, *U.S. Treasury Bonds*, *U.S. Treasury Bills*, *Singapore Government Securities*, *Negotiable Certificate of Deposits*, *Monetary Authority of Singapore (MAS) bills*, Obligasi Pemerintah Taiwan, dan surat berharga komersial lainnya serta obligasi yang diperdagangkan di bursa efek.

Termasuk di dalam efek-efek adalah obligasi yang diterbitkan oleh Pemerintah yang tidak terkait dengan program rekaptalisasi seperti Surat Utang Negara (SUN), Surat Perbendaharaan Negara (SPN) dan obligasi Pemerintah dalam mata uang asing yang diperoleh melalui pasar perdana dan juga pasar sekunder.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**f. Current account with Bank Indonesia and other bank**

*Current accounts with Bank Indonesia and other banks are recognized at amortized cost using the effective interest rate method minus the allowance for impairment losses. Current accounts with Bank Indonesia and other banks are classified as amortized cost.*

**g. Placement with Bank Indonesia and other Financial Institutions**

*Placements with Bank Indonesia and other Financial Institutions are investment funds in Bank Indonesia in the form of Deposit Facility and Term Deposits, while placement of funds to other financial institutions are investment in the form of placement in the money market (Inter-bank call money), time deposits, banker's acceptance, and margin deposit.*

*Placements with Bank Indonesia and other Financial Institutions are stated at amortized cost using the effective interest rate method minus the allowance for impairment losses. The placements with Bank Indonesia and other Financial Institutions are classified respectively as amortized cost.*

**h. Securities**

*Securities consist of securities traded in the money and capital market such as Bank Indonesia Certificates, Sharia Bank Indonesia Certificates, Government bonds, subordinated bonds, mutual fund units, Medium-Term Notes, U.S. Treasury Bonds, U.S. Treasury Bills, Singapore Government Securities, Negotiable Certificates of Deposit, Monetary Authority of Singapore (MAS) bills, Taiwan government Bonds, and other commercial bonds traded in the stock exchange.*

*Securities include bonds issued by the Government that are not related with the recapitalization program such as Government Debentures (Surat Utang Negara or SUN), Government Treasury Bills (Surat Perbendaharaan Negara or SPN) and Government bonds in foreign currency obtained from primary and secondary markets.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**h. Efek-efek (lanjutan)**

Efek-efek pada awalnya disajikan sebesar nilai wajarnya. Setelah pengakuan awal, efek-efek dicatat sesuai dengan kategorinya yaitu biaya perolehan diamortisasi, nilai wajar melalui penghasilan komprehensif lain atau nilai wajar melalui laba rugi.

Penilaian efek-efek didasarkan atas klasifikasinya sebagai berikut:

- 1) Efek-efek yang diklasifikasikan sebagai biaya perolehan yang diamortisasi diukur dengan biaya perolehan yang diamortisasi menggunakan metode suku bunga efektif. Pendapatan bunga diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian menggunakan metode suku bunga efektif.
- 2) Efek-efek yang diklasifikasikan sebagai nilai wajar melalui laba rugi (FVTPL) diukur dengan menggunakan nilai wajar. Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Atas penjualan portofolio efek-efek dan obligasi pemerintah untuk nilai wajar melalui laba rugi, perbedaan antara harga jual dengan harga beli diakui sebagai keuntungan atau kerugian penjualan pada tahun dimana efek-efek dan obligasi pemerintah tersebut dijual.
- 3) Efek-efek yang diklasifikasikan sebagai nilai wajar melalui penghasilan komprehensif lain (FVTOCI) diukur dengan menggunakan nilai wajar. Pendapatan bunga diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian menggunakan metode suku bunga efektif. Perubahan nilai wajar diakui langsung dalam ekuitas sampai efek-efek dan obligasi pemerintah dijual atau mengalami penurunan nilai, dimana akumulasi keuntungan dan kerugian yang sebelumnya diakui dalam ekuitas diakui dalam laporan laba rugi penghasilan komprehensif lain konsolidasian.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**h. Securities (continued)**

*Securities are initially recorded at fair value. After initial recognition, the securities are recorded based on its category at amortized cost, fair value through other comprehensive income, or fair value through profit or loss.*

*Securities measurement are based on the following classification:*

- 1) *Securities classified as amortized cost are recorded at amortized acquisition cost using effective interest rate method. Interest income is recognized in the consolidated statements profit or loss and other comprehensive income using the effective interest rate method.*
- 2) *Securities classified as trading (fair value through profit or loss) are stated at fair value. Gains and losses arising from changes in fair value of Securities are recognized in the consolidated statements of profit or loss and other comprehensive income. On the sale of a portfolio of securities for fair value through profit and loss, the difference between the sale price and purchase price is recognized as the gain or loss of sale in the year in which the securities were sold.*
- 3) *Securities classified as fair value through other comprehensive income are stated at fair value. Interest income is recognized in the consolidated statements of profit or loss and other comprehensive income by using effective interest rate methods. Fair value changes are directly recognized in equity until the securities are sold or impaired, and cumulative gains and losses which previously recognized in equity should be recognized in the consolidated statements of profit or loss and other comprehensive income.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**i. Wesel ekspor dan tagihan lainnya**

Wesel ekspor dan tagihan lainnya adalah wesel ekspor yang dinegosiasikan secara diskonto dan dijaminan oleh bank lainnya sedangkan wesel tagih merupakan tagihan ataupun dokumen penagihan dalam bentuk wesel/*bill of exchange* kepada pihak tertagih/*drawee* atas dasar diskonto ataupun suatu pembiayaan tertentu. Wesel ekspor dan tagihan lainnya dicatat pada biaya perolehan diamortisasi setelah dikurangi cadangan kerugian penurunan nilai.

**j. Kredit yang diberikan**

Kredit yang diberikan adalah penyediaan uang atau tagihan yang dapat dipersamakan dengan itu, berdasarkan persetujuan atau kesepakatan pinjam-meminjam dengan debitur yang mewajibkan debitur untuk melunasi utangnya setelah jangka waktu tertentu dengan imbalan bunga.

Kredit yang diberikan pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung dan merupakan biaya tambahan untuk memperoleh aset keuangan tersebut dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi dengan cadangan kerugian penurunan nilai.

Kredit yang diberikan diklasifikasikan sebagai biaya perolehan diamortisasi.

Kredit dalam rangka pembiayaan bersama (kredit sindikasi) dinyatakan sebesar pokok kredit sesuai dengan porsi risiko yang ditanggung oleh BRI dan entitas anak.

Kredit yang direstrukturisasi disajikan sebesar nilai yang lebih rendah antara nilai tercatat kredit pada tanggal restrukturisasi atau nilai kini penerimaan kas masa depan setelah restrukturisasi. Kerugian akibat selisih antara nilai tercatat kredit pada tanggal restrukturisasi dengan nilai tunai penerimaan kas masa depan setelah restrukturisasi diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Setelah restrukturisasi, semua penerimaan kas masa depan yang ditetapkan dalam persyaratan baru dicatat sebagai pengembalian pokok kredit yang diberikan dan pendapatan bunga sesuai dengan syarat-syarat restrukturisasi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**i. Export bills and other receivables**

*Export bills and other receivables are export bills that are negotiated on a discounted basis and guaranteed by other banks while notes receivable is a bill or billing document in the form of a bill of exchange to the collectible party/drawee on the basis of a discount or a particular financing. Export bills and other receivables are recorded at amortized costs after deducting allowance for impairment losses.*

**j. Loans**

*Loans represent the granting of money or other similar form of receivables under agreements or borrowing and lending commitments with debtors, whereby the debtors are required to repay their debts after a specified period of time in return for interest.*

*Loans are initially measured at fair value plus transaction costs that are directly attributable and incremental costs to obtain the financial assets and after the initial recognition measured at amortized cost using the effective interest rate method less allowance for impairment losses.*

*Loans are classified as amortized cost.*

*Syndicated loans are stated at the loans' principal amount to the extent of the risks borne by BRI and subsidiaries.*

*Restructured loans are stated at the lower of the carrying amount on the date of restructuring or the present value of future cash receipts after the restructuring. Losses resulting from the difference between the carrying amount on the date of restructuring and the present value of future cash inflows after the restructuring are recognized in the consolidated statement of profit or loss and other comprehensive income. After the restructuring, all future cash inflows specified by the new terms are recorded as a principal payment of loans and interest income in accordance with the terms of the restructuring.*

MATERIAL (lanjutan)**

**j. Kredit yang diberikan (lanjutan)**

Kredit yang diberikan dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian di masa yang akan datang dan semua jaminan telah diupayakan untuk direalisasi atau sudah diambil alih. Kredit yang tidak dapat dilunasi dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai. Penerimaan kembali atas aset keuangan yang dihapusbuku diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian pada tahun berjalan.

**k. Pinjaman syariah**

Pinjaman yang diberikan terutama terdiri dari piutang *murabahah*, pembiayaan *mudharabah*, dan pembiayaan *musyarakah*.

*Murabahah* adalah akad jual beli antara nasabah dengan entitas anak, dimana entitas anak membiayai kebutuhan konsumsi, investasi dan modal kerja nasabah yang dijual dengan harga pokok ditambah dengan keuntungan yang diketahui dan disepakati bersama. Pembayaran atas pembiayaan ini dilakukan dengan cara mengangsur dalam jangka waktu yang ditentukan.

Piutang *murabahah* pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung dan merupakan biaya tambahan untuk memperoleh aset keuangan tersebut dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode *margin* efektif dikurangi dengan cadangan kerugian penurunan nilai.

*Mudharabah* adalah akad pembiayaan kerjasama antara entitas anak sebagai pemilik dana (*shahibul maal*) dengan nasabah sebagai pelaksana usaha (*mudharib*) selama jangka waktu tertentu. Pembagian hasil keuntungan dari proyek atau usaha tersebut ditentukan sesuai dengan *nisbah* (*pre-determined ratio*) yang telah disepakati bersama. Pada tanggal laporan posisi keuangan, pembiayaan *mudharabah* dinyatakan sebesar saldo pembiayaan dikurangi dengan saldo cadangan kerugian penurunan nilai yang dibentuk berdasarkan hasil *review* oleh manajemen terhadap kualitas pembiayaan yang ada.

POLICIES INFORMATION (continued)**

**j. Loans (continued)**

Loans are written-off when there is no realistic prospect of collections in the future and all collateral have been sought to be realized or foreclosed. The uncollectible loans are written-off against the allowance for impairment losses. Recovery for financial assets that have been written-off is recognized in the consolidated statements of profit or loss and other comprehensive income in the current year.

**k. Sharia loans**

These receivables consist of *murabahah* receivables, *mudharabah* financing and *musyarakah* financing.

*Murabahah* is a sale and purchase contract between the customer and subsidiary, whereby the subsidiary finance the consumption, investment and working capital needs of the customers that are sold with a principal price plus a given margin that is mutually informed and agreed. Payments on this financing is made in installments for a specified period of time.

*Murabahah* receivables are initially measured at fair value plus directly attributable transaction costs and is the additional cost to obtain the financial assets. After the initial recognition, *Murabahah* receivables are measured at amortized cost using the effective margin method less allowance for impairment losses.

*Mudharabah* is a joint financing contract between subsidiaries as the owner of the funds (*shahibul maal*) and the customer as a business executor (*mudharib*) for a certain period of time. The profit sharing from the project or business is determined in accordance with the mutually agreed *nisbah* (*pre-determined ratio*). On the statement of financial position date, *mudharabah* financing is stated at the outstanding financing balance less allowance for impairment losses which is provided based on the management's review of the existing financing quality.

*Musarakah* adalah akad kerjasama yang terjadi di antara para pemilik modal (mitra *musarakah*) untuk menggabungkan modal dan melakukan usaha secara bersama dalam suatu kemitraan dengan *nisbah* pembagian hasil sesuai dengan kesepakatan, sedangkan kerugian ditanggung secara proporsional sesuai dengan kontribusi modal. Pada tanggal laporan posisi keuangan, pembiayaan *musarakah* dinyatakan sebesar saldo pembiayaan dikurangi dengan saldo cadangan kerugian penurunan nilai yang dibentuk berdasarkan hasil *review* oleh manajemen terhadap kualitas pembiayaan yang ada.

*Musarakah* is a partnership contract among capital owners (*musarakah partners*) to join the capital and conduct a business on a joint basis through partnership with an agreed profit-sharing *nisbah*, while the losses are borne proportional to the capital contribution. On the statement of financial position date, *musarakah* financing is stated at the outstanding financing balance less allowance for impairment losses which is provided based on the management's review on the existing financing quality.

**l. Piutang sewa pembiayaan**

**l. Finance lease receivables**

Piutang sewa pembiayaan merupakan jumlah piutang sewa pembiayaan ditambah nilai sisa yang akan diterima pada akhir masa sewa pembiayaan dikurangi dengan pendapatan sewa pembiayaan tangguhan, simpanan jaminan dan cadangan kerugian penurunan nilai. Selisih antara nilai piutang usaha bruto dan nilai tunai piutang diakui sebagai pendapatan sewa pembiayaan tangguhan.

Finance lease receivables represent lease receivables plus the residual value at the end of the lease period and stated net of unearned lease income, security deposits and allowances for impairment losses. The difference between the gross lease receivable and the present value of the lease receivable is recognized as unearned lease income.

Pendapatan sewa pembiayaan yang ditanggihkan diakui sebagai pendapatan sewa pembiayaan menggunakan metode suku bunga efektif.

Unearned financing lease income is recognized as financing lease income using effective interest rates method.

Penyewa pembiayaan memiliki hak opsi untuk membeli aset yang disewakan pada akhir masa sewa pembiayaan dengan harga yang telah disetujui bersama pada saat dimulainya perjanjian sewa pembiayaan.

The lessee has the option to purchase the leased asset at the end of the lease period at a price mutually agreed upon at the commencement of the agreement.

Penyelesaian kontrak sebelum masa sewa pembiayaan berakhir diperlakukan sebagai pembatalan kontrak sewa dan laba atau rugi yang timbul diakui dalam laporan laba rugi dan penghasilan komprehensif lain tahun berjalan.

Early termination is treated as a cancellation of an existing contract and the resulting gain or loss is credited or charged to the current year statement of profit or loss and other comprehensive income.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**I. Piutang sewa pembiayaan (lanjutan)**

Entitas anak sebagai lessor

Dalam sewa pembiayaan, entitas anak sebagai lessor mengakui aset berupa piutang sewa pembiayaan di laporan posisi keuangan sebesar jumlah yang sama dengan sewa pembiayaan neto. Penerimaan piutang sewa diperlakukan sebagai pembayaran pokok dan penghasilan pembiayaan.

Pengakuan pendapatan sewa pembiayaan didasarkan pada suatu pola yang mencerminkan suatu tingkat pengembalian periodik yang konstan atas investasi neto entitas anak sebagai lessor dalam sewa pembiayaan.

Dalam sewa menyewa operasi, entitas anak mengakui aset untuk sewa operasi di laporan posisi keuangan sesuai sifat aset tersebut. Biaya langsung awal sehubungan proses negosiasi sewa operasi ditambahkan ke nilai tercatat dari aset sewaan dan diakui sebagai beban selama masa sewa dengan dasar yang sama dengan pendapatan sewa. Rental kontinjen, apabila ada, diakui sebagai pendapatan pada periode terjadinya. Pendapatan sewa operasi diakui sebagai pendapatan atas metode garis lurus selama masa sewa.

Piutang sewa pembiayaan diklasifikasikan sebagai aset keuangan yang diukur pada biaya perolehan diamortisasi.

Restrukturisasi piutang sewa pembiayaan dapat dilakukan dengan cara pengalihan pembiayaan, melanjutkan pembiayaan, mengangsur kembali, mengubah jatuh tempo, mengubah tenor dan/atau menambah *down payment*.

Kerugian yang timbul dari restrukturisasi piutang sewa pembiayaan yang berkaitan dengan modifikasi persyaratan pembiayaan hanya diakui bila nilai tunai penerimaan kas masa depan yang telah ditentukan dalam persyaratan pembiayaan yang baru, termasuk penerimaan yang diperuntukkan sebagai bunga maupun pokok, adalah lebih kecil dari nilai pembiayaan yang diberikan yang tercatat sebelum restrukturisasi di laporan keuangan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**I. Finance lease receivables (continued)**

The subsidiary as a lessor

Under a finance lease, the Subsidiary as a lessor recognizes assets held under a finance lease in its statement of financial position and present them as a receivable at an amount equal to the net investment in direct financing leases.

Lease payment receivable is treated as repayment of principal and finance income. The recognition of lease income is based on a pattern reflecting a constant periodic rate of return on the Subsidiaries' net investment in direct financing lease.

Under an operating lease, the Subsidiary presents assets subject to operating leases in its statement of financial position according to the nature of the asset. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents, if any, are recognized as revenue in the periods in which they are earned. Lease income from operating leases is recognized as income on a straight-line method over the lease term.

Finance lease receivables are classified as financial assets measured at amortized cost.

Finance lease restructuring can be done by over contract, asset replacement, repay back, change in due date, change in tenor and/or increase in down payment.

Losses on finance lease restructuring in respect of modification of the terms of the financing are recognized only if the cash value of total future cash receipt specified in the new terms of the loans, including both receipts designated as interest, and those designated as financing principal, are less than the recorded amounts of financing before restructuring in financial statements.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**I. Piutang sewa pembiayaan (lanjutan)**

Piutang pembiayaan konsumen

Piutang pembiayaan konsumen neto merupakan total piutang setelah dikurangi pendapatan pembiayaan konsumen yang belum diakui dan cadangan kerugian penurunan nilai.

Piutang pembiayaan konsumen diakui pada awalnya dengan nilai wajar ditambah biaya-biaya transaksi dan dikurangi *yield enhancing income* yang dapat diatribusikan secara langsung dan selanjutnya diukur dengan biaya perolehan diamortisasi menggunakan metode tingkat bunga efektif. Piutang pembiayaan konsumen diklasifikasikan sebagai aset keuangan yang diukur pada biaya perolehan diamortisasi.

Pendapatan pembiayaan konsumen yang belum diakui merupakan selisih antara jumlah keseluruhan pembayaran angsuran yang akan diterima dari konsumen dan jumlah pokok pembiayaan, yang diakui sebagai pendapatan selama jangka waktu kontrak berdasarkan tingkat suku bunga efektif dari piutang pembiayaan konsumen.

Penyelesaian kontrak sebelum masa pembiayaan konsumen berakhir diperlakukan sebagai pembatalan kontrak pembiayaan konsumen dan keuntungan atau kerugian yang timbul diakui dalam laporan laba rugi dan penghasilan komprehensif lain tahun berjalan pada tanggal terjadinya transaksi.

Restrukturisasi pembiayaan konsumen dapat dilakukan dengan cara pengalihan pembiayaan, melanjutkan pembiayaan, mengangsur kembali, mengubah jatuh tempo, mengubah tenor dan/atau menambah *down payment*.

Kerugian yang timbul dari restrukturisasi pembiayaan konsumen yang berkaitan dengan modifikasi persyaratan pembiayaan hanya diakui bila nilai tunai penerimaan kas masa depan yang telah ditentukan dalam persyaratan pembiayaan yang baru, termasuk penerimaan yang diperuntukkan sebagai bunga maupun pokok, adalah lebih kecil dari nilai pembiayaan yang diberikan yang tercatat sebelum restrukturisasi di laporan keuangan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**I. Finance lease receivables (continued)**

Consumer financing receivables

Net consumer financing receivables are presented net of amounts financed, unearned consumer financing income and allowance for impairment losses.

Consumer financing receivables are recognized initially at fair value, added with directly attributable transactions costs and deducted by yield enhancing income, and subsequently measured at amortized cost using the effective interest rate method. Consumer financing receivables are classified as financial assets measured at amortized cost.

Consumer financing receivables presented the difference between total installment payments to be received from customer with total principal amount, recognized as an income over the contract term based on the effective interest rate of consumer financing receivables.

The completion of the contract before its maturity is treated as a cancellation of an existing contract and the resulting gain or loss is recognized in the current year statement of profit or loss and other comprehensive income at the transaction date.

Financing consumer restructuring can be done by over contract, asset replacement, repay back, change in due date, change in tenor and/or increase in down payment.

Losses on financing consumer restructuring in respect of modification of the terms of the financing are recognized only if the cash value of total future cash receipt specified in the new terms of the financing, including both receipts designated as interest, and those designated as loan principal, are less than the recorded amounts of financing before restructuring in financial statements.

**l. Piutang sewa pembiayaan (lanjutan)**

Tagihan anjak piutang

Anjak piutang dicatat sebesar nilai piutang yang diperoleh dan dinyatakan sebesar nilai neto yang dapat direalisasi, setelah dikurangi pendapatan anjak piutang ditanggguhkan. Selisih antara tagihan anjak piutang dengan jumlah pembayaran ke konsumen diakui sebagai pendapatan anjak piutang ditanggguhkan, yang akan diakui sebagai pendapatan anjak piutang berdasarkan proporsi waktu selama periode kontrak menggunakan tingkat suku bunga efektif.

Anjak piutang diklasifikasikan sebagai aset keuangan yang diukur pada biaya perolehan diamortisasi.

**m. Tagihan dan liabilitas akseptasi**

Tagihan dan liabilitas akseptasi merupakan transaksi *Letter of Credit (L/C)* dan Surat Kredit Berdokumen Dalam Negeri (SKBDN) yang diaksepi oleh bank pengaksepi (*accepting bank*).

Tagihan dan liabilitas akseptasi dinyatakan sebesar biaya perolehan diamortisasi. Tagihan akseptasi disajikan setelah dikurangi cadangan kerugian penurunan nilai.

Tagihan akseptasi diklasifikasikan sebagai biaya perolehan diamortisasi dan liabilitas akseptasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

**n. Penyertaan saham**

Investasi BRI pada entitas asosiasi diukur dengan menggunakan metode ekuitas. Entitas asosiasi adalah suatu entitas dimana BRI mempunyai pengaruh signifikan atau kepemilikan saham lebih dari 20% hak suara. Pengakuan awal investasi pada entitas asosiasi diakui sebesar biaya perolehan, dan jumlah tercatat tersebut ditambah atau dikurangkan untuk mengakui bagian BRI atas laba rugi entitas asosiasi setelah tanggal perolehan. Bagian BRI atas laba rugi entitas asosiasi diakui dalam laba rugi BRI. Penerimaan distribusi dari entitas asosiasi mengurangi nilai tercatat investasi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**l. Finance lease receivables (continued)**

Factoring receivables

Factoring receivables are recognized at the amounts of receivables acquired and are presented at the realizable value, net of deferred income. The difference between the factoring receivables and the amount of payments made to the client is recognized as deferred factoring income and will be recognized as factoring income over the terms of the respective factoring agreements using the effective interest rate.

Factoring receivables are classified as financial assets measured at amortized cost.

**m. Acceptances receivable and payable**

Acceptances receivable and payable represent *Letter of Credit (L/C)* and Domestic Document *Letter of Credit* transactions that are accepted by the accepting banks.

Acceptances receivable and payable are stated at amortized cost. Acceptances receivables are presented net of allowance for impairment losses.

Acceptance receivables are classified as amortized cost and acceptance payables are classified as financial liabilities measured at amortized cost.

**n. Investment in shares**

BRI's investments in its associates are measured using the equity method. An associate is an entity in which BRI has significant influence or share ownership more than 20% of the voting rights. The initial recognition of investments in associate are recognized at acquisition cost and the carrying amount is added or deducted to recognize BRI's portion of profit or loss of the associate after the acquisition date. BRI's portion of profit or loss of the associate is recognized in profit or loss of BRI. Receipt of distributions from associate reduces the carrying amount of the investment.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**n. Penyertaan saham (lanjutan)**

Laporan laba rugi dan penghasilan komprehensif lain konsolidasian mencerminkan bagian atas hasil operasi entitas asosiasi. Bila terdapat perubahan yang diakui langsung pada ekuitas entitas asosiasi, BRI mengakui bagiannya atas perubahan tersebut dan mengungkapkan hal ini, jika berlaku, dalam laporan perubahan ekuitas.

Setelah menerapkan metode ekuitas, BRI menentukan apakah diperlukan untuk mengakui tambahan rugi penurunan nilai atas investasi BRI dalam entitas asosiasi. BRI menentukan pada setiap tanggal pelaporan apakah terdapat bukti yang objektif yang mengindikasikan bahwa investasi dalam entitas asosiasi mengalami penurunan nilai. Dalam hal ini, BRI menghitung jumlah penurunan berdasarkan selisih jumlah terpulihkan atas investasi dalam entitas asosiasi dan nilai tercatatnya dan mengakuinya dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Investasi BRI pada entitas asosiasi yang tidak memiliki pengaruh yang signifikan atau kepemilikan di bawah 20% dicatat pada nilai wajar sesuai dengan PSAK No. 109.

**o. Aset tetap**

Aset tetap awalnya diakui sebesar biaya perolehan, yang terdiri atas harga perolehan dan biaya-biaya tambahan yang dapat diatribusikan secara langsung untuk membawa aset ke lokasi dan kondisi yang diperlukan supaya aset siap digunakan sesuai dengan maksud manajemen. Setelah pengakuan awal, aset tetap kecuali tanah, dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

Aset tetap yang diperoleh dalam pertukaran aset non-moneter atau kombinasi aset moneter dan non-moneter diukur pada nilai wajar, kecuali:

- (i) Transaksi pertukaran tidak memiliki substansi komersial; atau
- (ii) Nilai wajar dari aset yang diterima dan diserahkan tidak dapat diukur secara andal.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**n. Investment in shares (continued)**

The consolidated statement of profit or loss and other comprehensive income reflects the share of the results of operations of the associate. If there is any change recognized directly in the equity of the associate, BRI recognizes its share of these changes and discloses this, when applicable, in the statement of changes in equity.

After applying the equity method, BRI determines each reporting date whether it is necessary to recognize additional impairment loss on BRI's investment in its associates. BRI determines at each reporting date whether there is any objective evidence indicating that the investment in the associates is impaired. In this case, BRI calculates the amount of impairment as the difference between the recoverable amount of the investment in the associates and its carrying value and recognizes it in the consolidated statement of profit or loss and other comprehensive income.

BRI's investment in its associate with no significant influence or share ownership under 20% is recorded at fair value in accordance with SFAS No. 109.

**o. Premises and equipment**

Premises and equipment are initially recognized at acquisition cost, which comprises its purchase price and additional costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management. Subsequent to initial recognition, premises and equipment, except lands, are stated at acquisition cost less accumulated depreciation and impairment losses.

Premises and equipment acquired in exchange for a non-monetary asset or a combination of monetary and non-monetary assets are measured at fair values, unless:

- (i) The exchange transaction lacks commercial substance; or
- (ii) The fair value of the assets received or the assets given up cannot be measured reliably

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**o. Aset tetap (lanjutan)**

Penyusutan aset dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi umur manfaat ekonomis sebagai berikut:

	<b>Tahun/Years</b>	
Bangunan	15	<i>Buildings</i>
Kendaraan bermotor	5	<i>Motor vehicles</i>
Kapal	15	<i>Vessels</i>
Komputer dan mesin	3 - 8	<i>Computers and machineries</i>
Perlengkapan kantor	3 - 8	<i>Furniture and fixtures</i>
<i>E-Channel</i>	3 - 5	<i>E-Channel</i>
Satelit	15	<i>Satellite</i>
<i>Main system</i>	5	<i>Main system</i>
<i>Non main system</i>	3	<i>Non-main system</i>

Penilaian aset tetap dilakukan atas penurunan dan kemungkinan penurunan nilai wajar aset jika terjadi peristiwa atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat mungkin tidak dapat seluruhnya terealisasi.

Jumlah tercatat komponen dari suatu aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat sudah tidak ada lagi manfaat ekonomi masa depan yang diekspektasikan dari penggunaan maupun pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan tersebut dimasukkan ke dalam laba rugi untuk tahun dimana penghentian pengakuan tersebut dilakukan.

Nilai residu, umur manfaat dan metode penyusutan dievaluasi setiap akhir tahun dan disesuaikan secara prospektif jika diperlukan.

Tanah awalnya dinyatakan sebesar biaya perolehan dan tidak disusutkan. Setelah pengakuan awal, tanah diukur pada nilai wajar pada tanggal revaluasi dikurangi akumulasi rugi penurunan nilai setelah tanggal revaluasi. Penilaian terhadap tanah dilakukan oleh penilai yang memiliki kualifikasi profesional dan dilakukan secara berkala untuk memastikan bahwa jumlah tercatat tanah tidak berbeda secara material dengan jumlah yang ditentukan dengan menggunakan nilai wajarnya pada akhir periode pelaporan (Catatan 16).

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**o. Premises and equipment (continued)**

*Depreciation of an asset begins when it is ready for its intended use and is calculated using the straight-line method based on the estimated economic useful lives of use the assets as follows:*

*Premises and equipment valuation is carried out on the impairment and possible impairment of the fair value of asset if an event or change in circumstances indicates that the carrying amount may not be fully realized.*

*The carrying amount of an item of premises and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from the derecognition is recognized in profit or loss in the year of the derecognition.*

*The residual values, useful lives and depreciation methods are evaluated at the end of each year and adjusted prospectively, if necessary.*

*Land is initially stated at acquisition cost and not depreciated. Subsequent to initial recognition, land is measured at fair value at the revaluation date less any accumulated impairment losses after the revaluation date. Valuation of land is performed by appraisers with professional qualifications and is conducted periodically to ensure that the carrying amount does not differ materially from its fair value at the end of the reporting period (Note 16).*

**o. Aset tetap (lanjutan)**

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan dan fluktuatif, maka perlu dilakukan revaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan dan fluktuatif maka perlu dilakukan revaluasi setiap 3 (tiga) tahun sekali.

Kenaikan nilai tercatat yang timbul dari revaluasi dicatat sebagai "surplus revaluasi aset tetap", dan disajikan dalam penghasilan komprehensif lain. Namun, kenaikan tersebut diakui dalam laba rugi hingga sebesar jumlah penurunan nilai aset yang sama akibat revaluasi yang pernah dilakukan sebelumnya dalam laba rugi. Penurunan nilai tercatat yang timbul dari revaluasi diakui dalam laba rugi.

Beban pemeliharaan dan perbaikan dibebankan pada laba rugi pada saat terjadinya. Beban pemugaran dan penambahan dalam jumlah besar dikapitalisasi pada jumlah tercatat aset tetap terkait, bila besar kemungkinan manfaat ekonomi masa depan menjadi lebih besar dari standar kinerja awal yang ditetapkan sebelumnya dan disusutkan sepanjang sisa masa manfaat aset tetap terkait.

Aset tetap dalam penyelesaian dicatat sebesar biaya perolehan, yang mencakup kapitalisasi beban pinjaman dan biaya-biaya lainnya yang terjadi sehubungan dengan pendanaan aset tetap dalam penyelesaian tersebut. Akumulasi biaya perolehan akan direklasifikasi ke akun "Aset Tetap" yang bersangkutan pada saat aset tetap tersebut telah selesai dikerjakan dan siap untuk digunakan. Aset tetap dalam penyelesaian tidak disusutkan karena belum tersedia untuk digunakan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**o. Premises and equipment (continued)**

*If the fair value of the revalued asset experiences significant and fluctuating changes, it has to be revalued annually, whereas if the fair value of the revalued asset does not experience significant and fluctuating changes, it has to be revalued once every 3 (three) years.*

*Increase in the carrying amount arising from revaluation is recorded in "Revaluation Surplus arising from Premises and Equipment" and presented in other comprehensive income. However, the increase is recognized in profit or loss, to the extent of the amount of impairment of the same assets due to revaluation previously recognized in profit or loss. A decrease in the carrying amount arising from the revaluation is recognized in profit or loss.*

*Maintenance and repairment expenses are charged to profit or loss when incurred. Restoration and addition expenses in significant amounts are capitalized to the carrying amount of the related premises and equipment when it is probable that the future economic benefits exceeded the predefined initial performance standard and are depreciated over the remaining useful life of the related premises and equipment.*

*Assets under construction are stated at cost, including capitalized borrowing costs and other costs incurred regarding the financing of the assets under constructions. The accumulated costs will be reclassified to the appropriate "Premises and Equipment" account when the construction is completed and the assets are ready for their intended use. Assets under construction are not depreciated as these are not yet available for use.*

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Usaha ("HGU"), Hak Guna Bangunan ("HGB") dan Hak Pakai ("HP") ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "aset tetap". Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah diakui sebagai aset tidak berwujud dan diamortisasi sepanjang umur hak hukum atau umur ekonomi tanah, mana yang lebih pendek.

Sewa

Suatu sewa diklasifikasikan sebagai sewa pembiayaan jika sewa tersebut mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset. Suatu sewa diklasifikasikan sebagai sewa operasi jika sewa tidak mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset.

BRI dan entitas anak menerapkan PSAK No. 116 tentang Sewa untuk seluruh sewa dengan mengakui aset hak guna dan liabilitas terkait. BRI menerapkan sewa yang termasuk PSAK No. 116 atas kelas aset tanah, bangunan, dan kendaraan roda empat dengan aset pendasar bernilai di atas Rp75.000.000 (nilai penuh) dan mempunyai jangka waktu sewa lebih dari 12 bulan.

Pada tanggal inisiasi suatu kontrak, BRI dan entitas anak menilai apakah suatu kontrak merupakan, atau mengandung, sewa. Suatu kontrak merupakan, atau mengandung, sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan suatu aset selama suatu jangka waktu tertentu untuk dipertukarkan dengan imbalan. Untuk menilai apakah suatu kontrak memberikan hak untuk mengendalikan suatu aset identifikasi, BRI dan entitas anak menilai apakah:

- Kontrak melibatkan penggunaan suatu aset identifikasi;
- BRI dan entitas anak memiliki hak untuk memperoleh secara substansial seluruh manfaat ekonomi dari penggunaan aset selama periode penggunaan; dan

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**o. Premises and equipment (continued)**

The legal cost of land rights in the form of Business Usage Rights ("Hak Guna Usaha" or "HGU"), Building Usage Right ("Hak Guna Bangunan" or "HGB") and Usage Rights ("Hak Pakai" or "HP") when the land was initially acquired are recognized as part of the acquisition cost of the land under the "Premises and Equipment" account. The legal extension or renewal costs of land rights are recognized as intangible assets and amortized over life of the legal rights or the economic life of the land, whichever is shorter.

Lease

A lease is classified as a financing lease if the lease substantially diverts all the risks and benefits associated with ownership of the asset. A lease is classified as an operating lease if the lease does not divert substantially all the risks and benefits associated with ownership of the asset.

BRI and its subsidiaries apply SFAS No. 116: Lease for all leases by recognizing right-of-use assets and related liabilities. BRI applies leases which include SFAS No. 116 for class of asset for land, building, and four-wheeled vehicles with underlying assets valued above Rp75,000,000 (full amount) and has a lease period of more than 12 months.

On the inception date of a contract, BRI and subsidiaries assess whether a contract is, or contains, a lease. A contract constitutes, or contains, a lease if the contract grants the right to control the use of an asset for a certain period of time to gain compensation. To assess whether a contract grants a right to control an identifying asset, BRI and subsidiaries assess whether:

- The contracts involve the use of an identifying asset;
- BRI and subsidiaries have the right to substantially acquire all of the economic benefits of using the asset during the period of use; and

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**o. Aset tetap (lanjutan)**

Sewa (lanjutan)

Pada tanggal insepasi suatu kontrak, BRI dan entitas anak menilai apakah suatu kontrak merupakan, atau mengandung, sewa. Suatu kontrak merupakan, atau mengandung, sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan suatu aset selama suatu jangka waktu tertentu untuk dipertukarkan dengan imbalan. Untuk menilai apakah suatu kontrak memberikan hak untuk mengendalikan suatu aset identifikasian, BRI dan entitas anak menilai apakah: (lanjutan)

- BRI dan entitas anak memiliki hak untuk mengendalikan aset identifikasian dalam bentuk:
  - a. BRI dan entitas anak memiliki hak untuk mengoperasikan aset.
  - b. BRI dan entitas anak mempunyai hak untuk menetapkan tujuan apa aset akan digunakan.

BRI dan entitas anak mengakui aset hak guna dan liabilitas sewa pada tanggal dimulainya sewa. Aset hak guna awalnya diukur pada biaya perolehan, yang terdiri dari jumlah pengukuran awal dari liabilitas sewa disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan.

Setelah tanggal permulaan, aset hak guna diukur dengan model biaya. Aset hak guna diukur sebesar harga perolehan dikurangi akumulasi depresiasi dan akumulasi penurunan nilai serta disesuaikan dengan pengukuran kembali liabilitas sewa. Liabilitas sewa diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif.

Sewa jangka pendek dengan durasi kurang dari 12 bulan dan sewa aset bernilai rendah, serta elemen-elemen sewa tersebut, sebagian atau seluruhnya tidak menerapkan prinsip-prinsip pengakuan yang ditentukan oleh PSAK No. 116. BRI dan entitas anak akan mengakui pembayaran sewa tersebut dengan dasar garis lurus selama masa sewa dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Beban ini ditunjukkan pada beban umum dan administrasi dalam laporan laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**o. Premises and equipment (continued)**

Lease (continued)

On the inception date of a contract, BRI and subsidiaries assess whether a contract is, or contains, a lease. A contract constitutes, or contains, a lease if the contract grants the right to control the use of an asset for a certain period of time to gain compensation. To assess whether a contract grants a right to control an identifying asset, BRI and subsidiaries assess whether: (continued)

- *BRI and subsidiaries have the right to control identifying assets in the form of:*
  - a. *BRI and subsidiaries have the right to operate assets.*
  - b. *BRI and subsidiaries have the right to determine for what objectives will the asset be used.*

*BRI and subsidiaries recognize right-of-use assets and lease liabilities on the commencement date of the lease. Right-of-use assets are initially measured at the cost of acquisition, consisting of the initial measurement amount of the lease liabilities adjusted to the rental payments made on or before the commencement date, added with the initial direct cost incurred.*

*After the initial date, the right-of-use assets is measured by the cost model. The right-of-use assets is measured by the acquisition price subtracted by accumulated depreciation and accumulated impairment and adjusted to the remeasurement of lease liabilities. Lease liabilities are measured at amortized cost using effective interest rate methods.*

*Short-term leases with a duration of less than 12 months and leases of low-value assets, as well as elements of such leases, partially or entirely do not apply the recognition principles specified by SFAS No. 116. BRI and its subsidiaries will recognize such lease payments on a straight-line basis during the lease period in the consolidated statements of profit or loss and other comprehensive income. This expense is indicated on general and administrative expenses in the statement of profit or loss.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**p. Penurunan nilai aset non-keuangan**

**p. Impairment of Non-Financial Assets**

Pada setiap akhir periode pelaporan, BRI dan entitas anak menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian pada tanggal laporan diperlukan penurunan atas nilai aset tertentu (yaitu aset tidak berwujud dengan umur manfaat tidak terbatas, aset tidak berwujud yang belum dapat digunakan, atau *goodwill* yang diperoleh dalam suatu kombinasi bisnis), maka BRI dan entitas anak akan membuat estimasi atas jumlah terpulihkan aset tersebut.

*BRI assesses, at the end of each reporting period, whether there is an indication that an asset may be impaired. If any such indication exists, or when the testing at the reporting date, impairment is required for a certain asset (i.e. an intangible asset with an indefinite useful life, an intangible asset not yet available for use, or goodwill acquired in a business combination), then BRI and subsidiaries will make an estimate of the asset's recoverable amount.*

Jumlah terpulihkan yang ditentukan untuk aset individual adalah jumlah yang lebih tinggi antara nilai wajar aset atau Unit Penghasil Kas (UPK) dikurangi biaya pelepasan dengan nilai pakainya, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset atau kelompok aset lain. Jika nilai tercatat aset lebih besar daripada nilai terpulihkannya, maka aset tersebut dianggap mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar nilai terpulihkannya. Rugi penurunan nilai dari operasi yang berkelanjutan diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian sebagai "rugi penurunan nilai". Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini atas nilai waktu uang dan risiko spesifik aset.

*The specified recoverable amount for an individual asset is the higher amount between an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal, and its value in use, unless the asset does not generate cash inflows that are largely independent from other assets or groups of assets. If the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and the asset's carrying amount is reduced to its recoverable amount. Impairment losses from continuing operations are recognized in the consolidated statement of profit or loss and other comprehensive income as "impairment losses". In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset.*

Dalam menentukan nilai wajar dikurangi biaya pelepasan, mengacu pada PSAK No. 113: "Pengukuran Nilai Wajar" (Catatan 2c).

*In determining the fair value less costs of disposal, refer to SFAS No. 113, "Fair Value Measurements" (Note 2c).*

Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian sesuai dengan kategori biaya yang konsisten dengan fungsi aset yang diturunkan nilainya.

*Impairment losses from continuing operations, if any, are recognized in the consolidated statement of profit or loss and other comprehensive income in accordance with expense categories that are consistent with the functions of other impaired assets.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**q. Agunan yang diambil alih**

Agunan yang diambil alih sehubungan dengan penyelesaian kredit (disajikan dalam akun "aset lain-lain") diakui sebesar nilai neto yang dapat direalisasi atau sebesar nilai tercatat dari kredit, mana yang lebih rendah. Nilai neto yang dapat direalisasi adalah nilai wajar agunan setelah dikurangi estimasi biaya pelepasan. Kelebihan saldo kredit yang diberikan, yang belum dilunasi oleh peminjam di atas nilai dari agunan yang diambil alih, dibebankan sebagai penyisihan penghapusan kredit yang diberikan pada tahun berjalan. Selisih antara nilai agunan yang diambil alih dengan hasil penjualannya diakui sebagai keuntungan atau kerugian pada saat penjualan agunan.

BRI dan entitas anak mengevaluasi nilai agunan yang diambil alih secara berkala. Penyisihan kerugian agunan yang diambil alih dibentuk berdasarkan penurunan nilai agunan yang diambil alih.

Beban perbaikan (*reconditioning cost*) yang timbul setelah pengambilalihan agunan dikapitalisasi dalam akun agunan yang diambil alih tersebut.

**r. Biaya dibayar dimuka**

Biaya dibayar dimuka diamortisasi selama masa manfaat dengan menggunakan metode garis lurus (*straight-line method*).

**s. Liabilitas segera**

Liabilitas segera merupakan liabilitas BRI dan entitas anak kepada pihak lain yang sifatnya wajib segera dibayarkan sesuai dengan perintah pemberi amanat perjanjian yang ditetapkan sebelumnya. Liabilitas segera diklasifikasikan sebagai liabilitas keuangan dan dihitung berdasarkan biaya perolehan diamortisasi.

**t. Simpanan nasabah dan bank lain serta lembaga keuangan lain**

Giro merupakan simpanan nasabah yang penarikannya dapat dilakukan setiap saat menggunakan cek, atau dengan cara pemindahbukuan dengan bilyet giro atau sarana perintah pembayaran lainnya. Giro dinyatakan sebesar nilai liabilitas kepada pemegang giro.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**q. Foreclosed collaterals**

*Foreclosed collaterals in relation to the settlement of loans (presented in "Other Assets") are recognized at net realizable values or the carrying amount of the loans, whichever is lower. Net realizable value is the fair value of the collateral after deducting the estimated costs of disposal. The excess in loan balances, which has not been paid by debtors over the value of foreclosed collaterals, is charged as provisions for possible losses on loans in the current year. The difference between the value of the foreclosed collateral and the proceeds from the sale are recognized as a gain or loss at the time of sale of the collateral.*

*BRI and subsidiaries evaluate the value of foreclosed collaterals periodically. The allowance for losses on foreclosed collaterals is assessed based on the impairment of the foreclosed collaterals.*

*Reconditioning costs arising after the foreclosure of the collateral are capitalized in the accounts of the foreclosed collaterals.*

**r. Prepaid expenses**

*Prepaid expenses are amortized over the useful lives using the straight-line method.*

**s. Liabilities due immediately**

*Liabilities due immediately represent the liability of BRI and subsidiaries to external parties which by nature should be paid immediately in accordance with the requirements in the agreement which have been previously determined. Liabilities due immediately is classified as financial liabilities and measured at amortized cost.*

**t. Deposits from customers and other banks and other financial institutions**

*Demand deposits are funds deposited by customers whereby the withdrawal can be done at any time using a cheque, or through transfer with a bank draft or other forms of payment order. Demand deposits are stated at the amount due to the account holder.*

MATERIAL (lanjutan)**

**t. Simpanan nasabah dan bank lain serta  
lembaga keuangan lain (lanjutan)**

Tabungan merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan menurut syarat tertentu yang disepakati. Tabungan dinyatakan sebesar nilai liabilitas kepada pemilik tabungan.

Deposito berjangka merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan pada waktu tertentu sesuai perjanjian antara penyimpan dengan BRI dan Bank Raya. Deposito berjangka dinyatakan sebesar nilai nominal yang tercantum dalam bilyet deposito atau yang diperjanjikan.

Simpanan dari bank lain dan lembaga keuangan lain terdiri dari liabilitas terhadap bank lain, baik lokal maupun luar negeri, dalam bentuk giro, tabungan, deposito berjangka, *deposit on call*, dan *inter-bank call money* dengan promes yang berjangka waktu sampai dengan 90 hari serta dinyatakan sesuai dengan jumlah liabilitas terhadap bank dan lembaga keuangan lainnya tersebut.

Simpanan nasabah dan bank lain serta lembaga keuangan lain diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi menggunakan suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan nasabah dikurangkan dari jumlah simpanan yang diterima.

**Efek-efek yang dibeli dengan janji dijual kembali**

Efek-efek yang dibeli dengan janji untuk dijual kembali disajikan sebagai aset keuangan dalam laporan posisi keuangan konsolidasian sebesar jumlah penjualan kembali dikurangi dengan bunga yang belum diamortisasi dan cadangan kerugian penurunan nilai. Selisih antara harga beli dan harga jual kembali diperlakukan sebagai pendapatan bunga yang ditangguhkan (belum diamortisasi) dan diakui sebagai pendapatan selama periode sejak efek-efek tersebut dibeli hingga dijual kembali dengan menggunakan suku bunga efektif.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**t. Deposits from customers and other banks  
and other financial institutions (continued)**

*Saving deposits are the funds deposited by customers which can only be withdrawn under certain agreed conditions. Saving deposits are stated at the amount due to the account holders.*

*Time deposits are funds deposited by customers that may only be withdrawn after a certain time based on agreement between the depositor and BRI and Bank Raya. Time deposits are stated at the nominal amount stated in the certificates of deposit or at the amount stated in the agreement.*

*Deposits from other banks and other financial institutions consist of liabilities to other banks, either domestic or overseas, in the form of demand deposits, saving deposits, time deposits, deposit on call and inter-bank call money with promissory notes with a term of up to 90 days and stated at the amount due to other banks and financial institutions.*

*Deposits from customers and other banks and other financial institutions are classified as financial liabilities measured at amortized cost using effective interest rate. Additional costs directly attributable to the acquisition of deposits from customers are deducted from the amount of the deposits received.*

**Securities purchased under agreement to resell**

*Securities purchase under agreements to resell are presented as financial asset in the consolidated statements of financial position at the resale prices less unamortized interest income and allowance for impairment losses. The difference between the purchase price and the agreed resale price is treated as a deferred interest income (unamortized) and recognized as income over the period commencing from the acquisition date to the resale date using the effective interest rate.*

MATERIAL (lanjutan)**

**u. Efek-efek yang dibeli dengan janji dijual kembali dan efek-efek yang dijual dengan janji dibeli kembali (lanjutan)**

**Efek-efek yang dibeli dengan janji dijual kembali (lanjutan)**

Efek-efek yang dibeli dengan janji untuk dijual kembali diklasifikasikan sebagai biaya perolehan diamortisasi.

**Efek-efek yang dijual dengan janji dibeli kembali**

Efek-efek yang dijual dengan janji untuk dibeli kembali disajikan sebagai liabilitas keuangan dalam laporan posisi keuangan konsolidasian sebesar jumlah pembelian kembali, dikurangi dengan bunga dibayar dimuka yang belum diamortisasi. Selisih antara harga jual dan harga beli kembali diperlakukan sebagai biaya dibayar dimuka dan diakui sebagai beban selama jangka waktu sejak efek tersebut dijual hingga dibeli kembali menggunakan suku bunga efektif.

Efek-efek yang dijual dengan janji untuk dibeli kembali diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

**v. Surat berharga yang diterbitkan**

Surat berharga yang diterbitkan oleh BRI, BRI Multifinance, Pegadaian dan PNM adalah Obligasi, *Medium Term Notes* (MTN), *Long Term Notes* (LTN), Surat Berharga Komersial, dan Sukuk *Mudharabah*. Surat berharga yang diterbitkan pada awalnya diakui sebesar nilai wajar dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif (EIR). Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal dan biaya transaksi yang tidak terpisah dari suku bunga efektif.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**u. Securities purchased under agreement to resell and securities sold under agreement to repurchase (continued)**

**Securities purchased under agreement to resell (continued)**

*Securities purchased under agreement to resell are classified as amortized costs.*

**Securities sold under agreement to repurchase**

*Securities sold under agreement to repurchase are presented as financial liabilities in the consolidated statement of financial position at the repurchase prices less unamortized prepaid interest. The difference between the selling and the repurchase price is treated as prepaid expense and recognized as expense over the period commencing from the selling date to the repurchase date using effective interest rate.*

*Securities sold under agreement to repurchase are classified as financial liabilities measured at amortized cost.*

**v. Marketable securities issued**

*Securities issued by BRI, BRI Multifinance, Pegadaian and PNM are Bonds, Medium Term Notes (MTN), Long Term Notes (LTN), Commercial Paper, and Sukuk Mudharabah. Securities issued were initially recognized at fair value and subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. The amortized cost is calculated by taking into account any discount or premium related to the initial recognition and transaction costs that are an integral part of the effective interest rate.*

MATERIAL (lanjutan)**

**w. Pinjaman yang diterima**

Pinjaman yang diterima merupakan dana yang diterima dari bank lain, Bank Indonesia atau pihak lain dengan liabilitas pembayaran kembali sesuai dengan persyaratan perjanjian pinjaman.

Pinjaman yang diterima diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif (EIR). Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal dan biaya transaksi yang tidak terpisah dari suku bunga efektif.

**x. Pinjaman dan surat berharga subordinasi**

Pinjaman dan surat berharga subordinasi diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal dan biaya transaksi yang tidak terpisah dari suku bunga efektif.

**y. Provisi**

Provisi diakui jika BRI dan entitas anak memiliki kewajiban kini (baik bersifat hukum maupun bersifat konstruktif) yang akibat peristiwa masa lalu, besar kemungkinannya penyelesaian kewajiban tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Provisi ditelaah pada setiap tanggal pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling terkini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibalik.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**w. Fund borrowings**

*Fund borrowings represent funds received from other banks, Bank Indonesia or other parties with a repayment obligation in accordance with the terms of the borrowing agreements.*

*Fund borrowings are recognized initially at fair value and subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. The amortized cost is calculated by taking into account any discount or premium related to the initial recognition and transaction costs that are an integral part of the effective interest rate.*

**x. Subordinated loans and marketable securities**

*Subordinated loans and marketable securities are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method. The amortized cost is calculated by taking into account any discount or premium related to the initial recognition and transaction costs that are an integral part of the effective interest rate.*

**y. Provisions**

*Provisions are recognized when BRI and subsidiaries have a current obligation (both legal or constructive) that, resulted from past events, the settlement of these obligations will likely result in an outflow of resources that contain economic benefits and a reliable estimation of the amount of the obligation can be made.*

*Provisions are reviewed at each reporting date and adjusted to reflect the best estimate. If the outflow of resources to settle the obligation is unlikely to occur, then the provision is reversed.*

MATERIAL (lanjutan)**

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**z. Pendapatan dan beban bunga**

**z. Interest income and interest expense**

Pendapatan dan beban bunga untuk semua instrumen keuangan yang *interest bearing* diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian dengan menggunakan metode suku bunga efektif. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat neto dari aset keuangan atau liabilitas keuangan.

*Interest income and expense for all interest bearing financial instruments are recognized in the consolidated statement of profit or loss and other comprehensive income using the effective interest rate method. The effective interest rate is the interest rate that precisely discounts the estimated future cash payments or inflows through the expected life of the financial asset or financial liability (or, if more precise, a shorter period) to obtain the net carrying amount of the financial asset or financial liability.*

Pada saat menghitung suku bunga efektif, BRI dan entitas anak mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang. Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain yang diterima oleh para pihak dalam kontrak yang merupakan bagian tak terpisahkan dari suku bunga efektif, biaya transaksi, dan seluruh premi atau diskon lainnya.

*When calculating the effective interest rate, BRI and subsidiaries estimate the future cash flows by considering all contractual terms in the financial instruments except the future credit losses. This calculation includes all commissions, provisions and other fees received between parties of the contract that are an integral part of the effective interest rate, transaction costs and all other premium or discounts.*

**aa. Pendapatan provisi dan komisi**

**aa. Fee and commissions income**

Pendapatan provisi dan komisi yang berkaitan langsung dengan kegiatan pemberian kredit, atau pendapatan provisi dan komisi yang berhubungan dengan jangka waktu tertentu, diamortisasi sesuai dengan jangka waktu kontrak menggunakan suku bunga efektif dan diklasifikasikan sebagai bagian dari pendapatan bunga pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

*Fees and commissions income directly related to lending activities, or fees and commissions income related to a specific period of time, are amortized over the term of the contract using the effective interest rate and classified as part of interest income in the consolidated statement of profit or loss and other comprehensive income.*

Pendapatan provisi dan komisi yang tidak berkaitan dengan kegiatan pemberian kredit atau suatu jangka waktu dan/atau terkait dengan pemberian suatu jasa, diakui sebagai pendapatan pada saat terjadinya transaksi dan dicatat pada akun pendapatan operasional lainnya.

*Fees and commissions income unrelated to the lending activities or a specific period of time and/or related to provision of a service, are recognized as income at the time that the transaction occurred and recorded in other operating income account.*

**ab. Pendapatan dan beban syariah**

**ab. Shariah income and expense**

Pendapatan syariah terdiri dari pendapatan dari transaksi piutang *murabahah*, dan pendapatan bagi hasil dari pembiayaan *mudharabah* dan *musyarakah*.

*Sharia income consists of income from transaction of Murabahah receivables, profit sharing from Mudharabah and Musyarakah financing.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ab. Pendapatan dan beban syariah (lanjutan)**

Pendapatan atas piutang *murabahah* menggunakan metode *margin* efektif. *Margin* efektif adalah margin yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari piutang *murabahah*. Pada saat menghitung *margin* efektif, entitas anak mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian piutang di masa mendatang. Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain yang diterima oleh para pihak dalam kontrak yang merupakan bagian tidak terpisahkan dari margin efektif, biaya transaksi, dan seluruh premi atau diskon lainnya.

Pendapatan bagi hasil pembiayaan *mudharabah* dan *musyarakah* diakui pada saat diterima atau dalam periode terjadinya hak bagi hasil sesuai porsi bagi hasil (*nisbah*) yang disepakati.

**ac. Pendapatan jasa asuransi dan beban jasa asuransi**

Sejak 1 Januari 2025

Pendapatan jasa asuransi

Pendapatan jasa asuransi entitas anak mencerminkan penyediaan perlindungan dan layanan lain yang timbul dari sekelompok kontrak asuransi dengan jumlah yang mencerminkan imbalan yang diharapkan diterima entitas anak sebagai imbalan atas layanan tersebut.

Pendapatan jasa asuransi dari sekelompok kontrak asuransi merupakan bagian yang relevan untuk periode tersebut, yang tercerminkan dari:

- Biaya layanan asuransi, tidak termasuk jumlah yang dialokasikan untuk komponen kerugian dari kewajiban untuk perlindungan yang tersisa.
- Pelepasan *Contractual Service Margin* (CSM).
- Jumlah yang terkait dengan arus kas akuisisi asuransi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ab. Shariah income and expense (continued)**

*Income from Murabahah receivables is recognized using the effective margin method. Effective margin is the margin that precisely discounts the estimated future cash payments or inflows through the expected life of the Murabahah receivables. When calculating the effective margin, BRI's subsidiaries estimates the future cash flows by considering all contractual terms in the financial instrument, except the future credit losses. This calculation includes all commissions, fees and other forms received by the parties in the contract that are inseparable from the effective margin, transaction costs and all other premiums or discounts.*

*Mudharabah and Musyarakah financing profit sharing income are recognized upon receipt or in a period when the right of profit sharing occurred in accordance with the agreed profit-sharing portion (nisbah).*

**ac. Insurance service income and insurance service expense**

Since January 1, 2025

Insurance service income

*The insurance service income of the subsidiaries reflect the provision of coverage and other services arising from a group of insurance contracts at an amount that reflects the consideration expected to be received by the subsidiaries in exchange for those services.*

*The insurance service income from a group of insurance contracts is the relevant portion for that period, which is reflected in:*

- *Insurance service expenses, excluding any amounts allocated to the loss component of the liability for remaining coverage.*
- *The Contractual Service Margin (CSM) release.*
- *Amounts related to insurance acquisition cash flows.*

**ac. Pendapatan jasa asuransi dan beban jasa  
asuransi (lanjutan)**

Sejak 1 Januari 2025 (lanjutan)

Pendapatan jasa asuransi (lanjutan)

Pelepasan penyesuaian risiko untuk risiko non-keuangan, tidak termasuk jumlah yang dialokasikan untuk komponen kerugian dari kewajiban untuk perlindungan yang tersisa.

Biaya jasa asuransi

Biaya jasa asuransi mencerminkan beban yang timbul dari pelaksanaan jasa asuransi selama periode pelaporan. Biaya jasa asuransi meliputi:

- Beban akuisisi amortisasi yang terkait dengan kontrak asuransi
- Kerugian dan pembalikan kerugian atas kontrak yang merugikan
- Klaim dan manfaat yang dibayarkan (termasuk biaya penyelesaian klaim)
- Biaya lain yang secara langsung berhubungan dengan penyediaan jasa asuransi

Entitas anak mengakui biaya jasa asuransi pada saat terjadinya dan mengukurnya sebesar jumlah yang dibayarkan atau terutang, serta menyesuaikan nilai kini dari estimasi arus kas keluar masa depan untuk memenuhi kewajiban kontrak asuransi.

Estimasi arus kas masa depan didasarkan pada asumsi terbaik manajemen mengenai mortalitas, morbiditas, tingkat pembatalan, biaya operasional, serta tingkat diskonto yang mencerminkan nilai waktu atas uang dan risiko non-keuangan.

Pendapatan atau beban neto dari kontrak reasuransi milikan

Beban neto dari kontrak reasuransi terdiri dari beban jasa reasuransi dikurangi jumlah yang dipulihkan dari reasurador.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ac. Insurance service income and insurance  
service expense (continued)**

Since January 1, 2025 (continued)

Insurance service income (continued)

The risk adjustment release for non-financial risk, excluding any amounts allocated to the loss component of the liability for remaining coverage

Insurance service expense

Insurance service expense reflects the costs incurred in providing insurance services during the reporting period. Insurance service expense includes:

- Amortized acquisition expenses related to insurance contracts
- Losses and reversal of losses on onerous contracts
- Claims and benefits paid (including claims handling costs)
- Other expenses directly attributable to the provision of insurance services

The subsidiaries recognize insurance service expenses as they are incurred and measures them at the amount paid or payable, adjusted by the present value of expected future cash outflows to fulfill the insurance contract obligations.

The estimation of future cash flows is based on management's best estimates, including assumptions related to mortality, morbidity, lapse rates, operating expenses, and discount rates that reflect the time value of money and non-financial risks.

Net income or expense from reinsurance contracts held

Net expenses from reinsurance contracts comprise reinsurance service expenses less amounts recovered from reinsurers.

asuransi (lanjutan)**

Sejak 1 Januari 2025 (lanjutan)

Pendapatan atau beban neto dari kontrak  
reasuransi milikan (lanjutan)

Entitas anak menyajikan secara terpisah laporan laba rugi jumlah yang diharapkan dapat dipulihkan dari reasuradur, serta alokasi premi reasuransi yang dibayarkan. Entitas anak menganggap arus kas reasuransi yang bergantung pada klaim dari kontrak pendasar sebagai bagian dari klaim yang diharapkan akan diganti berdasarkan kontrak reasuransi milikan, dan mengecualikan komponen investasi serta komisi dari alokasi premi reasuransi yang disajikan pada laporan laba rugi. Jumlah yang terkait dengan pemulihan kerugian yang berkaitan dengan reasuransi kontrak langsung yang merugi termasuk sebagai jumlah yang dapat dipulihkan dari reasuradur.

Sebelum 1 Januari 2025

Premi kontrak asuransi jangka pendek diakui sebagai pendapatan dalam periode kontrak sesuai dengan proporsi jumlah proteksi asuransi yang diberikan. Premi kontrak asuransi bukan jangka pendek diakui sebagai pendapatan pada saat jatuh tempo dari pemegang polis. Premi yang diterima sebelum diterbitkannya polis asuransi atau tanggal premi jatuh tempo dicatat sebagai titipan premi.

Premi terkait kontrak investasi dan jumlah komponen risiko keuangan kontrak asuransi dicatat sebagai deposit melalui laporan posisi keuangan konsolidasian sebagai penyesuaian terhadap akun liabilitas kontrak investasi.

Premi reasuransi bruto diakui sebagai beban pada saat dibayarkan atau pada tanggal di mana polis tersebut efektif.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ac. Insurance service income and insurance  
service expense (continued)**

Since January 1, 2025 (continued)

Net income or expense from reinsurance  
contracts held (continued)

The subsidiaries present separately on the face of the statement of profit or loss the amounts expected to be recovered from reinsurers, and an allocation of the reinsurance premiums paid. The subsidiaries treat reinsurance cash flows that are contingent on claims on the underlying contracts as part of the claims that are expected to be reimbursed under the reinsurance contract held, and excludes investment components and commissions from an allocation of reinsurance premiums presented on the face of the statement of profit or loss. Amounts relating to the recovery of losses relating to reinsurance of onerous direct contracts are included as amounts recoverable from the reinsurer.

Before January 1, 2025

Premiums of short-term insurance contracts are recognized as income within the contract period in accordance with the proportion of the amount of the insurance protection provided. Premiums of non short-term insurance contracts are recognized as income when due from the policy holders. Premiums received prior to the issuance of insurance policies or premium due date are recorded as premium deposit.

Premiums related to investment contract and the amount of financial risk component of insurance contract are recorded as deposit through the consolidated statement of financial position as an adjustment to the investment contract liabilities accounts.

Gross reinsurance premiums are recognized as expenses when paid or on the date when the policy becomes effective.

MATERIAL (lanjutan)**

**ac. Pendapatan jasa asuransi dan beban jasa  
asuransi (lanjutan)**

Sebelum 1 Januari 2025 (lanjutan)

Klaim dan manfaat asuransi merupakan klaim-klaim yang telah disetujui (*approved claim*). Klaim dan manfaat tersebut diakui sebagai beban pada saat timbulnya liabilitas untuk memenuhi klaim. Bagian klaim yang diperoleh dari reasuradur diakui dan dicatat sebagai klaim reasuransi pada periode yang sama dengan pengakuan beban klaim.

Klaim dan manfaat asuransi terkait kontrak investasi dan jumlah komponen risiko keuangan kontrak asuransi dicatat sebagai penarikan (*withdrawal*) melalui laporan posisi keuangan konsolidasian sebagai penyesuaian terhadap akun liabilitas kontrak investasi.

**ad. Liabilitas kontrak asuransi dan aset kontrak  
reasuransi**

Kontrak asuransi adalah kontrak yang diterbitkan oleh perusahaan asuransi dimana perusahaan asuransi menerima risiko asuransi yang signifikan dari pemegang polis. Risiko asuransi yang signifikan didefinisikan sebagai kemungkinan bagi perusahaan asuransi untuk membayar manfaat yang signifikan kepada tertanggung apabila suatu kejadian atas risiko yang diasuransikan terjadi dibandingkan dengan manfaat minimum yang akan dibayarkan apabila risiko yang diasuransikan tidak terjadi. Skenario-skenario yang diperhatikan adalah skenario yang mengandung unsur komersial.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ac. Insurance service income and insurance  
service expense (continued)**

Before January 1, 2025 (lanjutan)

Insurance claims and benefits are approved claims. These claims and benefits are recognized as expense when the liabilities to cover the claims are incurred. A portion of claims from the reinsurers is recognized and recorded as reinsurance claim in the same period as the recognition of claim expenses.

Insurance claims and benefits related to investment contract and the amount of financial risk component of insurance contract are recorded as withdrawal through the consolidated statement of financial position as an adjustment to the investment contract liabilities accounts.

**ad. Insurance contract liabilities and  
reinsurance contract asset**

Insurance contract is a contract issued by insurance companies which the insurer accepts significant insurance risk from the policyholders. Significant insurance risk is defined as the possibility that the insurer will be required to pay substantial benefit to the insured if an insured event occurs compared to the minimum benefit payable in a scenario where the insured event on the risk covered does not occur. Scenarios that are considered are those with commercial substance.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ad. Liabilitas kontrak asuransi (lanjutan)**

Sejak 1 Januari 2025

Berdasarkan PSAK No. 117, kontrak asuransi dikelompokkan menjadi kelompok-kelompok untuk tujuan pengukuran. Kelompok kontrak asuransi ditentukan dengan mengidentifikasi portofolio kontrak asuransi, di mana setiap portofolio terdiri dari kelompok kontrak dengan risiko yang serupa yang dikelola bersama. Portofolio tersebut dibagi lebih lanjut berdasarkan profitabilitas kontrak menjadi tiga kategori: kontrak yang merugikan, kontrak yang tidak memiliki risiko signifikan untuk menjadi merugikan, dan kontrak yang tersisa. Kontrak asuransi juga dikelompokkan menjadi kohort tahunan (yaitu berdasarkan tahun penerbitan). Portofolio kontrak reasuransi yang dimiliki dinilai untuk agregasi secara terpisah dari portofolio kontrak asuransi yang diterbitkan.

Pengakuan awal dan batasan kontrak

Kelompok kontrak asuransi diukur pada pengakuan awal sebagai total dari:

- Arus kas pemenuhan, yang terdiri dari estimasi terbaik nilai kini arus kas masa depan dalam batas kontrak yang diharapkan akan muncul, serta penyesuaian risiko eksplisit untuk risiko non-keuangan; dan
- *Contractual Service Margin* (CSM) yang mewakili keuntungan yang belum diakui pada pengakuan awal dan akan diakui sebagai pendapatan selama periode jasa asuransi diberikan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ad. Insurance contract liabilities (continued)**

Since January 1, 2025

Under SFAS No. 117, insurance contracts are aggregated into groups for measurement purposes. Groups of insurance contracts are determined by identifying portfolios of insurance contracts, where each portfolio comprise group of contracts with similar risks which are managed together. The portfolios are further divided based on the profitability of contracts into three categories: onerous contracts, contracts with no significant risk of becoming onerous, and the remaining contracts. The insurance contracts are also grouped into annual cohorts (i.e. by year of issue). Portfolios of reinsurance contracts held are assessed for aggregation separately from portfolios of insurance contracts issued.

Initial recognition and contract boundary

Groups of insurance contracts are measured on initial recognition as the total of:

- Fulfilment cash flows, comprising the best estimate of the present value of future cash flows within the contract boundary that are expected to arise and an explicit risk adjustment for non-financial risk; and
- A Contractual Service Margin (CSM) that represents the unearned profit at initial recognition, which will be recognized as revenue over the period during which insurance services are provided.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ad. Liabilitas kontrak asuransi (lanjutan)**

Sejak 1 Januari 2025 (lanjutan)

Pengakuan awal dan batasan kontrak (lanjutan)

BRI Life dan BRI Insurance mengakui kelompok kontrak asuransi yang diterbitkan dari yang paling awal di antara hal-hal berikut:

- Awal periode perlindungan kelompok kontrak;
- Tanggal ketika pembayaran premi pertama dari pemegang polis dalam kelompok jatuh tempo; dan
- Untuk kelompok kontrak yang merugikan, segera setelah fakta dan keadaan menunjukkan bahwa kelompok tersebut merugikan.

Batas kontrak mendefinisikan arus kas masa depan yang mana termasuk dalam pengukuran kontrak. Akhir batas kontrak dianggap terjadi pada saat BRI Life dan BRI Insurance tidak lagi memiliki hak dan kewajiban substansial berdasarkan kontrak asuransi untuk memberikan layanan atau memaksa pemegang polis untuk membayar premi.

Liabilitas kepada pemegang polis BRI Life dan BRI Insurance dicatat di laporan posisi keuangan konsolidasian sebagai bagian dari "Liabilitas lain-lain" berdasarkan perhitungan aktuaris dengan menggunakan asumsi aktuarial.

BRI Life dan BRI Insurance memisahkan jumlah yang diakui dalam laporan laba rugi dan penghasilan komprehensif lainnya menjadi hasil jasa asuransi, yang terdiri dari pendapatan asuransi dan biaya jasa asuransi, serta pendapatan atau biaya keuangan asuransi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ad. Insurance contract liabilities (continued)**

Since January 1, 2025 (continued)

Initial recognition and contract boundary (lanjutan)

BRI Life and BRI Insurance recognise groups of insurance contracts issued from the earliest of the following:

- The beginning of the coverage period of the group of contracts;
- The date when first premium payment from policyholder in the group becomes due; and
- For a group of onerous contracts, as soon as facts and circumstances indicate that the group is onerous.

The contract boundary defines which future cash flows are included in the measurement of a contract. The end of the contract boundary is considered to be at the point when BRI Life and BRI Insurance no longer have substantive rights and obligations under the insurance contract to provide services or compel the policyholder to pay premiums.

Liabilities to policyholders BRI Life and BRI Insurance are recorded in the consolidated statement of financial position as part of "Other Liabilities" based on actuarial calculations using actuarial assumptions.

BRI Life and BRI Insurance disaggregate the amounts recognized in the statement of profit or loss and other comprehensive income into a insurance service result, comprising insurance revenue and insurance service expenses, and insurance finance income or expenses.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ad. Liabilitas kontrak asuransi (lanjutan)**

Sejak 1 Januari 2025 (lanjutan)

Contractual Service Margin ("CSM")

CSM disesuaikan pada setiap periode pelaporan untuk perubahan arus kas masa depan yang diharapkan yang disebabkan oleh perubahan asumsi teknis atau asumsi estimasi terbaik (kematian, morbiditas, umur panjang, lapse atau penarikan, biaya). Namun, jika perubahan negatif pada arus kas masa depan yang didiskontokan lebih besar dari sisa CSM, selisihnya segera diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian karena kontrak asuransi menjadi merugi dan CSM tidak boleh negatif. Interest juga diakumulasi pada CSM dengan tingkat bunga yang dikunci pada saat pengakuan awal kontrak (yaitu tingkat diskonto yang digunakan pada saat awal untuk menentukan nilai sekarang dari arus kas masa depan yang diperkirakan).

CSM akan *released* ke laba atau rugi berdasarkan unit pertanggungan, mencerminkan jumlah manfaat yang diberikan dan durasi pertanggungan yang diharapkan dari kontrak yang tersisa dalam kelompok kontrak asuransi. Mengingat keragaman kontrak asuransi, definisi unit pertanggungan melibatkan penggunaan penilaian dengan mempertimbangkan tingkat pertanggungan yang ditetapkan dalam kontrak berdasarkan maksimum manfaat asuransi (misalnya manfaat meninggal, saldo pinjaman yang belum dibayar, nilai akun pemegang polis ditambah manfaat meninggal, maksimum manfaat kesehatan) dan durasi pertanggungan yang diharapkan dari kontrak.

Arus kas biaya akuisisi asuransi

Arus kas akuisisi asuransi muncul dari biaya penjualan, *underwriting*, dan memulai kelompok kontrak asuransi (yang diterbitkan atau yang diharapkan akan terbit) yang secara langsung dapat diatribusikan kepada portofolio kontrak asuransi yang menjadi bagian dari kelompok tersebut.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ad. Insurance contract liabilities (continued)**

Since January 1, 2025 (continued)

Contractual Service Margin ("CSM")

The CSM is adjusted at each subsequent reporting period for changes in expected future cash flows driven by changes in technical assumptions or best estimate assumptions (death, morbidity, longevity, surrenders, expenses). However, if negative changes in future discounted cash flows are greater than the remaining CSM, the difference is immediately recognized in the consolidated statement of profit or loss and other comprehensive income as the insurance contract become onerous and the CSM cannot be negative. Interest is also accreted on the CSM at rates locked in at initial recognition of a contract (i.e. discount rate used at inception to determine the present value of the estimated future cash flows).

The CSM will be released into profit or loss based on coverage units, reflecting the quantity of the benefits provided and the expected coverage duration of the remaining contracts in the insurance group of contract. Given the variety of insurance contracts, the definition of coverage units involves the use of judgment by considering both the level of coverage defined within the contract based on the maximum of insurance benefit (e.g. a death benefit, outstanding loan balance, the policyholders' account value plus death benefit, maximum of health benefit) and the expected coverage duration of the contract.

Insurance acquisition cash flows

Insurance acquisition cash flows arise from the costs of selling, underwriting and starting a group of insurance contracts (issued or expected to be issued) that are directly attributable to the portfolio of insurance contracts to which the group belongs.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ad. Liabilitas kontrak asuransi (lanjutan)**

Sejak 1 Januari 2025 (lanjutan)

Komponen kerugian

BRI Life dan BRI Insurance telah mengelompokkan kontrak yang merugikan pada pengakuan awal secara terpisah dari kontrak dalam portofolio yang sama yang tidak merugikan pada pengakuan awal. Kelompok yang tidak merugikan pada pengakuan awal juga dapat menjadi merugikan jika asumsi dan pengalaman berubah. Entitas anak telah menetapkan komponen kerugian dari kewajiban untuk perlindungan yang tersisa untuk setiap kelompok merugikan yang menggambarkan kerugian masa depan yang diakui.

Komponen kerugian dilepaskan berdasarkan alokasi sistematis dari perubahan selanjutnya dalam arus kas pemenuhan kepada: (i) komponen kerugian; dan (ii) kewajiban untuk perlindungan yang tersisa, tidak termasuk komponen kerugian. Komponen kerugian juga diperbarui untuk perubahan selanjutnya dalam estimasi arus kas pemenuhan yang terkait dengan layanan masa depan.

Alokasi sistematis dari perubahan selanjutnya ke komponen kerugian mengakibatkan jumlah total yang dialokasikan ke komponen kerugian menjadi sama dengan nol pada akhir periode perlindungan dari sekelompok kontrak (karena komponen kerugian akan terwujud dalam bentuk klaim yang terjadi). BRI Life dan BRI Insurance menggunakan proporsi pada pengakuan awal untuk menentukan alokasi sistematis dari perubahan selanjutnya dalam arus kas masa depan antara komponen kerugian dan kewajiban untuk perlindungan yang tersisa, tidak termasuk komponen kerugian.

Setiap bunga, keuntungan atau kerugian dari kenaikan atau penurunan nilai pasar investasi dicatat sebagai pendapatan atau beban, disertai dengan pengakuan kenaikan atau penurunan liabilitas kepada pemegang polis unit-link di laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan liabilitas kepada pemegang polis unit-link di laporan posisi keuangan konsolidasian.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ad. Insurance contract liabilities (continued)**

Since January 1, 2025 (continued)

Loss components

BRI Life and BRI Insurance have grouped contracts that are onerous at initial recognition separately from contracts in the same portfolio that are not onerous at initial recognition. Groups that were not onerous at initial recognition can also subsequently become onerous if assumptions and experience changes. The subsidiaries have established a loss component of the liability for remaining coverage for any onerous group depicting the future losses recognised.

The loss component is released based on a systematic allocation of the subsequent changes in the fulfilment cash flows to: (i) the loss component; and (ii) the liability for remaining coverage excluding the loss component. The loss component is also updated for subsequent changes in estimates of the fulfilment cash flows related to future service.

The systematic allocation of subsequent changes to the loss component results in the total amounts allocated to the loss component being equal to zero by the end of the coverage period of a group of contracts (since the loss component will have been materialised in the form of incurred claims). BRI Life and BRI Insurance use the proportion on initial recognition to determine the systematic allocation of subsequent changes in future cash flows between the loss component and the liability for remaining coverage excluding the loss component.

Any interest, gain or loss due to increases or decreases in market value of investments are recorded as income or expense, with a corresponding recognition of increase or decrease in liability to unit-link policyholders in the statement of profit or loss and other comprehensive income and liability to unit-link policyholders in the consolidated statement of financial position.

MATERIAL (lanjutan)**

**ad. Liabilitas kontrak asuransi (lanjutan)**

Sejak 1 Januari 2025 (lanjutan)

Pendapatan dan biaya keuangan asuransi

Pendapatan atau biaya keuangan asuransi terdiri dari perubahan dalam jumlah tercatat dari kelompok kontrak asuransi yang timbul dari:

- Pengaruh nilai waktu uang dan perubahan dalam nilai waktu uang.
- Pengaruh risiko keuangan dan perubahan dalam risiko keuangan.

Sebelum 1 Januari 2025

**a. Liabilitas manfaat polis masa depan**

Liabilitas manfaat polis masa depan merupakan nilai kini estimasi pembayaran seluruh manfaat yang diperjanjikan termasuk seluruh opsi yang disediakan, nilai kini estimasi seluruh biaya yang dikeluarkan dan juga mempertimbangkan penerimaan premi di masa depan. Liabilitas manfaat polis masa depan merupakan liabilitas atas kontrak asuransi bukan jangka pendek.

Kenaikan liabilitas manfaat polis masa depan diakui sebagai beban pada laba rugi tahun berjalan sedangkan penurunan liabilitas manfaat polis masa depan diakui sebagai pendapatan pada laba rugi tahun berjalan. Liabilitas tersebut dihentikan pengakuannya pada saat kontrak berakhir, dikeluarkan atau dibatalkan.

**b. Estimasi liabilitas klaim**

Estimasi liabilitas klaim merupakan klaim dalam proses penyelesaian yang ditentukan berdasarkan estimasi kerugian dari klaim yang masih dalam proses penyelesaian pada tanggal laporan posisi keuangan konsolidasian, termasuk klaim yang telah terjadi namun belum dilaporkan (*Incurred But Not Reported* (IBNR)).

Perubahan dalam estimasi liabilitas klaim diakui dalam laba rugi tahun berjalan. Liabilitas tersebut dihentikan pengakuannya pada saat kontrak berakhir, dikeluarkan atau dibatalkan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ad. Insurance contract liabilities (continued)**

Since January 1, 2025 (continued)

Insurance finance income and expense

Insurance finance income or expenses comprise the change in the carrying amount of the group of insurance contracts arising from:

- The effect of the time value of money and changes in the time value of money.
- The effect of financial risk and changes in financial risk.

Before January 1, 2025

**a. Liabilities for future policy benefits**

Liabilities for future policy benefits represent the present value of estimated payments of all the agreed benefits including all the available options, the estimated present value of all costs incurred and also considering the future premium receipt. Liabilities for future policy benefits represent liabilities of non short-term insurance contracts.

The increase in liability for future policy benefits is recognized as expense in the profit or loss for the period, while the decrease in liability for future policy benefits is recognized as income in the profit or loss for the year. The liabilities are derecognized when the contract has expired, discharged or cancelled.

**b. Estimated claim liabilities**

Estimated claim liabilities represents claims in the settlement process which are determined based on the estimated loss from claims that are still in settlement process at the consolidated statement of financial position date, including claims that have incurred but not reported ("IBNR").

The changes in estimated claim liabilities are recognized in the profit or loss for the period. The liabilities are derecognized when the contract has expired, discharged or cancelled.

MATERIAL (lanjutan)**

**ad. Liabilitas kontrak asuransi (lanjutan)**

Sebelum 1 Januari 2025 (lanjutan)

**c. Premi yang belum merupakan pendapatan**

Premi yang belum merupakan pendapatan merupakan bagian premi yang telah dilunasi, namun belum merupakan pendapatan karena masa pertanggungan asuransi masih berjalan pada akhir tahun. Premi yang belum merupakan pendapatan merupakan liabilitas atas kontrak asuransi jangka pendek.

Premi yang belum merupakan pendapatan dihitung secara individual dari tiap pertanggungan yang besarnya ditetapkan secara proporsional terhadap jumlah proteksi yang diberikan selama periode pertanggungan atau periode risiko, konsisten dengan pengakuan pendapatan premi asuransi jangka pendek.

Kenaikan premi yang belum merupakan pendapatan diakui sebagai beban pada laba rugi tahun berjalan sedangkan penurunan premi yang belum merupakan pendapatan diakui sebagai pendapatan pada laba rugi tahun berjalan. Liabilitas ini dihentikan pengakuannya pada saat kontrak berakhir, dilepaskan atau dibatalkan.

**ae. Imbalan kerja**

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek seperti upah, iuran jaminan sosial, cuti jangka pendek, bonus dan imbalan non-moneter lainnya diakui selama periode jasa diberikan. Imbalan jangka pendek dihitung sebesar jumlah yang tidak didiskontokan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ad. Insurance contract liabilities (continued)**

Before January 1, 2025 (lanjutan)

**c. Unearned premium**

*Unearned premium represents part of the premiums that were already received but not yet earned, because the insurance coverage period were not yet due at the end of the year. Unearned premium represents liabilities of short-term insurance contract.*

*Unearned premium is calculated individually from each coverage, where the amount determined proportionally to the amount of protection provided during the coverage period or risk period, consistent with the recognition of short-term insurance premium income.*

*The increase in unearned premium is recognized as expense in the profit or loss for the year, while the decrease in unearned premium is recognized as income in the profit or loss for the year. The liabilities are derecognized when the contract has expired, discharged or cancelled.*

**ae. Employee benefits**

Short-term employee benefits

*Short-term employee benefits such as salaries, social security contributions, short-term leaves, bonuses, and other non-monetary benefits are recognized during the period when the services are rendered. Short-term employee benefits are calculated using undiscounted amounts.*

Program pensiun iuran pasti

Merupakan iuran kepada dana pensiun sebesar persentase tertentu gaji pekerja yang menjadi peserta program pensiun iuran pasti BRI. Iuran dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pekerja-pekerja tersebut dan pembayaran dikurangkan dari utang iuran. Iuran terutang dihitung berdasarkan jumlah yang tidak didiskontokan.

Program imbalan pasti dan imbalan kerja jangka panjang lainnya

Imbalan pasca kerja dan imbalan kerja jangka panjang lainnya seperti penghargaan tanda jasa, cuti besar, program kesehatan pasca kerja BPJS dan program manfaat lain manfaat dana tambahan dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pekerja yang memenuhi syarat. Imbalan kerja ditentukan berdasarkan peraturan BRI dan peraturan yang berlaku.

Imbalan pasca kerja dan imbalan kerja jangka panjang lainnya secara aktuaris ditentukan berdasarkan metode *Projected Unit Credit*.

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain, terdiri atas:

- (i) Keuntungan dan kerugian aktuarial.
- (ii) Imbal hasil atas aset program, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset).
- (iii) Setiap perubahan dampak batas aset, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset).

Defined contribution pension plan

Defined contribution pension plan is the contribution to pension fund at a certain percentage of salaries of employees who are participants of BRI's defined contribution pension plan. The contribution is accrued and recognized as expense when services have been rendered by the qualified employees and actual payments are deducted from the contribution payable. Contribution payable is measured using undiscounted amounts.

Defined benefit plan and other long-term employee benefits

The post-employment benefits and other long-term employee benefits such as gratuity for services, grand leaves and BPJS post-employment health program are accrued and recognized as expense when services have been rendered by these employees. The benefits are determined based on BRI's policy and applicable regulations.

The post-employment benefits and other long-term employee benefits are determined on an actuarial basis using the *Projected Unit Credit* method.

Remeasurement of net defined benefit liabilities (assets), which is recognized as other comprehensive income, consist of:

- (i) Actuarial gains and losses.
- (ii) Return on defined benefit plan assets, excluding amounts that are included in the net interest on liabilities (assets).
- (iii) Any change in the impact of the asset limit, excluding amounts that are included in the net interest on the liabilities (assets).

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ae. Imbalan kerja (lanjutan)**

Program imbalan pasti dan imbalan kerja jangka panjang lainnya (lanjutan)

Pengukuran kembali liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain yang tidak direklasifikasi ke laba rugi pada periode berikutnya.

Untuk imbalan kerja jangka panjang lain atas biaya jasa kini, biaya bunga neto atas liabilitas (aset) imbalan pasti neto, dan pengukuran kembali liabilitas (aset) imbalan pasti neto langsung diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian periode berjalan.

Biaya jasa lalu diakui sebagai beban pada tanggal yang lebih awal antara ketika amandemen atau kurtailmen program terjadi, dan ketika biaya restrukturisasi atau pesangon diakui, sehingga biaya jasa lalu yang belum vested tidak lagi dapat ditangguhkan dan diakui selama periode vesting masa depan.

**af. Opsi saham**

Biaya kompensasi saham pada tanggal penerbitan dihitung berdasarkan nilai wajar dari opsi saham tersebut dan diakui dalam akun "Beban Tenaga Kerja dan Tunjangan" berdasarkan program hak yang diakui pada tahun berjalan (*cliff-vesting scheme*) dengan metode garis lurus selama masa tunggu (*vesting period*). Akumulasi dari biaya kompensasi saham diakui sebagai "opsi saham" dalam bagian ekuitas. Nilai wajar dari opsi saham tersebut dinilai dengan menggunakan model penentuan harga opsi *Black-Scholes*.

**ag. Laba per lembar saham**

Laba per lembar saham dasar dihitung dengan membagi laba periode berjalan yang diatribusikan kepada Entitas Induk (BRI) dengan jumlah rata-rata tertimbang saham yang ditempatkan dan disetor penuh pada periode yang bersangkutan.

Laba per lembar saham dilusian dihitung setelah melakukan penyesuaian yang diperlukan terhadap jumlah rata-rata tertimbang saham biasa yang beredar.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ae. Employee benefits (continued)**

Defined benefit plan and other long-term employee benefits (continued)

Remeasurement of net defined benefit liabilities (assets) is recognized as other comprehensive income which is not reclassified to profit or loss in the subsequent period.

For other long-term employee benefits, the current service cost, the net interest expense on net defined benefit liabilities (assets), and the remeasurement of net defined benefit liabilities (assets) are recognized immediately in the current period consolidated statement of profit or loss and other comprehensive income.

Past service costs are recognized as expense at the earlier date between the occurrence of the amendment or curtailment program and when the restructuring or severance costs are recognized, therefore, unvested past service cost can no longer be deferred and recognized over the future vesting period.

**af. Stock option**

The stock compensation cost at the issuance date is calculated based on the fair value of the stock options and recognized in "Salaries and Employee Benefits Expense" based on the cliff-vesting scheme using the straight-line method over the vesting period. The accumulation of stock compensation cost is recognized as "stock option" in equity. The fair values of the stock options are assessed using the Black-Scholes option pricing model. The fair values of the stock options are assessed using the Black-Scholes option pricing model.

**ag. Earnings per share**

Basic earnings per share is calculated by dividing the income for the period attributable to the Parent Entity (BRI) with the weighted average number of issued and fully paid shares during the related period.

Diluted earnings per share is calculated after making the necessary adjustments to the weighted average number of ordinary shares outstanding.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ah. Transaksi dan saldo dalam mata uang asing**

BRI dan entitas anaknya menyelenggarakan catatan akuntansi dalam Rupiah. Transaksi yang melibatkan mata uang asing dicatat pada nilai tukar pada saat terjadinya transaksi. Pada tanggal-tanggal 31 Desember 2025 dan 2024, semua aset dan liabilitas moneter dalam mata uang asing dijabarkan ke dalam Rupiah dengan menggunakan kurs spot Refinitiv Eikon pada pukul 15.00 WIB (Waktu Indonesia bagian Barat). Keuntungan atau kerugian yang timbul dibebankan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Nilai tukar yang digunakan untuk menjabarkan mata uang asing ke dalam Rupiah adalah sebagai berikut (nilai penuh):

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>
1 Dolar Amerika Serikat	16.675,00	16.095,00
1 Pound Sterling Inggris	22.439,55	20.218,54
1 Yen Jepang	106,50	103,03
1 Euro Eropa	19.571,45	16.758,12
1 Dolar Hong Kong	2.142,30	2.073,11
1 Riyal Arab Saudi	4.446,50	4.284,00
1 Dolar Singapura	12.965,05	11.844,58
1 Ringgit Malaysia	4.108,16	3.597,86
1 Dolar Australia	11.152,24	10.013,51
1 Renminbi	2.385,00	2.204,99
1 Baht Thailand	529,20	469,79
1 Franc Swiss	21.026,42	17.815,04
1 Dolar Kanada	12.167,54	11.201,59
1 Dolar Brunei Darussalam	12.965,05	11.844,57
1 Kroner Denmark	2.620,58	2.247,01

1 Dolar Taiwan Baru	530,99	490,93
1 Dong Vietnam	0,63	0,63

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ah. Foreign currency transactions and balances**

BRI and its subsidiaries maintain their accounting records in Indonesian Rupiah. Transactions involving foreign currency are recorded at the prevailing exchange rates at the time of the transactions. As of December 31, 2025 and 2024, all foreign currency denominated monetary assets and liabilities are translated into Rupiah using the Refinitiv Eikon spot rates at 3.00 p.m. WIB (Western Indonesian Time). The resulting gains or losses are recognized in the consolidated statement of profit or loss and other comprehensive income.

The exchange rates used in the translation of foreign currency amounts into Rupiah are as follows (full amount):

1 United States Dollar
1 Great Britain Pound Sterling
1 Japanese Yen
1 European Euro
1 Hong Kong Dollar
1 Saudi Arabian Riyal
1 Singaporean Dollar
1 Malaysian Ringgit
1 Australian Dollar
1 Renminbi
1 Thailand Baht
1 Swiss Franc
1 Canadian Dollar
1 Bruneian Dollar
1 Danish Krone
1 South Korean Won
1 New Zealand Dollar
1 Papua New Guinean Kina
1 United Arab Emirates Dirham
1 Swedish Krone
1 Norwegian Krone
1 Indian Rupee
1 Phillipine Peso
1 New Taiwanese Dollar
1 Vietnamese Dong

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ai. Penjabaran laporan keuangan Kantor  
Cabang dan Perwakilan di luar negeri**

BRI memiliki 1 (satu) Entitas Anak di Hong Kong, 5 (lima) Kantor Cabang di New York, Cayman Islands, Singapura, Timor-Leste dan Taipei serta 1 (satu) Kantor Perwakilan di luar negeri yang berlokasi di Hong Kong yang merupakan entitas asing yang terpisah.

Untuk tujuan penggabungan laporan keuangan konsolidasian, seluruh akun entitas anak, kantor cabang dan perwakilan di luar negeri dijabarkan dalam Rupiah dengan kurs sebagai berikut:

- a) Aset dan liabilitas serta komitmen dan kontinjensi menggunakan kurs *spot* Refinitiv Eikon pada pukul 15.00 WIB pada tanggal laporan posisi keuangan.
- b) Pendapatan, beban, laba dan rugi menggunakan kurs tengah rata-rata yang berlaku pada bulan yang bersangkutan. Saldo akhir periode merupakan penjumlahan saldo bulanan pendapatan, beban, laba dan rugi selama tahun yang bersangkutan.
- c) Modal saham dan tambahan modal disetor menggunakan kurs historis.
- d) Laporan arus kas menggunakan kurs *spot* Refinitiv Eikon pada pukul 15.00 WIB pada tanggal laporan posisi keuangan, kecuali pos-pos laba rugi yang menggunakan kurs tengah rata-rata dan pos-pos ekuitas yang menggunakan kurs historis.

Selisih yang timbul dari proses penjabaran laporan keuangan tersebut disajikan di kelompok ekuitas sebagai "Selisih kurs karena penjabaran laporan keuangan dalam mata uang asing".

**aj. Instrumen derivatif**

Instrumen keuangan derivatif dinilai dan diakui di laporan posisi keuangan konsolidasian pada nilai wajar. Setiap kontrak derivatif dicatat sebagai aset apabila memiliki nilai wajar positif dan sebagai liabilitas apabila memiliki nilai wajar negatif.

Tagihan dan liabilitas derivatif diklasifikasikan sebagai aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ai. Translation of the financial statements of  
Overseas Branch and Representative Office**

BRI has 1 (one) Subsidiary in Hong Kong, 5 (five) Branch Offices in New York, Cayman Islands, Singapore, Timor-Leste and Taipei and 1 (one) Representative Office in Hong Kong which are considered as separate foreign entities.

For consolidated financial statement purposes, all accounts of subsidiary, overseas branch and representative offices are translated into Rupiah with the following exchange rates:

- a) Assets and liabilities, as well as commitments and contingencies - use Refinitiv Eikon spot rates at 3.00 p.m. WIB on the statement of financial position date.
- b) Income, expenses, gains and losses - use the average middle rate prevailing in the related month. The year-end balances is the sum of the monthly balances of income, expenses, gains and losses during the year.
- c) Equity - capital stock and additional paid-in capital use historical rates.
- d) Statement of cash flows - use the Refinitiv Eikon spot rates at 3.00 p.m. WIB on the statement of financial position date, except for the profit and loss accounts which use middle rates and equity accounts which use historical rates.

The difference arising from the translation process of the financial statements are presented in equity as "Differences arising from the translation of foreign currency financial statements".

**aj. Derivatives instruments**

Derivatives financial instruments are assessed and recognized in the consolidated statement of financial position at fair value. Each derivatives contract is recorded as asset when the fair value is positive and as liability when the fair value is negative.

Derivatives receivable and payable are classified as financial assets and liabilities measured at fair value through profit or loss.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**aj. Instrumen derivatif (lanjutan)**

Keuntungan atau kerugian yang terjadi dari perubahan nilai wajar diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Nilai wajar instrumen derivatif ditentukan diskonto arus kas dan model penentu harga atau harga yang diberikan oleh *broker (quoted price)* atas instrumen lainnya yang memiliki karakteristik serupa, yang mengacu pada PSAK No. 113: "Pengukuran Nilai Wajar" (Catatan 2c).

Derivatif melekat tidak lagi dipisahkan dari kontrak utama non-derivatif yang merupakan aset keuangan/liabilitas keuangan, BRI dan entitas anak mengklasifikasikan aset/liabilitas keuangan secara keseluruhan berdasarkan model bisnis dan jangka waktu kontraktualnya sebagaimana diungkapkan dalam Catatan 2c.

**ak. Perpajakan**

Beban pajak tahun berjalan ditetapkan berdasarkan taksiran penghasilan kena pajak tahun berjalan. Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer aset dan liabilitas antara pelaporan komersial dan pajak pada setiap tanggal pelaporan.

Aset pajak tangguhan diakui untuk seluruh perbedaan temporer yang boleh dikurangkan dan saldo rugi fiskal yang belum dikompensasikan, sepanjang perbedaan temporer dan rugi fiskal yang belum dikompensasikan tersebut dapat dimanfaatkan untuk mengurangi laba fiskal pada masa yang akan datang.

Jumlah tercatat aset pajak tangguhan ditelaah pada setiap tanggal posisi keuangan dan nilai tercatat aset pajak tangguhan tersebut diturunkan apabila tidak lagi terdapat kemungkinan besar bahwa laba fiskal yang memadai akan tersedia untuk mengkompensasi sebagian atau semua manfaat aset pajak tangguhan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**aj. Derivatives instruments (continued)**

*Gains or losses resulting from fair value changes are recognized in the consolidated statement of profit or loss and other comprehensive income.*

*The fair value of derivatives instruments are determined based on discounted cash flows and pricing models or quoted prices from the brokers of other instruments with similar characteristics, which refers to SFAS No. 113: "Fair Value Measurement" (Note 2c).*

*Embedded derivatives are no longer separated from major non-derivative contracts which are financial assets/financial liabilities, the Bank and its subsidiaries classify financial assets/liabilities as a whole based on its business model and contractual term as disclosed in Note 2c.*

**ak. Taxation**

*Current tax expense is determined based on the estimated taxable income for the current year. Deferred tax assets and liabilities are recognized for temporary differences between the commercial and the fiscal reporting of assets and liabilities at each reporting date.*

*Deferred tax assets are recognized for all deductible temporary differences and uncompensated tax loss balance to the extent that it is probable that the temporary differences and uncompensated tax loss balance will be utilized to deduct the future taxable profit.*

*The carrying value of deferred tax assets is reviewed at each financial position date and is reduced if it is no longer probable that sufficient taxable profits will be available to compensate part or all of the benefit of the deferred tax assets.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ak. Perpajakan (lanjutan)**

Aset dan kewajiban pajak tangguhan diukur berdasarkan tarif pajak yang berlaku pada tahun saat aset direalisasikan atau liabilitas diselesaikan berdasarkan peraturan perpajakan yang berlaku atau yang secara substantif telah diberlakukan pada tanggal laporan posisi keuangan. Pengaruh pajak terkait dengan penyisihan untuk dan/atau pembalikan seluruh perbedaan temporer selama tahun berjalan, termasuk pengaruh perubahan tarif pajak, diakui sebagai "Manfaat (Beban) Pajak Penghasilan Tangguhan" dan termasuk dalam laba atau rugi neto tahun berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Perubahan terhadap kewajiban perpajakan diakui pada saat penetapan pajak diterima atau jika BRI dan entitas anak mengajukan keberatan, pada saat keputusan atas keberatan telah ditetapkan.

Untuk setiap entitas yang dikonsolidasi, pengaruh pajak atas perbedaan temporer dan akumulasi rugi pajak, yang masing-masing dapat berupa aset atau liabilitas, disajikan dalam jumlah neto untuk masing-masing entitas tersebut.

Aset dan liabilitas atas pajak tangguhan dan pajak kini dapat saling hapus apabila terdapat hak yang berkekuatan hukum untuk melakukan saling hapus.

**al. Informasi segmen**

Segmen adalah bagian yang dapat dibedakan dari BRI dan entitas anak yang terlibat baik dalam menyediakan produk tertentu (segmen operasi), maupun dalam menyediakan produk dalam lingkungan ekonomi tertentu (segmen geografis), yang memiliki risiko dan imbalan yang berbeda dengan segmen lainnya.

Pendapatan, beban, hasil, aset dan liabilitas segmen mencakup item-item yang dapat diatribusikan langsung kepada suatu segmen serta hal-hal yang dapat dialokasikan dengan dasar yang sesuai kepada segmen tersebut. Item-item segmen ditentukan sebelum saldo dan transaksi antar kelompok usaha, dieliminasi sebagai bagian dari proses konsolidasi.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ak. Taxation (continued)**

*Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply on the year when the asset is realized or the liability is settled based on the tax regulations that have been enacted or substantively enacted at the statement of financial position date. The tax effect related to the provisions for and/or reversals of all temporary differences during the year, including the effect of change in tax rates, are recognized as "Deferred Income Tax Benefit (Expense)" and included in the net income or loss for the year, except for transactions previously charged or credited directly to equity.*

*Amendments to tax obligations are recorded when the tax assessment is received or, if the BRI and subsidiaries submitted an appeal, when the decision on the appeal is determined.*

*For each of the consolidated entity, the tax effects on temporary differences and accumulated tax loss, which can be either asset or liability, are presented in the net amounts for each of the entity.*

*Assets and liabilities on deferred tax and current tax can be offset if there is a legal enforceable right to offset.*

**al. Segment information**

*Segment is a distinguishable component of the BRI and subsidiaries that engaged either in providing certain products (operational segment), or in providing products within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.*

*The segment income, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on an appropriate basis to that segment. The segment items are determined before intercompany balances and transactions are eliminated as part of consolidation process.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**al. Informasi segmen (lanjutan)**

BRI dan entitas anak menyajikan segmen usaha berdasarkan laporan internal konsolidasian yang disajikan kepada pengambil keputusan operasional yaitu Direksi.

BRI telah mengidentifikasi dan mengungkapkan informasi keuangan berdasarkan kegiatan bisnis utama (segmen operasi) yang terbagi atas kelompok mikro, ritel, korporasi, lainnya dan entitas anak, serta berdasarkan segmen geografis.

Segmen geografis meliputi penyediaan barang maupun jasa di dalam lingkungan ekonomi tertentu yang memiliki risiko serta tingkat pengembalian yang berbeda dengan segmen operasi lainnya yang berada dalam lingkungan ekonomi lain. Segmen geografis BRI adalah berdasarkan wilayah Indonesia, Amerika Serikat, Hong Kong, Singapura, Timor-Leste dan Taiwan.

**am. Pendapatan dan beban penjualan emas**

Pendapatan dari penjualan emas diakui pada saat kewajiban pelaksanaan dipenuhi entitas anak pada waktu tertentu, yaitu pada saat pengendalian atas barang telah berpindah kepada pelanggan. Pendapatan bisnis emas juga diakui ketika suatu produk telah diserahkan kepada pelanggan atau memenuhi skema "penjualan ketika pengiriman ditunda". Pengakuan pendapatan tersebut menerapkan PSAK No. 115, "Pendapatan dari Kontrak dengan Pelanggan". Pendapatan disajikan neto setelah dikurangi pajak pertambahan nilai, retur, potongan harga dan diskon. Beban diakui pada saat terjadinya.

**an. Saham treasuri**

Instrumen ekuitas BRI yang diperoleh kembali (saham treasuri) diakui pada harga perolehan kembali dan dikurangi dari ekuitas. Tidak ada laba atau rugi yang diakui pada laba rugi atas perolehan, penjualan kembali, penerbitan atau pembatalan dari instrumen ekuitas BRI. Selisih antara jumlah tercatat dan penerimaan, bila diterbitkan kembali, diakui sebagai bagian dari tambahan modal disetor pada ekuitas.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**al. Segment information (continued)**

*BRI and subsidiaries present operational segments based on the internal consolidated report that is presented to the Board of Directors as the operational decision maker.*

*BRI has identified and disclosed financial information based on main business (operational segments) classified into micro, retail, corporate and others as well as subsidiaries, and based on geographical segments.*

*The geographical segment includes provision of products or services within a particular economic environment with different risks and returns compared to other operating segments in other economic environments. BRI's geographical segments are Indonesia, United States of America, Hong Kong, Singapore, Timor-Leste, and Taiwan.*

**am. Gold Sales revenue and expenses**

*Revenue from the sale of gold is recognized when the performance obligation is satisfied by the subsidiary at the point in time when the control of goods has been transferred to the customer. Revenue on gold business is also recognized when the product delivered to customers or has met the criteria of "bill and hold" scheme. The revenue recognition adopted SFAS No. 115, "Revenue from Contract with Customer". Revenue is shown net of value added tax, returns, rebates and discounts. Expenses are recognized as incurred.*

**an. Treasury stock**

*Reacquired BRI equity instruments (treasury stocks) are recognized at reacquisition price and deducted from equity. No gain or loss is recognized in profit or loss on the acquisition, resale, issuance or cancellation of BRI equity instruments. The difference between the carrying amount and receipts, if reissued, is recognized as part of additional paid-in capital in equity.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ao. Kegiatan usaha *bullion***

Pinjaman modal kerja emas adalah pinjaman dalam bentuk emas yang diberikan kepada nasabah, yang bersumber dari deposito emas. Setelah kepemilikan dialihkan kepada peminjam, Entitas Anak tidak lagi memiliki hak untuk menggunakan emas tersebut. Oleh karena itu, pinjaman modal kerja emas diakui sebagai aset lain-lain dan diukur pada nilai wajar, yang ditentukan dengan menggunakan harga pasar spot emas dikalikan dengan kuantitas emas yang dipinjamkan. Penyelesaian terjadi ketika nasabah mengembalikan jumlah emas yang setara sesuai dengan perjanjian pinjaman.

Aset deposito emas merupakan simpanan emas dimana saldo emas dapat dimanfaatkan oleh entitas anak untuk disalurkan ke produk pembiayaan emas dan/atau perdagangan emas dalam periode tertentu, sesuai dengan syarat dan ketentuan perjanjian deposito awal, di mana penarikan hanya dapat dilakukan berdasarkan syarat yang disepakati. Entitas anak melakukan perhitungan nilai wajar untuk aset atas emas yang diterima dari nasabah. Selisih valuasi harga emas atas pengukuran kembali aset deposito emas diakui dalam laba rugi.

Utang deposito emas adalah liabilitas yang dimiliki oleh entitas anak kepada nasabah atas emas yang dititipkan atau didepositokan, di mana entitas anak berkewajiban untuk mengembalikan emas dalam jumlah dan kadar yang sama kepada nasabah pada saat jatuh tempo. Entitas anak melakukan perhitungan nilai wajar untuk liabilitas yang timbul dari kewajiban untuk mengembalikan emas yang diterima dari nasabah. Selisih valuasi harga emas atas pengukuran kembali liabilitas diakui dalam laba rugi.

Pendapatan dari penjualan emas yang berasal dari bisnis *bullion* diakui secara neto dikurangkan dengan harga pokok penjualan emas.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ao. *Bullion* business activities**

*Gold working capital loan represents gold loans provided to customer, sourced from gold deposits. Upon transfer of ownership to the borrower, the subsidiary no longer retains the right to use the gold. Accordingly, the gold working capital loan balance is recognized as other assets and measured at fair value, determined using the spot market price of gold multiplied by the quantity of gold lent. Settlement occurs when the borrower returns an equivalent quantity of gold in accordance with the loan agreement.*

*Gold deposit assets represent gold deposits in which the gold balance can be utilized by the subsidiary for disbursement to gold financing and/or gold trading products within a specified period, in accordance with the terms and conditions of the initial deposit agreement, where withdrawal can only be made under certain agreed terms. The subsidiary performs fair value measurement for gold assets received from customers. The valuation difference on gold prices arising from remeasurement of assets is recognized in profit or loss.*

*Gold deposit payables is a liability of the subsidiary to customers for gold that has been entrusted or deposited, whereby the subsidiary is obliged to return the gold in the same quantity and purity to the customers upon maturity. The subsidiary performs fair value measurement for liabilities arising from the obligation to return gold received from customers. The valuation difference on gold prices arising from remeasurement of liabilities is recognized in profit or loss.*

*Revenue from gold sold derived from the bullion business is recognized net after deducting the cost of gold sold.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ao. Kegiatan usaha bullion (lanjutan)**

Uang muka pembelian emas *bullion trading* adalah pembayaran yang dilakukan oleh entitas anak sebelum memperoleh barang atau jasa, sehubungan dengan pelaksanaan perjanjian pembelian emas yang telah disepakati, dimana entitas anak memiliki hak untuk menerima emas sesuai dengan ketentuan kontrak yang berlaku.

**ap. Penggunaan pertimbangan, estimasi dan  
asumsi akuntansi yang signifikan**

Penyusunan laporan keuangan konsolidasian BRI dan entitas anak mengharuskan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah yang dilaporkan dari pendapatan, beban, aset dan liabilitas, dan pengungkapan atas liabilitas kontinjensi pada akhir periode pelaporan. Ketidakpastian mengenai asumsi dan estimasi tersebut dapat mengakibatkan penyesuaian material terhadap nilai tercatat aset dan liabilitas dalam periode pelaporan berikutnya.

**Pertimbangan**

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi BRI dan entitas anak yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian BRI dan entitas anak sebagai berikut:

Nilai wajar atas instrumen keuangan

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan konsolidasian dapat dikategorikan pada level hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1 : Harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik yang dapat diakses pada tanggal pengukuran.
- Level 2 : Input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung.
- Level 3 : Input yang tidak dapat diobservasi untuk aset dan liabilitas.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ao. Bullion business activities (continued)**

Advance for gold bullion trading purchase represents payments made by the subsidiary prior to the receipt of goods or services, in accordance with the agreed gold purchase contracts, under which the subsidiary is entitled to receive the gold in accordance with the contractual terms.

**ap. Use of significant accounting judgments,  
estimates and assumptions**

The preparation of the consolidated financial statement for BRI and subsidiaries requires management to make judgments, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. Uncertainty about these assumptions and estimates could result in material adjustments to the carrying amounts of the assets and liabilities in the subsequent reporting periods.

**Judgements**

The following judgments are made by management in applying BRI and subsidiaries' accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statement for BRI and subsidiaries, as follows:

Fair value of financial instruments

All assets and liabilities in which fair value is measured or disclosed in the consolidated financial statement are classified within fair value hierarchy, based on the lowest level of input that is significant to the overall fair value measurement:

- Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities accessible at the measurement date.
- Level 2 : Inputs other than quoted prices included in level 1 for the assets and liabilities, which is directly or indirectly observable.
- Level 3 : Unobservable inputs for the assets and liabilities

Kontinjensi

Manajemen BRI dan entitas anak sedang terlibat dalam proses hukum. Perkiraan biaya kemungkinan bagi penyelesaian klaim telah dikembangkan melalui konsultasi dengan bantuan konsultan hukum BRI dan entitas anak didasarkan pada analisis hasil yang potensial. Manajemen BRI dan entitas anak tidak berkeyakinan bahwa hasil dari hal ini akan mempengaruhi hasil usaha. Besar kemungkinan, bagaimanapun, bahwa hasil operasi di masa depan dapat secara material terpengaruh oleh perubahan dalam estimasi atau efektivitas dari strategi yang terkait dengan hal tersebut.

**Estimasi dan Asumsi**

Asumsi utama masa depan dan sumber utama estimasi ketidakpastian lain pada tanggal pelaporan yang memiliki risiko untuk dapat menyebabkan penyesuaian yang material terhadap nilai tercatat aset dan liabilitas untuk tahun berikutnya seperti yang diungkapkan di bawah ini. BRI dan entitas anak mendasarkan asumsi dan estimasi yang digunakan pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun.

Asumsi dan situasi mengenai perkembangan masa depan dapat berubah akibat perubahan pasar atau situasi yang timbul di luar kendali BRI dan entitas anak. Perubahan tersebut dicerminkan dalam asumsi yang digunakan pada saat terjadinya.

Cadangan kerugian penurunan nilai dari kredit yang diberikan, pinjaman syariah serta piutang sewa pembiayaan

Manajemen BRI dan entitas anak menelaah portofolio kredit yang diberikan, pinjaman syariah serta piutang sewa pembiayaan setiap tahun, untuk menilai penurunan nilai dengan memperbarui cadangan kerugian penurunan nilai yang dibentuk selama periode yang diperlukan berdasarkan analisis berkelanjutan dan pemantauan terhadap rekening individual oleh petugas terkait.

estimates and assumptions (continued)**

**Judgements (continued)**

Contingencies

The management of BRI and subsidiaries are currently involved in legal proceedings. The estimates of the probable cost for the settlement of claims have been developed through consultation with the aid of the legal consultant of BRI and subsidiaries and are based on the analysis of potential results. BRI and subsidiaries' management does not believe that the outcome of this matter will affect the results of operations. It is probable, however, that future results of operations could be materially affected by changes in the estimates or effectiveness of the strategies related to these proceedings.

**Estimates and Assumptions**

The key assumptions concerning the future and other key sources for estimates uncertainty at the reporting date that have a risk of causing a material adjustment to the carrying amounts of assets and liabilities for the subsequent year are disclosed below. BRI and subsidiaries based its assumptions and estimates used on the parameters available when the consolidated financial statement were prepared.

Assumptions and circumstances regarding future developments may change due to market changes or circumstances arising beyond the control of BRI and subsidiaries. These changes are reflected in the assumptions used when they occur.

Allowance for impairment losses on loans, sharia loans and finance lease receivables

The management of BRI and subsidiaries review its loans, sharia loans and finance lease receivables portfolio to assess impairment on an annual basis by updating the allowance for impairment losses formed during the required period based on the continuing analysis and monitoring of individual accounts by the loan officers.

asumsi akuntansi yang signifikan (lanjutan)**

**Estimasi dan Asumsi (lanjutan)**

Dalam menentukan apakah penurunan nilai harus dibentuk dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian, BRI dan entitas anak membuat penilaian, apakah terdapat data yang dapat diobservasi yang menunjukkan bahwa terdapat penurunan yang dapat diukur dalam laporan perkiraan arus kas masa depan dari portofolio pinjaman sebelum penurunan tersebut dapat diidentifikasi secara individual dalam portofolio tersebut.

Bukti seperti ini termasuk data yang dapat diobservasi yang menunjukkan bahwa terjadi perubahan yang merugikan pada status pembayaran kelompok peminjam, atau kondisi ekonomi nasional atau lokal yang berkorelasi dengan wanprestasi atas aset dalam kelompok. BRI dan entitas anak menggunakan perkiraan dalam menentukan jumlah dan waktu dari arus kas masa depan ketika menentukan tingkat cadangan kerugian yang diperlukan. Estimasi tersebut didasarkan pada asumsi mengenai sejumlah faktor dan hasil aktual yang dapat berbeda, yang mengakibatkan perubahan terhadap jumlah cadangan kerugian di masa yang akan datang.

Penurunan nilai untuk efek-efek

Manajemen BRI menentukan bahwa efek-efek memiliki kriteria penurunan nilai yang sama dengan aset keuangan yang dicatat pada biaya perolehan diamortisasi.

Penurunan nilai aset non-keuangan

BRI dan entitas anak mengevaluasi penurunan nilai aset non-keuangan apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset non-keuangan tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- a) Performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- b) Perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- c) Industri atau tren ekonomi yang secara signifikan bernilai negatif.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ap. Use of significant accounting judgments,  
estimates and assumptions (continued)**

**Estimates and Assumptions (continued)**

*In determining whether impairment loss should be formed in the consolidated statement of profit or loss and other comprehensive income, BRI and subsidiaries assess for any observable data indicating the existence of measurable decrease in the estimated future cash flows from loan portfolio before the decrease could be individually identified in the portfolio.*

*This evidence may include observable data indicating that there has been adverse change in the payment status of the borrower group, or national or local economic conditions that correlate with the default on assets in the group. BRI and subsidiaries use estimates in determining the amount and timing of future cash flows when determining the level of allowance for impairment losses required. These estimations are based on assumptions of several factors and actual results may differ resulting in changes in the amount of allowance for impairment losses in the future.*

Impairment of securities

*The management of BRI determines that securities are impaired based on the same criteria as for financial assets recorded at amortized cost.*

Impairment of non-financial assets

*BRI and subsidiaries assess impairment of non-financial assets whenever events or changes in circumstances indicate that the carrying amount of non-financial asset may not be recoverable. The factors that are considered important which may lead to impairment assessment are as follow:*

- a) *Significant underperformance against historical expectation or projection of operating results in the future;*
- b) *Significant changes in the manner of use of the assets or the overall business strategy; and*
- c) *Significant negative industry or economic trends.*

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**ap. Penggunaan pertimbangan, estimasi dan  
asumsi akuntansi yang signifikan**

**Estimasi dan Asumsi (lanjutan)**

Manajemen BRI dan entitas anak mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurangi biaya pelepasan dengan nilai pakai aset (atau unit penghasil kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

Pengakuan aset pajak tangguhan

Aset pajak tangguhan diakui untuk seluruh saldo rugi fiskal yang belum digunakan dalam hal terdapat kemungkinan bahwa penghasilan kena pajak akan tersedia untuk dikompensasi terhadap kerugian yang dapat digunakan. Pertimbangan manajemen yang signifikan diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan saat dan jumlah penghasilan kena pajak di masa mendatang seiring dengan strategi perencanaan pajak.

BRI dan entitas anak menelaah aset pajak tangguhan pada setiap tanggal laporan posisi keuangan dan mengurangi jumlah tercatat dalam hal tidak adanya lagi kemungkinan bahwa penghasilan kena pajak yang cukup akan tersedia untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan.

Nilai kini atas imbalan kerja

Biaya atas program pensiun dan imbalan pasca kerja lainnya ditentukan dengan perhitungan aktuaris. Perhitungan aktuaris melibatkan penggunaan asumsi mengenai tingkat diskonto, tingkat pengembalian yang diharapkan dari aset, kenaikan gaji di masa depan, tingkat kematian dan tingkat kecacatan. Dikarenakan program tersebut memiliki sifat jangka panjang, maka perkiraan tersebut memiliki ketidakpastian yang signifikan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ap. Use of significant accounting judgments,  
estimates and assumptions**

**Estimates and Assumptions (continued)**

The management of BRI and subsidiaries recognizes an impairment loss if the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher amount between the fair value less the costs of disposal and the use of asset value (or cash-generating unit). The recoverable amounts are estimated for individual assets or, if not possible, for the cash-generating unit to which the asset belongs to the unit.

Recognition of deferred tax assets

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that the taxable income will be available to be compensated against the losses that can be used. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, in accordance with the timing and amount of future taxable income in line with tax planning strategies.

BRI reviews its deferred tax assets at each statement of financial position date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable income will be available to compensate part or all of the deferred tax assets.

Present value of employee benefits

The cost of defined pension plan and other post employment benefits is determined using actuarial valuations. The actuarial valuation involves the use of assumptions regarding discount rates, expected rates of return on assets, future salary increases, mortality rates and disability rates. Due to the long-term nature of these plans, then the estimates are subject to significant uncertainty.

Kontrak asuransi

BRI Life dan BRI Insurance mendasarkan asumsi dan estimasinya pada parameter yang tersedia saat laporan keuangan disusun. Namun, keadaan yang ada dan asumsi tentang perkembangan di masa depan dapat berubah akibat perubahan pasar atau keadaan yang muncul di luar kendali BRI Life dan BRI Insurance. Perubahan semacam itu akan tercermin dalam asumsi saat perubahan tersebut terjadi.

Sejak 1 Januari 2025

PSAK No. 117 berlaku untuk kontrak asuransi yang diterbitkan, kontrak reasuransi yang diterbitkan (bisnis masuk), kontrak reasuransi yang dimiliki (bisnis keluar), dan kontrak investasi dengan fitur partisipasi diskresioner, asalkan BRI Life dan BRI Insurance juga menerbitkan kontrak asuransi.

Contractual Service Margin ("CSM")

BRI Life dan BRI Insurance melakukan estimasi signifikan dalam pengukuran *Contractual Service Margin (CSM)* dalam penilaian liabilitas asuransi. CSM mewakili laba yang belum direalisasi atas kontrak asuransi dan diamortisasi secara sistematis selama periode pertanggungjawaban.

Estimasi yang digunakan dalam penentuan CSM mencakup proyeksi arus kas masa depan, asumsi tingkat diskonto, estimasi penyesuaian risiko dan asumsi lainnya seperti mortalitas, morbiditas, dan persistensi. Perubahan asumsi atau estimasi ini dapat berdampak signifikan terhadap jumlah CSM yang diakui. BRI Life dan BRI Insurance melakukan tinjauan dan pembaruan estimasi secara berkala, setidaknya setiap akhir periode pelaporan, sesuai dengan perkembangan informasi dan pengalaman aktual.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ap. Use of significant accounting judgments,  
estimates and assumptions (continued)**

**Estimates and Assumptions (continued)**

Insurance contract

BRI Life and BRI Insurance based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of BRI Life and BRI Insurance. Such changes are reflected in the assumptions when they occur.

Since January 1, 2025

SFAS No. 117 applies to insurance contracts issued, reinsurance contracts issued (inward business), reinsurance contracts held (outward business) and investment contracts with discretionary participation features provided the BRI Life and BRI Insurance also issues insurance contracts.

Contractual Service Margin ("CSM")

BRI Life and BRI Insurance make significant estimates in measuring the *Contractual Service Margin (CSM)*. The CSM represents the unearned profit for insurance contracts and is systematically amortized over the coverage period.

The estimates used in determining the CSM include Projections of future cash flows, discount rate assumptions, risk adjustment estimates and other assumptions such as mortality, morbidity, and persistency. Changes in these assumptions or estimates may have a significant impact on the amount of CSM recognized. BRI Life and BRI Insurance review and update their estimates periodically, at least at each reporting date, in line with emerging experience and updated information.

Kontrak asuransi (lanjutan)

Sejak 1 Januari 2025 (lanjutan)

Probability-weighted atas proyeksi arus kas  
masa depan

Perkiraan arus kas masa depan mencerminkan pandangan BRI Life dan BRI Insurance terhadap kondisi saat ini pada tanggal pelaporan, dan perkiraan terhadap variabel pasar yang relevan konsisten dengan harga pasar yang dapat diamati. Dalam memperkirakan arus kas masa depan, BRI Life dan BRI Insurance mempertimbangkan ekspektasi saat ini terhadap peristiwa masa depan yang mungkin mempengaruhi arus kas tersebut. Ada berbagai asumsi ekonomi dan non-ekonomi yang digunakan sebagai masukan dalam proses perkiraan arus kas masa depan, termasuk, namun tidak terbatas pada, asumsi operasional seperti morbiditas, mortalitas, persisten, dan biaya, serta asumsi ekonomi.

Penyesuaian risiko untuk risiko non-keuangan

Pengukuran penyesuaian risiko harus mencerminkan kompensasi yang diperlukan oleh BRI Life dan BRI Insurance untuk menanggung ketidakpastian terkait jumlah dan waktu arus kas masa depan yang timbul dari risiko non-keuangan saat BRI Life dan BRI Insurance memenuhi kontrak asuransi.

Asumsi biaya yang digunakan dalam perkiraan  
arus kas masa depan

BRI Life dan BRI Insurance memperkirakan perkiraan biaya masa depan yang berkaitan dengan pelaksanaan kontrak menggunakan tingkat biaya saat ini yang disesuaikan dengan inflasi. Sebagian besar biaya diakui sebagai biaya yang dapat diatribusikan (biaya langsung) yang terdiri dari biaya akuisisi dan pemeliharaan.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

estimates and assumptions (continued)**

**Estimates and Assumptions (continued)**

Insurance contract (continued)

Since January 1, 2025 (continued)

Probability-weighted estimates of future cash  
flows

The estimates of future cash flows reflect BRI Life and BRI Insurance view of current conditions at the reporting date and estimates of any relevant market variables are consistent with observable market prices. When estimating future cash flows, the subsidiaries takes into account current expectations of future events that might affect those cash flows. There is a wide range of economic and non-economic assumptions that are used as inputs in the future cash flows estimation process including, but not limited to, operating assumptions such as morbidity, mortality, persistency and expenses, and economic assumptions.

Risk adjustment for non-financial risk

The measurement of risk adjustment should reflect the compensation required by BRI Life and BRI Insurance for bearing the uncertainty around the amount and timing of the future cash flows that arises from non-financial risk as the subsidiaries fulfil insurance contracts.

Expense assumption used in future cash flow  
estimation

BRI Life and BRI Insurance estimate future cost projections related to contract execution using the current cost rate adjusted for inflation. Most costs are recognized as attributable costs (direct costs) consisting of acquisition and maintenance costs.

asumsi akuntansi yang signifikan (lanjutan)**

**Estimasi dan Asumsi (lanjutan)**

Kontrak asuransi (lanjutan)

Sebelum 1 januari 2025

Estimasi liabilitas klaim

Estimasi liabilitas klaim merupakan liabilitas klaim dalam proses penyelesaian dan liabilitas klaim yang sudah terjadi namun belum dilaporkan (*Incurred But Not Reported*). Metode estimasi terbaik atas liabilitas klaim yaitu metode *chain-ladder* atau *bornheutter ferguson* atau *expected loss ratio* diterapkan atas perkembangan klaim untuk menentukan estimasi terbaik atas liabilitas klaim. Dalam metode-metode ini rasio perkembangan klaim dihitung berdasarkan data historis dan digunakan untuk memproyeksikan perkembangan klaim masa datang. Metode-metode ini adalah metode yang umum digunakan dalam bidang aktuarial, dan diterapkan berdasarkan penilaian atau pertimbangan aktuaris (*actuary's judgement*).

Liabilitas manfaat polis masa depan

Entitas anak mencatat liabilitas kontrak asuransi jangka pendek dan kontrak jangka panjang. Dalam metode liabilitas manfaat polis masa depan atas kontrak jangka pendek, premi yang belum merupakan pendapatan atas kontrak jangka pendek ditentukan secara individual dari tiap pertanggungansian dengan menggunakan metode harian (*daily method*) berdasarkan porsi sisa hari kontrak asuransi terhadap total periode kontrak asuransi. Dalam metode liabilitas manfaat polis masa depan atas kontrak jangka panjang, liabilitas dihitung dengan memperhitungkan nilai kini estimasi pembayaran seluruh manfaat yang diperjanjikan termasuk seluruh opsi yang disediakan ditambah dengan nilai kini estimasi seluruh biaya yang akan dikeluarkan dan juga mempertimbangkan penerimaan premi di masa depan. Asumsi utama yang mendasari metode tersebut adalah pengalaman klaim masa lalu dan tingkat diskonto.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**ap. Use of significant accounting judgments,  
estimates and assumptions (continued)**

**Estimates and Assumptions (continued)**

Insurance contract (continued)

Before January 1, 2025

Estimated claim liability

Estimated claim liabilities represent claims liabilities in the settlement process and claims liabilities that have occurred but not yet reported (*Incurred But Not Reported*). The best estimation methods for claim liabilities, namely the chain-ladder method, Bornheutter Ferguson method, or the expected loss ratio, are applied to claim development to determine the best estimate of claim liabilities. In these methods, the claim development ratio is calculated based on historical data and used to project future claim development. These methods are commonly used in the actuarial field and are applied based on the actuary's judgment.

Liabilities for future policy benefits

The subsidiaries record liabilities for short-term and long-term insurance contracts. Under the future policy benefit liability method for short-term contracts, unearned premiums for short-term contracts are determined individually for each policy using the daily method based on the portion of the remaining days of the insurance contract to the total insurance contract period. Under the future policy benefit liability method for long-term contracts, the liability is calculated by calculating the present value of the estimated payments of all promised benefits, including all available options, plus the present value of the estimated costs to be incurred, and also considering future premium receipts. The main assumptions underlying this method are past claims experience and the discount rate.

**2. IKHTISAR INFORMASI KEBIJAKAN AKUNTANSI  
MATERIAL (lanjutan)**

**aq. Perubahan kebijakan akuntansi dan  
pengungkapan**

BRI dan entitas anaknya telah menerapkan standar akuntansi yang berlaku efektif sejak tanggal 1 Januari 2025, yang dianggap relevan dengan laporan keuangan konsolidasian, yaitu:

**a. PSAK No. 117: Kontrak Asuransi**

PSAK No. 117 merupakan standar akuntansi keuangan baru yang komprehensif untuk kontrak asuransi yang mencakup pengakuan dan pengukuran, penyajian dan pengungkapan. PSAK No. 117 berlaku untuk semua jenis kontrak asuransi, jiwa, non-jiwa, asuransi langsung dan reasuransi, terlepas dari entitas yang menerbitkannya, serta untuk jaminan dan instrumen keuangan tertentu dengan fitur partisipasi tidak mengikat, serta beberapa pengecualian ruang lingkup yang berlaku. Tujuan keseluruhan dari PSAK No. 117 adalah untuk menyediakan model akuntansi untuk kontrak asuransi yang lebih bermanfaat dan konsisten untuk asuradur. PSAK No. 117 ini diadopsi dari *International Financial Reporting Standards (IFRS) No. 17* dan menggantikan PSAK No. 104.

Terdapat beberapa perbedaan mendasar dengan PSAK No. 104, diantaranya terkait dengan pengukuran, pengakuan laba dan penyajian kontrak asuransi. Dalam hal pengukuran kontrak asuransi, ada 3 (tiga) model pengukuran baru yang diperkenalkan oleh PSAK No. 117, yaitu Model Pengukuran Umum (GMM), *Variable Fee Approach (VFA)*, dan Pendekatan Alokasi Premi (PAA).

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**aq. Changes in accounting policies and  
disclosures**

*BRI and its subsidiaries have implemented accounting standards that have been effective since January 1, 2025, which are considered relevant to the consolidated financial statements, namely:*

**a. SFAS No. 117: Insurance Contract**

*SFAS No. 117 is a new comprehensive financial accounting standard for insurance contracts that covers recognition and measurement, presentation and disclosure. SFAS No. 117 applies to all types of insurance contracts, life, non-life, direct insurance and reinsurance, regardless of the issuing entity, as well as to certain guarantees and financial instruments with discretionary participation features, as well as several applicable scope exceptions. The overall objective of SFAS No. 117 is to provide a more useful and consistent accounting model for insurance contracts for insurers. SFAS No. 117 is adopted from *International Financial Reporting Standards (IFRS) No. 17* and replaces SFAS No. 104.*

*There are several fundamental differences with SFAS No. 104, including those related to the measurement, profit recognition, and presentation of insurance contracts. In terms of insurance contract measurement, SFAS No. 117 introduces 3 (three) new measurement models: the *General Measurement Model (GMM)*, the *Variable Fee Approach (VFA)*, and the *Premium Allocation Approach (PAA)*.*

**aq. Perubahan kebijakan akuntansi dan  
pengungkapan (lanjutan)**

BRI dan entitas anaknya telah menerapkan standar akuntansi yang berlaku efektif sejak tanggal 1 Januari 2025, yang dianggap relevan dengan laporan keuangan konsolidasian, yaitu: (lanjutan)

**a. PSAK No. 117: Kontrak Asuransi  
(lanjutan)**

Berdasarkan PSAK No. 117, entitas anak mengakui kelompok kontrak asuransi pada saat mana yang lebih awal antara tanggal awal periode pertanggunganaan, tanggal jatuh tempo pembayaran pertama dari pemegang polis dalam kelompok tersebut, atau pada saat kelompok tersebut menjadi merugi untuk kelompok kontrak yang merugi.

Perubahan juga terdapat dalam penyajian kontrak asuransi. Pada laporan posisi keuangan sesuai PSAK No. 117 disajikan secara terpisah jumlah tercatat portofolio berikut:

1. kontrak asuransi terbitan yang merupakan aset;
2. kontrak asuransi terbitan yang merupakan liabilitas;
3. kontrak reasuransi milikan yang merupakan aset; dan
4. kontrak reasuransi milikan yang merupakan liabilitas.

Jumlah yang diakui dalam laporan laba rugi dan penghasilan komprehensif lain disajikan secara terpisah ke dalam:

1. hasil jasa asuransi yang terdiri dari pendapatan asuransi dan beban jasa asuransi; dan
2. penghasilan atau beban keuangan asuransi.

Entitas anak telah menerapkan PSAK No. 117: Kontrak Asuransi untuk periode tahun buku yang dimulai pada atau setelah tanggal 1 Januari 2025. Klasifikasi dan pengukuran diterapkan secara retrospektif dengan melakukan penyajian kembali laporan keuangan konsolidasian periode lalu.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**aq. Changes in accounting policies and  
disclosures (continued)**

*BRI and its subsidiaries have implemented accounting standards that have been effective since January 1, 2025, which are considered relevant to the consolidated financial statements, namely: (continued)*

**a. SFAS No. 117: Insurance Contract  
(continued)**

*Based on SFAS No. 117, a subsidiary recognizes a group of insurance contracts at the earlier of the commencement date of the coverage period, the due date of the first payment from the policyholders in the group, or when the group becomes loss-making for loss-making contract groups.*

*Changes also apply to the presentation of insurance contracts. The statement of financial position, in accordance with SFAS No. 117, presents the following portfolio carrying amounts separately:*

1. *insurance contracts issued, which are assets;*
2. *insurance contracts issued, which are liabilities;*
3. *reinsurance contracts held, which are assets; and*
4. *reinsurance contracts held, which are liabilities.*

*Amounts recognized in the statement of profit or loss and other comprehensive income are presented separately as follows:*

1. *insurance service results, consisting of insurance revenue and insurance service expenses; and*
2. *insurance finance income or expenses.*

*The subsidiary has implemented SFAS No. 117: Insurance Contracts for the financial year period beginning on or after January 1, 2025. The classification and measurement are applied retrospectively by restating the prior periods consolidated financial statements.*

pengungkapan (lanjutan)**

BRI dan entitas anaknya telah menerapkan standar akuntansi yang berlaku efektif sejak tanggal 1 Januari 2025, yang dianggap relevan dengan laporan keuangan konsolidasian, yaitu: (lanjutan)

- b. Amendemen PSAK No. 221: Pengaruh Perubahan Kurs Valuta Asing tentang Kekurangan Ketertukaran

PSAK No. 221 menjelaskan bagaimana memasukkan transaksi dalam valuta asing dan kegiatan usaha luar negeri ke dalam laporan keuangan entitas dan bagaimana menjabarkan laporan keuangan ke dalam mata uang penyajian.

Amandemen PSAK No. 221 merujuk pada Amandemen IAS 21 tentang *Lack of Exchangeability*. Amandemen ini mensyaratkan entitas menerapkan pendekatan yang konsisten dalam menilai apakah suatu mata uang dapat dipertukarkan ke mata uang lain, dan, jika tidak, menentukan kurs yang digunakan serta pengungkapan yang diberikan.

BRI dan entitas anaknya telah melakukan proses evaluasi atas dampak penerapan PSAK tersebut dan tidak mengidentifikasi adanya dampak material terhadap laporan keuangan konsolidasian.

**ar. Dividen**

Pembagian dividen kepada para pemegang saham diakui sebagai liabilitas dalam laporan keuangan konsolidasian pada periode ketika dividen tersebut disetujui oleh para pemegang saham.

**2. SUMMARY OF MATERIAL ACCOUNTING  
POLICIES INFORMATION (continued)**

**aq. Changes in accounting policies and  
disclosures (continued)**

*BRI and its subsidiaries have implemented accounting standards that have been effective since January 1, 2025, which are considered relevant to the consolidated financial statements, namely: (continued)*

- b. Amendments to SFAS No. 221: The Effects of Changes in Foreign Exchange Rates regarding Lack of Exchangeability*

*SFAS No. 221 explains how to include foreign currency transactions and foreign operations in the financial statements of an entity and how to translate financial statements into a presentation currency.*

*The amendments to SFAS No. 221 refer to the amendments to IAS 21: Lack of Exchangeability. These amendments require an entity to apply a consistent approach in assessing whether a currency is exchangeable into another currency, and, when it is not, to determine the exchange rate to be used and the disclosures to be provided.*

*BRI and its subsidiaries have evaluated the impact of SFAS implementation and have not identified any material impact on the consolidated financial statements.*

**ar. Dividends**

*Dividend distribution to the shareholders is recognised as a liability in the consolidated financial statements in the period in which the dividends are approved by the shareholders.*

**6. PENEMPATAN PADA BANK INDONESIA DAN LEMBAGA KEUANGAN LAIN (lanjutan)**

Manajemen berpendapat bahwa cadangan kerugian penurunan nilai telah memadai pada tanggal 31 Desember 2025 dan 2024.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, penempatan pada Bank Indonesia dan lembaga keuangan lain dilakukan penilaian secara kolektif.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, tidak terdapat jumlah dana yang diblokir.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, tidak terdapat penempatan pada Bank Indonesia dan lembaga keuangan lain yang dibatasi penggunaannya, kecuali margin deposit masing-masing sebesar Rp338.411 dan Rp16.095.

**6. PLACEMENTS WITH BANK INDONESIA AND OTHER FINANCIAL INSTITUTIONS (continued)**

Management believes that the allowance for impairment losses is adequate as of December 31, 2025 and 2024.

As of December 31, 2025 and 2024, placement with Bank Indonesia and other financial institutions are assessed collectively.

On December 31, 2025 and 2024, there are no blocked funds.

As of December 31, 2025 and 2024, there were no placements with Bank Indonesia and other financial institutions that were impaired and whose use was restricted, except margin deposit amounting to Rp338,411 and Rp16,095, respectively.

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai wesel ekspor dan tagihan lainnya pada tanggal 31 Desember 2025 dan 2024 telah memadai.

Management believes that the allowance for impairment losses on export bills and other receivables as of December 31, 2025 and 2024 are adequate.

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai tidak diperlukan pada tanggal-tanggal 31 Desember 2025 dan 2024, karena manajemen berkeyakinan bahwa efek-efek yang dibeli dengan janji dijual kembali dapat ditagih.

Management believes that the allowance for impairment losses is not necessary as of December 31, 2025 and 2024, because management believes that marketable securities purchased under agreement to resell are collectible.

- e) Informasi mengenai restrukturisasi yang dilakukan BRI dan entitas anak

Tabel berikut merupakan informasi atas kredit yang diberikan yang telah direstrukturisasi BRI dan entitas anak:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>	
BRI (Entitas Induk)	81.730.452	85.373.193	BRI (Parent Entity)
BRI (Entitas Anak)	2.945.734	4.050.098	BRI (Subsidiary)
<b>Total</b>	<b>84.676.186</b>	<b>89.423.291</b>	<b>Total</b>

Skema restrukturisasi umumnya dilakukan dengan perpanjangan masa pelunasan kredit dan penjadwalan kembali bunga yang tertunggak.

- f) Informasi Penting Lainnya

- 1) Kredit yang diberikan pada umumnya dijamin dengan agunan yang diikat dengan hak tanggungan, surat kuasa untuk menjual, giro, tabungan, deposito berjangka atau jaminan lain yang umumnya diterima oleh perbankan (Catatan 19, 20 dan 21), serta barang jaminan berupa emas (entitas anak).
- 2) Kredit modal kerja dan investasi diberikan kepada debitur untuk memenuhi kebutuhan modal kerja dan barang-barang modalnya.
- 3) Kredit konsumsi terdiri dari kredit kepada pekerja dan pensiun, kredit pemilikan rumah, kredit kendaraan bermotor dan kredit konsumsi lainnya.
- 4) Kredit program merupakan kredit yang disalurkan BRI berdasarkan petunjuk dari Pemerintah dalam rangka mendukung pembangunan di Indonesia khususnya pengembangan usaha kecil, menengah dan koperasi.
- 5) Kredit Kupedes merupakan kredit yang disalurkan BRI melalui kantor BRI Unit dengan sasaran usaha mikro dan golongan berpenghasilan tetap yang memerlukan tambahan pembiayaan yang besarnya sesuai dengan ketentuan batasan plafon Kupedes. Sektor ekonomi yang menjadi sasaran adalah pertanian, industri, perdagangan dan lain-lain.

**11. LOANS (continued)**

- e) Information regarding restructured loan by BRI and its subsidiaries

The following table provides informations of restructured loan by BRI and subsidiaries, as follows:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>	
BRI (Entitas Induk)	81.730.452	85.373.193	BRI (Parent Entity)
BRI (Entitas Anak)	2.945.734	4.050.098	BRI (Subsidiary)
<b>Total</b>	<b>84.676.186</b>	<b>89.423.291</b>	<b>Total</b>

Restructuring scheme generally consists of extension of the loan period and rescheduling the overdue interest.

- f) Other Significant Information

- 1) The loans are generally collateralized by registered mortgages, by powers of attorneys to sell, demand deposits, saving deposits, time deposits or by other guarantees generally accepted by banks (Notes 19, 20 and 21), as well as collateral in the form of gold (subsidiaries).
- 2) Working capital and investment loans are given to debtors for working capital requirements and capital goods.
- 3) Consumption loans consist of loans to employees and retired employees, housing, motor vehicles and other consumption loans.
- 4) Program loans represent loan facilities channeled by BRI based on the guidelines from the Government in order to support the development in Indonesia especially the development of small scale industry, middle scale industry and corporate.
- 5) Kupedes loans represent loan facilities channeled by BRI through BRI's Units. The target of these loans is micro scale industry and fixed income employees that require additional funds, in accordance with the maximum limit amount stated in the Kupedes regulation. The targeted economic sectors are agriculture, manufacturing, trading and others.

**11. KREDIT YANG DIBERIKAN (lanjutan)**

f) Informasi Penting Lainnya (lanjutan)

- 6) Kredit sindikasi merupakan kredit yang diberikan kepada debitur di bawah perjanjian pembiayaan bersama dengan bank-bank lain. Jumlah kredit sindikasi yang diberikan BRI adalah sebesar Rp130.275.425 dan Rp73.697.390 masing-masing pada tanggal-tanggal 31 Desember 2025 dan 2024. Keikutsertaan BRI sebagai pimpinan sindikasi berkisar dari 3% sampai dengan 72% masing-masing pada tanggal-tanggal 31 Desember 2025 dan 2024, selanjutnya sebagai anggota sindikasi berkisar dari 1% sampai dengan 80% masing-masing pada tanggal-tanggal 31 Desember 2025 dan 2024.
- 7) Pinjaman pekerja adalah pinjaman yang diberikan kepada pekerja dengan tingkat bunga berkisar 4,5% sampai dengan 5,5% per tahun yang ditujukan untuk pembelian kendaraan, rumah dan keperluan lainnya dengan jangka waktu berkisar antara 4 (empat) tahun sampai dengan 20 (dua puluh) tahun. Pembayaran pokok pinjaman dan bunga dilunasi melalui pemotongan gaji setiap bulan. Perbedaan antara tingkat bunga pinjaman pekerja dan *Base Lending Rate* (BLR) ditangguhkan dan dicatat sebagai beban yang ditangguhkan untuk pinjaman pekerja, bagian dari Aset Lain-lain. Besarnya akun beban yang ditangguhkan untuk pinjaman pekerja sebesar Rp4.148.213 dan Rp4.747.556 masing-masing pada tanggal 31 Desember 2025 dan 2024 (Catatan 17).

**11. LOANS (continued)**

f. Other Significant Information (continued)

- 6) *Syndicated loans represent loans provided to debtors under syndication agreements with other banks. The total BRI loan with the syndication scheme amounted to Rp130,275,425 and Rp73,697,390 as of December 31, 2025 and 2024, respectively. BRI's participation as leader in the syndicated loans ranged from 3% to 72% as of December 31, 2025 and 2024, respectively. BRI's participation as a member in the syndicated loans ranged from 1% to 80% as of December 31, 2025 and 2024.*
- 7) *Employee loans are loans given to employees with 4.5% to 5.5% annual interest rate that are intended for the acquisition of vehicles, houses and other necessities with 4 (four) to 20 (twenty) years maturity. Loan principal and interest payments were collected through monthly payroll deductions. The difference between employee loan's interest rate and Base Lending Rate (BLR) is deferred and recorded as deferred expense for employee loans as part of other assets. The deferred expense for employee loans amounted to Rp4,148,213 and Rp4,747,556 as of December 31, 2025 and 2024, respectively (Note 17).*

Pada tanggal-tanggal 31 Desember 2025 dan 2024, terdapat kredit entitas anak (Pegadaian dan PNM) digunakan sebagai jaminan atas pinjaman bank masing-masing sebesar Rp74.593.275 dan Rp80.932.893 (Catatan 25).

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai kredit yang diberikan pada tanggal-tanggal 31 Desember 2025 dan 2024 telah memadai.

As of December 31, 2025 and 2024, there are loans from subsidiaries (Pegadaian and PNM) used as collaterals for bank loans amounted to Rp74,593,275 and Rp80,932,893, respectively (Note 25).

Management believes that the allowance for impairment losses on loans as of December 31, 2025 and December 31, 2024 are adequate.

**12. PINJAMAN SYARIAH**

- b) Informasi mengenai restrukturisasi pinjaman syariah

Tabel berikut merupakan informasi atas pinjaman syariah yang telah direstrukturisasi Pegadaian dan PNM:

	31 Desember 2025/ December 31, 2025	31 Desember 2024/ December 31, 2024	
Pegadaian	16.853	71.303	Pegadaian
PNM	2.105.498	3.429.375	PNM
<b>Total</b>	<b>2.122.351</b>	<b>3.500.678</b>	<b>Total</b>

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai pinjaman syariah pada tanggal-tanggal 31 Desember 2025 dan 2024 telah memadai.

Jenis jaminan yang diserahkan oleh debitur atas pinjaman syariah antara lain berupa agunan yang diikat dengan hak tanggungan, surat kuasa untuk menjual, fidusia, emas atau jaminan lain yang umumnya diterima.

- b) The following table presents the changes in carrying value and allowance for expected losses by financial instrument category (continued):

- b) Information regarding structured sharia loan by subsidiaries

The following table provides informations of restructured sharia loans by Pegadaian and PNM:

Management believes that the allowance for impairment losses on sharia loans as of December 31, 2025 and 2024 is adequate.

The type of collateral submitted by the debtors for the sharia loans are collateral secured by a mortgage, a power of attorney to sell, fiduciary guarantees, gold, fiduciary, and other commonly accepted forms of collateral.

**13. PIUTANG SEWA PEMBIAYAAN (lanjutan)**

- c) Tabel berikut menyajikan perubahan nilai tercatat dan cadangan kerugian ekspektasian berdasarkan kategori instrumen keuangan (lanjutan):

31 Desember 2024/December 31, 2024				
	Stage 1- Kerugian kredit ekspektasian 12 bulan/ Stage 1 - 12 - months expected credit loss	Stage 2- Kerugian kredit ekspektasian sepanjang umurnya kredit tidak memburuk/ Stage 2 - life time expected credit loss - not impaired	Stage 3- Kerugian kredit ekspektasian sepanjang umurnya kredit memburuk/ Stage 3-lifetime expected credit loss - impaired	Jumlah/Total
<u>Piutang Sewa Pembiayaan</u>				
Cadangan atas kerugian kredit ekspektasian awal	24.744	65.863	124.701	215.308
Pengalihan ke				
Stage 1	52.229	(46.192)	(6.037)	-
Stage 2	(4.680)	5.422	(742)	-
Stage 3	(640)	(1.107)	1.747	-
Pengukuran kembali bersih penyisihan kerugian	(7.047)	9.233	60.374	62.560
Aset keuangan baru yang diterbitkan atau dibeli	85.044	8.075	14.704	107.823
Aset keuangan yang dihentikan pengakuannya	(16.197)	(5.383)	(36.481)	(58.061)
Penghapusbukuan	(54.120)	(26.968)	(79.873)	(160.961)
Perubahan model atau parameter valuta asing dan perubahan lain	(1.079)	-	-	(1.079)
<b>Cadangan atas kerugian kredit ekspektasian akhir</b>	<b>78.254</b>	<b>8.943</b>	<b>78.393</b>	<b>165.590</b>

Pada tanggal-tanggal 31 Desember 2025 dan 2024 dan terdapat piutang sewa pembiayaan digunakan sebagai jaminan atas utang bank masing-masing sebesar Rp1.522.932 dan Rp3.303.755 (catatan 25).

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai piutang sewa pembiayaan pada tanggal-tanggal 31 Desember 2025 dan 2024 telah memadai.

**13. FINANCE LEASE RECEIVABLES (continued)**

- c) The following table presents the changes in carrying value and allowance for expected losses by financial instrument category (continued):

<u>Finance Lease Receivables</u>	
Allowance for expected credit loss beginning balance	
Transition to	
Stage 1	-
Stage 2	-
Stage 3	-
Net remeasurement of allowance for losses	62.560
New financial assets issued or purchased	107.823
Derecognized financial assets	(58.061)
Written-off financial assets	(160.961)
Foreign exchange model or parameter changes and other changes	(1.079)
<b>Allowance for expected credit loss ending balance</b>	<b>165.590</b>

As of December 31, 2025 and 2024 and there were financing receivables that used as collateral for bank loans amounting Rp1,522,932 and Rp3,303,755, respectively (note 25).

Management believes that the allowance for impairment losses for finance lease receivable as of December 31, 2025 and 2024 are adequate.

**16. ASET TETAP (lanjutan)**

Rata-rata masa sewa berdasarkan kontrak yang dimiliki BRI adalah lebih dari 2 (dua) tahun.

Jumlah penyusutan aset tetap yang dibebankan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian adalah sebesar Rp5.869.384 dan Rp5.843.344 masing-masing untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024 (Catatan 36).

BRI dan entitas anak telah mengasuransikan aset tetap (tidak termasuk hak atas tanah dan satelit) untuk menutup kemungkinan kerugian terhadap risiko kebakaran, pencurian, vandalisme, *force majeure* dan lain-lain kepada PT BRI Asuransi Indonesia (BRI Insurance) (Entitas Anak), PT Askrindo, PT Asuransi Tri Pakarta, PT Asuransi Wahana Tata, PT Asuransi Sinar, PT Asuransi Sahabat Artha Proteksi, dan MS Amlin Marine MV dengan nilai pertanggungan seluruhnya sebesar Rp25.610.422 dan Rp21.121.231 masing-masing untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024.

BRI telah mengasuransikan aset tetap satelit kepada PT BRI Asuransi Indonesia (BRI Insurance) (Entitas Anak) dengan nilai pertanggungan seluruhnya pada tanggal 31 Desember 2025 dan 2024 masing-masing sebesar Rp1.544.032 dan Rp1.746.226, masing-masing polis asuransi tersebut berakhir pada tanggal 19 Juni 2026 dan 2025.

Tidak ada aset tetap yang dimiliki BRI dan entitas anak yang dijadikan jaminan pada tanggal-tanggal 31 Desember 2025 dan 2024.

Nilai tercatat bruto aset tetap yang telah terdepresiasi penuh, namun masih digunakan oleh BRI adalah masing-masing sebesar Rp12.413.792 dan Rp10.793.958 pada tanggal 31 Desember 2025 dan 2024.

Pada tanggal 1 April 2016, BRI mengubah kebijakan akuntansi untuk pengukuran hak atas tanah menjadi model revaluasi dari sebelumnya menggunakan model biaya.

**16. PREMISES AND EQUIPMENT (continued)**

The average lease period based on the contract owned by BRI is more than 2 (two) years.

Depreciation expense of premises and equipment charged to the consolidated statement of profit or loss and other comprehensive income amounting to Rp5,869,384 and Rp5,843,344 for the years ended December 31, 2025 and 2024, respectively (Note 36).

BRI and its subsidiaries insured its premises and equipment (excluding landrights and satellite) from losses due to risks of fire, theft, vandalism, *force majeure*, and others to PT BRI Asuransi Indonesia (BRI Insurance) (Subsidiary entity), PT Askrindo, PT Asuransi Tri Pakarta, PT Asuransi Wahana Tata, PT Asuransi Sinar, PT Asuransi Sahabat Artha Proteksi, and MS Amlin Marine MV with coverage amount Rp25,610,422 and Rp21,121,231 for the years ended December 31, 2025 and 2024 respectively.

BRI insured its satellites to PT BRI Asuransi Indonesia (BRI Insurance) (Subsidiary) on December 31, 2025 and 2024 with full coverage amounted to Rp1,544,032 and Rp1,746,226 in which the insurance policies mature on June 19, 2026 and 2025, respectively.

As of December 31, 2025 and 2024 there are no premises and equipment owned by BRI and its subsidiaries which are pledged as collateral.

The gross carrying value of premises and equipments that have been fully depreciated but still used by BRI amounted to Rp12,413,792 and Rp10,793,958 as of December 31, 2025 and 2024, respectively.

On April 1, 2016, BRI changed its accounting policy for landrights measurement from cost method to revaluation method.

**16. ASET TETAP (lanjutan)**

Penilaian dilakukan berdasarkan POJK No. 28/POJK.04/2021 tanggal 30 Desember 2021 tentang "Penyajian Laporan Penilaian Properti di Pasar Modal" dan Standar Penilaian Indonesia, ditentukan berdasarkan transaksi pasar terkini dan dilakukan dengan ketentuan-ketentuan yang lazim. Metode penilaian yang dipakai adalah metode data pasar dan metode biaya.

Penilaian atas tanah dilakukan oleh penilai independen eksternal sebagai berikut:

1. KJPP Anas Karim Rivai dan Rekan, dengan laporan No.00676/2.0030-00/PI/07/0067/1/IX/2025 tanggal 29 September 2025 sebesar Rp1.804.384 ditandatangani oleh Anas Karim Rivai.
2. KJPP Sih Wiryadi dan Rekan, dengan laporan No. 00422/2.0013-00/PI/07/0109/1/IX/2025 tanggal 29 September 2025 sebesar Rp2.142.235 ditandatangani oleh Sih Wiryadi.
3. KJPP Sapto, Kasmodiard dan Rekan, dengan laporan No. 01588/2.0084-00/PI/07/0274/1/IX/2025 tanggal 29 September 2025 sebesar Rp10.225.991 ditandatangani oleh Sapto Haji.
4. KJPP Firdaus, Ali dan Rekan, dengan laporan No. 00246/2.0134-00/PI/07/0071/1/IX/2025 tanggal 29 September 2025 sebesar Rp1.499.838 ditandatangani oleh M. Firdaus Asriadin.
5. KJPP Benedictus Darmapuspita dan Rekan, dengan laporan No. 00329/2.0103-00/PI/07/0121/1/IX/2025 tanggal 29 September 2025 sebesar Rp2.730.137 ditandatangani oleh Benny Supriyanto.
6. KJPP Budi, Edy, Saptono dan Rekan, dengan laporan No. 00174/2.0033-00/PI/07/0470/1/IX/2025 tanggal 29 September 2025 sebesar Rp1.346.606 ditandatangani oleh Suryani Siregar.

**16. PREMISES AND EQUIPMENT (continued)**

The valuation is performed based on POJK No. 28/POJK.04/2021 dated December 30, 2021 regarding "Presentation of Property Appraisal Reports in the Capital Market" and Indonesian Appraisal Standards, determined based on the current market transactions and carried out under customary conditions. The valuation methods used are market data method and cost method.

The valuation of landrights is performed by external independent appraiser, as follows:

1. KJPP Anas Karim Rivai and Partners, with report No. 00676/2.0030-00/PI/07/0067/1/IX/2025 dated September 29, 2025 amounting to Rp1,804,384 signed by Anas Karim Rivai.
2. KJPP Sih Wiryadi and Partners, with report No. 00422/2.0013-00/PI/07/0109/1/IX/2025 dated September 29, 2025 amounting to Rp2,142,235 signed by Sih Wiryadi.
3. KJPP Sapto, Kasmodiard and Partners, with report No. 01588/2.0084-00/PI/07/0274/1/IX/2025 dated September 29, 2025 amounting to Rp10,225,991 signed by Sapto Haji.
4. KJPP Firdaus, Ali, and Partners, with report No. 00246/2.0134-00/PI/07/0071/1/IX/2025 dated September 29, 2025, amounting to Rp1,499,838 signed by M. Firdaus Asriadin.
5. KJPP Benedictus Darmapuspita and Partners, with report No. 00329/2.0103-00/PI/07/0121/1/IX/2025 dated September 29, 2025 amounting to Rp2,730,137 signed by Benny Supriyanto.
6. KJPP Budi, Edy, Saptono and Partners, with report No. 00174/2.0033-00/PI/07/0470/1/IX/2025 dated September 29, 2025 amounting to Rp1,346,606 signed by Suryani Siregar.

**16. ASET TETAP (lanjutan)**

Penilaian atas tanah dilakukan oleh penilai independen eksternal sebagai berikut (lanjutan):

7. KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun (MBPRU) dan Rekan, dengan laporan No. 01088/2.0027-00/PI/07/0196/1/IX/2025 tanggal 29 September 2025 sebesar Rp1.649.385 ditandatangani oleh Muhammad A. Muttaqin.
8. KJPP Abdullah Fitriantoro dan Rekan, dengan laporan No. 00372/2.0051-00/PI/07/0152/1/IX/2025 tanggal 29 September 2025 sebesar Rp1.186.543 ditandatangani oleh Abdullah Fitriantoro.
9. KJPP Aditya Iskandar dan Rekan, dengan laporan No. 00460/2.0003-00/PI/07/0023/1/IX/2025 tanggal 25 September 2025 sebesar Rp1.427.811 ditandatangani oleh Aditya Iskandar.

Kenaikan nilai tercatat yang timbul dari penilaian kembali atas hak atas tanah BRI (Entitas induk) pada tanggal 1 April 2025 sebesar Rp22.372 dicatat sebagai "Surplus Revaluasi Aset Tetap" dan disajikan dalam penghasilan komprehensif lain sebesar Rp9.153, sedangkan penurunan nilai tercatat yang timbul dari penilaian kembali sebesar Rp13.219 diakui dalam laporan laba rugi periode berjalan. Nilai wajar hak atas tanah termasuk pada hierarki nilai wajar level 2.

Pada tanggal 31 Desember 2025 dan 2024, Entitas anak melakukan revaluasi aset kepemilikan langsung untuk hak atas tanah dengan peningkatan masing-masing sebesar Rp522.719 dan Rp9.670 yang dicatat dalam "Surplus Revaluasi Aset Tetap" dan disajikan dalam penghasilan komprehensif lain.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, jika tanah diukur menggunakan model biaya, nilai tercatatnya masing-masing adalah sebesar Rp14.780.582 dan Rp14.593.406.

BRI dan entitas anak tidak memiliki aset tetap yang tidak terpakai sementara, tidak memiliki aset tetap yang dihentikan dari penggunaan aktif, dan aset tetap yang diklasifikasikan sebagai tersedia untuk dijual pada tanggal-tanggal 31 Desember 2025 dan 2024.

**16. PREMISES AND EQUIPMENT (continued)**

The valuation of landrights is performed by external independent appraiser, as follows (continued):

7. KJPP Muttaqin, Bambang, Purwanto, Rozak, Uswatun (MBPRU) and Partners, with report No. 01088/2.0027-00/PI/07/0196/1/IX/2025 dated September 29, 2025 amounting Rp1,649,385 signed by Muhammad A. Muttaqin.
8. KJPP Abdullah Fitriantoro and Partners, with report No. 00372/2.0051-00/PI/07/0152/1/IX/2025 dated September 29, 2025 amounting to Rp1,186,543 signed by Abdullah Fitriantoro.
9. KJPP Aditya Iskandar and Partners, with report No. 00460/2.0003-00/PI/07/0023/1/IX/2025 dated September 25, 2025 amounting to Rp1,427,811 signed by Aditya Iskandar.

The increase in the carrying value arising from the revaluation of BRI's (Parent entity) landrights on April 1, 2025 amounted to Rp22,372 was recognized as a "Revaluation Surplus arising from Premises and Equipment" and presented in other comprehensive income amounted to Rp9,153 while the decrease in carrying value arising from the revaluation amounted to Rp13,219 was recognized in the statement of profit or loss for the period. The fair value of landrights is included in the level 2 fair value hierarchy.

As of December 31, 2025 and 2024, the subsidiaries revaluated its direct ownership assets for land rights with increase in valuation of Rp522,719 and Rp9,670 respectively, recognized as a "Revaluation Surplus arising from Premises and Equipment" and presented in other comprehensive income.

As of December 31, 2025 and 2024 if the landrights were measured using the cost method, the carrying values would be Rp14,780,582 and Rp14,593,406, respectively.

BRI and its subsidiaries do not have premises and equipment that are temporarily not being used, do not have premises and equipment that are discontinued from active use and not classified as available for sale as of December 31, 2025 and 2024.

**16. ASET TETAP (lanjutan)**

Manajemen berpendapat bahwa tidak terdapat penurunan nilai aset tetap selain yang disebutkan di atas dan jumlah nilai pertanggungan asuransi cukup untuk menutup risiko kerugian yang mungkin timbul atas aset tetap pada tanggal-tanggal 31 Desember 2025 dan 2024.

**17. PROPERTI INVESTASI DAN ASET LAIN-LAIN**

a) Properti investasi

Properti investasi adalah properti (tanah atau bangunan atau bagian dari suatu bangunan atau kedua-duanya) yang dikuasai oleh entitas anak untuk menghasilkan rental atau untuk kenaikan nilai atau kedua-duanya, dan tidak untuk digunakan dalam produksi atau penyediaan barang atau jasa atau untuk tujuan administratif atau dijual dalam kegiatan usaha sehari-hari.

Nilai wajar dari properti investasi pada tanggal 31 Desember 2025 dan 2024 masing-masing sebesar Rp19.115 dan Rp197.380, berdasarkan perhitungan laporan penilai independen Kantor Jasa Penilai Publik (KJPP) Muttaqin Bambang Purwanto Rozak Uswatun & Rekan, KJPP Dasa'at, Yudistira & Rekan dan KJPP Karmanto & Rekan.

Entitas anak menyajikan nilai wajar atas properti investasi berdasarkan hierarki nilai wajar tingkat 2.

Metode yang digunakan untuk penilaian properti investasi adalah pendekatan pasar (*market approach*) dan/atau pendekatan biaya (*cost approach*) untuk menilai tanah, bangunan, dan unit apartemen.

Perubahan dalam properti investasi adalah sebagai berikut:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024<sup>*)</sup>/ December 31, 2024<sup>*)</sup></b>
Saldo awal tahun	197.380	199.635
Penyesuaian nilai wajar properti investasi	(178.265)	(2.255)
<b>Total</b>	<b>19.115</b>	<b>197.380</b>

<sup>\*)</sup> Setelah reklasifikasi dan penyajian kembali (Catatan 52)

**16. PREMISES AND EQUIPMENT (continued)**

Management believes that there is no impairment of premises and equipments and the amount of insurance coverage is adequate to cover the risk of loss that may arise on the premises and equipments as of December 31, 2025 and 2024.

**17. INVESTMENT PROPERTY AND OTHER ASSETS**

a) Investment property

Investment properties are defined as property (land or a building or part of a building or both) held by subsidiaries for the purpose of which is to earn a rental income or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business.

The fair value of investment properties as of December 31, 2025 and 2024, amounted to Rp19,115 and Rp197,380, respectively, which was based on the report of independent appraisal Kantor Jasa Penilai Publik (KJPP) Muttaqin Bambang Purwanto Rozak Uswatun & Rekan, KJPP Dasa'at, Yudistira & Rekan and KJPP Karmanto & Rekan.

The subsidiaries present the fair value of the investment property based on fair value hierarchy level 2.

Method used for valuation of investment properties is market approach and/or cost approach in valuing the land, building, and apartment unit.

Movements of investment in properties are as follows:

*Beginning balance  
Fair value adjustment on  
investment property*

**Total**

**24. SURAT BERHARGA YANG DITERBITKAN  
(lanjutan)**

Berikut ini adalah informasi pokok lainnya sehubungan dengan surat berharga yang diterbitkan (lanjutan):

a) Obligasi Berkelanjutan II BRI (lanjutan)

Bunga Obligasi Berkelanjutan II BRI dibayarkan setiap 3 (tiga) bulan sejak obligasi diterbitkan. Penerimaan neto dari penerbitan Obligasi Berkelanjutan tersebut dimanfaatkan untuk penyaluran kredit.

Obligasi Berkelanjutan II BRI tidak dijamin dengan jaminan apapun. Adapun persyaratan-persyaratan penting (*covenants*) adalah sebagai berikut:

- a. Mengurangi modal dasar, modal ditempatkan dan modal disetor kecuali dalam hal pengurangan tersebut dilakukan berdasarkan permintaan dan/atau perintah dari Pemerintah Indonesia atau otoritas yang berwenang.
- b. Melakukan penggabungan dan/atau pemisahan dan/atau peleburan dan/atau pengambilalihan dengan nilai lebih dari 50% (lima puluh persen) dari ekuitas EMITEN kecuali dalam hal pengurangan tersebut dilakukan berdasarkan permintaan dan/atau perintah dari Pemerintah Indonesia atau otoritas yang berwenang.

Obligasi Berkelanjutan II BRI yang telah jatuh tempo telah dilunasi oleh BRI pada tanggal jatuh temponya.

\*) Berdasarkan peringkat yang diterbitkan oleh PT Pemeringkat Efek Indonesia (Pefindo)

\*) Based on rating issued by PT Pemeringkat Efek Indonesia (Pefindo)

Bunga Obligasi Berwawasan Sosial Berkelanjutan I BRI dibayarkan setiap 3 (tiga) bulan sejak obligasi diterbitkan.

Interest of marketable securities issued by BRI Finance are paid every 3 (three) months since marketable securities were issued.

Penerimaan neto dari penerbitan Obligasi Berwawasan Sosial Berkelanjutan I Bank BRI seluruhnya akan dialokasikan secara eksklusif untuk pembiayaan kembali, baik seluruhnya maupun sebagian, proyek sosial yang sudah ada yang mendukung atau mempromosikan kategori layanan infrastruktur dasar yang terjangkau baik dari segi akses maupun harga, akses terhadap layanan esensial, perumahan yang terjangkau, penciptaan lapangan kerja, dan program yang dirancang untuk mencegah dan/atau mengurangi pengangguran, termasuk pembiayaan usaha kecil menengah dan pembiayaan mikro, ketahanan pangan dan sistem pangan berkelanjutan, dan peningkatan dan pemberdayaan sosio-ekonomi. Perseroan berencana mengalokasikan sekitar 50% dari hasil Penawaran Umum Obligasi Berwawasan Sosial ini untuk penciptaan lapangan kerja (kategori 4 Penciptaan lapangan kerja, dan program yang dirancang untuk mencegah dan/atau mengurangi pengangguran, termasuk pembiayaan usaha kecil menengah dan pembiayaan mikro), dan sisanya untuk peningkatan serta pemberdayaan sosial ekonomi (kategori 6 Peningkatan dan pemberdayaan sosio-ekonomi).

The net proceeds from the issuance of BRI Social Shelf Registration will be allocated exclusively for the refinancing, in whole or in part, of existing social projects that support or promote the following categories: affordable basic infrastructure services in terms of both access and cost, access to essential services, affordable housing, job creation, and programs designed to prevent and/or reduce unemployment including financing for micro, small, and medium enterprises (MSMEs), food security and sustainable food systems, and socio-economic advancement and empowerment. BRI plans to allocate approximately 50% of the proceeds from this Social Bond Public Offering to job creation (Category 4: Job creation and programs designed to prevent and/or reduce unemployment, including MSME and microfinance), with the remaining portion to be allocated toward socio-economic advancement and empowerment (Category 6: Socio-economic advancement and empowerment).

\*) Berdasarkan peringkat yang diterbitkan oleh PT Pemeringkat Efek Indonesia (Pefindo)

Bunga surat berharga yang diterbitkan oleh BRI Finance dibayarkan setiap 3 bulan sejak surat berharga diterbitkan.

BRI Finance telah memenuhi semua pembatasan yang diwajibkan serta pembayaran bunga dan nilai pokok obligasi melalui Kustodian Sentral Efek Indonesia ("KSEI").

Penerimaan neto dari penerbitan surat berharga tersebut dimanfaatkan untuk pembayaran pinjaman jangka pendek perbankan, memperkuat struktur pendanaan perseroan, ekspansi bisnis perusahaan (dalam hal ini adalah pembayaran pembiayaan baru dan ekspansi pembiayaan segmen konsumen), serta refinancing atau pelunasan obligasi yang jatuh tempo.

\*) Based on rating issued by PT Pemeringkat Efek Indonesia (Pefindo)

Interest of marketable securities issued by BRI Finance are paid every 3 (three) months since marketable securities were issued.

BRI Finance has fulfilled all required restrictions as well as the payment of interest and principal value of bonds through The Indonesia Central Securities Depository ("KSEI").

The net proceeds from the issuance of marketable securities are used for short-term liabilities payment, strengthen BRI Finance's general funding structure, BRI Finance's business expansion (in this case for disbursement payments and related to consumer segment), as well as refinancing or paying off maturing bonds.

							300.000.000	

Persyaratan-persyaratan penting (*financial covenants*) dalam perjanjian pinjaman ini antara lain menjaga rasio keuangan sebagai berikut:

- Nilai *Capital Adequacy Ratio* (CAR) minimum 9%.
- Rasio *Non-Performing Loan* (NPL) maksimum 5%.
- Mematuhi setiap rasio keuangan yang berlaku lainnya yang ditetapkan oleh Bank Indonesia dan OJK dari waktu ke waktu.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, BRI telah memenuhi persyaratan penting dalam perjanjian pinjaman yang diterima, serta telah melunasi pinjaman yang diterima pada tanggal jatuh temponya.

**25. FUND BORROWINGS (continued)**

The following are other key information related to fund borrowings (continued):

b) *Syndicated borrowing - club loan*

On October 14, 2020, a withdrawal has been made for the remaining syndicated loan facility in the form of a *club loan* amounting to USD300,000,000 (full amount), facilitated by Citicorp International Limited (*agent*), as follows:

The financial covenants in this borrowing agreement, among others, are maintaining the financial ratios as follows:

- *Minimum Capital Adequacy Ratio* (CAR) of 9%.
- *Maximum Non-Performing Loan* (NPL) ratio of 5%.
- Any other applicable financial ratios imposed by Bank Indonesia and OJK from time to time.

As of December 31, 2025, and 2024, BRI has fulfilled the important requirements outlined in the fund borrowing agreements and has settled the fund borrowing on its maturity date.

**25. PINJAMAN YANG DITERIMA (lanjutan)**

Berikut ini adalah informasi pokok lainnya sehubungan dengan pinjaman yang diterima (lanjutan):

c) Pinjaman dari BNP Paribas

Pada tanggal 7 Juni 2016, BRI telah menandatangani perjanjian fasilitas pinjaman dari BNP Paribas dengan skema *Export Credit Financing* (ECF) untuk membiayai komponen dan jasa peluncuran BRIsat yang dilakukan oleh Arianespace Perancis. Pinjaman ini terdiri dari 2 (dua) fasilitas, yaitu:

Jenis	Pemberi Pinjaman/ Lender	Tanggal Kesepakatan/ Deal Date	Tanggal Jatuh Tempo/ Maturity Date	Jangka Waktu/ Tenor	Tingkat Bunga per tahun/ Interest Rate per annum	Mata Uang/ Currency	Valuta asing (nilai penuh/ Foreign currency (full amount)	Type
<i>Tranche Banque Publique d'Investissement</i>	BNP Paribas	7 Jun/ Jun 7, 2016	3 Feb/ Feb 3, 2025	103 bulan/ months	SOFR (6 bulanan) + margin tertentu/ SOFR (6 months) + certain margin	ASD/ USD	49.961.501,23	<i>Tranche Banque Publique d'Investissement</i>
<i>Tranche Hermes</i>	BNP Paribas	7 Jun/ Jun 7, 2016	3 Feb/ Feb 3, 2025	103 bulan/ months	SOFR (6 bulanan) + margin tertentu/ SOFR (6 months) + certain margin	ASD/ USD	9.901.308,77	<i>Tranche Hermes</i>
							59.862.810,00	

Angsuran pokok dibayarkan setiap 6 (enam) bulan bersamaan dengan pembayaran bunga. Untuk fasilitas *Tranche BPI*, angsuran pokok pertama kali mulai dibayarkan pada tanggal 5 Februari 2018 sebesar ASD3.330.767 (nilai penuh) sampai dengan jatuh tempo. Sedangkan untuk fasilitas *Tranche Hermes*, angsuran pokok pertama kali mulai dibayarkan pada tanggal 5 Februari 2018 sebesar ASD660.087 (nilai penuh) sampai dengan jatuh tempo. BRI tidak memberikan jaminan apapun atas pinjaman ini.

Persyaratan-persyaratan penting dalam perjanjian pinjaman ini antara lain menjaga rasio keuangan sebagai berikut:

- Nilai *Capital Adequacy Ratio* (CAR) minimum 9%.
- Rasio *Non-Performing Loan* (NPL) maksimum 5%.
- Mematuhi setiap rasio keuangan yang berlaku lainnya yang ditetapkan oleh Bank Indonesia dan OJK dari waktu ke waktu.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, BRI telah memenuhi persyaratan penting dalam perjanjian pinjaman yang diterima, serta telah melunasi pinjaman yang diterima pada tanggal jatuh temponya.

**25. FUND BORROWINGS (continued)**

The following are other key information related to fund borrowings (continued):

c) Borrowing from BNP Paribas

On June 7, 2016, BRI signed a loan facility agreement with BNP Paribas under the *Export Credit Financing* (ECF) scheme to finance the BRIsat components and launch services carried out by Arianespace France. This borrowing consists of 2 (two) facilities, which are:

The principal installments are paid every 6 (six) months along with interest payments. For the *BPI Tranche* facility, the principal installments amounting to USD3,330,767 (full amount) are paid starting from February 5, 2018 until maturity. For *Hermes Tranche* facility, the principal installments amounting to USD660,087 (full amount) are paid starting from February 5, 2018 until maturity. BRI does not provide any collateral for these borrowings.

The financial covenants in this borrowing agreement, among others, are maintaining the financial ratios as follows:

- *Minimum Capital Adequacy Ratio* (CAR) of 9%.
- *Maximum Non-Performing Loan* (NPL) ratio of 5%.
- Any other applicable financial ratios imposed by Bank Indonesia and OJK from time to time.

As of December 31, 2025, and 2024, BRI has fulfilled the important requirements outlined in the fund borrowing agreements and has settled the fund borrowing on its maturity date.

**25. PINJAMAN YANG DITERIMA (lanjutan)**

Berikut ini adalah informasi pokok lainnya sehubungan dengan pinjaman yang diterima (lanjutan):

e) Pinjaman sindikasi *Social* dan *Club Loan* (lanjutan)

Persyaratan-persyaratan penting dalam perjanjian pinjaman ini antara lain menjaga rasio keuangan sebagai berikut :

- Nilai *Capital Adequacy Ratio* (CAR) minimum 9%.
- Rasio *Non-Performing Loan* (NPL) maksimum 5%.
- Mematuhi setiap rasio keuangan yang berlaku lainnya yang ditetapkan oleh Bank Indonesia dan OJK dari waktu ke waktu.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, BRI telah memenuhi persyaratan penting dalam perjanjian pinjaman yang diterima.

f) Pinjaman Diterima Pegadaian

**25. FUND BORROWINGS (continued)**

The following are other key information related to fund borrowings (continued):

e) *Syndicated Borrowing - Social and Club Loan* (continued)

The financial covenants in this borrowing agreement, among others, are maintaining the financial ratios as follows:

- *Minimum Capital Adequacy Ratio* (CAR) of 9%.
- *Maximum Non-Performing Loan* (NPL) ratio of 5%.
- *Any other applicable financial ratios imposed by Bank Indonesia and OJK from time to time.*

As of December 31, 2025 and 2024, BRI has fulfilled the important requirements outlined in the fund borrowing agreements.

f) *Fund Borrowings – Pegadaian*

**29. PINJAMAN DAN SURAT BERHARGA  
SUBORDINASI**

BRI memperoleh pinjaman dan surat berharga subordinasi dengan rincian sebagai berikut:

	31 Desember 2025/ December 31, 2025	31 Desember 2024/ December 31, 2024
<b><u>Pihak ketiga</u></b>		
<b><u>Rupiah</u></b>		
Obligasi Subordinasi IV	257.537	262.663
<b><u>Pihak berelasi (Catatan 44)</u></b>		
<b><u>Rupiah</u></b>		
Obligasi Subordinasi IV	227.889	227.380
Pinjaman <i>two-step loan</i>	1.441	1.738
	229.330	229.118
<b>Total</b>	<b>486.867</b>	<b>491.781</b>

a. Pinjaman *two-step*

Pinjaman *two-step loan* dalam mata uang Rupiah merupakan pinjaman dari Pemerintah yang dananya berasal dari *Asian Development Bank (ADB)*, *International Bank for Reconstruction and Development (IBRD)*, *International Fund for Agricultural Development (IFAD)*, *United States Agency for International Development (USAID)* dan *Islamic Development Bank (IDB)*.

Tingkat suku bunga pinjaman ini bervariasi sesuai dengan perjanjian masing-masing dengan jangka waktu antara 15 (lima belas) sampai dengan 40 (empat puluh) tahun.

Tingkat suku bunga rata-rata untuk pinjaman *two-step loan* adalah sebesar 3,00% dan 2,71% masing-masing untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024. Pinjaman-pinjaman tersebut akan jatuh tempo pada berbagai tanggal sampai dengan tahun 2027.

b. Obligasi Subordinasi IV Tahun 2023

Pada tanggal 6 Juli 2023, BRI menerbitkan Obligasi Subordinasi IV Bank BRI Tahun 2023 dengan nilai pokok sebesar Rp500.000 dengan tingkat suku bunga sebesar 6,45% per tahun, untuk jangka waktu selama 5 (lima) tahun dan akan jatuh tempo pada tanggal 6 Juli 2028. Bunga Obligasi Subordinasi IV Bank BRI Tahun 2023 dibayarkan setiap 3 (tiga) bulan mulai tanggal 6 Juli 2023. Pada saat diterbitkan, Obligasi Subordinasi IV Bank BRI Tahun 2023 ini mendapat peringkat AA dari Pefindo.

**29. SUBORDINATED LOANS AND MARKETABLE  
SECURITIES**

BRI obtained subordinated loans and marketable securities with details as follows:

	<b><u>Third parties</u></b>
	<b><u>Rupiah</u></b>
Subordinated Bond IV	
<b><u>Related parties (Note 44)</u></b>	
<b><u>Rupiah</u></b>	
Subordinated Bond IV	
Two-step loan	
<b>Total</b>	

a. *Two-step loan*

The *two-step loan* in Rupiah represents the loans from the Government which were funded by the *Asian Development Bank (ADB)*, *International Bank for Reconstruction and Development (IBRD)*, *International Fund for Agricultural Development (IFAD)*, *United States Agency for International Development (USAID)*, and *Islamic Development Bank (IDB)*.

The interest rates of this loan vary according to the respective agreements with periods ranging from 15 (fifteen) to 40 (forty) years.

The average interest rates for this *two-step loan* are 3.00% and 2.71% for the years ended December 31, 2025 and 2024. This loan will mature on various dates up to 2027.

b. *Subordinated Bond IV Year 2023*

On July 6, 2023, BRI issued *Subordinated Bond IV Year 2023* with a nominal value of Rp500,000 with an interest of 6.45% per annum, for a period of 5 (five) years and will mature on July 6, 2028. The interest of *Subordinated Bond IV Year 2023* is paid every 3 (three) months, starting from July 6, 2023. At the time of issuance, the *Subordinated Bond IV Year 2023* was rated AA by Pefindo.

**29. PINJAMAN DAN SURAT BERTAGIH  
SUBORDINASI (lanjutan)**

b. Obligasi Subordinasi IV Tahun 2023 (lanjutan)

Pada tanggal 31 Desember 2025, Obligasi Subordinasi IV tahun 2023 mendapatkan peringkat AA dari Pefindo.

Obligasi Subordinasi IV tahun 2023 tidak dijamin dengan jaminan apapun. Adapun persyaratan-persyaratan penting (*covenants*) adalah sebagai berikut:

- a. Mengurangi modal dasar, modal ditempatkan dan modal disetor kecuali dalam hal pengurangan tersebut dilakukan berdasarkan permintaan dan/atau perintah dari Pemerintah Indonesia atau otoritas yang berwenang.
- b. Melakukan penggabungan dan/atau pemisahan dan/atau peleburan dan/atau pengambilalihan dengan nilai lebih dari 50% (lima puluh persen) dari ekuitas EMITEN kecuali dalam hal pengurangan tersebut dilakukan berdasarkan permintaan dan/atau perintah dari Pemerintah Indonesia atau otoritas yang berwenang.

Manajemen berpendapat bahwa semua persyaratan/pembatasan yang ditetapkan dalam perjanjian telah dipenuhi.

Klasifikasi jangka waktu pinjaman subordinasi berdasarkan sisa umur sampai dengan saat jatuh tempo adalah sebagai berikut:

NOTES TO THE CONSOLIDATED  
FINANCIAL STATEMENTS  
As of December 31, 2025  
and for the Year  
Then Ended  
(Expressed in millions of Rupiah,  
unless otherwise stated)**

**30. OPSI SAHAM (lanjutan)**

Sesuai surat Direksi No. B.0017-DIR/HCS/01/2023 tanggal 2 Januari 2023, BRI menerbitkan program ESOP pada tanggal 2 Januari 2023 (tanggal *grant*) sejumlah 131.357.200 lembar saham dimana tanggal pemberian alokasi hak saham atau tanggal *grant* pada 2 Januari 2023, dengan akhir periode *vesting* pada 31 Desember 2025. Masa berlaku dari *exercise* opsi untuk ESOP 2023 mulai tanggal 2 Januari 2026 sampai dengan 30 Juni 2026. Setelah tanggal tersebut, seluruh hak opsi yang tidak digunakan akan menjadi gugur.

Perhitungan, metode dan asumsi mengenai ESOP diperoleh dari laporan aktuaris independen, Willis Towers Watson pada November 2023.

Nilai wajar dari ESOP sebesar Rp122.030. Nilai wajar ESOP diamortisasi selama masa *vesting* dan diakui dalam laba rugi dan penghasilan komprehensif lain konsolidasian, sedangkan akumulasi biaya selama periode *vesting* diakui dalam ekuitas.

Biaya ESOP yang diakui dalam laba rugi dan penghasilan komprehensif lain konsolidasian untuk tahun yang berakhir pada tanggal 31 Desember 2025 sebesar Rp40.677.

Nilai wajar dari setiap hak opsi diestimasi pada tanggal pemberian hak opsi dengan menggunakan model "*Black-scholes*", dengan asumsi utama sebagai berikut:

Periode <i>vesting</i> (dalam bulan)	36
Harga saham pada tanggal pemberian opsi (dalam Rupiah penuh)	4.870
Harga pelaksanaan opsi (dalam Rupiah penuh)	4.870
Nilai wajar opsi (dalam Rupiah penuh)	929
Volatilitas harga saham	32,419%
Suku bunga bebas risiko	6,103
Tingkat dividen	5,834

**30. STOCK OPTION (continued)**

In accordance with the Board of Directors' letter no. B.0017-DIR/HCS/01/2023 dated January 2, 2023, BRI issued an ESOP program on January 2, 2023 (*grant date*) in the amount of 131,357,200 shares where the date of allocation of share rights or *grant date* is January 2, 2023, with the end of the *vesting period* is December 31, 2025. The validity period of option *exercise* for the 2023 ESOP is from January 2, 2026 to June 30, 2026. After that date, all unused option rights will expire.

Calculation methods and assumptions regarding ESOP were obtained from the independent actuary's report, Willis Towers Watson in November 2023.

The fair value of the ESOP is Rp122,030. The fair value of the ESOP is amortized over the *vesting period* and recognized in consolidated profit or loss and other comprehensive income, while the accumulated costs over the *vesting period* are recognized in equity.

ESOP costs recognized in consolidated profit or loss and other comprehensive income for the years ended December 31, 2025 amounted to Rp40,677.

The fair value of each option right is estimated on the date of granting the option rights by using the "*Black-scholes*" model, assuming the following main assumptions:

Vesting period (month)
Share price on the date of option (full amount)
Option execution price (full amount)
Fair value options (full amount)
Share price volatility
Risk-free interest rates
Dividend rate

The original consolidated financial statements included herein are in the Indonesian language.

**31. EKUITAS (lanjutan)**

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Sebagai realisasi dari Program Rekapitalisasi Bank Umum sesuai Peraturan Pemerintah No. 52 Tahun 1999 tentang "Penambahan Penyertaan Modal Negara Republik Indonesia ke dalam Modal Bank Pemerintah", Pemerintah telah menetapkan bahwa jumlah kebutuhan rekapitalisasi BRI untuk mencapai Kewajiban Penyediaan Modal Minimum 4% adalah sebesar Rp29.063.531. Sampai dengan tanggal 30 Juni 2003, modal dasar dan ditempatkan BRI belum ditingkatkan dengan tambahan modal dari program rekapitalisasi tersebut, sehingga setoran modal Pemerintah sebesar Rp29.063.531 dicatat sementara pada akun "Tambahan Modal Disetor" bersama-sama dengan sisa setoran modal Pemerintah sebelumnya sebesar Rp5.

Berdasarkan Surat Keputusan Menteri Keuangan No. 427/KMK.02/2003 tanggal 30 September 2003 jumlah final kebutuhan rekapitalisasi BRI sebesar Rp29.063.531, dikonversi menjadi modal disetor sebesar Rp3.272.000 dan sisanya sebesar Rp25.791.531 dibukukan sebagai agio saham. Selanjutnya, dengan dilaksanakannya kuasi-reorganisasi oleh BRI, saldo rugi sebelum kuasi-reorganisasi pada tanggal 30 Juni 2003 sebesar Rp24.699.387 dieliminasi ke agio saham, sehingga menghasilkan saldo agio saham sebesar Rp1.092.149 pada tanggal 30 Juni 2003.

Pada tanggal 10 November 2003, BRI telah melakukan IPO dengan mengeluarkan 1.764.705.000 lembar Saham Biasa Atas Nama Seri B baru dengan nilai nominal Rp500 (nilai penuh) per saham dengan harga penawaran Rp875 (nilai penuh) per saham sehingga menghasilkan tambahan agio saham sebagai berikut:

Jumlah Saham Biasa Atas Nama Seri B baru yang dikeluarkan untuk masyarakat dalam rangka IPO (lembar saham) (Catatan 1c)	1.764.705.000
Agio saham per saham (nilai penuh)	375
Total agio saham - sebelum diskon	661.764
Dikurangi	
- 3% diskon yang diberikan kepada nasabah BRI	(2.961)
- Biaya IPO	(69.041)
<b>Agio saham dari IPO</b>	<b>589.762</b>

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

In line with the realization of the Recapitalization Program for Commercial Banks in accordance with Government Regulation No. 52 Year 1999 regarding the "Increase in Investment by the Republic of Indonesia in State-Owned Banks", the Government determined that the recapitalization requirement amount of BRI to achieve Capital Adequacy Ratio (CAR) of 4% was Rp29,063,531. As of June 30, 2003, the authorized and issued capital stock of BRI has not yet been increased by additional capital from the above recapitalization program, therefore, the paid-up capital from the Government of Rp29,063,531 was recorded temporarily in "Additional Paid-in Capital" account together with the previous balance of paid-up capital of Rp5 from the Government.

Based on the Decision Letter of the Minister of Finance No. 427/KMK.02/2003 dated September 30, 2003, the final recapitalization requirement of BRI amounted to Rp29,063,531. The amount of Rp3,272,000 was converted to paid-up capital and the remaining balance of Rp25,791,531 was recorded as additional paid-in capital. Furthermore, with the implementation of the quasi-reorganization by BRI, the accumulated losses before quasi-reorganization as of June 30, 2003 amounting to Rp24,699,387 was eliminated against additional paid-in capital, resulting in additional paid-in capital amounting to Rp1,092,149 as of June 30, 2003.

On November 10, 2003, BRI conducted an IPO by issuing 1,764,705,000 new Series B common shares with a par value of Rp500 (full amount) per share at the offering price of Rp875 (full amount) per share, resulting in additional paid-in capital as follows:

Total New Series B Common Shares Issued to the Public Under the IPO (Shares) (Note 1c)	1.764.705.000
Additional paid-in capital per share (full amount)	375
Total additional paid-in capital - before discount	661.764
Less	
- 3% discount given to BRI customers	(2.961)
- Cost of IPO	(69.041)
<b>Additional paid-in capital from IPO</b>	<b>589.762</b>

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Transaksi entitas sepengendali

Berdasarkan Akta Jual Beli Saham No. 70 tanggal 20 Desember 2018 yang dibuat di hadapan Ashoya Ratam, S.H., M.Kn., Notaris di Jakarta Selatan, PT Bahana Artha Ventura telah mengalihkan kepemilikan saham PT BRI Ventura Investama (BRI Ventures) sebanyak 15.874 lembar kepada BRI (Catatan 1f), dan berdasarkan Akta Pengambilalihan Saham No. 53 tanggal 21 Desember 2018 yang dibuat di hadapan Masjuki, S.H., notaris pengganti dari M. Nova Faisal, S.H., M.Kn., PT Danareksa (Persero) telah mengalihkan kepemilikan saham PT Danareksa Sekuritas (Danareksa Sekuritas), sebanyak 335.000.000 lembar saham kepada BRI (Catatan 1f).

Transaksi jual beli tersebut merupakan transaksi kombinasi bisnis entitas sepengendali dimana pemegang saham pengendali (*ultimate shareholder*) dari BRI, PT Danareksa (Persero) dan PT Bahana Artha Ventura adalah Pemerintah Republik Indonesia. Oleh karena itu, transaksi tersebut diperlakukan berdasarkan metode penyatuan kepemilikan sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK") No. 338, "Kombinasi Bisnis Entitas Sepengendali".

Perbedaan antara jumlah imbalan yang dialihkan dan jumlah tercatat investasi yang diperoleh dari transaksi ini dicatat dalam akun "Tambahan Modal Disetor" pada bagian ekuitas, dengan rincian sebagai berikut:

	Jumlah imbalan yang dialihkan/ <i>Considerations transferred</i>	Jumlah tercatat investasi/ <i>Investment Carrying amount</i>	Tambahan modal disetor/ <i>Additional Paid- in Capital</i>	
Danareksa Sekuritas	446.888	366.359	80.529	Danareksa Sekuritas
BRI Ventures	3.090	2.424	666	BRI Ventures
<b>Jumlah</b>	<b>449.978</b>	<b>368.783</b>	<b>81.195</b>	<b>Total</b>

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

Entities under common control transaction

Based on the Deed Sale and Purchase of Shares No. 70 dated December 20, 2018, of Ashoya Ratam, S.H., M.Kn., PT Bahana Artha Ventura transferred 15,874 shares of BRI Ventura to BRI (Note 1f) and based on the Deed of Shares Takeover No. 53 dated December 21, 2018, made before Masjuki, S.H., a substitute notary of Notary M. Nova Faisal, S.H., M.Kn., PT Danareksa (Persero) sold 335,000,000 shares of PT Danareksa Sekuritas (Danareksa Sekuritas) to BRI (Note 1f).

These sale and purchase transactions constitute a business combination of entities under common control where the ultimate shareholder of BRI, PT Danareksa (Persero) and PT Bahana Artha Ventura is the Government of the Republic of Indonesia. Therefore, the transactions are treated based on the pooling of interests method in accordance with the Statement of Financial Accounting Standards ("SFAS") No. 338, "Business Combination of Entities Under Common Control".

The difference between the amount of the considerations transferred and the carrying amount of the investment obtained from this transaction is recorded in the "additional paid-in capital" account in equity, with details as follows:

**31. EKUITAS (lanjutan)**

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Transaksi entitas sepengendali (lanjutan)

Berdasarkan Akta Jual Beli Saham No. 47 tanggal 20 Desember 2018 yang dibuat di hadapan Masjuki, S.H., Notaris pengganti dari M. Nova Faisal, S.H., M.Kn., PT Danareksa (Persero) telah mengalihkan kepemilikan saham PT Danareksa Investment Management ("DIM") sebanyak 10.500.000 lembar saham kepada BRI (Catatan 1f). Atas transaksi ini BRI memiliki pengaruh signifikan terhadap DIM sehingga transaksi ini dicatat sesuai PSAK No. 228 "Investasi pada Entitas Asosiasi", dimana dalam metode ekuitas pengakuan awal diakui sesuai dengan harga perolehan yang kemudian ditambah atau dikurangi untuk mengakui bagian BRI atas laba rugi DIM setelah tanggal perolehan.

Kemudian berdasarkan Akta Jual Beli Saham No. 32 tanggal 30 November 2022 yang dibuat di hadapan Fathiah Helmi, S.H., Notaris di Jakarta, PT Danareksa (Persero) telah mengalihkan kepemilikan saham PT Danareksa Investment Management ("DIM") sebanyak 9.000.000 lembar saham kepada BRI (Catatan 1f), sehingga BRI memiliki 19.500.000 lembar saham atau setara dengan 65% dari total saham beredar DIM. Atas transaksi ini BRI memperoleh pengendalian terhadap DIM sehingga atas transaksi ini merupakan kombinasi bisnis entitas sepengendali dan dicatat sesuai PSAK No. 338, "Kombinasi Bisnis Entitas Sepengendali".

Perbedaan antara jumlah imbalan yang dialihkan dan jumlah tercatat investasi yang diperoleh dari transaksi ini dicatat dalam akun "Tambahan Modal Disetor" pada bagian ekuitas. Pada tanggal akuisisi di tahun 2022 selisih antara jumlah imbalan yang dialihkan dan jumlah tercatat investasi adalah sebesar Rp604.474.

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

Entities under common control transaction (continued)

Based on the Deed of Sale and Purchase of Shares No. 47 dated December 20, 2018 made before Masjuki, S.H., Notary substitute for M. Nova Faisal, S.H., M.Kn., PT Danareksa (Persero) has transferred the share ownership of PT Danareksa Investment Management ("DIM") amounting to 10,500,000 shares to BRI (Note 1f). For this transaction, BRI has significant influence on DIM so that this transaction is recorded in accordance with SFAS No. 228, "Investment in Associates", where in the equity method initial recognition is recognized according to the acquisition price which is then added or reduced to recognize BRI's share of DIM's profit or loss after date of acquisition.

Furthermore, based on the Deed of Sale and Purchase of Shares No. 32 dated November 30, 2022 made before Fathiah Helmi, S.H., Notary in Jakarta, PT Danareksa (Persero) has transferred ownership of PT Danareksa Investment Management ("DIM") shares totaling 9,000,000 shares to BRI (Note 1f), so that BRI owns 19,500,000 shares or equivalent to 65% of the total outstanding shares of DIM. For this transaction, BRI obtained control over DIM so that this transaction is a business combination of entities under common control and is recorded in accordance with SFAS No. 338, "Business Combinations of Entities under Common Control".

The difference between the amount of consideration transferred and the carrying amount of the investment obtained from this transaction is recorded in the "Additional Paid-in Capital" account in the equity section. At the acquisition date in 2022, the difference between the amount of consideration transferred and the carrying amount of the investment amounted to Rp604,474.

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Kehilangan pengendalian atas entitas anak (BRIS)

Pada tanggal 12 Oktober 2020, PT Bank Mandiri (Persero) Tbk (Mandiri), PT Bank Rakyat Indonesia (Persero) Tbk (BRI), PT Bank Negara Indonesia (Persero) Tbk (BNI), PT Bank Syariah Mandiri (BSM), PT Bank BRISyariah Tbk (BRIS) dan PT Bank BNI Syariah (BNIS) telah menandatangani *Conditional Merger Agreement* (CMA) atau Perjanjian Penggabungan Bersyarat dalam rangka penggabungan usaha BSM, BRIS dan BNIS (Bank Peserta Penggabungan).

Berdasarkan CMA, setelah tanggal efektif penggabungan, PT Bank BRISyariah Tbk (BRIS) akan menjadi entitas yang menerima penggabungan atau *surviving entity* dan seluruh pemegang saham PT Bank BNI Syariah (BNIS) dan PT Bank Syariah Mandiri (BSM) akan menjadi pemegang saham dari entitas yang menerima penggabungan berdasarkan rasio penggabungan.

Berdasarkan rasio penggabungan kepemilikan BRI atas BSI adalah sebesar 17,29% atau sebanyak 7.092.761.655 lembar saham senilai Rp3.546.381.

Sejak tanggal 1 Februari 2021, BRI telah kehilangan pengendalian atas BRIS yang mengakibatkan BRI harus menghentikan pengakuannya terhadap aset neto BRIS pada nilai tercatatnya sebesar Rp909.707 dan jumlah tercatat setiap kepentingan non-pengendali terdahulu kepada BRIS ketika pengendalian hilang (termasuk setiap komponen penghasilan komprehensif lain yang diatribusikan pada kepentingan non pengendali) senilai Rp1.452.824. Setelah itu BRI mengakui investasi pada BSI sesuai dengan rasio penggabungan dimana selisih antara aset neto BRIS dengan investasi BSI dicatat sebagai tambahan modal disetor sebesar Rp565.209.

Transaksi penggabungan ini merupakan transaksi kombinasi bisnis entitas sepengendali dimana pemegang saham pengendali (*ultimate shareholder*) dari BRI, BNI, Mandiri, BSM, BRIS dan BNIS adalah Pemerintah Republik Indonesia.

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

Loss of control over the subsidiary (BRIS)

On October 12, 2020, PT Bank Mandiri (Persero) Tbk (Mandiri), PT Bank Rakyat Indonesia (Persero) Tbk (BRI), PT Bank Negara Indonesia (Persero) Tbk (BNI), PT Bank Syariah Mandiri (BSM), PT Bank BRISyariah Tbk (BRIS) and PT Bank BNI Syariah (BNIS) have signed a *Conditional Merger Agreement* (CMA) for the purpose of merging BSM, BRIS and BNIS (Merger Participating Banks).

Based on the CMA, after the effective date of the merger, PT Bank BRISyariah Tbk (BRIS) will become the surviving entity and all shareholders of PT Bank BNI Syariah (BNIS) and PT Bank Syariah Mandiri (BSM) will become shareholders of the entity that accept the merger based on the combined ratio.

Based on the combined ratio of BRI's ownership of BSI, it is 17.29% or 7,092,761,655 shares worth Rp3,546,381.

Since February 1, 2021, BRI has lost control of BRIS which has resulted in BRI having to derecognize BRIS' net assets at their carrying amount of Rp909,707 and the carrying amount of any former non-controlling interest in BRIS when control is lost (including any components of other comprehensive income attributable to non-controlling interests) amounting to Rp1,452,824. After that BRI recognized investment in BSI in accordance with the combined ratio where the difference between BRIS's net assets and BSI's investment was recorded as additional paid-in capital of Rp565,209.

This merger transaction is a business combination transaction of entities under common control in which the ultimate shareholder of BRI, BNI, Mandiri, BSM, BRIS and BNIS is the Government of the Republic of Indonesia.

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Kehilangan pengendalian atas entitas anak (BRIS) (lanjutan)

Oleh karena itu, transaksi tersebut diperlakukan berdasarkan metode penyatuan kepemilikan sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK") No. 338 "Kombinasi Bisnis Entitas Sepengendali".

Perbedaan antara jumlah tercatat investasi sebelumnya dan jumlah tercatat investasi yang diperoleh dari transaksi ini dicatat dalam akun "Tambahan Modal Disetor" pada bagian ekuitas, dengan rincian sebagai berikut:

	Jumlah tercatat investasi sebelumnya/ Carrying amount of previous investment	Jumlah tercatat investasi akibat merger/ Carrying amount of investment due to merger	Tambahan modal disetor/ Additional paid-in capital	
Kepemilikan BRI atas BSI	2.981.172	3.546.381	565.209	BRI ownership of BSI

Penerbitan Saham Baru

Sesuai dengan RUPS Luar Biasa pada tanggal 22 Juli 2021, seperti yang telah diungkapkan dalam Akta No. 61 Notaris Fathiah Helmi, S.H., pemegang saham menyetujui BRI menerbitkan saham baru dalam rangka penambahan modal melalui mekanisme Penambahan Modal dengan Hak Memesan Efek Terlebih Dahulu I (PMHMETD I).

PMHMETD I tersebut telah memperoleh Pernyataan Efektif dari Otoritas Jasa Keuangan ("OJK") pada tanggal 30 Agustus 2021. Pemerintah Republik Indonesia, selaku pemegang saham pengendali Perseroan mengambil bagian atas seluruh Hak Memesan Efek Terlebih Dahulu (HMETD) yang menjadi haknya dengan melakukan *Inbreng* atas saham milik Pemerintah pada Pegadaian dan PNM kepada BRI adalah sebagai berikut:

- a. 6.249.999 saham Seri B atau mewakili 99,99% dari seluruh modal ditempatkan dan disetor penuh dalam Pegadaian;
- b. 3.799.999 saham Seri B atau mewakili 99,99% dari seluruh modal ditempatkan dan disetor penuh dalam PNM.

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

Loss of control over the subsidiary (BRIS) (continued)

Therefore, the transaction is treated based on the combined interest method in accordance with Statement of Financial Accounting Standards ("SFAS") No. 338, "Business Combination of Entities Under Common Control".

The difference between the carrying amount of the previous investment and the carrying amount of the investment obtained from this transaction is recorded in the "Additional Paid-in Capital" account in the equity section, with details as follows:

Additional Capital for PMHMETD transactions

In accordance with the Extraordinary General Meeting of Shareholders on July 22, 2021, as disclosed in the Deed No. 61 of Notary Fathiah Helmi, S.H., the shareholders approved the company issues new shares in connection with the issuance of Additional Capital with Preemptive Rights I (PMHMETD I) mechanism.

Additional Capital with Preemptive Rights I has received an effective statement from the Financial Services Authority ("OJK") on August 30, 2021. The Government of the Republic of Indonesia, as the controlling shareholder of the Company, takes part to all Preemptive Rights to which it is entitled by conducting *Inbreng* on shares owned by the Government's shares in Pegadaian and PNM to BRI as follows:

- a. 6,249,999 Series B shares or representing 99.99% of the issued and fully paid capital in Pegadaian;
- b. 3,799,999 Series B shares or representing 99.99% of the issued and fully paid capital in PNM.

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Penerbitan Saham Baru (lanjutan)

Transaksi inbreng tersebut sesuai Akta Pengalihan Hak Atas Saham Republik Indonesia atas Perusahaan Perseroan (Persero) PT Pegadaian, Perusahaan Perseroan (Persero) PT Permodalan Nasional Madani untuk dan dalam rangka Penambahan Penyertaan Negara Republik Indonesia Dalam Penyertaan Modal Perusahaan Perseroan (Persero) PT Bank Rakyat Indonesia Tbk No. 13 tanggal 13 September 2021, Notaris Fathiah Helmi, S.H., atas Transaksi inbreng tersebut merupakan transaksi kombinasi bisnis entitas sependengali dimana pemegang saham pengendali (*ultimate shareholder*) dari BRI, PT Pegadaian (Persero) dan PT Permodalan Nasional Madani adalah Pemerintah Republik Indonesia. Oleh karena itu, transaksi tersebut diperlakukan berdasarkan metode penyatuan kepemilikan sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK") No. 338, "Kombinasi Bisnis Entitas Sepengendali".

Perbedaan antara jumlah imbalan yang dialihkan dan jumlah tercatat investasi yang diperoleh dari transaksi ini dicatat dalam akun "Tambahan Modal Disetor" pada bagian ekuitas, dengan rincian sebagai berikut:

	Jumlah tercatat investasi sebelumnya/ <i>Carrying amount of previous investment</i>	Jumlah tercatat investasi akibat merger/ <i>Carrying amount of investment due to merger</i>	Tambahan modal disetor/ <i>Additional paid-in capital</i>	
PNM Pegadaian	6.100.068 48.670.528	6.073.819 25.326.438	26.249 23.344.090	PNM Pegadaian
<b>Jumlah</b>	<b>54.770.596</b>	<b>31.400.257</b>	<b>23.370.339</b>	<b>Total</b>

Jumlah imbalan yang dialihkan sesuai dengan hasil nilai wajar dari Kantor Jasa Penilai Publik (KJPP) Suwendho Rinaldy dan Rekan, sesuai dengan laporan No. 00244/2.0059-02/BS/07/0242/1/VI/2021 tanggal 30 Juni 2021 dan No. 00245/2.0059-02/BS/07/0242/1/VI/2021 tanggal 30 Juni 2021.

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

Additional Capital for PMHMETD transactions (continued)

The inbreng transaction is in accordance with the Deed of Transfer of Rights to Shares of the Republic of Indonesia for both the Company (Persero) PT Pegadaian, and PT Permodalan Nasional Madani and in relation to the additional investment in the company (Persero) PT Bank Rakyat Indonesia Tbk by the Republic of Indonesia No. 13 dated September 13, 2021, Notary Fathiah Helmi, S.H., for the Inbreng Transaction is a business combination transaction of entities under common control in which the ultimate shareholder of BRI, PT Pegadaian (Persero) and PT Permodalan Nasional Madani is the Government of the Republic of Indonesia. Therefore, the transaction is treated based on the pooling of interest method in accordance with Statement of Financial Accounting Standards ("SFAS") No. 338, "Business Combination of Entities Under Common Control".

The difference between the nominal of investment and carrying amount of investment from this transaction is recorded in "Additional paid-in capital" in equity section as follows:

The nominal amount of investment transferred is in accordance with the fair value result from the External Independent Appraisal (KJPP) Suwendho Rinaldy and Partners, in accordance with report No. 00244/2.0059-02/BS/07/0242/1/VI/2021 dated June 30, 2021 and No. 00245/2.0059-02/BS/07/0242/1/VI/2021 dated June 30, 2021.

b. Tambahan Modal Disetor (lanjutan)

Rincian tambahan modal disetor adalah sebagai berikut (lanjutan):

Penerbitan Saham Baru (lanjutan)

Atas PMHMETD I meningkatkan modal dan disetor penuh sebanyak 28.213.191.604 lembar saham atau sebesar Rp1.410.659, yang terdiri dari *inbreg* Pemerintah sebanyak 16.108.998.710 lembar saham atau sebesar Rp805.450 dan publik sebanyak 12.104.192.894 lembar saham atau sebesar Rp605.210, yang mengakibatkan kenaikan tambahan modal disetor sebesar Rp94.419.142 (setelah dikurangi oleh biaya emisi).

c. Selisih Kurs karena Penjabaran Laporan Keuangan dalam Mata Uang Asing

Akun ini merupakan selisih kurs yang timbul karena penjabaran laporan keuangan BRI Kantor Cabang/Perwakilan luar negeri (Cayman Islands, New York, Hong Kong, Singapura, Timor-Leste dan Taipei) dan entitas anak dalam mata uang Dolar Amerika Serikat, Dolar Hong Kong, Dolar Singapura dan Dolar Taiwan Baru ke dalam mata uang Rupiah (Catatan 2ai).

d. Pembagian Laba

Dalam RUPS Tahunan BRI tanggal 24 Maret 2025 dan 1 Maret 2024 pemegang saham menyetujui pembagian dividen dari laba tahun berjalan untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2024 dan 2023 dengan rincian sebagai berikut:

	<b>Laba tahun berjalan/ Income for the year</b>	
	<b>Untuk tahun yang berakhir pada tanggal 31 Desember/ ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Pembagian laba untuk dividen	51.726.772	48.102.283

Berdasarkan Perubahan Anggaran Dasar dalam Akta Notaris Fathiah Helmi, S.H., No. 31 tanggal 22 April 2024 yang menyatakan bahwa Perseroan dapat membagikan Dividen Interim berdasarkan keputusan Direksi setelah memperoleh persetujuan Dewan Komisaris dan/atau apabila diminta oleh Pemegang Saham yang mewakili paling sedikit 1/10 (satu per sepuluh) bagian dari saham yang telah dikeluarkan dan telah mendapatkan persetujuan Dewan Komisaris.

**31. EQUITY (continued)**

b. Additional Paid-in Capital (continued)

The details of additional paid-in capital are as follows (continued):

Additional Capital for PMHMETD transactions (continued)

The PMHMETD I increased the issued and fully paid capital of 28,213,191,604 shares or Rp1,410,659, consisting of the Government *inbreg* shares totaling 16,108,998,710 shares or Rp805,450 and the public as many as 12,104,192,894 shares or Rp605,210, which resulted in an increase in additional paid-in capital of Rp94,419,142 (after deducting emission costs).

c. Differences Arising from Translation of Foreign Currency Financial Statements

This account represents the exchange rate differences arising from the translation of the financial statements of BRI overseas branches/representative office (Cayman Islands, New York, Hong Kong, Singapore, Timor-Leste, and Taipei) and subsidiaries with functional currency of United States Dollar, Hong Kong Dollar, Singaporean Dollar, and New Taiwanese Dollar into Rupiah (Note 2ai).

d. Distribution of Net Income

In the Annual General Meetings of BRI's Shareholders held on March 24, 2025 and March 1, 2024, the Shareholders agreed to distribute dividend from net income for the years ended December 31, 2024 and 2023 are as follows:

	<b>Laba tahun berjalan/ Income for the year</b>	
	<b>Untuk tahun yang berakhir pada tanggal 31 Desember/ ended December 31,</b>	
	<b>2024</b>	<b>2023</b>
Profit distribution for dividends	51.726.772	48.102.283

Based on the Amendment to the Articles of Association in Notarial Deed of Fathiah Helmi, S.H., No. 31 dated April 22, 2024, which states that the Company may distribute Interim Dividends based on a resolution of the Board of Directors after obtaining approval from the Board of Commissioners and/or upon request from Shareholders representing at least 1/10 (one-tenth) of the issued shares, provided that such distribution has been approved by the Board of Commissioners.

d. Pembagian Laba (lanjutan)

Pembagian dividen interim BRI tahun buku 2025 sesuai dengan Surat Persetujuan No. R.153-KOM/12/2025 tanggal 15 Desember 2025, disetujui sebesar Rp137 per lembar saham atau sebesar Rp20.613.694.

Pembagian dividen interim BRI tahun buku 2024 sesuai dengan Surat Persetujuan No. R.128-KOM/12/2024 tanggal 12 Desember 2024, disetujui sebesar Rp135 per lembar saham atau sebesar Rp20.337.632.

e. Reklasifikasi Saldo Laba - Telah Ditentukan Penggunaannya

Dalam rangka menjaga struktur permodalannya, BRI telah melakukan reklasifikasi saldo laba yang telah ditentukan penggunaannya (cadangan tujuan) ke saldo laba yang belum ditentukan penggunaannya sebesar Rp15.093.056 pada tahun 2016. Hal ini dilakukan sehubungan dengan penerapan Peraturan Otoritas Jasa Keuangan (POJK) No. 34/POJK.03/2016 pada tanggal 26 September 2016 tentang "Perubahan atas POJK No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum".

f. Saham bonus BRI

Dalam rangka meningkatkan produktivitas dan menciptakan *sense of belonging* terhadap perusahaan dan memberikan insentif jangka panjang kepada pekerja untuk mencapai target yang telah ditetapkan, Manajemen BRI memutuskan untuk memberikan program bonus kepemilikan saham bagi pekerja dalam program *Employee Stock Allocation* (ESA).

Alokasi saham diberikan kepada masing-masing pekerja berdasarkan kinerja individu dan perusahaan.

**31. EQUITY (continued)**

d. *Distribution of Net Income (continued)*

*The distribution of BRI's interim dividend for the 2025 financial year, in accordance with Approval Letter No. R.153-KOM/12/2025 dated December 15, 2025, has been approved at Rp137 per share, amounting to Rp20,613,694.*

*The distribution of BRI's interim dividend for the 2024 financial year, in accordance with Approval Letter No. R.128-KOM/12/2024 dated December 12, 2024, has been approved at Rp135 per share, amounting to Rp20,337,632.*

e. *Reclassification of Appropriated Retained Earnings*

*In order to maintain its capital structure, BRI has reclassified its appropriated retained earnings into unappropriated retained earnings amounting to Rp15,093,056 in 2016. This is in accordance with the implementation of the Financial Services Authority Regulation (POJK) No. 34/POJK.03/2016 dated September 26, 2016 regarding "Amendment to POJK No. 11/POJK.03/2016 regarding Minimum Capital Adequacy Requirement for Commercial Banks".*

f. *BRI Bonus Shares*

*In order to increase productivity and create a sense of belonging to the company and provide long-term incentives for workers to achieve predetermined targets, BRI management decided to provide a share ownership bonus program for workers in the form of Employee Stock Allocation (ESA) program.*

*Share allocation is given to each worker based on individual and company performance.*

f. Saham bonus BRI (lanjutan)

Sesuai surat Direksi No. B.0016-DIR/HCS/01/2023 tanggal 2 Januari 2023, BRI kembali melaksanakan program ESA dimana tanggal pemberian alokasi hak saham atau tanggal *grant* pada 2 Januari 2023, dengan akhir periode *vesting* pada 31 Desember 2024.

Nilai wajar dari ESA pada saat pemberian pada tanggal 2 Januari 2023 sebesar Rp406.008. Nilai wajar ESA diamortisasi selama masa *vesting* dan diakui dalam laba rugi dan penghasilan komprehensif lain konsolidasian, sedangkan akumulasi biaya selama periode *vesting* diakui dalam ekuitas.

Biaya ESA yang diakui dalam laba rugi dan penghasilan komprehensif lain konsolidasian untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024 sebesar Rp1.194 dan Rp217.957.

Per 31 Desember 2023, cadangan saham bonus dari program sebelumnya yang telah jatuh tempo sebesar Rp210.266 yang mengakibatkan kenaikan tambahan modal disetor.

Selain program ESA bagi pekerja, terdapat juga program *Long Term Incentives (LTI)* yang ditujukan kepada direksi dan komisaris non independen BRI dimana tanggal pemberian alokasi hak saham atau tanggal *grant* masing-masing pada 15 Desember 2023 (LTI 2023) dan 23 Desember 2022 (LTI 2022), dengan memperhatikan ketentuan *holding period* untuk masing-masing program.

Nilai wajar dari LTI pada saat pemberian pada tanggal 15 Desember 2023 dan 23 Desember 2022 masing-masing sebesar Rp211.117 dan Rp141.438. Nilai wajar LTI diamortisasi selama masa *vesting* dan diakui dalam laba rugi dan penghasilan komprehensif lain konsolidasian, sedangkan akumulasi biaya selama periode *vesting* diakui dalam ekuitas.

Biaya LTI yang diakui dalam laba rugi dan penghasilan komprehensif lain konsolidasian untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024 masing-masing sebesar Rp103.907 dan Rp164.549.

**31. EQUITY (continued)**

f. BRI Bonus Shares (continued)

*In accordance with the Board of Directors' letter No. B.0016-DIR/HCS/01/2023 dated January 2, 2023, BRI is re-implementing the ESA program where the share rights allocation date or grant date is January 2, 2023, with the end of the vesting period on December 31, 2024.*

*The fair value of ESA at the time of grant on January 2, 2023 was Rp406,008. The fair value of ESA is amortized over the vesting period and recognized in consolidated profit or loss and other comprehensive income, while the accumulated costs over the vesting period are recognized in equity.*

*ESA costs recognized in consolidated profit or loss and other comprehensive income for the years ended December 31, 2025 and 2024 amounted to Rp1,194 and Rp217,957.*

*As of December 31, 2023, bonus share reserves from the previous program that had matured amounted to Rp210,266 which resulted in an additional increase in paid-in capital.*

*Apart from the ESA program for employees, there is also a Long Term Incentives (LTI) program aimed at BRI's non-independent directors and commissioners where the allocation date for share rights or grant date are December 15, 2023 (LTI 2023) and December 23, 2022 (LTI 2022), with taking into holding period for each program.*

*The fair value of LTI at the time of grant on December 15, 2023 and December 23, 2022 amounted Rp211,117 and Rp141,438, respectively. The fair value of LTI is amortized over the vesting period and recognized in consolidated profit or loss and other comprehensive income, while the accumulated costs over the vesting period are recognized in equity.*

*LTI costs recognized in consolidated profit or loss and other comprehensive income for the years ended December 31, 2025 and 2024 amounted to Rp103,907 and Rp164,549, respectively.*

f. Saham bonus BRI (lanjutan)

Berdasarkan Surat Menteri Badan Usaha Milik Negara (BUMN) Republik Indonesia No.SR-198/MBU/04/2024, tanggal 3 April 2024, Menteri BUMN telah menetapkan besarnya jumlah tantiem untuk Direksi dan Dewan Komisaris atas kinerja tahun buku 2023, dimana atas bagian 20% dari jumlah tantiem tersebut harus ditangguhkan selama 3 (tiga) tahun atau sampai berakhir masa jabatannya dan pembayaran dalam bentuk saham untuk Direksi dan Dewan Komisaris Non Independen serta dalam bentuk tunai bagi Komisaris Independen.

g. Perubahan proporsi kepemilikan oleh kepentingan non-pengendali di PT Asuransi BRI Life (BRI Life)

Perubahan proporsi ekuitas yang dimiliki oleh kepentingan non-pengendali sesuai dengan Perjanjian Pemegang Saham tanggal 2 Maret 2021 (Catatan 1f), BRI menyesuaikan jumlah tercatat kepentingan pengendalian dan kepentingan non-pengendalian untuk mencerminkan perubahan kepemilikan dalam BRI Life. Perbedaan antara jumlah tercatat kepentingan non-pengendali yang disesuaikan dan nilai wajar imbalan yang diterima BRI diakui secara langsung dalam ekuitas yaitu pada akun "Dampak Transaksi Dengan Kepentingan Non-Pengendali" sebesar Rp1.758.580.

h. Kepentingan non-pengendali

Berikut di bawah ini adalah rincian dari kepentingan non-pengendali:

	31 Desember 2025/ December 31, 2025	31 Desember 2024/ December 31, 2024 <sup>*)</sup>
<u>Kepentingan non-pengendali</u>		
PT Asuransi BRI Life	5.915.092	5.292.216
PT Bank Raya Indonesia Tbk	411.154	457.897
PT BRI Asuransi Indonesia	264.047	226.011
PT BRI Danareksa Sekuritas	179.340	173.872
PT BRI Manajemen Investasi	96.077	85.340
PT Permodalan Nasional Madani	30.777	41.698
PT Pegadaian	9.246	7.893
PT BRI Multifinance Indonesia	1.816	1.711
PT BRI Ventura Investama	27	27
<b>Total</b>	<b>6.907.576</b>	<b>6.286.665</b>

<sup>\*)</sup> Setelah reklasifikasi dan penyajian kembali (Catatan 52)

**31. EQUITY (continued)**

f. BRI Bonus Shares (continued)

According to the letter of the Minister of State-Owned Enterprises (BUMN) No.SR-198/MBU/04/2024, dated April 3, 2024, the minister has determined the amount of remuneration for Board Directors and Board of Commissioners for the performance of fiscal year 2023, which is 20% of the total of remuneration must be deferred for 3 (three) years or the end of the term of office to be paid in the form of shares for Board of Directors and non Independent Board of Commissioners, as well as in the form of cash for Independent Commissioners.

g. Changes in the proportion of ownership by non-controlling interests in PT Asuransi BRI Life (BRI Life)

Change in the proportion of equity held by non-controlling interests based on the Shareholders Agreement dated March 2, 2021 (Note 1f), BRI adjusted the carrying amount of controlling and non-controlling interests to reflect changes of ownership in BRI Life. The difference between the adjusted carrying amount of the non-controlling interest and the fair value of the benefits received by BRI is recognized directly in equity, namely in the "Impact of transactions with non-controlling" account amounting to Rp1,758,580.

h. Non-controlling interest

Below are the details of non-controlling interests:

<u>Non-controlling interests</u>
PT Asuransi BRI Life
PT Bank Raya Indonesia Tbk

**31. EKUITAS (lanjutan)**

- i. Pengalihan Sebagian saham Seri B milik Negara Republik Indonesia kepada Indonesia Investment Authority

Berdasarkan Peraturan Pemerintah Republik Indonesia No. 111 Tahun 2021 tentang Penambahan Penyertaan Modal Negara Republik Indonesia ke dalam Modal Lembaga Pengelola Investasi telah ditetapkan penambahan penyertaan modal negara kepada Lembaga Pengelola Investasi (dalam hal ini Indonesia Investment Authority). Penambahan penyertaan modal tersebut berasal dari pengalihan saham seri B milik Negara Republik Indonesia pada BRI.

Selanjutnya sesuai dengan Akta Notaris No. 33 Tentang Perjanjian Pengalihan Hak atas Saham Negara Republik Indonesia pada Perusahaan Perseroan (Persero) PT Bank Rakyat Indonesia (Persero) Tbk kepada dan Dalam Rangka Penambahan Penyertaan Modal Negara Republik Indonesia ke dalam Modal Lembaga Pengelola Investasi yang dibuat oleh Notaris Fathiah Helmi, S.H. Pengalihan Sebagian saham seri B milik Negara Republik Indonesia pada BRI kepada Indonesia Investment Authority telah efektif setelah ditandatanganinya Akta tersebut pada tanggal 23 Desember 2021.

Pengalihan sebagian saham seri B milik Negara Republik Indonesia pada BRI kepada Indonesia Investment Authority sejumlah 5.498.021.834 lembar saham atau sebesar 3,63%, sehingga saham seri B milik Negara Republik Indonesia pada BRI menjadi sejumlah 80.610.976.875 lembar saham atau 53,19%.

- j. Pengalihan Sebagian saham Seri B milik Negara Republik Indonesia kepada PT Biro Klasifikasi Indonesia (Persero)

Berdasarkan Peraturan Pemerintah Republik Indonesia No. 15 Tahun 2025 Penambahan Penyertaan Modal Negara RI ke dalam Modal Saham Perusahaan Perseroan (Persero) PT Biro Klasifikasi Indonesia (Persero) untuk Pendirian Holding Operasional. Penambahan penyertaan modal tersebut berasal dari pengalihan saham seri B milik Negara Republik Indonesia pada BRI.

**31. EQUITY (continued)**

- i. Partially Transfer of Series B Shares owned by the Republic of Indonesia to the Indonesia Investment Authority

Based on Government Regulation of the Republic of Indonesia No. 111 year 2021 regarding the Addition of the State Equity Participation of the Republic of Indonesia into the Capital of the Investment Management Institution, it has been stipulated of the addition of the state's equity participation to the Investment Management Institution (in this case the Indonesia Investment Authority). The additional capital participation comes from the transfer of BRI series B shares owned by the Republic of Indonesia to BRI.

Subsequently, in accordance with the Notarial Deed No. 33 regarding the Agreement on the Transfer of Rights to the Shares of the Republic of Indonesia in PT Bank Rakyat Indonesia (Persero) Tbk, to and in the context of the addition of the State Equity Participation of the Republic of Indonesia into the Capital of the Investment Management Institution made by Notary Fathiah Helmi, S.H. The partial transfer of series B shares belonging to the Republic of Indonesia in BRI to the Indonesia Investment Authority has been effective upon the signing of the Deed on December 23, 2021.

The transfer of part of the series B shares owned by the Republic of Indonesia in BRI to the Indonesia Investment Authority amounted to 5,498,021,834 shares or 3.63%, so that the series B shares owned by the Republic of Indonesia in BRI amounting to 80,610,976,875 shares or 53.19%.

- j. Partially Transfer of Series B Shares owned by the Republic of Indonesia to the PT Biro Klasifikasi Indonesia (Persero)

Based on Government Regulation of the Republic of Indonesia No. 15 year 2025 regarding Republic of Indonesia Additional State Participation into Share Capital of PT Biro Klasifikasi Indonesia (Persero) for The Establishment of Operational Holding. The additional capital participation comes from the transfer of BRI series B shares owned by the Republic of Indonesia to BRI.

**38. PERPAJAKAN (lanjutan)**

c) Aset Pajak Tangguhan (lanjutan)

Manajemen BRI berkeyakinan bahwa aset pajak tangguhan dapat dipulihkan kembali melalui penghasilan kena pajak di masa yang akan datang.

Pada tanggal 30 Juni 2020, Pemerintah menerbitkan Peraturan Pemerintah Pengganti Undang-Undang (Perpu) Republik Indonesia No. 1 Tahun 2020 yang telah menjadi Undang-Undang (UU) No. 2 Tahun 2020, serta menetapkan Peraturan Pemerintah (PP) No. 30 Tahun 2020 tentang Penurunan Tarif Pajak Penghasilan bagi Wajib Pajak Badan Dalam Negeri Yang Berbentuk Perseroan Terbuka dan berlaku sejak tanggal diundangkan, yaitu pada 19 Juni 2020. Selanjutnya pada tanggal 29 Oktober 2021, Pemerintah menerbitkan Undang-Undang Republik Indonesia No. 7 Tahun 2021 tentang Harmonisasi Peraturan Perpajakan (UU HPP). Adapun aturan tersebut telah menetapkan antara lain, penurunan tarif pajak penghasilan wajib pajak badan dalam negeri dan bentuk usaha tetap dari semula 25% menjadi 22% untuk tahun pajak 2020, 2021, 2022, dan tahun selanjutnya, serta pengurangan lebih lanjut tarif pajak sebesar 3% untuk wajib pajak dalam negeri yang memenuhi persyaratan tertentu.

Untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024, berdasarkan surat keterangan dari Datindo Entrycom No. DE/I/2026-0209 tanggal 6 Januari 2026 dan No. DE/I/2025-0193 tanggal 6 Januari 2025 yang berkaitan dengan kepemilikan saham BRI dan laporan bulanan kepemilikan saham dari Biro Administrasi Efek, semua persyaratan tertentu di atas untuk memperoleh fasilitas penurunan tarif pajak tersebut telah terpenuhi.

**38. TAXATION (continued)**

c) *Deferred Tax Assets (continued)*

*BRI's management believes that the deferred tax assets can be recovered through taxable income in the future.*

*On June 30, 2020, the Government issued Government Regulation in Lieu of Law (PERPU) of the Republic of Indonesia No. 1 year 2020 which has become Law (UU) No. 2 year 2020, as well as stipulating Government Regulation (PP) No. 30 year 2020 regarding Reduction Income Tax Rates for Domestic Corporate Taxpayers in the Form of Public Companies and effective from the date of promulgation on June 19, 2020. Furthermore, on October 29, 2021, the Government issued the Law of the Republic of Indonesia No. 7 year 2021 regarding harmonization of tax regulations (UU HPP). The regulation has stipulated reduction in income tax rates for domestic corporate taxpayers and permanent establishments from 25% to 22% for fiscal year 2020, 2021, 2022 onwards and a further reduction of the tax rate by 3% for corporate income taxpayers that fulfill certain criteria.*

*For the year ended December 31, 2025 and 2024, based on the certificate from Datindo Entrycom No. DE/I/2026-0209 dated January 6, 2026 and No. DE/I/2025-0193 dated January 6, 2025, regarding the ownership of BRI shares and the monthly share ownership report from the Securities Administration Bureau, all the specific requirements mentioned above to obtain the corporate tax rate reduction Facility have been fulfilled.*

**38. PERPAJAKAN (lanjutan)**

c) Aset Pajak Tangguhan (lanjutan)

Pada tanggal 20 Desember 2022 Pemerintah menerbitkan Peraturan Pemerintah (PP) Nomor 55 Tahun 2022 tentang Penyesuaian Pengaturan di Bidang Pajak Penghasilan, selanjutnya pada tanggal 29 Desember 2023 Pemerintah mengeluarkan Peraturan Menteri Keuangan (PMK) Nomor 168 Tahun 2023 tentang Petunjuk Pelaksanaan Pemotongan Pajak atas Penghasilan Sehubungan dengan Pekerjaan, Jasa, atau Kegiatan Orang Pribadi dan pada tanggal 8 Juli 2024, Pemerintah menerbitkan Surat Penegasan No. ND-14/PJ/PJ.02/2024 yang mengatur mengenai Penegasan Pelaksanaan Peraturan Menteri Keuangan (PMK) Nomor 66 Tahun 2023 tentang Perlakuan Pajak Penghasilan atas Penggantian atau Imbalan Sehubungan dengan Pekerjaan atau Jasa yang Diterima atau Diperoleh dalam Bentuk Natura dan/atau Kenikmatan.

Pada 10 Oktober 2024, Pemerintah menerbitkan Peraturan Menteri Keuangan Nomor 74 Tahun 2024 tentang Pembentukan Cadangan Piutang Tak Tertagih yang Boleh Dikurangkan dari Penghasilan Bruto. Sesuai dengan ketentuan peralihan dalam Peraturan Menteri Keuangan Republik Indonesia Nomor 74 Tahun 2024, BRI telah melaksanakan perhitungan nilai tercatat cadangan piutang tak tertagih untuk awal tahun fiskal 2024 dan selisih lebih diakui sebagai biaya yang dibebankan seluruhnya pada akhir tahun fiskal 2025.

Manajemen Bank berkeyakinan bahwa tidak diperlukan adanya pembentukan cadangan pajak untuk tahun pajak yang belum diperiksa oleh Direktorat Jenderal Pajak.

**38. TAXATION (continued)**

c) *Deferred Tax Assets (continued)*

*On December 20, 2022, the Government issued Government Regulation (PP) No. 55 Year 2022 concerning Adjustments to Regulations in the Income Tax Sector, then on December 29, 2023, the Government issued Minister of Finance Regulation (PMK) Number 168 Year 2023 concerning Guidelines for the Implementation of Income Tax Withholding related to the Work, Services or Activities of Individual Taxpayers and on July 8, 2024, the Government issued an Affirmation Letter No. ND-14/PJ/PJ.02/2024 which regulated the Affirmation of the Implementation Minister of Finance Regulation (PMK) No. 66 Year 2023 concerning Income Tax Treatment of Reimbursement or Benefits in connection with Work or Services Received or Obtained in the Form of Benefit in Kind and/or Enjoyment.*

*On October 10, 2024, the Government issued Minister of Finance Regulation (PMK) Number 74 Year 2024 concerning Establishment of Allowance for Doubtful Accounts that can be Deducted from Gross Income. Based on the transitional provisions in the Regulation of the Minister of Finance of the Republic of Indonesia No. 74 Year 2024, BRI has calculated the carrying value of the allowance for doubtful accounts for the beginning of the fiscal year 2024, and the excess will be recognized as an expense fully charged at the end of fiscal year 2025.*

*Management believes that there is no need to establish a tax allowance for the fiscal year which has not been audited by the Directorate General of Tax.*

**38. PERPAJAKAN (lanjutan)**

**Pajak Penghasilan Pilar Dua**

Pada tanggal 31 Desember 2024, Pemerintah Indonesia telah menerbitkan undang-undang Pajak Penghasilan Pilar Dua sesuai dengan Peraturan Menteri Keuangan No. 136 Tahun 2024 ("PMK 136/2024") sehubungan dengan Pengenaan Pajak Minimum Global ("GloBE"), yang akan mulai berlaku pada tanggal 1 Januari 2025.

Aturan Pengenaan Pajak Minimum Global ini memperkenalkan mekanisme perpajakan baru dimana perusahaan multinasional akan membayar pajak tambahan di suatu yurisdiksi setiap kali ETR, yang ditentukan berdasarkan yurisdiksi di bawah aturan Pilar Dua, berada di bawah tarif minimum 15%.

BRI dan entitas anak berada dalam lingkup model Pilar Dua sebagaimana diatur dalam PMK 136/2024. PMK 136/2024 dihitung untuk tahun fiskal yang berakhir pada tanggal 31 Desember 2025. Grup telah melakukan penilaian terhadap potensi eksposur Grup terhadap pajak penghasilan Pilar Dua.

Berdasarkan penilaian tersebut, Grup telah melakukan penilaian atas *Safe Harbour* untuk seluruh yurisdiksi dimana Grup beroperasi. Berdasarkan penilaian Grup, terdapat 4 (empat) dari 7 (tujuh) yurisdiksi dapat menerapkan ketentuan *Safe Harbour*. Sehingga dampak pajak top-up Pilar Dua adalah nihil untuk 4 (empat) yurisdiksi tersebut. Untuk 3 (tiga) yurisdiksi dimana Grup beroperasi yang tidak dapat menerapkan ketentuan *Safe Harbour*, setelah dilakukan perhitungan menyeluruh berdasarkan GloBE Model Rules, tarif pajak efektif di 3 (tiga) yurisdiksi tersebut diestimasikan berada dibawah 15%, namun beban pajak penghasilan kini tambahan tidak material terhadap laporan keuangan konsolidasian Grup tanggal 31 Desember 2025 dan untuk tahun yang berakhir pada tanggal tersebut.

**38. TAXATION (continued)**

**Pillar Two Income Taxes**

On December 31, 2024, the Government of Indonesia has issued the Pillar Two income taxes legislation with Ministry of Finance Regulation No. 136 Year 2024 ("PMK 136/2024") in regards to Global Anti-Base Erosion Rules ("GloBE"), which will come into effect starting January 1, 2025.

These GloBE rules introduce new taxing mechanisms under which a multinational enterprise would pay a top-up tax in a jurisdiction whenever the ETR, determined on a jurisdictional basis under the Pillar Two rules, is below a 15% minimum rate.

BRI and subsidiaries are within the scope of the Pillar Two model as stipulated in PMK 136/2024. PMK 136/2024 is calculated for the fiscal year ending December 31, 2025. Group has performed an assessment of the Group's potential exposure to Pillar Two income taxes.

Based on the assessment, The Group has performed a *Safe Harbour* assessment across all jurisdictions in which it operates. Based on this assessment, 4 (four) out of 7 (seven) jurisdictions met the *Safe Harbour* criteria. As a result, the Pillar Two top-up tax impact is considered nil for these 4 (four) jurisdictions. In the 3 (three) jurisdictions where the Group operates that have not met the *Safe Harbour* assessment, following the GloBE Model Rules full calculation, the effective tax rate in these jurisdictions is estimated to be below 15%, the recognition of a supplemental current tax expense was immaterial to the consolidated financial statements of the Group as of December 31, 2025 and for year then ended.

### 39. MANAJEMEN RISIKO

Kegiatan usaha BRI senantiasa dihadapkan pada risiko-risiko yang berkaitan dengan fungsinya sebagai lembaga intermediasi keuangan. Perkembangan yang pesat pada lingkungan eksternal dan internal perbankan juga menyebabkan risiko kegiatan usaha bank semakin kompleks. Oleh karena itu, agar mampu beradaptasi dalam lingkungan bisnis, BRI dituntut untuk mengelola risiko secara terpadu dan sistematis, yakni pengelolaan terhadap risiko kredit, risiko likuiditas, risiko operasional, risiko pasar, risiko strategis, risiko kepatuhan, risiko reputasi dan risiko hukum.

Prinsip-prinsip pengelolaan risiko terpadu dan sistematis oleh BRI dituangkan dalam beberapa kebijakan dan prosedur, antara lain Kebijakan Manajemen Risiko (KMR). KMR sebagai aturan tertinggi dalam implementasi manajemen risiko pada seluruh kegiatan bisnis BRI, dimulai dari kebijakan umum, strategi, organisasi, sistem informasi manajemen risiko, proses dan penerapan manajemen risiko, sampai dengan sistem pengendalian internal. Pelaksanaan penerapan manajemen risiko diatur dalam kebijakan-kebijakan turunan sesuai dengan jenis risikonya.

Dewan Komisaris dan Direksi bertanggung jawab atas efektivitas penerapan manajemen risiko di BRI dan memegang peranan penting dalam mendukung dan mengawasi keberhasilan penerapannya di seluruh unit kerja.

Dewan Komisaris melakukan evaluasi terhadap kebijakan dan implementasi manajemen risiko yang dilakukan oleh Direksi. Evaluasi dilakukan dalam rangka memastikan bahwa Direksi mengelola aktivitas dan risiko-risiko BRI secara efektif. Dalam melakukan pengawasan aktif terhadap manajemen risiko BRI, Dewan Komisaris dibantu oleh Komite Pengawasan Manajemen Risiko (KPMR).

Direksi menentukan arah kebijakan dan strategi manajemen risiko secara komprehensif beserta implementasinya. Selain itu, Direksi memastikan seluruh risiko yang material dan dampaknya telah ditindaklanjuti, serta memastikan pelaksanaan langkah-langkah perbaikan atas permasalahan atau penyimpangan dalam kegiatan usaha BRI. Direksi menunjuk Direktur khusus, dalam hal ini Direktur Manajemen Risiko, untuk menjalankan proses pengawasan dan pengendalian risiko secara *bank-wide*.

### 39. RISK MANAGEMENT

*BRI's business activities are always faced with risks related to its function as a financial intermediary institution. Rapid development in the external and internal environments of banks also leads to increasingly complex business risks. Therefore, in order to be able to adapt in the business environment, BRI is required to manage risks in an integrated and systematic way, namely management of credit risk, liquidity risk, operational risk, market risk, strategic risk, compliance risk, reputation risk, and legal risk.*

*The principles of integrated and systematic risk management by BRI are embedded into several policies and procedures, which is the Risk Management General Policy (KMR). KMR serves as the highest guiding policy for the implementation of risk management procedures in all BRI business operations, starting from general policies, strategies, organization, risk management in information system, process and the implementation of risk management to internal control system. The implementation of risk management differs according to the type of risks involved and is governed by policies which can be derived from other policies.*

*Board of Commissioners (BOC) and Directors are responsible for the effectiveness of risk management at BRI and have an important role in supporting and overseeing the implementation of risk management in all business units.*

*BOC evaluates the risk management policies and implementation carried out by the Directors. The evaluation is carried out in order to ensure that Directors manages BRI's activities and risk effectively. In carrying out its active supervision, BOC is assisted by the Risk Management Oversight Committee (KPMR).*

*Directors sets the strategy, direction and implementation of risk management policy. Moreover, Directors has the responsibility to ensure that all material risks and their impacts have been addressed, and that corrective measures have been taken to remedy the problems and irregularities found in BRI's business activities. Directors appoints Director of Risk Management to implement the process of monitoring and controlling the risks bank-wide.*

**39. MANAJEMEN RISIKO (lanjutan)**

Direksi BRI dibantu oleh *Risk Management Committee* (RMC) individual dan RMC terintegrasi (konsolidasi dengan entitas anak) sebagai komite dalam sistem manajemen risiko BRI yang bertugas memberikan rekomendasi kepada Direktur Utama dalam merumuskan kebijakan, menyempurnakan pelaksanaan kebijakan, mengevaluasi perkembangan dan kondisi profil risiko serta memberikan saran-saran dan langkah-langkah perbaikan.

**Manajemen Risiko Kredit**

Risiko kredit adalah risiko akibat kegagalan debitur dan/atau pihak lain dalam memenuhi kewajiban kepada BRI termasuk kegagalan *settlement*. BRI melakukan identifikasi dan mengukur tingkat risiko calon debitur melalui pengembangan *Internal Risk Rating*. BRI memantau kualitas kredit sebagai bagian dari identifikasi dini dari pemburukan kredit. Pengelolaan risiko kredit dilakukan melalui kebijakan pengelolaan risiko secara komprehensif dan terintegrasi. BRI menyusun kebijakan manajemen risiko kredit diantaranya tata kelola, pengelolaan limit pada batasan eksposur risiko yang dapat diterima, pengelolaan limit pada batasan geografis, dan pengelolaan limit konsentrasi per industri. *Rating* risiko kredit diperbarui secara berkala untuk memperkirakan *potential loss* sebagai risiko akibat ekspansi kredit dan penentuan tindak lanjut perbaikan.

Penerapan manajemen risiko kredit selain bertujuan untuk mematuhi regulasi yang berlaku, juga merupakan suatu keharusan dalam rangka menerapkan sistem pengelolaan risiko kredit pada tingkat *risk and return* yang optimum dan sesuai dengan praktik di perbankan. Penerapan manajemen risiko kredit diharapkan mampu mendorong kegiatan bisnis BRI namun tetap memperhatikan prinsip kehati-hatian.

Melalui penerapan *Early Warning System* (EWS) terhadap perkembangan kondisi usaha debitur, maka pengelolaan risiko kredit yang efektif dapat meminimalkan risiko terjadinya kerugian dan mengoptimalkan penggunaan modal untuk memperoleh pendapatan yang maksimal.

**39. RISK MANAGEMENT (continued)**

Directors are assisted by individual *Risk Management Committee* (RMC) and integrated RMC (consolidated with the subsidiaries) as the committee in BRI's risk management system which are assigned to provide recommendations to the President Director in formulating policies, enhancing policy implementation, and evaluating the development and conditions of risk profiles as well as providing advice for corrective actions.

**Credit Risk Management**

Credit risk is the risk due to failure of the debtor and/or other parties to fulfill obligations to BRI, including settlement failure. BRI identifies and measures the risk level of potential borrowers through the development of an *Internal Risk Rating*. BRI monitors credit quality as part of early identification of credit deterioration. Management Credit risk is carried out through comprehensive and integrated risk management policies. BRI formulates credit Risk Management policies including governance, limit management on acceptable risk exposure limits, limit management on geographic boundaries, and concentration limit management per industry. Credit risk ratings are updated regularly periodically to estimate potential loss as a risk due to credit expansion and determine follow-up improvements.

The application of credit risk management, in addition to aiming to comply with applicable regulations, is also a must in the framework of implementing a credit risk management system at an optimum level of risk and return and in accordance with banking practices. The implementation of credit risk management is expected to be able to encourage BRI's business activities while still paying attention to the principle of precaution.

Through the implementation of *Early Warning System* (EWS) to the debtor's developments of the debtor's business condition, the effective credit risk management can minimize the risk of losses and optimize the use of capital to earn maximum income.

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Kredit (lanjutan)**

Pengelolaan risiko kredit BRI dimaksudkan agar kemungkinan kerugian yang diakibatkan oleh tidak terbayarnya pinjaman yang diberikan dan kontrak keuangan lainnya, baik secara tingkat individual maupun portofolio kredit secara keseluruhan dapat dikelola seminimal mungkin. Pengelolaan risiko kredit ini juga dilakukan BRI dalam upaya memenuhi persyaratan-persyaratan yang telah ditetapkan oleh regulator.

BRI senantiasa melakukan penyempurnaan metodologi penilaian risiko kredit dalam rangka meningkatkan akurasi dalam pengelolaan risiko kredit khususnya dalam proses identifikasi, pengukuran, pemantauan dan pengendalian risiko.

1. Analisa eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya

Nilai tercatat dari aset keuangan bank selain kredit yang diberikan dan efek-efek yang dibeli dengan janji dijual kembali, menggambarkan eksposur maksimum atas risiko kredit.

Tabel di bawah ini menunjukkan *net maximum exposure* atas risiko kredit untuk efek-efek yang dibeli dengan janji dijual kembali pada tanggal-tanggal 31 Desember 2025 dan 31 Desember 2024:

31 Desember 2025/December 31, 2025

	<b>Eksposur Maksimum/ Maximum Exposure</b>	<b>Agunan/ Collateral</b>	<b>Eksposur Net/ Net Exposure</b>	
Efek-efek yang dibeli dengan janji dijual kembali	24.452	25.000	548	Securities purchased under agreement to resell

31 Desember 2024/December 31, 2024

	<b>Eksposur Maksimum/ Maximum Exposure</b>	<b>Agunan/ Collateral</b>	<b>Eksposur Net/ Net Exposure</b>	
Efek-efek yang dibeli dengan janji dijual kembali	16.845.690	17.464.956	619.266	Securities purchased under agreement to resell

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

BRI's credit risk management is intended to minimize the possible losses due to loans default and/or default on other financial contracts, either at the individual level or overall level as credit portfolios. The credit risk management is also carried out by BRI as an effort to fulfill the regulatory requirements.

BRI continues to improve its credit risk assessment methodology in order to improve the accuracy of credit risk management, especially in the process of identifying, measuring, monitoring and controlling risks.

1. Analysis of the maximum exposure to credit risks after considering the value of collaterals and other mitigations of credit risks

The carrying value of BRI's financial assets, other than loans and securities purchased under agreement to resell, depicts the maximum amount of exposure to credit risk.

The tables below show the *net maximum exposure* to credit risk for securities purchased under the under agreement to resell as of December 31, 2025 and December 31, 2024:

unless otherwise stated)**

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Kredit (lanjutan)**

1. Analisa eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya (lanjutan)

Untuk kredit yang diberikan, BRI menggunakan agunan untuk meminimalkan risiko kredit. Berdasarkan klasifikasi, kredit BRI dapat dibedakan menjadi dua kelompok besar, yaitu:

1. *Secured loans*
2. *Unsecured loans*

Untuk *secured loans*, BRI menetapkan jenis dan nilai agunan yang dijamin sesuai skema kredit. Jenis dari agunan terdiri dari:

- a. *Physical collateral*, berupa tanah dan bangunan, Buku Pemilik Kendaraan Bermotor (BPKB) dan properti.
- b. *Financial collateral*, berupa simpanan (tabungan, giro, deposito), surat berharga, dan emas.
- c. Lainnya berupa garansi, jaminan pemerintah dan lembaga penjamin.

Apabila terjadi *default* (gagal bayar), BRI akan menggunakan agunan tersebut sebagai pilihan terakhir untuk pemenuhan kewajiban *counterparty*.

*Unsecured loans* terdiri dari *fully unsecured loans*, seperti kartu kredit, pembiayaan Mekaar dan *partially secured loans* seperti kredit untuk golongan berpenghasilan tetap, kredit untuk para pensiunan dan kredit konsumen lainnya. Dalam pembayaran kewajibannya, *partially secured loans* umumnya dilakukan melalui pemotongan penghasilan secara otomatis.

Dengan demikian, meskipun kredit tersebut termasuk dalam kategori *unsecured loans*, tingkat risiko dari *partially secured loans* tidak sebesar nilai tercatat kredit. Sedangkan untuk *fully unsecured loans*, tingkat risiko adalah sebesar nilai tercatat kredit.

Mitigasi risiko kredit untuk *partially secured loans* terdiri dari surat keputusan pengangkatan pekerja dan surat keterangan pensiun.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

1. *Analysis of the maximum exposure to credit risks after considering the value of collaterals and other mitigations of credit risks (continued)*

*BRI uses collaterals to minimize the credit risks of credits issued. BRI credits or loans can be classified into 2 (two) major categories:*

1. *Secured loans*
2. *Unsecured loans*

*For secured loans, BRI sets the type and collateral value guaranteed according to the credit scheme. The types of collateral consist of:*

- a. *Physical collateral, in the form of land and buildings, Certificate of Vehicles Ownership (BPKB) and properties.*
- b. *Financial collateral, in the form of deposits (time deposits, saving deposits and current accounts), securities and gold.*
- c. *Others, in the form of guarantees, government guarantees and guarantor institutions.*

*In the event of default, however, BRI uses collaterals as the last resort to fulfill counterparty's credit obligations.*

*Unsecured loans are comprised of fully unsecured loans, such as credit cards and Mekaar financing and partially secured loans, such as loans for fixed income employees, loans for retirees, and other consumer loans. The repayment of partially secured loans is generally made through automatic payroll deduction.*

*Thus, although partially secured loans are considered to be unsecured loans, their risk level is lower than their carrying value whereas the risk level of fully unsecured loan is equal to their carrying value.*

*Credit risk mitigation for partially secured loans consist of employee appointment decision letter and certificate of retirement.*

Kualitas kredit didefinisikan sebagai berikut:

1. Tingkat Tinggi

- Giro pada Bank Indonesia, giro pada bank lain, penempatan pada Bank Indonesia dan lembaga keuangan lain, yaitu giro atau penempatan pada institusi Pemerintah dan transaksi dengan bank yang telah terdaftar pada Bursa.
- Kredit yang diberikan, piutang sewa pembiayaan dan pinjaman syariah yaitu pinjaman kepada pihak ketiga yang belum jatuh tempo dan tidak mengalami penurunan nilai, serta tidak pernah direstrukturisasi.

Credit quality is defined as follows:

1. High Grade

- Current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other financial institutions are current accounts or placements in Government institutions and transactions with banks listed in the Stock Exchange.
- Loan, finance lease receivable, and sharia loan, are loans to third parties receivables that are neither past due nor impaired, and have never been restructured.

4. Kualitas aset keuangan (lanjutan)

Kualitas kredit didefinisikan sebagai berikut (lanjutan):

1. Tingkat Tinggi (lanjutan)

- c) Wesel ekspor dan tagihan lainnya serta tagihan akseptasi yaitu tagihan kepada pihak ketiga yang belum jatuh tempo dan memiliki kapasitas finansial yang kuat dalam hal pembayaran kembali seluruh kewajibannya secara tepat waktu.
- d) Efek-efek dan Obligasi Pemerintah, yaitu efek-efek yang dikeluarkan oleh Pemerintah, efek-efek dan obligasi dengan *rating* minimal idA- (Pefindo), A- (Fitch), atau A3 (Moody's).
- e) Penyertaan saham, yaitu penyertaan pada perusahaan yang terdaftar pada Bursa dan memiliki tingkat kinerja keseluruhan yang baik.

2. Tingkat Standar

- a) Giro pada bank Indonesia, giro pada bank lain, penempatan pada Bank Indonesia dan lembaga keuangan lain, yaitu giro atau penempatan pada bank yang tidak terdaftar pada Bursa.
- b) Kredit yang diberikan, pinjaman syariah, dan piutang sewa pembiayaan yaitu pinjaman kepada pihak ketiga yang belum jatuh tempo, dan tidak mengalami penurunan nilai, namun pernah direstrukturisasi.
- c) Wesel ekspor dan tagihan lainnya serta tagihan akseptasi, yaitu tagihan kepada pihak ketiga yang belum jatuh tempo dan memiliki kapasitas finansial yang memadai dalam hal pembayaran kembali seluruh kewajibannya secara tepat waktu.
- d) Efek-efek dan Obligasi Pemerintah, yaitu efek-efek dan obligasi dengan *rating* antara idBBB+ sampai dengan idBBB- (Pefindo), BBB+ sampai dengan BBB- (Fitch), atau Baa1 sampai dengan Baa3 (Moody's).
- e) Penyertaan saham, yaitu penyertaan pada perusahaan yang tidak terdaftar pada Bursa dan memiliki tingkat kinerja keseluruhan yang baik.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit quality is defined as follows (continued):

1. High Grade (continued)

- c) Export bills and other receivables as well as acceptances receivable, are third party receivables that are not past due and have strong financial capacity in terms of repaying all obligations in a timely manner.
- d) Securities and Government bonds are securities issued by Government, investment grade securities and bonds with a rating of at least idA- (Pefindo), A- (Fitch), or A3 (Moody's).
- e) Investment in shares, are investments in entities listed in Stock Exchange which have an overall good performance level.

2. Standard Grade

- a) Current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other financial institutions are current accounts or placements in Government institutions and transactions with banks listed in the Stock Exchange.
- b) Loan, sharia loans, and finance lease receivables pare loans to third parties that are neither past due nor impaired, but have been restructured.
- c) Export bills and other receivables as well as acceptances receivable, are third party receivables that are not past due and have adequate financial capacity in terms of repaying all obligations in a timely manner.
- d) Securities and Government Bonds are securities and bonds with a rating between idBBB+ and idBBB- (Pefindo), BBB+ and BBB- (Fitch), or Baa1 and Baa3 (Moody's).
- e) Investment in shares, are investment in entities which are not listed in stock exchange which have an overall good performance level.

Analisis Kualitas Kredit

Pengukuran Kerugian Kredit Ekspektasian

a. Peningkatan Risiko Kredit Secara Signifikan

Ketika menentukan apakah risiko gagal bayar pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Bank mempertimbangkan informasi yang wajar dan didukung, serta relevan yang tersedia tanpa biaya atau upaya yang berlebihan. Hal tersebut mencakup informasi dan analisa kuantitatif dan kualitatif, berdasarkan pada pengalaman historis dan penilaian pakar kredit dan termasuk perkiraan masa depan (*forward-looking*).

Tujuan dari penilaian ini adalah untuk mengidentifikasi apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi dengan membandingkan:

1. *Probability of default* (PD) atas umur tersisa pada tanggal pelaporan; dengan
2. *Probability of default* (PD) atas umur tersisa yang di estimasi pada saat pengakuan awal eksposur (jika relevan, disesuaikan dengan perubahan ekspektasi pembayaran dimuka).

Ketika menentukan apakah risiko gagal bayar pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Bank mempertimbangkan informasi yang wajar dan didukung, serta relevan yang tersedia tanpa biaya atau upaya yang berlebihan. Hal tersebut mencakup informasi dan analisa kuantitatif dan kualitatif, berdasarkan pada pengalaman historis dan penilaian pakar kredit dan termasuk perkiraan masa depan (*forward-looking*).

Credit Quality Analysis

Measurement of Expected Credit Losses

a. Significant Increase on Credit Risk

*When determining whether the risk of default on financial instruments has increased significantly since initial recognition, the Bank considers reasonable and supportable, relevant information that is available without excessive costs or efforts. This includes quantitative and qualitative information and analysis, based on historical experience and credit expert judgment and including forward-looking estimates.*

*The purpose of this assessment is to identify whether a significant increase in credit risk of exposure has occurred by comparing:*

1. *Probability of default* (PD) for the remaining age at the reporting date; with
2. *Probability of default* (PD) for the estimated remaining age at initial recognition of the exposure (if relevant, adjusted for changes in expectations of prepayment).

*When determining whether the risk of default on financial instruments has increased significantly since initial recognition, the Bank considers reasonable and supportable, relevant information that is available without excessive costs or efforts. This includes quantitative and qualitative information and analysis, based on historical experience and credit expert judgment and including forward-looking estimates.*

4. Kualitas aset keuangan (lanjutan)

Analisis Kualitas Kredit (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian  
(lanjutan)

a. Peningkatan Risiko Kredit Secara  
Signifikan (lanjutan)

Tujuan dari penilaian ini adalah untuk mengidentifikasi apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi dengan membandingkan:

1. *Probability of default* (PD) atas umur tersisa pada tanggal pelaporan; dengan
2. *Probability of default* (PD) atas umur tersisa yang di estimasi pada saat pengakuan awal eksposur (jika relevan, disesuaikan dengan perubahan ekspektasi pembayaran dimuka).

Bank juga menggunakan kriteria berikut dalam menentukan apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi:

1. Pengujian kuantitatif berdasarkan perubahan *probability of default* (PD)
2. Indikator kualitatif
3. Tertunggak lebih dari 30 (tiga puluh) hari

b. *Credit Risk Grades*

Bank mengalokasikan setiap eksposur ke *credit risk grades* berdasarkan variasi data yang ditentukan dapat memprediksi risiko gagal bayar dan menerapkan pengalaman atas kredit. *Credit risk grades* ditetapkan menggunakan faktor kualitatif dan kuantitatif yang dapat mengindikasikan risiko gagal bayar. Faktor-faktor ini bervariasi tergantung pada sifat eksposur dan jenis peminjam.

*Credit risk grades* ditetapkan dan dikalibrasi sedemikian rupa sehingga risiko terjadinya gagal bayar meningkat secara eksponensial seiring dengan penurunan risiko kredit, sebagai contoh, selisih antara *credit risk rating grades* 1 dan 2 lebih kecil dari pada selisih antara *credit risk rating grades* 2 dan 3.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

*Measurement of Expected Credit Losses*  
(continued)

a. *Significant Increase on Credit Risk*  
(continued)

*The purpose of this assessment is to identify whether a significant increase in credit risk of exposure has occurred by comparing:*

1. *Probability of default* (PD) for the remaining age at the reporting date; with
2. *Probability of default* (PD) for the estimated remaining age at initial recognition of the exposure (if relevant, adjusted for changes in expectations of prepayment).

*The Bank also uses the following criteria in determining whether a significant increase in credit risk over exposure has occurred:*

1. *Quantitative testing based on changes in the probability of default* (PD)
2. *Qualitative indicators*
3. *Overdue for 30 days*

b. *Credit Risk Grades*

*The Bank allocates each exposure to credit risk grades based on a variety of data that is determined to predict the risk of default and apply credit experience. Credit risk grades are determined using qualitative and quantitative factors that can indicate the risk of default. These factors vary depending on the nature of the exposure and the type of borrower.*

*Credit risk grades are determined and calibrated in such a way that the risk of default is increasing exponentially as credit risk decreases, for example, the difference between credit risk rating grades 1 and 2 is smaller than the difference between credit rating grades 2 and 3.*

4. Kualitas aset keuangan (lanjutan)

Analisis Kualitas Kredit (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian  
(lanjutan)

b. *Credit Risk Grades* (lanjutan)

Setiap eksposur dialokasikan ke *credit risk grades* pada pengakuan awal berdasarkan informasi yang tersedia tentang peminjam. Eksposur ini dipantau secara berkelanjutan dan dapat mengakibatkan eksposur dipindahkan ke *credit risk grades* yang berbeda. Pemantauan biasanya menggunakan data laporan keuangan, penggunaan fasilitas kredit, dan estimasi kondisi ekonomi.

c. Penentuan Struktur *Probability of Default*

*Credit risk grades* adalah input utama dalam penentuan struktur *PD term structure* atas eksposur. Bank mengumpulkan informasi kinerja dan gagal bayar tentang eksposur risiko kredit yang dianalisa berdasarkan yurisdiksi atau wilayah dan menurut jenis produk dan peminjam serta penilaian risiko kredit. Untuk beberapa portofolio, informasi yang dibeli dari penilai kredit eksternal juga digunakan.

Bank menggunakan model statistik untuk menganalisa data yang dikumpulkan dan menghasilkan perkiraan *probability of default* (PD) atas umur tersisa dan bagaimana hal ini diperkirakan akan berubah sebagai akibat dari berlalunya waktu.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

*Measurement of Expected Credit Losses*  
(continued)

b. *Credit Risk Grades* (continued)

*Each exposure is allocated to credit risk grades at initial recognition based on available information about the borrower. This exposure is monitored on an ongoing basis, and can result in the exposure being transferred to different credit risk grades. The monitoring usually uses the following data: financial statements, use of credit facilities, estimates of economic conditions.*

c. *Determination of Probability of Default Structure*

*Credit risk grades are the main input in determining the PD term structure of the exposure. The Bank collects performance and default information about credit risk exposures, which are analyzed by jurisdiction or region and by product and borrower type and credit risk assessment. For some portfolios, information purchased from external credit assessors is also used.*

*The Bank uses a statistical model to analyze the data collected and produce an estimate of the probability of default (PD) for the remaining life and how this is expected to change as a result of the passage of time.*

4. Kualitas aset keuangan (lanjutan)

Analisis Kualitas Kredit (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian (lanjutan)

d. Penentuan Terjadinya Peningkatan Risiko Kredit Secara Signifikan

Kriteria untuk menentukan apakah risiko kredit telah meningkat secara signifikan bervariasi untuk setiap portofolio dan termasuk perubahan kuantitatif pada PD dan faktor kualitatif, termasuk penentuan berdasarkan status hari tunggakan.

Risiko kredit dari eksposur tertentu dianggap telah meningkat secara signifikan sejak pengakuan awal jika, berdasarkan permodelan kuantitatif Bank, *probability of default* (PD) atas umur tersisa telah meningkat signifikan.

Bank juga dapat menggunakan penilaian dari analisis kredit dan jika mungkin, pengalaman historis yang relevan, dalam menentukan bahwa mungkin eksposur telah mengalami peningkatan risiko kredit yang signifikan berdasarkan indikator kualitatif tertentu yang dianggap dapat mengindikasikan hal tersebut dan pengaruhnya mungkin tidak sepenuhnya tercermin dalam analisis kuantitatif secara tepat waktu.

Bank menentukan bahwa peningkatan risiko kredit secara signifikan belum terjadi apabila masih kurang dari 30 hari tunggakan. Hari tunggakan ditentukan dengan menghitung jumlah hari sejak tanggal jatuh tempo awal dimana pembayaran penuh belum diterima. Tanggal jatuh tempo ditentukan tanpa mempertimbangkan masa tenggang yang mungkin tersedia bagi peminjam.

Bank memantau efektivitas kriteria yang digunakan dalam mengidentifikasi peningkatan risiko kredit yang signifikan dengan cara *reviu berkala*.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

Measurement of Expected Credit Losses (continued)

d. Determination of Significant Increase in Credit Risk

Criteria for determining whether credit risk has increased significantly varies for each portfolio and includes quantitative changes in PD and qualitative factors, including determination based on arrears day status.

Credit risk from certain exposures is considered to have increased significantly since initial recognition if, based on the Bank's quantitative modeling, the probability of default (PD) for the remaining life has increased significantly.

The Bank can also use the judgment of credit analysts and if possible, relevant historical experience, in determining that exposure may have experienced a significant increase in credit risk based on certain qualitative indicators that are considered to indicate this and their effects may not be fully reflected in quantitative analysis in a comprehensive manner on time.

The Bank determines that a significant increase in credit risk has not occurred if it is still less than 30 days in arrears. Arrears days are determined by calculating the number of days from the initial due date where full payment has not been received. The due date is determined without considering the grace period that might be available to the borrower.

The Bank monitors the effectiveness of the criteria used in identifying significant increases in credit risk by periodic review.

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Kredit (lanjutan)**

4. Kualitas aset keuangan (lanjutan)

Analisis Kualitas Kredit (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian (lanjutan)

e. Modifikasi Aset Keuangan

Ketentuan kontraktual pinjaman dapat dimodifikasi untuk beberapa alasan, termasuk perubahan kondisi pasar, retensi pelanggan dan faktor-faktor lain yang tidak terkait dengan penurunan kredit saat pinjaman yang ketentuan kontraktualnya dimodifikasi dapat menyebabkan pinjaman awal dihentikan pengakuannya dan pinjaman hasil modifikasi diakui sebagai pinjaman baru pada nilai wajar.

Ketika ketentuan kontraktual pinjaman dimodifikasi dan tidak mengakibatkan penghentian pengakuan, penentuan terjadinya peningkatan risiko kredit secara signifikan dilakukan dengan cara membandingkan:

- sisa PD sepanjang umur pada tanggal pelaporan berdasarkan ketentuan yang dimodifikasi; dengan
- sisa PD sepanjang umur yang diestimasi berdasarkan data pada saat pengakuan awal dan ketentuan kontraktual awal.

f. Definisi Gagal Bayar (*Default*)

Grup menganggap aset keuangan dalam keadaan *default*/gagal bayar ketika:

- Debitur tidak mungkin membayar kewajiban kreditnya secara penuh tanpa bantuan (*recourse*) dari kelompok usahanya; atau
- Debitur telah melewati jatuh tempo lebih dari 90 (sembilan puluh) hari atas kewajiban kredit material apa pun kepada kelompok usahanya.

Dalam menilai apakah debitur dalam keadaan *default*/gagal bayar, Grup mempertimbangkan indikator berikut:

- Kualitatif-seperti pelanggaran persyaratan perjanjian (*covenants*);
- Kuantitatif-seperti status tunggakan; dan
- Berdasarkan data yang dikembangkan secara internal dan diperoleh dari sumber eksternal.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

Measurement of Expected Credit Losses (continued)

e. Modification of Financial Assets

The contractual terms of the loan can be modified for several reasons, including changes in market conditions, customer retention and other factors not related to the current credit decline. Loan with modified contractual terms can cause the initial loan to be derecognized and the loan as a result of the modification is recognized as a new loan at fair value.

When the contractual terms of the loan are modified and do not result in termination of recognition, determining the occurrence of a significant increase in credit risk is done by comparing:

- Remaining PD for life at reporting date based on modified provisions; with
- Remaining PD throughout the estimated age based on data at initial recognition and initial contractual provisions.

f. Definition of Default

The Group considers financial assets as default when:

- The debtor is unlikely to pay its credit obligations to the full, without recourse from the business group; or
- The debtor has more than 90 (ninety) days past due for any material credit obligations to the business group

In assessing whether a debtor is in default, the Group considers the following indicators:

- Qualitative-such as violations of the terms of the covenants;
- Quantitative-such as arrears status; and
- Based on data developed internally and obtained from external sources

**Manajemen Risiko Kredit (lanjutan)**

4. Kualitas aset keuangan (lanjutan)

Analisis Kualitas Kredit (lanjutan)

Input, Asumsi, dan Teknik yang digunakan dalam mengestimasi penurunan nilai

a. Penggunaan informasi perkiraan masa depan (*forward-looking*)

Bank menggunakan informasi *forward-looking* dalam menilai apakah telah terjadinya peningkatan risiko kredit secara signifikan dan pengukuran kerugian kredit ekspektasian. Berdasarkan saran dari Komite Manajemen Risiko, pakar ekonomi dan pertimbangan berbagai informasi aktual dan perkiraan eksternal, Bank merumuskan pandangan dasar (*base case*) tentang pergerakan variabel ekonomi yang relevan dimasa depan serta perkiraan skenario lain yang mungkin terjadi. Proses ini meliputi pengembangan dua atau lebih skenario ekonomi tambahan dan mempertimbangkan probabilitas relatif dari keluaran (*output*) yang mungkin. Informasi eksternal mencakup data ekonomi dan perkiraan yang diterbitkan oleh, seperti badan pemerintah dan analis sektor swasta dan akademisi terpilih.

Pandangan dasar (*base case*) digunakan dalam perencanaan strategis dan anggaran. Skenario yang lain mencerminkan keluaran yang lebih optimis dan keluaran yang lebih pesimis.

Skenario ekonomi yang dirumuskan menggunakan kisaran indikator utama berikut:

	2025	2026	
Pertumbuhan PDB	dasar 5,04% Kisaran antara 3,90 hingga 5,19% <i>baseline 5.04%</i> <i>Ranges from 3.90 to 5.19%</i>	dasar 5,18% Kisaran antara 4,29 hingga 5,24% <i>baseline 5.18%</i> <i>Ranges from 4.29 to 5.24%</i>	GDP Growth
Tingkat Konsumsi	dasar 4,94% Kisaran antara 3,20 hingga 5,09% <i>baseline 4.94%</i> <i>Ranges from 3.20 to 5.09%</i>	dasar 5,09% Kisaran antara 4,13 hingga 5,19% <i>baseline 5.09%</i> <i>Ranges from 4.13 to 5.19%</i>	Consumption Rate
Tingkat Investasi	dasar 5,76% Kisaran antara 4,51 hingga 5,91% <i>baseline 5.76%</i> <i>Ranges from 4.51 to 5.91%</i>	dasar 4,61% Kisaran antara 3,77 hingga 4,93% <i>baseline 4.61%</i> <i>Ranges from 3.77 to 4.93%</i>	Investment Rate

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

Inputs, Assumptions, and Techniques used in estimating impairment

a. Use of forward-looking information

The Bank uses forward-looking information in assessing whether there has been a significant increase in credit risk and in measuring expected credit losses. Based on suggestions from the Risk Management Committee, economic experts and consideration of various actual and external forecast information, the Bank formulates a base case on the movement of relevant economic variables in the future as well as estimates of other possible scenarios. This process involves developing two or more additional economic scenarios and considering the relative probability of the possible outputs. External information includes economic data and forecasts published by, such as government agencies and selected private sector analysts and academics.

The base case reflects the output with the highest probability and is used in strategic planning and budgeting. The other scenario reflects a more optimistic output and a more pessimistic outcome.

The economic scenario is formulated using the following main indicator ranges:

**PT BANK RAKYAT INDONESIA (PERSERO) Tbk

**Manajemen Risiko Kredit (lanjutan)**

4. Kualitas aset keuangan (lanjutan)

Analisis Kualitas Kredit (lanjutan)

Input, Asumsi, dan Teknik yang digunakan dalam mengestimasi penurunan nilai (lanjutan)

b. Pengukuran Kerugian Kredit Ekspektasian

Input utama dalam pengukuran kerugian kredit ekspektasian adalah variabel berikut:

- *Probability of Default* (PD)
- *Loss of Given Default* (LGD)
- *Exposure at Default* (EAD)

Parameter ini umumnya berasal dari model statistik yang dikembangkan secara internal dan data historis lainnya. Parameter ini disesuaikan untuk mencerminkan informasi *forward-looking*.

Estimasi PD adalah estimasi pada tanggal tertentu, yang dihitung berdasarkan model peringkat statistik dan dinilai menggunakan *rating* yang disesuaikan dengan berbagai kategori dari debitur dan eksposur. Model statistik ini didasarkan pada data yang disusun secara internal yang terdiri dari faktor kuantitatif, kualitatif, dan perkiraan berwawasan ke depan (*forward-looking*).

LGD adalah besarnya kerugian jika terjadi gagal bayar. Parameter LGD diestimasi secara historis berdasarkan tingkat pemulihan atas klaim terhadap debitur yang gagal bayar. LGD juga diamati dengan mempertimbangkan jaminan tunai yang merupakan bagian integral dari aset keuangan terhutang serta biaya yang dikeluarkan dalam proses pemulihan.

EAD merepresentasikan estimasi eksposur jika terjadi gagal bayar. EAD suatu aset keuangan adalah jumlah tercatat bruto. Untuk komitmen pinjaman dan jaminan keuangan, EAD mencakup jumlah yang telah ditarik, serta jumlah potensial di masa depan yang akan ditarik, yang diestimasi berdasarkan pengamatan historis.

**39. RISK MANAGEMENT (continued)**

**Credit Risk Management (continued)**

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

*Inputs, Assumptions, and Techniques used in estimating impairment (continued)*

b. *Measurement of Expected Credit Losses*

*The main inputs in measuring expected credit losses are the following variables:*

- *Probability of Default* (PD)
- *Loss of Given Default* (LGD)
- *Exposure at Default* (EAD)

*These parameters generally come from internally developed statistical models and other historical data. This parameter is adjusted to reflect forward-looking information.*

*PD estimation is an estimate at a specific date, which is calculated based on a statistical ranking model and is assessed using a rating adjusted for various categories of debtors and exposures. This statistical model is based on internally compiled data consisting of quantitative, qualitative factors, and forward-looking information.*

*LGD is the amount of loss in the event of default. The LGD parameter is estimated historically based on the rate of recovery of claims against defaulters. The LGD model takes into account the structure, guarantees, seniority of claims, the debtor's industry, and the cost of recovery of each guarantee that is an integral part of a financial asset.*

*EAD represents the estimated exposure in the event of default. The EAD of a financial asset is the gross carrying amount. For loan commitments and financial guarantees, EAD includes the amount that has been drawn, as well as the potential future amount to be withdrawn, which is estimated based on historical observations.*

4. Quality of financial assets (continued)

Credit Quality Analysis (continued)

Inputs, Assumptions, and Techniques used in estimating impairment (continued)

b. Measurement of Expected Credit Losses (continued)

When parameter modeling is carried out collectively, financial instruments are grouped based on common risk characteristics which include:

- Type of instrument;
- Credit risk rating;
- Collateral type;
- Initial recognition date;
- Remaining time due.

5. Based on SFAS No. 107, past due financial assets are determined when a debtor fails to make payments on schedule. The following table shows the aging analysis of loans, sharia loans, and finance lease receivables that are past due but not impaired.

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Likuiditas**

Risiko likuiditas merupakan risiko akibat ketidakmampuan BRI untuk memenuhi kewajiban jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat diagunkan sehingga tidak mengganggu aktivitas dan kondisi keuangan BRI.

BRI mengelola risiko likuiditas agar dapat memenuhi setiap kewajiban finansial yang sudah diperjanjikan secara tepat waktu, serta dapat memelihara tingkat likuiditas yang memadai dan optimal.

Untuk mendukung pengelolaan likuiditas, BRI menetapkan Surat Edaran Manajemen Risiko Likuiditas yang mencakup tata kelola manajemen risiko likuiditas, limit pengelolaan likuiditas, *liquidity coverage ratio*, *net stable funding ratio*, *early warning indicators*, dan *contingency funding plan*. Pedoman ini bertujuan untuk memastikan kecukupan pengelolaan risiko likuiditas harian dalam memenuhi kewajiban pada kondisi normal maupun kondisi krisis secara tepat waktu dari berbagai sumber dana yang tersedia, termasuk memastikan ketersediaan aset likuid berkualitas tinggi dan penghimpunan DPK yang memiliki struktur yang sehat dan *sustainable*.

BRI juga melakukan simulasi *stress testing* secara triwulanan yang disampaikan kepada Dewan Direksi dan Komisaris BRI melalui *Risk Management Committee* (RMC). Tujuan dari *stress testing* yaitu untuk mengukur ketahanan atau kemampuan untuk memenuhi kebutuhan likuiditas selama kondisi krisis (*stress*). Selain itu, *stress test* juga digunakan sebagai acuan untuk mengembangkan atau meningkatkan rencana pendanaan darurat (*contingency plan*), dan limit risiko likuiditas.

Analisa Aset dan Liabilitas Sesuai Sisa Jatuh Tempo Kontraktual

Potensi risiko likuiditas yang akan dihadapi BRI di masa mendatang diukur melalui *Liquidity Gap Analysis* yang merupakan proyeksi *mismatch* likuiditas atas dasar jatuh tempo aset dan liabilitas, setelah memperhitungkan kebutuhan untuk ekspansi bisnis. Informasi ini menjadi pertimbangan dalam perencanaan dan pengelolaan likuiditas, termasuk juga kebutuhan ekspansi bisnis. Dengan diterapkannya pengelolaan likuiditas yang efektif, diharapkan dapat meminimalkan risiko likuiditas di BRI sekaligus meningkatkan stabilitas sistem perbankan secara keseluruhan.

**39. RISK MANAGEMENT (continued)**

**Liquidity Risk Management**

*Liquidity risk is the risk arising from BRI's inability to meet the maturity obligations of cash flow funding sources and/or of high quality liquid assets that can be mortgaged without disrupting the operations and financial condition of BRI.*

*BRI manages its liquidity risk in order to meet every financial liability that has been agreed upon in a timely manner and to maintain adequate and optimal liquidity level.*

*In order to support liquidity management, BRI establishes a Liquidity Risk Management Circular Letter, which includes liquidity risk management governance, liquidity management limits, liquidity coverage ratios, net stable funding ratios, early warning indicators, and contingency funding plans. The purpose of this policy is to ensure that BRI has sufficient daily liquidity risk management in fulfilling its obligations in normal or crisis conditions in a timely manner from various available sources to ensure the availability of high quality liquid assets, and having a healthy and sustainable structure of deposits from customer.*

*BRI also conducts quarterly stress testing, which is submitted to the Board of Commissioners and Directors through Risk Management Committee (RMC). The purpose of stress testing is to measure the resistance or ability to meet liquidity and capital adequacy during crisis (stress). Moreover, stress test is also used as reference for developing or improving emergency funding plans (contingency plan) and liquidity risk limits.*

*Analysis of Asset and Liability According to Remaining Contractual Maturity*

*Potential liquidity risks that BRI will encounter in the future is measured through Liquidity Gap Analysis which is a projection of liquidity mismatches based on the maturity of assets and liabilities, after taking into account the business expansion needs. This information is also considered when planning and managing liquidity, including business expansion needs. With the implementation of effective liquidity risk management, it is expected that liquidity risks can be minimized while simultaneously enhancing the overall banking system's stability.*

and for the Year  
Then Ended  
(Expressed in millions of Rupiah,  
unless otherwise stated)**

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Pasar**

Risiko pasar timbul karena pergerakan faktor pasar yang meliputi suku bunga dan nilai tukar yang berlawanan dengan posisi yang dimiliki BRI, baik posisi yang ada di laporan posisi keuangan maupun rekening administratif. Posisi tersebut merupakan posisi yang ada dalam *trading book* dan *banking book*.

BRI telah mengimplementasikan sistem aplikasi *treasury* dan risiko pasar yang merupakan suatu sistem yang terintegrasi, yang digunakan oleh fungsi *front office*, *middle office* dan *back office*. *Middle Office* dapat melakukan pengukuran risiko pasar menggunakan model internal (*Value-at-Risk*) yang terintegrasi dengan proses transaksi harian. Selain melakukan *monitoring* eksposur risiko instrumen, *Middle Office* juga melakukan *monitoring limit* risiko pasar.

**1. Value-at-Risk (VaR): Tujuan Penggunaan Metode dan Keterbatasannya**

BRI menggunakan pendekatan model internal untuk mengukur potensi kerugian VaR akibat perubahan harga pasar dari portofolio *trading* berdasarkan pada data historis. Potensi kerugian VaR dari risiko pasar diukur dengan menggunakan asumsi perubahan faktor risiko mengikuti pola distribusi normal. BRI menggunakan VaR untuk menghitung risiko nilai tukar untuk posisi *trading* dan *banking book* serta menghitung risiko suku bunga untuk posisi *trading book*.

**2. Asumsi Value-at-Risk (VaR)**

Potensi kerugian VaR dihitung berdasarkan nilai estimasi dengan menggunakan tingkat kepercayaan (*confidence level*) di 99% dan posisi risiko pasar yang tidak berubah dalam 1 (satu) hari (*holding period*). Hal ini menunjukkan potensi kerugian yang dapat melebihi nilai VaR dalam kondisi pasar normal, rata-rata dapat terjadi satu kali dalam seratus hari. Metode yang digunakan dalam pengukuran VaR adalah metode *Historical VaR*.

**39. RISK MANAGEMENT (continued)**

**Market Risk Management**

*Market risk arises because of the movement of market factors which include interest rates and exchange rates that are against BRI's positions, both positions in the statements of financial position or in the administrative accounts. These positions are those which exist in trading book and banking book.*

*BRI has implemented treasury and market risk application system, an integrated system used by the front, middle, and back office functions. Middle offices can measure market risk using an internal model (Value-at-Risk) that is integrated with the daily transaction process. Other than monitoring the instruments risk exposures, middle offices also monitor market risk limit.*

**1. Value-at-Risk (VaR): Purpose and Limitation of the Method**

*BRI uses an internal model approach to measure VaR potential loss due to changes in market price of trading portfolio based on historical data. VaR potential loss that arise from market risk is measured using the assumptions that the change in risk factors follow normal distribution. BRI uses VaR to measure exchange rate risk for trading and banking book positions and interest rate risk for trading book positions.*

**2. Value-at-Risk (VaR) Assumption**

*VaR potential loss is calculated based on the estimated value using 99% confidence level and market risk position that is unchanged within 1 (one) day holding period. This is an indicator that the potential loss which might exceed VaR value in normal market condition, on average, may occur once every one hundred days. The method used in measuring VaR is the VaR historical method.*

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Pasar (lanjutan)**

**2. Asumsi Value-at-Risk (VaR) (lanjutan)**

Tabel di bawah ini menyajikan informasi mengenai nilai VaR dari 1 Januari 2025 sampai dengan 31 Desember 2025 dan 1 Januari 2024 sampai dengan 31 Desember 2024:

	31 Desember 2025/December 31, 2025		
	Nilai Tukar <sup>*)</sup> Exchange Rate <sup>*)</sup>	Suku bunga/ Interest rate	
Rata-rata Harian	57.870,08	116.213,71	Daily Average
Tertinggi	140.822,10	183.783,00	Highest
Terendah	17.267,69	32.460,08	Lowest
	31 Desember 2024/December 31, 2024		
	Nilai Tukar <sup>*)</sup> Exchange Rate <sup>*)</sup>	Suku bunga/ Interest rate	
Rata-rata Harian	44.275,19	206.447,35	Daily Average
Tertinggi	119.238,80	351.333,00	Highest
Terendah	13.911,20	49.714,00	Lowest

<sup>\*)</sup> Termasuk trading dan banking book.

<sup>\*)</sup> Include trading and banking book.

**3. Back Testing**

Tujuan dilaksanakannya *back testing* yaitu untuk memastikan bahwa hasil perhitungan internal model untuk risiko suku bunga dan risiko nilai tukar telah sesuai. Ketika melakukan *back testing*, BRI membandingkan antara estimasi VaR harian dengan realisasi perubahan harga.

Berdasarkan prosedur *back testing* untuk risiko nilai tukar dan risiko tingkat suku bunga, hasil kerugian sebenarnya sepanjang tahun telah sesuai secara signifikan dengan VaR forecast model.

**4. Risiko Pasar di luar Trading Book**

**a. Risiko Tingkat Suku Bunga**

Instrumen keuangan yang berbasis suku bunga memiliki risiko karena terdapat potensi perubahan suku bunga yang akan berdampak pada arus kas di masa depan.

**39. RISK MANAGEMENT (continued)**

**Market Risk Management (continued)**

**2. Value-at-Risk (VaR) Assumption (continued)**

The following tables represent information on VaR value starting from January 1, 2025 until December 31, 2025 and January 1, 2024 until December 31, 2024:

**3. Back Testing**

The purpose of implementing *back testing* is to ensure that the result of internal model calculation for interest rate risk and exchange rate risk is appropriate. When performing *back testing*, BRI compares estimations between daily VaR with actual change of price.

Based on the *back testing* procedures for exchange rate risk and interest rate risk, the actual loss throughout the year is significantly consistent with VaR forecast model.

**4. Market Risk Outside of Trading Book**

**a. Interest Rate Risk**

Interest rate-based financial instruments have risks because there is a potential for interest rate changes that will have an impact on cash flow in the future.

**39. MANAJEMEN RISIKO (lanjutan)**

**Manajemen Risiko Pasar (lanjutan)**

**4. Risiko Pasar di luar *Trading Book* (lanjutan)**

**a. Risiko Tingkat Suku Bunga (lanjutan)**

BRI telah mengembangkan metodologi pengukuran dampak pengaruh pergerakan suku bunga dalam *banking book* melalui *Interest Rate Risk in The Banking Book* sesuai SEOJK No. 12/SEOJK.03/2018 tanggal 21 Agustus 2018. Posisi Desember 2025, secara individu BRI mempunyai nilai delta *EVE (Economic Value of Equity)* sebesar 7,86% (perbandingan terhadap modal *Tier 1*). Delta *EVE* BRI di bawah RAS BRI (8,31%) dan di bawah batas regulator (15,00%).

Direksi bertanggung jawab dalam menetapkan, mengelola, serta mengendalikan tingkat suku bunga dengan menimbang *risk appetite* bank dan target pencapaian kinerja keuangan. *Review* atas penetapan suku bunga dilakukan minimal satu kali dalam satu bulan dalam forum *Asset and Liability Committee (ALCO)*.

Tabel di bawah ini menyajikan informasi mengenai tingkat suku bunga rata-rata untuk posisi aset dan liabilitas keuangan pada tanggal 31 Desember 2025 dan 2024:

	Rupiah/Rupiah (%)		
	31 Desember 2025/ December 31, 2025	31 Desember 2024/ December 31, 2024	
<u>Aset</u>			<u>Assets</u>
Penempatan pada Bank Indonesia dan lembaga keuangan lain	5,38	3,34	Placement with Bank Indonesia and other financial institutions

**39. RISK MANAGEMENT (continued)**

**Market Risk Management (continued)**

**4. Market Risk Outside of Trading Book (continued)**

**a. Interest Rate Risk (continued)**

BRI has developed a methodology to measure the impact of interest rate movements in the *banking book* through *Interest Rate Risk in The Banking Book* in accordance with SEOJK No. 12/SEOJK.03/2018 dated August 21, 2018. As of December 2025, individually BRI has a delta *EVE (Economic Value of Equity)* amounting to 7.86% (comparison to *Tier 1* capital). The BRI *EVE* Delta is below the BRI RAS (8.31%) and below the regulator's limit (15.00%).

Board of Directors and Management are responsible for determining, managing and controlling interest rate by weighing the Bank's *risk appetite* and financial performance target. The review of interest rate determination is conducted at least once in a month in the *Asset and Liability Committee (ALCO)* forum.

The following table presents information regarding the average interest rates for financial assets and liabilities position as of December 31, 2025 and 2024:

NOTES TO THE CONSOLIDATED  
FINANCIAL STATEMENTS  
As of December 31, 2025  
and for the Year  
Then Ended  
(Expressed in millions of Rupiah,  
unless otherwise stated)**

**40. NILAI WAJAR ASET DAN LIABILITAS  
KEUANGAN (lanjutan)**

Metode dan asumsi yang digunakan untuk perkiraan nilai wajar adalah sebagai berikut:

- a) Nilai wajar aset dan liabilitas keuangan tertentu, kecuali efek-efek yang diukur melalui biaya perolehan diamortisasi, kredit yang diberikan, pinjaman syariah, piutang sewa pembiayaan, surat berharga yang diterbitkan serta pinjaman dan surat berharga subordinasi, mendekati nilai tercatatnya karena mempunyai jangka waktu jatuh tempo yang singkat.

Estimasi nilai wajar terhadap aset keuangan tertentu ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga pasar uang yang berlaku untuk utang dengan risiko kredit dan sisa jatuh tempo yang serupa.

Estimasi nilai wajar terhadap liabilitas keuangan tertentu yang tidak memiliki kuotasi di pasar aktif ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga utang baru dengan sisa jatuh tempo yang serupa.

- b) Efek-efek

Nilai wajar untuk efek-efek yang diukur melalui biaya perolehan diamortisasi ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*)/pedagang efek (*dealer*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi efek yang memiliki karakteristik kredit, jatuh tempo dan *yield* yang serupa.

- c) Kredit yang diberikan dan Pinjaman syariah

Portofolio kredit BRI secara umum terdiri dari kredit yang diberikan dengan suku bunga mengambang dan suku bunga tetap. Kredit yang diberikan dinyatakan berdasarkan jumlah nilai tercatat. Nilai wajar dari kredit yang diberikan menunjukkan nilai diskon dari perkiraan arus kas masa depan yang diharapkan akan diterima oleh BRI. Perkiraan arus kas ini didiskontokan dengan menggunakan suku bunga pasar untuk menentukan nilai wajar.

Portofolio pinjaman syariah secara umum memiliki tingkat margin mengambang dan pinjaman syariah yang diberikan dengan jangka pendek dengan tingkat margin tetap.

**40. FAIR VALUE OF FINANCIAL ASSETS AND  
LIABILITIES (continued)**

Methods and assumptions used to estimate fair value are as follows:

- a) The fair values of certain financial assets and liabilities, except for securities are classified as amortized cost, loans, sharia loans, finance lease receivables, marketable securities issued and subordinated loans and marketable securities approximate their carrying values due to their short-term maturities.

The estimated fair values of certain financial assets are determined based on discounted cash flows using money market interest rates for debts with similar credit risk and remaining maturities.

The estimates of the fair value of certain financial liabilities which are not quoted in an active market are determined based on discounted cash flows using interest rates of a new debt with similar remaining maturities.

- b) Securities

The fair values of securities classified as amortized cost are determined based on market prices or quoted price of intermediary (*broker*)/securities traders (*dealers*). If the information is not available, the fair values are estimated by using quoted market price of securities with similar credit characteristics, maturities and yields.

- c) Loans and sharia loans

BRI's loan portfolio generally consists of loans with floating and fixed interest rates. Loans are stated at the carrying amount. The fair value of loans represents the discounted value of estimated future cash flows expected to be received by BRI. The estimated future cash flow is discounted using market interest rate to determine the fair value.

Sharia loans portfolio generally has a floating margin and short-term sharia loans has a fixed margin.

**40. NILAI WAJAR ASET DAN LIABILITAS  
KEUANGAN (lanjutan)**

Metode dan asumsi yang digunakan untuk perkiraan nilai wajar adalah sebagai berikut (lanjutan):

d) Piutang sewa pembiayaan

Nilai wajar dihitung berdasarkan model diskonto arus kas dengan menggunakan tingkat suku bunga pasar untuk sisa periode jatuh tempo.

e) Tagihan dan liabilitas derivatif

Nilai wajar atas instrumen derivatif yang dinilai menggunakan teknik penilaian dengan menggunakan komponen yang dapat diamati di pasar terutama adalah *swap* suku bunga, *swap* mata uang dan kontrak pertukaran mata uang. Teknik penilaian yang paling banyak digunakan meliputi model penilaian *forward* dan *swap* yang menggunakan perhitungan nilai kini. Model tersebut menggabungkan berbagai komponen yang meliputi kualitas kredit dari *counterparty*, nilai *spot* dan kontrak berjangka serta kurva tingkat suku bunga.

f) Pinjaman yang diterima, surat berharga yang diterbitkan dan pinjaman dan surat berharga subordinasi

Nilai wajar dihitung berdasarkan model diskonto arus kas dengan menggunakan tingkat suku bunga pasar untuk sisa periode jatuh tempo.

Tabel di bawah ini menyajikan instrumen keuangan yang diakui pada nilai wajar berdasarkan hierarki yang digunakan BRI dan entitas anaknya untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan (Catatan 2c):

**40. FAIR VALUE OF FINANCIAL ASSETS AND  
LIABILITIES (continued)**

Methods and assumptions used to estimate fair value are as follows (continued):

d) Finance lease receivables

The fair values are calculated based on the discounted cash flow models using market rates for the remaining maturity period.

e) Derivative receivables and payables

The fair values of derivatives instrument are assessed using valuation techniques that use components which can be observed in the market, which include primarily interest rate swaps, currency swaps and currency exchange contracts. The most widely used valuation techniques include forward and swap valuation models using present value calculation. The models incorporate various components which include the credit quality of the counterparty, spot value and future contracts as well as interest rate curve.

f) Fund borrowings, marketable securities issued and subordinated loans and marketable securities

The fair values are calculated based on the discounted cash flow models using market rates for the remaining maturity period.

The following tables present financial instruments recognized at fair value based on the hierarchy used by BRI and its subsidiaries to determine and disclose the fair value of financial instruments (Note 2c):

a. Program Pensiun Imbalan Pasti

Efektif tanggal 1 Januari 2007, semua pekerja yang baru diangkat sebagai pekerja tetap tidak diikutsertakan dalam program ini dan hak atas manfaat pensiun diberikan berdasarkan persyaratan yang ditetapkan dalam peraturan dengan memperhatikan faktor penghargaan per tahun masa kerja dan penghasilan dana pensiun. Program dana pensiun BRI dikelola oleh Dana Pensiun BRI (DPBRI). Sesuai ketentuan yang diatur dalam Surat Keputusan Direksi BRI, kontribusi pekerja BRI untuk iuran pensiun adalah sebesar 7% dari penghasilan dasar pensiun pekerja dan atas sisa jumlah yang perlu didanakan kepada DPBRI merupakan kontribusi BRI, dimana kontribusi BRI sejak tanggal 1 Agustus 2024 adalah sebesar 44,68% dari penghasilan dasar pensiun.

a. Defined Benefit Pension Plan

Effective on January 1, 2007, all newly appointed permanent employees are not included in this program and the right for pension benefits is given based on the established requirements stated in the regulations by considering the annual gratuity factor over the working period and income on the pension fund. BRI's pension plan is managed by Dana Pensiun BRI (DPBRI). According to the provisions stipulated in BRI Board of Directors' Decree, BRI employee's contribution for pension contribution amounted to 7% of the employee's pension-based salary and for the remaining amount required to be funded by DPBRI represents the contribution by BRI, which is the BRI's contribution is amounted to 44.68% of pension-based salary since August 1, 2024.

a. Program Pensiun Imbalan Pasti (lanjutan)

Beban pensiun imbalan pasti untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024 berdasarkan perhitungan aktuaris adalah sebagai berikut:

	Tahun yang berakhir pada tanggal 31 Desember/ Year ended December 31,	
	2025	2024
Biaya jasa kini	352.262	416.747
Iuran peserta program	(51.536)	(54.972)
Beban bunga - neto	61.010	145.518
Biaya jasa lalu	-	1.301
<b>(Pendapatan)/beban pensiun imbalan pasti (Catatan 35)</b>	<b>361.736</b>	<b>508.594</b>

b. Program Tunjangan Hari Tua

Pekerja BRI juga memperoleh manfaat dari pemberian Tunjangan Hari Tua (THT) sesuai ketentuan yang diatur dalam Surat Keputusan Direksi BRI. Program THT dikelola oleh Yayasan Kesejahteraan Pekerja BRI.

Iuran THT terdiri dari iuran beban pekerja dan iuran beban BRI sesuai ketentuan yang diatur dalam Surat Keputusan Direksi BRI.

Berdasarkan perhitungan penilaian aktuaris atas THT masing-masing pada tanggal 31 Desember 2025 dan 2024 telah sesuai dengan PSAK No. 219 dengan menggunakan metode *Projected Unit Credit* serta mempertimbangkan asumsi-asumsi sebagai berikut:

	31 Desember 2025/ December 31, 2025	31 Desember 2024/ December 31, 2024
Tingkat diskonto	6,61%	7,10%
Tingkat kenaikan penghasilan	6,50	7,50
Tingkat kematian	TMI IV 2019	TMI IV 2019
Tingkat cacat jasmaniah	10,00% dari TMI/ from TMI 2019	10,00% dari TMI/ from TMI 2019

**42. EMPLOYEES PROGRAM (continued)**

a. Defined Benefit Pension Plan (continued)

Pension benefit expense calculation for the years ended December 31, 2025 and 2024, respectively, in accordance with the actuarial calculation is as follows:

Current service cost
Contributions paid - participants
Interest expense - net
Past service cost
<b>Defined benefit pension (income)/ expense (Note 35)</b>

b. Retirement Benefits Plan

BRI's employees are also given retirement benefits (THT) in accordance with the provisions stipulated in the Decree of the Board of Directors of BRI. BRI's retirement benefits plan is managed by BRI Employee Welfare Foundation.

Retirement benefits contributions consist of contributions from the employees and BRI in accordance with the provisions stipulated in the Decree of BRI's Board of Directors.

Based on the actuarial calculation of BRI's retirement benefits as of December 31, 2025 and 2024 it was prepared in accordance with SFAS No. 219 using the *Projected Unit Credit* method and considering the following assumptions:

Discount Rate
Salary growth rate
Mortality Rate
Disability Rate

**42. PROGRAM BAGI PEKERJA (lanjutan)**

**b. Program Tunjangan Hari Tua (lanjutan)**

Perhitungan beban THT untuk tahun yang Berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024 sesuai dengan perhitungan aktuaris adalah sebagai berikut:

	Tahun yang berakhir pada tanggal 31 Desember/ Year ended December 31,	
	2025	2024
Biaya jasa kini	284.430	336.505
Iuran peserta program	(80.216)	(58.916)
Beban bunga - neto	(8.817)	(7.838)
<b>Beban THT (Catatan 35)</b>	<b>195.397</b>	<b>269.751</b>

Pada tanggal-tanggal 31 Desember 2025 dan 2024, BRI tidak mengakui adanya THT dibayar di muka dan manfaat THT karena manajemen BRI tidak memiliki keuntungan (*benefit*) atas aset tersebut dan BRI tidak memiliki rencana untuk mengurangi kontribusinya di masa depan.

**c. Program Pensiun Iuran Pasti**

**(i) BRI (entitas induk)**

Pekerja BRI juga diikutsertakan dalam program pensiun iuran pasti sesuai dengan Keputusan Direksi BRI yang berlaku efektif sejak bulan Oktober 2000. Kontribusi BRI pada program ini yang dilaporkan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian sebesar Rp613.724 dan Rp562.978 masing-masing untuk tahun yang berakhir tanggal 31 Desember 2025 dan 2024 (Catatan 35). Pengelolaan program pensiun iuran pasti dilakukan oleh DPBRI.

**42. EMPLOYEES PROGRAM (continued)**

**b. Retirement Benefits Plan (continued)**

Retirement benefits expense calculation For the years Ended as December 31, 2025 and 2024 respectively, in accordance with the actuarial calculation is as follows:

Current service cost
Contributions paid - participants
Interest expense - net
<b>Retirement benefits expense</b>

As of December 31, 2025 and 2024, BRI does not recognize the existence of prepaid of retirement benefits plan and benefits of retirement benefits plan because management of BRI does not have the benefit over the assets and BRI has no plans to reduce its contribution in the future.

**c. Defined Contribution Pension Plan**

**(i) BRI (parent entity)**

The employees of BRI are also included in the defined contribution pension plan in accordance with BRI Board of Directors' decree which was effective since October 2000. BRI's contributions to this plan which are reported in the consolidated statement of profit or loss and other comprehensive income amounted to Rp613,724 and Rp562,978 for the years ended December 31, 2025 and 2024 respectively (Note 35). Defined contribution pension plan is managed by DPBRI.

**45. PERJANJIAN, KOMITMEN DAN KONTINJENSI  
SIGNIFIKAN**

a. Perjanjian Signifikan

Pada tanggal 3 Mei 2021, BRI mengadakan perjanjian dengan PT SAP Indonesia sehubungan dengan pengadaan *software* BRIFIRST untuk jangka waktu 31 (tiga puluh satu) bulan dengan nilai kontrak senilai Rp280.000.

Pada tanggal 4 November 2021, BRI mengadakan perjanjian dengan PT Info Solusindo Data Utama sehubungan dengan pengadaan infrastruktur BRIFIRST untuk jangka waktu 36 (tiga puluh enam) bulan dengan nilai kontrak senilai Rp164.500.

Pada tanggal 23 Juli 2021, BRI mengadakan perjanjian dengan PT Deloitte Consulting sehubungan dengan pengadaan konsultan *system integrator* fase implementasi *non product* untuk jangka waktu 20 (dua puluh) bulan dengan nilai kontrak senilai Rp150.000.

Pada tanggal 21 Februari 2022, BRI mengadakan perjanjian dengan PT Deloitte Consulting sehubungan dengan pengadaan konsultan *system integrator* fase implementasi *product* untuk jangka waktu 20 (dua puluh) bulan dengan nilai kontrak senilai Rp348.500.

Pada tanggal 12 Agustus 2024, BRI mengadakan perjanjian dengan PT SAP Indonesia sehubungan dengan pengadaan lisensi sistem dan support SAP untuk jangka waktu 12 (dua belas) bulan dengan nilai kontrak senilai Rp40.776. Bank telah melakukan pembukuan sebagai aset tetap sebesar nilai kontrak yang sama. Perikatan antara Bank BRI dengan pihak terkait telah mengikuti syarat dan ketentuan yang telah disepakati bersama.

Pada tanggal 14 Maret 2025, BRI mengadakan perjanjian dengan PT Satkomindo Mediyasa, sehubungan dengan Pengadaan Perpanjangan Sewa Layanan Jaringan Komunikasi MPLS Provider Satkom untuk Unit Kerja BRI Tahun 2025-2026 untuk jangka waktu 24 (dua puluh empat) bulan dengan nilai kontrak senilai Rp143.956.

**45. SIGNIFICANT AGREEMENTS, COMMITMENTS  
AND CONTINGENCIES**

a. Significant Agreements

*On May 3, 2021, BRI entered into an agreement with PT SAP Indonesia regarding the procurement of BRIFIRST software for a period of 31 (thirty one) months with a contract value of Rp280,000.*

*On November 4, 2021, BRI entered into an agreement with PT Info Solusindo Data Utama regarding the procurement of BRIFIRST infrastructure for a period of 36 (thirty six) months with a contract value of Rp164,500.*

*On July 23, 2021, BRI entered into an agreement with PT Deloitte Consulting regarding the procurement of a system integrator consultant for the non-product implementation phase for a period of 20 (twenty) months with a contract value of Rp150,000.*

*On February 21, 2022, BRI entered into an agreement with PT Deloitte Consulting regarding the procurement of a system integrator consultant for the product implementation phase for a period of 20 (twenty) months with a contract value of Rp348,500.*

*On August 12, 2024, BRI entered into an agreement with PT SAP Indonesia regarding the procurement of SAP system licenses and support for a period of 12 (twelve) months with a contract value of Rp40,776. The bank has recorded it as a fixed asset at the same contract value. The engagement between BRI Bank and related parties follows the terms and conditions that have been mutually agreed upon.*

*On March 14, 2025, BRI entered into an agreement with PT Satkomindo Mediyasa, regarding the Procurement of MPLS Communication Network Service Lease Extension from Satkom Provider for BRI Work Units for the year 2025-2026 for a period of 24 (twenty-four) months with a contract value of Rp143,956.*

**45. PERJANJIAN, KOMITMEN DAN KONTINJENSI  
SIGNIFIKAN (lanjutan)**

b. Liabilitas Kontinjensi

Dalam melakukan usahanya, BRI menghadapi berbagai perkara hukum dan tuntutan, dimana BRI sebagai tergugat, terutama sehubungan dengan kepatuhan dengan kontrak. Walaupun belum ada kepastian yang jelas, BRI berpendapat bahwa berdasarkan informasi yang ada dan keputusan terakhir dari perkara bahwa tuntutan hukum ini tidak akan berdampak secara material pada operasi, posisi keuangan atau tingkat likuiditas BRI.

Pada tanggal-tanggal 31 Desember 2025 dan 2024, BRI telah membentuk cadangan (disajikan dalam akun "Liabilitas lain-lain") untuk sejumlah tuntutan hukum yang belum diputuskan masing-masing sebesar Rp1.120.521 dan Rp676.572 (Catatan 28). Manajemen berpendapat bahwa jumlah cadangan yang dibentuk atas kemungkinan timbulnya kerugian akibat tuntutan hukum yang belum diputuskan atau masih dalam proses tersebut telah memadai.

**46. JAMINAN PEMERINTAH TERHADAP  
KEWAJIBAN PEMBAYARAN BANK UMUM**

Berdasarkan Undang-undang No. 24 Tahun 2004 tanggal 22 September 2004 tentang "Lembaga Penjamin Simpanan" yang terakhir kali diubah dengan UU No. 4 Tahun 2023 tentang Pengembangan dan Penguatan Sektor Keuangan ("UU P2SK"), Pemerintah telah membentuk lembaga independen yaitu Lembaga Penjamin Simpanan (LPS) yang menjamin dana masyarakat termasuk dana dari bank lain dalam bentuk giro, deposito, sertifikat deposito, tabungan dan atau bentuk lainnya yang dipersamakan dengan itu.

Berdasarkan Peraturan Pemerintah No. 66 Tahun 2008 tanggal 13 Oktober 2008 tentang "Besaran Nilai Simpanan yang Dijamin Lembaga Penjamin Simpanan" yang disempurnakan melalui PLPS No. 1 Tahun 2023 tentang Program Penjaminan Simpanan, bahwa saldo yang dijamin untuk setiap nasabah pada satu Bank adalah paling tinggi Rp2.000.000.000 (nilai penuh).

Suku bunga penjaminan LPS pada tanggal 31 Desember 2025 dan 2024 masing-masing adalah sebesar 3,50% dan 4,25% untuk simpanan dalam mata uang Rupiah. Untuk simpanan dalam mata uang asing pada tanggal 31 Desember 2025 dan 2024 masing-masing adalah sebesar 2,00% dan 2,25%.

**45. SIGNIFICANT AGREEMENTS, COMMITMENTS  
AND CONTINGENCIES (continued)**

b. Contingent Liabilities

In conducting its business, BRI faces various legal cases and lawsuit, in which BRI is the defendant, mainly regarding the compliance with contracts. Although there is no clear certainty, BRI believes that based on existing information and the ultimate resolution of these cases, these legal cases and lawsuits will not likely have a material effect on the operations, financial position or liquidity level of BRI.

As of December 31, 2025 and 2024, BRI has provided an allowance (presented in "Other Liabilities" account) for several pending lawsuits filed against BRI amounting Rp1,120,521 and Rp676,572, respectively (Note 28). Management believes that the amount of reserves established for the potential losses arising from legal claims that have not yet been resolved or are still in process is adequate.

**46. GOVERNMENT GUARANTEE ON OBLIGATIONS  
OF COMMERCIAL BANKS**

Based on Law No. 24 of 2004 dated September 22, 2004 regarding the "Deposit Insurance Corporation" which was last amended by Law No. 4 of 2023 regarding the Development and Strengthening of the Financial Sector ("P2SK Law"), the Government has established an independent institution, namely the Deposit Insurance Corporation (LPS), in order to provide guarantees on public funds including funds from other banks in the form of demand deposits, time deposits, deposit certificates, saving deposits and/or other similar forms.

Based on Government Regulation No. 66 Year 2008, dated October 13, 2008 regarding "The Amount of Deposit Value Guaranteed by the Deposit Insurance Corporation" amended through PLPS No. 1 Year 2023 regarding the Deposit Insurance Program, which stated the guaranteed balance for each customer in each bank is at most Rp2,000,000,000 (full amount).

LPS guarantee interest rate as of December 31, 2025 and 2024 were 3.50% and 4.25%, respectively, for deposits in Rupiah. For deposits in foreign currency as of December 31, 2025 and 2024 were 2.00% and 2.25%, respectively.

**47. PERNYATAAN STANDAR AKUNTANSI  
KEUANGAN (PSAK) YANG DIKELUARKAN DAN  
DIREVISI**

Berikut adalah ikhtisar PSAK yang telah diterbitkan oleh Dewan Standar Akuntansi Keuangan (DSAK) - IAI yang relevan untuk BRI dan entitas anak, namun belum berlaku efektif untuk laporan keuangan konsolidasian pada tanggal 31 Desember 2025:

**Efektif berlaku pada atau setelah tanggal  
1 Januari 2026:**

- a. Amendemen PSAK No. 109 "Instrumen Keuangan" dan PSAK No. 107 "Instrumen Keuangan: Pengungkapan tentang Klasifikasi dan Pengukuran Instrumen Keuangan"

Amendemen ini menambahkan dan mengklarifikasi ketentuan dalam PSAK No. 109 terkait penghentian pengakuan liabilitas keuangan, serta mengklarifikasi penilaian karakteristik arus kas untuk aset keuangan dengan fitur *ESG-linked*, aset keuangan dengan fitur *non-recourse*, dan instrumen yang terikat secara kontraktual seperti *tranche*. Amendemen ini juga mengubah ketentuan dalam PSAK No. 107 terkait persyaratan pengungkapan investasi pada instrumen ekuitas yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan menambah ketentuan terkait instrumen keuangan dengan persyaratan kontraktual yang mengubah waktu atau jumlah arus kas kontraktual.

- b. SAK No. 338 (Revisi 2025): Kombinasi Bisnis Entitas Sepengendali

Revisi ini mencakup ruang lingkup dan penerapan dari metode penyatuan kepemilikan (*pooling of interest*) dan pelepasan di ekuitas (*disposal in equity*) sebagai konsep akuntansi yang digunakan dalam PSAK No. 338.

Perubahan utama dalam revisi ini mencakup pengecualian entitas investasi dari ruang lingkup PSAK No. 338, serta tambahan definisi bisnis alihan, entitas penerima, dan entitas pengalih. Revisi ini juga mencakup rujukan jumlah tercatat bisnis alihan dan penyajian informasi prakombinasi bisnis ketika terjadi ketidakpraktisan dalam penerapan metode penyatuan kepemilikan.

**47. ISSUED AND REVISED STATEMENTS OF  
FINANCIAL ACCOUNTING STANDARDS (SFAS)**

The following summarizes the SFAS which were issued by the Financial Accounting Standards Board (FASB) – IAI and are relevant to BRI and Subsidiaries, but not yet effective for the consolidated financial statements as of December 31, 2025:

**Effective on or after January 1, 2026:**

- a. Amendment to SFAS No. 109 "Financial Instruments" and SFAS No. 107 "Financial Instruments: Disclosures about the Classification and Measurement of Financial Instruments"

These amendments adding and clarify statement in SFAS No. 109 regarding derecognition of financial liabilities, as well as clarify the assessment of cash flow characteristics for financial assets with ESG-linked features, financial assets with non-recourse features, and contractually bound instruments such as tranches. The amendments also revise the statement in SFAS No. 107 regarding the disclosure requirements for investments in equity instruments measured at fair value through other comprehensive income and adding statement related to financial instruments with contractual terms that alter the timing or amount of contractual cash flows."

- b. SFAS No. 338 (Revised 2025): Business Combinations of Entities Under Common Control

This revision encompasses the scope and application of the pooling of interests method and disposal in equity as accounting concepts utilized in SFAS No.338.

Key amendments in this revision include the exclusion of investment entities from the scope of SFAS No.338, as well as the addition of definitions for transferred business, receiving entity, and transferring entity. This revision also addresses references to the carrying amount of the transferred business and the presentation of pre-business combination information in instances where the application of the pooling of interests method is deemed impractical.

**47. PERNYATAAN STANDAR AKUNTANSI KEUANGAN (PSAK) YANG DIKELUARKAN DAN DIREVISI (lanjutan)**

Berikut adalah ikhtisar PSAK yang telah diterbitkan oleh Dewan Standar Akuntansi Keuangan (DSAK) - IAI yang relevan untuk BRI dan entitas anak, namun belum berlaku efektif untuk laporan keuangan konsolidasian pada tanggal 31 Desember 2025 (lanjutan):

**Efektif berlaku pada atau setelah tanggal 1 Januari 2027:**

- a. PSAK No. 118: Penyajian dan Pengungkapan dalam Laporan Keuangan

Standar akuntansi baru yang mengatur persyaratan untuk penyajian dan pengungkapan informasi dalam laporan keuangan bertujuan umum untuk membantu memastikan laporan keuangan menyediakan informasi relevan yang merepresentasikan secara tepat aset, liabilitas, ekuitas, penghasilan, dan beban. PSAK No. 118 akan menggantikan PSAK No. 201: Penyajian Laporan Keuangan.

- b. PSAK No. 119: Entitas Anak Tanpa Akuntabilitas Publik: Pengungkapan

Standar akuntansi baru yang mengatur persyaratan pengungkapan yang dapat diterapkan oleh entitas sebagai pengganti persyaratan pengungkapan dalam PSAK lain yang dapat diterapkan oleh entitas anak tanpa akuntabilitas publik di mana entitas induknya menyusun laporan keuangan konsolidasian yang tersedia bagi publik yang mematuhi SAK Indonesia, SAK Internasional, atau IFRS Accounting Standards

- c. Amandemen PSAK No. 119: Entitas Anak Tanpa Akuntabilitas Publik: Pengungkapan

Amandemen ini merujuk pada amandemen *IFRS 19 Subsidiaries without Public Accountability: Disclosures* yang terbit pada 24 November 2025. Perubahan utama dalam amandemen ini mencakup:

1. Penghapusan penerapan dalam laporan keuangan tersendiri oleh entitas induk perantara.
2. Penghapusan tujuan pengungkapan terkait pembiayaan pemasok, kekurangan ketertukaran, model Pilar Dua, klasifikasi dan pengukuran instrumen keuangan, serta liabilitas jangka panjang dengan kovenan.

**47. ISSUED AND REVISED STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS (SFAS) (continued)**

The following summarizes the SFAS which were issued by the Financial Accounting Standards Board (FASB) – IAI and are relevant to BRI and Subsidiaries, but not yet effective for the consolidated financial statements as of December 31, 2025 (lanjutan):

**Effective on or after January 1, 2027:**

- a. SFAS No. 118: Presentation and Disclosure in Financial Statements

A new accounting standard that establishes requirements for the presentation and disclosure of information in general-purpose financial statements to help ensure that financial statements provide relevant information that faithfully represents assets, liabilities, equity, income, and expenses. SFAS No. 118 will replace SFAS No. 201: Presentation of Financial Statements.

- b. SFAS No. 119: Subsidiaries Without Public Accountability: Disclosure

A new accounting standard that establishes disclosure requirements which may be applied by an entity as a substitute for the disclosure requirements set forth in other applicable SFAS, specifically for subsidiaries without public accountability, provided that the parent entity prepares consolidated financial statements that are publicly available and prepared in accordance with Indonesian Financial Accounting Standards (SAK Indonesia), International Financial Reporting Standards (International SAK), or IFRS Accounting Standards.

- c. SFAS No. 119: Subsidiaries Without Public Accountability: Disclosure

This amendment refers to the amendment to *IFRS 19 Subsidiaries without Public Accountability: Disclosures* issued on November 24, 2025. Key changes in this amendment include:

1. Removal of the application in separate financial statements by intermediate parent entities.
2. Removal of disclosure objectives regarding supplier finance arrangements, lack of exchangeability, Pillar Two model, classification and measurement of financial instruments, and non-current liabilities with covenants.

**47. PERNYATAAN STANDAR AKUNTANSI  
KEUANGAN (PSAK) YANG DIKELUARKAN DAN  
DIREVISI (lanjutan)**

Berikut adalah ikhtisar PSAK yang telah diterbitkan oleh Dewan Standar Akuntansi Keuangan (DSAK) - IAI yang relevan untuk BRI dan entitas anak, namun belum berlaku efektif untuk laporan keuangan konsolidasian pada tanggal 31 Desember 2025 (lanjutan):

Efektif berlaku pada atau setelah tanggal 1 Januari 2027 (lanjutan):

- c. Amandemen PSAK No. 119: Entitas Anak Tanpa Akuntabilitas Publik: Pengungkapan (lanjutan)
3. Pengurangan persyaratan pengungkapan terkait pengaturan pembiayaan pemasok.
  4. Penghapusan materi yang berisi panduan dan bukan persyaratan pengungkapan.
  5. Penggantian persyaratan pengungkapan ukuran kinerja tetapan manajemen dengan rujukan silang ke PSAK 118.

BRI dan entitas anaknya sedang mengevaluasi dan belum menetapkan dampak dari PSAK yang dikeluarkan dan direvisi tersebut terhadap laporan keuangan konsolidasian.

**48. MANAJEMEN MODAL**

Tujuan manajemen permodalan Bank adalah untuk mempertahankan posisi modal yang kuat untuk mendukung pertumbuhan bisnis dan mempertahankan investor, deposan, pelanggan dan kepercayaan pasar. Dalam pengelolaan permodalan, Bank mempertimbangkan faktor-faktor seperti: pengembalian modal yang optimal pada pemegang saham, menjaga keseimbangan antara keuntungan yang lebih tinggi dengan *gearing ratio* serta keamanan yang diberikan oleh posisi modal yang sehat.

Pada tanggal 31 Desember 2025 dan 2024, Bank telah memenuhi semua persyaratan modal yang diwajibkan.

**47. ISSUED AND REVISED STATEMENTS OF  
FINANCIAL ACCOUNTING STANDARDS (SFAS)  
(continued)**

The following summarizes the SFAS which were issued by the Financial Accounting Standards Board (FASB) – IAI and are relevant to BRI and Subsidiaries, but not yet effective for the consolidated financial statements as of December 31, 2025 (lanjutan):

Effective on or after January 1, 2027 (continued):

- c. SFAS No. 119: Subsidiaries Without Public Accountability: Disclosure (continued)
3. Reduction of disclosure requirements related to supplier finance arrangements.
  4. Removal of material that constitutes guidance rather than disclosure requirements.
  5. Replacement of disclosure requirements for management-defined performance measures with a cross-reference to SFAS 118.

BRI and its subsidiaries are evaluating and have not determined the impact of the revised SFAS on the consolidated financial statements.

**48. CAPITAL MANAGEMENT**

The Bank's capital management objective is to maintain a strong capital position to support business growth and to sustain investor, depositor, customer and market confidence. In managing its capital, the Bank considers factors such as: providing optimal capital rate of return to shareholders, maintaining a balance between high return gearing ratio and safety provided by a sound capital position.

As of December 31, 2025 and 2024, the Bank has complied with all capital requirements.

**49. INFORMASI TAMBAHAN**

Informasi tambahan berikut merupakan informasi yang tidak dipersyaratkan oleh Standar Akuntansi Keuangan di Indonesia.

a. Rasio Kewajiban Penyediaan Modal Minimum (CAR)

BRI secara aktif mengelola modalnya sesuai dengan peraturan yang berlaku. Tujuan utamanya adalah untuk memastikan bahwa setiap saat BRI dapat menjaga kecukupan modalnya untuk menutup risiko bawaan (*inherent risk*) pada kegiatan perbankan tanpa mengurangi optimalisasi nilai kepada pemegang saham.

CAR pada tanggal-tanggal 31 Desember 2025 dan 2024 dihitung berdasarkan Peraturan Otoritas Jasa Keuangan (POJK) No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum yang telah diaddendum sebanyak 2 (dua) kali dengan POJK No. 34/POJK.03/2016 tentang Perubahan atas POJK No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum dan POJK No. 27/POJK.03.2022 tentang Perubahan kedua atas POJK No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank.

Berdasarkan POJK No. 34/POJK.03/2016, PBI No. 17/22/PBI/2015 tentang Kewajiban Pembentukan *Countercyclical Buffer* dan POJK No. 46/POJK.03/2015 tentang Penetapan *Systemically Important Bank* dan *Capital Surcharge*, selain kewajiban penyediaan modal minimum sesuai profil risiko, BRI wajib membentuk tambahan modal penyangga (*buffer*) berupa *Capital Conservation Buffer*, *Countercyclical Buffer* dan *Capital Surcharge*, yang wajib dibentuk secara bertahap mulai tanggal 1 Januari 2016.

Pembentukan modal penyangga (*buffer*) berupa *Capital Conservation Buffer*, *Countercyclical Buffer* dan *Capital Surcharge* yang wajib dibentuk oleh BRI berdasarkan persentase tertentu dari ATMR adalah masing-masing 2,5%, 0% dan 2,5%.

Berdasarkan profil risiko BRI pada semester I dan semester II tahun 2024, yaitu *low to moderate*, maka CAR minimum pada tanggal-tanggal 31 Desember 2025 dan 2024 ditetapkan masing-masing sebesar 9% sampai dengan kurang dari 10%.

**49. ADDITIONAL INFORMATION**

The following additional information is not required by Indonesian Financial Accounting Standards.

a. Capital Adequacy Ratio (CAR)

BRI actively manages its capital in accordance with the applicable regulations. The primary objective is to ensure that BRI, at any time, can maintain adequate its capital adequacy to cover (*inherent risks*) to its banking activities without reducing the optimization of shareholder's value.

CAR as of December 31, 2025 and 2024 is calculated based on Financial Services Authority Regulation (POJK) No.11/POJK.03/2016 concerning Minimum Capital Requirements for Commercial Banks which has been amended 2 (two) times with POJK No. 34/POJK.03/2016 concerning Amendments to POJK No. 11/POJK.03/2016 concerning Minimum Capital Requirements for Commercial Banks and POJK No. 27/POJK.03.2022 concerning the second amendment to POJK No. 11/POJK.03/2016 concerning Bank Minimum Capital Requirements.

Based on POJK No. 34/POJK.03/2016, PBI No. 17/22/PBI/2015 regarding the Mandatory Formation of *Countercyclical Buffer* and POJK No. 46/POJK.03/2015 regarding the Determination of *Systemically Important Banks* and *Capital Surcharges*, in addition to the minimum capital requirement in accordance with the risk profile, BRI is required to form additional capital (*buffer*), in the form of *Capital Conservation Buffer*, *Countercyclical Buffer*, and *Capital Surcharge*, which must be formed gradually since January 1, 2016.

Formation of *buffer capital* in the form of *Capital Conservation Buffer*, *Countercyclical Buffer* and *Capital Surcharge* that must be formed by BRI based on a certain percentage of risk-weighted assets are 2.5%, 0% and 2.5%, respectively.

Based on the BRI's risk profile as of semester I and semester II year 2024, which are *low to moderate*, the minimum CAR as of December 31, 2025 and 2024 is set at 9% up to less than 10%.

**49. INFORMASI TAMBAHAN (lanjutan)**

b. Informasi Penting Lainnya Kredit yang Diberikan (lanjutan)

4) Rasio-rasio (lanjutan)

Termasuk dalam saldo cadangan kerugian penurunan nilai BRI (entitas induk) adalah cadangan kerugian untuk daerah yang masih dikategorikan sebagai daerah rawan bencana atau yang pernah mengalami bencana sebesar Rp321.136 dan Rp132.489 dengan nilai tercatat sebesar Rp2.135.314 dan Rp1.260.407 masing-masing pada tanggal 31 Desember 2025 dan 2024.

Jumlah minimum Penyisihan Penilaian Kualitas Aset kredit yang diberikan BRI (Entitas Induk), yang wajib dibentuk sesuai dengan Peraturan Otoritas Jasa Keuangan (POJK) No. 40/POJK.03/2019 tanggal 19 Desember 2019 adalah sebesar Rp48.682.468 dan Rp41.253.476 masing-masing pada tanggal 31 Desember 2025 dan 2024.

c. Rasio Kredit *Non-Performing* (NPL)

Pada tanggal-tanggal 31 Desember 2025 dan 2024, rasio NPL BRI konsolidasian (kredit yang diberikan, pinjaman syariah dan piutang sewa pembiayaan) adalah sebagai berikut:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>	
Rasio NPL - bruto	3,07%	2,78%	NPL ratio - gross
Rasio NPL - neto	0,88	0,70	NPL ratio - net

Rasio NPL - neto dihitung berdasarkan NPL setelah dikurangi cadangan kerugian penurunan nilai, sesuai dengan peraturan terkait dibagi dengan jumlah kredit yang diberikan, piutang sewa pembiayaan dan pinjaman syariah.

**49. ADDITIONAL INFORMATION (continued)**

b. *Other Significant Information Loans (continued)*

4) *Ratios (continued)*

*Included in the balance of allowance for impairment losses of BRI (parent entity) are reserves for losses for areas that are still categorized as disaster-prone areas or that have experienced disasters amounted Rp321,136 and Rp132,489 with the carrying value amounted to Rp2,135,314 and Rp1,260,407 as of December 31, 2025 and 2024, respectively.*

Di samping memberikan layanan Jasa Trust, BRI juga memberikan layanan jasa Corporate Services untuk non sindikasi seperti Agen Pembayar dan Agen Penampungan untuk sektor diluar migas, antara lain sektor infrastruktur, energi, perdagangan dan industri kimia.

**i. Dana Pensiun Lembaga Keuangan BRI**

Dana Pensiun Lembaga Keuangan Bank Rakyat Indonesia (DPLK BRI) didirikan oleh PT Bank Rakyat Indonesia (Persero) Tbk tanggal 26 Maret 2004 berdasarkan Keputusan Direksi PT Bank Rakyat Indonesia (Persero) Tbk No. B. 140- DIR/KUI/TRY/03/2004 tanggal 26 Maret 2004 dan telah mendapatkan pengesahan dari Menteri Keuangan Republik Indonesia No. KEP-97/KM.6/2004 tanggal 24 Mei 2004. DPLK BRI melayani kepesertaan DPLK Kerjasama maupun DPLK Individu.

Untuk meningkatkan layanannya, DPLK BRI telah memperoleh Sertifikasi International ISO9001:2015

DPLK BRI menyelenggarakan Program, sebagai berikut:

- Program Pensiun Iuran Pasti (PPIP);
- Program Pengelolaan Dana Kompensasi Pasca Kerja (PPDKP); dan
- Program Pengelolaan Dana Santunan Kesehatan (PPDSK).

**j. Agen Sindikasi**

Saat ini, bisnis sindikasi BRI telah memberikan pelayanan Jasa Agen Sindikasi untuk beberapa sektor industri dan telah dipercaya oleh onshore dan offshore bank baik sebagai Agen Fasilitas, Agen Penampungan, dan Agen Jaminan.

**49. ADDITIONAL INFORMATION (continued)**

**h. Trust Services (continued)**

The scope of BRI's Trust Services includes:

- Paying agent services;
- Lending agent services;
- Investment agent services.

As of the reporting date, BRI provides Trust Services for financial transactions related to oil and gas projects, both those carried out by Corporation Contract Contractors (K3S) under the supervision of SKK Migas and non-K3S projects.

In addition to providing Trust Services, BRI also offers Corporate Services non Syndication such as Paying Agent and Escrow Agent for non-oil and gas sectors, including infrastructure, energy, trade, and chemical industries.

**i. BRI Financial Institution Pension Fund**

The Bank Rakyat Indonesia Financial Institution Pension Fund (DPLK BRI) was established by PT Bank Rakyat Indonesia (Persero) Tbk on March 26, 2004 based on the Decree of the Board of Directors of PT Bank Rakyat Indonesia (Persero) Tbk No. B. 140- DIR/KUI/TRY/03/2004 dated March 26 2004 and has received approval from the Minister of Finance of the Republic of Indonesia No. KEP-97/KM.6/2004 dated May 24, 2004. DPLK BRI provides services for both Corporate and Individual Membership.

To enhance its services, DPLK BRI has been awarded International ISO 9001:2015 Certification

DPLK BRI administers the programs as follows:

- Defined Contribution Pension Plan (PPIP);
- Post-Employment Compensation Fund Management Program (PPDKP); and
- Health Compensation Fund Management Program (PPDSK).

**j. Syndication Agent**

Currently, BRI's Syndication Business provides syndicated agency services across several industrial sectors and has earned the trust of both onshore and offshore banks to act as Facility Agent, Escrow Agent, and Security Agent.

**49. INFORMASI TAMBAHAN (lanjutan)**

**I. Rasio Giro Wajib Minimum (GWM) (lanjutan)**

Pada tanggal-tanggal 31 Desember 2025 dan 2024, GWM dihitung sesuai dengan Peraturan Bank Indonesia (PBI) No. 24/4/PBI/2022 tanggal 25 Februari 2022 yang dijelaskan melalui Peraturan Anggota Dewan Gubernur (PADG) No. 12 Tahun 2023 tanggal 27 September 2023 sebagaimana telah diubah terakhir pada Peraturan Anggota Dewan Gubernur (PADG) No 31 tahun 2025 tanggal 23 Desember 2025.

Dalam mendukung pertumbuhan ekonomi yang berkelanjutan, Bank Indonesia menetapkan dan melaksanakan kebijakan makroprudensial melalui upaya mendorong intermediasi yang seimbang, berkualitas, dan berkelanjutan, memitigasi dan mengelola risiko sistemik, serta meningkatkan inklusi ekonomi, inklusi keuangan, dan keuangan berkelanjutan sesuai Peraturan Bank Indonesia (PBI) No. 11 Tahun 2023 tanggal 18 September 2023 tentang Kebijakan Insentif Likuiditas Makroprudensial, sebagaimana diatur lebih lanjut melalui PADG No. 11 Tahun 2023 tanggal 27 September 2023 tentang Peraturan Pelaksanaan Peraturan Pelaksanaan Kebijakan Insentif Likuiditas Makroprudensial (PADG KLM) sebagaimana telah diubah terakhir melalui Peraturan Anggota Dewan Gubernur (PADG) No 27 Tahun 2025 tanggal 1 Desember 2025.

Rasio Penyangga Likuiditas Makroprudensial (PLM) dihitung sesuai dengan PBI No. 24/16/PBI/2022 tanggal 31 Oktober 2022 tentang Rasio Intermediasi Makroprudensial dan Penyangga Likuiditas Makroprudensial bagi Bank Umum Konvensional, Bank Umum Syariah, dan Unit Usaha Syariah Peraturan Anggota Dewan Gubernur (PADG) No. 18 Tahun 2023 tanggal 29 November 2023 sebagaimana telah diubah terakhir melalui Peraturan Anggota Dewan Gubernur (PADG) No 23 Tahun 2025 tanggal 20 Oktober 2025.

**49. ADDITIONAL INFORMATION (continued)**

**I. The Minimum Statutory Reserve (GWM) (continued)**

As of December 31, 2025 and 2024, the GWM was calculated in accordance with Bank Indonesia Regulation (PBI) No. 24/4/PBI/2022 dated February 25, 2022 which is explained by the Regulation of Members of the Board of Governors (PADG) No. 12 Year 2023 dated September 27, 2023 as last amended through Member of the Board of Governors Regulation (PADG) No 31 of 2025 dated 23 December 2025.

In supporting sustainable economic growth, Bank Indonesia determines and implements macroprudential policies through efforts to encourage balanced, quality, and sustainable intermediation, mitigate and manage systemic risks, and increase economic inclusion, financial inclusion and sustainable finance in accordance with Bank Indonesia Regulation (PBI) No. 11 of Year 2023 dated September 18, 2023 concerning the Macroprudential Liquidity Incentive Policy, as further regulated through PADG No. 11 Year of 2023 dated September 27, 2023 concerning Implementing Regulations for Implementing the Macroprudential Liquidity Incentive Policy (PADG KLM) as last amended through Board of Governors Regulation (PADG) No 27 Year 2025 dated 1 December 2025.

The Macroprudential Liquidity Buffer Ratio (PLM) is calculated through PBI No. 24/16/PBI/2022 dated October 31, 2022 concerning the Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Islamic Commercial Banks, and Islamic Business Units Regulation of Members of the Board of Governors (PADG) No. 18 Year 2023 dated November 29, 2023 as last amended through Board of Governors' Regulation (PADG) No 23 of 2025 dated 20 October 2025.

**49. INFORMASI TAMBAHAN (lanjutan)**

**I. Rasio Giro Wajib Minimum (GWM) (lanjutan)**

Pemenuhan rasio-rasio tersebut di atas masing-masing ditentukan sebesar sebagai berikut:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>
Rupiah		
GWM Primer	4,80%	5,00%
(i) GWM secara harian	0,00	0,00
(ii) GWM secara rata-rata	4,80	5,00
Penyangga Likuiditas Makroprudensial (PLM)	4,00	5,00
Mata uang asing	4,00	4,00
(i) GWM secara harian	2,00	2,00
(ii) GWM secara rata-rata	2,00	2,00

Berdasarkan PBI No. 20/4/PBI/2018 tanggal 29 Maret 2018, penyebutan *Loan to Funding Ratio* (LFR) berubah menjadi Rasio Intermediasi Makroprudensial (RIM), dan kewajiban pemenuhan Giro RIM mulai berlaku pada tanggal 16 Juli 2018. Giro RIM adalah simpanan minimum yang wajib dipelihara oleh Bank dalam bentuk saldo Rekening Giro pada Bank Indonesia sebesar persentase tertentu dari DPK yang dihitung berdasarkan selisih antara RIM yang dimiliki oleh Bank dan RIM Target. Giro RIM dikenakan jika RIM Bank di bawah minimum RIM target Bank Indonesia (84%) atau di atas maksimum RIM target Bank Indonesia (94%) dengan Kewajiban Penyediaan Modal Minimum (KPMM) Bank lebih kecil dari KPMM Insentif Bank Indonesia yang sebesar 14%. Peraturan tersebut telah disempurnakan sebanyak 4 (empat) kali dengan perubahan terakhir PBI No.24/16/PBI/2022 tanggal 31 Oktober 2022. PBI tersebut dijelaskan melalui PADG No 23 Tahun 2025 tanggal 20 Oktober 2025.

Rasio GWM BRI (entitas induk) pada tanggal-tanggal 31 Desember 2025 dan 2024 adalah sebagai berikut:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>
Rupiah		
GWM Primer	5,03%	5,39%
(i) GWM secara harian	0,00	0,00
(ii) GWM secara rata-rata <sup>*)</sup>	5,03	5,39
Penyangga Likuiditas Makroprudensial (PLM)	12,13	12,55
Mata uang asing	4,16	4,69
(i) GWM secara harian	2,00	2,00
(ii) GWM secara rata-rata	2,16	2,69

<sup>\*)</sup> Setelah dikurangi insentif KLM

**49. ADDITIONAL INFORMATION (continued)**

**I. The Minimum Statutory Reserve (GWM) (continued)**

The calculation of GWM ratio is determined as follows:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>
Rupiah		
Primary GWM	4,80%	5,00%
(i) GWM daily	0,00	0,00
(ii) GWM average	4,80	5,00
Macroprudential Liquidity Buffer Ratio (PLM)	4,00	5,00
Foreign currency	4,00	4,00
(i) GWM daily	2,00	2,00
(ii) GWM average	2,00	2,00

Based on PBI No. 20/4/PBI/2018 dated March 29, 2018, Loan to Funding Ratio (LFR) changed to Macroprudential Intermediation Ratio (RIM), and RIM fulfillment obligations are applicable starting on July 16, 2018. RIM is the minimum deposit the Bank is obliged to maintain in the form of Current Account balance at Bank Indonesia at a certain percentage of third-party funds which calculation is based on the difference between the RIM held by the Bank and the Targeted RIM. RIM is charged if the Bank's RIM is below Bank Indonesia's minimum targeted RIM (84%) or above Bank Indonesia's maximum targeted RIM (94%) with Bank's Minimum Capital Adequacy Ratio (CAR) smaller than Bank Indonesia's Incentive CAR of 14%. The regulation has been amended 4 (four) times with the latest amendment PBI No. 24/16/PBI/2022 dated October 31, 2022. The PBI is explained through Board of Governors' Regulation (PADG) No 23 of 2025 dated 20 October 2025.

GWM ratios of BRI (parent entity) as of December 31, 2025 and 2024 are as follows:

	<b>31 Desember 2025/ December 31, 2025</b>	<b>31 Desember 2024/ December 31, 2024</b>
Rupiah		
Primary GWM	5,03%	5,39%
(i) GWM daily	0,00	0,00
(ii) GWM average <sup>*)</sup>	5,03	5,39
Macroprudential Liquidity Buffer Ratio (PLM)	12,13	12,55
Foreign currency	4,16	4,69
(i) GWM daily	2,00	2,00
(ii) GWM average	2,16	2,69

<sup>\*)</sup> After deducting the KLM incentive

**49. INFORMASI TAMBAHAN (lanjutan)**

**I. Rasio Giro Wajib Minimum (GWM) (lanjutan)**

Pada tanggal-tanggal 31 Desember 2025 dan 2024, BRI telah memenuhi ketentuan Bank Indonesia tentang rasio-rasio tersebut di atas.

**m. Risiko Nilai Tukar**

Risiko nilai tukar merupakan risiko yang timbul karena adanya fluktuasi nilai tukar terhadap Rupiah dari posisi valuta asing yang dimiliki BRI. Termasuk dalam posisi valuta asing tersebut yaitu posisi *trading book* yang dilakukan dengan tujuan untuk mendapatkan keuntungan transaksi valuta asing dalam jangka pendek maupun posisi *banking book* dalam rangka pengendalian PDN (Posisi Devisa Neto).

Menurut ketentuan Bank Indonesia berdasarkan PBI No. 17/5/PBI/2015 tanggal 29 Mei 2015 mengenai Perubahan Keempat atas PBI No. 5/13/PBI/2003 tentang Posisi Devisa Neto Bank Umum tanggal 1 Juli 2010, PDN ditetapkan maksimum sebesar 20% modal.

PDN adalah penjumlahan dari nilai absolut untuk jumlah dari selisih bersih aset dan liabilitas dalam laporan posisi keuangan untuk setiap mata uang asing dengan selisih bersih tagihan dan liabilitas komitmen dan kontinjensi dalam rekening administratif untuk setiap mata uang asing yang semuanya dinyatakan dalam Rupiah.

Berikut adalah PDN (BRI saja) masing-masing pada tanggal 31 Desember 2025 dan 2024, per mata uang, sebagai berikut:

Mata Uang	31 Desember 2025/December 31, 2025			Currencies
	Aset/ Assets	Liabilitas/ Liabilities	PDN/ NOP	
<b>Laporan Posisi Keuangan dan Rekening Administratif</b>				<b>Statement of Financial Position and Administrative Accounts</b>
Dolar Amerika Serikat	427.802.148	430.152.856	2.350.708	United States Dollar
Euro Eropa	6.275.818	8.532.398	2.256.580	European Euro
Yen Jepang	24.123.384	23.946.520	176.864	Japanese Yen
Dolar Kanada	105.689	-	105.689	Canadian Dollar
Dolar Australia	443.319	365.816	77.503	Australian Dollar
Dolar Singapura	13.310.932	13.106.112	204.820	Singaporean Dollar
Renminbi	2.300.386	1.432.088	868.298	Renminbi
Pound Sterling Inggris	1.089.141	991.609	97.532	Great Britain Pound Sterling
Lain-lain	7.517.565	6.878.489	639.076	Others
			6.777.070	
Modal			270.223.827	Capital
<b>Rasio PDN</b>			<b>2,51%</b>	<b>NOP Ratio</b>

**49. ADDITIONAL INFORMATION (continued)**

**I. The Minimum Statutory Reserve (GWM) (continued)**

As of December 31, 2025 and 2024, BRI has complied with Bank Indonesia's regulations regarding ratios mentioned above.

**m. Exchange Rate Risk**

Exchange rate risk is a risk arising from foreign exchange rate fluctuations against Rupiah of foreign exchange positions held by BRI. Included in the foreign exchange positions are trading book positions held to generate profit both from foreign exchange transactions in the short term and banking book positions held to control the Net Open Position (NOP).

Based on Bank Indonesia's Regulation PBI No. 17/5/PBI/2015 dated May 29, 2015, regarding the Fourth Amendment of PBI No. 5/13/PBI/2003, regarding Net Open Position for Commercial Banks dated July 1, 2010, NOP is set to a maximum of 20% of capital.

NOP is the sum of the absolute amount of the net difference between assets and liabilities for each foreign currency on statement of financial position add with the net difference between receivables and payables of commitments and contingencies for each foreign currency recorded in administrative accounts, which presented in Rupiah.

The tables below represent NOP (BRI only) as December 31, 2025 and 2024, respectively, by currency, as follows:

**49. INFORMASI TAMBAHAN (lanjutan)**

n. Manajemen Risiko Operasional (lanjutan)

Penerapan Manajemen Risiko Operasional dimaksudkan untuk mengelola eksposur risiko operasional yang disebabkan oleh faktor internal maupun eksternal yang dapat mengganggu aktivitas bisnis dan operasional, seperti faktor ketidakcukupan sumber daya manusia, proses internal, kegagalan sistem teknologi informasi, bencana alam dan kejahatan pihak eksternal terhadap bank yang berpotensi menimbulkan kerugian finansial maupun non finansial bagi bank. Pengelolaan terhadap eksposur risiko operasional di BRI mencakup pengelolaan terhadap eksposur risiko hukum, reputasi, kepatuhan dan stratejik yang terdapat pada setiap proses bisnis dan aktivitas operasional.

Setiap unit kerja operasional BRI bertanggung jawab atas penerapan proses manajemen risiko melalui sistem pengendalian internal dalam aktivitas operasional dan bisnis di masing-masing unit kerja. Hal tersebut dilakukan mulai dari tahap identifikasi, pengukuran, pemantauan hingga pengendalian risiko. Untuk mengkoordinasikan dan memastikan bahwa penerapan proses manajemen risiko dilaksanakan sesuai ketentuan, maka Direksi BRI menetapkan fungsi manajemen risiko pada setiap unit kerja mulai dari level Kantor Pusat (*Group/Desk/Team*), *Regional Office*, Kantor Cabang Khusus, Kantor Cabang, Kantor Cabang Pembantu, BRI Unit, Kantor Kas, Sentra Layanan BRI Prioritas dan Unit Kerja Luar Negeri (UKLN).

Satuan Kerja Manajemen Risiko Operasional (SKMRO) bertugas dan bertanggung jawab dalam penyusunan pedoman penerapan manajemen risiko operasional, pengembangan dan implementasi kebijakan/prosedur dan metodologi, pengawasan, pengkajian, serta pemantauan proses manajemen risiko operasional. Di samping itu, SKMRO juga berperan dalam penyusunan dan implementasi tata kelola manajemen risiko operasional, penyusunan dan pemantauan profil risiko BRI, penilaian kecukupan pengelolaan risiko dari suatu produk bank baru, serta mendukung unit kerja operasional/*risk owner* dalam mengembangkan budaya sadar risiko, penerapan strategi *anti fraud*, dan kepatuhan terhadap prinsip-prinsip manajemen risiko. Pembahasan pengelolaan dan perbaikan kontrol atas risiko operasional dilaksanakan dalam kegiatan Forum Manajemen Risiko (FMR) maupun *Risk Management Committee* (RMC) yang dilaksanakan secara rutin bersama dengan SKMR dan *Group/Desk* lainnya.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

The implementation of operational risk management is intended to manage operational risk exposure due to internal and external factors that impact the business and operational activities, such as inadequate human resources, internal processes, information technology system failures, natural disasters, and external party's crimes against the Bank that potentially cause financial and non-financial losses. Operational risk exposure management in BRI includes management of legal, reputational, compliance and strategic risk exposures that occur in every business process and operational activity.

Each of BRI's operational business units are responsible for the implementation of risk management process in the business and operational activities of each business unit through the internal control system. This is done starting from the phase of identification, measurement, monitoring to risk control. To coordinate and ensure that the implementation of risk management processes is carried out in accordance with the rules, BRI's Board of Directors established a risk management function in every business unit starting from the level of Head Office (*Group/Desk/Team*), *Regional Offices*, *Special Branch Office*, *Branch Offices*, *Sub-Branch Offices*, *BRI Priority Service Centers* and *Overseas Business Units*.

The risk management unit (SKMRO) is responsible for preparing guidelines for implementing operational risk management, developing and implementing policies/procedures and methodologies, supervising, reviewing, and monitoring the operational risk management process. Furthermore, SKMRO also plays a role in the preparation and monitoring of BRI's risk profile, assessment of the adequacy of risk management of a new product and/or activity, and supports operational work units/*risk owners* in developing a culture of risk awareness, implementation of anti-fraud strategies, and compliance with related risk management principles. In the context of Discussions on management and improvement of control over operational risks are carried out in the Risk Management Committee (RMC) on a monthly basis together with the SKMR and related *Group/Desks*.

**49. INFORMASI TAMBAHAN (lanjutan)**

n. Manajemen Risiko Operasional (lanjutan)

Audit Internal selaku *third line* dalam *3 lines of model* yang meliputi Audit Internal Kantor Pusat dan Audit Intern Regional BRI seluruh Indonesia bertugas melakukan pemantauan dan validasi atas kecukupan dan efektivitas pengendalian internal di BRI secara *bankwide*.

Penerapan manajemen risiko operasional BRI difasilitasi melalui perangkat manajemen risiko operasional berupa BRI *Operational Risk Assessor (OPRA)*, *Integrated Risk Management System (IRMS)* maupun BRI Sistem Informasi Manajemen (BRISIM), yang mencakup modul *Risk and Control Library (RCL)*, *Risk and Control Self Assessment (RCSA/CSA)*, *Key Risk Indicator (KRI)*, *Loss Event Database (LED)*, *Risk Maturity Self Assessment (RMSA)*, dan fungsi *Briefing, Verification, dan Coaching (BVC)*. Kebijakan Pedoman Pelaksanaan Penerapan Manajemen Risiko Operasional telah dikinikani dalam Surat Edaran No. SE.58-DIR/ORD/11/2022 tanggal 22 November 2022.

Upaya pemahaman manajemen risiko difokuskan pada peningkatan budaya risiko. Budaya risiko merupakan nilai-nilai dan perilaku individu yang akan terefleksi dalam keputusan-keputusan yang diambil dan cara melakukan pekerjaan dengan prinsip kehati-hatian dan pertimbangan manajemen risiko. Hal ini dilakukan melalui sosialisasi/pelatihan manajemen risiko yang terus dilakukan kepada seluruh pekerja BRI, serta peningkatan kualitas pengendalian risiko pada setiap aktivitas operasional, baik dalam melakukan percepatan deteksi kejadian risiko, maupun *monitoring* penyelesaian rencana tindak lanjut perbaikan kontrol. Budaya risiko telah diatur dalam Surat Edaran Direksi No. SE.04-DIR/CTR/01/2023 Buku 2 tentang Budaya Risiko tanggal 31 Januari 2023.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

*Internal audit as the third line of defense including the Head of Internal Audit Office and BRI's Regional Internal Audit Office throughout Indonesia is responsible for monitoring and validating the internal control adequacy and effectiveness of internal control at BRI on a Bankwide basis.*

*The implementation of BRI's operational risk management is facilitated through operational risk management tools in the form of BRI Operational Risk Assessor (OPRA), Integrated Risk Management System (IRMS) and BRI Management Information System (BRISIM), which include the Risk and Control Library (RCL), Risk and Control Self-Assessment (RCSA/CSA), Key Risk Indicator (KRI), Loss Event Database (LED), Risk Maturity Self-Assessment (RMSA), and Briefing, Verification and Coaching (BVC) functions. The Operational Risk Management Implementation Guidelines Policy has been updated in Circular Letter No. SE.58-DIR/ORD/11/2022 dated November 22, 2022.*

*Risk management understanding efforts are focused on improving risk culture. Risk culture is the values and behaviors of individuals that will be reflected in the decisions taken and how to do work with the principle of prudence and risk management considerations. This is done through risk management socialization/training that continues to be carried out to all BRI workers, as well as improving the quality of risk control in every operational activity, both in accelerating the detection of risk events, as well as monitoring the completion of follow-up plans for control improvement. Risk culture has been regulated in the Directors' Circular Letter No. SE.04-DIR/CTR/01/2023 Book 2 concerning Risk Culture dated January 31, 2023.*

**49. INFORMASI TAMBAHAN (lanjutan)**

n. Manajemen Risiko Operasional (lanjutan)

**1. Risk and Control Self Assessment (RCSA)**

RCSA merupakan perangkat manajemen risiko yang bersifat kualitatif dan prediktif yang digunakan untuk mengidentifikasi dan mengukur risiko berdasarkan dimensi dampak (*impact*) dan kemungkinan kejadian (*likelihood*), RCSA di BRI telah diterapkan di *Group/Desk/Team* Kantor Pusat BRI, *Regional Office*, Kantor Cabang Khusus, UKLN, Audit Internal Wilayah, *Regional Campus*, Kantor Cabang yang juga mewakili BRI Unit, Kantor Cabang Pembantu, dan Sentra Layanan BRI Prioritas.

RCSA ditujukan untuk membantu unit kerja dalam mengidentifikasi dan mengukur secara independen risiko operasional pada setiap aktivitas operasional dan bisnis, termasuk melakukan pemantauan dan penentuan langkah-langkah perbaikan atau rencana tindak lanjut ke depan.

Pengkinian *risk issue* pada RCSA dilakukan dengan mempertimbangkan perkembangan bisnis BRI yang meliputi implementasi produk dan atau aktivitas baru, segmen pasar baru dan persaingan bisnis, perubahan ketentuan internal/eksternal, dan perubahan lainnya yang mempengaruhi eksposur risiko BRI. Penilaian dimaksud dilakukan antara lain dengan mempertimbangkan data *Loss Event Database (LED)*, *Key Risk Indicator (KRI)* maupun Laporan Hasil Audit (LHA). RCSA dilaksanakan secara periodik setiap semester, dan frekuensinya akan ditingkatkan apabila terjadi perubahan eksposur risiko yang signifikan.

**2. Loss Event Database (LED)**

*Loss Event Database (LED)* BRI merupakan proses pencatatan data kejadian kerugian yang dilakukan untuk setiap jenis kerugian non finansial maupun finansial yang meliputi *actual loss* dan *potential loss* termasuk langkah-langkah perbaikan dan penanganan insiden yang dilakukan.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

**1. Risk and Control Self Assessment (RCSA)**

RCSA is a qualitative and predictive risk management tool which is used to identify and measure the impact and likelihood of risks. RCSA has been implemented in BRI's Head Office (*Group/Desk/Team*), *Regional Offices*, *Special Branch Office*, *Overseas Branch/Representative Office*, *Regional Internal Audit*, *Regional Campus*, *Branch Offices* which also represents BRI Units, *Sub-Branch Offices* and *Priority Service Centres*.

RCSA is intended to assist the operational business unit in identifying and measuring operational risk in every business and operational activities independently, including monitoring and determining corrective actions or the future action plans.

The risk issue in RCSA is updated by considering BRI's business development which include the new product and or activity implementation, new market segment and business competition, change in internal/external regulation and other changes that affect BRI's risk exposure. These assessment is carried out by considering *Incident Management (IM)/Loss Event Database (LED)* data, *Key Risk Indicator (KRI)*, and *Audit Result report (LHA)*. RCSA is performed semi-annually and the frequency will be increased if there is a significant change in risk exposure.

**2. Loss Event Database (LED)**

BRI's *Loss Event Database (LED)* which includes data documentation process of loss events for all types of loss, financial and non-financial loss, which includes actual loss and potential loss, including corrective actions and incident handling conducted.

**49. INFORMASI TAMBAHAN (lanjutan)**

n. Manajemen Risiko Operasional (lanjutan)

**2. Loss Event Database (LED) (lanjutan)**

Berdasarkan data kejadian kerugian pada modul LED, analisa kejadian kerugian dapat dilakukan berdasarkan penyebab, aktivitas fungsional, kategori kejadian (*event type*) dan lini bisnis BRI. Sistem informasi tersebut dapat digunakan untuk menentukan langkah-langkah preventif pengendalian risiko berbasiskan pendokumentasian proses penanganan atau penyelesaian insiden baik dari sisi non finansial, kerugian finansial dan *recovery* kerugian maupun proses litigasi.

Dalam rangka perhitungan beban modal dan ATMR Operasional, BRI telah menerapkan Pengukuran Modal Minimum Risiko Operasional (MMRO) Pendekatan Standar yang berpedoman pada Basel III *Framework*. Ketentuan ATMR Risiko Operasional dengan pendekatan standar diatur melalui Surat Edaran Direksi No. SE.10-DIR/MPE/08/2025 Tanggal 4 Agustus 2025, Buku 2 Perhitungan ATMR Operasional.

**3. Key Risk Indicator (KRI)**

KRI adalah perangkat Manajemen Risiko yang berupa indikator kuantitatif yang dapat memberikan informasi secara dini terhadap peningkatan atau penurunan risiko dan atau penurunan efektivitas kontrol terhadap limit *threshold* yang telah ditentukan. KRI dapat bersifat *leading* maupun *lagging*. Pemantauan risiko melalui KRI bertujuan untuk menentukan rencana tindak lanjut terkait pengendalian risiko sehingga dapat mencegah atau meminimalisir dampak kerugian.

BRI telah melakukan identifikasi terhadap indikator-indikator risiko utama untuk semua jenis risiko dan menetapkan batasan atau limit risiko yang mencerminkan kondisi dan risiko yang dapat diterima (*risk appetite*) BRI. Identifikasi indikator risiko utama dan penetapan batasan (*threshold*) KRI dilakukan dengan menggunakan *best judgement* dengan mempertimbangkan eksposur risiko dan *risk appetite* BRI. Penentuan *threshold* melibatkan Audit Internal, *Risk Owner* dan Unit Kerja terkait lainnya. KRI BRI antara lain tercermin dalam Laporan Profil Risiko *Bankwide* dan Profil Risiko *Regional Office* yang di-monitor secara rutin dan dilaporkan kepada pihak manajemen setiap bulan.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

**2. Loss Event Database (LED) (continued)**

Based on loss event data in LED module, loss event analysis can be performed based on causes, functional activities, event types, and business lines of BRI. The information system can be used to determine the preventive actions in risk controls, based on the documentation process of incident handling or settlement for the non-financial loss, financial loss, loss recovery, and litigation process.

In order to calculate capital expenses and Operational RWA, BRI has implemented a Standard Approach Minimum Capital Measurement for Operational Risk (MMRO) which is guided by the Basel III Framework. Provisions for Operational Risk RWA with a standard approach are regulated through Directors' Circular Letter No. SE.10-DIR/MPE/08/2025 August 4, 2025, Book 2 concerning Operational RWA Calculations.

**3. Key Risk Indicator (KRI)**

KRI is a risk management tool in the form of quantitative indicators that can provide early information on the increase or decrease in risk and/or decrease in the effectiveness of controls against a predetermined threshold. KRI can be leading or lagging. Risk monitoring through KRI aims to determine follow-up plans related to risk control so as to prevent or minimize the impact of losses.

BRI has identified key risk indicators for all risk types and determined the risks threshold or limit which portrays the acceptable condition and risk appetite of BRI. Identification of main risk indicator and KRI threshold determination is established using the best judgement, considering BRI risk exposures and risk appetite. Threshold determination involves internal auditor, risk owner and other related business units. BRI's KRI are reflected on its Bankwide Risk Profile and Regional Risk Profile Report which are monitored and reported monthly to the management.

**49. INFORMASI TAMBAHAN (lanjutan)**

n. Manajemen Risiko Operasional (lanjutan)

**4. Forum Manajemen Risiko (Forum MR)**

Forum Manajemen Risiko (Forum MR) adalah wadah atau forum pertemuan antara pemimpin unit kerja operasional dengan pejabat setingkat dibawahnya, pekerja atau jajarannya untuk membahas permasalahan-permasalahan (risiko) yang melekat pada aktivitas bisnis atau operasional yang menjadi kendala dalam rangka mencapai target bisnis atau kinerja yang ditetapkan. Pelaksanaan Forum Manajemen Risiko di masing-masing unit kerja BRI diharapkan menjadi salah satu pendukung dan pendorong untuk menumbuhkembangkan budaya sadar risiko di BRI. Implementasi Forum MR di level Regional dilaksanakan dalam bentuk *Forum Governance, Risk, and Compliance (GRC)* yang dihadiri oleh anggota tetap yaitu *Regional CEO, Regional Risk Management Head, dan Regional Chief Audit*.

**5. Risk Maturity Self Assessment (RMSA)**

*Risk Maturity Self Assessment (RMSA)* merupakan proses *self assessment* terhadap tingkat kemampuan penerapan manajemen risiko di setiap unit kerja BRI yang dilakukan setiap akhir tahun oleh masing-masing pimpinan unit kerja BRI terhadap parameter-parameter tertentu. Dengan melakukan penilaian maturitas diharapkan masing-masing unit kerja dapat mengevaluasi penerapan manajemen risiko yang telah dilakukan sehingga lebih baik ke depan.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

**4. Risk Management Forum (RM Forum)**

*Risk Management Forum (RM Forum)* is a risk management tool to hold a meeting or forum among the head of BRI's operational business units with the lower level employees and staff to discuss inherent risks in the daily business or operational activities that might be the constraint in achieving the business target or standard business performance. Risk management forum, which are held in each business unit, are expected to support the growth of BRI's risk awareness culture. RM Forum implementation in regional level are held in a form of *Governance, Risk and Compliance (GRC) Forum*, which attended by permanent member, i.e. *Regional CEO, Regional Risk Management Head, and Regional Chief Audit*.

**5. Risk Maturity Self Assessment (RMSA)**

*Risk Maturity Self Assessment (RMSA)* is a self-assessment process regarding the maturity level of risk management implementation in each business unit of BRI, conducted annually by the leaders of each unit against specific parameters. By conducting this maturity assessment, it is expected that each business unit can evaluate the risk management practices that have been implemented, leading to improvements in the future.

n. Manajemen Risiko Operasional (lanjutan)

**6. Business Continuity Management (BCM)**

Potensi gangguan/bencana baik yang disebabkan antara lain oleh alam, manusia dan teknologi merupakan ancaman bagi kelangsungan usaha BRI, dimana BRI memiliki unit kerja operasional yang tersebar di seluruh Indonesia. Oleh karena itu, Direksi BRI memandang perlu untuk mengembangkan dan menerapkan suatu Kebijakan *Business Continuity Management* (BCM) guna melindungi keamanan dan keselamatan jiwa pekerja, melindungi keselamatan jiwa nasabah dan *stakeholders* lainnya yang berada di lingkungan unit kerja operasional BRI, mempertahankan kelangsungan aktivitas-aktivitas bisnis/operasional terpenting, dan menjaga aset BRI dan memiliki respon yang memadai dalam situasi gangguan/bencana. Kebijakan BCM diatur melalui Surat Edaran SE.12-DIR/MPE/09/2025 tentang Manajemen Kelangsungan Usaha, Buku 1 tentang *Business Continuity Management* (BCM) dan Standar Operasional Prosedur No. SO.09-ORD/03/2025 tentang Pengelolaan Kelangsungan Usaha.

Implementasi BCM BRI mencakup seluruh unit kerja BRI yang antara lain dilakukan melalui pembentukan Tim Manajemen Krisis, penyusunan *Call Tree* dan penetapan *alternate sites*, serta berbagai pengujian rencana kelangsungan usaha. Unit kerja BRI juga telah melakukan Penilaian Risiko Ancaman dan Bencana (PRAB) yang bertujuan untuk mengidentifikasi sumber daya yang dibutuhkan dalam rangka persiapan menghadapi ancaman/bencana di masing-masing unit kerja. Sebagai salah satu implementasi BCM BRI telah memiliki pedoman *Emergency Response Plan* (ER Plan) dan kebijakan *Business Continuity Plan* (BC Plan) untuk Unit Kerja Kritis. Untuk memastikan bahwa kebijakan tersebut dapat digunakan saat terjadi gangguan/bencana maka pelaksanaan uji coba ER Plan dan BC Plan dilaksanakan setiap tahun dan diprioritaskan pada unit kerja yang rawan bencana.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

**6. Business Continuity Management (BCM)**

The potential disruptions or disasters caused by natural events, human actions, and technology pose a threat to the continuity of BRI's operations, as BRI has operational units spread across Indonesia. Therefore, the Board of Directors of BRI deems it necessary to develop and implement a *Business Continuity Management* (BCM) Policy to protect the safety and security of employees, safeguard the lives of customers and other *stakeholders* within the operational units of BRI, maintain the continuity of essential business and operational activities, and protect BRI's assets while ensuring an adequate response in the event of disruptions or disasters. The BCM policy is governed by Circular Letter SE.12-DIR/MPE/09/2025 regarding *Business Continuity Management*, Book 1 on *Business Continuity Management* (BCM), and Standard Operating Procedure No. SO.09-ORD/03/2025 on *Business Continuity Management*.

BRI BCM implementation covers all BRI work units, among others through the formation of a Crisis Management Team, the preparation of *Call Tree* and the establishment of *alternate sites*, and various tests of business continuity plans. BRI work units have also carried out a Threat and Disaster Risk Assessment which aims to identify the resources needed in preparation for facing threats/disasters in each work unit. As one of the implementation of BCM BRI has *Emergency Response Plan* (ER Plan) and *Business Continuity Plan* (BC Plan) policies for Critical Work Units. To ensure that the policy can be used during disruptions/disasters, the ER Plan and BC Plan trials are carried out annually and prioritized in disaster-prone work units.

**6. Business Continuity Management (BCM)  
(lanjutan)**

Dalam periode satu tahun ke belakang telah terjadi berbagai kejadian-kejadian bencana yang telah mengaktifkan prosedur kelangsungan usaha Unit Kerja BRI, dimana hal tersebut menjadi bukti kesiapan organisasi BRI untuk menghadapi kondisi-kondisi tersebut. Ketentuan mengenai tanggap darurat bencana di tempat kerja telah dirumuskan melalui Surat Edaran SE.12-DIR/MPE/09/2025 tentang Manajemen Kelangsungan Usaha, Buku 2 tentang Sistem Manajemen Keselamatan dan Kesehatan Kerja (SMK3) dan SOP No. SO.09-ORD/03/2025 tentang Pengelolaan Kelangsungan Usaha.

**7. Penilaian Kecukupan Pengelolaan  
Risiko Produk Bank Baru (PBB)**

Dalam rangka mengefektifkan pengelolaan risiko produk bank, maka setiap rencana penerbitan produk bank baru (PBB) di BRI, dilakukan proses validasi peningkatan materialitas risiko dan proses penilaian manajemen risiko oleh *product owner* terhadap setiap jenis risiko yang mungkin timbul dari penerbitan PBB, termasuk penetapan kontrol dan pengendalian yang ditujukan untuk memitigasi risiko yang dimaksud.

Selanjutnya, SKMR yang dikoordinasikan oleh SKMRO melakukan penilaian kecukupan pengelolaan risiko PBB dan menyampaikan hasil penilaian yang dimaksud kepada *product owner*. Kebijakan PBB diatur dalam Surat Edaran No. SE.30-DIR/PPM/11/2024, Buku 2 tentang Pengelolaan Produk yang mencakup Pengelolaan Risiko Penyelenggaraan Produk.

**49. ADDITIONAL INFORMATION (continued)**

n. Operational Risk Management (continued)

**6. Business Continuity Management (BCM)  
(continued)**

*In the past year, various disaster events have occurred which have activated BRI Work Unit business continuity procedures, which is proof of the BRI organization's readiness to face these conditions. Provisions regarding disaster emergency response in the workplace have been formulated through Circular Letter No. SE.12-DIR/MPE/09/2025 Book 2 concerning Occupational Safety and Health Management Systems (SMK3) and SOP No. SO.09-ORD/03/2025 on Business Continuity Management.*

**7. Assessment of Risk Management  
Adequacy on New Product and/or  
Activity Launching**

*In order to make bank product risk management more effective, every plan to issue a new bank product (PBB) at BRI, a validation process is carried out to increase risk materiality and a risk management assessment process by the product owner for each type of risk that may arise from the issuance of PBB, including determining controls and controls aimed at mitigating the risks in question.*

*Furthermore, the SKMR coordinated by SKMRO conducts an assessment of the adequacy of the management of PBB risks and communicates the results of the assessment to the product owner. The PBB policy is regulated in circular Letter No. SE.30-DIR/PPM/11/2024, Book 2 on product management, which includes the management of product implementation risks.*

**53. PERISTIWA SETELAH PERIODE PELAPORAN**

Pengalihan sebagian saham Seri B PT Danantara Asset Management (Persero) kepada Negara Republik Indonesia melalui Badan Pengaturan Badan Usaha Milik Negara (BP BUMN)

Berdasarkan Surat Keterangan Komposisi Pemegang Saham No. DE/I/26-275 tanggal 7 Januari 2026 dari Datindo Entrycom selaku Biro Administrasi Efek BRI, pada tanggal 5 Januari 2026 telah dilakukan pengalihan sebagian kepemilikan saham Seri B BRI milik PT Danantara Asset Management (Persero) ("DAM") kepada Negara Republik Indonesia ("RI") melalui Badan Pengaturan Badan Usaha Milik Negara Republik Indonesia. Transaksi pengalihan tersebut sebesar 806.109.768 Saham Seri B BRI atau 0,53% (nol koma lima puluh tiga persen) dari seluruh saham yang telah dikeluarkan dan disetor penuh Perseroan berdasarkan Perjanjian Pengalihan Saham Milik Negara RI Berupa Saham Seri B BUMN kepada Badan Pengaturan Badan Usaha Milik Negara Nomor PERJ-1/BPU/01/2026 dan Nomor LGL1.001/PERJ/DI-DAM.DO/2026 tanggal 5 Januari 2026.

Negara RI merupakan Pemegang Saham Pengendali Perseroan (Ultimate Beneficial Owner) dengan kepemilikan 1 lembar saham Seri A Dwiwarna dengan hak istimewa dan 806.109.768 saham Seri B melalui BP BUMN, serta kepemilikan 79.804.867.107 saham Seri B melalui PT DAM.

Pelaksanaan pengalihan saham tersebut merupakan pemenuhan UU No. 16 Tahun 2025 tentang Perubahan Keempat atas UU No. 19 Tahun 2003 tentang Badan Usaha Milik Negara tanggal 6 Oktober 2025. Pengalihan tersebut tidak mempengaruhi kegiatan operasional, hukum kondisi keuangan, dan kelangsungan usaha BRI.

**54. PENYELESAIAN LAPORAN KEUANGAN KONSOLIDASIAN**

Manajemen BRI bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian ini sesuai dengan Standar Akuntansi Keuangan di Indonesia, yang diselesaikan dan diotorisasi untuk diterbitkan oleh Direksi BRI pada tanggal 26 Februari 2026.

**53. SUBSEQUENT EVENT**

Partially Transfer of Series B shares of PT Danantara Asset Management (Persero) to the Republic of Indonesia through the State-Owned Enterprises Regulatory Agency (BP BUMN)

Based on the Shareholder Composition Statement Letter No. DE/I/26-275 dated January 7, 2026 from Datindo Entrycom as BRI's Securities Administration Bureau, on January 5, 2026, partially transfer of series B shares owned by PT Danantara Asset Management (Persero) ("DAM") to the Republic of Indonesia through the State-Owned Enterprises Regulatory Agency of the Republic of Indonesia. The transfer transaction involved 806,109,768 Series B shares of BRI, or 0.53% (zero point fifty-three percent) of BRI's total issued and fully paid-up shares, pursuant to the Agreement on the Transfer of State-Owned Shares in the Form of Series B Shares in State-Owned Enterprises to the State-Owned Enterprise Regulatory Agency No. PERJ-1/BPU/01/2026 and No. LGL1.001/PERJ/DI-DAM.DO/2026 dated January 5, 2026.

The Republic of Indonesia is the Company's Controlling Shareholder (Ultimate Beneficial Owner), owning 1 Series A Dwiwarna share with special rights, 806,109,768 Series B shares through BP BUMN, and 79,804,867,107 Series B shares through PT DAM

The share transfer is in compliance with Law No. 16 of 2025 concerning the Fourth Amendment to Law No. 19 of 2003 concerning State-Owned Enterprises dated October 6, 2025. The transfer does not affect the operational activities, legal financial conditions, and business continuity of the BRI.

**54. COMPLETION OF THE CONSOLIDATED FINANCIAL STATEMENTS**

The management of BRI is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Indonesian Financial Accounting Standards, which were completed and authorized for issuance by the Board of Directors of BRI on February 26, 2026.
